FIRST BAILE.

Cotton Market Opens With High Price.

The first bale of 1919 cotton brought to this market was grown by W. E. Caulder in the Miller Grove community and was brought in Tuesday, September 2, about noon. It was ginned by Walter Fairman and sold to O. H. Yarborough at 31 1/2 cents per pound. The bale weighed 504 pounds which made the total amount to \$158.75 exclusive of the seed. The business community added \$41 premium to the price of the cotton, making the total \$199.75.

Last Year.

The first bale last year was brought in by Ernest Kaubs of Bulls Springs community on Aug. 6. It weighed 545 pounds and was sold to Lane Bros. at 27 1/4 cents per pound, which made \$148.51. To this was added a premium of \$28.85 by the business community.

CITY COUNCIL.

The city council held a regular monthly meeting Monday evening with all members present.

A considerable amount of routine business was transacted and an ordinance providing for water rates and restrictions was read a second time and some changes suggested.

The city tax rate for 1919 was placed at 65c on the \$100 valuation, which is the amount assessed last year.

The scavenger rate was increased to \$1 for public toilets and 50c per month for private toilets.

Messrs. H. G. Bodkin, O. H. Hearne and L. B. Ashley were appointed a board of equalization for the 1919 renditions.

The council will likely have a special meeting soon to perfect arrangements for installing water works for domestic use.

Mrs. Fred Martin and baby returned Sunday from a visit to relatives in Albany and Hico.

Mrs. S. P. Harper of near Star was an appreciated caller at the Eagle office Tuesday.

W. L. Brinson and wife are the proud parents of a new girl, who arrived at their home Sunday morning.

Most of the school teachers of the county have been in Lampasas this week attending the institute.

W. J. Philen's family has arrived in the city and will occupy the Weatherly residence on Parker street opposite Mrs. Roach's home. He is employed in W. L. Brinson's barber shop.

Oscar Burns and family of Clifton have been here this week visiting relatives. He was in Los Angeles at the time the strike was called, but was fortunate enough to get out on the last train.

R. L. Clemons, the Star jeweler and all around expert workman, was an appreciated caller at the office Monday. He has purchased a car and we can now hope for more frequent visits from him.

After spending some time here visiting her parents, Mr. and Mrs. G. W. Jackson, and family Mrs. Eva Skavlan left for New York to meet her husband, who is secretary to General Pershing and is expected home from France this month.

R. L. McKinney of Comanche county was here Monday looking after business matters and made the Eagle an appreciated visit. It is always a pleasure to meet with such good men as the McKinneys and the Eagle sincerely appreciates their long continued friendship. He gave us the pleasing information that it was within the range of possibility that he would move back to Mills county at no far distant day.

COTTON CONGRESS.

Local Delegates Named by State Commissioner of Agriculture.

Among the delegates appointed by State Agricultural Commissioner Davis three named from this county are Messrs. A. B. Bledsoe, Wm. Biddle and J. W. McNeil to attend the World Cotton Conference in New Orleans in October.

This great conference appears to be the culmination of a movement started some two years ago by Commissioner Davis looking to a producer's as against a speculator's cotton market in the south.

The movement has spread to all the Southern states and has assumed such proportions as to attract world-wide attention. The results of the great New Orleans conference may have vital bearing upon the future of the Southern cotton trade, especially as to its market phases, and we hope it may receive such consideration at the hands of our people as its importance appears to justify.

Commissioner Davis announces much gratification at the responses coming from delegates from all portions of the state, indicating marked appreciation by them of the importance of a great representation at the conference of Southern farmers and their friends and we trust our Mills county delegates will attend.

METHODIST CHURCH.

Regular services Sunday morning.

Subject: Difficulties which prevent many from joining the church.

Prayer and Bible reading Wednesday evening at 8:30.

A hearty welcome awaits you. Come and be with us.

W. G. CALLHAN, Pastor.

Cotton picking will begin in earnest in the next week or so.

Mrs. Oltrogge made a visit to Temple the early part of the week.

J. F. Priddy of Priddy was one of the good men who had business in the big town one day this week and made the Eagle an appreciated call.

Attorneys Darroch, Bowman and Price came over from the oil fields the first of the week to look after business interests. They report everything booming in the oil business.

Walker Brown returned the first of the week from a business trip to Oklahoma. He spent some days in several western towns and observed conditions, but found no place superior to good old Mills county.

Messrs. W. E. and D. T. Swindle have opened a garage at Indian Gap and called one day this week to have their stationery prepared. They are mighty good men and members of a mighty good family and the Eagle is indeed proud of their friendship.

When the Eagle's plan of placing a blue mark on papers to indicate that time of subscription had expired was first put in force some of our friends were inclined to consider such notice in the light of a "dun," but they have found that there was no ground for the idea, for it would be unreasonable to dun one who owes nothing. It is only a friendly notice that the subscription has expired and a request for a renewal. The Eagle is now on a strictly paid-in-advance basis and there is no danger that claim will be made for a subscription account. One can now subscribe for the paper one year or any other length of time without having it come on and on indefinitely and big subscription bill at the end.

Miss Mattie Thornton, who was elected to a position in the school here, has notified the board of her marriage and resignation. Miss Evelyn Northington of Temple was elected to fill the position made vacant by the resignation.

The Eagle editor and family announce with pleasure the receipt of an invitation to attend a banquet in the Hotel Alexander, Los Angeles, Cal., by the Theophilus school of Voice, incorporated. Losr. Fitz was reared in Goldtwo and his advancement in ear chosen profession has given his friends just cause for pride in him.

