CHALLENGE WAS NOT ACCEPTED, SAYS GOVERNOR FERGUSON WED.

Claims Moody Agreed only to Jim's "Bluff."

(The following article appeared in the Thursday morning Dallas News.)

Austin, Texas, August 11.—All doubt as to whether there would be a run-off primary campaign for Governor and whether Gov. Miriam Ferguson would resign her office was removed Wednesday by a statement issued by the Governor in which she announces unequivocally that she is in the contest to the end and that her proposition to resign was never accepted by Moody and that, in addition, it was based on the two primaries and not a single election.

With this positive notice, both Mr. Ferguson and Attorney General Moody were preparing to return to the stump for a vigorous campaign for the few days remaining before the election on August 28.

Moody's Brief Reply

Following the issuance of the Ferguson statement, Mr. Moody made brief reply and gave notice that he would make a more detailed answer later.

"I will reply in detail later to the statement issued today announcing the candidacy of the Governor for the Democratic nomination in the August primary," Mr. Moody said.

"The latest statement coming from the executive office, which was prepared by Mr. Ferguson, must certainly exhaust the patience of the people of Texas and show to even those who have followed him through all his vicissitudes his absolute lack of political sincerity and his utter faithfulness to his word. This playing fast and loose with the people of Texas must certainly be revolting to the sensibilities of the high-minded citizens everywhere, and the time is surely here for the people of Texas to reclaim their government from irresponsible control."

Later, after mature deliberation Moody announced he would not issue Wednesday a formal reply to Governor Ferguson's statement.

"I am not sure the statement requires a detailed reply," Moody said. "I am not certain whether I will make a detailed reply next Thursday."

"Challenge Not Accepted"

Mrs. Ferguson's statement on the challenge and acceptance to resign which she issued to Moody in her first campaign speech of the recent primary is based on the contention that Moody did not accept her challenge, but side-stepped it by calling it "Jim's bluff."

The challenge was that if Moody beat her by one vote she would resign her office immediately, and that if she beat him by 25,000 votes he would resign his attorney generalship.

"Not only did he not accept my proposition" says the statement, "but left himself in a position he would not be bound in case I should have led him by 25,000 votes in the primary. Here are his very words: 'I accept the challenge offered by Jim in his wife's name.'"

"In many other statements in the newspapers he called my proposition 'Jim's bluff' but not to this good hour has he ever accepted my proposition."

"I submit to all fair minded people that the acceptance of a challenge 'by Jim' is not the acceptance of a challenge issued by 'Miriam.'"

"If the vote had been in my favor, Mr. Moody has carefully worded his reply so that he would have immediately said that he was only bluffing Jim."

Cites Klan Vote.

Governor Ferguson asserts that Moody was elected by the klan vote and points to klan gloating over his victory as part of the

MILLS COUNTY PIONEER CLUB

The Mills County Pioneer Club will hold its first annual reunion at the Fair Grounds, Goldthwaite, Thursday September 9. All persons who have lived continuously in the county for the last forty years are eligible for membership, provided they are now sixty years old.

All such persons are urgently asked to become members. There is no expense connected with joining and no fixed dues afterwards.

Committees have been appointed and are arranging for the meeting. Applications for membership can be had by applying to the president or secretary.

Mrs. MINNIE ASHLEY, Sec.

COMMISSIONERS COURT

The commissioners court met in regular monthly session last Monday and, other than routine, the following business was transacted. The quarterly reports of Sheriff and Tax Collector A. D. Karnes, County Treasurer Mrs. Bina Oquin, Justice of the Peace Precinct No. 1 Jas. Rahl, and County Clerk Elvis Morris were examined and approved.

A canvass of the returns of an election held in Common School District N o. 8, resulted in the court ordering an assessment of a tax for school purposes of 50c instead of 25c.

The delinquent tax roll of Sheriff A. D. Karnes was examined and approved.

