W. B. Summy spent Sunday with his father at the Temple sanitarium.

Miss Mattie Johnston left Sunday for Lexington to visit her sister, Mrs. Sam Peebles, and family.

Misses Lizzie and Ruth Watson of Payne visited relatives and friends in this city the early part of the week.

Miss Rosa Johnston returned Sunday evening from a visit to her sister, Mrs. Sam Peebles, and family at Lexington.

Attorneys Bowman and Price were here from Desdemona the first of the week, visiting and looking after business affairs.

W. M. Trowbridge, one of the good men of the Big Valley section, was a business visitor to the metropolis the early part of the week.

D. W. Webb, whose home is a few miles east of town, was one of the good men who called and set his subscription date forward one day this week.

Under the present system a subscriber can enter for the Eagle for a specified time without the danger of the paper being sent on and on at the end a big subscription bill to pay. This is one of the many advantages of the pay-as-you-enter, stop-when-out plan. The Eagle is not playing favorites, neither is anyone's credit questioned, but when a subscriber enters for three months it is presumed at this office that three months is the time the paper is wanted. To be sure, we place a blue mark on the paper at the expiration of the time as a solicitation for renewal, but this places no obligation on the subscriber and if the paper is sent on and on to an address it will be at the publisher's expense, for no subscription bill will be sent or claimed.

#### QUOTA ANNOUNCED

In the Baptist \$16,000,000 campaign in Texas, the county quota of Mills county has been announced as \$40,000.

The \$16,000,000 to be raised by the Baptists of Texas for the five year program of the Southern Baptists' \$75,000,000 drive has been apportioned by the campaign directors through the 18 state districts, 120 Baptist associations and counties. Individual church apportionments will be made from the county quotas.

August is being devoted to information, September to intercession, October to enlistment, November to stewardship and actual campaigning "Victory Week" November 30th to December 8th.

According to Dr. F. S. Groner, state campaign director, the organization is rapidly being completed, and it is thought the full organization will be perfected within the next few weeks.

The county quotas above announced cover amount to be raised in pledges and subscriptions for the next five years.

#### TRUSTEE MEETING

In accordance with the Rural School law the county board of trustees has called a meeting of all trustees of the county to meet at the court house next Monday, August 25th, at 10 o'clock. This conference of county and district trustees is for the purpose of discussing the many school problems and arriving at a solution of the perplexing situation now facing the schools. Each trustee is expected to be present and teachers and others who are interested in the schools are invited. X. X.

#### LOOKING FOR EXHIBITS

Col. John L. Spurlin of Waco was here the early part of the week in the interest of the Waco Cotton Palace.

Barney Carter came over from Ranger for a few days visit with relatives and friends.

J. T. Stark of Rock Springs left this week for Winters, to visit his daughter, Mrs. J. R. Cooke, and family.

L. E. Miller and wife left Sunday morning for market, to buy goods for L. E. Miller & Son's drug and jewelry store.

Mrs. A. F. McGowan of Rock Springs called one day this week and ordered the Eagle sent to her daughter, Mrs. Ben Davis, at Iowa Park.

R. L. Clemons, the Star jeweler, telephone repairer and all round expert workman, was here the first of the week looking after business matters and meeting his friends.

Luther Manning was here from Coke county this week, en route to Coryell county, where he owns a gin which he will operate the coming season. He lived here in the long ago and has traveled over a large area of country since leaving here, but says he has never found any section that beats good old Mills county.

Mrs. C. M. Harris and son, Cloy Minor Harris, left for their home in Shaw, Miss., Monday night, after a visit to her parents, Mr. and Mrs. F. B. Minor, and other relatives at Caradan. The Harris family formerly lived here and are kindly remembered by a host of friends who are glad to know of their prosperity in their Mississippi home.

Mrs. Harman Adair and children have returned to their home in Garland, Dallas county, after a visit to relatives and friends in Big Valley and Goldthwaite. Mr. Adair did not come with them, but hopes to come later. They like north Texas very much, but like Mills county more and their many friends here are hoping for their return home at no far distant day.

#### BONDS FOR BOOKS

The free text book law provides that one of the board of trustees of each school district or some one they may designate shall enter into bond in the sum of 50 per cent above the cost of the books ordered for the district. The blank bonds are sent from the state department of education and should be in the hands of all trustees by this time. Less than half of the trustees have made out the bonds.

