ASSOCIATION.

be a meeting of the association at the court y afternoon at four s. J. M. Campbell,

Editor Eagle: Every one in this community is making ready to plant corn, and making provision for the next crop in the order of the sheeping goats begins this and next week, and the prospects are for a big clip of mohair this year. Mr. W. M. Roberts, the rural mail carrier, is on the sick list this week. The lagrippe is quite prevalent in our community. Mr. W. Teague is convalescing nicely. Mrs. J. L. Goodnight was prevailed on by some of the young people to give them a party which all seemed to enjoy very much. However, a vigilant watch was made by D. A. Jeske, on the rain water tank. The Star Athletics Club is training for the Mills County Track Meet which isto be held at Goldthwaite March 26 and 27. This club thinks that it will be in full bloom and will make a good showing, being stronger than ever before and having from one to three in each event. The school is not only training in athletics but will make a good showing in the Literary as well. One of our citizens, and barber, tried out cutting a load of wood, which made him very sore. He has been on a diet for three months, and has gained twenty pounds. Last Sunday evening a crowd of young folks gathered in the gap of the mountain and had a marsh-mellow roast and a great time. Their names are as follows: Miss Thalia Hamilton, Miss Louise Hamilton, Miss Fudell Fields, and Miss Laveda Harrell; Mr. Eteen Hamilton, V. D. Adams, M. M. Henry and Corvin Emdy. After supper this party went to McGirk to singing which they all reported fine. It is very strange why Corvin Emdy likes the school so much more than ever before. All is smiles among our citizens this morning over the nice gentle rain that is falling. This will make everything lovely.—Nihil.

METHODIST CHURCH ANNOUNCEMENTS.

Sunday School at 9:45. Preaching at 11. The subject will be "The Institution and Purpose of Our Lord's Supper." The evening service will start promptly at 7:30. E. P. NEAL, Pastor.

"A Sure Sign"

CHAPPEL HILL.

Editor Eagle: The nice spring-like weather which we have been enjoying for some time was brought to a sudden stop last Monday morning by a brisk norther which came sweeping down upon us straightway from the north pole—thus ending the idea of early gardening for a time. And it seems to be a continued spell as it is still quite cold this morning (Wednesday). Mr. and Mrs. Henry Harris of Priddy visited in the home of Mr. W. W. Johnson Sunday. Mr. and Mrs. Jim Hopper of Priddy spent Saturday evening in our midst. Mrs. B. J. Crawford and daughter, Miss Pearl, spent Saturday afternoon with Mrs. Dewey Gerald. Misses Elsie and Hazel Hill also Jams Hill of Live Oak community spent a most pleasant evening with Misses Addie and Loraine Johnson Saturday. Little Maude Collier spent Friday night with her little friend, Ethel Hill. Several of our young people spent Sunday afternoon kodaking. Mardine and Marine Brown visited with Maude Collier Tuesday night. Miss Alma Lorenz is on the sick list this week. Eldred Collier attended church at Goldthwaite Sunday night. Mr. and Mrs. Omer Hill of Live Oak community also Mr. and Mrs. Norris Crook spent Sunday with Mr. and Mrs. Jim Evans. — Hinawatha.

GOLDTHWAITE WILL NOT GET UNIVERSITY

Dr. Em. Wilson and Supt. D. A. Newton went to Austin last Friday and interviewed Dr. Shelby concerning the proposed university for Goldthwaite. They were advised that at a conference held the day previous between Dr. W. M. Splawn, Dr. Shelby and others it was decided not to grant universities to cities with less than \$10,000,000 rendition. They stated that this action was necessary because almost every town in Texas had applied for a university. Especially were the towns surrounding Goldthwaite represented. Goldthwaite is unfortunate in not securing the university; however, plans are being worked out to possibly add first year university work to the present curriculum. Just what action can be taken is problematical.

BIRTHDAY PARTY.

On February 18, Miss Florina Love Woody, the little daughter of Mr. and Mrs. O. L. Woody, invited a number of her little friends to her home on South Fisher street to celebrate her seventh birthday. After a number of enjoyable games were played by the little tots, and they had inspected the many pretty gifts, they were invited into the dining room, which was prettily decorated in pink and white, the streamers extending from the center of the ceiling to the dining table. The centerpiece of the table was the birthday cake, carrying out the color scheme of pink and white with the seven candles lighted. Much merriment was caused by the children blowing the candles out. The cake was cut and served with pink and white ice cream to the following guests: Little Misses Evelyn and Ellen Allen, Gertrude and Joyce Johnson, Deaka Shaw, Cecelia Ann Schwartz, Flora Evelyn Gatlin, Janita Rudd, Dorothy Mayberry, Willie Reta, Mary and Jewel Lee Horton, Mary Clements, Billie Weatherby, Laura Helen Saylor, Master Sam Saylor and the little hostess. Mrs. Woody was assisted in entertaining the children by Miss Love Gatlin and Miss Elizabeth Vann.—XV.

THE MULLIN HIGH SCHOOL

PROF. JOHN M. SCOTT
Superintendent Mullin Schools

Under the supervision of Superintendent John M. Scott, the Mullin High School is making great strides this year along educational lines. Much interest in the work and advancement of the school is shown by practically all the patrons of the Mullin Independent School District, and the school spirit is manifest in the pupils.

