BEGIN NOW TO PREPARE FOR NEXT YEAR'S PUREBRED LIVESTOCK SHOW

SERVICES ARE TO BEGIN SUNDAY AT 11 AT METHODIST TABERNACLE

Services to be conducted at the Methodist tabernacle begin Sunday morning and continue two days in charge of those in charge of arrangements report all in readiness expected this will be the best meeting ever held in that city. Rev. L. D. Patterson, evangelist who is to do the singing, and Rev. A. J. Notestine will conduct the service. They are among the leading members of their line of Christian

Rev. L. D. Patterson

They have had great success elsewhere and the Christian of Goldthwaite expect the results at this place. Methodist people urge those of other denominations as well as no denominational affiliation to take an active part and stand in the forthcoming revival. It is a genuine revival for the town and let its influence extend far into the surrounding territory. It is not often two men as Revs. Patterson and Notestine can be secured in a revival for a town of Goldthwaite's size, but they are coming

Rev. A. J. Notestine

with the full understanding his is one of the best towns and well worthy of their abilities and efforts. Let them be disappointed. Song service will be no part of the meeting. Two have been installed at the altar and two of the most accomplished musicians of the city are in charge of them and will be supported by the choir orchestra. Many of the best voices in the city will join in the singing. Choirs of the city and rural churches are cordially invited to participate in the musical program.

LIVE STOCK SHOW LAST SATURDAY IN THIS CITY WAS DECIDED SUCCESS

The Mills County Purebred Livestock Association, which was organized on Jan. 19, 1921, through the efforts of County Agent W. P. Weaver, assisted by W. T. Magee, livestock specialist of A. & M. College, and District Agent A. L. Smith of the college, held their show in this city last Saturday. The show was a decided success in every particular and was attended by large crowds on both livestock show day and rodeo day.

The members of the association after the success of the show, have decided to make it an annual affair. The breeds represented were Shorthorn, Jersey and Holstein cattle, Duroc-Jersey and Poland China hogs, Rambouillet and Delaine sheep and Angora goats.

The Shorthorn show was a special feature, there being twenty-eight head of registered animals in this class. There are more farmers taking interest in the Shorthorn breed in this county than any of the other breeds, according to members of the association. All of the stock shown was in good showable condition. Those exhibiting in the Shorthorn breed were S. P. Sullivan, D. A. Trent, George and Robert Robertson, J. E. and T. H. Peck, J. H. Burnett, Charlie Miller and W. L. Jones. The champion bull of this breed was the 2-year-old Charmer's Gift, owned by D. A. Trent. The champion cow was Killeban Beauty, owned by S. P. Sullivan, who recently bought her and her heifer calf from J. R. Raby in the Schofield-Smiley-Raby sale at Fort Worth, where she had won some premiums in the Fat Stock Show.

George Robertson showed the first prize aged bull, Avondale's Villager, and also the first prize yearling and calf.

C. A. Horton showed the champion boar and sow, both being Duroc-Jerseys.

J. B. Burnett showed the best ram and O. C. Weatherby the best ewe.

A number of good dairy cows were shown, the best being by J. N. Keese. The best bull of the dairy breeds was a Jersey shown by Duke Clements.

The show was conducted by County Agent Weaver and the judging was done by W. T. Magee of the extension department of the A. & M. College. John C. Burns of the Texas and American Shorthorn Breeders' Association was present and delivered an address on the influence of the county fair and the fat stock show in developing the livestock and agricultural interests of the county, and especially laid stress on the fact that good herds can not be built or maintained without using the best of sires.

The following awards were made by the judge:

THE COUNTY FAIR. Copyright 1921, by Genie Griffin DeWolfe.

Here we are fresh from everywhere At the old-time County Fair— Saint and sinner, young and old, Maidens shy and dancers bold; Gamblers, fakirs, vendors, freaks, Every east and color shrieks: "Popcorn," "Peanuts," "Lemonade!" Sweltering sun with nary a shade!

