LAMPASAS COUNTY TEACHERS WERE HIGHLY PLEASED WITH RECEPTION GIVEN THEM HERE

That the efforts of the ladies especially and the people generally of this city were much appreciated by the visiting teachers to the institute here last week, will be seen from the following items from the Lampasas Leader: Misses Elsie Moses, Gladys Ellis, Pauline Harwell and Nettie Martin have returned home from the teachers' institute at Goldthwaite, and report that they had a most delightful time. Special entertainment was provided for them each afternoon and night, and the best homes were thrown open to them. It was decided to hold the institute at Goldthwaite again next year, and also seemed enthusiastic to go back. * * * All of the teachers have returned from the institute at Goldthwaite and are highly elated over the hospitable manner in which they were entertained by the Goldthwaite people. An invitation was extended for the institute to meet in Lampasas next year, and enthusiastic speeches were made by Superintendent W. B. Toome, R. B. Twitty, Judge W. H. Adkins and Mrs. Ferd Matthews setting forth the claims of Lampasas as the logical place for the institute, but the unprecedented hospitality extended by Goldthwaite captivated the teachers from the other parts of the district, and when it was put to a vote Goldthwaite had the majority.

ART AND CIVIC CLUB.

On Wednesday afternoon of this week the Art and Civic Club held the first meeting of the new club year at the home of Mrs. Fred Martin. Plans for the new year were discussed and the club work entered into with enthusiasm. A picnic was planned for Friday afternoon at the lake. A number of guests came in and a delightful literary program was rendered. Leader—Mrs. L. R. Conroy. Roll Call—Pleasant events of the summer. Solo—Mrs. J. C. Darroch. President's address by Mrs. L. E. Miller. Summary of Club Work for Past Year.—Mrs. R. M. Thompson. Reading—A Woman's Price—Miss Lawrence Thompson. Music—Mrs. Lanford. The hostess served a delicious ice course. REPORTER.

J. W. GRISHAM, FORMER RESIDENT OF THIS PLACE, IS DEAD.

The following is from the Marlin Daily Democrat: The death of J. W. Grisham occurred in Marlin Wednesday night at the home of his daughter, Mrs. P. A. Lindsey. Deceased was a Confederate veteran, serving in the war between the states with Company C, First Tennessee Cavalry. Born in McMinn county, Tennessee, March 4, 1842, deceased later moved to Arkansas, coming from that state to Texas in 1879 and locating in the Durango community of Falls county. He later moved to Hamilton and Mills counties, where he resided, returning to Marlin about 10 years ago, since when he had lived there. Mr. Grisham was a member of the Christian church. Surviving deceased are his wife of this city, one daughter, Mrs. Lindsey, and four sons, W. E. of San Antonio, H. H. of Brownwood, Charley of Houston and Farmer Grisham of Marlin. The funeral of J. W. Grisham, who died in Marlin Wednesday night, was held at 10 o'clock Thursday morning at Old Union cemetery near Lott with services conducted at the grave by Rev. J. A. Mason, pastor of the First Christian church of this city.

Mr. Grisham lived in Goldthwaite for many years and is kindly remembered by a large number of friends here, who will regret to learn of his death.

W. M. JOHNSON, FATHER OF MRS. HOLLAND FRIZZELL, DIED AT WEATHERFORD

News was received here the first of the week of the death of W. M. Johnson, father of Mrs. Holland Frizzell, at his home in Weatherford, Texas, Saturday afternoon at 7:45. Mrs. Frizzell was at her father's bedside at the time of his death, having gone the middle of the week. Mr. Johnson was 89 years of age and was a well respected citizen of his section. Friends of Mrs. Frizzell extend their sympathy to her in this hour of bereavement. Mrs. Frizzell returned home Thursday morning, after having attended the funeral, which was at Weatherford, Sunday afternoon.

GOLDTHWAITE SCHOOL OPENED MONDAY; GOOD ENROLLMENT

Monday morning the Goldthwaite school opened its 1920-21 session. Everything started off smoothly with Prof. Hughes as superintendent. The first of the week was spent in getting the pupils classified and down to business. This term promises to be a very good one, as the line-up of teachers have been carefully selected by the school board and those who are not known by our people come well recommended.

WORLD'S NEWS IN BRIEF.

Malaria.—Malaria caused 3,500 deaths in Texas in the period from 1910 to 1919, according to statistics compiled in the state department of health.

Reunion.—Seventy-five thousand visitors are expected to be in Houston during the thirtieth annual reunion of United Confederate Veterans, Oct. 5 to 8.

Free Ride.—The oldest and youngest veterans of the Confederacy who attend the reunion at Houston, Oct. 5 to 8, will get a free ride in a racing airplane it is announced.

Contributions.—Contributions of \$125 have been received for a fund inaugurated for a Dallas county negro who served eight years of a life sentence for a crime of which he was innocent.

Movie Actress.—It is announced from Paris, that the body of Olive Thomas, wife of Jack Pickford, must be buried by surgeons to satisfy the law that her death from poisoning was accidental.

Mexico.—Mexico is on the verge of a general labor upheaval, according to reliable information received by military authorities in San Antonio. Settlement of strikes in Mexico have not been final, the reports say.

Woman Suffrage.—The state senate of Connecticut Tuesday ratified the federal suffrage amendment by a vote of 33 to 3. The house a few moments before adopted a resolution of ratification.

Socialist Revolt.—A Socialist revolt broke out in the city of Trieste, Italy, last Friday, and soldiers and Socialists, who were well armed, engaged in a struggle in the streets for several hours, the soldiers winning. Many casualties were reported.

Coal Miners.—The British government has informed the coal miners of that country that they must back down on their demands or they will be fought with every resource at the government's command. A strike is expected.

Navy.—Ships of the United States navy are rapidly deteriorating for lack of funds to carry out necessary repair work, Secretary of the Navy Daniels has announced. More money will be asked for at the next session of congress.

Air Mail Routes.—Contracts for three new air mail routes were awarded Tuesday by the postoffice department to the Lawson Airline Company of Chicago, at a total cost of \$685,000. Passengers as well as mail will be carried.

Chicago Primaries.—One man killed, several others beaten and a half dozen arrested on charges ranging from election fraud to assault to commit murder, marked the balloting in Chicago's primary election Wednesday. A deputy sheriff was kidnaped by a band of armed men who attempted to vote twice.

Special Session.—The Texas legislature was called to convene in special session on September 21, by Governor Hobby Wednesday. The purpose of the special session is to give consideration to the subject of safeguarding the general election of November, 1920; to consider the Galveston situation and other matters.

EX-SERVICE MEN TO BE FURNISHED VICTORY MEDAL BY ARMISTICE DAY, NOVEMBER 11

Lieutenant Ira C. Dimmick reports that it is the aim of the Dallas Victory Medal Office to furnish every ex-service man with a Victory Medal by November 11.

These medals are being awarded by the war department to all men who served in the army of the United States between April 6, 1917, and November 11, 1918, and whose service was honorable. If you have not received your medal yet you should apply, in writing or in person, to the Army Recruiting Office, Victory Medal Section, 1514 Main Street, Dallas, or to any American Legion Post.

SCALLORN.

Editor Eagle: I will drop the dear old Eagle a few crumbs. We are having some pretty weather after so much rain.

Gathering corn and cotton, cane and making syrup is the order of the day. Cotton is opening some. The 10 weevil has damaged the cotton in some fields.

There were a good many from the community who attended the Christmas meeting at Lometa last week.

Russell Ford spent several days with home folks last week.

Misses Lina Bradley and Vonnie Laughlin took the train Sunday morning at Lometa for Brady, where they will spend the week with Web Laughlin and family.

Miss Ora Ford went to Goldthwaite Saturday to visit her aunts, Mesdames Minnie Rahl and Mary Mauldin, and other relatives and friends.

Lindsay Ashley and family spent Sunday with Frank Hines and family.

J. W. Morgan and wife attended church Sunday at the Whittenburg ranch.

Prentiss Rahl spent Saturday and Sunday in the home of his aunt, Mrs. A. B. Ford. He and Joe and Sherwood Ford attended church at Lometa Sunday night.

Mrs. Kate Conradt and son of the Long Cove community spent several days with her parents, Mr. and Mrs. T. E. Elliott.

