

MAY MAKE A WELL

Work began yesterday on raising the casing in the Weston No. 4, well above the level of the first showing, and it is stated that this sand will be thoroughly tested, possibly by shooting it.

TRY TO GET LEASE

Efforts are being made by oil men to secure sufficient acreage near the Weston No. 4 well to justify sinking another hole. The contemplated acreage lies between Mr. Gregory's acreage and Goldthwaite.

JAY & COMPANY ESTIMATE 14,815,000 BALES

Editor Eagle, Goldthwaite, Texas, Dear Sir:

We hand you herewith the result of our investigation regarding the condition of the growing cotton crop with such information as may be pertinent thereto. This report is made up to July 25.

The average indicated percentage condition for the United States is 68.6 per cent.

The indicated yield with normal weather henceforth, (allowing for average abandonment of acreage) is 14,815,000 Bales, linters excluded.

Condition of Texas, 70.2 percent

The average condition of the cotton crop in the United States for July 25, as given by the U. S. Department of Agriculture, for the past ten years was 69.3 per cent.

Condition in Texas

Ten days to three weeks late, with some scattered advices of fully one month late. Cultivation and stands good to fair. Climatic conditions unfavorable, too much rain, cloudy weather and frequent showers over large territory has caused considerable complaints of hoppers, leaf worm and other insect activity. Weevil damage to date negligible. Plant normal to above size, the latter at the expense of fruitage. Fruiting good to bad. Sufficient labor. Prospect discouraging compared with last month.

Resume

Since our survey of June 17th, the weather has been unfavorable, resulting in more than the average deterioration and a decline in the indicated yield. The hopper or cotton flea has done some damage, but their activities are about over. Rainfall during the past five weeks was heavy, covering almost the entire cotton region, and while beneficial in the Carolinas, Northern Georgia, Western and portions of Central Texas was excessive and detrimental in practically the remainder of the cotton belt. Low temperatures, especially at night, helped to delay fruiting. The result is a large, weedy, vigorous and healthy plant with reports from many sections of poor fruiting and as a satisfactory yield of cotton depends largely upon the bottom crop, the burden is now thrown upon the middle and top crop, making frost date and possible weevil damage factors of great importance. With a fine open Fall such as occurred in 1924, with a minimum of weevil damage a large yield is possible. While weevil emergence was light this year and damage from them to date is small, the weather has been favorable for propagation and there has been increasing complaints of weevil infestation. Due to lateness and poor bottom fruiting, only a small percent of the crop can be called safe. The facts are that the 1926 cotton crop is on the defensive and perfect weather is essential to insure a satisfactory yield. Opinions differ as to the most desirable weather, the majority of our correspondents say that high temperatures are likely to cause considerable shedding due to the excessive moisture, and the sappy condition of the plant.

The carry-over of American cotton at the end of the season (July 31st, 1926) inclusive of linters promises to be around 5,750,000 bales. Our next report will contain the figures in detail.

Yours very truly,

J. W. JAY & CO.

Mrs. G. A. Swain went to Temple this week to be with Lewis Little who is in a sanitarium at that place. Mr. Little is improving nicely.

Mr. and Mrs. Albert Hunt went to San Antonio this week to get Albert, Jr., who has been attending a military encampment.

HUDSON BROTHERS HAVE A1 INSECTICIDE DEPT.

Few people are aware of the fact that most any kind of poison for killing boll weevil, worms or insects of any kind, can be procured in Goldthwaite on a moments notice. Anticipating the demand of the progressive farmers of this county, who will not sit idly by and let the insects destroy a year's work, for insecticides, Hudson Brothers have established an insecticide department, in which they carry all kinds of poison for exterminating the pests.

A few boll weevils are reported over the county, and while the damage from them now are negligible, it is well to watch them closely in order to be able to cope with any outbreak.

Anticipating a demand for sprayers with which to protect the cotton, Hudson Brothers have placed in stock sprayers and plenty of the different poisons. So if the cotton is ruined by the weevil or other insect this year, don't blame anybody but yourself.

On another page in this paper will be found Hudson Brothers' advertisement listing the different poisons which they have available and it would be well for those who contemplate using poison to read the advertisement and make mental note of the facts, in order that no time will be lost when it becomes necessary to spray.

GEORGE W. CUNNINGHAM

George W. Cunningham died at his home in San Angelo Wednesday morning at five o'clock and was buried in that city in the afternoon of that day.

