\$25.00

Three-Piece Suit
\$28.00

Nearly 200 All Wool Suitings to Select From! Our Advice is, Buy Now!

Men who know predict that the present high prices of woolens may be doubled in the very near future. Buy now, because next season it is highly probable you will have to pay around \$50.00 for a suit made from the identical quality of material offered in this sale. The wise man, the man who must economize on all expenditures; cannot help but heed our phenomenal offer of these splendid All Wool Fabrics Made to Order for \$25.00 and \$28.00.

And REMEMBER! Every garment is guaranteed, and no suit will be delivered unless it meets with your entire satisfaction. The material used in these ALL WOOL suits is the same quality as any reputable merchant MUST now sell at \$35.00. Choose the fabric you want. If it's Serge—it's here; if it's Worsted, Tweed, Homespun, Cheviot, or any other popular fabric—it's here—made to your order, for \$25.00 and \$28.00. ABSOLUTE SATISFACTION GUARANTEED.

\$8.50---Buy an Extra Pair of Pants With Your Suit---\$8.50

When you buy an extra pair of pants with your suit, you save 50 per cent. The extra pair gives double wear and cuts the cost in half. That's an argument that cannot be overcome. It's logical—unanswerable. Besides, indications are that next season you will have to pay \$12 to \$14 for trousers of the same quality for which we now ask \$8.50. BUY NOW!

Somewhere in France.

Dear Folks:

I have no excuse to make nor reason to tell why I have not written sooner, other than that my surroundings have been so different from what I expected that I have been using most of my spare time looking and thinking.

Have seen quite a bit of the country. Some of it I like and some I don't like so well, but the first thing I saw that "got my goat" bleat and all, was a mud or dirt fence 5 or 6 feet high and then a hedge on top of that and the sides covered with various kinds of vegetation. To all appearances the fence was a century old. There are scarcely any barbed wire fences.

Their wagons are nearly all two wheeled carts with shafts and they work their horses single file. I have seen very few all purpose horses here. They are nearly all heavy draft horses and well cared for.

Cattle are large and well proportioned and appear to be mostly mixed breeds, altho I have seen some white faced cattle and what we call red roans, but they are not so red here: they are almost white.

Have seen a few chickens, ducks and geese and lots of Belgian hares, but of hogs you might say none. The few I have seen are razor backs.

Their methods of farming here are strictly intensive and it is amazing the amount of stuff that can be grown on a small lot, but they give the land the very best care and from the best I can see one man doesn't till more than 4 or 5 acres and some places not so much. I have seen only a few of what we call up-to-date farming implements, but of course they wouldn't be so useful here as in the States.

Excepting our government

buildings here I have seen only a very few lumber buildings and they were mere shanties. The houses and barns are all built of stone or brick and in many instances around these they build a stone wall 5 or 6 feet high and one stone wide and it beat my judgment how it could stand, but what they build is permanent and stands forever. They don't seem to have an idea of temporary things. Wherever they hit a lick it counts. Their railroad and dirt road beds are, I believe, the best that can be made.

Well, I will close for this time and will try to write oftener in future. COLEY O. SEVIER.

Preachers Placed.

The West Texas conference for the Methodist church was held in San Antonio last week and the following assignment of preachers interests many Mills county people.

Rev. Thos. Gregory was returned to this district as presiding elder, Rev. W. G. Callihan was returned to the pastorate of the Methodist church at this place and Rev. J. T. Weems was returned to the Mullin charge; Geo. Ryan was sent to Johnson City; A. C. Searcy, Martindale, San Marcos district; Star and Center City circuits are yet to be supplied; Z. V. Lile was made presiding elder of Uvalde district and J. P. Lawless was sent to San Saba; H. E. Draper was sent to San Angelo; J. W. Cowan, Brady; J. G. Forester, Midland; Frank Jackson, Nixon; J. M. Lynn, Marble Falls; N. B. Reid, Lampasas; J. R. Robinson, Kempner; I. T. Morris, Sabin; R. S. Pierce, Big Wells.

A. T. Langford of Center City was transacting business in the big town Tuesday.

Use Turpentine.

In all probability turpentine is the greatest germ killer and antidote known for human and animal ailments and as a preventive it has no equal. It is cheap and in everyones reach as we all know. There are millions of dollars spent annually by the wealthy ones going to the pine forest for their health and come back greatly benefitted by breathing and inhaling the pine odor, which is very distasteful to contagious germs and they will not stay. Pine odor is a great disinfectant, probably the greatest known and turpentine is the quintessence of pine and so cheap and in the reach of rich and poor alike and as all of us cannot go to the pine woods we can bring them to us, right in the rooms with us by using turpentine profusely.