These bonds should be made at once, because no books will be sent until the bonds are sent in. The condition of the bond is not hard as some have thought. It is only a pledge to be responsible for receiving and taking care of books while in the possession of the one making the bond. After the books are distributed each child is responsible for the books issued to him. In case a book is lost or torn up the child or his parent pays for it and if it is not paid for said child does not receive the benefit of free books. In this way the person making the bond is responsible for the money he receives. A sum of 5 per cent of the bond is sent to defray the expense of handling the books. No trustee should be averse to giving this bond, as the provisions are easily met and the bond is necessary in order to receive the books. X. X.

#### A GOOD PLAN

Brown county is to vote September 20 on the proposition to increase their road tax from 15c on the \$100 valuation to 30c. The plan as outlined is for the county to employ a competent road builder to take charge of the work or road improvement. In this they are following the example of Dallas and other counties and this is the identical plan proposed for Mills county some years ago.

### HIGH COST OF LIVING

The Federal government has launched a relentless war against profiteering. Various states are following this example and countless cities are also taking steps to see that the high cost of living is reduced.

All these efforts, however, are doomed to failure unless the people themselves take a hand in the matter. Unless the men and women who do the buying insist on getting full value for their money and patronize only those merchants who are satisfied with legitimate profits, it will be impossible to reduce prices to where they should be.

Careful buying will leave almost every family a margin of savings out of the family earnings. Dollars saved today are "cheap dollars," because their buying power is less than in the years gone by and less than it will be in the not far distant future. The government offers the opportunity of putting these cheap dollars to work, earning interest while they are returning to their normal value.

This opportunity is the Registered Treasury Savings Certificate, the War Savings Stamp and the Thrift Stamp. Investments in these are guaranteed by the government. Money invested in these securities with the accrued interest will be returned by the government on ten days' notice. If Registered Treasury Savings Certificates or War Savings Stamps are held until maturity, so much the better. But whether held that long or not, they form an excellent way of fighting the high cost of living. Work and save.

### A DARING DEED

Capt. Leonard Matlack carried the ransom money to a lonely place in the mountains in Mexico to rescue the two aviators who were held captive by the bandits. He paid half of the money and when the men were released they all escaped without the payment of the remainder.

## KINDERGARTEN DEPARTMENT

By the United States Bureau of Education, Washington, D. C., and the  
National Kindergarten Association.

By **MRS. LENORE R. RANUS**

Allow your child to have com-  
pany and playmates as often as  
you can. When possible, have  
playmates near his own age.  
Naturally out of this social inter-  
course will spring valuable les-  
sons in courtesy, generosity and  
patience. Always be fair in  
settling disputes among children.  
Do not favor your own child's  
story entirely, for though he may  
never have told an untruth there  
is always the possibility of a  
sliding from grace. Sometimes  
it is very difficult to get a correct  
account from excited children.  
If the quarrel is over a doll or  
a train of cars and you can not  
discover who is in the right, take  
away the toy, remarking quietly  
that if they can't play nicely  
with it they will have to do  
without it.

I do not think that there is a  
better opportunity than in play  
to teach lessons in honesty; play  
is so vital a part of child life and  
the child takes his play so seri-  
ously. In teaching a child to  
be honest in word and action the  
parents first must be honest in  
all their dealings with the child.  
Never make a promise that you  
cannot keep, or that you do not  
intend to keep. For the same  
reason never threaten, "Son, if  
you do that again, I'll spank  
you," for if he does it again  
you will have to spank him or  
in a short time he will come to  
laugh at your authority.

Do not confuse the workings  
of an imaginative brain as evi-  
dence of untruthfulness, but en-  
ter into the spirit of "make-bel-  
ieve." In the case of the little

tot who says, "Muvver, I went  
out in the garden and I saw  
some Indians," enter into the  
spirit of play and say, "Just  
make-believe Indians, dear, you  
mean?"

My little two-year-old daugh-  
ter quite startled me one day by  
insisting she saw lions and tigers  
and great big elephants out in  
the yard. She was kneeling on  
a chair looking out, so I came  
at once to the window, not ex-  
pecting to see a zoo in the yard,  
but wondering what there was  
to make her imagine such things.  
There was nothing at all in  
sight but grass and flowers, so  
after thinking it over for a  
second I said in reply, "Oh, yes,  
I see some monkeys, too—just  
make-believe, like yours." She  
looked up at me and laughed de-  
lightedly, and at once we entered  
upon a new game.