There's Si Coffee in that mob; Brought his sheep. That was a job! Dillingham brought all those cows, Best grade Durhams,—he allows. Look at Bryson's span of mules! Did you ever see such fools As those running horses there? Starting them would make you swear!

"Hello, Johnson! Where's the wife?" "She's right here, you bet your life." Miz Smith's turkeys won the prize— Never saw such hens for size! Tommy Perkins, freckled big, Conquers greasy pole and pig. Heat of July's blazing sun, 'Nuff to make molasses run!

Wonderful old County Fair, Not one thing but what is there! You can tell who rose at four, Tell whose feet are getting sore. Only babies deign to yawn, 'Cause their strength is overdrawn; County Fair—with fun to spare— Everyone from Everywhere!

TO THE SENIORS OF 1920-1921.

Here's to the Seniors, whom we all adore, I know they're smarter than those gone before, For there's so much knowledge stored in each brain Till their wisdom's quite amazing, I claim. And every one of them, the whole way thru, Just seem to succeed in all that they do. Take the Senior play, for instance; you know, It was rendered here a few nights ago And they scored highest—came out all right— Proved their ability that very night. And 'twas strange to me how one play could cause Such an awful lot of talk and applause; For the people of Goldthwaite all just knew That 'twas better than real actors could do. And, in the schoolroom, it's always the same, Those Seniors are climbing right up to fame. They're quite our superiors—the Seniors are,— And I must admit they outwit us far; But deep in my heart somehow I embrace The faintest wish that we were in their place. Or that we could get just half of the praise, Half of the joys and pleasure that crown their days. Still when I think how they've brightened our path And carved the steep way to Latin and Math, And now I know they're soon going away, Somehow, I wish that those Seniors would stay. So here's to our love that will never sever, Here's to fond memories that live forever!

WEATHERBY AUTO COMPANY CONTRIBUTES TO CITY'S GREAT WAY

The Weatherby Auto Company has added a brilliant electric sign to the front of their garage building, which adds much to the city's light during the evening hours. The sign is beautiful in design, and is placed in such position that it can be seen and read for a long way from both North and South Fisher street. L. E. Miller & Son and Little & Sons have recently added street lights to the front of their places of business in that section of the city, which is now well lighted at night.

FARM BUREAU NEWS.

Abilene, Texas, May 2.—More than 2,000 farmers from distances as great as 150 and 200 miles were here today to hear Aaron Sapiro, noted California marketing expert. The farmers represented Taylor, Nolan, Fisher, Jones, Callahan, Coleman, Runnels, Tom Green, Stephens, Eastland, Lubbock and other surrounding counties.

When the courtroom proved inadequate, the great mass of men moved to the Woodman hall, but this was too small too, and the First Baptist church was filled to standing room.

Waxahachie, Texas, May 3.—Between 2,500 and 3,000 farmers and their wives of Ellis county cheered Aaron Sapiro, noted California attorney, here at the Chataqua auditorium this afternoon as he declared that the cotton farmer is entitled to get enough money somehow for his cotton to enable him to live on a 1921 standard and to pull his wife and children out of the cotton fields into the home and the schools.

San Antonio, Texas, May 15.—The Texas Bankers' Association, assembled in convention here, appointed the following committee to assist the cotton division of the Texas Farm Bureau in the setting up of the Texas Farm Bureau Cotton Growers Co-operative Marketing Association, which is pooling a million bales of cotton: Osheter Smith, Joseph Hirsch and L. Talley.

The bankers went on record as unanimously endorsing the Farm Bureau cotton and commodity marketing plan following the address of Aaron Sapiro, California marketing expert and author of the Texas Co-operative Marketing Law, which was passed by the recent legislature and which has since been copied by eight other states.

CROP PROSPECTS.

Dallas, Texas, May 14.—Reports received from correspondents of the Texas Industrial Congress indicate a decided reduction in the cotton acreage ranging from 20 to 50 per cent, and probably averaging 34 per cent for the State. Cool nights and unfavorable weather have retarded the growth and planting of cotton and the crop is now from a week to ten days late.