Mr. Cunningham was a native of Comanche county and was 68 years old. His parents, James and Susan Cunningham, were typical pioneers who settled on Mountain Creek in 1855, where they raised a family of twelve children. When Mills county was created, he was elected sheriff and was three times reelected. He served at a time when the duties of the office were more exacting than now and when danger was to be encountered. He never failed in his duty to the public.

Mr. Cunningham had lived in San Angelo for the past twenty years.

He is survived by two sons and four daughters.

Protect the Home Town's Interests

TO THE VOTERS OF MILLS COUNTY

Let me assure you that it is with a sincere heart of appreciation that I thank the citizenship of our good County, for the kind support that you so graciously gave me during the campaign and for the generous vote on election day. With the very best feeling towards every voter, regardless of whether you voted for me or my opponent in the primary. It shall be my constant aim and endeavor to serve you in an official way to the very best of my ability. My time and best efforts are at your command.

Sincerely,

CARL D. BLEDSOE.

TO THE VOTERS OF MILLS COUNTY:

Due to the loyal support of my friends in Mills county, I am in the run off for the Democratic nomination for county clerk.

I am truly grateful to all those who supported me in the first primary and want to solicit your continued support and influence. I also want to ask those who voted for candidates eliminated in the first primary to give me your vote and I will heartily appreciate any support that you will give me on August 28.

I was reared in Mills county and also feel that I am qualified to handle the affairs of the county clerk's office.

I pledge you, that if elected, I will give you a faithful, efficient and conscientious conduct of the office.

I again solicit your vote and influence on August 28.

Very respectfully,
S. J. CASEY.

Our good friend, Joe Richey recently presented the Eagle force with a couple of his famous water melons. Mr. Richey has raised some of the best melons this year that it has been our good luck to taste, and that no doubt, accounts for the ease with which he disposes of his crop.

Mr. and Mrs. Frank Rahl left this week for their home in Long Beech, California, after a visit with Mr. Rahl's parents, Mr. and Mrs. Jas. Rahl and Mrs. Rahl's parents, Mr. and Mrs. Jesse Lowe, and other relatives and friends here.

TO THE VOTERS OF MILLS COUNTY:

I take this method of trying to express my thanks to you for the large support you gave me in the primary election just past and also desire to thank you again for the past favors you have shown me in a political way.

I feel unworthy of the honor you have bestowed upon me, but thank you for the same.

I will say that I have tried to serve you right or as near right as I know how in doing the assessing. I have tried to do it correctly and in an impartial way with due respect to the individual and at the same time trying to do justice to the state. I have long since learned that the work that is entrusted to an assessor is a very important work, it doesn't just only deal with the entire wealth of the county, but the work puts you in touch with the entire population of the county. I realize that it is almost impossible to give satisfaction to all and don't believe I have in my work and don't promise to give satisfaction at all if re-elected, but I will do my best to do the work right.

My apology for not writing last week is that my opponent was not ready to write his article, so I left mine out so they could go in together.

I realize that it will be impossible for me to make a tour or complete canvass in the short time we have between now and the 28, so please accept this as an appeal to you for your vote and influence and this means YOU.

I desire also to thank my opponents for the nice clean campaign they have made and the many good things they have said about me.

This campaign makes me think of a ghost story that I heard once. A ghost took after a man and gave him a warm chase. Finally the man gave out and sit down on a log and the ghost came up and sit down beside him on the log and said: "We have been going some," and the man placed his hands on the log and eased over just as far as he could and said: "Yes, and just as soon as I rest a little more, we are going some more."

So you all look out for Burt is right by my side and we are going some more.

With best wishes to all and hoping for a large turn out on the 28th of my supporters, I remain, as I have for the past four years, your tax assessor and hope to continue the same for at least two more years.

I. A. DYCHES.

TO THE VOTERS OF MILLS COUNTY:

I thank you for the kind consideration given to my candidacy in the recent primary. It is gratifying to me to have the second place, knowing as I do that I had for opponents worthy and competent men.

The office of assessor which I seek is one the duties of which are strictly prescribed by law. All that I can promise you is that I will be diligent if elected in the performance of the duties pertaining to that office, so that your interest will be served.

I am a native of the county and have not before offered my name for your suffrage. I feel that my education and business experience make me fairly well qualified to perform all duties of the office should I be so fortunate as to be your choice.

