

OUR FIRST FAIR

The date for the First Mills County Fair is Wednesday, Thursday and Friday, July 20, 21, and 22, 1926. Eight Community Fairs have already been organized, and more are expected to bring displays to the County Fair, besides the large number of individual exhibits of livestock.

ADVERTISE MILLS COUNTY

When you have finished with this issue, send it to some relative or friend out of the county, requesting him to read "Farm Facts and Fancies," written by our County Agent. These are not daily paper "booster" articles they so often see, but facts about Mills County.

WESTON No. 4 WELL MAKES GAS AND OIL SHOWING AT 1770 FEET; SHOULD DEVELOP TO PRODUCER

**FINE INDICATIONS THAT THE OIL IS THERE
EXCITE OIL MEN WHO ARE WATCHING WELL.**

**Just Above the Black
Lime a Few Feet According to Old Log**

It looks now like Goldthwaite and Mills county is going to get her oil play which was so quickly blown up back in 1919, when the Weston No. 1 well was lost with considerable oil in the hole; for the finest possible indications of oil have been encountered this week by the crew drilling the Weston No. 4 hole, located 2225 feet almost due north-east of the No. 1 hole.

Monday of this week the first indications of any appreciable nature were struck when crude oil of about 60 per cent test, or refined almost as good as the present gasoline, began seeping into the hole. Several bailers full were drawn, thus firmly establishing the fact that an oil pool is near. In the estimation of experienced oil men, this semi-refined oil is working through the sand and water into the hole from a pool of crude. Whether or not the oil is coming straight up will be proven when a few more feet have been added to the depth of the well. It is barely possible that this oil is escaping through a crevice to the strata from a short distance away, but it cannot have traveled for any great distance, and if the pool is not struck in the present hole, a hole drilled near might hit the pool.

Shut down to Case Hole

Thursday morning work was stopped on the well on account of caving in the hole below the string of pipe. Parts were needed before more pipe could be run, so the drilling crew shut down and went to Brownwood Thursday after the necessary parts. Work of setting the casing down below the portion of soft earth which is stuffing off into the hole should begin this morning and be completed in a couple of days. Drilling will be resumed immediately.

Leases Changing Hands

There was considerable money spent Monday and some during the remainder of this week for leases and royalty. Most of the men holding leases or royalty are playing the game as safely as possible and unloading some of their holdings before it is definitely ascertained whether or not there is oil in producing quantities. However, the Eagle has been informed from a source which it believes is reliable that Mr. Gregory, the man who is drilling the well and the holder of the lease on about twelve thousand acres in the vicinity of the well is not offering any of his acreage for sale.

Five Drilling Contracts

Dr. J. M. Campbell, who holds considerable acreage near the well stated that there had been five drilling contracts let during the week. It is probable, however, that the operators who secured these drilling contracts will use their time limit of 90 days before beginning, to see what this well develops. Should this well make a producer, the other wells will be sunk as fast as possible.

Eagle Will Keep Subscribers Informed

It has always been the policy of the Eagle to spare no expense in getting important news to its subscribers as quickly as possible, and

BARNHILL-FAIET

Rev. D. H. Barnhill, principal of the Goldthwaite High Schools, and Miss Myrtle Faiet were united in marriage in San Antonio on June 9, Dr. I. E. Gates, pastor of the First Baptist Church of San Antonio, assisted by Rev. McVea, officiating.

Mrs. Barnhill is a beautiful and accomplished young lady. She is a graduate of Hardin College, Mexico, Mo., of the Baptist Theological Seminary of Louisville, Ky., has done three years missionary work in San Antonio, and has recently been teaching in the Baptist Theological Seminary at Fort Worth.

Mr. Barnhill needs no introduction to Mills county folks. He was principal of the Goldthwaite Public Schools for the term just closed and has been reelected to the same position for next term. His personality and character are such that he has made friends with almost everyone in the county and his proven teaching ability has won the respect of the patrons of this school. He is a graduate of the Mississippi State College and has had four years teaching experience.

After a short honeymoon, Mr. and Mrs. Barnhill are at home here, where Mr. Barnhill is teaching in the summer school.