Mrs. A. B. Ford, J. M. Fleming and J. D. Ford have returned home. They visited at Brady and Junction. They say big rains have fallen out there and grass is fine and stock fat.

Earl Greer took the west-bound train Tuesday on a cotton picking tour. We wish you success, Earl.

Mustard White Ford is at Brady picking cotton for his brothers, Hassell and Delma.

Hardy Bradley and wife and son of Brownwood visited his father and C. H. Black's family. XX.

WASHBOARD SCHOOL.

In an election held recently the citizens of Washboard unanimously voted to raise their school tax to 50c on the hundred valuation and also voted a bond issue of \$2,000 for the purpose of making permanent improvements on the buildings. This increase of tax to 50c makes this a state aid school and they will get quite a bit of money from the state as a consequence.

COTTON CROP BEGINNING TO COME IN; GRADE FAIR; PRICES ARE GRADUALLY INCREASING

This week the 1920 cotton crop began to come in. During the week quite a few bales have been ginned and sold here and it is thought that many will be brought in today.

The grade of cotton this year, it is thought, will be better than last year's, although some of it is damaged by boll weevil stings.

The price is steadily increasing now. Some of the buyers Thursday paid as high as 27.50 for strict middling as compared with 25.25 a week ago. There is no way to judge whether it will keep this up or not, but reports for several organizations started for the purpose of preventing the speculators from forcing the price down, indicate that the prices will be favorable all fall.

It appears that the crop was not damaged as badly as was thought a week or two ago. The dry hot weather of the last two weeks has materially benefited the cotton over the county. Should this weather hold, a great deal more cotton will be made. Estimates of cotton men indicate that a crop of about 60 per cent of normal will be made this year. Last year approximately 7,500 bales of cotton were weighed here. But, last year hundreds of bales were carried to other points on account of the condition of the roads. Now our roads are all possible and most of them are as good as will be found at other points. Should we get only cotton from the same sources as last year, something like five or six thousand bales should be brought here. However, many people whose logical trading place and whose preference is for Goldthwaite will come here this year—they couldn't get here last year—and our cotton crop should be around 7,500 bales.

With a good market and the farmers all in pretty good condition, old Mills will soon be on the boom again.

It is up to the merchants and cotton buyers of this town to see to it that this is the best market for cotton and the cheapest place to trade for the people of this trade territory, and we believe that they will do it. Now or never is the time to get back that business we could not hold last year.

If any of the readers of the Eagle are able to get better prices for their products or buy their goods cheaper in other towns, we shall appreciate it if they will drop in or write us and advise us of the circumstances. We believe our merchants are selling as cheaply as any in Texas. If you have a kick on the way Goldthwaite is treating you, tell us and we will do everything in our power to remedy it.

NEEDN'T PAY TEXAS POLL TAX THIS YEAR IN ORDER TO VOTE

Austin, Texas, Sept. 15.—All men and women in Texas who are otherwise qualified to vote may participate in the general election to be held Nov. 2 without payment of poll tax, according to an opinion from the Texas attorney general made public late today by the governor, who declined to comment upon it.

Male inhabitants are still liable for the payment of a poll tax, the opinion said, but failure to pay the same will not disqualify a man from voting who is otherwise a qualified voter. The opinion said that the suffrage amendment is now recognized by the federal government as part of the constitution of the United States and that all states are prohibited from exercising discrimination against citizens who desire to vote by reason of or on account of sex.

RESOLUTIONS ADOPTED BY THE MEMBERS OF INSTITUTE HELD HERE DURING THE LAST WEEK

Following is a copy of the resolutions adopted by the members of the institute for Mills, Lampasas and Burnet counties on Friday afternoon of last week in their last session:

We, your committee on resolutions, beg to submit the following:

Be it Resolved by the Teachers of Mills, Lampasas and Burnet Counties, in Convention Assembled:

1. That we offer to Judge Weaver, who has been untiring in his efforts in arranging for the institute an interesting and profitable program, and for the business-like manner in which he has conducted the Institute during the entire week, our heartfelt appreciation.

2. That the coming of Dr. Gray into our midst has been both beneficial and uplifting to all the teachers of the Institute. The practical lessons received from his lectures will be a lasting value to each throughout his teaching career.

3. To Mrs. Cross we extend our heartfelt thanks for her splendid inspirational lectures and for her invaluable help along primary lines. Mrs. Landrum's address on Home Economics was instructive and helpful to the teachers. Much good is being accomplished by the organization of the Girls' Clubs.

4. Whereas the citizens of Goldthwaite have through their generosity financed this Institute, opened their homes for the entertainment of the teachers, permitted us to use the comfortable and commodious Court House, we extend to them our thanks and kindest appreciation. We also extend the same appreciation to the members of the Baptist church for its use, and to the ministers of the different denominations for their faithful attendance and services.

5. Whereas the ladies through their hospitality have made it possible that every moment spent here be one of true enjoyment and recreation as well as of profit, we unanimously thank them for this hospitality. We especially mention the cordiality shown us upon our arrival, and the welcome given by Mayor W. L. Jones. The Institute showed its appreciation of the reception on Tuesday evening by the attendance of the entire body. Every one was made happy when it was announced that we go to the Lake for an outing on Thursday afternoon. Nothing was left undone to make the occasion complete in recreation. An appetizing lunch added to the pleasures of the hour. We also wish to thank each one who in any way contributed to our entertainment while in Goldthwaite. To those who had part in the arrangement of the recreational period of the daily program, and to those who responded, we extend our thanks for the musical selections and readings which showed the excellent talent of the city. To Mr. Twitty, chorus director, and Miss Garner, pianist, we also extend our thanks.

6. Whereas, Supt. T. L. Price for fourteen years has labored untiringly, unselfishly and efficiently in the cause of education in the counties of Mills, Lampasas and San Saba as teacher and co-laborer in the Tri County Institute and as Superintendent of the Public Schools of Goldthwaite, and whereas, he feels called to another profession, believing that it offers him wider opportunities; therefore, be it resolved that we express our appreciation of his past services and that we regret to lose him from the teaching profession, and second that we believe in him and are persuaded that his action is prompted by unselfish motives and we have reason to hope that the cause of education will be further advanced because of his great opportunities. Third, our ardent friendship and kindest wishes are toward him for a gusher of success wherever he goes and whatever he undertakes. Fourth, should he ever be led to reconsider and re-devote himself to his former profession, we shall gladly welcome him as a co-worker and expect a still greater devotion and efficient service by reason of his experience.

That we heartily indorse the recent and progressive forward educational aims of Texas edu-

cators, and hereby lend our aid and support to the carrying into effect of these educational ideals which have so much to do with the future citizenship of Texas.

8. We indorse and favor the present plan of Joint Institute as being the best and most efficient method yet devised of accomplishing real benefits to the schools.

9. That we personally indorse the educational plank as framed and adopted by the Democratic Convention recently held in Fort Worth, Texas.

10. Whereas, we believe the League of Nations covenant to be the greatest instrument of government ever framed by human mind, and that the influence of its author, Woodrow Wilson, will live and endure after those who oppose and criticize him are forgotten, and whereas that splendid address we enjoyed from the Hon. Judge Jenkins of Brownwood is a clear and forceful exposition of the meaning and purpose of the League of Nations and the objections submitted by the Lodge resolutions, and is a message not to be heard and enjoyed and remembered by his audience only, but is a message worthy to be read and studied by every voter of this great nation, not only of our respective districts, but at least throughout the wide expanse of our great Lone Star, and cause not a twinkle, but a bright and steady gleam until others shall join in the chorus and all the woods and templed hills of our beloved America shall re-echo the Heavenly harmony of "Peace on earth, good will to men."

Therefore, be it resolved:

(1) That the members of this Institute and such others of kindred feeling and inclination contribute the finances necessary for a wide circulation of Judge Jenkin's message in pamphlet form.

(2) That each of us personally endeavor to publish it, either through our schools or public press.

(3) That it be offered to the Associated Press and mailed to friends remote from us with the request that they extend our efforts.

(4) That we instruct our chairman to appoint a committee to carry into effect this plan.