The second primary will be held August 28th and it will not be possible to meet all of you in person, and indeed, I do not think it necessary to make a house to house canvass, though I will try to see many of you.

I thank you again for past support and earnestly soliciting your favors for the future.

I am very truly yours,
R. H. PATTERSON,
Candidate for Tax Assessor.

CENTERS OF PROSPERITY

—If the farms of this community are to be Centers of Prosperity, it will be because of Diversification and More and Better Live Stock.

—A few good cows, hogs and chickens are necessary to insure a safe living on the farm.

—Talk with us about improved strains of Live Stock. We will be glad to help you if we can.

The Trent State Bank

STATEMENT BY HARVEY S. FIRESTONE

On August the first the British Government will unquestionably adopt a new and more drastic restriction of the production of rubber, and I feel I should bring to the attention of the American car owner the full import of what this means.

The minimum price of rubber under the new restriction is to be set at 42 cents per pound. The Stevenson Restriction Act, as originally adopted November 1, 1922 fixed the minimum price at 25 cents per pound. One of the arguments for the adoption of this Act by the promoters of the scheme was to stabilize the price of rubber between 20 and 30 cents per pound, but instead of fulfilling this function, it not only increased the price beyond all reasonable limits but also through the resulting fluctuations made a very unstable, speculative and hazardous condition for the rubber manufacturers.

Rubber was selling around 14 cents a pound when the Stevenson Act became effective. The Act allowed 60 percent of normal production to be exported and called for quarterly revisions according to the price of rubber. That is, if the price of rubber fell below an average of 25 cents per pound for any quarter an additional 5 per cent would be released. In rubber would be stabilized between 25 and 30 cents per pound.

Some idea of the present enormous production of Ford cars is obtained when it is recalled that it was only a little more than two years ago, June 4, 1924, that the famous Ten Millionth Ford was produced, an event which was celebrated by driving the car across the country from New York to San Francisco on the Lincoln Highway. In the twenty five and a half months elapsing since that time Ford output increased 4,000,000.

The first model T Ford was turned out on October 1, 1908, and it was not until seven years later, December 10, 1915, that the first million was reached.

tion act was announced—I presented figures and statements to officials in Washington showing them the seriousness of the situation and succeeded in April of the same year in having Congress appropriate \$500,000 to investigate new sources of rubber supply. This investigation and personal investigations that I have made, show there are many tropical countries where rubber can be grown profitably.

On account of the enormous capital required for the growing of rubber, and as investments are without returns for several years, Americans are not keen to make these investments unless they are in countries under the control of or protected by our own government, no matter how large the returns on the investment may be. The Philippine Islands hold out great opportunities for America, and also for the Philippine Islands itself if proper legislation is enacted to encourage capital to encourage capital to invest there in the rubber growing on a substantial scale. Soil and climatic conditions are ideal, and rubber in a small way is being grown on the Islands of Mindanao and Basilan. These islands could be made the richest and most prosperous country in the Far East. It is estimated that Great Britain now has over \$600,000,000 invested in the growing of rubber which gives big returns on the investment.

This being so, I want to call particular attention to the fact that the minimum price of rubber fixed by the new restriction is 42 cents instead of a minimum price of 25 cents, fixed in the Stevenson Rubber Restriction Act of November 1, 1922, or 17c, a pound higher. One cent a pound advance on rubber imported into the United States in one year means over eight million dollars. It is very easy to figure that American automobilists have an additional minimum fixed charge on their transportation of \$136,000,000 per year.

It is unthinkable that Americans will sit idly by and allow a commodity so vital to our welfare, transportation and commerce to be held in the tight grip of a foreign monopoly that tells us how much rubber we may receive and how much we are to pay for it. In January, 1923—two months after the Stevenson Rubber Restriction

THE RULES FOR CULLING POULTRY

Pick for slaughter the bird whose comb is pale, small and shriveled; beak, yellow at the base eye ring and ear lobe, yellow, shrunken, and dry; face heavily fleshed and yellow, eyes shrunken, dull, listless; plumage, molting; skin, thick and tight; pelvic bones, close together, hard and rigid; pelvic bone to breast bone, close together, hard and rigid.

The average flock needs to be culled at about this rate: in June 6 per cent, July 9 per cent, August 11 per cent; September, 15 per cent, October 16 per cent.

