

OUR FIRST FAIR

The date for the First Mills County Fair is Wednesday, Thursday and Friday, July 20, 21, and 22, 1926. Eight Community Fairs have already been organized, and more are expected to bring displays to the County Fair, besides the large number of individual exhibits of livestock.

ADVERTISE MILLS COUNTY

When you have finished with this issue, send it to some relative or friend out of the county, requesting him to read "Farm Facts and Fancies," written by our County Agent. These are not daily paper "booster" articles they so often see, but facts about Mills County.

VOLUME THIRTY-TWO.

GOLDTHWAITE, MILLS COUNTY, TEXAS, FRIDAY, JUNE 11, 1926.

No. FORTY-ONE

METHODIST REVIVAL CLOSED TUESDAY

With the Tuesday evening service the Methodist revival meeting here was closed, after running for ten days. Interest steadily increased during the ten days of the meeting at last Sunday evening it was estimated that between 1,500 and two thousand heard Rev. Neal deliver his sermons.

Several conversions, several reclamations and several joiners by letter resulted from the meeting. Rev. Neal will leave Monday for Kerrville, where he will spend a couple of weeks taking instruction in Wesley Worker and Sunday school work.

DEMOCRATIC CALL

The Mills County Democratic executive committee will meet at the Court House in Goldthwaite, Texas on June 21st 1926 at 2 P.M. for the purpose of determining order of candidate's names on primary ballot, estimating cost of primary elections, assessing candidates according to the emoluments of the offices they are seeking, appointing a sub-committee of five (to prepare primary ballot) and to attend to all other business that may properly come before the committee for consideration. According to my files the following gentlemen are chairmen of their respective precincts:

- No. 1. G. H. Frizzell, Goldthwaite.
- No. 2. James W. Burdett, Nabors Creek.
- No. 3. Frank R. Hines, Antelope Gap.
- No. 4. Vacant, Center City.
- No. 5. Paul Horton, Payne Gap.
- No. 6. J. H. Goodnight, Star.
- No. 7. R. W. Geeslin, Caradan.
- No. 8. J. R. Clark, Mullin.
- No. 9. W. Martin Smith, Fisher.
- No. 10. T. R. Priddy, Priddy.
- No. 11. D. Hartman, Big Valley.
- No. 12. Vacant, Rock Springs.
- No. 13. W. B. Wilcox, Jones Valley.
- No. 14. Wilbur H. Wood, Hanna Valley.
- No. 15. John W. Tippen, Buffalo.
- No. 16. Vacant, Ridge.
- No. 17. T. J. Hufstetler, Rye Valley.
- No. 18. J. M. Poer, Mt. Olive.
- No. 19. George W. Jackson, Goldthwaite.

If anyone finds an error in this list will appreciate having it called to my attention and will be glad to make the necessary corrections. It will be my duty to appoint chairmen in the precincts that show vacancies and I will appreciate suggestions from the voters of such precincts.

All precinct chairmen are urged to be present at the time and place mentioned above.

JNO. W. ROBERT,
Chairman Mills Co. Dem. Ex. Com.

"TRAFFIC COP" AT DIXIE

That stalwart and beloved American institution, the traffic cop, comes gloriously into his own in "The Traffic Cop," which brings Maurice Flynn to us again in a Gerald Beaumont story that rings with laughter and glows with human warmth.

It is the second Beaumont tale in which the erstwhile star of the college gridiron has appeared on the screen in months. The first was "High and Handsome," in which Flynn appeared as a prize-fighter policeman who fought for the honor of the force.

A bright note of romance lightens the more melodramatic phases of this delightful narrative, with pretty Kathleen Myers as the girl of the policeman's heart. Among the many thrilling episodes is a runaway bus filled with school children heading for a precipitous cliff. With an amazing twist of the story Flynn comes riding into the scene and prevents disaster. To be shown at the Dixie Theatre Thursday and Friday, June 10 and 11.

OIL WELL STEADILY PLUGGING FOR PAY

During the last week to Weston No. 4 well being drilled on the Bayou about 8 miles west of Goldthwaite, has steadily sunk toward the flowing gold—if there is any flowing gold there. The hole is now between 1400 and 1500 feet and the 1800 foot level should be reached soon if no trouble develops.

Just as in every other town or small city, many a man in Goldthwaite gets the idea he must go elsewhere to make a fortune or to become successful in any degree. Distant fields always look richer, deceivingly so, even to the man who has but to dig beneath his feet to unearth untold treasures.

Of the thousands who rush off to every new gold or oil discovery or real estate boom, nine-tenths are doomed to disappointment. The best advice that can be given to the average American is to cut out the wanderlust and apply himself at home. Most of us have oil wells in our back yards, figuratively speaking, and it takes but a little energy and perseverance to locate them.

If Goldthwaite readers are fishing for opportunities, and no doubt most of them are, they might find a suggestion in our cartoon and begin right where they are.

T. L. BLANTON THROUGH WORK FOR THE SUMMER

Editor Eagle,
My dear Editor:

The House of Representatives is hoping to get through with its work by next Saturday, and when ever it does finish I shall leave immediately for Texas. As long as it has work for me to do I must remain here.

But as we are almost through, please after Thursday, mail my copy of your paper to me at Abilene, Texas, where I will office for the summer.

I will open up my official office at Abilene just as soon as I reach Texas, and will transact all official business from there, hence if you will kindly make mention of that fact, my constituents who have business will write me at Abilene, and not at Washington.

Sincerely your friend,
THOS. L. BLANTON.

DISTANCE LENDS CHARM

EAGLE GETS LETTER FROM GERMAN CITIZEN

This week the Eagle received a letter from Charles Naumann of Hessen, Germany. Mr. Naumann is a brother of Rev. Naumann, deceased, who for many years was the Lutheran pastor at Priddy. He often visited with his brother at Priddy. The letter follows:

Heppenheim, A. of B., Germany
5, 23, '26.

Dear Sirs:
Twenty-five years ago I often visited your town with my brother who was a German preacher in the Priddy settlement, Mills County, Texas.

In 1907 a great number of Germans lived there, and we often came together in the saloon of Mr. Frank (Blanton). Today, after 25 years I remember this and you could do me a great favor if you would be so kind as to tell me how my dear old Priddy settlement is getting along. My brother died a long time ago. Is Mr. Grelle, a good old German, living yet?

In about 5 years I hope to come back to your town, therefore, if your newspaper, called "The Goldthwaite Eagle", exists yet, I beg of you to send me a copy every week.

If you see Mr. Grelle (now deceased) a good friend of mine, please give him my best regards.

I hope to hear some good news from you in a short time.

With best regards,
Yours truly,
CHARLES NAUMANN.

Mr. and Mrs. Herman Broek of Groveton, visited a few days with Mr. and Mrs. A. T. Pribble this week. They were enroute to Colorado and California to spend the summer. Mrs. Broek was formerly Miss Mary Lee Ferris of Corrigan, Texas.

Friends of Mildred D. Kennedy have received announcement of her graduation at Port Arthur high school which she has attended for the past three years.

Misses Fay and Joyce Cockrum left Sunday night for Denton, to attend the summer session of C. I. A.

Sidney Pass spent last Sunday with Carl Priddy over at Indian Gap.

Mr. and Mrs. D. Albert Trent came in this week for a visit with homefolks.

PLANS MATURING FOR BIG THREE DAY FAIR

The finer details are rapidly being worked out for Goldthwaite's big three-days Fair, July 20, 21 and 22. Several business meetings of the Mills County Fair Association have been held recently and committees have been appointed to look after the different departments. Copy for the Fair catalogue will appear within the next few days.