Prospects for a good yield of wheat and oats have been improved by recent rains. Wheat in the Panhandle is looking especially good. Corn is making fair progress, and it is up to a good stand in most sections. Some damage to both corn and cotton from cut-worms is reported. Potatoes in South Texas are now being harvested. The rice acreage has been cut 50 per cent, it is estimated, and the progress of the crop has been delayed by unfavorable weather conditions. The truck crop in South Texas is reported good, and moving freely; some shipments have been made to New York by water via Galveston. The East Texas tomato crop, though retarded by unfavorable weather, promises a good yield. There will be a greatly increased production of watermelons.

With the exception of apples, of which there will be a 50 per cent yield, fruit in west Texas has been killed by cold weather; in north Texas the fruit crop has sustained some damage, while in east Texas it is reported safe.

Recent rains in east and south Texas and in some portions of West Texas have greatly improved the ranges; and livestock generally is said to be in good condition. A greatly increased production of hogs, lambs and calves is noted.

**BIG WILD ANIMAL SERIAL AT
DIXIE NEXT FRIDAY, THRILLER**

The most vivid, strange and certainly most thrilling sensational screen offering of recent years is soon to burst upon the excitement-loving public in the form of a fifteen-episode serial production, "The Lost City," a story of the African jungle and its never-ceasing thrills and adventures, featuring the beautiful and daring Juanita Hansen, who is supported by George Chesbro and a big cast of clever screen talent, will begin its run at the Dixie Theatre on Friday, May 27th.

Who has not, at some time or other, read of the dangers of the jungle without a compelling desire to see for themselves these daring adventures with their own eyes? And this desire has not been confined alone to the younger element. Young and old revel in such scenes as only the wild and mysterious jungles can offer, and in the presentation of this extraordinary serial story the producer whisks the spectator into a strange land, among strange people, and a long series of hazardous adventures that could never be described in words as it can be shown in thrilling motion pictures upon the screen.

Elephants, tigers, lions, leopard, eagles, gorillas, alligators, and all the other wild denizens of the African jungle and scorching desert, each play their important part in this swift-moving story, crowding sensation in such rapid sequence that the spectator is hardly allowed to recover from one gasp before another is forced upon him.

Unlike other animal productions of the past "The Lost City" is presented with a really ferocious and untamed animals, rather than with the subdued or drugged beasts hitherto shown in many films. It was fortunate for the production itself that Miss Juanita Hansen possessed that daring courage that made it possible to use these savage specimens which have added so very much to the rush and "pep" of the story.

It was something more than luck that brought the plucky little star through her countless dangerous scenes unhurt, and keep your chickens free from them simply by feeding Martin's Blue Bug Remedy. Absolute satisfaction guaranteed by Clements' Drug Store.—Adv. 5-30

Paint Your House With

One gallon of SWP house paint covers 360 square feet of surface, two coats. Ordinary paint covers from 200 to 250 square feet. That is the first saving. SWP, though heavy-bodied, flows easily and evenly, thus cutting down the time required to apply it. That is the second saving.

SWP outlasts two or three paintings with ordinary paint, saving

the cost of materials for which is 75 per cent of expense.

In buying paint it's the gallon covers, not the color, that determines economy.

We carry a complete line of SWP. If you plan to paint your house, let us help you.

although she was badly scratched in one scene in which a particularly vicious leopard attempted to spring upon her from a high rock. The scene called for the hero, played by George Chesbro, to rush up in the nick of time, hurl a lasso about the neck of the springing animal in mid-air, and bring it to the ground before it could strike the ering heroine. True to its aim, the lasso encircled the neck of the beast, but its own momentum carried it close enough to Miss Hansen to permit its claws to fasten upon the arm and shoulder of the daring little star, who was given one fearful scratch that stopped the making of the picture for several days.

LIBERTY.