The new 10-room modern school building is a credit to the town and to the district. It is a two-story building containing 10 rooms and a superintendent's office. The building is heated by the modern hot-air system; the windows have double roller heavy canvas shades that roll from top or bottom. The floors are all well oiled and clean, the walls are clean and all the old desks have during this term been remodeled, cleaned and varnished. A system of folding doors has lately been installed, cutting off the study hall and class room of the high school, and when rolled back makes a large auditorium. This system was pronounced a success by Prof. Scott. Many new desks have been added in the study hall this year, and something like \$2,000 worth of permanent equipment added to the school.

A good permanent pupil record

is kept by the school. A library has been added since the beginning of this term, and is located in the study hall. Improved filing system is used, and two daily papers and several of the approved periodicals come regularly to the library.

The School.

The enrollment in the Mullin schools is 277 in regular attendance, with 74 in the high school.

The Eleventh Grade was put on in the school this year for the first time, and seven boys and girls compose the first graduating class this year, while there will be 24 or more next year. The first 4-year Senior Class for the Mullin High School is composed of:

- Ralph Fisher.
- Lois Fisher.
- Ward Farmer.
- Hillman McNeill.
- Mildred Edmondson.
- Bradley Guthrie.

The Campus.

On the campus everything is clean and orderly, as in the building. Mullin citizens are back of their school this year, are enthusiastic over its outlook, and never miss an opportunity to boost it. As proof of this, they have recently put their shoulder to the wheelbarrow and have plowed, graded, leveled and terraced the entire school campus, and have built a graded circular driveway around the building. Many loads of rock and rubbish have been hauled off the campus, which is now one to be proud of.

Every grade in the school, as well as several organizations of the town and individuals, last Arbor day set out pecan and hackberry trees to the number of 24, which are being watered regularly and well cared for.

The campus contains all approved playground equipment, including a giant stride, swings, seesaws, tennis courts, and space for all track and field events.

Right here the Eagle man who visited the Mullin school last week wishes to warn the other schools of the county that Mullin will be in Goldthwaite strong for

the County Interscholastic League Meet on March 26 and 27, Mullin pupils being entered in all literary, declamation and track events, on which they are now working hard.

Student Activities.

The students themselves are boosting and are deeply interested in their school. They are engaging in many student activities.

For the past few months the students of the Mullin school have been editing and publishing a semi-monthly school paper, "The Tattler," which has been instrumental in building up a school spirit in the entire citizenship of the district, and has built up in them a loyalty for their home town that has probably never before been felt in Mullin. Mullin business men have been liberal in their support of the paper and are receiving, in return, the universal patronage of the Mullin trade territory.

Mullin school has many talented pupils, and Prof. Scott and the school faculty never miss an opportunity to help bring out and develop this talent. A Junior and Senior school orchestra is unique

in that it is under the supervision of a paid instructor, Prof. W. R. Elliott, who is elected by the Board of Trustees to teach public school music. These orchestras are one of the main attractions at the high school plays put on by the students to raise funds for athletic or other activities. These plays are always good and are always played before a "standing-room-only" audience. An invitation is extended to Mullin to bring one of their plays and their orchestra to Goldthwaite in the near future.

Plans for Future.

New units of affiliation have been added this year, and the Mullin school now had all standard requirements for affiliation with the exception of science, which will be added next year.

Laboratory space will be provided next year to equip for Federal Vocational Science under the Smith-Hughes law. Federal funds have already been set aside for the Mullin school, and vocational

science, including plant and animal husbandry, will be taught by a man recognized by the State Vocational Board.

The Board of Trustees have ordered modern fire escapes to equip the Mullin school building and these will be installed the next term.

Mullin patrons are being paid school 100 per cent, and a wonderful outlook for the future. The following is the faculty of the Mullin school:

Board of Trustees.

- J. A. Holland, President.
- Willard Mosier, Secretary.
- Mrs. S. J. Fisher.
- Mrs. Chas. Hays.
- A. F. Shelton.
- I. D. Toliver.
- J. T. Renfro.

Faculty.

- John M. Scott, Superintendent.
- Miss Annine McKinney.
- Miss Annie Laurie Petsick, Principal.
- Mrs. Eidsen A. Johle.
- Miss Mary Freeland.
- Miss Avis Petsick.
- Miss Pansy Hamilton.
- Prof. W. R. Elliott.

The Dignity of Labor.
The sunbonnet and the overalls, rather than the bridge cards and golf clubs, will solve the world's problems, according to an Indiana farm woman who was a speaker at the Texas State Farm Bureau meeting recently. Mrs. Charles W. Cowell, vice president of the Indiana farm bureau, insisted that it is the hoe hand and not the manicured hand that will lift the world's burden. She made an appeal that women be permitted to share equally with the men in farm bureau work.

Arsenate Spray Kills Bees.
Albert M. Hunt calls our attention to the fact that arsenate sprays applied to fruit trees while in bloom will kill bees working on them.
We do not know of any arsenate sprays having been used in this section. The dormant spray that has been used to control San Jose scale, so far as we know, will not kill bees.

This is a problem that will have to be adjusted. To succeed with fruits and many truck crops, the spraying is necessary. The honey crop is an asset we are proud of. We need both the fruit and the bees.

Plant a Garden.
It is poor economy for farm and small town folks to buy vegetables. A small garden patch yields greater profits than any other part of the farm.

Plant a sufficient garden for home use and a surplus to sell. Provide a water supply for irrigation in case of deficient rainfall. Plant a garden.

Egg Marketing Meeting.
All poultry men are invited to a meeting next Saturday at 2:30 p. m. in the Chamber of Commerce rooms to consider ways and means for securing a better market for eggs.

