Boy Scouts Arranging Good Program For Monday Night

BOY SCOUT MEETING

A Boy Scout meeting is to be held at the Methodist tabernacle Monday night at 8:00 o'clock. District manager, Jack Bronburg will have charge of the meeting at which time he will put on the Court of Honor program. We urge every Scout to be present and on time.

Everybody is invited to be present at this meeting—no charge.

We want the people of Goldthwaite and Mills county to attend this meeting and show the scoutmasters of our troops that you appreciate what they are doing for the boys of your community. Will say in passing that scoutmasters Marsh Johnson, Claud Dickerson and Weaver Leigh are giving more of their time to the scout work than the average man gives to his business.

Show these leaders that you appreciate what they are doing by your presence Monday night at 8:00 o'clock at the Methodist tabernacle.

GOATS PROFITABLE

Down in Mills county the little town of Goldthwaite has just reaped a harvest of \$300,000 from the mohair crop in that section. It is another example of profits on lands unsuited to the growth of any kind of crops. The goat is king in several of our Texas counties. He is about the hardiest animal known; he can make his living among the rocks, is not subject to disease, and invariably brings his keeper a rich reward. — Denison Herald.

The Herald is right about everything but the "little town." Just where Editor Ellis got the idea that Goldthwaite was a "little" town is hard to imagine. He lives a long way off, however, and possibly has never had the pleasure and privilege of visiting this wonderful country and beautiful town. The figures on the mohair and wool are somewhat low, but even that amount shows that the farmers and ranchers are conducting a profitable "side line" with their sheep and goats.

EXCHANGING WORK

Rev. Gordon Barrett, pastor of the First Baptist church at Comanche, is to preach the baccalaureate sermon for the graduating class of the Goldthwaite High School Sunday, at the Methodist tabernacle. Rev. G. C. Ivins, pastor of the Baptist church of this city, will fill the pulpit in the Baptist church in Comanche Sunday. He is recommended to the people of our neighbor city as a good preacher and a sincere, consecrated man, worthy of the high esteem in which he is held in Goldthwaite by the entire citizenship, regardless of denominational affiliations.

TEXAS LEADS IN SHEEP

The Texas sheep industry has had six successive good years and can be said to be in a flourishing condition. This industry, like that of Angora goat raising, is concentrated in a very few west central Texas counties, ideally adapted to sheep and goat production and having no superior. Texas is the leading sheep raising state in the union.

SOME PLEASANT SOCIAL EVENTS IN THE CITY

MUSIC PUPILS RECITAL

The pupils of Mrs. Fred Martin's class will appear in piano recital at the Baptist church on Wednesday of next week at 8:15 o'clock. Everyone has a cordial invitation to be present.

MORNING BRIDGE PARTY

On Friday morning of last week Mrs. L. E. Miller entertained at her home on Fisher Street with a very attractive Bridge party, the guests assembling at about nine o'clock. Roses and hydrangeas were used to give a festive appearance to the reception rooms for this occasion.

Mrs. E. T. Fairman received a beautiful flower basket for high score. At the close of the games a most delectable luncheon plate was served. A GUEST.

A DOUBLE RECITAL

The pupils of Mrs. John Berry's music class gave a recital in the Methodist church yesterday afternoon and the program was well arranged and the pupils acquitted themselves creditably.

This afternoon others of the class will be engaged in a second recital at the same place as the first one. This program is in the main for the older pupils, but a few of the younger will be used. Of course this second recital will be equal to the first, for those taking part have had the advantage of instruction by Mrs. Berry.

SENIOR PLAY

The Goldthwaite High School senior play was presented at the opera house last Thursday night to a crowded house. The play was well up to standard so long ago established by the graduating classes here and the good work of these young people and their teachers is appreciated by the people of this city and the patrons of the school. The cast for this play the characters were so well chosen that many complimentary remarks were heard relative to those responsible for the assignments and every one carried out their part of the program just right. It was excellent from beginning to end and the door receipts were decidedly satisfactory to the class.

SELF CULTURE CLUB

Members of the Self Culture Club enjoyed two meetings in one on Thursday of last week at their club room in the court house. Mrs. W. K. Marshall presided over the first meeting, while Mrs. J. H. Randolph was leader for the last.

The first meeting marked the close of a very successful year under the able leadership of Mrs. J. A. Hester. The membership has every reason to be proud of the achievements of the club during the year.

Mrs. J. C. Evans, our new president, took the chair at the last meeting and gave us inspiration to again make an effort to live up to Self Culture Club standards. Mrs. Marvin Rudd was elected to fill the place of Mrs. Dow Hudson as corresponding secretary.

Worthwhile programs were enjoyed at both meetings. REPORTER.

ON THE AIR

The Corpus Christi radio station KGFL was formally opened last Friday and the Corpus Christi Times issued a special edition in honor of the installation of the station in that city. The paper gives a write-up of those taking part in the opening ceremonies, but they are all strangers to Mills county folk except the owners of the station, the Wilson family. The outlook for the business is delightful to the owners and they expect the station to continue to grow and become even more interesting and important.