11. Whereas, Hon. E. B. Anderson so ably instructed us in regard to the School Amendment which is to be voted upon this fall, and considering that our rights and liberties and our posterity can be secured to us only through the work of our public schools, and whereas the depreciation of money has reduced the value of our public school fund and tax rates to the extent that they are inadequate to present needs, and whereas for skill and even meager education and common labor other professions and industries are over-bidding the much-to-be-honored vocation of teaching, and whereas this over-bidding, together with the ever increasing high cost of living, tends to reduce the already inadequate teaching force of our state and nation, and whereas the honorable members of the Thirty-Sixth Legislature endeavoring to save our public schools, have submitted to the voters of Texas a constitutional amendment removing the 50-cent limit to taxes voted by independent and common school districts, thereby authorizing communities that love their children and humanity more than their money to secure into them their rights to education, therefore be it resolved by the teachers and superintendents of the schools in the counties of Mills, Lampasas and Burnet in their joint county Institute assembled at Goldthwaite, Texas:

(1) That the above mentioned conditions constitute a crisis and a public calamity that threaten all for which our forefathers dedicated their life's blood upon the altar of Bunker Hill and our own sacred Alamo.

(2) That we as teachers owe it to our country, to our state, and to those who look to us as leaders and guardians of the future to do our utmost towards promulgating in our respective communities and counties the full meaning and importance of the above mentioned constitutional amendment.

(3) That we earnestly endeavor to convince the opponents of this measure that in adopting it the people of Texas will honor and perpetuate the memory and designs of the worthy framers of both our state and national constitutions, and that in failing to adopt this amendment they will enslave the present, dishonor the past, and sacrifice the future.

WONDERFUL MUSICAL REVUE FAIR EVENT

Emile de Recat, Famous Producer, to Present Original Show.

Assuring the people of Texas and the southwest a wonderful and entirely original Coliseum show for the State Fair season by a daring adven-

ture into the production game, the State Fair management will present, beginning October 9 and ending October 24, Emile de Recat's latest and most famous production. It will be in the nature of a musical revue, giving world events in song and dance. De Recat is a genius in costuming, stage decorations and effects. He will be given free rein to make the State Fair revue the most wonderful in the way of costumes and stage scenes that has ever been produced in the South.

"There will not be a dull moment in this great revue," says Secretary W. H. Stratton, who visited a week at de Recat's studio in Chicago. "The singing and dancing will be extraordinary. Introducing as it will ten principals and a chorus of twenty-four beautiful girls. The costumes will make every scene one of dazzling, vivid beauty. In addition four unusual specialty acts will round it out."

Three carloads of scenery will be needed to stage the revue, which will be shown in Dallas for the first time, making the State Fair rank with New York and Chicago for original productions.

COX'S CATTLE MAY VISIT STATE FAIR

Democratic Presidential Nominee is Owner of Fine Herd of Herefords.

Visitors to the livestock exhibit of the State Fair of Texas—October 9 to 24—will likely have an opportunity of seeing some of the famous Hereford breed raised by Governor James M. Cox of Ohio. Plans are being made to bring the pick of the Democratic nominee's herd here during the Fair and enter them in the contest for the livestock awards.

Assurances that the livestock exhibit this year will far excel any previous exhibit held here are made by Secretary W. H. Stratton, who has just returned from a trip to Chicago, where he visited a number of prominent cattlemen whose prize herds will be seen here this fall. Mr. Stratton declares that the coming Fair is arousing more interest in the North and East than ever before and that scores of cattle raisers from the Chicago district alone are already making plans for the trip during October.

Cattle, swine and sheep will have a prominent place in the exhibit and entries for all divisions have already begun to pour in. Those in charge of this department of the Fair are fired with enthusiasm over the prospects of staging the greatest livestock show that America has ever seen.

SCHOLARSHIP AWARDS EVENT FOR YOUNGSTERS

The awarding of seven college scholarships will be one of the many features of the Boys' and Girls' Educational Encampment to be held at the State Fair of Texas, October 9 to 24. It is estimated that more than 1,000 boys and girls will attend the encampment and each will be given an opportunity to win a prize.

In addition to the six scholarships announced recently, T. B. Trullit & Son of Waxahachie, Texas, have offered an A. & M. College scholarship for the best acre of cotton grown by a member of a Boys' club.

The encampment, which has been organized now for several years, is a very important factor in keeping boys and girls of Texas interested in farm work.

BOOKER T. WASHINGTON'S DAUGHTER URGES NEGROES TO EARN, SAVE, INVEST

Dallas, Texas.—Portia Washington Pittman, daughter of the noted negro leader, Booker T. Washington, wife of W. Sidney Pittman, a negro architect in Dallas, insists that now is the time when negroes, above all others, should earn, save a part of their earnings, and invest in government securities. "Negroes are now earning more than ever before in their lives," she said. "They should save and invest it so it will comfort and give them the things they need so much when age or sickness or death overtakes them. The War Savings Stamp and the Registered Treasury certificates are absolutely safe investments and make their owners better citizens."

THE CHRISTADELPHAN FRATERNAL GATHERING, GOLDTHWAITE

Editor Eagle:

Previously advertised, a goodly number of brethren and friends gathered at the grounds known as the "Jeff Davis Camp" Thursday, August 12, 1920. But because of the threatening weather and the late arrival of Bro. Zilmer, who was with the writer, the opening service was postponed until the following day.

At 11 a. m. Friday, Aug. 13, Bro. Zilmer ably entertained a fair sized and appreciative congregation, composed principally of those who were in camp on the grounds. Subject, "The Divine Plan of the Ages."

At 3:30 p. m. we assembled at the tabernacle and were well entertained by Bro. R. E. L. Bourland of Ames, Iowa. Subject, "The Faith."

We were again highly entertained and needfully instructed at 8 o'clock by Bro. A. H. Zilmer on the subject, "Does It Matter What We Believe?"

August 14, at 11 a. m., we had a real feast in the form of a most wonderful discourse from Bro. Zilmer on the subject "What Is Fellowship?" And at 3:30 p. m. Bro. T. K. Maynard ably instructed us on "The Promise."

At 8 o'clock p. m. we listened to a most wonderful discourse, presented by Bro. Zilmer, on the subject, "Plan, His Origin, Nature and Destiny."

Aug. 15, at 11 o'clock a. m., Bro. Zilmer showed us by the scriptures "How Men Become the Sons of God."

At 3:30 we assembled at the tabernacle and after listening to interesting talks from Brethren T. K. Maynard, R. E. L. Bourland and Dr. J. L. Spradlins of Dallas, about fifty partook on the emblems which represent the broken body and the shed blood of our Lord and Savior Jesus Christ.

At 8 o'clock Bro. Zilmer made us rejoice by showing us that Zionism is an important sign of the times.

Aug. 16, 11 a. m. Bro. Zilmer scripturally showed us that eternal life is the gift of God through Christ, not an inheritance from Adam. At four o'clock the subject, "What Must We Do to Be Saved?" was ably presented by Bro. T. K. Maynard. At 8 o'clock, a large and attentive congregation listened to a very interesting and instructive discourse which was delivered by Bro. Zilmer on the subject, "The Relations of the Most High to the Affairs of the Nations."

Aug. 17, at 11 o'clock, Bro. Zilmer ably spoke to us on the subject of repentance and conversion. We met at 3 o'clock p. m. to attend to the business part of the gathering, at which time we agreed (the Lord willing) to hold our next fraternal gathering at Goldthwaite, Texas, and after raising the necessary funds to pay the expenses of the meeting and some to help the speakers, A. H. Zilmer and T. K. Maynard, to pay their traveling expenses, we unanimously invited them to attend our next gathering, to which invitation they assented, the Lord willing.

Mr. S. H. Riggs and wife of Oil City, La., and Mrs. B. C. Armstrong (his sister) of Wichita Falls, Texas, having made application for baptism and demonstrated their fitness for same, we proceeded to a pool of water near by, where Bro. M. M. Rouse assisted them in putting on the Christ name in the appointed way.

At 8 o'clock Bro. Zilmer made a brilliant talk to a very large and attentive congregation on the subject of the "Millennium."

Aug. 18, at 11 a. m., Bro. Zilmer made us another one of his enlightening lectures on the subject of "The Bride the Lamb's Wife."

7:30 p. m. Bro. Zilmer highly entertained us on the subject of Hell and the Devil, which ended our meeting for this year.