Cheerful obedience is another  
lesson to be learned from play.  
A child should not cry or fuss  
when mother says, "Time to  
put up your toys," or "Come to  
me, dear, I want to dress you."  
The average parents demand  
obedience, but usually exercise  
their authority only at such  
times as disobedience means in-  
convenience to the parents them-  
selves. It is the teaching of  
constant obedience which re-  
quires the greatest patience and  
tact in all child-training. You  
cannot let your vigilance flag  
for one moment, nor can you  
allow an offense to pass un-  
noticed.

This brings up the question of  
punishments. I have said that  
children are naturally sociable.

An effective form of punishment  
for most offenses, therefore, is  
isolation from the rest of the  
family and no reinstating of  
favor until pardon has been asked  
and given. Make your pun-  
ishments fit the offense. Child-  
ren are so active that to make  
them sit still on a chair alone  
is a sufficient punishment for  
rudeness, whining and the like.  
The child who persists in touch-  
ing things which are not his to  
touch can be punished by having  
his hands tied behind his back.  
I used this form of punishment  
or "cure" successfully in break-  
ing the nail-biting habit.

How about the persons who  
are always starting things which  
they never finish? They get a  
big idea, are filled with enthusi-  
asm, interest a lot of other per-  
sons, but they never materialize  
in results. Of course the big  
idea is necessary, and the enthu-  
siasm and imagination to see the  
end from the beginning, but are  
you going to fail for lack of  
helpers or because you have too  
many helpers, unskilled? Are  
you spending all your time go-  
ing around talking of the many  
advantages to be gained from  
your plan and failing to put the  
clinch nails where they belong?  
It is the clinch nails which count  
in any undertaking. There are  
certain book concerns which em-  
ploy men to go ahead and do the  
talking to promote interest and  
set the ball rolling so that the  
other fellow can cover the ground  
later and rake in the sales and  
the money. But you can be sure  
it is the fellow who gets the  
money coming and keeps it com-  
ing who stands up big in the es-  
timation of the firm. Are you  
trying to be a clinch nail or are  
you satisfied to talk yourself to  
death and wait for the other  
fellow to come in and reap the  
benefit?—Houston Chronicle.

### SET GOOD EXAMPLE

The action of the Oklahoma  
merchants in calling a statewide  
convention of wholesalers and  
retailers dealing in foodstuffs to  
discuss ways and means of as-  
sisting the government and state  
officials in the campaign against  
the high cost of living is worthy  
of emulation throughout the  
country.

The average wholesaler and re-  
tailer is just as perplexed over  
the problem as the average con-  
sumer, but while the situation is  
acute co-operation might bring  
about more relief than would be  
possible otherwise. The thing  
that it ought to be possible to  
accomplish is to establish pub-  
lic confidence in whatever prices  
it is necessary to maintain.  
Wherever there is profiteering  
it is as much to the interest of  
the merchant who is not guilty  
of it to see that it is eliminated  
as speedily as possible as it is  
to anyone else. Even isolated  
cases of profiteering tend to  
create suspicion of all prices  
and this creates a nervous con-  
dition that injures everybody  
without helping anyone. If the  
merchants would meet and de-  
vise methods by which there may  
be the fullest co-operation be-  
tween the authorities and those  
who are not profiteering, not  
only would profiteering be pre-  
vented, but a different feeling  
would be created. Confidence  
in legitimate prices, even though  
they be high, would be estab-  
lished and that is very much to  
be desired by everybody con-  
cerned.

The merchants have every-  
thing to gain by such co-opera-  
tion, for if there is any profiteer-  
ing among them they may be  
sure that the authorities will  
make every effort to eliminate it.  
If those who are attempting only  
to conduct their business at a  
fair profit on the present price  
levels will voluntarily come for-  
ward and strive to contribute  
something constructive toward  
solving the present problem it  
undoubtedly will help consider-  
ably.—Star Telegram.

### PROTECTION OF GRAIN

Several farmers protected  
themselves against loss to their  
growing grain by hail with a hail  
policy and many others wish  
they had taken the protection of-  
fered them, but waited too late.

Corn, cotton, cane, maize, etc.,  
can be protected the same as small  
grain by a hail policy.

I now offer you protection  
against fire on your grain while  
standing in the field uncut, cut,  
shocked, stacked, sacked or stored  
in your granary anywhere on  
your farm, one policy covering  
in all these conditions.

Also tornado protection after  
grain is in granary or barn. The  
rates are very reasonable on this  
class of insurance.

I am also prepared to take  
care of your insurance needs in  
all respects, whether in city or  
country.

I can get bonds for those who  
have to give bonds of any kind.

Notary work is also done, and  
will appreciate your business.