Put a tablespoonful in a quart can 3-4 full of water where it will simmer slowly and not boil too hard, then sprinkle the rooms. Use it plentifully and you will not be sick, put some on your chest and oil cotton or handkerchief, take it to bed with you, put cover over head and inhale it before going to sleep. When I was a boy people used pine tar for most all ailments not knowing the art of embalming them days to keep down offensive odors and contagion. They burned pine tar in the rooms and I don't think in all this enlightened age they have improved on it; use it on chest and clothing, go where you please and defy contagion. In times of great contagion it was an old saying "Dying like sheep with the rot" the greatest contagion possible among animals. What is the remedy? Pine tar, put on nose of sheep with a paddle, put in all mangers, not coal but pine tar. Use the turpentine freely in all churches, halls, schools and go ahead with them; sprinkle the floor an hour before services. S. H. SULLIVAN, Sr.

Oscar Burns and family returned to their home in Clifton Tuesday, after a short visit to relatives here and at Star.

Mrs. McElroy went to Rowena the first of the week to visit her son Louis, who is telegraph operator at that place.

W. F. Stephan of Star was a business visitor to the city Monday and ordered the Eagle sent to his son, who is with the forces in France.

Wm. Meyer, one of the prosperous farmers of the Mullin country, had business in this city Monday and took occasion to renew for the Eagle, for which we thank him.

Prof. M. L. Garrett was here from Star Saturday and Sunday. He will teach the Mullin school the coming session, which is just another way of saying that Mullin is to have a really fine school the coming session.

Mrs. Lewis Hudson returned Wednesday from San Antonio, where she was called some days ago on account of the illness of her son Dow, who was much improved at the time she left him.

W. A. Gardner, one of the Eagle's best friends and one of the county's best men, was here from Mullin Monday looking after business matters and, as his annual custom is, called to renew for the Eagle. It is encouraging and satisfying to have the friendship of such good men as Mr. Gardner.

B. B. McLeod writes that he has a fine position in accounting department of the Southern Pacific railroad company at Houston. He tried ranching in New Mexico and western Texas for a time, but has now returned to his first love, the railroad service and his many friends here are glad he is so well situated.

STAR SIFTINGS

By Our Regular Correspondent

In our search for items—other than influenza attacks—we took a switchboard stroll and was halted by the genial operator, Mrs. Wells, at McGirk, who is recovering from her share of this epidemic and learned that Cupid was on a strike, and that the McGirk people were just beginning to get acquainted with this influence, that nearly every family had it and others were expecting it, so I went visiting Jim Campbell's pleasant home and was greeted by Mrs. Campbell and found that "Jimmie" had some kind of grain(?) fever and was shy on his supply of good-feelings (been working in grain dust), also learned that, none of J. J. J. Newton's family celebrated with the enza at the same time without serious mishaps; that Ber Beal's family had passed through the ordeal and the social wound up on preventative with the enza in the lead to keep away influenza—yes and everybody else too—then adieu.

Henry Peck is with his brother Joe, who is suffering with an attack of pneumonia at Houston and a late report states that his wife is also seriously ill.

Ben Cox and family have returned home from Ranger to attend to the farm work, brought about by the recent good rains.

Chas. Stephan, one of our boys fighting to free the world of a future danger from the Limburger pole eat, will receive the Eagle regularly and we know he will enjoy the Siftings, for we try to scoop up everything except Cupid's capers.

J. D. Tumlinson has secured the Methodist parsonage and will move at an early date. This means that the church will be without a local pastor for the coming year.

Mr. and Mrs. Oscar Burns were two day visitors with home-folks, W. F. Stehan and family, Mr. Burns is Santa Fe agent at Clifton and left for his home Monday from a visit also to his parents at Goldthwaite.

Little James, child of Mr. and Mrs. Jim Soles is dangerously ill and receiving every attention possible to restore him to health.

We are much pleased to take Miss Aurie Slaughter's name off the sick list. Miss Aurie has recovered from a hard attack of typhoid.

Dr. Fowler of Pottsville was a Tuesday professional visitor.

Mrs. Grover Stanley, quite a home stranger, was a Star visitor Wednesday.

E. G. Kingsbury was one of our business visitors from Fairview and we failed to get a report on that one well.

J. P. Webb and wife were pleasant visitors Monday.

Mrs. Luther Garrett of Moline was an enjoyable visitor at the home of her sister Mrs. Minnie Moore.

The following have recovered from serious attacks of illness and are about-town strollers: Festus Teague, Jake Roe, Herber, Childress, Herbert Waddill, Cyrus

Fields and Charlie Moore.

The Kaiser must be thru with cutting his wisdom teeth. We are of the opinion age has nothing to do with cutting wisdom and eye teeth in Hunland, as to learning and seeing what American Soldiers and Uncle Sam can do when called upon to act mentally and physically. God bless our soldier boys and allies! in stamping out a Devilized set that will be a menace to mankind as long as they live.

Twelve bales of cotton were ginned Saturday, making a total of 184 bales for this section. This ends the ginning season.

Jant Adams and J. H. Clifton were county seat visitors Wednesday returning with November 5 paraphernalia.

Ben Soles made a flying business trip to L. Mearns for some knitting needles(?)

Dick Joske is back in his accustomed place as manager of Star Cash Store tinged with that enfla complexion.