We desire to thank those good people of Goldthwaite and especially the "Old Confederates" for the kindness and favors they bestowed upon us and we desire to inform them that the Lord being willing and provided satisfactory arrangements can be made for the tabernacle and grounds, we will again hold our next annual fraternal gathering at the same place near the same time of the year and will again have Bro. A. H. Zilmer of Waterloo, Iowa, with us. From all I heard I am very sure all were well pleased with the meeting, many declaring it was one of the best if not the best meeting they ever attended. If the Lord delays His coming, we sincerely hope for another such meeting in 1921. Brethren, let's all begin preparing to be there and do our best to make it even better. To this end I pray God's blessings upon all.

FACING THE FACTS

FOOD FOR THOUGHT FOR THE CALAMITY HOWLER AS SET FORTH BY MR. C. A. BROWNE LL OF FORD MOTOR COMPANY.

It is very peculiar, this human nature of ours, because 90 per cent of the men and women are very sick to see the clouds of trouble and to miss the bright sunshine of pleasure. Let a rumor emanate from an insane asylum that there is going to be a failure of the crops, and the multitudes commence to mourn right away. Seems as if people like to be in trouble.

And so it is that there has spread over this country an almost universal belief that we had to have a financial panic; we must have a commercial depression; we were due for a period of hard times; Hades was to pay and no pitch hot. Rumor upon rumor of shortage in crops, shortage in mechanical production, shortage in labor; in fact, it seemed as if the whole world was going to be so dog gone short that it was liable to drop into a hole and disappear. The prophets of cheerfulness were like the proverbial hen's teeth—few and far between.

Now let us look at the facts, for never before in the history of civilization has mankind had a more roscate future to vision, and this applies to every part of the globe, as we could prove if we had the time and the space.

But let us just take America. Never in our history has there been so much money, real, honest-to-goodness cash, in the United States as there is today. This country has been growing in wealth in leaps and bounds, because we have the best educated people in the world; the most moral people; the most humane people; people with more initiative than obtains among any other people on earth. Then we have a country whose unlimited natural resources represent wealth untold. We were coming to the mastery of the wealth of the world before the war. For instance, in 1913 this country produced \$14,000,000,000 more than it consumed. Then the war came on and our production was hurried until in 1917 we produced \$18,000,000,000 more than we consumed.

We loaned to the nations of Europe in excess of \$30,000,000,000. With the exception of some \$3,000,000,000, this money remained in America and was spent by the borrowers in our markets. It was not taken out of America—it is still here. Since the war closed hundreds of millions of gold have been sent into the United States by foreign countries in payments of their debts.

Then in 1919 our production was the largest in the history of the country. We produced more goods than we did in 1917, and we had an eager market for everything we produced, and all we sold brought the money to America—it's here.

Take this statement by John Fletcher, Vice President of the First National Bank of Chicago: "The United States is far and away the richest country in the world. The aggregate deposits of its banks are billions more than the combined deposits of all the banks in the world outside the United States. We have more actual cash than any other nation and in the last few years have obtained an almost unbelievable supremacy in trade."

Now with this vast accumulation of money, how can we have a financial

panic; how can we have a commercial depression; how can we have hard times? Impossible!

There was naturally a reconstruction period which must follow after a world conflict. After our own Civil War in 1861-65 we were ten years passing through what was called the reconstruction period, during which our money went down to fifty cents on the dollar.

We are going through the present reconstruction period inside of three years and our money is at a premium the world over.

Talk about hard times; talk about depression—nonsense!

Let us tell you that there is one hundred years of prosperity right at the doors of the people of the United States. We won't have men and women enough to manufacture all that is necessary to meet the demand. We are producing more today than ever before in practically every line unless it be ship-building, and that will come back. We have millions of acres untilled. We have billions of lumber uncut. We have billions of gold, silver, copper and lead to be unearthed. Oil is being found in every state in the union. All the resources of the country are coming to the surface, and we are going to be the busiest people that humanity has ever known, and likewise the richest.

The financial center of the world today is in New York. The center of civilization has passed from the Old World to the New, and now rests with us. We are great. We don't want to boast, but we want to know our strength and our power. If any band of bankers or politicians think they can hoodwink the American people, they have got a mighty sharp lesson coming very quick. The intelligence of the American people won't tolerate any speculative crisis. Honest business is too big in volume, too intense in value, for the American people to be sidetracked by the speculators and promoters.

Go to it—build and equip and prepare yourselves for a future rich in development, rich in production, rich in business and rich in profits.

Good wages, lots of work, the profiteer eliminated, cheerfulness, courage, optimism filling every nook and corner of America. Let there be no hesitancy—hang your banners on the outer walls and sound the trumpets of triumph—success is here.

The fiscal year of the Ford Motor Company ended July 31, 1920, and in that year they made 996,660 cars and 80,008 Fordson Tractors, besides having unfilled orders on file for more than 200,000 cars and many thousand tractors, which means an increase over all past production by more than 20 per cent, and next year their plans are to make 1,250,000 Ford cars and 250,000 tractors. Do you suppose that this company is guessing? Not for a minute. Other industries are the same. Get a hustle on. Talk prosperity and act prosperity. Keep busy and you can't help but enjoy prosperity. Spend your money—it's no good idle. Do your share and make the next century a golden era in which all humanity will be lifted up to a higher plane of productivity, comfort, happiness.

SALVATION ARMY ADVISORY BOARD FOR MILLS COUNTY TO START DRIVE OCTOBER 1.

At a meeting of the members of the Mills County Salvation Army Advisory Board for the 1920 Home Service Campaign of the Army Thursday morning, Mills county's quota of the Salvation Army's state budget for 1920 was accepted, and an active campaign will be inaugurated beginning October 1. The campaign for donations to this cause will extend into every section of the county, and chairmen of committees for each precinct were appointed and given authority to select a committee to help in the work. The chairmen of the financial committees for each precinct are as follows:

- W. E. Miller, Goldthwaite.
- Wm. Biddle, Center City.
- Dr. W. H. Jones, Mullin.
- Robert Robertson, Big Valley.
- T. E. Hamilton, Star.
- T. R. Priddy, Priddy.
- J. N. Evans, Moline.
- W. H. Thompson, Caradan.
- J. T. Robertson, Rock Springs.
- Wilbur H. Wood, Regency.
- Rev. D. L. Haralson, Nabors Creek.
- W. J. Weatherby, Lake Merritt.
- J. M. Poer, Mt. Olive.
- T. F. Elliott, Antelope Gap.
- G. W. Tippen, Hanna Valley.

These chairmen will appoint their own committees, who will ask each person to give this worthy cause one dollar or more. A list of donations will be kept and published and each donor will be given a Salvation Army button.

The county Advisory Board for Mills County was organized on Tuesday, July 13, and is composed of the following members:

- W. E. Miller, chairman.
- Dr. S. A. Lowrie, vice chairman.
- C. T. Wilson, secretary and treasurer.
- County Judge R. B. Weaver.
- Mayor W. L. Jones.
- County Agent W. P. Weaver.
- R. E. Clements.
- Dr. Em. Wilson.
- Dr. W. H. Jones, Mullin.
- T. E. Hamilton, Star.
- William Biddle, Center City.
- Robert Robertson, Big Valley.
- T. R. Priddy, Priddy.

The County Advisory Board for Mills county has made a study of the conditions of the county with reference to poverty, pauperism, dependent cases, unemployment, juvenile delinquents, missing persons, and illegitimacy, and the report has been forwarded to the state board, along with similar reports from all counties in Texas.

The Salvation Army is non-sectarian and non-political, and the work done by this body of humane workers is well known to every one. The splendid work done by the Salvation Army on the front in France and Europe can be attested by any ex-soldier. The Salvation Army now plans to extend its work to the towns and rural communities of the whole of the United States, and have already handled many worthy cases which could not successfully be handled in any other way. The slogan is "To the Rescue—Now Let Us Help Our Own."

San Antonio, Sept. 8.—The first district in the 2,000 counties in the western part of the United States where the Salvation Army will make its 1920 Home Service appeal to complete its quota and go "over the top" was reported at the State convention of Southwest Texas advisory board held in San Antonio Wednesday.

Delegates from 39 counties in the southwestern section of Texas were present at the convention and unanimously endorsed the Salvation Army's program and guaranteed the raising of the county quotas.

When the quota of \$1,750 for Hidalgo county was called for by State President J. H. Savage, John P. Gordon, president of the advisory board in the Mission district of that county, immediately pulled out his check book and wrote a check for \$275, this amount being the portion to be raised in his district. State Advisory Board members present at the convention felt quite confident that the whole quota for this portion of Texas would be raised.