She also directs attention to open klan activities since the election, and promises, if elected, to further curtail them and urge a law requiring them to register their membership in each county. In her statement, the Governor says she obtained a majority of the Democratic votes in Texas. She charges that the oil companies with their money, coupled with the Ku Klux Klan, backed Moody and gave him the vote he received. She virtually serves notice that the Ku Klux issue and the oil companies will be principal issues in the coming campaign, intimating that the coming special session will be called upon to raise the crude oil production tax from 1½ per cent to 3 per cent.

DUE FOR A BUMP

ANNOUNCEMENT.

The Methodist Church of the Center Point community will begin a meeting Saturday night. It will last ten days or longer. E. P. Neal Pastor of the Church at Goldthwaite will assist W. J. Benningfield pastor of the Center Point Church. Brother Porter will have charge of the song service. Everybody cordially invited to attend these services.

SERVICES AT THE BAPTIST CHURCH

Sunday school will meet next Sunday at 10:00 a. m. Assistant Superintendent Charley Brayant will be in charge. Be there. We want to get our stride for our fall work started next Sunday. The morning services will include a sermon by the pastor on the text "Work Out Your Own Salvation With Fear and Trembling." The subject for the night sermon will be "The Pearl of Great Price."

The Sunday night sermon will be one of several sermons on the wonderful Thirteenth Chapter of Matthew. In this chapter Jesus discusses things in our own times. We want you at these services. IRA DANCE, Pastor.

RESOLUTIONS OF CONDOLENCE

Whereas, George W. Cunningham, the first Sheriff of Mills County, and a highly respected citizen of San Angelo, Texas, has passed to his reward, on Wednesday morning, August 4, 1926, and whereas he leaves among us a daughter, son and three nephews.

Therefore, be it resolved, that First Baptist church of Goldthwaite, Texas, out of loving respect, extend its heartfelt sympathy to all the bereaved.

Be it further resolved that a copy of this resolution be sent to those who mourn his passing, a copy be spread on the minutes of the Athens Bible Class and a copy be sent to the Goldthwaite Eagle.

IRA DANCE,
HAYNES HARRISON,
Committee.

MARRIAGE LICENSE

Since our last report County Clerk Elvis Morris has issued a marriage license to Seaside Lawson and Miss Annie Ruth McWhorter on August 4.

ONE OF THE BEST REASONS--

for maintaining a banking connection — from the depositor's standpoint—is the assurance it gives of assistance and co-operation when further accommodation is required.

The man who is honest in the dealings with his bank, and who takes his banker into his confidence, is the one who may depend upon every co-operation from his bank.

It's wise to maintain a bank connection, if for no other reason than the establishment of the bank credit for future needs.

COTTON THROWING OFF CONSIDERABLE OF CROP.

The condition of the cotton crop in this county are not so favorable this week as last, according to reports coming in to the Eagle. The cotton is shedding the greater portion of the crop. This is caused from insects and the dry weather. Boll weevil are reported in almost every section of the county. While very little damage has been done by them yet, they coupled with the leaf worm—which is operating in some sections—and the dry weather, have undoubtedly damaged the crop to a great extent. The cotton appears to be burning up in sections, but according to experienced cotton planters, this condition is caused by the sappy condition of the stalk and it will revive after a few more days.

Most of the farmers report that their cotton is still putting on fruit and that there are considerable bolls on it passed the usual danger stage. There are prospects for a bumper crop yet, but they are not very bright.

GREAT METHODIST RALLY

Rev. E. A. Hunter presiding elder of the Lampasas District, announces a second annual fall rally of all the Methodist in the district to be held in Anderson Park at Lampasas on Sunday, September, 5th, 1926. The rally last fall was a howling success, the biggest thing of the kind ever pulled off in this section of the state. Two thousand Methodists got their dinner baskets ready and drove from five to seventy-five miles on Sunday morning to answer roll call at the rally last year.

Mr. Hunter proposes to announce a bigger and better program for the coming rally than was offered last year. To those who attended last year this will seem impossible. But watch for the announcement in next weeks paper.