At a conference in the Baptist church Wednesday night Rev. M. A. Darby of Thorndale was called to the pastorate of the church. He has been notified of the call, but has not yet announced to the church whether or not he will accept, but it is hoped he will come. Rev. Darby is a brother-in-law of D. L. Lanford and preached for the Baptist congregation here some weeks ago, at which time he made a very favorable impression. The coming of this good family will be a matter of pleasure for the people of Goldthwaite, regardless of denominational alignment.

"FAKE" ASPIRIN WAS TALCUM

Therefore Insist Upon Genuine "Bayer Tablets of Aspirin"

Millions of fraudulent Aspirin Tablets were sold by a Brooklyn manufacturer, which later proved to be composed mainly of Talcum powder. "Bayer Tablets of Aspirin," the true, genuine, American made and American owned tablets are marked with the safety "Bayer Cross."

Ask for and then insist upon "Bayer Tablets of Aspirin" and always buy them in the original Bayer package, which contains proper directions and dosage.

Aspirin is the trade mark of Bayer manufacture of Monoaceticacidester of Salicylicacid. (adv)

THE SALVATION ARMY HOME SERVICE CAMPAIGN

What is the Salvation Army? It is the organization that has won its way into public affection by service. Unselfishness is the keystone in the arch of its existence.

The Salvation Army is the gallant band that carried doughnuts to the boys in the trenches. First in the field and last to ask aid. It again faces the future. Service to the home is now its objective.

The work of the organization is manifold. It covers the range of social insurance.

It carries hope to the wayward girl. It brings new ideals to the man who has lost those inculcated in his home training.

The work of the organization is manifold. It covers the range of social insurance. It carries hope to the wayward girl. It brings new ideals to the man who has lost those inculcated in his home training.

The Salvation Army is the organization that teaches a man that he can rise to the best in himself.

Not Alone Does It Appeal to the Lower Crust of Life

The public makes one mistake concerning the Salvation Army. Too often the impression becomes prevalent that it works only among the fallen and despairing. This is not true.

Enter the Red Shield Club. Here is a soldier with a magazine. Here is a neatly dressed workman in an easy chair. He is reading a magazine. A phonograph plays. Here is decency and cleanliness. This is one of the Salvation Army social centers for poor persons.

Make a trip to the girls' boarding house. Here you will find bright, cheery faces.

The girls are happy. They are well fed. Their room and board costs them less than very poor board and room in poor boarding and rooming houses.

This is the work of the Salvation Army. It provides social insurance. Economic pressure is not permitted to corrupt these healthy girls from the small towns and farms.

Evangelistic Work Takes First Place in Social Activity.

The evangelistic or field work of the Salvation Army is fundamental. The services are held in open air. The grossly sinful, the obviously lost, the morally impotent is invited.

The gospel is preached in words that will convey Christ to the simplest of men.

Immediate decision for Christ is the keynote of all open air addresses.

The field officer visits the poor in their homes. He learns their joys, their sorrow and needs.

Many thousands of men are redeemed annually from the gutter through the medium of the street service.

Temporary Relief Given to Millions Each Year.

In addition to the specific things enumerated in preceding paragraphs, the Salvation Army does a great relief work.

Each year hundreds of women are cared for in maternity homes.

Thousands of children are given refuge in orphanages and trained to become useful citizens.

Millions of men are given shelter in the working men's hotel.

Fresh air camps send joy of life to the poor from slums.

Employment is found for drifters by the thousands.

Light is carried into dark cells of prisons by Christian smiles and hands full of food and clothing.

Free groceries are supplied many families in every great city and very poor persons get their Christmas dinner free.

Garments by the millions are distributed from the store rooms.

Transportation is furnished for discouraged men and women who wish to return to their homes or work.

Service Costs Money Even When Carefully Managed.

Where does the money for this service come from? Not from the tambourine collections. That day has passed. The Salvation Army fills too big a place in the social life of the nation for any such uncertain plan.

Ask our soldier boys who have returned from the great world war and they will tell you of the many good things the Salvation Army has done for them. Their next great efforts will be their home service and they expect to carry their good works into as many needy homes and into as many needy things in our home country as the people of the United States will help them. We trust that the good people of Mills county will do our part in this campaign and thus show our appreciation for the kind treatment of our soldier boys and the many good things that have been done and will be done by the great Salvation Army.

Yours truly,
W. E. MILLER,
County Chairman.

Ex-President Wm. H. Taft

"I am thoroughly in sympathy with your work. I believe you reach people who are not reached in any other way. I believe that your experience in dealing with the slums of great cities are of the widest usefulness, and I am glad to testify to my high appreciation and admiration of those who are in charge of the Salvation Army, and the great good they have done."

GET COTTON PICKERS.

Estimates recently made by the agricultural bureau of the west Texas chamber of commerce indicate that not less than 50,000 cotton pickers will have to be imported into the cotton regions of west Texas to harvest the 1919 crop, now about ready to be picked. Meetings of farmers in various west Texas counties under the auspices of farmers' organizations have been held and generally the farmers are refusing to pay more than \$1.50 per 100 pounds for picking, and this rate appears to be almost uniform, though in some counties the farmers are offering \$1.25 per 100 pounds. In each instance the pickers are to board themselves, but farmers agree to board them at cost where desired.

It is pointed out that since the crop is so large and prolific in west Texas that \$1.50 per 100 pounds in west Texas equals better than \$2.00 per 100 pounds in south and east Texas.