THE CONSTITUTIONAL AMENDMENT.

At the coming November election, there will be submitted to the decision of the qualified voters of Texas an amendment to the state constitution which, if carried, will enable the legally qualified property tax paying voters of each independent and common school district in the state, at an election held for that purpose, to determine by majority vote whether or not a special tax shall be assessed, levied and collected on all of the taxable property in the district not to exceed one dollar on the one hundred dollars valuation for the further maintenance of the public free schools, and the erecting and equipping of school buildings therein.

This amendment is of vital importance to every child in the state of Texas. Texas today with all of its vast and unlimited resources, ranks thirty-eight in educational standing in the Union. Arizona, often considered by us "wild and woolly," ranks third. STOP AND THINK.

Under our present constitution, no district can levy and collect a greater tax than fifty cents on the \$100 valuation of taxable property therein. Hence many independent school districts, in order to maintain a nine months' school are forced to incur the extra expense of appointing their own tax assessor and collector and their own board of equalization and raise the valuation of all taxable property in the district, some more than 100 per cent and many, more than the real value of the property, in order to provide adequate school facilities for their children, as well as children transferred in from rural districts.

If this constitutional amendment carries, the independent school district, at an election held for that purpose, may, by a majority vote of property tax paying voters, remove that limit and save the expense of a district tax assessor and collector and merely raise the district school tax rate in order to procure the required funds with which to maintain a nine months' school.

Voting for the constitutional amendment does not mean that we are voting for any tax; it is merely saying that we are willing for the property tax paying voters of any district to determine for themselves, at an election afterwards held for that purpose, whether or not they will raise the tax rate to any amount they see fit and proper, for the purpose of maintaining such schools as they need. It becomes purely a local matter, which each district must determine for itself, and no other district has a voice therein. Goldthwaite can no more tell Merrills Creek district what tax it shall levy than the latter can tell Goldthwaite what tax it shall have.

As to common school districts, as the constitution now reads they must have their taxes assessed and collected by

the county officers and the valuation placed upon the taxable property within the district must be the same as that fixed for the state and county. No one can raise this valuation without it being raised as to the county and state also. Hence, if raised, the state and county gets the increase as well as the school, and thereby the property tax payers in the district will be required to pay a greater tax than their neighboring district for the support of the state and county, not taking into consideration the support of the local schools. This of course would not be just or proper. Under the proposed amendment, this school district can take the same valuation, and by merely raising the rate of the district tax, procure the required funds with which to maintain their schools for such term as they see proper, and every dollar thus raised returns to the district in the education of the children, and not the children of some other person not residing in the district.

I have often wondered why the framers of our constitution thought the farmer had less sense about taxes and the need of school facilities for his children than had the residents of cities, which they evidently did. The rural schools are limited by the constitution to a tax not exceeding fifty cents, while as to the city schools there is no limit. Why? Is the farmer less intelligent? I have not found him so. Does he love his child less? No. Is his children less deserving of an education? Certainly not. Then why should he not have a right to tax his property as much as he finds necessary and expedient in order to educate his children, and those of his neighbors, and thereby make the rural life more attractive for them? Why not give him the right by voting for the amendment.

I am firmly convinced that every child, whatever may be its station or circumstances in life, has the right to procure an education, and that I owe it to him to help provide a way for him to get that education. We spend money foolishly in dress and frivolity and it is mis-spent. We spend it in helping some child, it matters not whose, in procuring an education that he may be better equipped for service to others, and it is money well spent.

Let every father and mother, brother and sister of a child think well of this issue. Consider the needs of the children, stifle every selfish tendency and vote for the amendment.

My child, your child, our neighbor's child, yes every child is looking to us and asking the vital question, greater than all others before the people today, "What are you going to do for us? School houses are closed, teachers are gone and we are neglected. What are you going to do for us?" Let us answer, "Vote for the amendment."

John W. Young of Austin has been appointed state publicity officer of the American Legion of Texas and authorized by the state commander to proceed at once to divide the state into sections and institute intense publicity for 100,000 members.

Fifteen dollars per quart seems to be the standard price fixed for whiskey since prohibition went into effect. A whiskey still raided near Santa Anna last Friday turned out about twenty-five quarts per week and it is stated ready sale was found for it at \$60 per gallon.

America produces between fifty-five and sixty per cent of the world's total cotton crop of approximately 30,000,000 bales. It is estimated that the world will need 33,000,000 bales. It is also estimated that in the United States there are two million farmers engaged in producing cotton and that the average production per farm is about six bales per season, which at present prices is worth less than \$1000. The State Farmers' Institute at its meeting in Austin last week, estimated from cost reports kept by farmers in all parts of Texas that the cost of producing the present crop is 46 cents per pound. Cotton is selling for less than that. The price-recommending committee, composed of farmers from every part of the state, consider the farmers entitled to at least two cents per pound over cost. The committee urges every one who can to cease selling cotton at once and cooperate with the Texas farmers for justice and financial freedom. The last government report estimated the cotton crop at 12,700,000 bales. There is actually in sight a demand that will absorb every bale of that amount, and the price of cotton on this basis is too low. Reports since the government estimate show much deterioration in the cotton condition, and the actual crop will probably be more than a million bales less than the government estimate. Many writers say a cotton famine is in sight. The fight is on between the Southern cotton grower and the cotton speculators, and the Southern cotton grower, to a large extent, is unorganized.

It has been suggested that Mills county have a rodeo and pig and poultry show some time this fall. Pig and poultry shows have been held in many towns in Texas with great success. The value of the shows lies chiefly in stimulating interest in the raising of better livestock. It has been said that if a person wanted to know how much money was on deposit in banks in any county, the easiest way to find out is to ask what kind of livestock is raised in the county. The stockraisers of Mills county have for several years been entering to pure bred chickens and to a certain extent fine hogs. W. P. Weaver, county agent, who has been talking with the livestock raisers of the county about the stock show, has been given much encouragement, and plans are rapidly formulating for the creation of a prize list for chickens, hogs, pigs and possibly sheep. The prizes for the stock show will be different in many respects from the lists formerly gotten up for reunions. It is planned to have the fat stock show on November 11 and 12, which this year come on Thursday and Friday. According to plans now materializing, the American Legion and all the former soldiers of the county will be asked to cooperate in the program to be arranged for the two days, which will probably include a county interscholastic meet in which oratorical contests, declamations and spelling matches will be held at night, while athletic events and football games will be held during the days. The raisers of livestock can be assured that if the show is held at all, sufficient prizes will be offered to insure an exhibit the size of which has never before been seen in this county.

DOES SHANTUNG BELONG TO GERMANY, JAPAN OR CHINA?

Editor Eagle: I heard the talk of Judge Jenkins before the institute last week, and was very glad I did. I was also glad to see the same published in the Eagle. The Eagle had a fairly full publication—a good sign that it (the Eagle) is always alert for the information the people want and gives it without garbling in any form. To that end it has been a real and beneficial publication for the dissemination of information and after the evidence is in leaves the reader to form his own opinion from the evidence submitted.

I would wish to set before the readers a fair and uncolored opinion with regard to Shantung, which the Judge correctly said was a part of the treaty and not a part of the covenant, and why, as I understand it, the senate of the United States objected to that part of the treaty and refused to concur in that particular part.

To begin with, the Judge said that Germany had title to Shantung, ceded to her about fourteen years before the war broke out, by the government of China. Now China was compelled to cede Shantung to Germany at the close of the Boxer war in China for reparation claimed by Germany for the Boxer outbreak. At the close of the war between Germany and France, in about 1871, France was compelled to cede Alsace and Lorraine to Germany as a part of the indemnity claimed by Germany for that war. Germany held as good title to Alsace and Lorraine as she held to Shantung and if it was right to make Germany return Alsace and Lorraine to France (and the senate claimed it was), then was it not right to make Germany return Shantung to China? The senate regarded both of these titles by duress, that is titles taken by force, and rather viewed both cessions as not passing title for this reason. It reasoned that if Germany's title to Alsace and Lorraine was not good, neither was Germany's title to Shantung good, and therefore Japan succeeded to no title to Shantung because Germany's title under which she claimed was not good.