It is well known that Texas eggs are discriminated against because they lack uniformity and so few fertile eggs are produced. It is time for poultrymen to unite in producing a better article and we feel sure better prices will result. Come to this meeting, for marketing is the biggest end of the poultry business.

TERRACE BUILDING DEMONSTRATION.

A terrace building will be staged with a Corsicana Terracer on the Buster Johnson farm near Duran next Friday, March 5th, beginning at ten o'clock and continuing all day. Every farmer interested in terracing should see this machinery at work.

New Method Quickly Banishes Heavy Coughs

Why be annoyed and weakened by persistent, strength-sapping coughing spells when you can, through a very simple treatment, quickly stop all irritation and very often banish the trouble entirely in 24 hours?

This treatment is based on the famous prescription known as Dr. King's New Discovery for Coughs. You take just one teaspoonful at bed-time and hold it in your throat for 15 or 20 seconds before swallowing it. The prescription has a double action. It not only soothes and heals soreness and irritation, but it quickly removes the phlegm and congestion which are the real cause of night coughing. Thus, with the throat soothed and cleared, coughing stops quickly and you sleep all night undisturbed.

Dr. King's New Discovery is for coughs, chest colds, sore throat, hoarseness, bronchitis, spasmodic croup, etc. Fine for children as well as grown-ups—no harmful drugs. Economical, too, as the dose is only one teaspoonful. At all good druggists. Ask for

"We have Never Lowered the Quality to Reduce the Price"

Since 1903, when the Ford Motor Company was formed, Ford cars have been constantly improved in quality, comfort, convenience and appearance. Recent improvements include new and attractive body lines—a lower center of gravity—closed cars in color, and all-steel bodies. The basic features of Ford design have been retained. Three point motor suspension, planetary transmission, dual ignition system, torque tube drive, multiple disc-in-oil clutch, splash lubrication, thermo-siphon cooling system—all have been features of the Ford car for eighteen

years. On the whole these features cost far more to manufacture than conventional design but are used because of their superiority. The Ford Motor Company has carried out a program of price reduction that has consistently kept Ford value supreme in the automotive industry. This has been made possible by the enormity of Ford production. With lesser resources, Ford quality would not be possible at anywhere near Ford prices. The tremendous demand for Ford closed cars has again made possible substantial price reductions.

COOK'S PAINT AND VARNISH PRODUCTS

SOME folks think that paint is paint and varnish is varnish—that it's all pretty much alike, regardless of who makes it. But we know different!

For a long time we watched the progress of the Cook Paint & Varnish Co. of Kansas City, St. Louis and Fort Worth. They're the biggest paint concern west of the Mississippi, and the tenth largest in the whole country. They make the famous line of Cook Products—"Best For Wear and Weather." There's a Cook paint, varnish, stain, enamel or lacquer for every painting purpose—and every Cook Product is the best of its kind!

That's why we wanted the Cook Agency. And we landed it! You'll find on our shelves the same Cook Paints and Varnishes that were used to decorate the wonderful \$2,500,000 Kansas City Club—the magnificent new state capitol building at Lincoln, Nebraska—the Broadview Hotel in Wichita—the beautiful new Fort Worth Club—the Colburn Hotel in Denver—the First Presbyterian Church in Tulsa—the Adolphus Hotel in Dallas—and such lovely homes as that of Gordon Taylor in Oklahoma City.

If you're going to paint this season, we want you to drop in and look over our samples of

Cook-painted panels. You'll find here the paint or varnish best suited to your purpose, at a price that will please you. Ask us for free color cards, suggestions and estimates of cost. No obligation. We're glad to serve you.

And here's a tip: Mail the coupon below for the FREE books on painting the Cook folks will send you. You'll get some good ideas and suggestions from them.

BIG VALLEY.

Editor Eagle: Spring is almost here and farmers are making good use of it. J. C. Moreland and Mr. Buckhannon have planted some frost-proof watermelns. The early bird gets the choice worms. Bro. Fuller was with us Saturday night and Sunday. He brought Bro. Hanna of Howard Payne with him, also his two daughters, Catherine and Mattie Ellen.

Quite a lot of "flu" in the valley at this writing. Dan Long and family are all sick, also Ishmael Long.

All of Bob Robertson's family and himself included, also Mr. George Robertson and family are sick.

Mrs. D. G. Goode has been confined to her bed with flu for several days, also Mrs. D. Hartman.

Bob Robertson happened to a very serious accident last week. He cut an artery in his leg and the bleeding liked to have been serious before medical aid could be had.

We are hoping all the sick folks will soon be better.

Miss Mabel Goode, who is attending school at Baylor Belton, came home last week to make a visit with homefolks. She returned to Belton Tuesday.

Misses Mabel Goode, Nina Robertson and Catherine Fuller were visitors at the home of J. J. Cockrell Sunday.

J. J. Cockrell has bought a Kavar Harrow, a rea Johnson and Burmuda grass digger and killer. Any one interested in ridding their places of these pests just call at the River Side Fruit Farm and let him demonstrate with his digger.

Farmers around here mean to experiment with cotton seed meal and acid phosphate on their cotton, watermelns and truck.

The outlook for a fruit crop for this season is in the doubtful stage after the cold sand storms of March, frost in April, and hail in May and June, we may, and we may not, have a fine crop of fruit. The fruit buds are very few; can't have a big crop at best.

One good thing among many others our County Agent W. P. Weaver has got the people to spraying for San Jose scale; had this pest been let alone we would not have had any trees to spray very long.