The old Confederate Veterans have recently completed a 60x60 foot tabernacle—Confederate memorial tabernacle—and a fine place for public speaking results. Several committees over the county have promised County Agent W. P. Weaver community exhibits and a great many individual exhibits are expected.

The horse racing is to be exceptionally good this year—something like 75 horses are expected to participate. Ball games will be arranged for every day and efforts are being made to secure a carnival for the three days.

CHURCH OF THE NAZARENE

Regular preaching services Sunday at 11 A. M. and 8 P. M.

The revival spirit is on and God is still blessing as the result of the Revival just closed a few days ago. This was indeed a good meeting, one of the best if not the best in the history of our church in Goldthwaite. Brother Jones' preaching is of the type that is characteristic of the Church of the Nazarene.

As a church we were born in the midst of shouts and praises unto God, we are thankful for this good meeting with twenty souls praying through at the altar in the old time way, and a nice class of seven came in to the Nazarene church.

We are looking forward to better days in our work here, and have the promise of Brother Jones and Prof. Messer will be with us next year in the month of June for a two weeks meeting.

Let everyone be present at our regular services and do what our hands find to do for the glory of God. Come to our prayer meetings Wednesday evenings. We had thirty-eight present and the church folks were on fire for God and at the close of the service three seekers came to the altar for prayers and two were saved.

We have some folks here that know how to pray and to stand by a pastor and hold his hands while he tries to hold up Jesus. We appreciate all kindness shown us from our friends during our meeting and again we invite you to our regular services. Sunday school every Sunday at 9:45. Mr. Tom Keese is Superintendent and he will be glad to see you on time with a studied lesson.

The N. Y. P. S. was organized last Sunday. Shorty Brown was elected president. This society meets at 7:15 Sunday evening. Come. W. M. S. meets at the church Monday at 1:30 P. M.

A hearty welcome awaits you—come and worship with us.—G. R. DOSIER, Pastor.

A. F. & A. M. NOTICE

Thursday night June 17, will be regular meeting of Goldthwaite Lodge, No. 694 A. F. & A. M. Election of officers. A full attendance is desired.
F. P. Bowman, W. M. Lewis Hudson, Secretary.

Clyde Bailey has returned from College Station where he took his degree in Electrical Engineering and has signed up with a Power and Light Company of Dallas.

Mrs. O. T. Wilson, who underwent an operation at Temple, was doing nicely at last report. Mr. and Mrs. A. D. Smith of Mission, Texas came in last week for a visit with relatives and friends.

CENTS AND SENSE

It requires ten cents to make a dime,
Common sense will make the dollars.

The man with "INITIATIVE" does not need to be told what to do—he says, "I CAN," and does it—knows the value of time—believes in preparedness—does not get into a rut—keeps his goal in view—is determined to win—tries and tries again—can't be kept down.

He always has a bank account. Are you in this class?
If you are, and you deposit your money with this bank, your success is almost sure.

by Purification**

Any physician will tell you that
"Perfect Purification of the System
is Nature's Foundation of Perfect
Health." Why not rid yourself of
chronic ailments that are undermin-
ing your vitality? Purify your en-
tire system by taking a thorough
course of Calotabs,—once or twice
a week for several weeks—and see how
Nature rewards you with health.
Calotabs are the greatest of all
system purifiers. Get a family pack-
age, containing full directions. Only
\$5 cts. At any drug store. (Adv.)

**AGRICULTURAL CONDI-
TIONS IN SANTA FE
STATES—JUNE 1, 1926**

This statement is prepared from
wire reports received May 27
from the several states served by
the Santa Fe System Lines. It is
issued to give those who make in-
quiry about the crop situation in
Santa Fe territory information as
dependable as it is possible to
make it.

Wheat in the Southwest is hold-
ing its own as harvest approaches,
although rains is needed in Kan-
sas and Oklahoma. High wind
and heat the last week in May
caused damage in Western Kan-
sas counties, particularly in the
northwestern counties. However,
there will be a fair crop in this
state, and in the Southwest as a
whole, even without more mois-
ture, as there is enough sap in the
straw in most sections to fill the
heads. Generally speaking, the
condition of wheat from the Great
Lakes to California and from Neb-
raska to Texas is reported to be
from fair to excellent, with a few
exceptions. Late sown wheat was
winter killed, or badly damaged.
In the more northern states but
the early sown wheat will make
satisfactory yields.

Kansas is scheduled to main-
tain its strong wheat production
lead with 125,000,000 bushels as
the most conservative estimate,
while one hears from reliable
sources, guesses as high as 160,
000,000 bushels. The government
report for Kansas immediately
preceding the hot spell was 142,
000,000 bushels. A good rain over
the state would make possibilities
for an unusually heavy yield.
Lack of rain would keep the yield
well within the conservative esti-
mates. The next few days will
tell the story. There is not much
insect damage to date.

Oklahoma's wheat situation has
improved steadily for a month, es-
timates having ranged from 50,
000,000 to 70,000,000 bushels.
This is counted Oklahoma's best
wheat year.

Texas has a small wheat area,
but one that occupies a position
well to the fore in production and
quality. The northwestern coun-
ties of the state stand to produce
a crop of 22,000,000 bushels; the
entire state, about 26,000,000
bushels.

Illinois, Iowa and Missouri will
have less than normal wheat yield
due to heavy abandoned acreages
of winterkill. Most of the wheat
that survived the winter is
early sown, and that is doing fair-
ly well.

Nebraska probably will have a-
round 40,000,000 bushels of wheat.
The government estimate is 39,
000,000 bushels or better. The 10-
year average is 50,000,000 bushels.

California and Colorado will
have wheat yields better than the
five-year average, and New Mexi-
co and Arizona, which raise wheat
only in a few counties, are expect-
ing good crops.

The railroad sidings in the
wheat belts are filled with box
cars, ready to take care of the
rush of new wheat when it comes.

A backward spring in Illinois,
Iowa and northern Missouri made
much replanting of corn neces-
sary. The stand now is fair, and,
with reasonable weather, there
should be an average crop, as the
acreage is normal. Much abandon-
ed, wheat acreage in the states
named has been planted to oats,
which crop promises good returns.
Tame hay is coming along satis-
factorily. Potatoes in northern
Missouri have made a good stand;
acreage slightly decreased.

West of the Missouri and to the
country's southern border farm
conditions generally are better
than normal. Corn is growing
rapidly in the southern sections,
while planting is about finished
in the northern districts. South-
east Texas and Southwest Louisi-
ana were forced to replant row
crops on account of an extended
wet spell in the early spring.
These sections now are making
up for lost time, having been late-
ly favored with growing weather.

Indications that the cotton ac-
reage in Texas and New Mexico
this year will be greater than that
of last year and in Oklahoma and
Louisiana, Arizona and California
about the same as that of last
year. There will be a slightly re-
duced acreage in South and East
Texas, but the decrease will be over-
come in West Texas where
many ranches are being cut up in
small farms, and where cotton
does well. While it is too early
to guess on the cotton crop, it
can be said that there are no un-
favorable signs at this time.

Fruit, melon and vegetable pro-
duction will be about normal this
year, according to reports from
California, Arizona, New Mexico,
Colorado and Texas.

In California delicious tree
fruit of early variety is moving.
Production of apricots and prunes
will be less than last year, but
other tree fruit will be normal, or
better. Vineyards appear to be
in excellent condition, ab-
solutely free from frost having helped ma-
terially. Almond production will
be increased over that of 1925.
Prospects for walnuts are not so
promising. Citrus fruits show
good setting of buds. Vegetable
production ranges from fair to
good.

The mountain states of Califor-
nia, Arizona, Colorado and New
Mexico which depend largely up-
on irrigation for their farming op-

erations apparently have enough
water in sight to take care of their
needs. The fertile valleys of those
states, where intensive farming is
carried on, have never appeared
to better advantage, and every-
where the feeling of producers is
optimistic. Stock ranges are in
good condition.