Each pastor in the district is asked and expected to call in all his appointments for that Sunday and to attend the rally with a large delegation from his charge. The pastor present on this occasion whose members or townsmen have traveled the greatest number of miles to be present will be given his choice of \$5.00 worth of new books. The mileage will be ascertained thus: A pastor brings 20 from his charge. It is 30 miles from his parsonage home to Lampasas, His mileage will be 600 miles. The count will be taken at the beginning of the program. The charges will be called in the order they appear in the West Texas Conference Journal of 1925.

It is hoped that a large number will come and camp over the week end. The camping facilities in Anderson Park are unsurpassed. Cottages or tents may be rented for a nominal sum, also stoves and chairs, tables, cots, etc, or you can send or bring along your own outfit. Fine swimming and boating except on Sunday. Here is a chance for an inexpensive outing which offers recreation, inspiration, fellowship.

All who come are expected to bring a basket dinner and the dinner will be spread as last year according to communities in the mess hall which will furnish room for all.

Those of other denominations are invited to join their Methodist neighbors in the enjoyment of the day.

E. A. HUNTER, Presiding Elder.

TRIGGER MOUNTAIN

Mrs. Walser of Lampasas spent last week end in the home of her sister Mrs. A. D. Karnes.

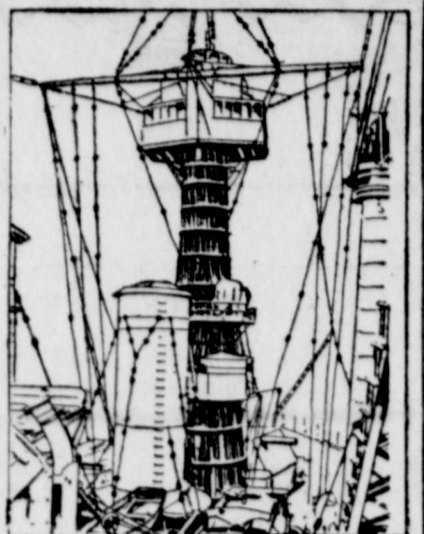

Miss Anilene Miller left Wednesday for her home in Nolan.

What the World Is Doing

AS SEEN BY POPULAR MECHANICS MAGAZINE

Insulators on Warship Like Strings of Beads

Every rope and stay of the "Colorado," Uncle Sam's new electrically driven warship, is thoroughly insulated, the knobs

giving it the appearance of being decorated with strings of large beads. Because of the great amount of current generated aboard the vessel and also because the radio is so necessary for its guidance, no electrical leakages can be permitted anywhere aboard. According to navy officials, the craft is one of the best insulated ships afloat.

Cities Half Century Hence to be "Built in Air"

Moving the calendar ahead fifty years, some noted experts see American cities with towering skyscrapers beside which even the tallest and most beautiful buildings of today will seem very ordinary. Even the small towns will have structures as large as those now considered huge. Street traffic will have been almost eliminated, workers will travel in subways, dirigibles, or on elevated roads at high speed. The telephone will have added improvements. Radio sets will be essential in every office and home. Houses will be heated by electricity in a few min-

utes, and little coal will be used in either homes or office buildings. The camera will have been discarded for pocket motion-picture outfits, and "movies" in the theaters will have been given speech. College students will report their lessons by wireless, and ministers will broadcast their sermons.

Automatic Gear to Replace Clutch in Autos

In the invention in England of an automatic automobile gear, which dispenses with the clutch, gear box, and the usual type of rear-drive axle, certain engineers see the beginning of a new era in the industry that will be marked by many revolutionary changes in the vehicle's mechanism. The device is said to instantly adjust itself to loads and grades without attention from the driver.

Phone Receiver Held to Ear by Bracket; Frees Hands

Free use of both hands is permitted a person using a telephone equipped with a folding steel arm recently invented, that holds the receiver to the ear. Clamped to the stand, it is easily adjusted to any position desired. With a single movement of the arm, the receiver hook is raised to signal the operator. To dis-

connect, the holder is folded back. Its weight is counterbalanced by a slide fitted under the telephone.