W. P. Weaver was in the Valley last week looking after some terracing. The writer would like to say "Hurrah" for the good work that our county agent is doing for they be many.

The people generally are regretting the fact that Goldthwaite lost the Junior University; still we have the Pecan Belt Highway assured and prospects for an oil well, so hurrah for Goldthwaite any way for her good people make an honest effort.

Mr. Buchannon has planted corn; any one wanting early roasting ears just apply to him.

Uncle George Reedy caught a fine channel cat last week. It measured 17 7-8 inches whiskers and all.

Mr. Charlie Bruce and wife attended church here Saturday night. Glad to have them with us and hope they will come again.

A good rain would help so much and 'tis raining some now, so possibly we will get a good one before it's over.—Farmer.

I have a few 30x3 1/2 Casings and Inner Tubes to close out at a bargain.—W. T. Keese.

PARENT-TEACHER ASSOCIATION.

The Parent-Teachers Association will meet in regular session Tuesday, March 9, at four o'clock at the high school. All members are urged to be present, as matters of importance are to be discussed.

The following program will be rendered:

- Invocation—Rev. Neal.
- Piano Solo—Daphne Evans.
- Reading—Azlea Berry.
- Vocal Solo—Miss Myra Miller.
- Reading—Elizabeth Dalton.

CENTER POINT.

Editor Eagle: I will drop the Old Bird a few scribbles this evening.

Health in this community hasn't been so very good the last few days.

Mr. J. S. Connor has been on the sick list lately.

Bro. Lawrence Hays fled his regular appointments Saturday morning and night, also Sunday. Quite a large crowd attended all services.

Miss No. Davis and Mr. Emil Steinmann both of this community, were married last week. We wish them long and happy wedded bliss.

Quite a crowd of youngsters serenaded Mr. Emil Steinmann and bride Saturday and Sunday nights.

Miss Dory Fallon spent last week at Mr. John Guthrie's home.

Miss Alta Shelton and Thelma Hammond attended the play at Duren last Friday night.

Mr. Jack Robertson and Joe Davis of Rock Springs attended church here Saturday night.

Miss Mildred Gilpin returned

home last Tuesday after an extended visit in this community with her sister, Mrs. Henry Davis. Mr. and Mrs. Marvin Spinks and baby attended church Sunday and visited in Mr. Geo. Shuffield's home.

Miss Miriam Newman took dinner with Mrs. R. C. Smith last Sunday.

Bro. Hays took dinner at Mr. Jim Fallon's home last Sunday. Well, I will ring off for this time.—"Pal."

NORTH BENNETT.

Editor Eagle: The farmers are busy turning their land. Some are planting corn.

The health of the community seems to be improving.

Rev. C. H. Miles filled his appointment at Liberty Saturday and Sunday.

Bro. Lindsey and Jackson Sparkman of Brownwood and Rev. C. H. Miles and H. C. Miles took dinner with Mrs. Batchelor Thursday.

Misses Laura Petsick and Elva Wright spent last week end with home folks.

Mr. and Mrs. Albert Mason of Vista spent Sunday with Mrs. Mason's parents, Mr. and Mrs. C. M. Head.

Misses Cora Hughes and Nofia Lee Bishop spent last week end with Mrs. C. W. Batchelor.

Messrs. Luther Ellis, Hubert Scribner, Van Williams, and Misses Patsy Williams, Clara Williams and Luvina Miles attended singing at Center City Sunday afternoon.

The North Bennett girls and boys played the Live Oak girls and boys basketball game Friday afternoon. The North Bennett

girls won the game, 8 to 0. The Live Oak boys won.

Miss Ethel Head spent last week end with homefolks.

Miss Exa Williams spent last week with her cousin, Miss Chatman, of Goldthwaite.—Violet.

DAVID MORRIS, JR.

David Morris Jr. died at his home in this city Wednesday afternoon, and was laid to rest Thursday afternoon in Center City cemetery, where his father and mother were buried many years ago.

Mr. Morris had long suffered from faulty heart action followed by dropsy, and for several months had been confined to his room.

He was born April 1, 1854, in Knox County, Indiana. His father's family came to Texas the same year and for a time lived near Waco. In 1856 they came to Mills County, first making their home near Payne Gap, but in 1856 they moved to a new location on Bennett's Creek near where Center City now stands.

Here the family endured all the privations of frontier life, depending at times upon the wild animals and fruits for subsistence.

Before Mr. Morris had reached his "teens" he rode with the rangers who were riding the front and protecting the settlers and was often sent on dangerous trips alone, carrying messages and giving warnings when the Indians were invading the settlements. At the age of 18 he was married to Miss Alice B. Evans who survives him.

Sixty years ago the Morris home on Bennett's creek was one of the best known settlements, as it was halfway station between the DeLeon and Colorado, where scattering homes could be found. A more extended account of the life of this Mills County pioneer will appear next week.

The Eagle joins with the hosts of friends of the Morris families in offering them sincerest sympathy in this sad hour.

AUSTIN MILL TO MANUFACTURE COMPLETE LINE OF POULTRY AND STOCK FEEDS

The Austin Mill and Grain Company is going into poultry and stock feed manufacturing on a big scale. Machinery for the new plant which has begun arriving this week and which will be assembled and in operation in two or three weeks will make this one of the largest concerns of its kind in the Southwest. The new enterprise will be run in connection with the Austin company's large modern flour mill, and will be housed in the old Lee mill on the Santa Fe tracks.