In its elaborate description of the plant and program the Times says in part:

Dr. E. M. Wilson, president of the Eagle Broadcasting company, which installed the station here, arrived this morning to attend the opening ceremonies. He probably will remain in Corpus Christi to be in active charge of the local studio. Dr. Wilson was accompanied by his daughter, Miss Adiel Wilson, studio pianist, who also will remain here to aid in operation of the studio.

Ernest E. Wilson was in charge of installation. The installation and equipment cost in the neighborhood of \$18,000. E. E. Wilson, general manager of the Eagle Broadcasting company, has been here during the installation, and will spend a considerable part of his time in Corpus Christi after the station is opened.

F. R. Wilson, the new radio announcer for the radio broadcasting station KGFL, in the basement of the Plaza hotel, is well known over the country as an accomplished musician and dramatic artist as well as a radio announcer.

Mr. Wilson came here from Brownwood, Texas, where he was a very popular announcer and entertainer for the Eagle Broadcasting station KGKL. Before he left Brownwood to come to Corpus Christi he received many telephone calls and letters of appreciation from enthusiastic radio fans, who had listened to him.

The new announcer has been engaged with many chautauqua and lyceum movements in the United States since 1915, as an entertainer and dramatic artist. He plays several stringed and brass instruments masterfully and has directed many successful plays.

He has been engaged in the radio announcing business since 1923 when radios were still more or less of a curiosity, and still in the experimental stage. At that time he was business manager for a Dallas exhibition radio company and touring the country announcing and playing over the new toy which was soon to take the world by storm.

The Wilson family is a musical family for Mr. Wilson's two sisters Maadia and Adiel are also accomplished musicians and singers. They will do piano and harmony singing over The Times Radio accompanied by Mr. Wilson on a stringed or brass instrument as the occasion may dictate.

FERRELL-MOORE

J. J. Farrell and Miss Mamie Moore, both of San Saba, were married at the Baptist parsonage in this city Sunday night. Rev. G. C. Ivins officiating. They were accompanied by a sister of Mr. Ferrell.

CREDITABLE CAFES

Goldthwaite has a right to feel a pride in the cafes in this city, not alone because of the excellent service and delightful menus offered, but because of the arrangement of the places and their furnishings.

The Royal Cafe, owner by Foster Brim, has just been re-furnished and re-arranged, making of it a most attractive place. The furniture is white and the entire interior shows good taste and care, as well as evidencing the outlay of a considerable sum of money. The cold drinks fountain and counter now occupy a place just inside the entrance, while the dining room has been enlarged and re-arranged and the lunch counter is convenient for the service and the patrons.

Bill's Cafe, owned by W. A. Richards, has been re-furnished and presents an appearance in keeping with Mr. Richards' well known ability for making his place attractive as well as giving the best service possible. The uniform designs of the furniture and fixtures gives the place a real city appearance and the entire surroundings are conducive to an appetite. Mr. Richards has gone to quite an expense in arranging and furnishing his cafe and the results fully justify the outlay.

Eddie's Cafe, on Fisher street, is another attractive and well appointed eating place. Mr. and Mrs. Eddie Muller operate this cafe and have recently arranged tables for ladies, together with a neat and attractive lunch counter. They are experienced in the cafe business and their patronage is drawn from the town and country.

As stated in the outset, Goldthwaite has a right to feel a pride in the cafes in this city. There are no second rate places here, but they are all nicely arranged and well kept places and operated by excellent people who take a pride in their business and in maintaining a good reputation for the town as a place where good meals and short orders of the highest quality can be obtained.

FINAL APPORTIONMENT PAYMENT

The school folk, especially the teachers, are interested in Supt. Marrs' announcement that the final payment of \$2.00 on the per capita school apportionment for 1928-29 will be made May 10. This will complete the distribution of \$15.00 per capita to 1,403,293 children or a total of \$21,049,395.

"To this should be added approximately \$2,000,000 for rural aid and high school tuition and \$1,017,067 for textbooks, or a grand total of \$24,067,062 which the state will have contributed during this fiscal year to elementary and secondary education," Mr. Marrs said.

SUIT AGAINST BRIDGE COMPANY

Suit against the Red River Bridge Company of Texas and J. R. Handy, receiver, to forfeit and cancel its charter and seeking penalties of \$300 daily since January 1, 1914 has been filed in Travis county district court by the state.

The suit asks for appointment of a receiver to "wind up and liquidate" the company's affairs. The penalties sought are for tolls collected by the company.

The state claims a franchise was never given the company to operate a toll bridge and it is "usurping, intruding into, and unlawfully holding and exercising said franchise without any authority in law, and are exercising such powers not conferred by law, from which they ought to be ousted."

The suit, it was said, does not have any relation to the case pending in district court at Sherman seeking to declare the company's bridge over the Red River at Denison a nuisance and asking its abatement.

DAMAGE FROM STORM

Wednesday afternoon Goldthwaite experienced one of the worst sand storms in its history. A stranger would have imagined himself on the plains, had he suddenly been put down in this city. This was one of the most disagreeable of the half dozen sand storms the town has experienced in its history.

