**FINE RAINS ASSURE  
BETTER GRASS AND  
COTTON PROSPECTS**

During the last week rains over the country have helped the cotton situation greatly. Beginning last Friday and raining intermittently during Saturday, Sunday and Monday, the rains fell slowly and were absorbed to a great extent. While plenty of rain was had in most sections of the county and this portion of the state, sections got very light showers. All in all, grass has benefitted greatly and cotton and corn is looking fine.

**JUDGE GRISHAM ANNOUNCES FOR CONGRESS**

Judge R. N. Grisham of Eastland, one of the most widely known members of the bar of West Texas, is in the race for Congress.

He has been engaged in the practice of law in Eastland for the past 10 years.

He was district attorney at Sweetwater the district consisting of 15 counties; and was county judge of Kent county. Judge Grisham has been a member of the bar for 26 years, and before practicing law, he was a school teacher. He is 54 years of age and—as he moved to this state when he was only 2 years old—he is virtually a lifelong resident of Texas.

His platform, without seeking to paramount any on issue or appeal to any one class of citizens but rather to all, is a clear, compact statement of his position on the chief national questions.

"Congress alone has power under the constitution to declare war and, when others participate on our country a condition of war, it should be made should be amended and the statutory grounds for removal from office or for immediate impeachment, even though it applies to the President of the United States," he declares.

"The United States has no right under any constitution or law to interfere or intermeddle with the domestic affairs of the Latin-American republics and European wars should be observed. Strict neutrality in Asiatic and European wars should be observed.

"The Sherman anti-trust law enforced against it confined to combinations to reduce the prices of wheat, cotton, oil and other commercial commodities and such an offense should be penalized without immunity.

**His Broad Platform**

"The United States will never be redeemed by laws but, with better education, there may be created a better environment, a spiritual atmosphere, and an ideal attained; and as the world grows better, there will be less need of law. If elected, I can, in good conscience, take the oath to support the constitution and every amendment as well as to support every law enacted in the aid of the constitution, being willing to weaken none but—where it is necessary—to strengthen them all.

"To the voters who, eight years ago, gave me their vote

and support, I am profoundly grateful."

Some of the principles advocated by Judge Grisham include: More treaties of commerce to aid the markets for America's natural products and the application of the principle of reciprocity in international trade; proper consideration to the disabled soldier; restricted immigration; in the time of peace, the reduction of the army and navy to a minimum, and the consideration of the flood and water control problem as a national question.

His statement includes: "A public officer is a public servant. The position I seek is one of responsibility and requires much hard work. If I am elected, it will be my purpose to serve every part of the district impartially and faithfully, as I would serve a client with a just cause. I will give attention to laws promoting public health, public education, reclamation, agriculture, transportation, farm relief, federal reserve bank system reform to better accommodate the needs of the farmer and stockraisers, proper poisoning, and the common welfare of everyone for legitimate aid."

The 17th Congressional District is composed of Brown, Burnett, Callahan, Coleman, Comanche, Concho, Eastland, Jones, Lampasas, Llano, McCullough, Mills, Nolan, Palo Pinto, Runnels, San Saba, Shackelford, Stephens and Taylor counties.

**MRS. MINNIE FISHER CUNNINGHAM**  
of Texas  
Candidate for U. S. Senate

**MRS. MINNIE FISHER CUNNINGHAM PRESENTS PLATFORM**

Mrs. Minnie Fisher Cunningham, candidate for the Democratic nomination for United States Senator, has based her platform of the following issues:

She is for Prohibition and strict law enforcement.

She is opposed to secrecy in governmental affairs whether it originates in the Ku Klux Klan or executive sessions of the United States Senate.

She is for a revision downward of the tariff.

She is for Farm Relief and believes that there are many ways to secure it if really sincere effort is brought to bear on the problem. For instance, much can be done for farm relief through Tariff adjustment, through increased and improved transportation facilities, through extending a service to every farmer in ways the city man is now served as a matter of course.