The new plant will be an exclusive mixed feed plant. The Austin company's own formulas for mixing the feeds will be used. The trade marked name of the products will be "Gold Arrow." The formulas were obtained from some of the best poultry and stock feeding experts in the country.

Already in This Line.
The Austin Mill and Grain Company has been mixing and selling feeds for some time but on a relatively small scale. With the installation of the new machinery, which is of the famous Eureka line, purchased from the S. Howse Company, Silver Creek, N. Y., the concern becomes one of the important manufacturers of commercial feeds in the southwest.

The plant will be under the supervision of W. P. Logan, who is a miller of 25 years' experience.

Among the poultry feeds to be carried will be: buttermilk starting feed; growing mash; egg mash; hen scratch and fettener. Feeds for other stock will be carried. The Austin company will make feed for everything that crows, clucks, quacks, brays, moos or bleats and makes every other sound heard around the barnyard, if any.

L. M. Stephens of the Austin company stated yesterday that the company hopes to be of aid to the farmers if Brownwood secures the milk condensery. He stated that Brown county produces practically all the ingredients to be used in the feeds: grains, buttermilk, timber for charcoal, etc.

The new plant will do custom grinding also. If any stock or poultry man wants feed mixed according to his favorite formula, the mill will accommodate him.—Brownwood News.

Motor-Driven Roller Skates Run on Rough Ground
Propelled by small acetylene or gas-burning motors, roller skates devised by a German engineer are said to develop considerable power and will run not only on pavements but on rough surfaces as well. Controls are operated through connections reached with the hands. The engine is built on principles discovered in making small motors for airplanes.

New Steel, Hard Yet Pliant, Takes Razor Edge
Many of the qualities of the celebrated Damascus steel are said to be found in a modern product which an Ohio man has developed by a secret process. He combines iron and carbon in such a way that the resulting steel will bend, keep an edge of razor sharpness, is tough and can be driven through other steels without breaking. A bar of the material, fifteen inches long, was tempered to five different degrees, one end of it being hard enough

to cut glass, a section was sharpened like a razor and would cut steel without honing or stropping while other parts in the same bar would cut off a spike under blows of a hammer would spring or could be bent backward and forward with the thumb and forefinger without breaking. Vanadium is an important element used in the preparation of the steel.

Salmon Travel Hundreds of Miles a Week
That salmon travel amazing distances in short periods is indicated by the journey of one fish which was liberated at the southern end of Nova Scotia last June and was caught less than a month later in the Miramichi, Quebec. Identification was made by means of the silver tag which had been placed in one of the salmon's fins when it was first captured. Its journey was between 800 and 1,200 miles long, by means of the tag, valuable knowledge is being gained as to the habits of salmon and other fish.

Snubbers for Ford Car Made at Home
After he had broken three sets of springs in one summer, an auto owner looked around for a cheap remedy for preventing further breakage. The remedy he finally devised consisted in

Mixing Concrete in the Wheelbarrow
A simple and easy method of mixing concrete by hand in a wheelbarrow is shown in the illustration. Fig. 1 shows a batch of dry material consisting of four shovelfuls of gravel, two of sand and one of cement. Fig. 2 shows the first operation, working the material to the front of the barrow, with a round-pointed shovel. Fig. 3 shows the same batch after it has been worked back again in the same way and some water has been added. The material is worked to the front again, leaving it in the position shown in Fig. 4, and then again backward. It is now thoroughly mixed and will keep itself in the position shown in Fig. 5. This method has been found entirely satisfactory.

Repairing Leaky Eaves Trough
It sometimes happens that a section of eaves trough rusts through in one place, while the rest of it is still in good condition. You can easily be repaired as follows: Cut a piece of canvas large enough to cover the hole, coat it with tar and press it down over the hole. Then coat the patch with tar on the inner side and let it dry. The trough should, of course, be well cleaned and dried before applying the patch.

To prevent exposed black pipe from rusting cover it with a grease made of 1 lb. of lard, 1 oz. gum camphor and 1 oz. black lead.

**Telephone's 50th Birthday
Celebrated March 10th**

MR. WATSON, COME HERE. I WANT YOU

Left: The first telephone. Above: Alexander Graham Bell, inventor of the telephone.

ceiver, testing it until late that night and next day the telephone was moved to the place of honor in the judges pavilion.

Once the practicability of the telephone had been demonstrated the demand for instruments and service increased rapidly. Theodore N. Vail was made general manager of the telephone company and he is the man who was largely responsible for the wide-spread efficient telephone system of today. Branches were opened in practically every state of the Union, and the formation of a real nationwide telephone system was begun.

Many difficulties were encountered by the telephone pioneers. Improvements of the instruments, changes in the material used for wires, means of lengthening the range of long distance communication, construction of switch boards and central offices—all these problems had to be solved as they arose by the telephone engineers.

The two crude telephones of 1874 have grown into a nation-wide system of more than 16,000,000 telephones, approximately one for every seven people in the United States. This country with but 6 per cent of the world's population, has 61 per cent of the world's telephones. Conversations are now possible from any part of the nation to any other part. The longest continuous circuit is from Catalina Island, off the coast of California, to Havana, Cuba, a distance of over 5,500 miles.

As a community develops, as its industries expand, the telephone company must be ready to take care of that expansion and development. Telephone engineers are constantly making surveys of business and social conditions of the country so that they may anticipate any demand for increased service.