There was considerable damage in the western part of the county from this sand storm and some farmers say they will have to replant cotton, part of which was covered by the sand and part of it blown up by the terrific wind. This is indeed unusual for this country and is, the Eagle believes, the first damage by a sand storm in the history of the county.

The hail Tuesday afternoon is reported to have damaged crops and fruit trees considerably west of the bayou, but this loss will not likely be as great as that caused by the sand storm.

ELECTING TEACHERS

Goldthwaite school board several weeks ago re-elected Superintendent Newton and all of the teachers in the High School except one who did not apply again, but so far Mrs. Joe A. Palmer, principal of the Grammar School, is the only one of that department elected. No date has been set for the election of teachers in the grammar school, but it is generally understood that most of the teachers, if not all of them, will be re-elected. The absence of Dr. Em. Wilson, president of the board, is probably one cause for the delay in electing teachers.

FARM RELIEF

By W. P. Weaver

The Mills County Dairy Association held a meeting April 23rd and adopted a Constitution and By-laws, J. L. Cortis, R. F. McDermott, S. T. Weathers and O. D. Couch, W. J. Morris were elected directors for one year. Orders for a car load of feed were pooled and the feed is now being unloaded. A move for a carload of cows and a complete bull circle was started.

We are informed that another vat will be installed at once to enable the Cheese factory to handle the increasing supply of milk.

The Association's committee appointed to secure more milk routes has important work before them as other routes would greatly increase the supply of milk for the milk factory.

Swat the Rooster

It is so well known that after the hatching season, the rooster is a menace to egg profits. Fertile eggs cost producers thousands of dollars every year. Swat the Rooster now.

Swat Poultry Worms

That preventative is worth more than cures is as true in the poultry business as in anything else. This applies particularly to worms. Worms hinder maturity of chicks and turkeys. Why not prevent infestation of the worms so early maturity can be reached for early marketing.

Call on the county agent for help. Swat the worms, lice, mites and blue bugs.

MARRIAGE LICENSE

County Clerk Porter has not been doing a rushing business lately in the marriage license department and most of those securing license live outside the county. On April 19 he issued license to J. B. Middleton and Miss Willie Mae Magness, of Energy, Comanche county. On April 27 he issued license to J. J. Ferrell and Miss Mamie Moore of San Saba. This week he issued a license to Buck Sanders of Mullin and Miss Mory Pelham of east Texas. Mr. Sanders left for the home of the prospective bride and after the wedding he will make his home here, by which arrangement Mills county loses a good citizen and makes no gain at all.

HOW TO KILL A CIVIC CLUB

Don't come to the meeting.

But if you do come, come late.

If the weather doesn't suit you, don't think of coming.

If you attend a meeting, find fault with the work of the officers and other members.

Never accept an office—it is easier to criticize than to do things.

Get sore, if you are not appointed on a committee; but if you are, do not attend committee meetings.

If asked by the chairman to give your opinion regarding an important matter, tell him you have nothing to say. After the meeting tell everyone how things ought to be done.

Do nothing more than is absolutely necessary; but when other members roll up their sleeves and willingly, unselfishly use their ability to help matters along, how that the association is run by a clique.

Hold back your dues as long as possible or don't pay at all.

CLUE CONVENTION

The fourteenth annual convention of Women's Federation Clubs of the sixth Texas district has been in session in Brownwood this week. A number of club ladies of Goldthwaite have attended the sessions, some as delegates, some as visitors. Among the Goldthwaite visitors were Mesdames Walter Fairman, Roy Swintree, J. H. Saylor, F. P. Swann and Miss Norma Frizell.

PAVING DISCUSSED

Mr. Winder of Austin and Mr. Neal of Dallas, paving contractors cooperating in the work, spent some time here the first of the week, looking over the streets and making estimates of the cost of paving. They were pleased with the street grading and the foundation already prepared and expressed the opinion that paving could be done here at much less cost than would be required where the foundation is not so good and the natural drainage could not take care of the overflow from the rainfall. The gentlemen went over the matter in detail with Judge E. Patterson, Mayor H. G. Dittin and W. C. Dew, president of the Chamber of Commerce, O. H. Yarborough, president of the Retail Merchants association, as well as a number of the members of the city council and other leading citizens. They were much pleased with the reception and arrangement they met and will be heard from again in no far distant day. These gentlemen are well acquainted in every class of paving and had long experience in the work. They are highly recommended by those for whom they have done this line.

FIFTEEN TIMES ITS WEIGHT IN MILK

Carnation Walker Hazel wood, a 2,000 pound Holstein cow on the Carnation Milk Company's farm in the State of Washington, recently finished a 365 day test which shows a production of nearly 15 tons of milk which contained 1,193.85 pounds of butter fat. This butter fat was equivalent to 1,498.56 pounds of butter. This Holstein cow, in pounds of milk production, is equal to seven average cows in the United States and equal to ten average Texas cows.

While the cows in the 3,000 pound class are few and far between, the development of such a milk producer is encouraging to those interested in the dairy industry, for it is evident that by right breeding and proper feeding we can increase production without increasing the number of animals. Here in the Southwest we are laying the foundation for a large increase in average production per cow. If the heifer calves out of some fine bulls which have been brought into the Southwest are properly cared for it will not be long before we will have at least an average production equal to that of the entire country. Farm and Ranch.