In most instances farmers will have to advance railroad fares to laborers, most of whom will be Mexicans. The West Texas Chamber of Commerce has taken up through its Washington office the matter of the non-enforcement of the contract labor law as applying between the United States and Mexico in the matter of allowing Mexican labor to cross the border for strictly harvest purposes.

Orders for laborers should be placed immediately.—Bulletin of West Texas Chamber of Commerce.

The large number of Mills county schools without representation in the teachers institute in Lampasas county this week shows that there is an alarming shortage of teachers. More than twenty of the schools, the Eagle is informed, have not yet contracted for teachers.

Rev. J. W. Kelley announces the quarterly meeting for the Center City circuit will be held at Center City next Saturday, Sept. 13.

The president's labor day message is an address to the organized labor, in form it appeals to the country's citizenship, in substance. Its admonition is that we reimpose upon ourselves the moral discipline, called patriotism, which made the victory of our soldiers in France possible. The admonition is needed. The illusion that our perils and problems vanished with victory not only have we released ourselves from the duty of sustaining self-interest to that of nation, but we have in a measure taken license to recoup ourselves of what was then sacrificed. The bearing has given way to self assertion. The sense of right has been restored to the supreme which was enjoyed by the sense of obligation. The virtues which sense of patriotic duty was dominant during the war have been supplanted by their corresponding vices. In all this have proceeded as if peace and security were deemed to us by armistice which ended the war, whereas the reality is, as we begin to perceive that danger but let loose dangers differing kind but not in degree to those which were let loose by Germany's declaration of war. armistice proclaimed the sense of the effort to make the world safe for democracy, but only leave democracy under menaces which were a menace to society.—Dallas News.

Terrible Suffering From Headache,
Sideache, Backache, and Weak-
ness, Relieved by Cardui,
Says This Texas Lady.

Gonzales, Tex.—Mrs. Minnie Phil-
pot, of this place, writes: "Five years
ago I was taken with a pain in my
left side. It was right under my
left rib. It would commence with an
aching and extend up into my left
shoulder and on down into my back.
By that time the pain would be so
severe I would have to take to bed,
and suffered usually about three days
... I suffered this way for three years,
and got to be a mere skeleton and was
so weak I could hardly stand alone.
Was not able to go anywhere and had
to let my house work go... I suffered
awful with a pain in my back and I
had the headache all the time. My life
was a misery, my stomach got in an
awful condition, caused from taking
so much medicine. I suffered so much
pain. I had just about given up all
hopes of our getting anything to help
me.

One day a Birthday Almanac was
thrown in my yard. After reading
its testimonials I decided to try Car-
dui, and am so thankful that I did,
for I began to improve when on the
second bottle... I am now a well
woman and feeling fine, and the cure
has been permanent for it has been
two years since my awful bad health
I will always praise and recommend
Cardui. Try Cardui today. 78

At a conference in the Baptist church Wednesday night Rev. M. A. Darby of Thorndale was called to the pastorate of the church. He has been notified of the call, but has not yet announced to the church whether or not he will accept, but it is hoped he will come. Rev. Darby is a brother-in-law of D. L. Lanford and preached for the Baptist congregation here some weeks ago, at which time he made a very favorable impression. The coming of this good family will be a matter of pleasure for the people of Goldthwaite, regardless of denominational alignment.

"FAKE" ASPIRIN WAS TALCUM

Therefore Insist Upon Genuine "Bayer Tablets of Aspirin"

Millions of fraudulent Aspirin Tablets were sold by a Brooklyn manufacturer, which later proved to be composed mainly of Talcum powder. "Bayer Tablets of Aspirin," the true, genuine, American made and American owned tablets are marked with the safety "Bayer Cross."

Ask for and then insist upon "Bayer Tablets of Aspirin" and always buy them in the original Bayer package, which contains proper directions and dosage.

Aspirin is the trade mark of Bayer manufacture of Monoaceticacidester of Salicylicacid. (adv)

THE SALVATION ARMY HOME SERVICE CAMPAIGN

What is the Salvation Army? It is the organization that has won its way into public affection by service. Unselfishness is the keystone in the arch of its existence.

The Salvation Army is the gallant band that carried doughnuts to the boys in the trenches. First in the field and last to ask aid. It again faces the future. Service to the home is now its objective.

The work of the organization is manifold. It covers the range of social insurance.

It carries hope to the wayward girl. It brings new ideals to the man who has lost those inculcated in his home training.

The Salvation Army is the organization that teaches a man that he can rise to the best in himself.

Not Alone Does It Appeal to the Lower Crust of Life

The public makes one mistake concerning the Salvation Army. Too often the impression becomes prevalent that it works only among the fallen and despairing. This is not true.

Enter the Red Shield Club. Here is a soldier with a magazine. Here is a neatly dressed workman in an easy chair. He is reading a magazine. A phonograph plays. Here is decency and cleanliness. This is one of the Salvation Army social centers for poor persons.

Make a trip to the girls' boarding house. Here you will find bright, cheery faces.

The girls are happy. They are well fed. Their room and board costs them less than very poor board and room in poor boarding and rooming houses.

This is the work of the Salvation Army. It provides social insurance. Economic pressure is not permitted to corrupt these healthy girls from the small towns and farms.

Evangelistic Work Takes First Place in Social Activity.

The evangelistic or field work of the Salvation Army is fundamental. The services are held in open air. The grossly sinful, the obviously lost, the morally impotent is invited.

The gospel is preached in words that will convey Christ to the simplest of men.

Immediate decision for Christ is the keynote of all open air addresses.

The field officer visits the poor in their homes. He learns their joys, their sorrow and needs.