The semi-centennial of the telephone is being celebrated this year all over the United States.

March 10th, 1926, marks the fiftieth anniversary of an important event.

On March 10th, 1876, in a small garret workshop in Boston, Alexander Graham Bell uttered the first words ever transmitted over telephone wires. Using a small crude transmitter and a wire but a few yards in length, he said, "Mr. Watson, come here, I want you." His assistant, Thomas A. Watson, sitting at a receiver in another room, heard these words distinctly and hurried into the room to tell Bell that their tireless research had been rewarded.

Now the telephone is a national necessity, but at first it was considered a mere scientific toy and most people were inclined to scoff at it.

It remained for Dom Pedro, Emperor of Brazil, to place the first stamp of public approval upon the telephone in June of 1878. Bell had taken his crude little invention to the Centennial Exposition at Philadelphia and had set up his exhibit in one of the booths. Late afternoon of the day when the judges were making a tour of inspection of the booths Dom Pedro entered the booth containing the telephone, just as the judges were about to pass it with a glance of incredulity. Dom Pedro recognized Bell, whom he had previously met in Boston, and agreed to test the telephone.

As the incredulous judges looked on, their interest now aroused, Dom Pedro took his place at the receiver while Bell went to the transmitter. Suddenly Dom Pedro threw back his head, and with an amazed look on his face exclaimed, "My God, it talks!" The judges then took their turns at the re-

**STRAIGHT TALKS
WITH AUNT EMMY
ON "BAD LUCK"**

"The Browns are the unluckiest people I ever saw, Aunty," remarked Emma, as she and Aunt Emmy walked by their house. "They were just getting on their feet after James lost so much money in stocks. Maud told me only last week that he was putting his savings in government bonds new. Yesterday his office was robbed and the bonds stolen out of his desk. Five \$100 bonds gone. It's the only money they have been able to save since he lost his savings in that radio stock."

"That certainly is bad luck, if you call it bad luck," commented Aunt Emmy. "I call it stupidity, myself."

"Stupidity? why Aunt Emmy, how could James know that thieves would get in his office?" exclaimed Emma. "It doesn't seem stupid to me."

"I don't want to be too hard on James, my child, but if he had only used ordinary precautions, he need not have lost what was for him a large amount of money on that radio stock and he surely need not have had those bonds stolen."

"Why Aunty, James isn't a mind reader or a fortune teller."

"No, of course he isn't. But neither is every successful business man a seer. Luck is ninety per cent common sense. If James had gone to his banker and asked him to look up the radio company whose stock he was

thinking of buying, the chances are that he never would have bought it after he got the bank's report. Banks can get the record of any company issuing stock and if the company is not well financed, if it has not been paying dividends, if the officers of the company are not men with clean, honest records, the bank can find that out. The radio company that James invested in made a disgraceful failure a month after he bought his stock. If he had taken the trouble to find out something about it first, doubtless he would have had his money today."

"Well, Aunty, that may be true about the stock, but who in the world would anticipate thieves?"

"Anybody who reads the papers to day knows that thieves are pretty active," said Aunt Emmy dryly. "Why ignore them? If James had kept his bonds in a safe place, at a bank, he would have had them yet. James has been careless, if not actually stupid. His bad luck is mostly James himself."—Anne B. Aynes.

BANKERS HELP

The Minnesota Bankers Association at its annual convention adopted the following resolution:

"We believe it to be the duty of every banker in the state of Minnesota to co-operate with our Agricultural Committee and to call the attention of its farmer patrons to the excellent work being done by our Agricultural College, and the means thereby available for the improvement of farming conditions and for the practical education of the boys and girls from our farms."

FROM CAPT. CAROTHERS.

When the years have rolled on its ceaseless course and time has changed you as well as me, and the dark and angry clouds have been rolled away and the beautiful stars and the brilliant full moon has been made visible to the millions of eyes who are looking on at the beautiful scenery that will make sad hearts feel glad, the coming of Springtime is drawing near and the tillers of the soil will soon be called forth with their by which they can plant them and hoping and praying for a bountiful crop, this old earth will soon be carpeted over with her green foliage and King Solomon in all of his greatness could not compete with the laws of nature in the growing out of the ground of the little lily of the valley.

DUTCH PARTY.

The hospitable home of Mr. and Mrs. E. B. Anderson was the scene of a lovely party Thursday of last week when the Self Culture Club entertained for their newly elected officers.

The reception suite was made beautiful by the artistic placing of a profusion of tulips. The club members all wore gaily colored Dutch caps.

Upon entering the hall, the guests were greeted by Mrs. Anderson, Miss Mary Anderson of Brady, Mrs. W. K. Marshall, Mrs. Claude Saylor and Mrs. J. M. Campbell. The registry book was presided over by Mesdames Eli Fairman and L. B. Walters. After registering the guests were conducted to the dining room by Mesdames Randolph and J. H. Saylor, where, from a huge tulip, which graced the center of the dining table, each was asked to draw a bouquet of violets, the club flower.

Beautiful hand-painted score cards ornamented with Dutch windmills, were passed by little Lottie Belle Hester and Allan Campbell, who were dressed in picturesque Dutch costumes.

Tables were found by means of hand-painted markers matching the score cards.

A novel idea was carried out in the old-fashioned games such as flinch, authors, etc., which caused much merriment.