A Ski Toboggan

The exhilarating sport of sliding downhill on the snow crust has much to commend it. It also has its dangers, as the crust softens toward spring, and a heavy sled is liable to break through, catapulting its passengers headlong into the frozen snow, which breaks up and presents jagged cutting edges capable of in-

flicting considerable injury. A sled that is so built as to practically eliminate this danger is shown in the drawing.

It is made from a pair of old skis, securely fastened together by means of three crosspieces and two diagonal braces, as shown in the upper details. The top board and foot rail are attached to this framework by means of wood screws, and a hole is drilled through the end of each ski to take a 1/4-in. rope. This sled will slide just as easily and just as far as any other sled, and will not break through the snow crust, or turn over, due to the width of the runners. It is also light in weight and can be easily managed by children.

Cleaning an Oil-Soaked Belt

To clean an oil-soaked belt, coil the belt loosely in a box or tub and fill the box with whiting, being sure to get the whiting between the surfaces for the entire length. Let it remain thus overnight, and the whiting will absorb the oil and leave the belt clean.

IN THE MATTER OF COUNTY FINANCES IN THE HANDS OF MRS. BINA OQUIN

Treasurer of Mills County, Texas.

COMMISSIONERS COURT, Mills County, Texas, in Regular Quarterly Session, August term, 1926.

We, the undersigned, as County Commissioners within and for the said Mills County, and the Hon. L. E. Patterson, County Judge of said Mills County, constituting the entire Commissioners Court of the said County, and each one of us, do hereby certify that on this, the 9th day of August, A. D. 1926, at a regular quarterly term of our said Court, we have compared and examined the quarterly report of Mrs. Bina Oquin, Treasurer of Mills County, Texas, for the quarter beginning on the 1st day of May, A. D. 1926, and ending on the 31st day of July, A. D. 1926, and finding the same correct have caused an order to be entered upon the minutes of the Commissioners' Court of Mills County, stating the approval of said Treasurer's Report by our said Court, which said order recites separately the amount received and paid out of each fund by said County Treasurer since her last report to this Court, and for and during the time covered by her present report, and the balance of each fund remaining in said Treasurer's hands on the said 9th day of August, A. D. 1926, and having ordered the proper credits to be made in the accounts of the said County Treasurer, in accordance with the said order as required by Article 867,

Chapter 1, Title XXV, of the Revised Statutes of Texas, as amended by an Act of the Twenty-fifth Legislature of Texas, at its regular session, approved March 20, 1897.

And we, each of us, further certify that we have actually and fully inspected and counted all the actual cash and assets in hands of the said Treasurer belonging to Mills County at the close of the examination of said Treasurer's Report, on this the 9th day of August, A. D. 1926.

FOR WORKING PEOPLE

The best of workers get out of sorts when the liver fails to act. They feel languid, half-sick, "blue" and discouraged and think they are getting lazy. Neglect of these symptoms might result in a sick spell, therefore the sensible course is to take a dose or two of Herbine. It is just the medicine needed to purify the system and restore the vim and ambition of health. Price 60c. Sold by

**GETTING THE MOST OF ONE'S
INCOME**

The development of spending
the family income to the best
advantage means not only better
household management, but a
margin with which to secure
worth while things, and money for
labor saving devices which help
the homemaker to gain time for
the children, for self improvement,
or for community activities.

This is the underlying thought
in Miscellaneous Circular No 68 M
"Planning Your Family Expendi-
tures," by Chas G. Woodhouse,
of the Bureau of Home Econo-
mics, United States Department of
Agriculture. All business concerns
from manufacturing plants to the
United States Government have
budgets or spending plans, no differ-
ent in principle from the fam-
ily budget.