Most hens stop laying when they begin to molt. The early molting hen is not a consistent layer. She takes all the fall months as a vacation for changing her plumage. The consistent layer molts late and grows her new plumage fast.

As a general rule, the first hens in the flock to molt should be sold, and the last to molt should be kept for breeding purposes.—The Progressive Farmer.

FOURTEEN MILLION FORDS HAVE BEEN MADE

Another million mark in Ford production was passed on July 21 when motor No. 14,000,000 came off the assembly line at the Fordson plant of the Ford Motor Co.

Some idea of the present enormous production of Ford cars is obtained when it is recalled that it was only a little more than two years ago, June 4, 1924, that the famous Ten Millionth Ford was produced, an event which was celebrated by driving the car across the country from New York to San Francisco on the Lincoln Highway. In the twenty five and a half months elapsing since that time Ford output increased 4,000,000.

The first model T Ford was turned out on October 1, 1908, and it was not until seven years later, December 10, 1915, that the first million was reached.

tion act was announced—I presented figures and statements to officials in Washington showing them the seriousness of the situation and succeeded in April of the same year in having Congress appropriate \$500,000 to investigate new sources of rubber supply. This investigation and personal investigations that I have made, show there are many tropical countries where rubber can be grown profitably.

"The Busy Harvest Season"

ROCK SPRINGS.

Several from here have been attending the meetings at Big Valley and Center Point.

Mr. and Mrs. John Weaver and two brothers of Copperas Cove and Miss Lillie May Hines of Coleman, visited Amos McGowan Sunday morning.

Mr. and Mrs. C. E. Strickland of Brady spent Sunday night with Mr. and Mrs. J. W. Roberts Miss Ruth has spent her vacation with her aunt and uncle, she returned home with her parents.

Mrs. Agie Cunningham and children of Killeen spent Monday with her sister, Mrs. Amos McGowan.

Ray Davis and family of Proctor visited in J. C. Stark's home last week.

Miss Elizabeth Nickols spent last Saturday and Sunday night with her cousins, Otis and Bess Hutchings, of Center City.

Mrs. J. T. Robertson visited her son, Douglas, and family at Lake Merritt last week. Mr. Robertson went Sunday and they attended church.

Hillard Dyehes and family are visiting Woodie Traylor and family this week.

Charley Robertson and family are visiting in the home of J. T. Robertson.

E. W. McNutt and family and Austin Cooke and family went fishing last week. They told a fish tale too—had fine luck, of course.

B. D. Forehand and family visited Will Marshall and wife last Friday in Goldthwaite.

Those who visited in Amos McGowan's home Sunday were Ben Davis and family of Coleman, Mrs. Marvin Spinks, J. A. Stark, Rudolph Cooke, Mrs. Eula Nickols and boys and Master Beryl Vann and James Watson Roberts of Goldthwaite. The afternoon was enjoyed by all. Nine of the boys took a swim. We were treated to ice cream and water melon.

FOR WORKING PEOPLE

The best of workers get out of sorts when the liver fails to act. They feel languid, half-sick, "blue" and discouraged and think they are getting lazy. Neglect of these symptoms might result in a sick spell, therefore the sensible course is to take a dose or two of Herbine. It is just the medicine needed to purify the system and restore the vim and ambition of health. Price 60c. Sold by HUDSON BROS., Druggists

with Dwight Nickols. Our meeting begins Sunday. Rev. O. D. Penley of Godley, Texas, is to do the preaching. We are praying for a good meeting. We hope to have good crowds.

They are drilling again. We are waiting for good luck for ourselves and Mr. Gregory, too.

Don't forget our next g. Come and bring some one with you.—HARRY BEE.

TRIGGER MOUNTAIN

Rev. L. L. Hays has been quiet sick with a fever.

Mr. and Mrs. J. B. Lively went to a Primitive Baptist association at Valley Springs, Lano County the week end.

Several from Trigger Mountain attended the meeting at Lake

Merritt. Charlie Plummer and sister Miss Agnes visited David Shaw and family Sunday afternoon.

W. S. Cunningham and family were made glad Sunday by a visit from old neighbors and friends, E. Roberts and family of Long Cove, Mrs. A. R. Roberts and two daughters, Mrs. McBriney and Miss Ida Mae Roberts of Houston.