This is the time of year, now that vacation time has come, that students of all ages are inclined to take a deep breath of relief, and their eyes light up with thoughts of liberty from their usual mode of life. This is a very natural feeling, for we all like to feel the sense of relief that comes to us, when we shed the burdens that we are carrying, whether they be physical or intellectual, and indulge in the joy and comfort of relaxation.

After the first spasm of joy has passed, those of us that are wise begin to realize that the liberty we have attained is a lawful one. Later in life we find that the liberty we earnestly strove after, to be enjoyed to its fullest extent, must be a lawful one. In fact, we begin to realize as all true Americans have done in the past, that our greatest privilege is liberty to obey the law. Truly liberty is governed by law, and in this country, where we justly pride ourselves that it is the land of the free and the home of the brave, we don't want liberty to spell license, as we see it today in Bolsheviki Russia.

A razor, in the hands of a man who wants to get rid of a stubble on his chin and who is capable of shaving them off, is a very useful article. A razor in the hands of a gro who is seeing red, and is determined to inflict an injury on the one's windpipe, becomes a murderous implement. Liberty is like a two-edged sword, capable of use under law, and abuse under license. Let us always see to it that we use it.

IN THE MATTER OF COUNTY FINANCES IN THE HANDS OF LEWIS HUDSON, TREASURER OF MILLS COUNTY, TEXAS.

Commissioner's Court, Mills County, Texas, in regular quarterly session, May Term, 1921.

We, the undersigned, as County Commissioners, within and for said Mills County, and the Hon. L. E. Patterson, County Judge of said Mills County, constituting the entire Commissioner's Court of said County, and each of us, do hereby certify that on this, the 14th day of May, A. D. 1921, at a regular quarterly term of our said Court, we have compared and examined the quarterly report of Lewis Hudson, Treasurer of Mills County, Texas, for the quarter beginning on the 1st day of February, A. D. 1921, and ending on the 30th day of April, A. D. 1921, and finding the same correct have caused an order to be entered upon the minutes of the Commissioner's Court of Mills County, stating the approval of said Treasurer's Report by our said Court, which said order recites separately the amount received and paid out of each fund by said County Treasurer since his last report to this Court, and for and during the time covered by his present report, and the balance of each fund remaining in said Treasurer's hands on the said 14th day of May, A. D. 1921, and have ordered the proper credits to be made in the accounts of said County Treasurer, in accordance with said order as required by Article 867, Chapter 1, Title XXV, of the Revised Statutes of Texas, as amended by an Act of the Twenty-fifth Legislature of Texas, at its regular session, approved March 20, 1897.

And we, and each of us, further certify that we have actually and fully inspected and counted all the actual cash and assets in hands of the said Treasurer belonging to Mills County at the close of the examination of said Treasurer's report, on this the 14th day of May, A. D. 1921, and find the same to be as follows, to-wit:

You'll enjoy the sport of rolling 'em with P. A.!

Prince Albert is sold in tippy red bags, tidy red tins, handsome pound and half pound tin humidors and in the pound crystal glass humidor with sponge moistener top.

Copyright 1921 by R. J. Reynolds Tobacco Co. Winston-Salem, N. C.

FIRST thing you do next—go get some makin's papers and some Prince Albert tobacco and puff away on a home made cigarette that will hit on all your smoke cylinders!

No use sitting-by and saying maybe you'll cash this hunch tomorrow. Do it while the going's good, for man-o-man, you can't figure out what you're passing by! Such flavor, such coolness, such more-ish-ness—well, the only way to get the words emphatic enough is to go to it and know yourself!

And, besides Prince Albert's delightful flavor, there's its freedom from bite and parch which is cut out by our exclusive patented process! Certainly—you smoke P. A. from sun up till you slip between the sheets without a comeback.

Prince Albert is the tobacco that revolutionized pipe smoking. If you never could smoke a pipe—forget it! You can—AND YOU WILL—if you use Prince Albert for packing! It's a smoke revelation in a jimmy pipe or a cigarette!

FIFTH SUNDAY MEETING AT TRIGGER MOUNTAIN.