THE BIG ONES ON TOP

Years ago, when apples were bought by the barrel, it was said that the big ones were always found on top. A Missouri farmer explained it in this fashion. "As a boy I used to haul apples to the cider mill. We put the large and small fruit into the barrels in a promiscuous manner, but by the time I drove over, several miles of rough road I found that the small apples had worked their way to the bottom of the barrel and this left the big ones on top."

To further illustrate this point, we once heard of a lecturer who placed a glass full of beans and walnuts on the desk in front of him. The beans and walnuts were thoroughly mixed, but by the time he reached a certain place in his lecture, he called attention to the fact that the beans were on the bottom and the walnuts on top.

No matter where you go, one always finds the big ones on top. This applies to the professions, to industry, and to agriculture. It is true that there are exceptions, but the rule holds good. The little fellow on the bottom who is calling for help will remain there unless he saves his breath and by his own efforts becomes big enough to work his way to the top. In this, a man has an advantage over the beans in the jar with the walnuts. Some, however, will always play the part of the little apples and the beans—Exchange.

PRODUCTION AND MARKETING

Farm production may be said to be the business of creating or "getting possession" of farm products, while marketing is the business of "getting rid" of these products to the best advantage. Although quite different in their final purpose these two big jobs in farming—production and marketing—cannot be entirely separated, for each depends upon the other in a large measure.

The marketing of a farm product really begins at the time the production starts, for the kind and quality of product, as determined by its production, is a major consideration affecting the demand and hence its market value. To illustrate, take the producer of potatoes, or fruit, or edible cereals. His marketing job starts at the time he determines the acreage and with the selection of seed, preparation of seed bed, and soil treatment. If his product is inferior or of different quality and of poor keeping condition the field of his market is certain to be restricted. But on the other hand, if he provides the right condition of seed, seed bed and plant food, and protects his crop from damage by insects and disease he will find a much broader demand and a correspondingly longer price when he takes his product to market.

INCREASING FACILITIES

The facilities for handling cream and milk and making cheese have been considerably increased to take care of the growing business of the Mills County cheese factory. Many farmers and other householders have come to realize that this institution is one of the most helpful in the county and the list of those supplying milk is constantly increasing. The management pays out \$12,000 per month for the milk consumed and the time is not far distant when double that amount will be used. Many farmers are able to pay their entire expenses from the sale of cream and milk and have the revenues from their farms entirely clear. It will not take long, under the existing circumstances, to get all of those co-operating with the cheese factory in excellent circumstances and independent of financial burdens. The cheese factory is one of the most helpful enterprises in Mills county.

WHAT DID IT

What keeps one well when he is well? Think. With it you have health, without it you have disease. Chiropractic supplies that which is lacking. There'll be no regrets.

BAPTIST CHURCH

The pastor will be out of town Sunday morning, but will be back for the Sunday evening service. Let Sunday night service be the starting service for our annual revival. To do so means that every member be present.

Sunday, May 12, is Mother's Day. We are planning for the greatest day of the year in honor of our mothers, whether or not they are with us. Committees have been appointed to see that everything will be in readiness to observe such a day at our church. The choir will sing several special songs, while Mr. and Mrs. Gary, who are going to be with us in our coming revival, will sing. The pastor will speak of the day and what the White Carnation stands for.

We want to extend a special invitation to the people of the rural districts to worship with us on that day. Just a few days ago 3,500 persons passed thru the Fairman Hardware Store. I wonder how many of these same people will attend church on Mother's Day. I do not blame a man for advertising his business and making his place so attractive that it will draw people. All successful business men advertise. That is one reason for their success.

We are trying to make our church one of the most attractive places in this town. We are trying to make it one of the most helpful places in town. We want our church to be a place of good fellowship. We want our church to be a place where every one can come and feel perfectly easy and free to enjoy our services. We want our church to be a place where men will be drawn close to God, and here they will feel the presence of God. God forbid that our church should glory in anyone except the Lord, our Savior. This pastor wants people to come to our church that they might be blessed and be a blessing.

Every one hear the Baccalaureate sermon next Sunday morning at the Methodist tabernacle by Rev. Gordon Barrett of Comanche, Texas, and worship in your respective places on Sunday night.

THE HAWKINS' MEETING

For the last eight days Rev. W. E. Hawkins has preached at Star. Large crowds attended most of the services. The services were conducted in the Methodist church until last Friday, when the crowds were too large for the house and they moved to the union tabernacle. Several backsliders were reclaimed, and a number of professions of faith were made.

There will be preaching next Sunday at the Methodist church at 11 a. m. and at night. Let those wishing to unite with the church see me before these services.

PAINS In Side and Back

"I HAD BEEN miserable for a long time. My health was poor, and I suffered a lot from weakness. At times, my strength was so little that I could not stand on my feet. I would have to give up and go to bed. My sides and back hurt dreadfully.