There is some apprehension on account of the boll weevils being so numerous in the cotton but really we don't see how any thing could survive such heat. Not long any way.

There was no letter from Trigger Mountain last week but there are times when it seems nothing ever happens.—THE FARMERS WIFE.

WEEKS SUPER TIMER

For your Ford, no oiling or gum-
ming up, don't have to take off
and clean up. Put it on your Ford,
forget about it, no miss fire, no
short or burning out, no roller or
springs to give away. Must give
complete satisfaction, you are the
judge and jury. Your money re-
funded upon return of timer, if
not satisfactory.
Absolute guarantee with each
timer. See your garage man to-day
if he can not supply you, drop me
a line.

S. J. EATON, MULLIN TEXAS

Mr. and Mrs. J. H. Randolph
returned home this week, after
spending several weeks in Martin.
E. B. Anderson returned Sun-
day morning from California.

Mr. and Mrs. D. G. Barnett and
family returned this week from
a trip to the Rio Grande and to
Mexico.

Mr. and Mrs. Chas. Frizzell
spent last week end in Lometa.

Little Mary Louise Ervin, the
daughter of Mr. and Mrs. C. D.
Ervin of the Payne Gap commu-
nity, has made a most remarkable
record in school this year. When
she entered school in November
1925, at the age of three years,
she knew nothing of writing, read-
ing and arithmetic, but went
right to work to learn. Primer
work was quickly finished and 3
primers were read. Spelling and
number work were not neglected.
When school closed she had learn-
ed to write the numbers to 100
could add as well as any first
grade pupil. This progress is
especially remarkable when you
remember there were 10 other be-
ginners in the class. Five out of
this class were promoted to the
second grade. They are as follows:
Mary Louise Ervin, Beth Ervin,
Glady Duncan, Lella Joyce Bachlor
and Ralph McMurray.

Stocking

In the ordinary stocking, runs caused by knee strain or garter
clasps go down and ruin the stocking. In Rollins Improved
Double Runstop Hosiery, one runstop at the knee is the same
color as the stocking and protects against knee strain.

The other runstop, always red, but out of sight even when
worn with the shortest skirt, is at the hem and stops all garter
runs. It is a red dotted line, which positively identifies Rollins
Improved Double Runstop Hosiery. If you wear round garters
your finger nails cannot cause disaster in pulling tight and roll-
ing the top of the stocking.

"Who to Believe?"

FAMILY REUNION

Last Sunday was a pleasant day at the George Knowles home in Big Valley, as all the children were present for the first time in several years, also it was Mrs. Knowles 51st birthday.

Early Sunday morning children and grand children began to arrive.

First a big water melon feast was enjoyed by all and at noon the tables were placed under the large, shady Catalpa trees in the front yard. The tables were beautifully decorated with red and pink Zinnas. A big chicken

dinner, with everything that goes to make a dinner perfect was served to the following:

Mr. and Mrs. G. A. Knowles and family, A. K. Knowles and family of Goldthwaite, Leon Baker and family, Big Valley, Mrs. E. H. Cannon and children, Douglas and Lovey of Dallas, Mrs. Grady Malone and son and daughters, Glenn, Dorothy D. and Murrel of Los Angeles, California.

The gathering terminated a very

pleasant visit of Mrs. Malone and Mrs. Cannon. Mrs. Malone left Thursday for a visit to relatives at Buffalo Gap and Amarillo before returning to her home in Los Angeles. Mrs. Cannon is returning to her home in Dallas.

Mr. and Mrs. E. L. Pass and Miss Leona, and Mrs. A. D. Karnes spent Tuesday visiting near Lampasas.

TRY OUR CHICKEN DINNER SUNDAY

The Ned Parker home in Pleasant Grove burned last Tuesday night at about 10:00 o'clock. The fire originated from a stove. No furniture and just a portion of the bed clothes and other clothes was saved. There was no insurance.

Henry Blackburn, who recently hurt his knee, is slightly improved.

Mrs. W. D. Marshall who was carried to Temple Sunday underwent a serious operation Wednesday morning.

WANTED—Live dealer to handle Kohler Electric Light and Power Plants in Mills County. Must have car. Address J. A. Robinson, Courtland Hotel, Abilene, Texas.

Miss Celesta McClellan left last Thursday for Brownwood.

Miss Leona Pass visited Mrs. C. C. Ballard last week.