Robert Burdett and James Aldredge returned from the Tech college of Lubbock, where James lettered in baseball. Congratulations to James!

Mrs. B. B. McBride and children of Wichita Falls are here visiting homefolks.

should the well come in a producer a special edition will be rushed to the readers of the paper furnishing as much authentic news as is possible to procure. If there are no delays Sunday or Monday should tell the tale and information will be furnished subscribers daily or twice daily should developments warrant it.

OVERLOOKING THE HORSE

TRIGGER MOUNTAIN

Editor Eagle:

A shower of rain fell here last Sunday evening, which greatly benefited gardens and crops. The ground was wet to a depth of 3 inches. We hope it was general over the county.

Mr. and Mrs. J. B. Lively spent Saturday night and Sunday at Lampasas visiting their children and shopping.

The younger set enjoyed a party Saturday night at the John Long home.

Mr. and Mrs. George Brown and son, Neal, of McCullough county visited Mrs. Brown's uncle, W. S. Cunningham Saturday and Sunday.

Byron Hays, who attended School at Brownwood was at home the week end. His father Rev. L. L. Hays is confined to his home most of the time.

THE FARMERS WIFE.

Richard Burgess left last Friday for Dallas where he will enter medical school.

Mrs. Guy Rudd and Mrs. Lulu Laceywell visited relatives and friends at Energy Sunday.

D. D. Kemper accompanied Lester Barrett to Temple last Sunday. Mr. Barrett went for a physical examination.

Mrs. J. K. Brim and little grand son came in Saturday morning from a visit in Arkansas.

Mr. and Mrs. Everett Faulkner motored to Rusk Friday for a week visit with Mrs. Faulkner's brother, Lee Ross, and other relatives.

Mrs. S. E. Hester of Brownwood is here visiting in the home of Mr. and Mrs. J. A. Hester.

Mrs. Dammon and Misses Pauline Agnew and Clara Cregar of Dallas spent the first of the week here in the home of Mr. and Mrs. E. E. Wilson.

**NICE SHOWERS BREAK
FIVE WEEK DRY SPELL**

Last Sunday night showers fell in almost every portion of the county, the first rain for about five weeks. At Goldthwaite a fraction over one inch was recorded in the government gauge at the Eagle office. While no accurate gauge could be gotten elsewhere, probably that much or more fell in other portions. One or two sections report no rain. The gardens and corn and cotton, as well as the grass, were greatly benefited.

**DEMOCRATIC COMMITTEE
ADOPTS RESOLUTIONS
ENDORSORING FERGUSON**

The administration of Miriam A. Ferguson as governor of Texas was given unqualified endorsement by the State Democratic Executive Committee, which met Monday, June 14, at Wichita Falls to announce the ticket of state candidates and to select a place for the meeting of the state convention September 7.

The resolutions adopted by the committee by a vote of 18 to 7, read as follows:

Resolved that we, the State Democratic Executive Committee, in regular session at this time, give our full and complete endorsement to the present State Democratic officers and commend their administration of the affairs of the State as being economical, faithful and efficient.

And we further go on record as favoring the time honored democratic precedent of a second term for all faithful, efficient servants.

That it is the sense of the State Democratic Executive Committee that those charged with the duty of providing for the holding of the Democratic Primary elections in Texas, should, as far as possible see that none but Democrats participate in such elections, and we now declare that the best test of a voter's Democracy is his support of the regular nominees of the party.

P. H. Clements and J. A. Hester attended the funeral of Uncle Bill Adams in Brownwood Wednesday.

**BAPTIST REVIVAL TO
BEGIN NEXT SUNDAY**

The annual protracted meeting of the Goldthwaite Baptist church is to begin next Sunday morning, June 20. There are many indications that point to a successful soul winning campaign. The church seems to be in a state of expectancy. The church has secured the services of Evangelist Singer E. J. Thomas. Brother Thomas is without doubt one of the very best singers in Texas. The pastor, Brother Dance, is to do the preaching.

Every person in reach of Goldthwaite is urged to attend the services. Every christian in Goldthwaite is going to attend and help. Come on to church. Let us lay ourselves out for use in His kingdom.