There is no such thing as a stand-
ard household budget, Mrs.
Woodhouse points out. Each fam-
ily must make its own. The cir-
cular gives a number of helpful
suggestions for doing this. It is
necessary to get the whole family
interested. The probable income
for the year must be estimated.
The next step is to list all the
known needs of the family and
their anticipated cost. This total
must be compared with the esti-
mated income, and if necessary,
pruned until it is evident that all
expenditures can be taken care of
by the money that will be received.

Various ways of recording ex-
penses are described, with particu-
lar attention to the needs of the
farm home. The circular shows
how to group the different classes
of expenditure conveniently and
in sufficient detail, so that it will
be possible later to analyze them.
It concludes with a number of
questions, each suggesting others,
which will be found useful in
reviewing these records at the end
of the year when making a new
spending plan. Copies may be ob-
tained free while the supply lasts

ington, D. C.

**IN MEMORY OF MY LOVED
ONE**

It has been five months since
my dear husband fell asleep to
awake no more in this world, but
it don't seem so long. But I am
longing to meet him. I am so
sad and lonely thinking of my
loved ones up yonder. Wont that
be a happy meeting there to dwell
for evermore with the loved ones
gone before, some sweet day, bye
and bye. Oft our hearts are heav-
y laden and so gloomy seems the
day, 'Tis the Savior, He will guide
us to the land where comes no
night. Oh, I love to think of
heaven, and the joy that I shall
share, when among the ransomed
number, I shall see my loved ones
there. And the Lord shall see in
His own blessed way.

No more on earth will I see my
dear husband. He is gone, while
in grief I bow to God. His loving
voice will never greet me, he's an
angel now. 'T would be so sad
without a hope, we in doubt were
left to grope, but God hath prom-
ised and I know that we will
meet beyond the river.

I was run-down sure enough.

In the ordinary stocking, runs caused by knee strain or garter
claps go down and ruin the stocking. In Rollins Improved
Double Runstop Hosiery, one runstop at the knee is the same
color as the stocking and protects against knee strain.

The other runstop, always red, but out of sight even when
worn with the shortest skirt, is at the hem and stops all garter
runs. It is a red dotted line, which positively identifies Rollins
Improved Double Runstop Hosiery. If you wear round garters
your finger nails cannot cause disaster in pulling tight and roll-
ing the top of the stocking.

"Getting Worried"

LITTLE 4-YEAR-OLD GIRL DROWNS IN THE RIVER

Mary Ruth, the little 4-year-old daughter of Mr. and Mrs. Will Dewey, was drowned in the Colorado river between Goldthwaite and San Saba Wednesday afternoon. The remains were laid to rest in the Big Valley cemetery yesterday morning, Rev. I. A. Dance, pastor of the Baptist church here, conducting the funeral services.

Mr. and Mrs. Dewey and the little girl were visiting Mrs. Dewey's parents, Mr. and Mrs. McCarty. Little Mary Ruth, with several other children, was playing about one hundred yards from the house in a direction directly opposite from the river. She started the house alone and undoubtedly must have lost her way and become terror stricken. The children heard her calling and reported their parents and an immediate search was begun. This was about 10:30 in the morning. At noon the neighbors were notified and later word was sent to Goldthwaite. Several hundred people had responded to the call when the body was found about 5 o'clock in the afternoon in the Colorado river. Tracks showing where she had entered the water were about one hundred yards up the stream from where the body was found lodged on a small willow.

The Eagle joins the friends of the Dewey and McCarty families in offering them the greatest measure of sympathy in this sad hour.