Many thousands of men are redeemed annually from the gutter through the medium of the street service.

Temporary Relief Given to Millions Each Year.

In addition to the specific things enumerated in preceding paragraphs, the Salvation Army does a great relief work.

Each year hundreds of women are cared for in maternity homes.

Thousands of children are given refuge in orphanages and trained to become useful citizens.

Millions of men are given shelter in the working men's hotel.

Fresh air camps send joy of life to the poor from slums.

Employment is found for drifters by the thousands.

Light is carried into dark cells of prisons by Christian smiles and hands full of food and clothing.

Free groceries are supplied many families in every great city and very poor persons get their Christmas dinner free.

Garments by the millions are distributed from the store rooms.

Transportation is furnished for discouraged men and women who wish to return to their homes or work.

Colleges are maintained for

training of officials for the Salvation Army service.

Medical attention is given hundreds who are too poor to pay a physician's fee.

Service Costs Money Even When Carefully Managed.

Where does the money for this service come from? Not from the tambourine collections. That day has passed. The Salvation Army fills too big a place in the social life of the nation for any such uncertain plan.

Ask our soldier boys who have returned from the great world war and they will tell you of the many good things the Salvation Army has done for them. Their next great efforts will be their home service and they expect to carry their good works into as many needy homes and into as many needy things in our home country as the people of the United States will help them. We trust that the good people of Mills county will do our part in this campaign and thus show our appreciation for the kind treatment of our soldier boys and the many good things that have been done and will be done by the great Salvation Army.

Yours truly,
W. E. MILLER,
County Chairman.

Ex-President Wm. H. Taft

GET COTTON PICKERS.

Estimates recently made by the agricultural bureau of the west Texas chamber of commerce indicate that not less than 50,000 cotton pickers will have to be imported into the cotton regions of west Texas to harvest the 1919 crop, now about ready to be picked. Meetings of farmers in various west Texas counties under the auspices of farmers' organizations have been held and generally the farmers are refusing to pay more than \$1.50 per 100 pounds for picking, and this rate appears to be almost uniform, though in some counties the farmers are offering \$1.25 per 100 pounds. In each instance the pickers are to board themselves, but farmers agree to board them at cost where desired.

It is pointed out that since the crop is so large and prolific in west Texas that \$1.50 per 100 pounds in west Texas equals better than \$2.00 per 100 pounds in south and east Texas.

In most instances farmers will have to advance railroad fares to laborers, most of whom will be Mexicans. The West Texas Chamber of Commerce has taken up through its Washington office the matter of the non-enforcement of the contract labor law as applying between the United States and Mexico in the matter of allowing Mexican labor to cross the border for strictly harvest purposes.

Orders for laborers should be placed immediately.—Bulletin of West Texas Chamber of Commerce.

The large number of Mills county schools without representation in the teachers institute in Lampasas county this week shows that there is an alarming shortage of teachers. More than twenty of the schools, the Eagle is informed, have not yet contracted for teachers.

Rev. J. W. Kelley announces the quarterly meeting for the Center City circuit will be held at Center City next Saturday, Sept. 13.

The president's labor day message is an address to the organized labor, in form it appeals to the country's citizenship, in substance. Its admonition is that we reimpose upon ourselves the moral discipline, called patriotism, which made the victory of our soldiers in France possible. The admonition is needed, to the illusion that our perils and problems vanished with victory not only have we released ourselves from the duty of sustaining self-interest to that of nation, but we have in a measure taken license to recoup ourselves of what was then sacrificed. The bearing has given way to desertion. The sense of right has been restored to the supreme which was enjoyed by the sense of obligation. The virtues which sense of patriotic duty has dominant during the war have been supplanted by their corresponding vices. In all this have proceeded as if peace and security were decided to us by armistice which ended the war, whereas, the reality is, as we begin to perceive that doctrine but let loose dangers differing kind but not in degree to those which were let loose. Germany's declaration of war armistice proclaimed the success of the effort to make the safe for democracy, but only leave democracy under its elements which were a menace to society.—Dallas News.

ago I was taken with a pain in my
left side. It was right under my
left rib. It would commence with an
aching and extend up into my left
shoulder and on down into my back.
By that time the pain would be so
severe I would have to take to bed,
and suffered usually about three days.
I suffered this way for three years,
and got to be a mere skeleton and was
so weak I could hardly stand alone.
Was not able to go anywhere and had
to let my house work go. I suffered
awful with a pain in my back and I
had the headache all the time. My life
was a misery, my stomach got in an
awful condition, caused from taking
so much medicine. I suffered so much
pain. I had just about given up all
hopes of our getting anything to help
me.

One day a Birthday Almanac was

its testimonials I decided to try Car-

KINDERGARTEN DEPARTMENT

By the United States Bureau of Education, Washington, D. C., and the National Kindergarten Association.

By MRS. P. B. TROWBRIDGE

A worsted ball, if kept clean, makes an excellent plaything for a little baby. If it is suspended from his carriage or crib it will help him to learn to focus his eyes and he will be amused by it for a long time. When the child is a little older, let him sit on a quilt on the floor and play with several balls in the six colors, red, orange, yellow, green, blue and violet. Each ball should have a worsted string of the same color attached to it. When the child is a little older still, play simple little games with him, such as rock-a-bye baby, pendulum of a clock, swinging the ball back and forth and up and down and in other ways that will occur to the mother. Unconsciously the child will acquire a sense of form, color, motion and position by such games. Say to him, "See the pretty round ball," "See the pretty red paper," and the child will delight to find and bring to you other things that are round like a ball and red like a paper. A set of worsted balls in the six colors can be obtained from kindergarten supply houses.