Besides, in the draft of the treaty the great disposition was to make the crooked things straight and this guiding motive was followed until Shantung was reached, but there things were left in the same crooked shape, they were found and the German title though not good as to Germany was held good as to Japan who had nothing more than Germany claimed. In other words, the senate claimed it was right to make Germany return Alsace and Lorraine to France, and it was equally right to make Germany return Shantung to China. If one restoration was right the other was bound to be, therefore the senate refused to concur in the passage of title of Shantung to Japan.

My readers can draw their own conclusions as to whether the senate was right or wrong in its proposition.

Now we come to the Irish question as presented by the Judge.

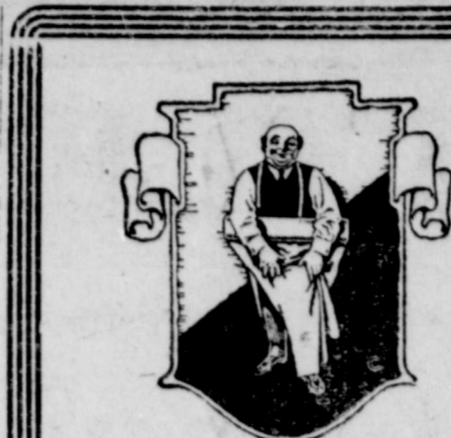

He said that war seemed to be threatening between England and Ireland and that the opponents of the covenant were trying to make it appear, and wrongfully, too, that the United States might be drawn into that war, but that such a thing would be impossible as this would be a domestic affair and the league had nothing to do with the domestic affairs of its members.

At this juncture your correspondent asked if he might ask a question. The Judge very politely assented. This question was asked: If Ireland declares her independence of Great Britain and war results and Germany or Russia or any other nation would go to the side of Ireland like France came to the aid of the United States when we declared our independence of Great Britain, what relation would the United States sustain to Great Britain under the covenant if we had ratified it? The Judge did not answer this question. If he had, he would have disclosed the reason for the senate's strong opposition to Section 10 of the covenant.

Section 10 provides that each member nation shall guarantee the territorial integrity of each other against external aggression.

Now our relation to Great Britain under the above question would be that of guarantor, because if outside help would come to the aid of Ireland like outside help came to us it would be outside aggression, the very thing the covenant guarantees against; so under this condition the United States would have to enter the war to keep Ireland under the British crown, and the Judge knew it.

Now, exactly the same thing would be true as to Canada, India, Egypt,

South Africa, Australia or any of the numerous other British possessions.

The senate refused to take such chances. Now my readers can judge whether it was wise in doing so. By refusing to ratify the covenant it looks like the senate has already kept us out of the war between Poland and Russia and has consequently saved several thousand American boys from European graves and the tax payers of our country the burdens of a few billion more of taxes.

Judge Jenkins described the covenant as a great American document. In this either he or the Associated Press is wrong. The Associated Press reported that there were some three or four tentative drafts of the League of Nations carried to the Versailles conference and that they were submitted to Woodrow Wilson to criticize and after a careful study he recommended the British draft with a few changes to meet his own objections. This, I take it, makes it a British document. However, my readers can form their own opinion as to whether the draft is British or American; but it has always appeared to me to be a British draft because of the absence of practically all of the fourteen points the president carried to Versailles with him.

Now I think the senate's course in refusing to ratify the covenant has already proved its wisdom, and I think any one else will concur in the opinion who properly appreciates the saving of American life and treasure.

Judge Jenkins complained that he deplored the provincialism of narrow Americanism advocated by the Republicans. I might reply that I equally deplore the apparent disposition in the Democratic party to sacrifice American life and American treasure in an effort to make a pet partisan scheme stand that has already fallen to the ground. I stand for American provincialism in stead. I stand for keeping the American boy at home. I stand for protecting the American people against heavier burdens of taxation and my conscience and common sense fully support my stand. I only hope my readers are standing with the same conscientiousness that they are doing their full duty toward their country and their countrymen.

TO THE SHERIFF OR ANY CONSTABLE OF MILLS COUNTY—GREETING:

You are hereby commanded to summon Thomas W. Howell, by making publication of this Citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your county, if there be a newspaper published therein, but if not, then in any newspaper published in the 27th judicial district; but if there be no newspaper published in the said 27th judicial district, then in a newspaper published in the nearest district to said 27th Judicial District, to appear at the next regular Term of the District Court of Mills County, Texas, to be holden at the Court House thereof, in Goldthwaite, on the fourth Monday in September, A. D. 1920, the same being the 27th day of September, A. D. 1920, then and there to answer a petition filed in said Court on the 26th day of August, A. D. 1920, in a suit, numbered on the Docket of said Court, No. 1919, wherein Bulah Howell is plaintiff, and Thomas W. Howell is defendant, and said petition alleging that Bulah Howell, who resides in Mills County, Texas, is plaintiff, complaining of Thomas W. Howell, whose residence is unknown, hereinafter called defendant, and for cause of action, plaintiff represents to the Court that she is an actual bona fide inhabitant of the State of Texas, and has resided in said county of Mills for at least six months next preceding the filing of this suit, that on or about the 17th day of August, 1916, plaintiff was lawfully married to defendant, then a single man by the name of Thomas W. Howell, that they continued to live together as husband and wife until August 20th, 1918, when by reason of the cruel and harsh treatment and improper conduct of the defendant towards plaintiff, she was forced and compelled to permanently abandon him, since which time they have not lived together as husband and wife.

Plaintiff alleges that during the time she and defendant lived together as husband and wife as aforesaid, that she was kind and affectionate to her husband and managed her household affairs with prudence and economy and at all times treated her said husband with kindness and forbearance. That plaintiff and defendant lived together about 12 months, peaceably and agreeably, but defendant on or about March 10th, A. D. 1918, began a course of abuses towards this defendant and cursed and abused her and called her vile names and made an effort to whip this plaintiff. That the defendant refused to provide food and raiment for Plaintiff and their child, or contribute in any way to their support, and that the residence of the defendant is unknown, that plaintiff has not heard of his whereabouts for more than one year.

Plaintiff alleges that defendant's action and conduct towards her generally are of such nature as to render their future living together as husband and wife insupportable.

Wherefore, premises considered, plaintiff prays the Court that defendant be cited to appear and answer herein and for judgment dissolving said marriage relation, for the care and custody of the child Winfred H. Howell, and that her maiden name be restored to her, for the cost of suit and for such other and further relief, special and general, in law and in equity, that she may be justly entitled to.

Herein fail not, but have before said Court, at its aforesaid next regular term, this writ with your return thereon, showing how you have executed the same.

Given under my hand and the seal of said Court, at office in Goldthwaite, this the 26th day of August, A. D. 1920.

BOMB EXPLOSION OCCURS IN WALL STREET THURSDAY

New York, Sept. 17.—An explosion, supposed to have been caused by a huge bomb loaded with T. N. T. and reinforced with iron strips, occurred in Wall street at noon Thursday, killing 24 persons and wounding 200. The front and sides of the Morgan building were demolished and the total property loss is estimated at \$1,000,000.

A former high official of New York's police department, who refused to be quoted, at 1:30 o'clock this afternoon after an investigation of the scene of the explosion at the J. P. Morgan offices, declared it was the result of a conspiracy, says a special to the Fort Worth Star-Telegram.

"The explosion was caused by a time bomb in a wagon load of nitroglycerin set to go off at exactly 12 o'clock," he declared. This wagonload of explosive was purposely set off directly in front of the Morgan offices."

Chicago, Sept. 16.—Allen O. Myer, chief investigator in New York for the W. J. Burns National Detective Agency, declared here today the explosion that wrecked the banking offices of J. P. Morgan & Co. in New York was the opening outrage of a contemplated reign of terror the country over. Myer also declared the "Reds" have promulgated an intrigue to tie up every railroad and every steel mill in the country before "snow falls."

Tokio, Sept. 16.—According to semi-official dispatches reaching Tokio, concrete plans for Bolshevizing the world have been perfected in Moscow, and agents shortly will be detailed to America, Japan, China and Asia generally for the campaign. The plans include a propaganda offensives against all countries.

This is one Goldthwaite woman's testimony.