On the high lands of Colorado
and New Mexico, where so-called
"dry farming" is practiced, there
was a better than normal spring
supply of moisture. Grain and
vegetables were growing rapidly
at the end of May with bright
prospects for an abundant har-
vest.

In most states of the Southwest
the livestock industry continues
to improve. Poultry is under-
going something of a boom. Thou-
sands of individual farmers, who
never before raised poultry, have
provided themselves with flocks
and generally they are making
money. Many farmers derive a
larger income from their poultry
than from any single crop.

Grain sorghums will occupy an
increased average in the middle
west this year, due to the improve-
ment in the livestock industry.

Alfalfa is making a fine growth
in Kansas, Oklahoma and the
mountain states. The alfalfa ac-
reage slumped for several years
but now shows signs of coming
back.

There will be a big crop of oats.
The acreage in most states has
been increased.

The broom corn supply of the
United States is raised in South-
western Kansas, Northwestern
Oklahoma and Southeastern Colo-
rado. The acreage this year is
slightly increased.

The sugar beet average in Califor-
nia and Colorado is about nor-
mal, and in Kansas there is an in-
crease due to development in the
Arkansas Valley.

The Kaw Valley, Kansas, po-
tato crop will be about normal.

A SPLENDID FEELING

That tired, half-sick discom-
forted feeling caused by a torpid liv-
er and constipated bowels can be
gotten rid of with surprising
promptness by using Heabine.
You feel its beneficial effect with
the first dose as its purifying and
regulating effect is thorough and
complete. It not only drives out
bile and impurities but it imparts
a splendid feeling of exhilaration,
strength, vim, and buoyancy of
spirits. Price 60c. Sold by

garter runs. Visit J. H. Randolph and
Co.'s Rollins Hosiery Department and
let us show you these nationally adver-
tised hose.

J. H. RANDOLPH & COMPANY

MORE PUSH

I see in the last week's Eagle that my good friend, A. J. Harrison has jumped into some deep water seeking to harmonize the origin of man and what some call modern science. I am not a deep water fish but not wanting him to get splashed up alone I am easing into those courseless waves out of which has never come any thing permanent or for certain.

I would say as a first thing that religious denominations as I know them, encourage scientific investigation. Scholars in the leading churches of the world are not exactly agreed as to the origin of man but few of them comparatively who do not take the Genesis account at face value. Neither are evolutionists agreed. Evolution has a broad scope of meaning but I confine the term in this article to man's origin. It is said that in England a few decades ago when a scientific wave swept over that country the geologist took his hammer and started to the rock quarry and the astronomer began to sweep the heavens with his telescope the church turned to those in authority saying, "Stop those men, stop them. I am afraid they might find something that would shake our faith. I am afraid they will find something that will hurt the church." Such fear as that has gone once for all. Everywhere the church is saying to the scientist, go on my friend, go right on, the more truth you find the better for all of us, as ever truth is more or less related to every other truth but as you go don't shout back to us about your "reasonable conclusions" and conjectures" and your "hypotheses." I say so myself. In a world so real and a life so responsible as ours who is willing to form convictions on mere hypothesis? We have scientists who are not evolutionists and a large number of evolutionists who are not scientists. Were they sincere scientists it would probably relieve them of some surplice conjecture.

Why not accept the Genesis statement of man's creation literally just as it is stated? No proof to the contrary has ever been produced. Evolutionists fail to explain why lemur or primates of primitive life refuse to function after the evolving the first man. Wonder why those early laws of generation broke down and quit business after evolving one fine pair? No natural law has been revised since the crack of first dawn.

I am impressed by the recent comment of Dr. J. I. Gates of San Antonio on the first man's intelligence which declared Adam to be more intelligent than man since his day as was evidenced when all the created animals filed before him and he was able to give each one name from the least to the greatest and the other fact he was fond of his wife. One can well afford to accept the doctrine that God made man complete by direct act out of dirt or dust, and it is safe to say that all the dirt isn't out of us yet. Accept it by faith as we do so many other miracles of the Bible. No one concerned need ever be the least uneasy that any proven theory or fact will turn up contradicting a literal idea of the Bible account.

Many more modern evolutionists seem fond of referring to Prof. Huxley as a champion of the doctrine yet he accepted it as a matter of his faith, saying "belief in the scientific sense of the world is a serious matter. I have no right to call my opinion any thing but an act of philosophical faith." I refer to his kind of faith in order to contrast it with a reliable faith as used by the Apostle Paul. He spake broadly including the universe and said he understood the creation: "Thru faith we understand that the worlds were framed by the word of God. So that things which are seen were not made of things which do appear." Now that is better than tinkering with such terms as "embriotic" and "anthropoid."

It is no argument at any time about what God could have done. He could have completed the whole universe in thirty minutes had he preferred to have done so. The question is what did he do and how much of it can be understood?—SAM SAY.

AN EXHILARATING EFFECT

A bottle of Herbene on the shelf at home is like having a doctor in the house all the time. It gives instant relief when the digestion gets out of order or the bowels fail to act. One or two doses is all that is necessary to start things moving and restore that fine feeling of exhilaration and buoyancy of spirits which belongs only to perfect health. Price 60c. Sold by

SICKLY, PEEVISH CHILDREN

Children suffering from intestinal worms are cross, restless and unhealthy. There are other symptoms, however. If the child is pale, has dark rings under the eyes, bad breath and takes no interest in play, it is almost a certainty that worms are eating away its vitality. The surest remedy for worms is White's Cream Vermifuge. It is positive destruction to the worms but harmless to the child. Price 35c. Sold by Hudson, Bros., Druggists.

If you want good flour you want Primrose. It is the best.—LONG AND BERRY.

LUNCHEON HONORS

MRS. M. Y. STOKES, JR.
To honor Mrs. M. Y. Stokes, Jr., who will soon leave for Austin, Texas, where she will join Mr. Stokes and make her home, a group of friends gathered at Dornick Hills Country Club Friday and enjoyed a lovely 1 o'clock luncheon. The long table at which the guests were seated was centered with a large bouquet of sweet peas and honeysuckle while pink tapers in crystal holders added a lovely touch of color. At the conclusion of the luncheon each guest gave an expression for the honoree and her mother, Mrs. R. M. Thompson. Mrs. N. C. Wood expressed appreciation of her work with the Methodist choir and gave

a fitting tribute from the members. Mrs. Robert Gardenshire paid tribute to her splendid work in the Philharmonic club and thanked her in behalf of the club for her interest and cooperation in this work. During her brief stay here, Mrs. Stokes and her family have made a wide circle of friends who regret their departure. A vocal duet by Mesdames N. C. Wood and Robert Gardenshire was a delightful feature of the entertainment. Seated with the honoree and her mother were Mesdames Recc Evans, E. F. Graham, J. T. McClure, Albert Riesen, Marvin Bell, J. J. Godbey, N. C. Wood, Robert Gardenshire, W. T. Lampe, W. H. Trotter, John Carlock, J. A. Bass and Ran webb.—The Daily Ardmoreite.

PREVENTS INFECTION

The greatest discovery in flesh healing is the marvelous Borozone a preparation that comes in liquid and powder form. It is a combination treatment that not only purifies the wound of germs that cause infection but it heals the flesh with extraordinary speed. Bad wounds or cuts which take weeks to heal with the ordinary liniments mend quickly under the powerful influence of this wonderful remedy. Price (Liquid) 30c, 60c and \$1.20. Powder 30c and 60c. Sold by Hudson Bros., Druggists.