G. F. Bohannon left Monday night for Dallas for treatment.

Mrs. Guy Rudd and Mrs. Marvin Rudd spent Wednesday in Brownwood.

Mr. and Mrs. E. L. Pass, accompanied by Mrs. A. D. Karnes, visited in Ogles Tuesday.

Thompson Kemper and son, Lennox, of Clyde are visiting D. D. Kemper and building his farm house.

Mr. and Mrs. W. W. Queen, Mrs. Womack and Mrs. Shultz attended the Lampasas fair Thursday.

Richard Burgess returned Sunday morning from Dallas.

"How old is your baby, my dear?"
"He cuts into the bridge dreadfully."

MERRY WIVES HONOR PRESIDENT

The Merry Wives Club entertained Tuesday or last week at the pretty Yarbrough home on south Hutchins street, honoring Mr. and Mrs. J. A. Gillespie who left Monday for Phoenix Arizona to make their home. The Club loses a charter member who had served us faithfully as president for the past year.

The rooms were tastefully decorated with the club flower Sunflower. After a number of 42 games had been greatly enjoyed, the honoree was presented a pretty little vanity in recognition of her many years of loyalty to the Club.

The personnel included Messrs and Mesdames, J. A. Gillespie, C. M. Burch, Roy Rowntree, L. E. Miller, O. H. Yarbrough and Walter Fairman, Reporter.

SCALLORN

Editor Eagle:

We are having some real summer weather. Nearly everyone is trying to get his feed stuff baled and put away.

Alva Ford has bought C. H. Black's interest in the baler and is baling for the people.

Mrs. R. D. Evans and daughter, Nancy, returned home Friday from their daughter and sister's Mrs. Carrie Herford, where they spent several days.

J. D. Ford was around Wednesday with a load of peaches.

Mrs. Elzie Laughlin will spend the week end with her cousin, Mr. Will Harbough.

Mr. and Mrs. Joe Morgan attended the services at Lampasas Sunday.

Earl Blake returned Wednesday from San Angelo.

Earl Blake and his wife are moving this week up on the Granddad Bradley's place, where he will farm and work some on the road.

R. D. Evans, after spending a week in the home of Will Fox, returned home Sunday.

Mrs. T. F. Elliott came home Sunday. She says her son is doing nicely.

Mr. Judd and daughter, Miss Emmer, Tom Nolan of Hallettsville and Mrs. Judd of Loekett spent several days in the home of Elzie Laughlin.

Mr. and Mrs. T. J. Laughlin, Ernest Johnson and family, Mrs. Lamar McLean and two sons spent Tuesday in the home of Elzie Laughlin.

Mr. and Mrs. H. H. Brooks went to Rising Star Thursday to attend a family reunion.

Brown Stockton and family, Mesdames Joe Morgan and Cora Ford spent Tuesday evening in the home of Elzie Laughlin.

Several have attended the meeting at Lometa this week.

A good many from this community will attend the San Saba fair next week.

Joe Morgan and wife will leave with others in a few days to visit relatives in Edwards county.

Leslie Nance and wife are visiting their parents for a few days this week.

C. T. Wilson of San Angelo spent last week end here with relatives.

Mrs. John Ross and Miss Aileen Wilson left Tuesday morning for a week's visit with their uncle, Sheriff Bob Hewitt, of San Angelo.

Mrs. J. R. Eudy of Coleman spent the first of the week here with her parents, Mr. and Mrs. L. R. Hendry.

Mr. and Mrs. J. A. Gillespie and son, Henry Franklin, left the first of this week for Phoenix, Arizona, where they will make their home. They went by way of San Antonio where they were joined by James Charles, who has been attending the government military training camp.

Poster Brim and Mrs. M. E. Archer returned home from Temple Sunday night, where they had been attending the bedside of Mrs. Brim who underwent an operation there last week. At last report Mrs. Brim was doing nicely.

Dr. Potter and Miss Geneva Smith of Temple spent last week end here in the home of Miss Smith's parents, Mr. and Mrs. Frank Smith.

MRS. GILLESPIE HONORED.