Died.—Daniel Cornelius Campbell Monday eve at 5:15 at his home West of Star. Again I am impeded by this death to add a final tribute to Dan. So often we are unable to know a person through an inability to adapt our selves to another's sphere of life and thereby fail to glean the beauties in the other's life. Dan was reticent and behind that curtain was friendship, loyalty, and devotion to the fullest extent keeping him often from mistake, and above all that reticence made him a good man. Dec. 17th he would have been twenty three years of age and his father and mother lose a son who can not be replaced excepting through our God of love and a Redeemer that gives to those who seek sweet consolation and everlasting life. Other than his parents he is survived by a sister, Mrs. C. L. Cook, who is dangerously ill at the same home and knows nothing of his death. He was buried Tuesday eve at Paine Gap. The family have the very keeness sympathy of the entire community in their sad loss and bereavement.

Owing to absence and sickness the Woodmen were unable to take charge at the home and the burial of Dan Campbell, who was a member. It is deeply regretted by all members and those who were unable to get out especially.

R. L. Campbell and family of Lavida, Texas, attended the funeral of his nephew, Dan Campbell, and is with his brother's family in their hour of grief.

Dan Campbell death is the first fatal case of the influenza for this community.

It is pleasing and the town seems near natural to have Ed Hamilton on the stir after a serious illness.

It is reported that John Tubb will become one of our esteemed townfolks and will occupy the splendid Webb residence and that postmaster J. D. Tumlinson will move to a home suitable to

the size of his family of three.

Neal Soules and Joe Trussel are few days visitors at home from Ranger, where they have pleasing employment, reporting work aplenty—if you want to work.

The grass and grain showing up nicely from the rains is giving a more cheerful look and position to all.

Rev. J. K. Lippard has moved to the Shelton farm east of Star.

Julia Moore's causing loss attention—account of the influenza

Miss. Hattie Lee Ewing is a visitor with friends at Goldthwaite and Miss. Bulah McMurry was a Shive visitor during the school suspension.

Fall gardens are a profit and pleasure to many we notice some fine products from Prof. Ira Neighbors and A. J. Tipps gardens.

Rev. A. C. Searcy left Tuesday for his new home at Hablin Dale. Our best wishes go with them in their new field of labor. We will miss them muchly.

Olle Hampton and his entire family are making the best of an attack of influenza.

We are muchly pleased to report the return of Mr. W. L. Boykin from a Temple surgical institution practically restored to health.

WASHBOARD

Editor Eagle.

I will come again after a long absence.

What do you readers think of the war? For my part, I think it is an awful thing, and I hope it will soon come to a close, so we can have peace on this old earth once more.

Mrs. Ethel Lawson came in love yesterday to visit her mother and her son.

Mr. Robert Vessell has come back home.

Mr. Festus Swindle's family is on the sick list this week. We hope that they will soon recover.

Mr. B. A. Howington and children came in home Sunday morning from their cotton picking.

Master. A. D. Janner is on the sick list this week, also Miss. Melba Swindle is sick. We hope they will soon recover.

Jake and Paul Jacobs have come home from California for a visit to parents and friends at Indian Gap.

Mrs. Leona Roberts and baby and Annie Howington visited Mrs. W. T. Vessell Tuesday.

Mrs. L. T. Embrey and family visited Mr. Robert Vessell and family Sunday.

Mr. and Mrs. Albert Sommerfelt have moved to Washington county. We regretted to see them leave, but we will give them our best regards.

Mrs. Bertie Boler and baby are on the sick list this week. We hope they will soon recover.

All of you soldiers and sailor boys come on with them fine interesting letters. All of us Mill's country people love to read your letters.

You Just Try NR For That Indigestion

Get your organs of digestion, assimilation and elimination working in harmony and watch your trouble disappear. NR does it or money back.

One Day's Test Proves NR Best

The stomach only partly digests the food we eat. The process is finished in the intestines where the food is mixed with bile from the liver.

It must be plain to any sensible person who realizes this, that the stomach, liver and bowels must work in harmony if digestive troubles are to be avoided or overcome.

This fact also explains why sufferers from indigestion, also suffer more or less from headaches, biliousness and constipation.

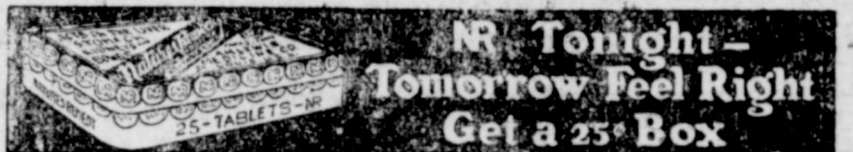

If you are one of the many unfortunate persons who cannot eat without suffering afterward, if you are constipated, have bilious spells, headaches, coated tongue, bad breath, variable appetite, are nervous, losing energy and feel your health slipping away, take this advice and get a box of Nature's Remedy (NR Tablets) right today and start taking it. Give it a trial for a week or two

and just see how much better you feel. See how quickly your sluggish bowels will become as regular as clock work, how your coated tongue clears up and your good, old-time appetite returns. See how splendidly your food will digest and how your energy, "pep" and "ginger" revive. Just try it.