NO-NOX

MOTOR FUEL

STOPS KNOCKS

Turns Mountains into Mole hills

FOR many years mechanical engineers struggled to build automobile engines of higher compression. As compression is increased the power line goes up and the fuel consumption line goes down—ordinary gasolines would not withstand this higher compression without knocks, clicks, or detonations—accumulated carbon deposits increased this compression by decreasing the size of the combustion chamber—and the audible sounds of the engine distress grew louder.

It has been our good fortune to produce a gasoline that positively eliminates clicks, pings, and knocks.

Gulf No-Nox and Carbon are Power Twins

GULF No-Nox Motor Fuel withstands compression to a high degree; carbon, increasing the compression of the engine, ceases to be a nightmare as long as it does not interfere with valve action. In other words, it puts carbon to work. More power and greater efficiency is thereby accomplished, resulting in greater mileage.

With GULF No-Nox Motor Fuel in your tank—step on it—you will get the story better than we can tell it.

This Guarantee goes with it

GULF No-Nox Motor Fuel is Non-Noxious, Non-Poisonous and no more harmful to man or motor than ordinary gasoline—that it contains no dope of any kind—that the color is for identification only—that it positively will not heat the motor summer or winter.

GULF No-Nox Motor Fuel is priced three cents per gallon higher than ordinary gasoline—and is worth it.

The farmers are wanting rain. We hope it will rain in time to the crops.

Mrs. Wilcox and two sons of Colorado City and Mrs. Conner of Coke County have been visiting their mother and sister, Mrs. Alldredge this week.

Mr. and Mrs. Roberts and family attended church at Ridge Sunday.

Benton Alldredge spent part of Saturday night with Joe O'Dell.

Mr. and Mrs. Wilcox and daughter spent Sunday with relatives at Center City.

Misses Bill and Mattie Casbeer spent Saturday night with their sister, Mrs. Dollie Langford.

Miss Celia Wilcox spent part of Saturday night with Miss Laura Morris.

Mr. and Mrs. Roberts took their daughter Eska Belle, to the doctor Tuesday evening for examination. We hope she will soon be all right.

Clarence Langford and family spent Sunday with Joe Lane and family.

Mrs. Olen Curtis and Mrs. Conner spent Monday evening with Mrs. Wilcox.

Eural Letbetter and Joe O'Dell spent Sunday with Benton Alldredge.

Arthur Wilcox was in Goldthwaite on business Saturday.

Arden Bell and family are visiting Mr. Bell's brother, Oma Bell.

Jim Rouse of Richland Springs took dinner with his sister, Mrs. Alldredge Tuesday.

George Jones and sister, Oleta of San Angelo, spent Tuesday night in the Roberts home.

Mr. Carson who has been visiting his daughter in California is back with his son Orville now.

R. D. and Virgil Scrivner of Goldthwaite are visiting their uncle, W. B. Wilcox and helping him shoe oats.

Benton and Ray Alldredge spent Friday night with friends on the river.

Mrs. Arthur Wilcox and little son spent Saturday with Mrs. John Smith.

The old people as well as the young enjoyed a cream supper at the Alldredge home Saturday night.

Oma Bell and Olen Curtis have been having their sheep sheared this week.

Mrs. Wilcox and Celia spent Tuesday with Mrs. Bel.

Joe Moris and family attended the party at the Alldredge home Saturday night.

Mr. and Mrs. Charley Griffith visited his mother at Dublin Saturday night and Sunday.

Miss Magie Porter spent Saturday night with Miss Eska Belle Roberts.

A few of the people of our community enjoyed a singing at the Roberts home Sunday night.

Mrs. Orville Carson has been on the sick list this week but is able to be up now.—Twilight Dreams.

CARD OF THANKS

We take this method in thanking our friends and neighbors in Goldthwaite and San Antonio for their words of comfort and consolation. Also for the many acts of kindness to us during the sickness and after the death of our father and grandfather. We also express our gladness and appreciation of the beautiful floral offerings.

May God's richest blessings be on each of you.

H. C. Carothers, W. H. Carothers, I. M. Carothers, H. J. Carothers, O. A. Carothers and families.

HANCOCK-LANE
(Mulin Entreprise)

Miss Lorena Lane and Mr. O. L. Raymond Hancock were married at Glen Rose last Sunday afternoon at five o'clock. The bride is a recent graduate of the Glen Rose High school and the groom needs no introduction to our readers of the Enterprise. He is a Christian young man of sterling qualities, was reared here and is now engaged in the banking business at Glen Rose.

BAND

Boys who are interested in Band work, see me in my studio in Morgan Building, south side of square.

Henry Cryer

BIG VALLEY

Although berry picking, oat cutting, and cotton chopping are in full progress, Big Valley has found time for a good deal of recreation this week, probably because of the several home comers and visitors.

Wednesday afternoon Griff McConnell returned from Thorpe Springs Christian College where he has been attending school the past session.

Thursday afternoon Mabel Goode and Mary Cockrell came home from Baylor College at Belton after completing a pleasant and profitable year in college. In fact, all of our college students bring home good reports of their school work.

In spite of busy days, some of our friends have found time for a few visits this week. Willie B. Isobell, whose home is in Sherman and who has been attending Baylor College the past two years, came over Friday afternoon to spend a few days with Mary Cockrell and Mable Goode, on her way home.

Jack Dennard and wife of Oklahoma are visiting relatives in the Valley.

Mr. and Mrs. Earl Buchanan of Coleman and Mr. and Mrs. Noble Buchanan of Lubbock, are also visiting relatives here.

Mrs. T. P. Reed and son, Clell, were called to Breckenridge last Friday on account of the death of Mrs. Reed's grandchild.

Zay Long returned from Temple Friday where her mother is in the sanitarium for treatment. We are all hoping for Mrs. Long a very speedy recovery.

Mr. and Mrs. Bill Scott, Mr. and Mrs. Allen Ross, Mr. and Mrs. Carl Bledsoe, Mrs. Fay Reed, Bill Forehand, Mr. and Mrs. Nathan Goode and family took dinner on the river Tuesday night.

The young people of the Valley enjoyed a B. Y. P. U. social at the H. A. Sykes home Friday night. Some of them also attended the party given by Mrs. Eula Nickols of Rock Springs Saturday night and that given at the home of John Parker Tuesday night of this week. They all report a splendid evening at each occasion.—Girlie.

NORTH BENNETT

Everybody is rejoicing over the fine rain we had last week.

Misses Una and Aud Harris are reported to be on the sick list.

There was Sunday school Sunday. Not very many there.

Jess and Miss Laura Petsick and Miss Elna Wright attended church at Trigger Mountain Sunday morning.

W. M. Wright and family spent Sunday in the H. C. Miles home.

Rev. C. H. Miles took dinner with H. C. Miles Sunday.

Mr. Fickle and family visited Tom Head and family Sunday afternoon.

C. M. Head and family visited their daughter, Mrs. Mason of Vista, Sunday.

Bill Kempin and family, and D. Greathouse visited in the J. M. Harris home Sunday afternoon.

Mrs. Batchelor and Lula Batchelor spent Sunday in the J. M. Harris home.

A number of the young folks attended the singing at Long C. v. Sunday.

The singing at the J. M. Petsick home Sunday night was enjoyed by a large crowd.

There was a large crowd at the party at Lloyd Reynold's Friday night and all report a good time.

Miss Anna Cline left Sunday morning for San Marcos to attend the Summer Normal.

Rev. C. H. Miles left Monday night for Weimar. He had been called to the bedside of his brother who was very low.

L. C. Sparkman and family spent Sunday with his sister, Mrs. John Grayson.

Mrs. Batchelor visited Mrs. C. M. Head Monday afternoon.

Mrs. J. E. Jones, Miss Mollie and Mr. Jim Jones spent Sunday with Mr. and Mrs. Jackson.