At the conclusion of the games, delicious refreshments were served in two courses to about thirty-five guests and club members.—X

Pains Very Severe

"I suffered from womanly troubles which grew worse and worse as the months went by," says Mrs. L. H. Cantrell, of R. F. D. 9, Gainesville, Georgia.
"I frequently had very severe pains. These were so bad that I was forced to go to bed and stay there. It seemed to me my back would come in two."

CARDUI

For Female Troubles

"I taught school for a while, but my health was so bad I would have to stay out sometimes. This went on till I got so bad I didn't know what to do."

"One day I read about the merits of Cardui, and as I had some friends who had been helped by it, I thought I would try it. I began to get better after I had taken half a bottle. I decided to keep on and give it a thorough trial and I did. I took in all about 12 bottles and now I am perfectly well. I do not suffer any pain and can do all my housework."

At All Druggists'

TO THE AMERICAN HOME

By W. W. Bennett
Supt. Center Schools.

To me there is no greater pleasure than to say a word for the American Home. Home and Mother are the sublimest words in our language.

The first paramount duty of any people is to preserve the sanctity and purity of the home.

Whenever an assault is made upon this, the most sacred of all institutions, every red blooded American is ready to defend it and repel the aggression. The stability of this republic rests upon the home. The first government of man was the parental government to which filial obedience is rendered, and without the home no government is secure, or can exist. The kingdom of the home is the oldest and most important of all governments. The better and purer the home, the better our citizenship. (Those people who are indifferent to the home, who are careless about the home and treat it lightly are shiftless, lawless people.) Who are the violators of our law? Who are they that despoil our virtue? Who are the people that are menace to the good order and well being of society? Destroy the sanctity of the home and human government will perish.

Frugality of citizenship is reverence for the home. It is the one place that is likened unto heaven. And yet, who can define it? To me, it does mean a particular location, a house with its appointments, a family with all the tender family associations; a holy and sacred asylum, where the heart can find enjoyment and rest, where companionship holds its close councils, safe from all intrusions; the real indoors of this world; the nest of childhood where it feels safe and is happy; where the springs, the rocks and the big hills are abiding friends; where young life first bloomed into reality. The one place to which we recur wherever we may be or go. It is really the one remembered place; the one bright picture that hangs in memory's hall. Each day of toil to make it, each effort to save and beautify still seems to stay there. It is the blessed shrine of previous memories. It rings with laughter and echoes with song and breathes the name of mother. To the weary it is the open door of paradise; to the disconsolate the vestibule of heaven. When clouds of trouble hover over us, and we are tired of the struggles of the day, when temptations meet us, and beset

us, how sweet to rest in the quiet councils of home at evening tide, where love is monarch and contentment is queen. Though having been tossed from place to place upon the uncertain sea of life, there is peace on the galilee of every troubled heart in the bosom of home. Therefore it behooves us as individuals to maintain and preserve it. What grander task could occupy humanity? "Home, Sweet Home" contains a sentiment that appeals to men regardless of position.

It leads them to forget the barriers of tradition, race and birth, and with this song upon their lips, all men are brothers in the universal fraternity of God. It is our battle-hymn and will be the permanent pass word when earth's children shall have become a common brotherhood. "When the Rockies shall lift no more their craggy unconquered to the storm, when the Alps shall break their silence and the Andes dissolve in melody when the universe shall resound with the notes that trumpet earth to judgment," this song, fraternity's truest expression, heaven's most beautiful illustration will burst from the translated living and the awakened dead as the most fitting tribute of man to God.

NOTICE TO FEDERAL INCOME TAXPAYERS

For the convenience of those who are liable to file Federal Income Tax Returns, a Deputy Collector of Internal Revenue will be at Saylor Hotel, Goldthwaite, Texas, on March 10, 1926, to assist taxpayers in preparing their returns. No charge will be made for this service. The matter of filing your Income Tax Return should be given immediate attention, in order to avoid penalty and interest.

Form to Be Used.
Form 1040A should be used if the income is derived chiefly from salaries and wages and does not exceed \$5,000.

Form 1040 should be used if the income is more than \$5,000, or is derived from a trade or business, including farming.

Penalty.
A penalty of not more than \$10,000 or imprisonment for not more than one year, or both, and in addition, 25 per cent of the amount of the tax, is imposed by the statute for willful failure to make a return on time.

Editor Eagle:

We have a very interesting Bible Class which meets every Sunday at 10 a. m. Everybody is invited. Let us study and rightly divide the word in order that we may win the crown that is promised us.

A number from this community went to the party at Mrs. N. A. Kelly's Saturday night. All report a good time.

Mr. and Mrs. Leonard Warren spent Friday night in the home of Jennie McMurray.

Marion Hughes and family and Mrs. Lizzie Hunt spent Sunday with Mr. and Mrs. Culberson Sunday.

One of the noted events of last week was the wedding in which Mr. Leonard Warren and Miss Bethel Hoard were united in the holy bonds of matrimony. The bride wore a beautiful peacock blue crepe dress with contrasting corsage, and other accessories predominating, while the groom wore a rich-color blue serge suit. Mrs. Warren is the oldest daughter of Mr. and Mrs. C. F. Howard, having been reared in and near this community. She has proven to be a very beautiful and accomplished young lady. Mr. Warren is the son of Mr. and Mrs. Warren and is known to be a very prosperous young farmer, in which business he will be engaged in the future.

J. G. McMurray and family and Mr. and Mrs. Marvin Collier and family took dinner with Mr. and Mrs. Hubert Ervin and family Sunday, the dinner being so delicious and well prepared they may expect another visit soon.

Mr. and Mrs. Johnnie McMurray spent Sunday with Mr. and Mrs. A. H. Hunt.