You take no risk whatever for Nature's Remedy (NR Tablets) is only 25c a box, enough to last twenty-five days, and it must help and benefit you to your entire satisfaction, or money returned. Five million boxes are used every year—one million NR Tablets are taken by ailing people every day—that's the best proof of its merits. Nature's Remedy is the best and safest thing you can take for biliousness, constipation, indigestion and similar complaints. It is sold, guaranteed and recommended by your druggist.

It is the desire of the County Chairman to receive and have printed, in next issue of the paper, the names of all persons appointed by the County Executives above mentioned. For instance, in the list of School Community Committees printed below, there will be added at least two or more ladies to each committee. In the matter of public speakers, it is the intention to invite and appoint them from all classes; such as preachers, farmers, business men and lawyers. Their patriotism will do the rest. The Publicity Committee will include the editors of both papers and such other persons as are deemed necessary.

In order to reach every community and family in our county, it is thought best to lay the foundation by appointing as a committee on the United War Work Campaign, the Principal, or Superintendent, and the Trustees of each school community, to which are to be added a sufficient number of ladies to make a full working force and a full representation of both women and men. The names of the committees thus far are as follows:

Goldthwaite—Prof. W. O. Willingham, W. L. Jones, E. B. Anderson, M. N. Brinson, B. P. Hurdle, W. H. Linkenhoger, J. A. Allen and E. J. Weatherby.

Ebony—Miss Tommy Lee Smith, H. M. Sikes, F. L. Crowder and G. W. Tippen.

To save a big waste of money, time and persons from having seven different campaigns, the United War Work Campaign combines the seven following named organizations into one great campaign: Young Men's Christian Association, Young Women's Christian Association, War Camp Community Service, American Library Association, National Catholic War Council, Jewish Welfare Board and The Salvation Army.

From the above we can realize that these, our agencies at the front, are constantly looking after our soldier boys to make of them better and happier men, spiritually, educationally and physically. Therefore, whether a person is religious or not religious, he has no excuse left for not contributing something in this campaign.

HONOR ROLL

There will be printed in the paper an Honor Roll containing the name and amount of every man, woman, boy, girl and child who contributes or for whom some one contributes in this campaign, beginning November 11th and ending November 18th. The Honor Roll will be sent to each one of our Mills County soldier boys, and oh, what joy and happiness it will be to them to see how many of their dear Mills County friends are backing them up at the front while they are risking their lives for us.

Now, since our Commander-in-Chief, President Woodrow Wilson, says: "It shall be a united campaign," to dissent is to be disloyal. Then let every man, woman and child in Mills County show their loyalty and patriotism by giving something to this worthy campaign for the betterment of our noble soldier boys and thus do our duty.

Yours truly,

W. E. MILLER, County Chairman.

Why Suffer?

Mrs. J. A. Cox, of Alderson, W. Va., writes: "My daughter . . . suffered terribly. She could not turn in bed . . . the doctors gave her up, and we brought her home to die. She had suffered so much at . . . time. Having heard of Cardui, we got it for her."

CARDUI

The Woman's Tonic

"In a few days, she began to improve," Mrs. Cox continues, "and had no trouble at . . . Cardui cured her, and we sing its praises everywhere." We receive many thousands of similar letters every year, telling of the good Cardui has done for women who suffer from complaints so common to their sex. It should do you good, too. Try Cardui. E-77

A state meeting of the Council of Defense was called to convene in Dallas yesterday to consider plans for securing the needed workers for the government munition plants.

There is now more than a million dollars in the state highway fund. This is money paid in by automobile owners and is supposed to be applied, sooner or later, to public road improvement.

It is announced that Kaiser Bill says he is willing to accept a change in the form of government in Germany, which will make him perpetual president with authority somewhat curtailed. Our guess is that his authority will be so "curtailed" that he will have none when the allied forces are through with him.

In a number of counties where prohibition was not in effect prior to the passage of the state-wide law petitions are in circulation for local option elections, to make sure no saloons are opened therein before the adoption of a constitutional amendment, which will likely be submitted by the next session of the legislature.

An effort is being made to induce the sale of Thrift and War Savings Stamps to the full quota of the various counties and communities. Mills county is far short of the prescribed quota, but by the close of the year there will be many purchases in this department and the county's standing in the column greatly improved.

Austria has asked for a separate peace and Germany is now left alone. True, the Huns have also asked for an armistice for the purpose of securing peace, but the powers are not inclined to deal with them until a condition is imposed that will guarantee against treachery. The indications are, however, that the world war will be ended before a great while and the terms will be such that a recurrence of the present terrible war will be impossible while time lasts.

The national health department reports that influenza is yet on the increase, especially in the military camps. The system of isolation and other methods adopted for preventing the spread of the epidemic appear to avail but little. It is doubtful if there was ever an epidemic so widespread and causing so great a percentage of fatalities in the world's history as this influenza. The same epidemic prevailed over a wide scope of country fifty years ago, but it was not nearly so wide-spread or so fatal as now.