F. M. Anderson came home Saturday from Hamilton where he has been taking treatment from the Doctors there. He is not reported any better.

Next Saturday and Sunday are our regular preaching days. Everybody come.

We are glad to say that Mr. Biddle is working our road at last.—Violet.

Miss Callie Ross who has been attending college at Stephenville has returned for the summer vacation.

Mr. and Mrs. R. M. Burgess made a trip to Brownwood last Tuesday.

Mrs. Don York left Wednesday morning for Ft. Worth where she will join Mr. York.

ROCK SPRINGS

We had a real good crowd out to Sunday school Sunday morning. A good singing at the J. T. Robertson home Sunday afternoon and a nice crowd at B. Y. P. U. Sunday night.

Those who visited in the J. T. Robertson home Sunday were Charley Robertson and family, Douglas Robertson and family of Lake Merrit, Woodie Traylor and family and Marion Robertson and family.

Mrs. Lula Gatlin and Miss Love spent Friday afternoon on the farm.

Mrs. Orby Woodie and daughters, Miss Love Gatlin visited in the Almos McGowan home one afternoon last week.

Arthur Smith and wife of Mission, Texas, have been visiting J. C. Stark and family. Miss Alice Stark stayed with Mr. and Mrs. Smith since Christmas and attended school. We are real glad to have Alice back with us again.

Mrs. Emma Whitt of Cherokee, Texas, is visiting her daughter, Mrs. Abijah Stark.

Mesdames Roberts and Circle attended the meeting at Goldthwaite several times.

Almos McGowan and wife and grandson, Haskell Gatlin, visited in the Ben Davis home in Coleman Saturday and Sunday.

Master Edgar Jr. McNutt happened to an accident one afternoon last week. He cut his hand real bad. They took him to the doctor to stop the bleeding.

Ed Morris' sister and mother visited him last week. Their home is in Stephenville.

Dewey Bohanon has been real sick. He is better at this writing.

Fred Davee and family of Breckenridge were in our midst Sunday afternoon.

The men worked Dewey Bobannon's crop Wednesday.

Mrs. Irene Gatlin and daughter spent Sunday with Mrs. Eula Nickols.

Mrs. Abijah Stark's uncle E. V. Gorden and family of Ok'ahoma visited her this week.

Arthur Smith and wife purchased a swell car last week in Goldthwaite. They will leave soon to go to a summer school some place.

Jack Dennard and wife of Oklahoma visited his sister, Mrs. W. A. Daniels, Saturday.

Marion and Jack Robertson cut oats for Mrs. Eula Nickols last week.

Earl Hale and Miss Viola Stark visited Miss Oleta Daniel Sunday evening.

Those who dined with J. C. Stark and family Sunday were: Elizabeth Nickols, Oleta Daniel, Joe Davis and Jack Robertson.

James Nickols spent Sunday with Rudolph Cooke.

Will Guynes and wife took Robert Webb and wife to Temple last week. Mr. Webb went for treatment.

Ocie McGowan and wife visited their daughter, Mrs. Carl Sexton, Sunday.

Mrs. Eula Nickols and Elizabeth called on Mrs. Lula Gatlin and Miss Love in Goldthwaite Saturday afternoon.

Busy Bee had a long letter from Mrs. J. D. Brown of Fort Worth. We are so glad to know all of you are well, and that Mr. John got over his operation all right. We hope to see them before the year is gone.

Frank Davis and family and Arlie Davis and wife and Jack Robertson attended church in the city Sunday night.

J. T. Robertson and wife and their daughter, Mrs. Harvey Dunkle, spent Monday at Walter Robertson's at Trigger Mountain.

Those who visited in the Edgar McNutt home Sunday were Harman Western and family, Audy Western and family of Mullin, Dan Westerman and wife of Goldthwaite, and Mrs. McNutt's mother from Llano and her aunts, Mrs. Brown and Mrs. Flowers of San Antonio.

James Watson Roberts spent Thursday night with his grandma Nickols.

George Holland spent a few days with Walton Daniels.

Earl Tullos was in our midst Saturday night.

J. T. Stark and Miss Florence went to a party at Ratler last Saturday night.

Edgar and Roy McNutt are up at Trigger Mountain this week cutting their oats.

We are still expecting a good rain.—Busy Bee.

FOUND—Saturday May 29th, a package containing paper and envelopes was left in my car. Owner can have same by paying for this ad. Call at Eagle office.

Little Lorene Graham left last Monday for Caps after spending two weeks with her grandpa, Mr. and Mrs. E. L. Pass.

MIDWAY

The abundance of rain we are getting keeps our farmers very busy.

Miss Lena Gray of Oklahoma is visiting G. F. M. Anderson and other relatives in this community.

Mrs. James Blackburn of Hamilton is visiting her mother, Mrs. M. T. Clive.

The fifth Sunday services at Bethel were enjoyed by a large crowd.

The young people enjoyed a social Friday night at the home of Mr. and Mrs. Lloyd Reynolds, given in honor of Miss Arna Clive who left Sunday to attend school at San Marcos. Many games were played and enjoyed. A delicious ice-tea and cake course was served to a very large crowd.

William Payne Leverett spent last week with his grandmother of this community. It is said he makes a dandy hoe hand.—Dumb Dora.

Friends of Dow Hudson are urging him to take a vacation trip to Babyhead Mountains, Blanco county.

Raymond Little is here spending his vacation with his mother after attending A. & M. College.

Mrs. W. B. Potter is spending a few days with relatives in Brownwood.

Howell and Beulah Cobb have returned to the University of Texas after a few days visit with their parents, Mr. and Mrs. Hez Cobb.

Misses Clara Karnes and Ladusca Laceywell are visiting in Coleman.

Federal Commissioner

Rear Admiral H. O. Stickney, retired, who has been appointed by Secretaries Hoover and Kellogg as Federal Commissioner to the Sesqui-Centennial International Exposition commemorating the 150th anniversary of American Independence and which will be held in Philadelphia from June 1 to December 1. Admiral Stickney will be in full charge of the United States Government exhibit, which will be the largest of its type ever made.

"DAN KLANSMAN BY NIGHT, ANTI IN DAY," SAYS FERGUSON

Beaumont, June 3.—James E. Ferguson, in an address here Wednesday night, again sought to connect Dan Moody, candidate for the Democratic nomination for governor, with the Ku Klux Klan. Ferguson spoke in Weiss Park to 3,000 in behalf of his wife's campaign for renomination.

Ferguson did not mention Lynch Davidson.

Moody's war record was again attacked and the former Governor again read a communication from the Adjutant General in Washington giving Moody's record.

"Moody's support comes from the new thought monkey Baptists and from the Ku Klux Klan," the former Governor charged. "He and his crowd have forsaken the old-time religion. They think we all come from the tadpoles and

apes.

Klansman by Night
"Dan is a Klansman by night and an anti by day. I do not say he has ever been a member of the klan, but I say he is courting the support of those who voted for Felix D. Robertson and Butte two years ago. It is true he convicted the klan in Williamson County, but because a district attorney simply did his duty is no reason why he should be Governor."

Ferguson charged that Moody's campaign is being financed by oil interests and that these interests are providing funds for the "extensive offices in Dallas, Ft Worth and Houston." He based his conclusion on what he said was Moody's opposition to Mrs. Ferguson's proposed tax on gasoline.

Ferguson again charged that Moody had made low grades, while a student in the University of Texas, with the exception of gymnasium work, which required

"only a strong back and a weak mind."

Explains Highway Affairs
The former Governor's explanation of the highway controversy was substantially as he had made heretofore. "Why should we fear an investigation?" he asked. "The thing has been under investigation for six months in Travis County and nothing has come of it."