GULF NO-NOX MOTOR FUEL STOPS KNOCKS
Turns Mountains into Mole hills

FOR years the carbon knocks, clicks, pings or detonation in automobile engines have been a menace to motor efficiency and a sore spot to the motorist. GULF No-Nox Motor Fuel has turned the old time carbon bugaboo into an asset, in fact it has put carbon to work.

No-Nox and Carbon are Power Twins

Compression is power—Carbon adds compression—No-Nox withstands compression and the combination gives wonderful motor efficiency.

GULF No-Nox Motor Fuel not only withstands the high compression of the modern automobile engine—but also the added higher compression caused by carbon deposits on the walls and piston head which increases with the age of the car;—clicks and knocks are eliminated—greater efficiency is accomplished—followed by more power and greater mileage.

This Guarantee goes with it

GULF No-Nox Motor Fuel is Non-Noxious, Non-Poisonous and no more harmful to man or motor than ordinary gasoline—that it contains no dope of any kind—that the color is for identification only—and will not heat in summer driving.

GULF No-Nox Motor Fuel is priced three cents per gallon higher than ordinary gasoline—and is worth it.

The nice rain we had Sunday night was greatly enjoyed by all in this community.

As I have not seen any news from this neighborhood lately I will drop some of the freshest crumbs.

Mrs. Josia Barton and daughter who have been spending a few weeks with their relatives and friends returned to their home Monday morning in Colorado City. We all hope them good weather on their way and wish them back soon.

J. H. McMurray and son, Willie, and little daughter, Irene, attended church at Lometa at the Church of Christ Sunday. Also Mr. and Mrs. Jonnie McMurray.

Mrs. Conk Ervin spent one afternoon last week with Mrs. J. G. McMurray.

Mr. and Mrs. Arthur Hunt and family, Mrs. Josie Barton, and Mr. and Mrs. Fowler of Long Cove spent Saturday and Sunday on the river. The all report a fine time.

Mrs. J. G. McMurray and two little sons spent last Sunday with her daughter, Mrs. Marvin Collier.

Ell Duncan happened to the good accident of getting all his cotton chopped before the last rain.

There was no Sunday school last Sunday, as all went to Lometa. But we will try to meet on regular time, Sunday 10:00 a. m. Everybody come.

Will some one please send in the song: "Show Me the Way to Go Home"?

Mrs. Martha Wilkey was the happy mother to see her baby daughter, Mrs. Mary Dumas, who had been with her husband since last September. She came in Monday night to visit her home, where she had lived most of her life until she moved to New Mexico. We are all glad to see her back again and hope she will stay with us for a while. She is a real good hoe hand.—GRAPE JULIP.

CHAPPEL HILL

Editor Eagle:

RUPTURE

EXPERT HERE

F. B. Seeley, of Chicago and Philadelphia, the noted expert, will personally be at the Southern hotel, and will remain in Brownwood, Saturday and Sunday only, June 26 and 27. Mr. Seeley says:

"The Spermatic Shield will not only retain any case of rupture perfectly, but contracts the opening in ten days in the average case. Being a vast advancement over all former methods—exemplifying instantaneous effects immediately appreciable and withstanding any strain or position no matter the size or location. Large or difficult cases or incisional ruptures (following operations) especially solicited. This instrument received the only reward in England and in Spain, producing results without surgery, injections, medical treatments or prescriptions.

CAUTION—All cases should be cautioned against the use of any web truss with understraps, as same rest where the lump is and not where the opening is, producing complications necessitating surgical operations. Mr. Seeley has documents from the United States government, Washington, D. C. for inspection. He will be glad to demonstrate without charge or fit them if desired. Business demands prevent stopping at any other place in this section.

FOR THE VACATION WARDROBE

Wherever smart frocks are assembled this season one will see the cape model of plain material combined with plaid or figured silk. To the left is pictured a design that is easy to copy. One of its distinguishing features is the open neck with three collars. Another is the band stitched across the front to join skirt and long-waisted blouse. Medium size requires 3 3/4 yards 36-inch plain and 7/8 yard check material.