She is for a reduction in taxes and believes that the tax ex-

perts of the United States Chamber of Commerce have assembled facts which Congress and the President would do well to consider.

She is for an adequate flood control program based on scientific engineering principles applied to the problem.

She is for a water power program framed with an eye single to development of these great natural resources for the public good.

She is for a foreign relations policy which will have in mind the whole citizenship of the United States and their genuinely friendly feeling toward the peoples of the world.

She is for a revision of the treatment we are accorded the Central and South American countries.

She is for full co-operation with the League of Nations as the most workable machinery yet devised through which nations may co-operate and adjust their differences and preserve the peace of the world.

She is for the use of the tremendous power of the United States to insure world peace.

**KGKB USING ONLY  
A PART OF POWER**

On account of a "blow-up" at the last minute in a portion of the equipment of the Goldthwaite Eagle's radiophone broadcasting station KGKB only a small portion of the power has been used to date. Within the next few days the necessary parts should arrive and then KGKB will use full power. Saturday should see everything adjusted, so get ready for a real live program Saturday night from 8:30 to 3 o'clock in the morning. Sunday at the eleven o'clock hour the services at the First Baptist Church will be broadcast. At three o'clock in the afternoon KGKB will be on the air again for a couple of hours and again at 8:30 Sunday night. In the meantime this station will be on the air each morning from 11:30 to 1:00 o'clock and in the evening from 8:30 to 11:00.

Efforts are being made to broadcast the lectures from the Methodist church every evening during next week. No definite announcement can be made, concerning this however.

While no programs have yet been made far enough in advance to announce them through the columns of the Eagle, real snappy home talent and phonograph music will be furnished by Gus Obenhaus announcer for KGKB, and the artists throughout the country are urged to get in touch with Mr. Obenhaus or the Eagle and help entertain the growing crowd of listeners to KGKB.

**Radio Expert Will Stay  
With KGKB**

Mr. Melvin Boatman, radio expert and broadcast expert, who is building KGKB, will remain and operate this station. Mr. Boatman will do general radio repairing and build custom-made sets to order. He positively guarantees his work and is a moderate priced, capable radio technician. Of course Mr. Boatman will not remain at Goldthwaite if he does not get sufficient work, so the Eagle asks its friends to turn as much work his way as they possibly can. There is no one engaged in this line of work at Goldthwaite now, so the Eagle is asking this slight favor of the radio public. Mr. Boatman will possibly add a new line of radio accessories in the near future, but any way he can give you prompt service on radio repairing.

As soon as KGKB has begun operating on full power a test of the different crystal sets on the market will be made by Mr. Boatman and he will recommend the best set for receiving this station.

Folks throughout the county and in adjoining counties are urged to phone the Eagle when they are enjoying a program, telling how it is coming in and requesting any special numbers they want played. The artists in the studio will greatly appreciate these calls and will work all the harder for them.

And when you are in town, call around and see station KGKB. During the past week

He intends to extend these lectures through next week. The public is cordially invited to hear him.

SPEED RECORDS MADE WITH ETHYL GASOLINE

The distinction of contributing to several of the best known speed records goes to Ethyl Gasoline. General Motors Research Laboratories developed this fuel and General Motors is now affiliated with the company marketing it.

Driving along Daytona Beach at 207.9 miles an hour Captain Malcolm Campbell set a new world's speed record for automobiles. About the same time, Frank Lockhart and J. M. White made unofficial records.

Previously Major Seagrave had set the record at 203.7 miles an hour.

Each of these men rode with Ethyl.

Your car's performance will be increased by the use of Ethyl Gasoline. You will get more power to negotiate tough hills and heavy roads; you will have greater flexibility, greater pick-up, less gear shifting, reduce vibration.

Try Conoco Ethyl on your next fill and enjoy the difference.