He vigorously defended his wife's pardon record. He admitted that some mistakes may have been made, though he declared he doubted it. He cited as a pardoning example the case of an old woman who was given a penal term for making home brew.

W. D. Gordon, Beaumont attorney, introduced the former Governor.—Star-Telegram.

What the World Is Doing

As Seen by Popular Mechanics Magazine

Dummy of Baseball Catcher Aids Indoor Practice

With the aid of a small indoor cage, containing a target placed back of lines to represent the home plate and the batter's position, baseball pitching practice may be obtained regardless of the weather.

The target is made of heavy canvas and is attached by metal eyelets to a portable frame, six feet high and four feet wide. The life-size figure of a catcher is painted on the canvas and a scoring chart below gives rating for balls and strikes in training. The "strike area" is plainly indicated on the figure of the catcher in heavy red lines. As the ball hits the canvas it rebounds and on a smooth surface will roll back to the pitcher for another delivery. The target is also an aid in batting practice and for coaching individual pitchers or squads. It is made in two sizes, one for girls or boys in elementary schools and the other for students in colleges.

"Trick" Furniture Saves Rent and Space in Apartments

With the constantly increasing demand for economy of space because of the high rentals demanded for city apartments, the building of what is known as "trick" furniture has developed into an industry. Its design has challenged the ingenuity of inventors in all parts of the country. Beds that fit in doors, kitchenettes hidden in tables, ironers folded out of sight in attractive cabinets, radio outfits concealed in tea wagons, and many

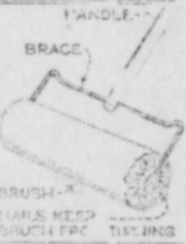

other useful devices have been constructed to save space with a consequent lowering of rents. Furnaces that are decorative in appearance as a phonograph, and electric stoves that automatically shut off the current when the food is done, help to lighten the burdens of the modern housekeeper. As a result, three rooms may be made to meet the requirements which previously needed six.

New York Plans Great Broadcasting Station

Fifty thousand dollars have been appropriated for the erection of a great municipal broadcasting station in New York, and soon people all over the country will be able to hear the music the metropolis enjoys, and to listen to the great speakers and artists that visit the country's largest city. According to Commissioner Whalen, this means that at least 300,000 persons in the city can enjoy the band concerts in the park this summer, instead of only a few thousands around the bandstands, and that a million radio fans throughout the country can hear the famous bands and artists that delight New Yorkers.

Good Use for Old Carpet Sweeper

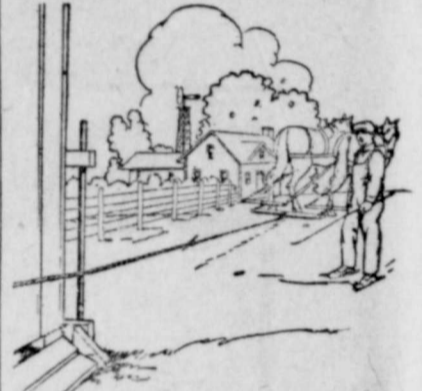

When a carpet sweeper no longer sweeps it is usually thrown away. Upon examination, it will be found, however, that quite some article is still left on the roller, which may be used a few more years as a push brush of the kind shown in the drawing. The brush and the wooden handle are removed from the sweeper box and the metal brace that holds the handle, the shaft of the brush, has a bearing hole at each end which usually fits the two pivots on the brace. It may be necessary to bend the brace together a little in order to hold the brush securely. At the ends of

the brace are two small holes that were previously used to hold spring wires. Small wire nails are driven through these holes into the wooden part of the brush so that it cannot turn when in use. After one side of the brush has been worn down, the nails are simply removed, the brush turned around and again fastened as before.

Roller Protects Barn Corner

Farm buildings sometimes are so arranged that when hay is hoisted into the barn the team must be driven around a corner of one building in order to avoid another. This causes the rope to rub hard

against the corner, not only wearing it out quickly but also bruising the corner.

In one case injury to both corner and rope was prevented by arranging a steel roller vertically along the edge of the building as shown. The roller consisted of a 4-ft. length of 2-in. iron pipe, turning on bolts fitted into the walls. The bolts were in turn held by short pieces of 2 by 4-in. wood, nailed securely to the wall. The roller has been in use for two or three years and has never failed in its purpose.

Putty for Floor Cracks

Cracks in a floor that is stained and varnished may be filled with a putty consisting of 2 parts of zinc, 14 parts of water, 4 parts of plaster of paris, and 2 parts of litharge. This putty will take the stain and varnish well.

What the World Is Doing

As Seen by Popular Mechanics Magazine

Count Ten and Then Pull String in Leap from Plane

Two thousand feet in the air, a man in a heavy canvas flying suit crawls from the cockpit and edges his way along the wing of an airplane. Harassed to his chest and back are two bulky packs. He nears the end of the wing, steadies himself a moment as he rises upright, waves one hand at the pilot, then calmly steps backward into space. As the body plunges downward his lips move rapidly, framing the words: One, two, three, four, five, six, seven, eight, nine, ten! At ten he jerks a cord at his shoulder and out of the packs billows a great silk parachute. As it fills with air, the speed of the falling man slackens, until finally he is drifting downward for a safe landing. To the beginner, the task of counting to ten while hurtling through space is the most difficult part of parachute jumping—and yet one of the most important. The interval is designed to make sure that the jumper is safely clear of the entangling wires of the airplane before he releases his parachute. The lower picture shows a pilot whose life was saved at

Hats Trimmed with Horses' Tails Latest Parisian Fashion

Trimmed with the tails of horses, women's hats were introduced recently as the latest creation of a famous French designer. The hairs at one end were wound tightly together into a cone shape and attached to one side of the hat, while the other end hung down in front over the shoulder. Dyed in various colors, the odd ornaments were displayed by models during a fashion review.

Preventing Sticky Counters

Under certain atmospheric conditions the glass or marble slabs on counters in banks and offices become moist and sticky to such an extent that customers have considerable difficulty in picking up checks, bills and other papers. One bank eliminated this trouble by keeping a can of cheap talcum powder at hand for just such conditions, and a little of it was sprinkled on the counter as the occasion arose. Thus papers and bills slid easily on the surface and could be picked up without difficulty.

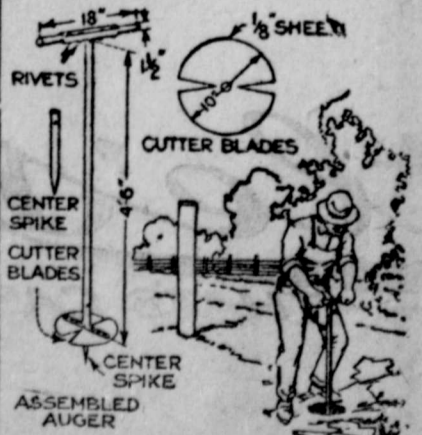

Flowers can be preserved in all their beauty by placing them in a bottle of glycerine. The bottle is made air-tight by applying sealing wax over the stopper. Flowers kept in this way have retained their original shape and color for more than two years.

Cleaning Steel of Burnt Oil

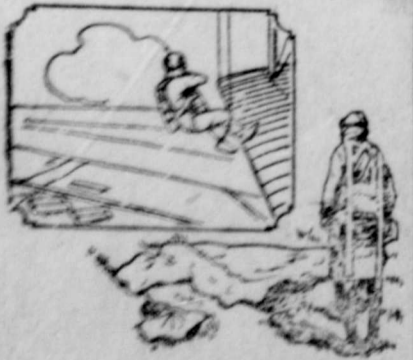

The oil, coming in contact with steel in hardening, will burn in places, and is hard to remove. The cleaning can be accomplished by immersing the hardened steel in gasoline, and, when exposed to the air, it will dry immediately. This will leave parts to be polished without the marks of burnt oil.