Elder I. A. Dyches writes announcing a meeting at Trigger Mountain school house or near, on the fifth Sunday in May, beginning Saturday night before and to last over Sunday, including Sunday.

This meeting is to be held under the auspices of the Church of God in Christ Jesus, and three or four speakers are expected; also it is hoped that all the members in the county will be present.

The following subjects will be discussed:

Nature of Man, Kingdom of God, the Coming of Christ, The Spirit Birth.

Everybody invited to come and investigate the word of God.

PROF. BURNS DELIVERS INTERESTING ADDRESS TO STOCK SHOW SATURDAY

Prof. John C. Burns, secretary of the Texas Shorthorn Breeders' Association, delivered an interesting address at the stock show last Saturday. In closing he said: "There is another thing that is always near my heart, that is the boys and girls. You men get behind our county agent and help him form boys' and girls' livestock clubs. Tie them to the soil and the home by giving them the responsibility of ownership."

Already a satisfactory number of splendid boys and girls are enrolled in the crop and livestock clubs. Applications for membership will be received until June 1. The successful livestock show last Saturday aroused a keen interest in the Beef Cattle Club. Deserving boys who desire a good animal for club work will be given financial assistance if needed.

Boys, now is the time to get into the pig club or calf club. We expect to hold a great club show next October. Don't lose this year, but get in now.

W. P. WEAVER,
County Agent.

PLEASANT GROVE.

Editor Eagle:

Our school closed May 13 with a picnic and barbecue, and a concert at night. We have had one of the best schools we have ever had. Prof. Albert Conradt was teacher. We will compare our school with any country school in the county or, as far as that, any in adjoining counties. We think that everybody has taken an interest in the school, the patrons and pupils, and we know the teachers and trustees did.

Well, about the picnic: As every one knows, old Pleasant Grove never falls down on anything they undertake. The people began to come in by seven o'clock a. m. and continued all day. Bro. Joe Benningfield made the welcome address, which was short, appropriate and to the point. He then introduced W. H. Linkenhog, who made us a speech that was interesting on the Farm Bureau, and made it plain to the people. Then County Agent Weaver was introduced and he also made a nice speech. Owing to the lateness of the hour when they arrived, they were not given as much time as we would have liked for them to have. Dinner was announced about 12:30 and the table was loaded with barbecue, bread and cakes and pies and so many other good things that I will not try to mention all. But there was enough left to feed as many more. The barbecue was fine, and if anybody did not get all they wanted it was their fault for it was there and all were welcome.

There were old acquaintances who met there who had not seen each other in years; there were people from Goldthwaite, Sealhorn, Long Cove, Lometa, Moline, Adamsville, Center City, Star, Caradan, and I do not know how many other places.

I have not given as much consideration to speakers and other things as I would have liked to, but time and space forbids. I think everybody enjoyed themselves; hope they did, at least, and everybody was welcome. Maybe some one more gifted will give a write-up. **ONE OF THEM.**

A big reduction on our entire Shoe stock.—Henry Martin.

CASH-RAISING SALE

Still Going On!

We opened up Friday with the biggest crowd that ever attended a Sale in this county and everybody was greatly surprised at our Prices. Come and be convinced yourself. Never before in the history of Sales have people come such a distance to take advantage of such Prices.

People Know Prices When They See Them!

We were told countless times that they did not see how we could sell for Such LOW Prices. But we are, and are going to continue until the 28th when our BIG CASH RAISING SALE will be over.

**H. LINKENHOGGER RE-
 PLIES TO DAVIS SPEECH
 AT MULLIN RECENTLY**

Ordinarily a dirt farmer hesitates to take up his pen in reply to an ex-State official, but Mr. Fred W. Davis in his recent speech at Mullin attacked the principles of the Farm Bureau marketing system to such extent that we feel constrained to make reply. Many of his hearers have never heard a discussion of the Farm Bureau by its friends. We feel that it is only just that they should hear the other side of the question.

The Five Year Contract.