As a farewell courtesy to Mrs. J. A. Gillespie who left the first of the week to make her home in Phoenix, Arizona, the members of Womens Self Culture Club met on Thursday of last week for a delightful morning party in the attractive home of Mrs. Jacob Saylor. Upon the arrival the guest were greeted by Mrs. Claude Saylor Club President, Mrs. John Hester, and Mrs. Jacob Saylor who showed them to the "Book of Wishes" for Mrs. Gillespie's future welfare. "42" was then the chosen pastime and some of our members showed that their aptitude in this line does not compare with that shown for the heavier and deeper thoughts of the Club's winter programs. After a very refreshing ice course Mrs. L. B. Walters in a most gracious manner presented the honoree with a beautiful vase as a token of the Club's love, Mrs. Gillespie, who has been one of us since her coming to Goldthwaite has always been one of our most loyal, capable and valued members and it is with regret that we see her leave our midst to reside elsewhere.

NOTICE

There will be an ice cream supper next Thursday night, August 12, at the M. W. A. Hall. All members are requested to be there. We are expecting a big meeting. O. H. SHAW, Clerk.

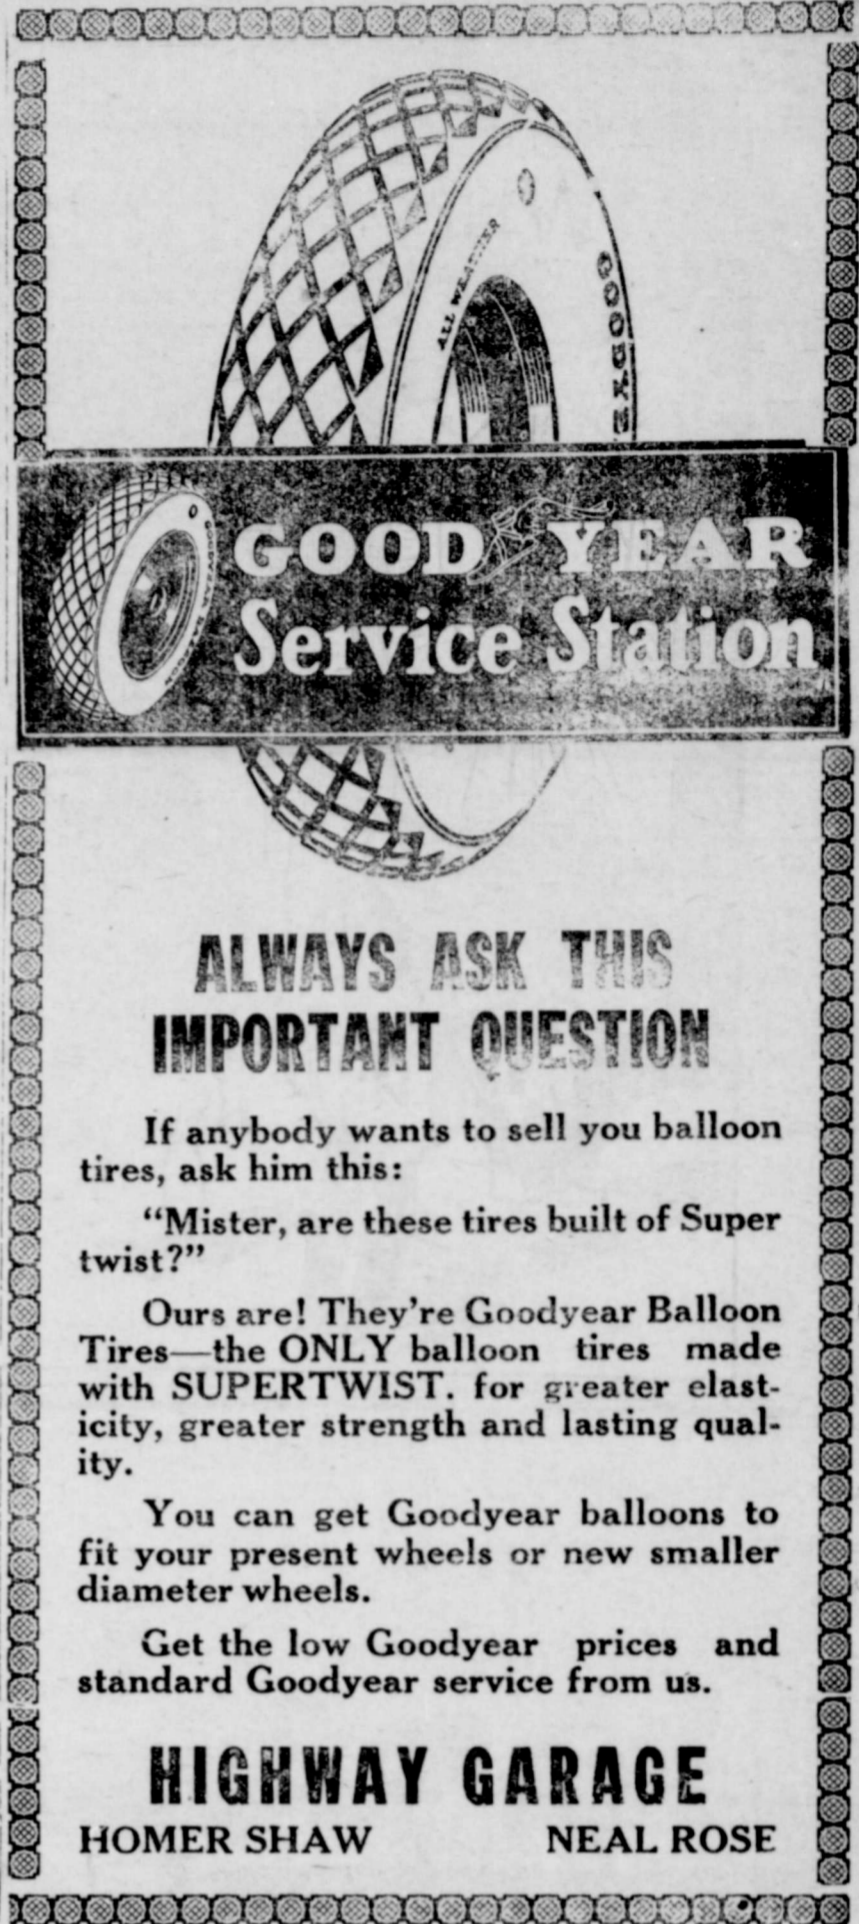

BABY CHICKS FOR SALE

Pure English strain white leg-horn baby chicks \$8.75, hundred, postpaid. Angonas, the best layers, Sheppard strain \$11 hundred, Rhode Island Reds, best for meat, \$11 hundred. New Smoothness—New Features—New Colors....

Chevrolet again electrifies the world by increasing Chevrolet Values!

Now in the greatest year in Chevrolet history—building cars in tremendous volume to meet an ever-increasing worldwide demand—Chevrolet continues its successful policy of increasing Chevrolet values!

Now Chevrolet adds to the performance, beauty and completeness of equipment that have been winning the world to Chevrolet—

—by developing the smoothest Chevrolet in Chevrolet history, by enhancing its smart appearance and by adding features which increase the economy and satisfaction of Chevrolet purchase and ownership!