A Serviceable Post-Hole Auger

A serviceable post-hole auger can readily be made by anyone. It consists of a 4½-ft. length of 1½-in. pipe. Both ends are slotted with a hacksaw for about 6 in. and bent over and flattened, as shown, so that a handle and a blade can be attached. The handle is made of an 18-in. length of hardwood, about 1½ in. thick, and is securely riveted to the bent ends of the pipe. A 10-in. steel disk, about ½ in. thick, is riveted to the other end, as shown. The blade is cut radially and the edges thus formed are bent to "bite" the soil. A spike, sharpened to a point, is driven into the lower end under the blade and is held in this position by means of a rivet. An auger of this kind has been

giving satisfactory service for almost two years and the initial cost of the material was only 5 cents, as most of it was found about the work-shop.

through Field, Dayton, when an old 25-year-old plane which he was piloting broke up high in the air. The pilot leaped out of the wreckage and landed safely. He was taken just after he reached ground, in the lower left-hand corner. The tiny pilot parachute which is shown first to pull its big brother out of the packs.

Quality Features

- 3-speed transmission—disc-clutch.
- Powerful Valve-in-head motor.
- Combined pump and splash oiling.
- Positive cooling in all weather by a water pump and extra-large Harrison radiator.
- Positive, reliable, semi-reversible steering control.
- Extra-large, equalized brakes.
- Big, over-size rear axle with spiral cut, bevel gears.
- Chrome vanadium steel springs.
- Full-length deep channel steel frame, rigidly braced.
- Alcanta lubrication.

These Quality Features found only in Chevrolet for \$550 f.o.b. Plant Mich.

With its special truck-type construction—with numerous quality features, found only on higher priced trucks of equally modern design, this Chevrolet chassis gives definite assurance of dependable delivery plus the vital advantages of low upkeep and slow depreciation.

GUM-DIPPING
the Extra Process for Extra Miles!
Breaks all Tire Records

The 500 Mile Speed Classic at Indianapolis has always been a Battle of Tires. In 1911, Firestone won with fabric tires at 74.59 miles per hour. In 1920, Firestone won with cord tires at 88.55 miles per hour. In 1925, Firestone won with Full-Size Gum-Dipped Balloons at the record breaking average speed of 101.13 miles per hour.

In 1926, Firestone again won with Full-Size Gum-Dipped Balloons. The ten cars to finish "in the money" were all Firestone-equipped. They went the distance without a single blowout and with but two tire failures—one due to a puncture and the other to a leaky valve.

This performance is even more remarkable when you consider the terrific speeds at which the cars traveled over this fifteen-year-old, rough brick track.

Experienced race drivers will not risk their lives or chances of victory on any other tires. And in the commercial field, large truck, motorbus and taxicab fleet operators, who keep careful cost records are among the big users of Firestone Gum-Dipped Tires.

The City Transportation Co., of Tacoma, Wash., writes: "One of our 12 buses on Firestone Gum-Dipped Tires has gone over 40,600 miles and still looks good for many miles of extra service. For all around tire safety and mileage, Firestone cannot be beat."

From Calumet Motor Coach Co., Hammond, Ind., the following: "We operate 40 buses all equipped with Gum-Dipped Tires. The very low cost per mile on which these tires operate is considerably less than that of any other make." Hayes Bus Lines, Columbia, S. C., says: "We operate 19 buses equipped with Firestone Gum-Dipped Tires. A number of these tires have run over 45,000 miles without ever having been removed from the rim."

The largest taxicab companies in the world standardize on Firestone Gum-Dipped Tires. W. R. Rothwell, taxicab operator, Detroit, Mich., writes: "Two of my Firestone Gum-Dipped Tires have run 76,000 miles."

Hundreds of thousands of car owners voluntarily testify to the safety, comfort and economy of Full-Size Gum-Dipped Balloons. W. H. Peacock, Birmingham, Ala., testifies: "I have had Firestone Balloons for thirteen months and they have delivered in that time 24,469 miles." H. C. Staehle, Minneapolis, Minn., says: "My Firestone Balloons have gone 49,900 miles and are still in good condition."

These records of endurance, speed, safety and mileage could only have been made because of Firestone development of the Gum-Dipping process which insulates and saturates every fiber of every cord with rubber, reducing friction and heat and building greater strength and endurance in the cords—ensuring you at all times—

CHAPTER
AN ORDINANCE TO BE A PART OF THE CODE OF ORDINANCES OF THE CITY OF GOLDTHWAITE, TEXAS, LEVYING TAXES FOR THE SAID CITY OF GOLDTHWAITE, TEXAS, UPON ALL REAL AND PERSONAL PROPERTY, AND UPON CERTAIN OCCUPATIONS FOR THE YEAR 1926, AND PROVIDING FOR THE COLLECTION OF THE SAME.

Be It Ordained By The City Council of the City of Goldthwaite, Texas:-

That there shall be and there is hereby levied a city tax for the year 1926, on all real estate situated lying and being in the said City of Goldthwaite, Texas and on all personal property that was in said City of Goldthwaite, Texas on the first day of January, A. D. 1926, not exempt from taxation by the laws and constitution of the State of Texas, for the purpose hereinafter provided, on the One Hundred Dollars assessed valuation of all property as follows:-

1st. For general Revenue Purposes, to be known as the General Fund Forty cents on the One Hundred Dollars valuation which is hereby set aside for general current expenses.

2nd. To provide interest and for creating a sinking fund for outstanding Water Works Bonds, twenty-five cents on the One Hundred Dollars valuation.

3rd. For a road, street and bridge fund, to be known as the Street fund Twenty-five cents on the One Hundred Dollars valuation.

4th. For the purpose of taking up Time Warrants issued by the City for permanent improvements forty-five cents on the One Hundred Dollars valuation. This item being a re-assessment of tax levied by the City Council on February 8th, 1926, for purpose of publication.

5th. It is further ordained and ordered that the City Council levy an occupation tax, and the same is hereby levied, equal to one half the occupation tax now levied by the State of Texas, on the respective occupations now taxed by the said State of Texas, as shown and set out in the revised statutes of the State of Texas, the same to be collected for general revenue purposes.

6th. All such taxes so levied, except the occupation tax shall be due and payable on the first day of October A. D. 1926, and on and after said date, the City Tax Assessor and Collector of Taxes is hereby authorized to collect and receipt for the same, before and until the first day of February A. D. 1927, and if said taxes are not paid by such time, there shall be taxed against the owners of said real and personal property and against said property, ten per cent additional on the amount then due as penalty, as the same is provided for and authorized by the laws of the State of Texas and the said City Assessor and Collector of Taxes is hereby authorized and empowered to enforce the payment of said taxes according to the laws of the State of Texas and ordinances of the City of Goldthwaite, and all taxes not paid on or before the 31st day of January A. D. 1927, shall be deemed delinquent and the same together with the above penalty of ten per cent shall be apportioned among the several different funds, and the City Tax Assessor and Collector shall by virtue of his office levy upon, seize and sell said property real and personal for payment of taxes thereon according to law.

It is further ordained and provided that taxes levied hereby if not paid on or before the 31st day of January A. D. 1927, shall bear interest at the rate of six per cent per annum from said first day of February A. D. 1927, until paid.

An imperative public necessity exists that the rule requiring ordinances to be read at three several meetings be suspended, and the same is hereby suspended, and this ordinance is passed to its third and last reading and passed by vote of the Council on this the 7th day of May A. D. 1926.

Approved this 8th day of June A. D. 1926.

(seal) H. G. Bodkin, Mayor of the City of Goldthwaite, Texas.
Attest: M. Bowman, Secretary.