The court of criminal appeals decision declaring state-wide statutory prohibition unconstitutional, has done the liquor interests very little good so far. At several places saloons were promptly opened, but those in charge were promptly arrested and Attorney General Looney at once secured an injunction forbidding the opening of saloons until the law was finally passed on by the courts on a motion for a new hearing. The main thing accomplished so far by the agitation is to convince the people of the necessity for a constitutional amendment forbidding the sale of liquor, so there can be no question about the validity of such a law.

SPANISH INFLUENZA RAPIDLY SPREADING

Persons Weak and Rundown Easy Victims—Fortify Yourself Against It By Taking Tanlac

According to latest reports issued by State and Federal health authorities, the Spanish influenza epidemic is rapidly spreading to all parts of the country and it now seems that practically every state in the Union will be seriously affected before it runs its course.

It has not only become a great and terrifying menace to public health, but unless checked, it is apt to seriously affect the progress of war work in all its various departments. Already the Shipping Board has announced that ten per cent of its workers had been affected.

The disease has made its greatest progress in the east, where it has claimed its victims by the thousands. Reports from other sections, however, are equally alarming; and both civil and military authorities have warned the public to take every precaution to prevent its further spread. In many cities the schools, churches and theatres have been closed and public gatherings of all kinds forbidden.

Medical authorities agree that people who are weak and rundown are the earliest victims of the influenza epidemic. If you find yourself tired, weak and losing flesh, or if you are in a generally run-down condition, or if you catch cold easily, this warning should be heeded promptly. You are really in great danger, because the germ of this disease is very catching and you are apt to fall an easy victim if you come in contact with the germs. People who are well and strong are not likely to contract the disease, because they are able to throw it off. The common-sense way to keep from taking it is to fortify the system against attack by building up the constitution.

In other words, to use the old adage, "An ounce of prevention is worth a pound of cure." If you are in a sub-normal condition the proper thing to do is to begin immediately to build up your powers of resistance. To accomplish this, nothing on earth will strengthen you and build you up like Tanlac, the powerful reconstructive tonic, which contains the very elements needed by the system to give you fighting strength and ward off the influenza germ.

First of all Tanlac begins its action by creating a good healthy appetite for wholesome, nourishing food, and assists every organ of the body to perform its natural functions, thus helping to build up health and strength in the natural way.

Tanlac is also the ideal strengthening tonic for persons who are suffering from the after-effects of influenza, gripe or bronchial troubles, and hundreds of thousands are using it daily with the most gratifying results.

In connection with the Tanlac treatment, it is necessary to keep the bowels open by taking Tanlac Laxative Tablets, samples of which are included with every bottle of Tanlac. It is also important that every-day rules of hygiene be observed; that is, sleep in well ventilated rooms, get plenty of fresh air and exercise and keep away from crowds.

A THOROUGH TEST

One To Convince the Most Skeptical Goldthwaite Reader

The test of time is the test that counts.

Doan's Kidney Pills have made their reputation by effective action.

The following case is typical. Goldthwaite residents should be convinced.

The testimony is confirmed—the proof complete.

Testimony like this cannot be ignored.

J. C. Fulton, stone mason of Goldthwaite, says: "Three years ago I was down in bed with a severe pain in the small of my back. The kidney secretions were too frequent in passage, painful and unnatural. I decided to try Doan's Kidney Pills, as I had often heard they were good for kidney trouble. I got a box from Clements' Drug Store and my condition improved right away and after finishing two boxes I was able to go back to work. I am never without Doan's Kidney Pills in the house."

No Trouble Since.

Over three years later Mr. Fulton said: "I still think well of Doan's Kidney Pills. I haven't needed a kidney medicine since using them."

A nice lot of Monuments and Markers at Close Prices. Can save you 15 to 25 per cent and give the very best material and the highest grade work. How? By eliminating the agent-commission-busines, which means that amount saved for the buyer. Agents will tell you their firms can buy marble or granite cheaper than your home dealer and make you a better price, which is false and misleading, as we dealers pay exactly the same price for the same grade of stock. FISHER STREET GOLDTHWAITE

TO THE VOTERS OF MILLS COUNTY

Especially Those Who Are In Favor of Clean State Politics and Who Want An Honest and Efficient Man For Governor.

Texas must help win the war; to do its part—full man size—it must have a man size Governor, who is not the creature and slave of a soulless political machine. Such a man we offer you in the person of Hon. Chas. A. Boynton of Waco. Mr. Boynton was formerly U. S. district attorney and is, therefore, fully qualified to hold the office of Governor of Texas.

Owing to the epidemic of influenza, it will be impossible for Mr. Boynton to make a complete canvass of the state, hence we take this means of placing his name before the public, feeling you will be convinced that he is worthy of your careful consideration as Governor of Texas.

After the election there will be no questions asked, such as is now being asked of Mr. Hobby, namely—Where did the \$77,000 Hobby spent on his primary come from, and where did it go? Mr. Boynton will make a complete sworn statement, as required by the election law, of the expenses of his campaign, but the Mr. Hobby is an officer, or should be, of this state and therefore sworn to uphold the law he has never filed an itemized statement of his primary expenses. Yet the election laws require it. How about it? Are you going to vote for a man for Governor when you know he has openly violated the Terrill election law? (See Art. 3446, 257 and 254 of Terrill Election Law). Where did Mr. Hobby secure his \$77,000 primary campaign fund and where did it go? These two questions have never been answered.