We only remind our readers that Oklahoma is organizing under a seven-year contract. California has extended the tenure of the contract from time to time until they now have a fourteen-year contract. The long-time contract has been tried and found satisfactory. As it is no experiment, no argument is necessary.

The Right of Sale.

Mr. Davis flattered the farmers by referring to their "right of sale." We ask at what point in the transaction does the grower exercise this boasted "right of sale." The buyer prices the commodity. He grades it. He deducts the country damage. He appropriates the city crop. He subtracts the transportation. He takes out for the New Orleans exchange. Does the act of unloading at a specified place constitute this "right of sale?" Surely Mr. Davis was trying to be funny.

That Board of Directors.

Mr. Davis refers to the Sales Committee as foreign to the grower and his interests. Read the contract and see for yourself that the grower elects this committee to market his commodity. The grower functions through this committee.

Farmers, do you believe that a marketing system can be financed without banks? Do you believe it practical to have a grader and compressor attached to the Mullin gin? That sounds like "the stuff dreams are made of."

By quoting hearsay evidence, the ex-commissioner very adroitly created the impression that the Farm Bureau had bought or would buy a seat in the New Orleans exchange. The Farm Bureau has no such intention, for its success means death to the exchanges.

Another false report is circulating around Goldthwaite that the Farm Bureau is supporting the open shop policy. Individual members are either for the open shop or closed shop, but the organization, as such, takes no stand on this or on any other political question.

Farmers, be not deceived by politicians or others whose interest is adverse to ours, but make a careful study of our contract and choose between the present unsatisfactory system and a business plan of co-operative marketing.

W. M. LINKENHOGGER,
 President, Mills Co. Farm Bureau.

Do You Know This?

THOMAS A. EDISON SPENT THREE MILLION DOLLARS TO DEVELOP A REPRODUCING INSTRUMENT WHICH WOULD GIVE PERFECT MUSIC OF ALL KINDS, AND WHICH, THROUGH ITS SUPREME REALISM, COULD CONFER UPON EVERY HOME THE INCALCULABLE BENEFITS OF PURE AND GOOD MUSIC, EXACTLY AS RENDERED BY THE WORLD'S BEST ARTISTS.

DUPLICATES OF THIS ORIGINAL THREE-MILLION-DOLLAR INSTRUMENT ARE NOW ON

SALE AT \$295.00. THESE INSTRUMENTS ARE KNOWN AS OFFICIAL LABORATORY MODEL.

MANY PEOPLE SEEM TO BELIEVE THAT MR. EDISON'S GREAT INVENTION CAN BE OBTAINED ONLY IN THE OFFICIAL LABORATORY MODEL. WE ARE THEREFORE GLAD TO BE ABLE TO ANNOUNCE THAT THERE IS A SKILLFUL ADAPTATION OF THE OFFICIAL LABORATORY MODEL, ENCASED IN A CHARMING HEPPELWHITE CABINET, WHICH CAN BE PURCHASED FOR:

\$167.50
A Real Edison

We have no hesitation in stating that this Heppelwhite model of the New Edison is vastly superior to any and all talking machines at any and all prices. We are prepared to submit the Heppelwhite to scientific comparison for proof of our assertion—you and your friends to be the judges.

Hundreds of thousands of people believe that \$295. is not too much to pay for the Official Laboratory Model, which embodies all of Mr. Edison's three-

million-dollar research. Many others pay more than \$295. for it in special French and Italian cases, or in laid and hand-decorated English cabinets. However, there may be some who are not yet ready to purchase the Official Laboratory Model. To them we say: Don't delay, don't deny yourself the pleasure and benefits of Mr. Edison's research work. Buy a Heppelwhite now, and later trade it in on an Official Laboratory Model.