**FOREST NETHERTON
KILLED BY LIGHTNING**
(Mulin Entreprise)

J. S. Johnson received a message that his son-in-law, Forest Netherton, of Phoenix, Arizona, was killed by lightning on June 4th.

Young At 60, Or Old At 40? Diet Decides

Women are as old or as young as their state of health. A woman may be young at sixty years or old at forty. It all depends on her physical well-being.

Youth and beauty have a foundation in sound health. And food is easily the most important item in health. In giving consideration to the subjects of diet and beauty, women should not forget the food essentials that make for the preservation of teeth, hair, figure and complexion.

Blame for round shoulders, flat chest and poor teeth among women is due in large measure to faulty diet, or, specifically, to a lack of lime and phosphorus. Milk, or evaporated milk, which is simply cow's milk with 60 per cent of the water taken away, is especially rich in lime.

Because of the concentration of evaporated milk, which is regulated by government standards, it is of

double the richness of ordinary market milk, as is shown in the following table:

Ordinary Milk.	
Fat	3.5 to 4 per cent
Sugar (lactose)	4.5 to 4.75 per cent
Proteins	3.5 to 4 per cent
Minerals	.4 to .75 per cent
Evaporated Milk.	
Fat	7.5 to 8.2 per cent
Sugar (lactose)	9.5 to 10 per cent
Proteins	7.5 to 8.2 per cent
Minerals	1.4 to 1.6 per cent

A quart of milk a day for adults is recommended by doctors not only because of its high mineral content, but for the reasons that it helps keep the digestive tract in proper condition, strengthens the body to resist disease, and gives proper balance to the diet.

Salads also play an important part in the dietary. Some sort of a salad, lettuce, tomato, fresh fruit, cabbage or vegetable, should be eaten at least once a day. Neither is the daily menu complete without a generous quantity of coarse, leafy vegetables, valuable for their high vitamin content. Fruit juices also have very beneficial properties.

If a woman follows out the rules of diet, birthdays to her will be nothing more than an excuse for a celebration.

Purity of Milk Protected Now By Scientists

By KATHRYN ST. JOHN

Careful housewives constantly make it a point to ascertain the quality of each item that goes on their tables. Preparing food for the family is an extremely important job, for the proper selection and preparation of foods make in a large measure for the health and happiness of the family.

Milk is the most nearly perfect food, but it is a very delicate one as well. The keeping qualities of milk are slight. Danger from contamination is ever present. Evaporated milk, which is double rich because of the removal of 60 per cent of the water, is science's solution to these conditions.

Safeguarding evaporated milk is worked out as perfectly as man's ingenuity has been able to make the process. From cow to can, the milk which goes into the evaporated product is watched every step of the way.

Cows of the dairy herds are guarded with constant care and are subjected to regular inspections by veterinary surgeons. Herds are carefully groomed, and their yards and barns are kept scrupulously clean, as are all utensils. Milk condenseries are located in the heart of the big dairy regions to facilitate speedy handling, for this is essential if the milk is to be canned at "its moment of maturity." Canvas-covered trucks haul the milk to market, thus protecting the product from contamination on the way. Arriving at the condensery, the milk goes through tests for acidity, sediment, flavor and butterfat content before it is accepted.

Experts watch the progress of the milk through every step of its way. It goes into the evaporating machine; to the homogenizer, which breaks up the fat globules so that the milk may be easily digested by the consumer; by way of the almost human filling machine into sterilized cans; then into the sterilizer, where the cans are surrounded by steam and boiling water, destroying any possible bacteria. Inspectors handle the product as the last step to see that the canning job has been perfectly done. Labeling and packing follow. The housewife obtains the milk as fresh and sweet as when it came from the cow.

ANNOUNCEMENT

Subject to the Action of the Democratic Primary, July 24, 1926.

For State Senator, 25th Senatorial District:
WALTER C. WOODWARD
(Re-election)

For Representative 104th District
THOMAS J. RENFRO
(re-election second term)

A SPLENDID FEELING
That tired, half-sick, discouraged feeling caused by a torpid liver and constipated bowels can be gotten rid of with surprising promptness by using Herbine.

You feel its beneficial effect with the first dose as its purifying and regulating effect is thorough and complete. It not only drives out bile and impurities but it imparts a splendid feeling of exhilaration, strength, vim, and buoyancy of spirits. Price 60c. Sold by

STAR PARASITE REMOVER
A GREAT POULTRY REMEDY
Green formula in drinking water or mixed in feed thoroughly rids them of all blood-sucking lice, all mites, fleas and blue bugs, destroys in them all intestinal worms and parasites. Its formula is unique and other ingredients known remedies for improving the appetite, purifying the blood, toning the system and preventing disease. Better prevent than try to cure. Contains no alcohol or poisons. Can be given to all ages of chicks, old fowls and turkeys, any kind of weather with good results. Its cost is very small—a one dollar bottle will last 100 fowls more than 120 days. The manufacturers are anxious for all poultry raisers to try it 60 days at their risk on the following conditions: After using 60 days if your flock has not improved in health, produced more eggs—eggs that hatch stronger and thrifter young chicks—come back to your dealer—he is authorized to refund your money.

GRASSHOPPERS

Local infestation of grasshoppers are being reported in the north and west portions of the state, and damage may be severe in regions that did not experience heavy rainfall during the past winter and spring.

Farmers are urged to fight these insects early, if they threaten to migrate from pasture lands or fence rows into the cultivated crops, by the use of poison bran mash. This is made up of the following ingredients:

- Coarse wheat bran.....25 lb
 - Paris green or white arsenic.....1 lb
 - 6 lemons or sweet anise.....1 oz.
 - Cane or sorghum molasses (avoid corn syrup).....2qts.
- Water sufficient to make a moist mash as explained below:

Mix the bran and poison together thoroughly. Dilute the sweet anise or 6 lemons and molasses in about two gallons of water. Pour this liquid over the mixture of poison and bran until every particle is moist. Then make further additions of water and mix thoroughly until a mash is obtained that is quite moist, yet so it will fall apart after being tightly squeezed and so it may be readily sown broadcast.

This quantity of mash should be broadcast so as to cover about five acres. A good practice is to mix at night and sow early in the morning before nine o'clock since the hoppers do not actively feed until the dew dries up. If it is desired to kill hoppers in grass land sow over the entire acreage to be protected. Where they are

migrating from fence rows or pasture into cultivated crops sow the fence row or a fairly broad margin of the pasture, and also a broad margin of the cultivated crop with the mixture.

Amyl acetate is preferable in the formula but if it cannot be obtained, substitute six lemons for one ounce of the amyl acetate. This should be diluted with water as with the other substance, but one should use both juice and rinds, grinding the latter in a fine food chopper.

Do not place the mash in piles. Do not use lead arsenate—use Paris green or white arsenic.

Mrs. Chas. Budd went to Temple Sunday night where she underwent an operation. She is doing nicely and expects to be back home in a few days.

J. A. Hudson of Fayetteville, Ark., and Mrs. C. A. Hudson of Georgetown came in on the Tuesday evening's train for a visit with their son and brother, Lewis Hudson.

Mrs. A. F. Johnson whose condition was thought to be of a serious nature is slowly improving. Mrs. Johnson is of a very cheerful disposition and is holding up well considering her condition.

She expresses her appreciation in many sweet ways of those who came repeatedly to her sick room and prays such impressive prayers for her.

ETHYLENE Gas.—Budd and Johnson.

Mr. and Mrs. E. B. Anderson spent a part of this week in Austin.

Mr. and Mrs. Floyd Henderson and children are visiting in Snyder this week.

Mr. and Mrs. O. S. White and son of Ranger, are visiting her parents, Mr. and Mrs. J. L. Ervin.