A black-and-white plaid is a very stunning thing to have, whether it be in French gingham or silk. The model to the right stunningly interprets a favorite Paris mode. The front is cut in a deep V, underfaced with plain material, and rolled to form revers. Circular sections are inserted at the sides of the skirt, and the lower part of the two-piece back is also circular. Medium size requires 3 3/4 yards 36-inch plaid and 3/4 yard plain material.

First Model: Pictorial Review Printed Pattern No. 3211. Sizes, 14 to 18 years and 34 to 38 inches bust. Price, 45 cents.
Second Model: Printed Pattern No. 3214. Sizes, 14 to 18 years and 34 to 44 inches bust. Price, 45 cents.

AMERICAN YOUTH

Elizabeth ("Betty") Clark, 13, of Cedars, Delaware, is one of that state's girl candidates for the American Youth Award, established by the directors of the Sesqui-Centennial International Exposition, to be held at Philadelphia from June 1 to December 1 in observance of 150 years of American Independence. If "Betty" is finally chosen to represent Delaware she will be given a week's trip to the Exposition and to Washington and the White House, where she will receive a medal from the hands of President Coolidge.

Bert Lytell and Justine Johnstone in "NEVER THE TWAIN SHALL MEET"

PETER KYNE STORY NOW IN FILM FORM

"Never the Twain Shall Meet" Promises Fine Picture Fare

"Never the Twain Shall Meet," Peter B. Kyne's enchanting story of the South Sea Islands, will be shown at the Dixie Theatre next Wednesday and Thursday, according to announcement of Mr. Buffington, manager.

This picture, a Cosmopolitan production, directed by the celebrated French director, Maurice Tourneur, was pictured in Tahiti and Moorea two of the famous islands of the south sea group. The cast includes such prominent players as Anita Stewart, Bert Lytell, Huntly Gordon, Justine Johnstone, George Seigmann, Lionel Belmore, William Norris, Emile Fitzroy, Princess Marie de Bourbon and Florence Turner.

Perhaps never in the history of the moving pictures has there been a story filmed against such gorgeously beautiful back grounds as

those which appear in "Never the Twain Shall Meet." Filled with all the magic and romance associated with life in the South Seas, this photoplay sounds an entirely new note in the literature and drama of motion pictures.

In the role of Tamen, the half-caste Island princess, Anita Stewart appears in a characterization thoroughly suited to her enchanting personality, a portrayal which calls for many phases of dramatic intensity, varied with comedy situations. Bert Lytell plays opposite Miss Stewart in the role of Dan Pritchard.

The production is lavish in the extreme and as the picture develops on the screen there is a breadth and freedom, a tropical magic and a pictorial panorama of loveliness never before visualized with a motion picture camera. In addition to a wealth of scenic beauty there is an equal beauty in the exotic interior setting, designed by the masterful hand of Joseph Urban.

SMART FROCKS OF SILK

The place of the silk frock in the mode is undisputed, for it is seen upon all occasions. To the left is a distinctive model of the straight-line type, the flounced skirt being of figured and the long-waisted blouse of plain silk. The lower edges of the blouse and the sleeves are trimmed with applique embroidery, but the collar corresponds with the skirt. Medium size requires 2 1/2 yards 36-inch figured and 1 3/4 yard plain silk.

Finely striped and plain crepe combine to make the second frock, the plain silk being used for the overdress. There are shirtings at the shoulders, and the neck is cut in a deep V in front. Sash, underslip, and straight cuffs are of the striped material. Medium size requires 3 3/4 yards 36-inch plain and 1 3/4 yard striped crepe.

First Model: Pictorial Review Printed Pattern No. 3181. Sizes, 34 to 48 inches bust. Price, 45 cents.
Second Model: Printed Pattern No. 3242. Sizes, 34 to 50 inches bust. Price, 45 cents.

FROCKS FOR A SUMMER'S DAY

The dainty figured Georgette pictured to the left is trimmed with plain chiffon. The deep V-shaped front has a vestee that is trimmed with buttons, and at the base of the vestee is a ribbon sash to correspond with the chiffon. The cape may be omitted if preferred. Medium size requires 4 yards 36-inch printed and 1 yard plain chiffon, with 2 yards ribbon for sash.