"When a reform (sic) official and his friends boast 'too much' of his morality, is his condition pitiable or comical?" If Mr. Hobby was so anxious to protect the morals of our soldiers, especially the Texas National Guard, why did he appoint as major a man who was tried and found guilty and dismissed from the American army at Washington on three counts for conduct unbecoming an officer of the army? Yet this same man was appointed an officer of the Texas National Guard by Mr. Hobby. This may be the Hobby way of protecting and promoting the morals of the soldier boys, but do you think it is the correct way?

Mr. Hobby secured the nomination as a prohibitionist, but it is reported that there was quite a justification of Mr. Hobby and his friends, in which all of them were "O-he-joyful" for two or three days. This happened "somewhere in Williamson county." In the person of Hon. Chas. A. Boynton you have a lifelong prohibitionist and an honest, moral man, who will make Texas the best Governor the state has ever had. He is not controlled by any machine politicians or corporations, whether in the state or out, and is clean clear through.

Now a word concerning the so-called pledge. In every case where there have been contests the judges have ruled that the votes cast by women in the primaries were illegal, rendering it as their opinion that the law passed by the recent legislature was unconstitutional. If this ruling is correct, then it follows that the entire primary was the same, because it allowed illegal voters to participate. Hence there is no pledge. Now about women voting. The plank in our platform reads as follows: "We favor the immediate submission of an amendment to the national and state constitutions conferring upon women the right of suffrage."

We submit herewith a complete

state ticket. Read it over, study it and vote it next Tuesday, thereby giving the State of Texas a chance to recover from the bonds of machine politics.

Given by the Mills County Campaign Committee, Goldthwaite, Texas, October 23, 1918.

HON. CHAS. A. BOYNTON'S PLATFORM

I will here enumerate, stating same in somewhat condensed form, as I cannot here enter into a more lengthy discussion thereof, some of the principles and problems which I favor and for which I shall stand if elected Governor:

1. Repeal of present primary law.

2. Submission of amendment to constitution to confer the right of suffrage to soldiers and sailors citizens of Texas, while in the service of the United States.

3. Submission of amendment of national and state constitutions conferring upon women full right of suffrage.

4. That the school fund of this state shall be guarded, protected and held sacred for the purposes intended.

5. That special attention and effort should be exerted to the extending and upbuilding of education in the rural districts through common and public schools throughout the state; that the terms of same be extended to nine months in the year, free text books furnished, the teachers better paid, and any and all movements that will improve conditions in the country and city schools and lead to the better development and education of the youth of our state and cut down the present percentage of illiteracy that now exists, as all necessary to the proper development of our citizenship and our state.

6. Strongly endorse and favor passage of the proposed amendment to our state constitution providing for free text books, to be voted on at the time of the general election in November. But in this connection that great wisdom, care, honesty and economy be exercised by those then acting for the state in the selection and purchase of such text books, that will involve the expenditure of hundreds of thousands of dollars of the taxpayers' money, in the event of the passage of such amendment; and the voters and taxpayers of the state should bear this in mind at the time of voting for the election of state officials at the general election, November 5th next.

7. Suitable and adequate appropriations to the State University, the A. & M. College at Bryan and all state educational institutions, and economical and wise expenditure of appropriations and efficient service on the part of all persons connected

with such institutions. That as much as possible the management of such institutions be removed from politics and not subject to changing political conditions in the state, and such institutions and those connected therewith not to undertake to exercise organized influence in the election of political candidates and partisan politics.

8. Opposed to any modification of the homestead or exemption laws, and certainly not during the next two years or at any time unless convinced by those to be affected and who now enjoy and are benefitted by the protection of same that they desire and would be benefitted by some slight modification of same, this to be determined by vote of the people.

9. Submission of prohibition amendment to state constitution to the vote of the people. I have never been a party prohibitionist and have felt that there were many other questions involving the well-being of our citizens and progress of the state of a material nature of greater importance than that of prohibition that were being sorely neglected and lost sight of, and for a purpose by the political leaders of the state in constantly keeping before the people this question of prohibition or anti-prohibition, which obscured and largely obliterated demand for an accounting and showing regarding these other matters of so much concern to the state.

For years past I have been convinced that the saloon as an institution was a detriment and injury to our people and state and exerted a bad influence on the body politic. And I am still of the opinion, and as the only mean and opportunity presented to strike at same have at all recent local option elections and state prohibition elections voted for local option and prohibition, and urged the Republican party to stand for local option, believing the people have a right to vote upon and determine such questions for themselves and that the majority should have the right to control.

10. The Republican platform adopted at the Houston convention in August last contains a plank reading as follows: "We favor legislative consideration of permitting the sale of light wines and beers under stringent regulations and subject to local option laws, effective at the conclusion of the war." This has caused much comment. There is no doubt but that there are many who favor some such enactment, even amongst those who voted for prohibition in the effort to abolish saloons. Believing as I do that the people have a right to vote upon and determine for themselves such questions and to instruct their representatives in the legislature as to their views, if after due consideration enactment should be duly passed along the line of the character indicated in said plank, I would not feel that the governor should veto same and would not do so if governor.