Long, slim clothespins make excellent playthings for babies. They can be used as babies or soldiers, or to make fences, trees, log houses and many other interesting things. Playthings that can be taken apart and put together again are good to have; also blocks with which the child can build all kinds of objects—engines that he can push along the floor, balls to bounce and throw, doll carriages, washing sets, etc. Dolls with clothes that button and unbutton and come off may be used to teach the children how to dress and undress themselves.

For older children kindergarten beads are very useful and helpful. They are in the form of half-inch wooden balls, cubes and cylinders, in the six colors and also in the natural stained wood. A shoelace or bodkin and cord is used for stringing them. I would suggest that to begin with that the child string balls only and all in one color. After he has made a long string of these ask if he would like to use one color and one of another and so on. In this way he will soon learn all the colors and numbers perhaps up to six or eight and will know one form.

What else is there with which little children's hands can be kept occupied? First of all, sand. Just turn the children loose in a pile or box of sand with a spoon, a pail, a cup, or anything with which they can dig or shovel. I personally do not like to have sand in the house, but if you have a suitable place for it, it need not make any trouble. An old kitchen table turned upside down with the legs cut short and put on the other side makes a good table for sand. A piece of burlap or denim placed under the table keeps the sand from being scattered over the house. Children can easily be taught not to scatter

with clay, a simple little cradle may be made. The child first rolls a piece into a ball, cuts it in half, with a string. One of these halves forms the lower part of the cradle. The other he cuts in two, using one piece for the top and remodeling the other into a ball for baby.

Birds' nests with eggs can be made with clay; also apples, oranges, cups and saucers and even animals may be attempted. In fact, clay has almost endless possibilities as play material. Plasticine is the best kind of clay to use, as it is easily handled and is always ready.

For little children, before they are old enough to use the scissors, tearing paper is an engaging occupation. Tear a piece of old newspaper into an oblong shape—it may be any size, about 2x4 inches we say. By folding this

in the middle, it will make a little tent. Again, fold in thirds turn both ends down for a table. The child can tear paper into trees, a ball, doll babies and many other simple shapes.

When the child is old enough he can begin to use scissors, but be sure to provide a pair with a blunt point that can not possibly hurt him. These will afford endless hours of amusement and profit. Have you found that "he cuts paper all over the floor?" Of course he does, but use this occasion to teach him neatness. Let him have his own little waste basket and he will delight in picking up the papers.

Let him cut pictures from old magazines and paste them into a book made from manilla wrapping paper. To make the book, take any desired size of paper, fold several sheets in half and sew them together along the crease. A pretty picture might be pasted on the front page, or the child could draw one on it. This will take many days' work, but all the time he will be learning many lessons in patience, concentration, neatness and accuracy, and will be developing artistic talent if he is apt at drawing. Best of all, he will be gaining power to do things. If, in his cutting, he comes to a picture that has a story, tell it to him. Do not criticize his work, as this may discourage him, but see to it that he does the best he can.

Let the child draw with colored crayons or "crayolas." You will be surprised at how soon and how well, under proper guidance, he will be able to use this means of expressing himself.

CO-OPERATIVE WORK.

Editor Eagle:

The following article taken from the Houston Chronicle so clearly states my idea about keeping the roads in repair that I desire it published in our home paper, that the public may have the benefit of it. The article says:

"Not that the public has failed to recognize the desirability of good roads, but that it has failed to contribute what it might toward their construction and maintenance, especially the latter.

Automobile owners, truck drivers and teamsters could do a great deal for the betterment of roads, not only by reports and kicks, but by using just a little intelligence and elbow grease now and then.

Many a hole that has cost considerable money by being allowed to go unrepaired might have been filled up without any great cost or inconvenience.

A proper public sentiment would inspire citizens to lend a helping hand in such matters.

It would cost very little, and it might save a great deal, to place a shovelful of dirt or gravel in the right place.

There is too much devotion to the idea that road upkeep is nobody's business except those who are specifically paid to look after it.

Such an idea is too technical and hard-headed to succeed.

When a citizen sees where he can do the county a good turn by expending five minutes of his time in repairing some deficit, he loses nothing by way of good citizenship in doing it.

There is nothing like an alert, wide-awake public sentiment to get results, except, perhaps, a public sentiment that is willing to take hold with its own bare hands once and a while.

Good roads are something which belong to all of us, and in which all of us ought to take a definite interest."

I believe all the people can endorse the sentiment of this article.

OWN A HOME

We believe in the institution
 called marriage. We believe no
 man has reached the fullness of
 life until he has a household of
 his own. We believe man should
 take unto himself a wife.

Human tradition and human
 law require that, having done so,
 he shall furnish her food and
 shelter. So far as shelter is con-
 cerned, to rent a room or a few
 rooms, or a house somewhere,
 fulfills the letter of that tradition
 and law. We doubt very much
 that it fulfills the spirit of them.

We believe that a woman may
 very properly demand that the
 shelter that is furnished her by
 her husband shall be theirs in
 fact as well as in name. We be-
 lieve that if we were a woman,
 we should demand it. We may be
 making trouble for some prospec-
 tive bridegroom in this town, but
 nevertheless we suggest to the
 bride-to-be that his ability or de-
 sire to furnish her with a home is
 a pretty good test of his character
 and affection.

We do not mean that no man
 should marry until he has the
 means with which to build. But
 he should not marry until he has
 the means to begin building or
 to begin buying.