To the right is a model in soft white voile trimmed with ribbon and stitching. At the shoulders the fronts of the blouse are shirred, while the hem is hemstitched. The long raglan sleeves are gathered into narrow wristbands, and gathered panels arranged on the front of the dress give fullness to the hemline. Medium size requires 5 1/2 yards 36-inch material.

First Model: Pictorial Review Printed Pattern No. 3184. Sizes, 14 to 18 years and 34 to 44 inches bust. Price, 45 cents.
Second Model: Printed Pattern No. 3179. Sizes, 14 to 18 years and 34 to 42 inches bust. Price, 45 cents.

MOREHOUSE GIVES PLAN TO PROTECT PEOPLE FROM WILD-CAT PROMOTERS

American Bankers Association Official Who Has Exposed Fraudulent Schemes for Robbing Savers Draws Up Set of Rules to Foil Crooks.

By W. R. MOREHOUSE,
Public Relations Commission, American Bankers Association.

ARTICLE NO. IV

THE solution to the great problem of protecting savers from losing their money in fraudulent schemes is largely in the hands of our bankers. If they will co-operate with those who save they can make it hard for these plunderers to continue business. Hasten the day when our bankers without exception will gladly welcome interviews with depositors who contemplate making investments, will urge an investigation or recommend in the stead of little-known securities investments of unquestioned responsibility. In every case where customers call at the bank excited and nervous over some scheme where by investing a few hundred dollars they expect to make thousands any banker will at once sense the situation.

W. R. Morehouse

The banker knows that the depositor is being rushed off his feet, with "Hurry, hurry and get in on the big clean-up!" and it remains for the banker to caution the depositor against such tactics. In order to prevent this all that our bankers have to do is to suggest that their customers make it a rule always to bring high-pressure salesmen to the bank to be interrogated regarding their promotions. This will break up sales nine times out of ten, for high-pressure salesmen invariably avoid being questioned too closely by bankers who know investments.

Rules to Follow

Our bankers should urge this investment slogan: "Investigate before you invest. Consult your banker first," and so indelibly impress it on the minds of their depositors that they will always be guided by their banker's advice in making investments. Salient points which should be kept before the investing depositor are:

- (1) There are three cardinal points to all good investments, namely safety of principal, certainty of income and salability.
- (2) Safety of principal is more important than a high yield; the promise of big returns is usually a sign of a risky speculation.
- (3) It is like taking a leap in the dark to invest in promotions which are an unknown quantity and for this reason a thorough investigation should always be made.
- (4) It is morally wrong, if not criminally so, for any person to invest in any promotion he feels is a skin game, or which is tainted by trickery or fraud or opens the way for a favored few to "get in on the ground floor," clean up and get out from under before the scheme collapses. Usually the depositor finds he is not in on the ground floor, there is no chance for him to clean up before the scheme collapses and so he loses all that he has invested.
- (5) If a promotion is as good as claimed, it would not be necessary for high-pressure salesmen to resort to all sorts of questionable methods, it would not be necessary to rush a victim off his feet and sign him up before he could interview his banker, but he could be given time to consult others before investing.
- (6) The only reason high-pressure

pirates go to those who are inexperienced in finance for funds is because they can palm off on them so-called investments which in the eyes of men of experience are valueless.

(7) The glib-talking promoter is not a true friend of the savings depositor but is a wolf in sheep's clothing, he will resort to any kind of trickery to exchange a certificate of stock for the depositor's cash, his glittering promises are fictitious and he is planning how he can entrap his victims and relieve them of their savings and not how he can make good dividends for them.

(8) For every oil well that pays dividends there are many dry holes and abandoned drilling rigs, and for every profitable mine there are many abandoned shafts, and for every successful promotion there are a thousand failures, and because of these facts the savings depositor's chance of winning is too small to justify the great risk involved.

(9) Savers should steer clear of stock, shares or units in world-revolutionizing inventions which are peddled in front of empty stores or sold from house to house or through the mails.

(10) Every novice investor should remember that, as in all lines of business, black sheep have invaded the investment field. They must be shunned, while investment firms and salesmen of responsibility and integrity should be supported.