## MULLIN

Editor Eagle: I have taken a stroll or two through the city, news hunting and found since my last communication that Roy Lovelace and Hugh Kirkpatrick are at home from overseas, discharged and ready to be acknowledged as no longer on the war path. They both look well and while they appreciate what they saw and learned they prefer not trying it again.

A telegram on the 19th from Temple stated W. P. Summy not doing well. His wife and son left the next morning to be at his bedside.

Old Uncle Billie Green of the Duren community was buried at Duren Tuesday evening. Rev. L. J. Vann conducted the funeral services.

Preparations are being made for an all day service in Mullin next Sunday, with dinner on the ground to feed everybody. The meats will be barbecued on Saturday. Bro. Gregory, the presiding elder, will be here and perhaps other speakers. An invitation is extended to all to come and spend the day with us.

Mrs. Dee Leineweber Brown is visiting her parents this week. J. D. Weems is visiting John Allen, junior, of Brownwood this week.

The meeting closed Sunday night. There were six professions and four additions to the churches. Bro. Hornburg did good preaching. He is a teacher of the gospel. Bro. Smith, the singer, did his work faithfully and both he and the preacher would receive a hearty welcome to Mullin any time. Mrs. Hornburg and baby were here twice during the meeting.

Martin & Casey have rebuilt their gin buildings and as we are writing about it the whistle announces that steam is up and they are trying it out to see if everything is in running order.

We had a fine rain Monday which silenced the threshers for a few days. A great deal of grain is still in the shock.

W. C. Hancock bought a fine span of mules from James Holland. He has rented the writer's farm and is turning dirt preparatory to a big crop next year.

James Smith of Goldthwaite has lately moved to Mullin. Long confinement in the restaurant business impaired his health and he is trying outdoor work.

The building committee of the new church have about settled on plans for the building and work. Cleaning away the rubbish of the old storm tossed church will begin in the near future.

Cliff McCormick, an oil man and geologist, is among the visitors in Mullin this week. Cliff is a Mullin boy and it is said he is an oil locator. We surely ought to get a good one located in or near Mullin real soon.

Rev. J. T. Weems and Robert Bradberry took a west bound train Tuesday evening for Snyder and other points.

Mr. and Mrs. W. W. Tippen are the proud parents of a 13 pound boy. W. W. says the question of bank help is settled, but from all indications the boy prefers staying with his mother.

Total scholastic population of Texas for 1919-20 is 1,245,278, against 1,215,920 for 1918-19, or an increase for this scholastic year of 29,358, according to figures announced by the state department of education. The increase is slightly below the estimates heretofore made and is also less than the increase in the previous year. The per capita apportionment of state funds will be \$7.50, the same as last year.

### CITATION

The State of Texas

To the Sheriff or any Constable of Mills County, Greeting:

You are hereby commanded to summon the unknown heirs and legal representatives of Edward Winston, deceased, by making publication of this citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your county, to appear at the next regular term of the district court of Mills county, to be holden at the court house thereof, in Goldthwaite, on the 4th Monday in September, A. D. 1919, the same being the 22nd day of September, A. D. 1919, then and there to answer a petition filed in said court on the 7th day of August, A. **HAD TO QUIT WORK ON  
FATHER'S FARM**

Kept Going Down Hill—Takes  
Tanlac And Begins To  
Pick Right Up

"I never saw anyone pick up  
so fast as my son John has since  
he started taking Tanlac," said  
A. McGrew, a prominent and  
successful farmer of Dawson,  
Okla., recently.

"He suffered awfully from in-  
digestion and a general run-down  
condition of his system for the  
past six months," continued Mr.  
McGrew, "and his kidneys seem-  
ed to give him a good deal of  
trouble and he was going down  
hill all the time. He had a healthy  
appetite, but right after eating  
his food would feel like a lump  
of lead in his stomach and it  
gave him so much trouble that  
he got so he would hardly taste  
a thing on the table. He looked  
pale and sickly all the time and  
got thin as a rail and was so  
weak he just had to quit working  
on the farm. He just moped  
around all the time and couldn't  
get up energy to do a thing. He  
worried a lot about his kidneys  
and complained of having severe  
pains in his side and back and  
sometimes his back would hurt  
so bad he could hardly get up  
out of a chair.