Having begun to build or to
 buy, it means years, perhaps, of
 self-denial. It means going with-
 out this and doing without that.
 But, too, it means more than that.
 It means a bond of common sacri-
 fice that will unite man and
 wife closer than could the en-
 joyment of any luxury.

So we say to the woman, marry
 the man who is willing to give
 you a real home according to his
 means. And we say to the man,
 marry a woman who demands it.
 It is that kind of a marriage that
 is likely to result happily.

The ownership of homes makes
 for the spirit of co-operation for
 the good of the community, based
 upon full appreciation of the fact
 that no man's real success can be
 built upon the failure of those
 around him. Of the lasting im-
 pressions that one gains upon go-
 ing to a new town, are the charac-
 ter of its inhabitants and the
 character of the houses that they
 live in. One can very quickly tell
 whether the town is a home own-
 ing town or not, and if it is not a
 home owning community one does
 not want to make his home in it.
 Rather than invest his money
 among people who are satisfied
 with the poorer conditions to be
 found in the community where the
 inhabitants do not own their
 homes, the chances are that the in-
 vestor will take an early train
 looking for a more promising lo-
 cation. HOME OWNER

 be quite ill at the home of her
 father, Mr. G. B. Stark, of the
 Shiloh community.

Bro. F. A. Tippen returned
 Wednesday from Collin county

 meeting with several additions to
 the church.

G. B. Stark went to Brown-

 a widow was somewhere figuring

COTTON PICKERS SECURED.

A number of farmers and busi-
 ness men met in the court house
 Thursday afternoon to discuss
 the shortage of cotton pickers and
 agree upon plans to secure the
 necessary labor to harvest the
 crop.

W. C. Dew was made chairman
 of the meeting and Barton Smith
 secretary.

It developed that Mexican cot-
 ton pickers could be secured by
 advancing \$15 for each picker de-
 sired to pay railroad fare, etc., the
 amount to be collected out of the
 earnings of the picker.

Orders were entered for 75 pick-
 ers, who are to arrive by Septem-
 ber 18, and later orders will be
 filled as rapidly as possible.

Those who desire to employ
 Mexicans to assist in gathering
 the crop should file their applica-
 tions with Barton Smith at an
 early date, for there is a rush for
 them all over the cotton growing
 section.

WELLIE SAYLOR INJURED.

Wellie Saylor was badly injur-
 ed Tuesday afternoon when he
 fell from a tree onto a post at his
 home in Shaw Bend community.
 He was engaged in stringing a
 telephone line and was in the tree
 to attach the insulators. Using an
 axe he attempted to cut a limb
 out of the way. The axe struck
 another limb above his head and
 was knocked out of his grasp.
 Fearing it would fall upon him he
 jumped from the tree to a sand
 bank beneath, but in falling he
 struck a fence post with such
 force that several of his ribs were
 broken and it is thought one of
 them penetrated his right lung.
 The accident occurred early in
 the afternoon and it was nearly
 night before the physician could
 reach him. His wound was
 dressed and he was hurried to
 Temple sanitarium, where he has
 since remained in charge of the
 specialists. He is reported to be
 resting fairly well, and will
 probably recover soon if no com-
 plications set up. However, the
 injury is very serious.

GEORGE DENMAN DEAD.

The friends here of Mr. George
 Denman, sr., learned with regret
 of his death, which occurred the
 early part of the week at his
 home in Iola, Grimes county. His
 sons, George and Frank, returned
 yesterday morning from Grimes
 county, where they were called
 on account of his sickness and
 death.

Mr. Denman lived in Gold-
 thwaite a long time ago and at
 one time owned a wagon yard
 here. He moved to east Texas
 perhaps fifteen years ago, but has
 visited his sons in this county
 since that time and was here in
 the spring of this year.

The bereaved ones have the
 sympathy of their Mills county
 friends.

WRITE THE NEWS

The Eagle would be glad to pub-
 lish a letter each week from every
 community in the county, giving
 the local happenings and other
 matters of interest to the people.
 It is not necessary that these let-
 ters be framed in flowery words
 or that elaborate descriptions of
 events be given, but it is impor-
 tant that the happenings be chron-
 icle for the information of the
 public and the advantage of the
 community so represented. Arti-
 cles dealing with matters of public
 interest are also solicited. The ar-
 ticle must be clothed in proper
 language and the publisher must
 know the name of the writer.

If every community in the
 county could be represented in the
 columns of the paper each week
 it would indeed be a credit to the
 county and its citizenship.

SELECTING A WATCH

Of interest to every purchaser when he or she is selecting a watch for their own personal use or for a present is the satisfaction of knowing that from whom they are purchasing knows watches and is reliable and can be depended upon to give you lasting quality and a reliable time keeper. Your jeweler knows watches. He can tell you the watch that will give you satisfaction. He knows whether this watch or that watch will keep time under all circumstances. He knows all about the construction of a watch, the delicate parts, etc. Then when you buy your watch from your jeweler if anything goes wrong with it you can take it to him and he will gladly adjust it for you without cost. L. E. Miller, jeweler, sells Miller quality watches. When you buy Miller quality watches you have the assurance of knowing that you have real merchandise that will give you service that you will be proud of. Let us show you the real values we have to offer you in watches for ladies, gentlemen and boys. (adv)

SAVINGS CERTIFICATES

Have you seen the new Registered Treasury Savings Certificates just issued by the United States government? These Certificates are proving the most popular securities ever offered by this government and the Federal Reserve Bank of Dallas is shipping them out daily in large quantities. The Trent State Bank of Goldthwaite has purchased one of the \$1000.00 Registered Savings Certificates, all the law will permit any one person to hold. Go around to the Bank and ask to see it. They will be glad to show it to you and to take your order for one. The \$1000.00 certificates cost only \$840.00 if bought in September. The other \$160.00 is the interest you make by the purchase. If you do not want a big one, you can get one of the smaller ones at the same rate the \$100.00 ones costing \$84.00 if bought in September at any bank or post-office.