Let our banks unite in a movement designed to protect the depositor against the schemes of the wild-cat promoter—in a movement that will save our savings depositors from despair and from poverty as a result of having lost all—in a movement that will turn into legitimate investment channels the millions of dollars which are now wasted on fraudulent schemes of one kind or another. The best service a bank can render a novice investor is to keep him from making poor investments by helping him to make good ones.

SUCCESSFUL YEAR HAD BY BAPTISTS

Convention at Houston Heard Many Gratifying Reports on Work. Evolution Denounced.

\$9,000,000 GOAL IS SET

This Objective for Missions and Benevolences to Be Sought By Co-operative Program Commission for 1927.

Following an unusually good record in the work of the local churches and large achievements on the mission fields, there has just been held at Houston, Texas, one of the most successful sessions of the Southern Baptist Convention in recent years. The session was marked by unusual unity, definiteness of purpose and determination to carry forward the work of the Co-operative Program.

DR. GEO. W. McDANIEL
President Southern Baptist Convention.

Following the re-election of Dr. George W. McDaniel, Richmond, Va., as president, he sounded in his inaugural address a conviction on the theory of evolution that was promptly and unanimously adopted by the Convention as its own sentiment. Dr. McDaniel said:

"I am happy to believe that this Convention accepts Genesis as teaching that man was the special creation of God and rejects every theory, evolution or other, which teaches that man originated in, or came by way of, a lower animal ancestry."

With the evolution question disposed of, the Convention was able to proceed with a consideration of its great missionary and benevolent enterprises.

Here are some of the outstanding developments of the Convention:

GOAL OF \$9,000,000 SET UP

1. In the hope of enabling the mission boards and other agencies of the Convention to take care of their indebtedness gradually without having to too greatly curtail their present work, an objective of \$9,000,000 for missions, education and benevolences was set up for 1927, on recommendation of the Co-operative Program Commission. This money will be applied to foreign, home and state missions, Baptist schools, orphanages and hospitals and ministerial relief, thus taking care of both the state and Southwide Baptist work. It is hoped the Southwide portion of the budget will amount to at least \$4,000,000.
2. An effort will be made to enlist 500,000 tithers during the next year.
3. The Foreign Mission Board reported 18,269 baptisms on its fields during the year, a gain of about 1,000 over the previous year. The board has 1,215 churches on the foreign fields with 140,488 members, 8,247 out-stations where preaching services are held from time to time, and 528 missionaries and 2,644 native Christian workers employed in 17 countries.
4. Among the results for the year reported by the Home Mission Board were 838 missionaries employed, 19,744 baptisms, 55,226 additions to the churches, 109 new churches and 458 Sunday schools organized, and 402 church houses built or improved. DENOMINATION GREW DURING YEAR
5. The Sunday School Board reported total business receipts for the year of \$1,710,471. Of this amount \$880,844 was put back into the general work of the denomination. A total of \$9,065 awards in teacher training were made, 403 churches were aided by the Architectural Department in drawing plans for new houses of worship, the number of standard Sunday schools reached 548.

With the gains for the past year the main figures of the denomination are now given by the statistical secretary of the Convention as follows: 26,467 churches, 19,908 ordained ministers, 8,649,330 church members, 21,760 Sunday schools with 2,681,828 pupils, 20,965 church houses, 3,197 pastors' homes, \$165,909,278 invested in local church property \$30,771,574 contributed to local church objects, \$5,255,435 to missions and benevolences and \$39,027,099 to all purposes during the past year.

The time is now ripe for a distinct Baptist advance all along the line and especially in a support of the great missionary and benevolent enterprises fostered by the Co-operative Program, the Convention leaders believe.

Pains disappeared

"SEVERAL years ago I was badly run-down," says Mrs. John Bunch, R. F. D. 3, Columbia, S. C. "I could not do any of my work. I was so weak I could not wash a dish. My back and sides hurt me at times dreadfully. I dragged around until I finally got down in bed." Then, explains Mrs. Bunch, she happened to read about Cardui, the woman's tonic, and decided to give it a thorough trial, the results of which she describes below:

"It seemed to reach the cause of my trouble at once. I did not take it long before my appetite began to improve. I gained in weight from 114 pounds until now I weigh 125 pounds. I soon was able to be up around the house. I took up my household duties and was delighted with my returning strength."