"I read so much in the papers  
about the good Tanlac was doing  
for so many people that I got some  
for him and started him on it.  
He is still on his second bottle,  
but it has done him a world of  
good and he is looking much bet-  
ter than he has for a long time.  
His kidneys don't trouble him  
any more and he hasn't had a  
pain in his side or back in some-  
time. He has gained in weight  
and is stronger too and is able to  
get around and do anything he  
wants. The indigestion don't  
trouble him any more and he can  
eat a good square meal without  
any pain afterwards. Tanlac is  
the only medicine I have bought  
that has been of any benefit to  
my son and he is so pleased with  
what it has done for him that he  
is now telling all his friends  
about it."

Tanlac is sold in leading drug  
stores everywhere. (adv)

**FRIENDS APPRECIATED**

Editor Eagle:

Will you kindly allow us space  
to make a vain effort to show our  
appreciation of the hospitality,  
kindness and love so wonder-  
fully manifested in the celebra-  
tion of the 53rd anniversary of  
our marriage by the good peo-  
ple of Goldthwaite and other  
places. Language is inadequate  
to express it.

While we do not doubt the  
happiness of the cherubims and  
seraphims that vied around  
through endless space before the  
world was created singing  
praises to god on high, we do  
doubt if their happiness far ex-  
ceeded ours on this eventful  
occasion. We were filled to over-  
flowing, our cup ran over, all  
actuated by pure motives of  
love and friendship. Not for  
what we have, but for what we  
are and have been.

When our very accommodating  
mail carrier arrived she drove  
right up to our yard gate with  
her car loaded with the best of  
the land. Two mail sacks full  
of mottoes of kindest regards  
and mementos of love and affec-  
tion and sweet letters, post cards,  
etc., with bank checks of \$10.00,  
\$5.00 and other valuables too  
numerous to mention. Our good  
mail carrier kindly helped us  
to get our store of good things  
into the house and left us sing-  
ing, "Praise God from Whom all  
blessings flow."

While passing along down the  
pathway of time our minds will  
often point back to this day as  
one of the brightest in life's  
history with hearts filled with  
love to the donors of this happy  
occasion by the old couple who  
soon will have passed their four  
score years on earth and are  
now alone.

D. S. WARNER AND WIFE.

Hugh Moorland, who was bad-  
ly hurt by a door of a freight  
car falling upon him last week,  
has sufficiently recovered to be  
able to be up and about and it  
is hoped he will soon be entirely  
well.

**Now All You Good Fellows,  
Come Fill Up Your Pipes**

15c

The Velvet tin  
is twice as big  
as shown here

**I**F ever men are "Tom" and "Bill" to each other,  
it's when good pipes are a-going. If ever good  
pipes go their best, 'tis when Velvet's in the  
bowl.

For Velvet is a mighty friendly smoke.  
Kentucky Burley is the leaf that Nature made  
for pipes. Wholesome and hearty, honest as  
the day. And Velvet is that same good Burley leaf,  
brought to mellow middle age.

For eight long seasons Velvet "meditates" in  
wooden hogsheads, throwing off the rawness of  
"young" tobacco—truly "ageing in the wood." Out  
Velvet comes—cool, calm and generous—the tobacco  
Nature made good, kept good and made better.

Velvet's sweetness is the sweetness of good  
tobacco, not "put on" like "frosting" on a cake. Its  
mildness comes from natural ageing, not from having  
the life baked out. Its fragrance is true tobacco fra-  
grance, not a perfume. And Velvet makes an A  
Number One cigarette. Roll one.

As good old Velvet Joe says:

"Fill yo' heart with friendly thoughts,  
Yo' mouth with friendly smoke—  
An' let the old world wag."

### ROADS BOND AMENDMENT

At the time the amendment to be voted on in November proposing to authorize an issuance of state bonds up to \$75,000,000 for road building purposes was pending, the News earnestly advocated its submission. But as the News has since discovered, it advocated its submission under a misapprehension of the proposal. The News thought, as it imagines most others did, that the proposed bonds were to be secured by hypothecation of the motor license fees. It was aware, of course, that it also authorized the levy of an ad valorem tax to redeem the bonds, but its understanding was that the amendment was so phrased that that authority could be exercised only in the event the total of license fees should not be sufficient to liquidate the bonds, and then only to the extent that should be necessary to make up a deficiency. This is a condition of the proposed bond issue in the interest of the University and the Agricultural and Mechanical College and secured by the University's land endowment. The income from that endowment is dedicated to the redemption of the proposed bonds, and only in the event that income should prove insufficient would the use of tax for their redemption be warranted. Since that additional guaranty is necessary to make the bonds a first-class security, there could be no valid objection to that conditional grant of authority to levy an ad valorem tax, and the less so, since neither in the case of the University bond issue nor the proposed good roads bond issue is there any likelihood that the revenue primarily counted on for the redemption would prove insufficient.