"I grew discouraged, for I could do so little. I worried about myself, and almost gave up hope of ever being strong and well. I could scarcely lift a bucket of water. My housework went undone, for I was not strong enough to do it.

"After I had taken Cardui for a little while, I began to feel better. I grew stronger, soon found that I could do my work with less effort, and the pains in my back and sides left me. I think Cardui is a wonderful medicine. My health has been excellent since then."—Mrs. D. L. Beckner, W. Main St., Salem, Va.

SUMMER SCHOOL

For the past several years the Goldthwaite school management has conducted a summer school. This school has been a great success in benefiting many pupils in the town and surrounding communities. Summer school will run again this summer. We want, at least, one hundred pupils. This is a very reasonable enrollment for our community.

Let's have all the pupils from the surrounding districts who should profit by attending school and employing their time in study. Our school is closing earlier this year than usual which makes it all the more convenient to attend our school this summer.

The following classes of pupils may profit by attending the summer session of school: first for those ambitious boys and girls who wish to get ahead, who wish to finish school earlier; second, those pupils who for some reason or another lack one or more courses of being regular in their classes and wish to make the courses up; third, those pupils who are entering the high school for the first time and wish to get a start in the more difficult subjects of algebra and Latin.

Special classes will be provided for those who wish to attend school from the grammar school.

Let's have a good crowd for summer school. It begins May 13, 1929.

For further information see or write to D. A. Newton or E. D. Stringer, Goldthwaite, Texas.

REMEMBERS OLD FRIENDS

A letter from Mr. Leonard Doughty of Austin to the Eagle expresses sadness over the information conveyed to him thru this paper of the death of Jas. W. McAlexander. Mr. Doughty says in part: "I was truly saddened to read in the Eagle of the death of Jas. McAlexander. I have a kind remembrance of him as I have of his excellent old mother. The day I left Goldthwaite for Houston she sent me a note by him, wishing me good luck and God's blessing. I have, treacherously I may be, forgotten some of the things in this life, but I will never forget that."

Mr. Doughty is working with the Day Publishing Company of New York in compiling a book of sonnets, which will require at least a year to complete. From his description of the work, the book will certainly be one that will be much sought after and his friends here are indeed glad that his excellent talent and ability have gained him such recognition from publishers and compilers. He says he has already gone thru at least 2,000 volumes of literature and the work of making selections of suitable productions has scarcely begun. His work carries him through literature written and printed prior to Shakespeare's time and surely must be interesting to him and the compilation of the book of sonnets will give him world wide fame.

KELLY

(Intended for last week)
As I haven't seen any news from this community in quite a while, I will try to send in a few items.

Our Sunday school is still increasing. Come and let's make it what it should be.

We are all proud to have Frank Partridge and family back in our community again.

Estelle Shotwell spent the week-end with Valie Partridge.

Lewis Hale took dinner with Floyd Featherston Sunday.

Jack Shaw and family spent the day Sunday in Goldthwaite with her mother.

Norma Shaw spent Sunday with Alma Featherston.

Mr. and Mrs. Jim Kelly called on Uncle Jesse Gotcher Sunday evening.

Lizzie Virden spent Tuesday with Mrs. Bud Jones.

Grandma Patridge is staying at Walter Featherston's.

Alma Featherston is going from home in the car to school.

Mr. Tom Hale and family spent Saturday night and Sunday with his aunt at Ridge.

THE COMPLICATIONS AND AFTER EFFECTS OF THE INFLUENZA

The most common complications of Influenza are pneumonia, empyema and pleurisy. The most common after effects of Influenza and its complications are bronchitis, neuritis and gall bladder trouble. A persistent bronchial cough hanging on for weeks or months following influenza should be given attention. Persistent pains in the shoulders and thorax are of equal importance. Digestive derangements should also be given careful attention.

In all of those conditions, Chiropractic is most effective. The record of results obtained through Chiropractic adjustments in cases of influenza has not been equalled by any other school of healing, and if one suffers from these after effects, they should seek the Chiropractor as the logical means of obtaining permanent relief. There'll be no regrets.

The better homes movement inaugurated by some of the club ladies is bearing fruit, as improvements and beautification is seen in every part of town. It is hoped and believed that the good work will extend to all the rural communities and Mills county will become famous for its beautiful homes and well kept grounds. It can be done by the co-operation of all the people.

E. J. Shave of Star looked after business in this city the latter part of last week and the Eagle editor was glad to meet with him and renew the friendship of years gone by.

Grover Dalton and family visited their daughter, Miss Pauline, at San Marcos Sunday. The young lady is a student in college at that place.

B. F. McBeth of the South Bennett section was one of the pleasant and appreciated callers at the Eagle office Saturday.

J. Everett Evans of Center City looked after business in this city the first of this week, and reported a good rain in his community Monday night.

Mrs. R. N. Chapman of San Saba and her niece, Miss Jones, spent the week-end here with relatives.

Oscar Burns, who has a good position with the Santa Fe at Coleman, visited relatives and met with his Goldthwaite friends Sunday.

Judge and Mrs. J. C. Darroch spent the week-end with relatives here and returned to their home in Brownwood Sunday afternoon.