**HUDSON BROS. FEATURE  
SPECIAL FISHING  
TACKLE DISPLAY**

Anglers, with fishing fever already coursing in their veins will find their feet irresistibly turning this week toward Hudson Brothers. The occasion is a special display of Fine Fishing Tackle items advertised as "Shakespeare Week." This is a sort of at-home week for anglers, who are cordially invited to walk around an reminiscence to their heart's content.

There's something in the air these days that makes the invitation to browse among fishing tackle particularly appealing. It's the urge to hark back to the customs of our fathers, to lead a healthier, simpler existence. The mere mention of fishing tackle sends our thoughts surrurying away—oh, yes, you feel it too! Somewhere there is a curling riffle on a well loved stream hiding the trout that got away last year; somewhere the water is gently lapping against a shore that you know so well, calling, calling for you to come and head. And you take down your tackle and looking it over, and dream of day that were and days that are to be.

Hudson Brothers well know that you need a new tackle. Every man does. And there is that outfit you have been planning for the boy. They have it all there at Hudson Brothers, artfully displayed along with a bewildering array of other tackle. Insidious, the way these tackle dealers and manufaturers conspire to lead a man away from such necessary but uninteresting spring jobs and mending broken fences, re-fishing furniture, and tending the garden! But we needn't be ashamed of our interest in fishing. Fishing has been sponsored by leading Washington officials and a whole host of notables besides. It has also been a favorite pastime of many

eminent divines including, in our time, the well loved Henry Van Dyke. These gentlemen allow nothing, if possible, to interfere with fishing!

It is told of Stoddart, the great poet of angling, that once when he visited a friend he was asked what his profession might be. His answer is characteristic of the prevailing spirit of the brotherhood. "Man said the fisherman, "Man, I'm an angler!"

So you needn't apologize if you do take time off this week to go see Hudson Brother's up youfishing tackle display, and if you weaken still further and pick up your tackle and go a-fishing."

**AMERICA'S DRESSIEST  
SUMMER SUIT**

The man who seeks summer weight comfort — cool and free fitting — combined with spring suit smartness can do no better than get inside of one of these "Harmo-Trim" suits.

What makes a "Harmo-Trim" more distinguished looking than ordinary summer suits? What gives it that fresh look even after sweltering heat or after numerous cleanings? Here is the answer:

To begin with, the finest quality, summer weight suitings are selected and multi-shrunk to preserve their appearance. Then they receive ever-so-bit of tailoring that is lavished on the best spring weight Marlborough Modes.

As a final touch of smartness, the silk sleeve linings and facings are matched to harmonize with the color scheme of the suit.

To those of our customers who want the best in summer weights, we unhesitatingly recommend the "Harmo-Trim."

**J. J. COCKRELL MARRIED**

Through an oversight the Eagle failed to announce the marriage of our friend J. J. Cockrell to Mrs. Pattie Smith on the 18th of May. The marriage was solemnized at Sherman Texas, the brides former home. The happy couple are now living at Mr. Cockrell's fine truck farm—the Riverside Fruit Farm—at Big Valley.

Mr. Cockrell is one of Mills County's most prosperous and respected citizens. Moving to this county a few years ago, Mr. Cockrell bought his farm on the Colorado river and in a few years converted it from "just another farm" to a paradise of growing fruit. Incidentally he has made a marked financial success of the business.

Mrs. Cockrell was a stranger to Goldthwaite folk, but a life long friend of Mr. Cock-

rell. She is a school teacher and a trained nurse.

The Eagle joins the many friends here and at Sherman in offering them congratulations and best wishes.

Miss McDonald Howard, niece of Mrs. Cockrell, will make her home hereafter in the J. J. Cockrell home at Big Valley.

Miss Norma Lee Frizzell spent Monday in Brownwood.

Mr. and Mrs. Rex Clements of Santa Anna, are visiting in the home of his parents here.