Special Offer

We have set aside a limited number of these charming Heppelwhites. We shall be glad to prove to your satisfaction that they are far superior to any talking machine at any price. Take one of these beautiful Heppelwhites at \$167.50 with the understanding that at any time within one year from the date of purchase you can, if you desire to do so, return the Heppelwhite and receive credit on the purchase of an Official Laboratory Model, for the full amount paid by you for your Heppelwhite. There are absolutely no strings on this special offer. It is a part of our co-operation with Mr. Edison to put real music in every home, particularly those homes where there are young people whose natures are now molding, and who, above all others, require the improving and ennobling influence of the wonderful music which Edison has placed within the reach of everyone.

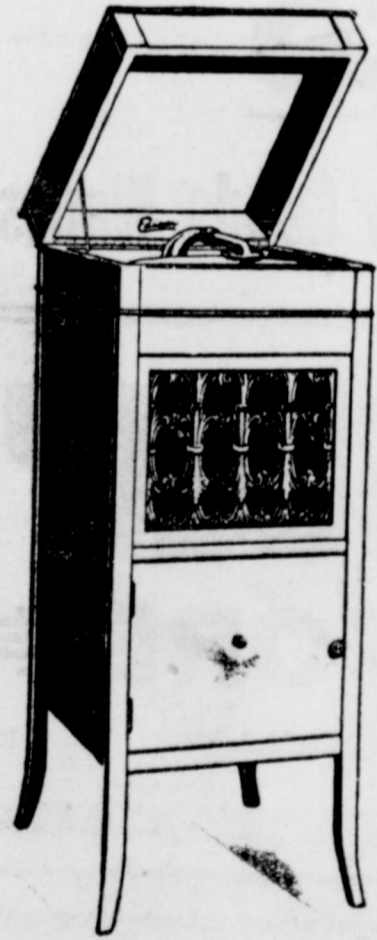

We are able to make this special offer because there will be no reduction in the prices of Edison instruments. Edison has raised his prices less than 15 per cent. since 1914. Don't wait. Come before this special allotment of Heppelwhites is gone. Come at once.

Terms of Payment
A gentleman's agreement can be made by any man or woman who loves music.

HEPPELWHITE

Described by Miss Elsie de Wolfe as a "characteristically diminutive and graceful Heppelwhite"; designed with particular reference to the requirements of city apartment dwellers, but perfectly appropriate to the largest mansions. Grille reproduces Heppelwhite's historic "Prince of Wales Feathers," with a treatment which gives the feeling of time mellowed hand-carvings. Genuine mahogany or genuine quarter-sawn oak.

BEAVER HINTS.

Public Health Association. May 14.—The Texas Public Health Association has issued a circular to the citizens of Texas against the house fly and the common fly is sometimes called the house fly, as it causes much typhoid fever. It also helps spread cholera, tuberculosis and many diseases. To eliminate this pest, we must destroy the breeding places of the fly, among which the most important are cess pools and filthy places. Rub the eggs a week to hatch, and rubbish and other breeding places of the common fly should be removed or disinfected at least every six days.

Every one knows that fresh air is the best medicine and incense. One of the cheapest, says Prof. A. Winslow of Yale University, and more doctors are prescribing "fresh air cure" for all sorts of ailments. When you must be indoors, don't forget your good friend, the thermometer, turn off heat or open windows as the temperature rises above 68 degrees. This would cut in half the number of colds and other nose and throat diseases from which Americans suffer as a result of overheating.

Business profiteth a man nothing; industry wisely directed bringeth health and happiness.

Every health officer knows that a tooth is a purchasable commodity. Gummatism is caused by a germ frequently in the tooth-socket or

well baby is a happy baby. A mother is never cross or fretful of her child.

Among the things unforgivable is the unwillingness of a mother to nurse her child.

Keep your finger nails trimmed short with scissors or knife. Never bite them. Keep them cleaned and keep your hands washed, especially at meal time. There are two ways to stop head-aches. One is to knock the individual loose with a club, and the other is to take a headache powder.

Parents should see to it that when a baby is born it has nitrate of silver put into its eyes immediately to prevent blindness, and the next thing to see to it that its birth is legally recorded.