Mr. J. D. Hodges spent Saturday night with Mr. Ray McMurray.

Miss Irene McMurray spent a few hours with Mrs. Ola Ervin Friday night, and had a few jokes while there.

Mr. Roy McMahan returned home a few days ago from Coleman and reported a good time while there. Learned lots more about barbering and got him some real barber tools, so come down and let him give you a good hair cut.

Mr. and Mrs. C. D. Ervin, their two little daughters and Mr. Homer Ervin spent Sunday afternoon in the home of Mr. and Mrs. Ned Duncan.

Miss Cynthia, who has been real sick with pneumonia is better at present and is able to sit up a little.

Some of the boys of this community reported a good time at the party in the city of Moline at Mr. Jim Murphy's.

Miss Delma Poe from Moline spent Monday night with Mr. and Mrs. Red Arrowwood.

Miss Opal Taylor spent Sunday

afternoon with Miss Laveren Tumison.

Editor Eagle:

Last Saturday a week ago Mrs. Willie Lippe was buried here. There was a large crowd out. Mrs. Lippe left nine children and her husband to mourn her loss. She died with blood poison and the baby was two weeks old when she died. She was 36 years old. All are feeling sorry for the little children.

A large crowd celebrated Mr. Henry Sieder's birthday Feb. 22, and all had a big time.

Mrs. Schumann entertained the young folks with a party Saturday night.

Mr. Willie Schumann and family and Mr. Charlie Meyer and wife are here on a visit from the west.

Miss Emma Grelle and several more girls from Gustine were here at Priddy on a visit.

A large crowd listened to the sermon which Rev. Mansure preached Sunday night at the St. John's Lutheran Church.

Mr. Albert Schumann and wife spent Sunday with Mr. Otto Schumann and family.

Many people here from Priddy community were fishing Saturday and Sunday.

A speaking was held at the Priddy school house Saturday, where a crowd was there and listened.

All the pupils of Priddy school are intending to get up a school fair for the first of April and all are working hard on the things they intend to make.

We are all wishing for another rain.—X.

Are You Rheumatic?

Many Pains That Pass for Rheumatism Are Really Due to Weak Kidneys.

Do you suffer the agonizing pangs of rheumatism? Are you tortured with rheumatic joints and stabbing twinges? Then you should know that many so-called whole system is upset by these excess of uric acid and must be treated through the kidneys. When the kidneys weaken, the rheumatic troubles are due to an excess of uric acid and must be treated through the kidneys. When the kidneys weaken, the whole system is upset by these body poisons. Help your kidneys with a stimulant diuretic. Use Doan's Pills, the remedy your neighbors recommend! Here is a Goldthwaite man's case:
D. Y. Fox says: "My kidneys bothered me and caused me to suffer with my back. I had rheumatic pains in my limbs and arms."

My kidneys acted irregularly. Doan's Pills from Clements' Drug Store relieved me."

OVER FOUR YEARS LATER, Mr. Fox added: "When I feel a little languid, I always use Doan's with fine results."

Signs You Can Believe In

If your breath is bad and you have spells of swimming in the head, poor appetite, constipation and a general no-account feeling, it is a sign your liver is torpid. The one really dependable remedy for all disorders in the liver, stomach and bowels is Herbine. It acts powerfully on the liver, strengthens digestion, purifies the bowels and restores a fine feeling of energy, vim and cheerfulness. Price 60c. Sold by HUDSON BROS., Druggists

Piles Can Be Cured

(Itching, Blind, Bleeding or Protruding)

Many sufferers have been made very happy over the results obtained from the use of PAZO OINTMENT—60c at any Drug Store.

To The Wool Growers of Mills Co.

I will be glad to have you store your Wool with me until it can be accumulated in car lots, as I think we can find a buyer for wool in car lots better than in small parcels; and having storage, I will be glad to take care of it for the growers on this plan: I will take the Wool and store it, pay the insurance, mark and weigh it, then use the best efforts I can to find a buyer for it, or will deliver it to the owners any time they call for it. My charges will be 1/2 cent per pound for the first month and 10c per 100 pounds for each succeeding month, charges to be paid when wool is taken out of storage.

I have partial arrangements made where money can be borrowed on the pendency I will give the owner on the Wool left with me, pending the sale of same, and should you need temporary funds until it is sold I can get the money for you.

CARD OF THANKS.

Through this paper we wish to take this method of thanking our many friends and all who assisted in any way in the sad hour of the death of our darling baby boy, nephew and grandson. When this sad hour comes to you, we pray the same kindness may be shown to one and all, and God's richest blessings will rest on you. Do we especially thank you for the beautiful and many floral offerings.—Mr. and Mrs. Neal Chesser, Brownwood, Texas; Mr. and Mrs. John S. Chesser, Goldthwaite; Mrs. Charlie Sellman and Children, Rochelle, Texas.

Only a few Blue Wagon Cotton. Better phone in your order now.—Ross & Edwards.

Opal Chesser was able to return to school Thursday, after two weeks' absence while the flu visited her.

SUNRISE BREAKFAST

Last Saturday morning at 6:30 o'clock the 1-A section of the seventh grade of Goldthwaite went on a sunrise breakfast at the Fair Park.

We had a real nice time playing games of all kinds, and had a real nice breakfast just at sunrise. Miss Addie Jane Hancock being the chaperone, we enjoyed ourselves until nine o'clock, when we all came home ready to go on another one.—X.