But, as the News has since discovered, the authority the proposed roads amendment would confer for the levy of an ad valorem tax is in no sense conditional. It does not, as the News supposed it did, dedicate the motor license fees to the redemption of the bonds, authorizing the levy of an ad valorem tax for the payment of their interest and principal only in the event the license fees should prove insufficient. It makes no dedication of the motor license fees whatever. The consequence is that any future legislature could levy an ad valorem tax for the redemption of the bonds, leaving the motor license fees to be used as they are being used now.

For this reason, the News does not feel obliged by the fact that it urged the submission of this amendment to advocate its adoption by the people at the election to be held next November. In stead of advocating its adoption, the News has come to the conclusion that, all things considered, it would be better to reject it. While this is the chief reason the News has for this conclusion, it is not the only one. The proposal has the further fault of

affording no assurance that the roads which would be built with the money so derived would be permanent highways. It leaves us exposed to the danger that at least a large part of them would be of the character that we have become familiar with in Texas, roads which would disappear long before the bonds would. This danger will not be thought remote when it is considered how great will be the inducement to apportion the fund among political districts rather than spend it in the creation of a system of permanent highways. The likelihood that a future legislature would levy a tax to redeem the bonds is at least great enough to constitute a serious objection to this proposal.

The News believes that the defeat of the amendment, instead of arresting the cause of good roads, would advance it. For in that event the next legislature will be in a position to submit the proposition which this pending amendment was supposed to contain and also in a form and under conditions which will assure the use of the fund in the creation of a well-planned system of permanent highways, so that in voting for the bond issue the people will know that they are ordering the execution of a plan submitted for their approval. The News is the less reluctant to counsel the rejection of this amendment for the reason that, as Mr. Curtis Hancock showed in a statement printed some days ago, the money already in hand for road building purposes, to say nothing of the additional amounts that are pretty certain to be forthcoming from the Federal government, is more than it will be possible to spend during the next eighteen months or two years.—Dallas News.

### WILL ENFORCE LAW

The City Council has given me positive instructions to enforce all ordinances and I shall do so to the best of my ability. I ask all citizens to co-operate in this matter, in order that there may be no infractions of the law and consequent unpleasantness. Especially am I to enforce the law regarding automobile lights—head and tail—and traffic rules. These ordinances are well understood and I hope there will be no necessity for anyone to pay a fine for violating them. Be sure all of your auto lights are showing before you drive on the streets at night.

City Marshal.

### TROOPS IN MEXICO

The American troops crossed into Mexico Monday morning to hunt for the bandits who had captured two American aviators and held them for ransom. It is sincerely hoped that the troops will not be ordered home until they have established a stable and safe government in Mexico. President Carranza is not able to cope with the situation in the cactus republic and it is indeed doubtful if any of the tamale statesmen could exert sufficient strength or influence to relieve the chaotic condition down there and, therefore, it is necessary for the United States to take the lead in providing a government for the benighted, savage and treacherous people.

He was accompanied by his wife and son, A. F. Terry, and family and they made the trip in their automobile. They still live at Oglesby, Coryell county, where they have made their home since leaving here and are doing well.

The "watchful waiting" policy with Mexico has proven to be a complete failure and there are reasons for believing that this government will now take a firm stand in defense of American rights and American life. The bandits and other outlaws of Mexico, both in official capacity and otherwise, have preyed upon the people of this country long enough and the boldness with which the aviators in the service of this government were captured and held for ransom was outrageous in the extreme.

### CALOMEL DYNAMITES A SLUGGISH LIVER

Crashes into sour bile, making you sick and you lose a day's work.

Calomel salivates! It's mercury. Calomel acts like dynamite on a sluggish liver. When calomel comes into contact with sour bile it crashes into it, causing cramping and nausea.

If you feel bilious, headachy, constipated and all knocked out, just go to your druggist and get a 50 cent bottle of Dodson's Liver Tone, which is a harmless vegetable substitute for dangerous calomel. Take a spoonful and if it doesn't start your liver and straighten you up better and quicker than nasty calomel and without making you sick, you just go back and get your money.

If you take calomel today you'll be sick and nauseated tomorrow; besides, it may salivate you, while if you take Dodson's Liver Tone you will wake up feeling great, full of ambition and ready for work or play. It is harmless, pleasant and safe to give to children; they like it.