Mrs. H. E. Moreland, S. Parker St., says: "A good many years ago I was troubled with my kidneys and bladder. At times I could hardly rest, as the pains across my back were so severe. I was also troubled with headaches and had such spells of nervousness that I couldn't rest at night. The action of my kidneys was irregular and mornings I had a tired, languid feeling and hardly felt like doing anything. I heard of Doan's Kidney Pills and got some at Clements' Drug Store. I can highly recommend Doan's, for they took all the pain out of my back and regulated my kidneys. I am glad to say I haven't had the least return of the trouble."

Rates on Electric Lights BEGINNING OCT. 1, 1920

Minimum rate, residence or business, \$2.25 per month.

Price of 20c per kilowatt for first 25 kilowatts; 15c per kilowatt for next 75 kilowatts, and 10c per kilowatt for balance of current.

Will give 10% off on all accounts paid on or before the 10th of each month, 6 p. m.

We expect to have all lights on meters within thirty days.

You will notice that the above rates will not increase your light bills where you are reasonably careful with your lights—as you can burn 10 kilowatts per month and if your bill is paid by the 10th of the month it will only cost you \$2.00, the amount all customers are now paying that have Electric Irons.

By installing meters you will get much better light, as the customer who without a meter turns on all lights making it impossible for those who use light economically to get a bright light, will, with a meter, burn lights only when needed.

Our lines are very heavily loaded and the consumer who is several blocks from the plant is not getting the proper amount of current on the flat rate system.

We are sure the above arrangements will meet with the approval of every consumer on our lines.

Yours for service that serves,

MRS. LON HORTON DEAD.

Thursday afternoon relatives here received the sad information that Mrs. Lon Horton had died at San Antonio about 2 o'clock.

The remains were shipped here last night and will be taken to Caradan today for interment this afternoon.

Mrs. Horton was a daughter of Mr. and Mrs. Bob Casbeer, who live in the South Bennett community, and was born and reared in that part of the county. She was well known and loved by many people in this county. She was 35 years old at the time of her death, and left six children, besides a father, a mother, and several brothers and sisters.

The Eagle joins the friends of the bereaved family in extending condolence and sympathy in this sad hour.

HOW WILL THE WOMEN VOTE?

Cast Your Vote Here.

Every qualified woman voter in our town is urged to cast her ballot in the Rexall Store Straw Vote, now in progress. In order to insure accuracy and a truthful forecast of local conditions none is expected to vote but once.

A woman's vote, this year, means far more than ever before. Why? Because the respective leaders of the two great parties are utterly at sea as to just how the women will vote. Each believes that the grand aggregate of women voters hold the key to the November elections.

Millions of ballots will be cast during the months of September and October in the Rexall Stores Straw Vote, and it is our desire to present to the country at large, through the medium of 8,000 Rexall Stores and the newspapers of the country, the heaviest poll of women voters ever registered in the political forecast.

The ballot you cast will be secret. Mark your ballot, fold it and deposit in the ballot box, and remember that the eyes of the nation are focused on women's vote.

HARDING? COX? Vote now!

WHY SHE KNEW HER AT FIRST SIGHT.

White's Neighbors Are All Talk About Her Wonderful Recovery.

When my wife began taking Tanlac weighed only ninety-five pounds; she weighs one hundred and forty and her wonderful recovery is the pride of our neighborhood," said Ben White, of 111 Crescent Ave., Peoria, Ill.

Mrs. White has been suffering from stomach trouble and nervousness for thirteen years," he continued, "and for a long time had been unable to leave the place. We spent all the money I could get for treatments and medicines but she never got any better. She was a complete nervous and physical wreck and I have seen her nearly die with cramps in her stomach and after trying she could hardly breathe for the pain. Headaches drove her nearly distracted and I have stayed home with her weeks at a time, fearing she would never pull through, for she was getting worse all the time.

"After hearing so much talk about Tanlac I bought some for my wife and in just a few days she could eat and sleep better. She has now taken about twelve bottles and is the very picture of health. Why, some of her friends hardly know her at first sight now. She is as well and happy as a person can be."

Tanlac is sold in Goldthwaite by all dealers.—Adv. 9-17

"THE VIRGINIA MINSTRELS."

The Big Minstrel Show under canvas comes well recommended as being one of the very best Colored Minstrel shows traveling in two fine cars with band and orchestra that has no equal. They have shown in many towns nearby and all say it's a good show. We will be treated with a band parade at noon with merry march music. Uniformed in high hats and long coats with banners floating in the breeze cul-de-sac tunes will echo through the street. So make arrangements to attend the good, real negro minstrel show. A Grateful Letter.

It is in trying conditions like that related below by Mrs. Geo. L. North of Naples, N. Y., that proves the worth of Chamberlain's Colic and Diarrhoea Remedy. "Two years ago last summer," she says, "our little boy had dysentery. At that time we were living in the country eight miles from a doctor. Our son was taken ill suddenly and was about the sickest child I ever saw. He was in terrible pain all the time and passed from one convulsion into another. I sent my husband for a doctor and after he was gone thought of a bottle of Chamberlain's Colic and Diarrhoea Remedy in the cupboard. I gave him some of it and he began to improve at once. By the time the doctor arrived he was out of danger. Sold by L. E. Miller & Son.—Adv.

Goodyear Tires for Small Cars Are Popular Because Economical

There is nothing but disappointment in buying cheaply made tires that are announced as wonderful bargains at a few dollars each and then fail after brief terms of service.

Get exceptional mileage at exceedingly low cost in Goodyear Tires, of the 30 x 3-, 30 x 3½- and 31 x 4-inch sizes, built of Goodyear-selected materials and with Goodyear skill and care.

Due to their precise manufacture in the world's largest tire factory devoted to these sizes, their quality is most economically produced and therefore most economically employed.

If you own a Ford, Chevrolet, Dort, Maxwell or other car taking these sizes, go to your nearest Service Station for Goodyear Tires; ride farther and fare better.

THE DIFFERENCE IN MEN.

I have two friends. One is a knocker; the other is a booster.

This knocking friend of mine is actually the limit. He is a voluntary pessimist. His liver is torpid and tardy. He has an elongated estimate of his own greatness. He struggles painfully under a cargo of resentment because of merit unappreciated. At some time or other he was probably misused by some one, and he is now holding Europe, Africa, Asia, and America responsible for the sins of one sinner.

My! How this knocker knocks. If the town is sluggish or slow he knocks. If it is aggressive or swift, he knocks. If the church is falling behind, he knocks. If it is pushing ahead, especially if he has not been given a place at the head of the procession, he knocks.

Then there is my other friend, the booster. He is an optimist of the superlative degree. With coat off, and sleeves rolled up, he is playing the game. He pushes. He pulls. He lifts. He cheers. Others push and pull and lift and cheer, because he does. His faith is steady, his hope is perennial. His courage abounds. His desire to serve is passion. His smile is a sunburst. His voice is a clarion call to duty. His overflowing good cheer dispels the thickest banks of fog and gloom. He works when he has his own way, and he works when he does not have his own way. He has the thirty-third degree in the ancient and honorable Fraternity of Free and Accepted Boosters.

Away with the hopeless, nerveless, cheerless, grouchy, wailing, wailing knocker who knocks! Three cheers for the booster who boosts!—Ex.

Tired

"I was weak and run-down," relates Mrs. Eula Burnett, of Dalton, Ga. "I was thin and just felt tired, all the time. I didn't rest well. I wasn't ever hungry. I knew, by this, I needed a tonic, and as there is none better than—"

SATURDAY, SEPTEMBER 18, 1920

SENATOR T. H. MCGREGOR OF AUSTIN SPOKE TO AUDIENCE HERE ON TUESDAY NIGHT

Senator T. H. McGregor of Austin, candidate for governor on the American party ticket, spoke to a large crowd in the district court room of the court house here Tuesday night.

Senator McGregor arrived on the west-bound train Tuesday evening. He left Wednesday for San Saba to deliver an address.

The speaker was introduced by Dr. J. L. Williamson, who outlined some of the achievements of Mr. McGregor while holding public office.

Senator McGregor spoke for an hour and a half, and was frequently cheered. Mr. McGregor said in part:

"I believe in economy in the government that the burdens of taxation may fall lightly upon labor. I believe this because it is right. I believe it because it was taught by Jefferson and practiced by the Democratic party in and out of power for more than a hundred years. The Democratic party as now organized in Texas has held and is holding a saturnalia of taxation and extortion, of waste and extravagance, unparalleled in the history of this state.