11. Changing, simplifying, correcting and perfecting our entire system of civil and criminal procedure, rendering the administration of same more prompt and effective and less expensive to the state and litigants.

12. Enactment of laws looking to securing for the working women of the state equal wage to that paid men, wherein women are performing the same service and duties as men.

13. Enactment of adequate laws against child labor, and vigorous enforcement of such laws.

14. The protection of labor in matters of remedial legislation heretofore enacted in this state and the enactment of further legislation for the betterment of labor that shall be just to labor and capital and for the best interests of the state.

15. Conservation and protection of the mineral lands and rights of the state, and the enactment of laws to safe-guard and preserve same. The State of Texas should today be drawing millions of dollars from the oil fields and mineral resources of the state in the way of royalties had not same been wasted and bartered away to private interests.

16. Proper appropriations, buildings, suitable care, efficient and economical management of state institutions for care of the insane, many of such unfortunate now being confined in jails or private institutions without proper attention for want of necessary quarters by the state; the blind asylums and all eleemosynary institutions of the state.

17. For a look at the "Books" and careful examination of the expenditures of the State's finances, in all departments, and for the conduct of the State's affairs in a thorough, competent, honest and businesslike manner.

18. That the Legislature of the State take immediate steps extending substantial aid to its citizens in the drought stricken portion of Texas, to the end of granting relief from dire need and enable them not only to be afforded the necessities of life but to rehabilitate their farms, plant, cultivate and raise a crop in 1919, as needful not only to their welfare but also to that of the State and Nation.

19. Against using appointive power or Governor or influence of such office as a personal political asset, but to the contrary for the benefit of the State, with no personal or political friends to reward in such manner, enemies to punish, promises or political obligations to fulfill.

20. That first and foremost our State and every citizen thereof should readily respond to every call and effort on the part of the national government necessary to the successful prosecution of the war, to the end of securing a decisive victory over our enemies and the obtaining of a just and permanent peace.

Proclamation

TO ALL WHO EAT.

The public should read the newspapers for their own protection and in order to keep posted upon all changes and modifications of the food conservation law.

Every day there is something new in food conservation. It can be learned in no quicker or better way than through the columns of the newspapers.

Read these articles upon food conservation and food production. Don't skip in reading.

If you don't remember or haven't a good memory—cut out the items and save them for continuous reference.

Use the newspapers to keep posted. Mails are slow. The story is always in the paper before it reaches our district and county administrators. You owe it to yourself to keep posted. You will then know the law and be able to live up to the law. Remember, if you violate the regulations you are subject to a fine of \$5000 or two years' imprisonment, or both, and ignorance of the law is no excuse.

Read the newspapers. They are the voluntary distribution agents of the government.

Discontent, Dissatisfaction and Distrust by Democrats.

So far reaching is the discontent

over the nomination of Mr. Hobby, and the dissatisfaction over matters that have already occurred under his administration, and distrust as to the future that Democrats so large in number are supporting and will support the Republican ticket.

Owing to the unfortunate epidemic of influenza now prevailing throughout Texas, in protection against the spread of which it has been found necessary at most points in the state to prevent the holding of public meetings for the present, it seems that I shall probably be deprived the privilege of making many of the speeches I had intended, and limited to this address and such little publicity that I may be granted by the press in getting my views before the voters of the state.

Being a man of humble means, and pender, on the practice of my profession as a lawyer for a livelihood for myself and family, and without any substantial campaign fund it can be readily understood that I will get no great publicity through the press and must rely on those voters of the state who agree with my views, to do this work and make the campaign for me and get the voters to the polls on November 5th.

In recognition of the views and reasons above expressed with a deep love of our state, and for the people of Texas, amongst whom I have lived for more than forty years, desiring to serve their interests, mindful of the grave responsibilities involved, and regarding this an opportunity for the performance of a high and much needed service, and asking all citizens of Texas, regardless of past political affiliations to step forward and perform an independent patriotic duty and service for their state by giving me their support and votes for Governor at the general election on November 5th, next, I express my appreciation of the honor extended and accept such nomination for Governor of Texas. Very respectfully,

CHARLES A. BOYNTON,

Republican Nominee for Governor

Waco, Texas, Oct. 23.

City Ordinance.

An ordinance of the City of Goldthwaite, Texas, abrogating and rescinding an ordinance forbidding public gatherings in said city:

Be it ordained by the city council of the City of Goldthwaite, Texas, that the ordinance forbidding the holding of public gatherings, including schools and church meetings, is hereby rescinded, abrogated and held to be of no effect after 12 o'clock noon of Saturday, Nov. 2, 1918, the necessity for forbidding such gatherings having passed.

Passed, adopted and approved at Goldthwaite, Texas, this Oct. 31, 1918. WILL H. TRENT, Mayor of Goldthwaite, Texas.

J. C. DARROCH, Secretary.

Mrs. Swindle Dead.