PROTECTION OF GRAIN

Several farmers protected themselves against loss to their growing grain by hail with a hail policy and many others wish they had taken the protection offered them, but waited too late.

Corn, cotton, cane, maize, etc., can be protected the same as small grain by a hail policy.

I now offer you protection against fire on your grain while standing in the field uncut, cut, shocked, stacked, sacked or stored in your granary anywhere on your farm, one policy covering in all these conditions.

Also tornado protection after grain is in granary or barn. The rates are very reasonable on this class of insurance.

I am also prepared to take care of your insurance needs in all respects, whether in city or country.

I can get bonds for those who have to give bonds of any kind. Notary work is also done, and will appreciate your business.

F. P. Knight of the old Algerita community died suddenly last Thursday between sundown and dark about 12 miles north of Brownwood. He and wife had been to see the four boys who are working with their teams in the oil fields and were returning home. They had stopped to camp for the night and death suddenly came without warning. Gastritis heart trouble is said to have been the cause. Deceased was 64 years old and had lived in this county 16 years, coming here from Williamson and Bell counties, where he was raised. Burial was in the Algerita grave yard Saturday afternoon in the presence of a large crowd of mourners. He leaves a broken hearted wife and 10 children surviving.

NEW WELL TO START

ENDORSES PATERNALISM.

Editor Eagle:

Brother Cobb's article in the last issue of the Eagle on long range shooting appealed to me so forcibly that I can not well keep silent.

We have never had the pleasure of meeting Brother Cobb and only know him from his pen, but admire his writing very much. It gets better and better all the time. I find a good way to find out a man is by his writing. From the abundance of the heart the mouth speaketh; therefore, I would judge Brother Cobb to be a gentleman, a scholar and a good judge of good preachers. As to his article on tobacco, I endorse it from start to finish. Every word and more. I only wish he had gone a little further and added tobacco's twin brother, coffee, to it. I guess he thought best to give it in broken doses. However, opiates, whiskey, tobacco and coffee need about the same condemnation on most points. We know from experience except opiates. We say to our sorrow that once we used whiskey, tobacco and coffee, but not for 40 years past. The day of these evils is passing away. The trend is now toward paternalism, some may choose to call it. The fatherhood of God and the brotherhood of man, or that old Democratic slogan, "the greatest good to the greatest number of people." Equal rights to all and special privileges to none.

We must legislate for the whole people. We must learn that we should be our brother's keeper.

Some years ago Senator Culberson said in a speech (at San Antonio, I believe it was) that he was opposed to paternalism in every sense. We are in favor of it in every sense. We find opposition to this principle since the day of Cain and Abel. We see it in Cain. We see it in Jonah and it took the stomach of a whale to convert him. Paternalism is Godism. Cain opposed it and Jonah opposed it.

In every commandment that was handed down from God to Moses Paternalism claimed a prominent part. The good of humanity was in it and covered the whole ground. Oppression of the weak by the strong is corrected by paternalism. Washington, Jefferson and Lincoln favored paternalism. Our congress is now carrying out its principles in handling the trusts. Profiteering has gone to extremes. Our government is at last taking recognition of how the citizenship is being imposed upon. True paternalism will put the unnecessary means for whiskey, tobacco, coffee, etc., out of the reach of the people when the evil results are observed and proved. A man has no moral right to appropriate his means for whiskey, tobacco, coffee, etc., when he has no home for his family, debts unpaid, children to educate, church dues to pay, etc. He is not dealing fairly with his fellow man or his God when he thus misappropriates his means. The Book says, "Owe no man anything but love." Again Brother Cobb, you are on the right track.

MAY ISSUE TIME WARRANTS

"The Enterprise is reliably informed that the Commissioners Court is considering the proposition of issuing time warrants to the amount of \$100,000.00 or more, to improve our public roads. The court will have a civil engineer in the county in the near future for the purpose of looking over the situation and give advice on the construction of road matters.

"The court has the authority to issue such warrants and as good roads are badly needed, the proposition will likely meet with the approval of the majority of the people."—Mullin Enterprise.

The above article is creating no little surprise and comment. Nor is this strange in view of the fact that only a few days ago the voters of Mills county defeated a proposal to levy a special tax of 15 cents per \$100 for roads. Now, I suppose the people thought they had defeated this measure, but they reckoned without their hosts.

There is no doubt that the people selected the wisest and shrewdest business men they had in their respective precincts when they elected these men to office. Their record in office bears this out, and they did not fall short in this instance. Instead of bowing to the will of the people (who don't know their wills) our commissioners court blandly raised the court house tax to the full limit of 25 cents per \$100, whereas less than 8 cents per \$100.00 is needed to pay the interest and create the necessary sinking fund to pay the court house bonds when due. In fact, ten thousand dollars of the bonds are already paid. If the readers will recall when the court house was built an estimate was made as to the amount of tax levy which would be necessary to pay the bonds and it was found that 8 cents per \$100.00 would be ample. The taxable values are greater now and the debt ten thousand dollars less.