J. C. Evans and J. V. Coekrum are in Marlin for treatment.

FRONT DRAPES DECIDEDLY POPULAR

There are so many graceful ways of draping a frock at the front that this trimming note remains over for another season. An evening dress of white satin is pictured to the left. It is trimmed with handsome lace, and the fronts are gathered just below the waistline and held in place with jeweled buckles. Medium size requires 3 yards 36-inch material, with 4 yards of lace. Floral-patterned chiffon combined with plain radium silk gives a new idea in the combination of fabrics, and is smartly featured in the model to the right. The circular tunic is full enough to make up for the scant effect of the skirt. There is a sash that ties in front, and at the upper edge the blouse is shirred and gathered into the fold that finishes the round neck. Medium size requires 2 1/2 yards 36-inch figured and 1 1/2 yards plain material, with 5 yards of ribbon for the sash. Pictorial Review Printed Pattern No. 2996. Sizes, 14 to 20 years and 34 to 42 bust, 45 cents. Printed Pattern No. 8027. Sizes, 14 to 18 years and 34 to 38 bust, 45 cents.

Mrs. W. A. Favors of Paint Rock came to the bedside of her sister, Mrs. R. F. Johnson, who has been confined to her bed for some time. While talking to her sister, she dismissed her affliction from her mind to tell her about the good people of Goldthwaite, who had been so attentive and thoughtful of her in so many ways and how they came and had prayer and sang beautiful songs, and read the Bible to her. It seems they wanted her to get well so much and as they passed by hurriedly they would wave their hands to her as

if Today we want you to get well. She said that all the kind physician and friends could do to help her recover was being done and how she longed to get well to be able to do something for them.

Mr. and Mrs. F. P. Bowman left this morning for Portales, N. M. and other western points to spend about ten days visiting relatives and friends.

CALLED HOME

(Mullin Enterprise)
Mrs. A. B. McAuley, mother of Mrs. R. H. Patterson, passed quietly away at the home of her daughter, Mrs. J. B. Barnett, near Holly Springs, Miss., on August 1.

She had been a sufferer since last January, when she was first confined to her bed. The end came quietly and without apparent suffering. Her husband, F. McAuley preceded her by seventeen years and one day.

Mrs. McAuley was one of the strong Christian characters which we all admire, having been a member of the Methodist church for many years. Among her last words, to be held sacred in the memory of her children was her praise of her Lord.

I have met many Christian characters in my passing, but none sweeter and purer than Mother McAuley.

She leaves six children, who mourn her loss, all citizens of Marshall county, Miss., except the Editor's wife.

Mrs. Patterson reached her mother one day before death called her to her reward.

HOUSES MOVED OVER RIVER MOUNTED ON BARGES
In making room for a new state capitol, 12 houses were moved across the Kanawha River at Charleston, West Virginia. Faced with the alternative of wrecking their homes and rebuilding somewhere else, or of transporting them to sites on the opposite side of the river, the owners chose the latter. Lashed securely to heavy timber frames, 40 feet high, to avoid the necessity of lifting them up an embankment, the dwellings, some of which were large, two-story structures, were safely carried on great barges and finally set down on their new locations.

Sow Hawaiian Fig Grove From Airplanes

Sowing seeds is one of the latest services that United States army fliers have been asked to perform. When the Department of Agriculture recently wished to plant a number of barren areas in Hawaii with fig trees, it was found the project would require months of hard work in places that were almost inaccessible. Two planes with four airmen were assigned the task and planted the grounds in less than three hours.

Find Rare U. S. Stamp in Italy

One of the rarest of early United States stamps recently was discovered in Italy where it has been hidden or more than 75 years. It is valued at \$7,500. Made in Baltimore in 1815, when James M. Buchanan was postmaster, it preceded government issues of 5 and 10-cent stamps. So far as known, there are only six specimens of this issue in existence, and at a Paris sale last year one of these stamps was bought for \$6,000 by an American. The stamp found in Italy is said to be distinguished from all other known copies because it shows all of the four outside border lines.

Lubricating Tight Windows

A better method than planing down the guide strips to make tight-fitting windows open and close easily, is to use a suitable lubricant on the guides. An excellent solution for the purpose is a mixture of paraffin and turpentine. Dissolve as much paraffin in turpentine as possible, by shaving the paraffin and allowing the mixture to stand for a few days. Apply the solution liberally to the window guides with a brush, going over them two or three times. The turpentine will evaporate and leave a colorless film of paraffin on the guides. After this treatment the windows will slide freely, regardless of weather conditions.