The season of the year for typhoid fever is soon to begin. Why not avoid this dreadful disease by cleaning up, using the flies or by vaccination. It will not be long before the fishing and the camping fever will get a hold on the people. It is a dangerous period; camp as a rule have no sanitation, so look out for typhoid fever, diarrhea and dysentery. Where men fish mosquitoes usually are plentiful and you may get malaria if affected mosquito bites you.

Power Farming With The FORDSON

The Fordson Tractor is taking care of every power job; it is taking the drudgery out of farm work and solving the labor problem. Power farming with the Fordson reduces the cost of preparing land to almost one half what it would be with horses, and saves a third to a half of the farmer's time. What machinery does for the factory, the Fordson Tractor is accomplishing on the farm—it is increasing production at lower costs and making farm life attractive.

Apply this power farming idea in your threshing. More and more farmers are making themselves independent of unfavorable conditions by using the Fordson tractor linked up with a light threshing. By seizing the right moment and being able to do the job without waiting and in quick time, crop losses are avoided and profits increased.

The Fordson operates with kerosene. When used on belt work, running at full power at 1,000 R. P. M., the fuel consumption does not exceed 2 1/4 gallons per hour. It will run the

electric light plant, operate the milking machines and straw baler—will take care of every kind of belt work.

The Fordson plows 6 to 8 acres in a 10-hour day, handling two plows with ease in the average soil. It requires an average of only 1 1/2 to 2 gallons of kerosene to the acre.

It is the ideal year-round tractor. It will pay for its fall and winter keep in many ways such as road work, hauling grain to the elevator, pumping water and moving granaries.

THE BRIGHT SIDE.

Phrenologist—Your son has a pronounced mathematical bump.

The Son—That's where papa hit me for being at the bottom of the arithmetic class.

Freddie—Mamma, the teacher is going to show us the eclipse of the sun today.

Mother—All right, Freddie, but I don't want you to go too close.

Friend—Is your husband saving up for a rainy day?

Wife—He's a perfect Noah! He's saving up for the flood.

He was—well, very, very careful. Each week he would go over his wife's bank account, growling and grumbling. Once he delivered himself of the following: "Look here, Sarah, 'mustard plasters, 1 shilling, two teeth extracted 5 shillings.' There's 6 shillings in one week spent for your private pleasure!"

"Have the lawyers made a division of your father's estate yet?"

"I think they must have. I notice they've all got new cars."

"Mother," asked the little boy, "when the fire goes out, where does it go?"

"I don't know, dear," answered mother. "You might just as well ask me where your father goes when he goes out."

"Always remember," said Tommy's father, "that whatever you attempt, there is only one way to learn, and that is by beginning at the very bottom. There are no exceptions to this rule."

"None at all?" queried Tommy.

"None," said father, decisively.

"Then," asked Tommy, "how about swimming?"

Two gentlemen riding on a train were both very much intoxicated.

First Gent—What time is it?

Second Gent (after extracting a matchbox from his pocket with much exertion and gazing at it intently)—Thursday.

First Gent—Great Scott! I must get off here.

A TALK WITH A GOLDTHWAITE MAN.

Mr. D. Y. Fox of Goldthwaite Tells His Experience.

There is nothing like a talk with one of our own citizens for giving hope and encouragement to the anxious sufferer from the dread kidney disease. We, therefore, give here an interview with a Goldthwaite man:

"My kidneys first bothered me by causing me to suffer with my back," says Mr. Fox. "Then I had rheumatic pains in my limbs and arms. My kidneys at times acted irregularly. As these ailments came on me, I used Doan's Kidney Pills, getting them at Clements' Drug Store, and they always relieved the rheumatic pains and backache and corrected the kidney action. As a rule, I have Doan's in my house, for I know I can depend on them."

Relies on Doan's.

Mr. Fox gave the above statement April 26, 1915, and on May 20, 1919, he added: "I am a strong believer in Doan's Kidney Pills and am never without a box. When my kidneys feel a little sluggish I always take a few with fine results. I feel the same about Doan's now as I did when I gave my previous statement."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Fox had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.—Adv. 5-21