There is no use wasting time and postage in writing letters and news items to the Eagle unless the writer's identity is made known to the editor. The Eagle positively will not publish anonymous letters of any kind. Every week some writings have to be consigned to the waste basket because of the absence of the writer's name. We don't publish the names unless it is desired by the writer, but we must know it.

HAIL — CROP INSURANCE — HAIL

Just remember that you might be visited by a hail storm this spring and a policy covering your grain crop would be worth three or four times the cost of the premium. You would collect the insurance without the trouble of harvesting, thrashing and marketing, so let's get together and figure hail insurance. It might prove worth your time to do so. No trouble to figure your wants and your business is appreciated.

Your **MODEL T FORD** is still a good car

THE Model T Ford led the motor industry for twenty years because of its sturdy worth, reliability and economy. Those same reasons continue to make it a good car.

As a matter of fact, nearly one-fourth of all the automobiles in use today are Model T Fords. Millions of them can be driven two, three and even five more years with reasonable care and proper replacements. Figures show that the average life is seven years.

Don't sacrifice your Model T, therefore, but take it to the Ford dealer and have him estimate on the cost of putting it in A1 shape. A very small expenditure may be the means of giving you thousands of miles of additional service.

For a labor charge of \$20 to \$25 you can have your motor and transmission completely overhauled. This price includes new bearings, reboring cylinders and any other work necessary. Parts are extra.

Valves can be ground and carbon removed for \$3 to \$4. The cost of tightening all main bearings is only \$6. The labor charge for overhauling the front axle is \$4.50 to \$5—rear axle assembly, \$5.75 to \$7.

New universal joint will be installed for a labor charge of \$3. Brake shoes relined for \$1.50. Rear spring and perches rebushed for \$1.75. The cost of overhauling the starting motor is \$3. A labor charge of approximately \$2.50 covers the overhauling of the generator.

It will pay you, therefore, to see your Ford dealer and have him put your Model T in good running order. By doing so you will protect and maintain the investment you have in your car and get months and years of reliable transportation at a very low cost per mile.

Dr. R. A. Swanger expected to
leave yesterday afternoon
for a professional visit to Aus-
tin and San Antonio.

Mr. and Mrs. LeRoy Crossley
are the proud parents of a new
boy, he arrived the early part
of the week. Mr. Crossley is one
of the courteous telegraph
operators at the Santa Fe
station.

Mr. Chas. Moore, local man-
ager of the West Texas Tele-
phone Company, attended the
Chamber of Commerce banquet
at Lometa Friday night and re-
ports a very nice time. About
three hundred were present.

Work is progressing satisfac-
torily on the new school
building and the contractor ex-
pects to have it in readiness for
the next term of school. This
building will certainly be an
ornament to the campus and a
credit to the town.

Joe A. Palmer went to
Brownwood Wednesday after-
noon to have an x-ray made of
a tooth that has been giving
him considerable trouble. Mrs.
Palmer and the boy went with
him. The x-ray picture proved
that a wisdom tooth was grow-
ing crossways and the dental
surgeons had to administer
anesthetics and operate for its
removal. The operation was a
very delicate one, but Mr. Pal-
mer's friends sincerely hope it
will give him relief and he will
soon fully recover.

E. L. Obenhaus, sales man-
ager of the Whippet cars, at
this place, has arranged an at-
tractive show room in the An-

building for storing wool and
mohair and has been made man-
ager for the Central Texas
Wool and Mohair association.

ROCK SPRINGS

There was a good crowd at
Sunday school Sunday morn-
ing and B. Y. P. U. was better
than we have had in some
times.

Mr. Gus Roush and family
of Santa Anna visited in the

is our loss and Heaven's gain.
Mrs. Eula Nickols spent last
Tuesday in the Duke Clements
home.

Walter Brown and wife
spent the day with R. C. Webb
and wife Sunday.

Mrs. Lula Gatlin and Miss
Love came out to look at their
garden on the farm Tuesday
afternoon. They found it to
be damaged by the rain and
wind Monday afternoon.

E. W. McNutt and family
visited Joe Huffman and fam-
ily in the city Sunday after-
noon.

Last Friday was J. C. Stark's
birthday.

The Cat Claw school closed
last Friday. Miss Florence
Stark was the teacher.

Mrs. Abijah Stark has been
unable to work at the laundry
this week.

My, how the wind blew Mon-
day afternoon. The rain and
hail damaged the corn and the
gardens, but it is hoped that
the sunshine will help to repair
the damage done by the wind.

Several terraces broke on
the Jno. W. Roberts farm and
the water overflowed the farm.
Ois Hutchings of Center

NASH '400'

Leads the World in Motor Car Value

\$1075

Delivered,
Fully Equipped,
Nothing More
to Buy!

**Compare
delivered, fully-equipped prices
See why Nash is lower!**

ON the basis of quality, the Nash
"400" should cost more than other
cars in its competitive field. It actually
costs less!