Mrs. Dewey Swindle died of influenza and pneumonia Monday at Burkburnett, where she and her husband were temporarily making their home, and her remains were carried to Indian Gap where the funeral took place Wednesday. She was reared in this county and leaves a host of friends who sympathize with the bereaved husband and other members of the grief-stricken family.

Card of Thanks.

Mrs. Chas. Gardner, Mr. and Mrs. W. J. Gardner and Dr. J. M. Campbell and family desire to express their great appreciation for the kindness of the people of Goldthwaite and elsewhere at the time of their recent bereavement. They are especially grateful for the beautiful flowers. All of this kindness will long be remembered.

Card of Thanks.

Walker Berry desires to express his sincere thanks and the thanks of the other members of his family to the kind neighbors and other friends for their kindness and thoughtfulness during Mrs. Berry's illness and after her death. Every act and word of sympathy were appreciated more than words can tell and will always be remembered.

A Tribute to the Memory of Dr. Herbert Brown.

Editor Goldthwaite Eagle:

I was shocked and grieved to learn from your issue of October 26, that Dr. Herbert Brown had died at his home in Houston. I had seen in a previous issue of your paper that he was ill; but I could not think, I could not fear, that a man of so fine strength, of such clean and temperate life, would succumb.

It must have been that he delayed too long in the performance of his duties as physician to others, attendance upon his own ill-health. That was like him; and it was a soldier's death.

He was my family physician in Houston for eight years; and I represented him in many matters, as his lawyer, and I grew to know him, I take high pride in saying, intimately. I hold no man, living or dead, in higher esteem. With all the strength that goes to make a MAN, there was commingled a loveliness of character, a gentleness that was exquisite.

No personal sorrow could touch me deeper than the thought of his untimely death. Yet had he died before there swept upon us the torrent of death that even now is sweeping, like the path of an eclipse across this planet, it might have impressed me as more sinister and more sorrowful still. For truly the thought and the aspect of Death itself has changed during these dread years; such an echo of that torrent has roared upon our hearing---such a buoyancy of lost sails that vanished upon that torrent; such joyous unreturning procession of brave and happy youth, as when the Levites went up to the Temple,---that there no longer seems to me either mystery or fear in the aspect of death.

And so, above the grave of Herbert Brown, as above the unnumbered thousands of new graves of those who have died upon the fields of their high endeavor, I lay the idle blessing, but take the living comfort of the old grand fare well: Servant of God, well done.

LEONARD DOUGHTY.

Tuesday will be general election day and every voter should cast his ballot on that day. As nominations have been made the nominees do not need the votes, but the county's representation in political conventions is based on the number of votes cast at the general election. In the interest of the county's political standing all voters should cast their ballot next Tuesday.

CALOMEL DYNAMITES A SLUGGISH LIVER

Crashes into sour bile, making you sick and you lose a day's work.

Calomel salivates! It's mercury. Calomel acts like dynamite on a sluggish liver. When calomel comes into contact with sour bile it crashes into it, causing cramping and nausea.

If you feel bilious, headachy, constipated and all knocked out, just go to your druggist and get a bottle of Dodson's Liver Tone for a few cents, which is a harmless vegetable substitute for dangerous calomel. Take a spoonful and if it doesn't start your liver and straighten you up better and quicker than nasty calomel and without making you sick, you just go back and get your money.

If you take calomel today you'll be sick and nauseated tomorrow; besides, it may salivate you, while if you take Dodson's Liver Tone you will wake up feeling great, full of ambition and ready for work or play. It is harmless, pleasant and safe to give to children; they like it.

THE SUPPLY OF MILK IS INCREASING

QUANTITIES FOR FOREIGN USE BEING CONDENSED.

Consumption of Milk, Especially in Large Cities, Is Decreasing—Much Cheese in Storage.

Of the milk produced in the United States, 40 per cent is now used as fluid milk; 40 per cent goes into the making of butter, and the other 20 per cent into the making of condensed milk, cheese, ice cream and so forth.

The condensing facilities of the country, owing to the foreign demands, have more than doubled in the past two years. While this is a desirable result, unfortunately, at the present time, the allocation of shipping for export given to this production is only about one-third the manufacturing capacity. The exports last year jumped 100,000,000 pounds, reaching a total of 259,000,000 pounds.

Figures recently obtained by the United States department of agriculture show an increase of 390,000 head in all milk cows of the country in the last year. While the increase is small, the fact that there was any increase at all is taken as a very helpful sign for the future. The increase of heifer calves, between the ages of 1 and 2 years, totals 1,185,000, and this speaks well for future production of milk.

Storage figures indicate a rather large supply of cheese in this country. However, the allied countries have purchased very largely of this stock, but have, as yet, been unable to transport it. The available supply of cheese, therefore, is really considerably less than is indicated by these figures.

With a slightly increased milk production, there has been a rather notable decrease in consumption. This is especially true of the larger centers of population where the increase in price over last summer averages over 40 per cent to 45 per cent. One of the first reactions of the increased price in some of the larger cities was an immediate decrease in consumption, and this still remains materially below normal.