What has that to do with the road tax you say? Well, I presume the court in their wisdom will just transfer to the road and bridge fund, as they have often heretofore done, all the money derived from this twenty-five cent court house tax, not needed to pay the bonds and get about 17 or 18 cents instead of 15 cents asked for. That is easy, and so are the voters.

But you say, why not submit to the people the matter of issuing one hundred thousand dollars in road bonds, instead of issuing county warrants, which will bear a greater rate of interest and have to be discounted, possibly, to enable the purchaser to get about 10 per cent of his money, as some have already done. Well, the commissioners are no fools. They know that such a proposition will be snowed under by the ignorant voters, just as I do, and will only add the expense of an election, and they need the money, know how to spend it, and want to earn their salaries of possibly one thousand dollars per annum each, to which they seem entitled, and it is well they should.

Now, in all seriousness, why should not the court issue the one hundred thousand dollars in road warrants, bearing 6 per cent interest, and why should they not sell them for a discount, and use the money on the roads. The law permits it, and the people, I am sure, want it, because the Mills county road bill sought to prevent this in Mills county, and you will remember how overwhelmingly we snowed that law under.

Again, the court knows more about what we need than do the people, and knows better than anyone else how to spend it. I understand we already have outstanding about ten thousand dollars in road warrants or script, and it seems to have come in handy, and why not issue more?

Again, why should we kick at such a little thing as county taxes? We are not paying near as much federal, state, county, city and school tax as we should any way. Do you know that the more tax a man pays the better he should like it. By all means let the court issue one hundred thousand dollars in road warrants, and more. In fact, better get all the money they can now,

and put it on the roads, even if all the tax rate hereafter will be needed to pay the interest and we will have no money with which to repair the roads. Let tomorrow take care of itself. That is what the commissioners court of an adjoining county did, and their roads are about like they were before the warrants were issued. They have not the money to repair them.

Now, since we elected these men to office, and they are running the business to suit themselves, and know more about the business than do the people, and need the money to spend, let them run it. In fact, I am afraid we voters of Mills county need to become a little more intelligent before we suggest to the commissioners how to run this business any way. They have proven themselves a whole lot smarter than the rest of us.

MOLINE.

Editor Eagle: As I have seen no Moline news lately, I decided to write the news of the community.

We have had too much rain lately. The farmers are nearly through with the threshing. Lots of the grain was damaged by the rainy weather.

Most of the farmers will begin picking cotton next week. That will be the order of the day for a while.

We had Sunday school Sunday afternoon and singing Sunday night with a large crowd present.

The Moline teachers are attending the teachers' institute this week at Lampasas.

Our school will be late in opening this year on account of so much cotton to pick.

Mrs. J. S. Worthington and little son Neal visited home folks at Vista this week.

Miss Edda Arrowood has returned home from Tehuacana, where she has been attending the summer normal.

Mrs. Lelia Worthington is visiting her sister, Mrs. Teet, at Lometa. She will return in a few days.

Private Wilburn Arrowood returned home a few days ago from the army. He has been in the army for nine months and has been stationed at the Panama Canal.

Prof. Arthur Adams, one of our home boys, has contracted to teach the Star school this coming year.

Mr. and Mrs. George Bostick have returned to their home in Brownwood. They have been visiting Mr. and Mrs. J. E. Elliott.

Miss Lockie Cook visited her sister, Mrs. Lena Adams, Thursday.

The entertainment in this community on the evening of August 20 was indeed enjoyable. Mrs. Robinson's music class gave a recital, after which there was a box supper and it was all enjoyed. The amount cleared was \$89.35, which will be used toward buying a piano for the school.

EVER SALIVATED BY CALOMEL? HORRIBLE!

Calomel is quicksilver and acts like dynamite on your liver.

Calomel loses you a day! You know what calomel is. It's mercury; quicksilver. Calomel is dangerous. It crashes into your bile like dynamite, cramping and sickening you. Calomel attacks the bowels and should never be put into your system.

When you feel bilious, sluggish, constipated and all knocked out and believe you need a dose of dangerous calomel just remember that your druggist sells for 50 cents a large bottle of Dodson's Liver Tone, which is entirely vegetable and pleasant to take and is a perfect substitute for calomel. It is guaranteed to start your liver without stirring you up inside, and can not salivate.

Don't take calomel! It makes you sick the next day; it loses you a day's work. Dodson's Liver Tone straightens you right up and you feel great. Give it to the children because it is perfectly harmless and doesn't grip.

Don't You Long to Own A Home

As you walk down a street of homey homes so attractive and modern and fine? As you see what a pleasure and joy they are, don't you think, "I wish one were mine"? You know you do, and so does your wife and all the folks at home. The great ambition of all your life has been--A HOME OF YOUR OWN.

WHAT'S THE REASON?

Many Goldthwaite People in Poor Health Without Knowing The Cause

There are scores of people who drag out a miserable existence without realizing the cause of their suffering. Day after day they are racked with backache and headache, suffer from nervousness, dizziness, weakness, languor and depression. Perhaps the kidneys have fallen behind in their work of filtering the blood and that may be the root of the trouble. Look to your kidneys, assist them in their work—give them the help they need. You can use no more highly recommended remedy than Doan's Kidney Pills—endorsed by people all over the country and by your neighbors in Goldthwaite.

Mrs. L. O. Stephens, Goldthwaite, says: "I can highly recommend Doan's Kidney Pills as they have brought me a great deal of relief when my back has been sore and my kidneys have been sluggish. I bought this medicine at Miller & Son's drug store, and can highly recommend it to sufferers of kidney trouble." Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Stephens had. Foster-Milburn Co., Mfgs., Buffalo, N. Y. (adv)