A triumph of engineering science, today's Chevrolet is the only low-priced car ever to offer every quality of smooth car performance.

Forty to fifty miles an hour as long as you like, without the slightest sense of forcing or fatigue! Remarkable smoothness at every speed!

Acceleration that is a delight in traffic! Power that conquers hills—

—such are the almost revolutionary qualities attained by a superior method of mounting the motor on the chassis and by a new camshaft with scientifically determined quieting curves.

Come in! Arrange for a demonstration! Admire the brilliant beauty of the new and striking Duco colors on every model! Mark the greater convenience of the centralized throttle and spark control! Note that all enclosed models with their bodies by Fisher now carry an approved stop light as standard equipment and have a front door pocket.

Then take the wheel—and you will quickly learn that today's Chevrolet with its new smoothness, new features and new colors, is a car that only Chevrolet could build—a value that only Chevrolet could offer.

BARNES & McCULLOUGH

LINCOLN *Ford* FORDSON

AUTHORIZED SALES AND SERVICE

The Ford Motor Company have recently changed their closed body finish from a varnish paint job to Pyroxylin paint. This paint withstands the elements, and is not affected by alkali or acids, and will not mar as easily as the old style varnish finish.

For the above reasons, we are positive that our customers will find this new finish to be much more satisfactory from a service standpoint.

Fordor Sedans are being finished in a Mole-skin Gray color with Champagne striping, while the Tudor Sedans and Coupes are a Drake Green with Emerald Green striping.

We are getting in some of these new cars and invite you to call on us and inspect them.

We are getting in some good used cars that we can sell at reasonable prices, and will be glad to have you call on us and see these when in the market for cars of this kind.