Nash engineers—one of the industry's
outstanding engineering organizations
—have created a finer motor car. They
have developed the high-compression,
7-bearing motor to its highest point
of perfection and power. The exclu-
sive Nash outboard mounting of hy-
draulic shock absorbers doubles their
effectiveness and creates supreme rid-
ing ease. And here is the "world's
easiest driving control," in this new
and finer motor car.

These are but a few of many "400"
features of superiority.

Why then, is the Nash "400" lower
priced?

Here is the explanation. Every Nash
"400" is now factory-equipped with
the accessories, purchased at factory
savings and included in the factory
price of the car. Bumpers, shock ab-
sorbers, spare tire lock and tire cover
come with the car and are not added
later as "extras," at retail prices.

You will find some dealers (not Nash
dealers) charging as much as \$50 or
\$60 extra for bumpers alone.

Compare the delivered, fully equipped
price of any Nash "400" with the de-
livered, fully equipped prices of com-
petitive cars. You'll see the savings!

New Standards of Performance ~ Smooth Quick-action Power!

WET
A wet gas is an atomized mixture of gasoline vapor with liquid drops of raw gasoline. These drops, resisting the action of the spark, make starting difficult and cause an uneven and sluggish power flow.

You buy the LIQUID but you use the VAPOR

DRY
The new and better Texaco Gasoline vaporizes completely. It forms a dry gas—a perfect mixture of gasoline vapor and air which responds immediately to the spark, providing an even flow of power from all cylinders.

Keyed to the spirit of these fast-moving times, the *new and better* Texaco provides speed and power in abundance. For Texaco is the modern gasoline, a gasoline produced for present-day motoring conditions—scientifically developed to meet the requirements of *all* types of engines.

The *new and better* Texaco Gasoline vaporizes perfectly—forms a *dry gas*, a smooth-burning, even-textured

mixture of gasoline vapor and air. This is why Texaco never falters, why it responds so surely and eagerly to every demand of the accelerator.

ARE NATIONS READY FOR PEACE?

In view of the tremendous cost of human life and treasure, not counting the suffering and misery which the Great War brought in its wake, many of us fondly believed that war between civilized Nations was a thing of the past. Recent events, however, seem to prove the contrary.

A vessel sailing under the British flag, manned by British seamen and one negro claiming to be a subject of France, was fired upon and sunk within the territorial waters of the United States. This vessel had been engaged in running rum off the New England coast for five years. Its activities were transferred to the Gulf of Mexico, where it was sent to the bottom, the crew being saved, all except the French negro, who lost his life.

'I'm Alone,' the vessel in question, was known to the British authorities as a rum runner. For more than five years it was used to violate the laws of this country. It was an outlaw. Its standing and that of its crew should have been no better in the eyes of all Nations than that of a pirate. Instead of protecting the vessel and crew, the British Empire should have assisted the United States in its capture. But no. It is lawful to transport liquor in all countries except the United States. Liquor is a legitimate article of trade, and notwithstanding the fact that the 'I'm Alone' was 500 miles off its course, according to its clearance papers, and was making a deliberate attempt to violate the laws of this country, the diplomats of three countries have been engaged in discussing the question of liability.

If Nations were sincere in their desire for peace, outlaws of the character of 'I'm Alone' and its crew would receive no protection at any point on the ocean. Pirates are without the protection of any flag. The 'I'm Alone' was no better than a pirate. — Farm and Ranch.

BRIGHTEN UP CAMPAIGN

The Barnes & McCullough Lumber Co., local representative of the DuPont Paint Co., has inaugurated a Brighten Up Campaign for this section and the first of the series of ads appears in this issue. This campaign is for painting or re-painting interiors and exteriors of houses, also for brightening buildings of every character about the place, as well as autos and everything that carries paint. The popularity of the Duco finishings makes a heavy demand for the products of the DuPont Co. and the various colors and blends can be secured from the dealers inaugurating this campaign.

The trend toward color was given an impetus two years ago by the introduction of Duco for brush application. Colors, which heretofore had been obtainable only on new cars or through the refinishing shops, can now be applied by the car owner himself.

The color vogue quickly spread to building materials, tilings, roofing, floor coverings, household equipment and house furnishings of all kinds. Duco for home decorating has given the woman an opportunity to indulge her ideas for color.

The readers are invited to tune in with their radios every morning at 11:30 and hear the Duco program broadcasted from New York over WJZ and associated broadcasting stations.

HJR No. 6 A JOINT RESOLUTION

proposing an amendment to the Constitution of the State of Texas providing for a Supreme Court of nine members, for the continuous session of that Court.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Sections 2 and 3 of Article 5 of the Constitution of the State of Texas be amended so as to hereafter read as follows:

"Article 5, Section 2. The Supreme Court shall consist of a Chief Justice and eight associate justices, any five of whom shall constitute a quorum, and the concurrence of five shall be necessary to a decision of a case; in other matters, until otherwise provided by Law, the jurisdiction of the Court shall be exercised under such regulations and orders as the Court by a majority vote may prescribe. No person shall be eligible to the office of Chief Justice or Associate Justice of the Supreme Court unless he be, at the time of his election, a citizen of the United States and of this State and unless he shall have attained the age of thirty years, and shall have been a practicing lawyer or a judge of a court, or such lawyer and judge together at least seven years. Said Chief Justice and Associate Justices shall be elected by the qualified voters of the State at a general election, shall hold their offices six years, or until their successors are elected and qualified, and shall receive such compensation as may be provided by law. In case of vacancy in the office of Chief Justice of the Supreme Court, the Governor shall fill the vacancy until the next general election for State officers, and at such general election the vacancy for the unexpired term shall be filled by election by the qualified voters of the State. The Judges of the Supreme Court who may be in office at the time this amendment takes effect shall continue in office until the expiration of their term of office under the present Constitution, and until their successors are elected and qualified. When this amendment takes effect, the Governor shall immediately appoint six additional Associate Justices of the Supreme for terms of office so that the terms of two of such appointed Associate Justices shall expire with the term of office of each of the present members of the Supreme Court, and, upon the qualification of such new Justices, the Commission of Appeals of the State of Texas shall terminate."

"Article V, Section 3. The Supreme Court shall have appellate jurisdiction only except as herein specified, which shall be co-extensive with the limits of the State. Its appellate jurisdiction shall extend to questions of law arising in cases of which the Courts of Civil Appeals have appellate jurisdiction under such restrictions and regulations as the Legislature may prescribe. Until otherwise provided by law, the

Supreme Court shall have appellate jurisdiction only except as herein specified, which shall be co-extensive with the limits of the State. Its appellate jurisdiction shall extend to questions of law arising in cases of which the Courts of Civil Appeals have appellate jurisdiction under such restrictions and regulations as the Legislature may prescribe. Until otherwise provided by law, the

questions of law arising in the cases in the Courts of Civil Appeals in which the Judges of any Court of Civil Appeals may disagree or where the several Courts of Civil Appeals may hold differently on the same question of law, or where a Statute of the State is held void, and shall extend to such other questions as may be within the Court's Appellate Jurisdiction under the Statutes of the State in force when this amendment takes effect. The Supreme Court and the Justices thereof shall have power to issue writs of habeas corpus, as may be prescribed by Law, and under such regulations as may be prescribed by law, the said Court and Justices thereof may issue the writs of mandamus, procedendo, certiorari and such other writs, as may be necessary to enforce its jurisdiction. The Legislature may confer original jurisdiction on the Supreme Court to issue writs of quo warranto and mandamus in such cases as may be specified, except as against the Governor of the State.

The Supreme Court shall have power, upon affidavit or otherwise as by the Court may be determined, to ascertain such matters of fact as may be necessary to the proper exercise of its jurisdiction. The Supreme Court shall be open at all times and shall sit at the State Capitol for the transaction of business at such times as may be designated by the Court.

The Supreme Court shall appoint a clerk, who shall give bond in such manner as is now or may hereafter, be required by law, and he may hold his office for four years and shall be subject to removal by said Court for good cause entered of record on the Minutes of said

Court who shall receive such compensation as the Legislature may provide."

Sec. 2. Said proposed Constitutional amendment shall be submitted to a vote of the qualified electors of this State at a special election to be held throughout the State on Tuesday, July 16, 1929, at which election each voter opposing said proposed amendment shall scratch off of the ballot with a pen or pencil the following words printed on said ballot: "For the amendment to the State Constitution providing for a Supreme Court of nine members, and for continuous session of that Court." and each voter favoring said proposed amendment shall scratch off the ballot in the same manner the following words printed on said ballot: "Against the amendment to the State Constitution providing for a Supreme Court of nine members, and for continuous session of that Court." If it appears from the returns of said election that a majority of the votes cast are in favor of said amendment, the same appellate jurisdiction of the Supreme Court shall extend to shall become a part of the State Constitution.

Sec. 3. The Governor shall issue the necessary proclamation for said election and have the same published and said election held as provided by the Constitution and Laws of this State.

Sec. 4. The sum of Five Thousand (\$5,000.00) Dollars or so much thereof as may be necessary is hereby appropriated out of the State Treasury to pay for the expenses of said publication and election.

PAINFUL INDIGESTION

"I suffered a good while before I found something that would help me," writes Mr. E. W. Berry, of Neosho, Mo. "My trouble was a indigestion, pains in my chest and a tight, bloated feeling that would make me feel smothered."

"Speaking of this to a friend of mine, he told me that Black-Draught was good for this trouble. I bought a package. It certainly did help me, so I continued to use it."

"I am in the transfer business, and sometimes when I would be hungry and ready to eat, I would have a call and would have to eat later. Then I would eat too much or too hurriedly. This would cause indigestion. After I started using Black-Draught, I found it did me a world of good."

CARD OF THANKS

The many duties devolving upon us and the overshadowing grief which we have endured the past several weeks, have caused us to delay the expression of thanks and appreciation we feel, for the many kind friends who ministered to us in our great bereavement, but the gratitude we feel is none the less sincere. Every kind act proved the sympathy of friends and the words of consolation and the expressions of friendliness helped us to bear our great sorrow. We are thankful for the songs so beautifully rendered at the funeral service and every other act of kindness that proved our grief was shared by many good and true friends.