A kerosene heater of the common type can readily be converted into a serviceable gas heater. Remove the oil receptacle and wick, and fasten a circular stove gas burner in position with wire. The gas burner can be purchased at small cost, and furnishes considerable heat.

Some New Chevrolet Features.

Showing New Cross Member on "Smoothest Chevrolet"—strengthening motor support at transmission and adding to smoothness of operation; also new centralized gas and spark controls, with horn button, on steering column.

New features and mechanical refinements adding still further ease of operation and driving comfort, and striking new Duco colors characterize the "Smoothest Chevrolet" just announced.

A motor even more remarkable for smoothness of operation and new colors that reflect the latest and most harmonious blending of smart lines and artistic lines are revealed in this car. The new features are announced in the middle of the greatest sales year in Chevrolet history.

Among the most important new features included are the following: A new cross member, strengthening the motor support at the transmission housing, thus still further reducing vibration and at the same time adding greater ruggedness to frame and chassis; a re-designed cam shaft with cams scientifically rounded to eliminate noise; gas and spark controls mounted with horn button on top of steering wheel, affording not only easier control in driving but also giving a more artistic appearance; an improved universal joint with trunnions operating in separate bearings to give longer wear and to afford easier access; a new battery and battery support and a more sturdy tie-rod between the front fenders which permits a more rigid support of the headlights and their better focusing.

A notable feature is the ingenious stop-light switch which has no wire attached to the brake pedal and no pull back spring on the switch, thereby eliminating a

frequent source of annoyance of failures to function properly. The new switch is of non-arcing, lever type and is operated by the brake rod.

The new battery is equipped with a solid rubber case and has the handles built in as part of the case, thus eliminating metal handles which are subject to corrosion. The new type carrier holds the battery in such a way as to eliminate any strain on the battery case and the consequent liability of breakage.

New, brilliant and striking combinations of colors in Duco appear on all the models. The Sedan is finished in Algerian blue, the Coach in Thebes gray; the Landau in Alpine green; the Coupe in Dundee gray, while all the open models are finished in Biscay green.

All models have a rear view mirror and there is a handy pocket in right front door of closed cars as standard equipment. The landau, sedan and coupe are equipped with disc wheels. Balloon tires are standard equipment on all closed models. The wood wheels on the coach, touring and roadster are now finished in Duco.

Mrs. Robert Weaver of Waco came in last Saturday and spent the week-end with her parents, Mr. and Mrs. W. M. Johnston.

McFARLAND MARTIN

(Mullin Enterprise)

The following was taken from a Cisco paper and will be of interest to Mullin people as Mrs. Martin is the daughter of Mr. and Mrs. W. H. McFarland here.

Miss Kathryn McFarland and Sidney Martin were united in marriage Saturday evening at the Methodist church at Thurber, Texas, Rev. Griffin officiating with the ring ceremony. The only attendant was Miss Neill McFarland, a sister of the bride. Mrs. Martin is a daughter of Mr. and Mrs. W. H. McFarland of Mullin, Texas. She is a graduate nurse of the Scott & White Sanitarium at Temple, Texas, and for the past three and one half years has been superintendent of the Graham sanitarium. She is better known locally as Miss "Mac" and has acquired many friends both socially and professionally. Mr. Martin is an employee of the Humble Oil company. He was formerly a resident of Cisco, but for the past few months has been located at Albany, Texas.

AUTHORIZED SALES AND SERVICE

The Ford Motor Company have recently changed their closed body finish from a varnish paint job to Pyroxylin paint. This paint withstands the elements, and is not affected by alkalis or acids, and will not mar as easily as the old style varnish finish.

For the above reasons, we are positive that our customers will find this new finish to be much more satisfactory from a service standpoint.

Fordor Sedans are being finished in a Mole-skin Gray color with Champaigne striping, while the Tudor Sedans and Coupes are a Drake Green with Emerald Green striping.