"I now do all my own work. The pains in my sides and back have disappeared and I feel like a different person."

Cardui has been helping suffering women for nearly 50 years. Sold by all druggists.

Stubborn Coughs Quickly Stopped This New Way

It is often surprising how the most persistent, hacking cough that not only robs you of strength and sleep, but often leads to more serious trouble, yields quickly to a simple but wonderfully effective treatment.

This treatment is based on the prescription known as Dr. King's New Discovery for Coughs. You take just one teaspoonful at bed time and hold it in your throat for 15 or 20 seconds before swallowing it. The prescription has a double action. It not only soothes and heals soreness and irritation, but it quickly removes the phlegm and congestion which are the real cause of night coughing. So with the cause removed, coughing stops quickly, your sleep undisturbed, and the entire cough condition soon disappears.

Dr. King's New Discovery is for coughs, chest colds, sore throat, hoarseness, bronchitis, spasmodic croup, etc. Fine for children as well as grown-ups—no harmful drugs. Economical, too, as the dose is only one teaspoonful. At all good druggists. Ask for

STRAIGHT TALKS WITH AUNT EMMY

On How to Lose Your Inheritance

"It is so hard for me to get along on what John left me," complained Mrs. Norris to Aunt Emmy. "Junior wants to get a job, but I always wanted him to go to college."

"Yes, yes, I know," interrupted Aunt Emmy, "but what about this mining stock?"

"I'm coming to that. You see I thought I could invest some of those bonds John left, they yield such a tiny income, in something that would bring real money. I needed more money, so when the telephone rang that day and a man, he had the nicest voice, said he had been referred to me by a friend and wanted to talk over some gilt-edged investments, I told him to come right up."

"His name was Mr. Stanhope. He was so nice. He told me all about the big money people are making in platinum mines. Platinum jewelry is so fashionable now. He said he could let me have some stock in a wonderful mine, and that the company would buy the stock back if I ever wanted my money."

"Have you a statement signed by one of the officers of the mining company to the effect that the company will repurchase your stock?" asked Aunt Emmy.

"Why no—"

"Well, you will have trouble getting your money back. A company cannot be compelled to buy its own stock back."

"Oh, I don't know. Anyhow, I got out my bonds, and showed them to him—"

"What, you keep your bonds in the house instead of at the bank?" exclaimed Aunt Emmy.

"Why, yes, but in a box that locks—"

and Mr. Stanhope said that he was surprised that a woman with the good business judgment I had should be getting such a small income as those bonds paid—scarcely anything. He said that I should make my money work harder for me. He knew I must have good business judgment, he said, because I brought my children up so beautifully. He offered to take the bonds and change them for his stock."

"Oh, Lord!" exclaimed Aunt Emmy, "did he give you a receipt?"

"Why, of course, he was the nicest man. But Junior said after he left that he didn't like him. He said he looked slick. Boys are so funny. Well, I got the platinum stock but Mr. Barnes at the bank says it's no good. He must be mistaken. But I want my bonds back so I came to you for help. And you're always so lucky about your investments."

"Not lucky, just sensible," corrected Aunt Emmy. "Why, oh why, don't you consult your banker, who understands finance before you risk your money? This is not your first loss. Remember that piece of land you bought that was under water?"

"That was different," said Mrs. Norris blushing, "and anyway, Mr. Stanhope is honest, I can tell that."

"If he were honest, he would not have promised you the things he promised. Reputable houses don't send out representatives who make promises about repurchase of stock. Why don't you phone your Mr. Stanhope?"

"I did, but he's out of town. I've written, too, but I suppose I shall have to wait until he gets back. It's been several weeks now, so he should be back soon."

Just then the evening paper came. Aunt Emmy glanced at it, then read it attentively. Her expression grew serious. She handed the paper to Mrs. Norris. On the front page was an account of a financial scandal. The house that sold Mrs. Norris her mining stock was involved and the men who ran the business had been indicted for fraud.—A. B. Ayres.