"The Pure Food Department is not only cognate to but is in fact a subdivision of the Health Department, which carries an appropriation of \$152,000.00, of which \$13,400.00 is available for traveling expenses. The Pure Food Department should be abolished and its functions should be administered by the Health Department without additional appropriation. If elected governor, I will abolish the Pure Food Department by vetoing any appropriation made for it.

"We have forgotten the constitutional offices and have become a state of governmental agencies: a people ruled and controlled by boards, bureaus and commissions. Our constitution provided that the seat of government should be at Austin and that the named officers should reside and keep their offices there. An examination of the appropriations made by the last legislature and approved by the present incumbent of the governor's office would cause one to think we had a government on wheels.

"I favor and will strive to bring about a general and radical reduction in the cost of government in this state. I can and will bring about this reduction by judiciously cutting the general appropriation bill by from twenty-five per cent and by eliminating duplicated and unnecessary clerks, employes and agencies in all of the departments, and by abolishing the following departments, bureaus and commissions, with their respective biennial appropriations, and which will operate a discharge of the employes of such boards, bureaus and commissions, which carry appropriations given: State Tax Commission \$9,788; Pure Food and Drug Department \$169,300; Board of Water Engineers \$106,700; Reclamation Department \$55,500; Industrial Welfare Commission \$27,000; Market and Warehouse Department \$173,000; 14 sub experimental stations \$181,350. I will strike out amounts indicated for any appropriation bill submitted to me for approval. If the legislature passes any such bills over my veto, I will fill the office for which the appropriation is intended with some man who will agree to resign and then I will leave the office vacant that the appropriation may lapse again into the treasury as it would under the law and the department at least temporarily, die.

The Department of Agriculture carries an appropriation of \$310,994.00, of which \$121,000 is available for traveling expenses. This item of traveling expenses in varying amounts runs through the whole appropriation bill.

"With the amount appropriated for traveling expenses for the Department of Agriculture you can go around the earth a hundred and sixty-one times.

"Here is a certified copy of the January, 1920, office payroll of the Highway Department which amounts to \$11,866.36 for office salaries, ranging as high as \$833.33 per month, the Highway Engineer drawing a salary of \$10,000 a year.

"I will ask the legislature to repeat the act passed by the 30th Legislature creating the so-called Board of Control, because it created more offices than it abolished, because it abolished offices without salaries and created offices with big salaries, and because it is inherent with the possibility of the big-

A STRAIGHT-FORWARD STATEMENT TO CITIZENS OF GOLDTHWAITE AND MILLS COUNTY

In opening the Dixie Theatre we expect to become permanent citizens of Goldthwaite and to make the Dixie an asset to the city.

In order to do this we have two absolutely imperative objects to attain. We must show you the best of motion pictures and we must show them at a price that will pay the lease on them as well as on building, equipment and all other running expenses, leaving us a margin of profit that will enable us to meet the H. C. of L.

Now rental on the best of motion pictures has increased to three times what it was when you could see a good show for 10 cents and war tax has come to, add to the cost of our pleasures, so admission prices must keep pace with the price of film rental and taxes.

We believe the people of Goldthwaite deserve the BEST there is in both PICTURES and SERVICE, and we are going to give it to you regardless of whether we make or break by it.

We have just signed a contract for Paramount-Arterraft Pictures to the value of more than two thousand dollars and we will show you just such pictures as you would pay 25 and 50 cents to see in Dallas at 20 and 35 cents, including war tax. On occasions when we show Super Specials which lease to us for one showing at \$50 to \$75, our prices will be 25 and 50 cents.

To make a long story short, we believe a poor show is high at any price and a good show is worth what we are going to ask for it. Right here we make the statement that any time any customer is dissatisfied with the service we give, we will gladly refund his money, if he will tell us of his dissatisfaction.

If you are interested in the kind of pictures we will show at the Dixie, you will see a list of the titles on page 41 of the Saturday Evening Post for Sept. 4th. Copy in window of Miller's Drug Store.

Greeting you as a new citizen who aspires to your patronage and friendship and requesting you to give us an opportunity to SHOW you better than we can TELL you our plans for your entertainment, we leave it to your pleasure. GENIE GRIFFIN DeWOLFE.

gest political machine ever created in this state.

"The appropriations for the University have been and are excessive and should be reduced within the constitutional confines and should in no event exceed five thousand dollars a year, and I will veto any appropriation in excess of that amount.

"I am opposed to the creation of more boards, bureaus and commissions whether created as a new proposition or by the subdivision of existing boards, bureaus or commissions and I will veto any act seeking to create any such board, bureau or commission, regardless of the purpose for which it is sought to be created.

"Government is an investment and I will diligently strive to secure for the state a dollar's worth of service or a dollar's worth of value for every dollar of the state's money expended. The educational institutions of this state and the educational affairs of the people are of the first importance and every appropriation therefor should be made and approved which will secure to our children the benefits and blessings of a liberal education. Our school teachers should be paid such attractive salaries as to assure us that never again in Texas will a school be closed for the lack of a teacher because of the insufficiency of a salary.

"The appropriation bill for the adjutant general's office carries the amount of \$236,800, and a civilian is spending it in times of peace. I will reduce this amount by at least one-half and appoint as Adjutant General of Texas some soldier who saw service in Europe during the war. To me the most unpardonable act of public ingratitude which has ever dimmed the martial glory of this state was the retaining in office, by the present incumbent of the governor's office, of a civilian in the office of Adjutant General when we had in Texas more than a hundred thousand returned soldiers who had given a new glory to the old world and rekindled the lustre of Europe's battlefields. I regret that the office of adjutant general is not elective, but since it is not, I will take the sense of the American Legion, through a referendum vote, and I will appoint to this office the man of their choice."

CORPUS CHRISTI.

Mr. Editor:

Having passed safely through the anniversary of the Texas storm and the morning bright, with the white weather flag floating to the breeze, we presume it is useless to wait to get any storm news for this letter. We are truly sorry to learn of the destruction (by the weevil) of the once promising bumper crop of Mills county. The farmers in this section have great reasons to be fond of their bumper crop. There are 29 gins in Nueces county that have been running night and day and to date have ginned something over 55000 bales with 15,000 bales more yet to gin. About 180,000 acres of the black land belt within a range of 40 miles of Corpus was in cotton this year and they think there will be 125,000 bales of cotton produced. This will be quite an increase over any previous year. The estimate is 60 per cent increase for Nueces county. Over 20,000 laborers have been in this section from other localities. It has been nothing unusual to see from 150 to 250 wagons (some of them 2-bale) standing in the neighborhood of the gins, waiting their turn. There are about 700,000 acres of tillable land in this belt and only about 30 per cent of it in cultivation. Land prices range from \$50.00 to \$175.00 per acre. Location and improvements figure in prices.

The teachers institute was held here last week, about 600 teachers being present, mostly ladies. Mills county was represented: Misses Clyde, Myrtle and Gladys Pickens, Carmen Jones and Ye Scribe from Mullin, also Mrs. Cora Scarborough and a Miss Love who once lived at Mullin, both teachers in south Texas were present. So you see the efforts of the teachers in the Mullin school have not been fruitless. We understand Miss Lucy Wilson from Mullin will be added to the list this fall. Who next? Miss Gladys Pickens was on the program for a paper on some very important topic and she acquitted herself admirably, and at the closing exercises she was read out on one of the important standing committees for this school year. You needn't tell every person you see so that it will get back down here, that the writer says, "The Mullin teachers ranked at or above par in size, looks, good behavior and intellectually." In proof of this the writer invited them to supper at his hotel and the next meal one of the waiters said to him: "You were sure in the swim last night, for that was a swell crowd you had with you at supper; they would be hard to beat." This was a man waiter and said he believed he was capable of passing on the good looks of that crowd. They were all members of your scribe's S. S. class before we left Mullin and you can be safe in guessing he was proud of, and enjoyed the occasion highly. All of them commenced their schools Monday morning, September 13, and we bespeak for them a successful term.

On account of our improved condition in health, we will likely spend the winter here. With best wishes to all, we will ring off for this time.

H. C. COBB.

Keep Well and Be Happy.

If you would be happy you must keep your bowels regular. One or two of Chamberlain's Tablets taken immediately after supper will ensure a gentle movement of the bowels on the following morning. Try it. Sold by L. E. Miller & Son.—Adv.
