RUDD & JOHNSON

Treat the Family to Spiced Goodies

By JOSEPHINE B. GIBSON Director, Home Economics Dept., H. J. Heinz Company

over again. And really it's more interesting to use new recipes occasionally, or to dress upold favorites with a new combination of spices, chopped nuts, or been mixed and silted with the salt. Bake in a loaf pan in a moderate oven for one hour. Frost with boiled frosting. Nuts may be added to the cake if desired.

Boiled Frosting

Have you ever baked an apple water cake? It's deficious, and

to 375" Fahrenheit—is best for baking any cake containing butter. Most loaf cakes require from 45 to 60 minutes, while layer cakes need about 20 minutes, depending on size and thickness.

These recipes for easily pre-pared spice cakes have been care-fully tested:

Mince Meat Cake Cream together: I cup brown sugar; cup butter. Add: 2 eggs; I cup uttermilk or sour milk; I lb. can mince teat: I cup raisins. Sift together: 2% ups flour; I tsp. soda: I tsp. baking wder, I tsp. coca; a little sail. Mix gether, and bake in a moderate oven rost wish bottled frosting, and sprinkle ith 1/4 cup chopped nuts and raisins. Apple Butter Cake

delicious, easy-to-make spice cake)

Cream butter and sugar, and add well beaten egg and next add apple butter mixed with soda. Gradually stir in flour which has FTEN the family tires of a been mixed and sifted with the cake that is served over and salt. Bake in a loaf pan in a

2 cups granulated sugar; 2/3 cup coldater; ½ tsp. pure cider vinegar.

Have you ever baked an apple butter cake? It's delicious, and will keep indefinitely—unless the children find where you hide it. Fruit cake made with prepared mince meat is easy to mix and bake—and it is spiced just right, too.

A moderate oven—from 350° to 375° Eabrenheit—is heat for

Chocolate Spice Cake 2 cups sugar; 4 eggs; 2/3 cup butter; 2 squares chocolate; 1 cup mashed potatoes; 2 cups flour; 3½ teaspoons baking powder; 2/3 cup milk; ½ teaspoon ground cloves; ½ teaspoon nutmeg; ½ teaspoon mace; 1 teaspoon cinnamon; 1 cup chopped nuts.

Cream the butter and half of the sugar, and add the egg yolks, which have been beaten with the rest of the sugar. Then add the melted chocolate to the hot mashed potatoes, and combine with the first mixture. Sift the dry ingredients together, and stir into the cake mixture alternately with the milk. Add the chopped nuts, which have been dredged with a little flour, and fold in the stiffly beaten egg whites. Bake in a loaf pan in a moderate oven. When cool, cover with belled iting.

CANADA WHIPS THEM

Canada is getting a number of American criminals who leave this country because they are liable for life imprison ment under the habitual criminal statutes of New York and other States, according to a Vancouver dispatch to the New new inventions | York Times, And Canada eatches these men and whips them.

A whipping in Canada is no slight thing. The prisoner's eyes are bound so he can not see who does the whipping. A leather pad is put over his kidzen men, and neys and over the base of his skull and neck so no permanent injury is done him. Then he is stretched on an iron trich of progress. angle with his legs spread and lieved find em- his hands together and pulled er lines because above his head. A guard, chostion and every en by lot, then lays on the lash production under the direction of the prieventually son doctor and of the warden. When the prisoner gets thru marketing and with this ordeal he is just short the producers of collapse. And he never, nevr wants another whipping.

It is brutal. Canada does not ers will spend deny it. It is terrible; and Canrts and luxuries ada admits that, too. But her money. There- officials are pretty well agreed ative marketing that it protects society. They

prosper. -Farm never popular. Crow's wings are seldom used on millinery nym for melancholy. If there is no good use for crows, as seems apparent, why do we encause they have friends !-State Press in Dallas News.

THINK OF YOUR AUTOMOBILE IN TERMS of Tomorrow

Ultimate cost is as important as first cost in the purchase of an automobile

THEN you purchase an automobile you are making an investment of a considerable amount of money. It is essential, therefore, that you give careful thought to the best selection and know what you are getting for your automobile dollars.

The first cost is important because it may mean an immediate, satisfactory saving. Of equal importance is the ultimate cost after thousands of miles of service. This ultimate cost is the true measure of automobile value.

THE first cost of the new Ford is unusually low not only because of economies in manufacturing, but because the same principles that inspire these savings are extended to every other step that means greater service to the public. It is easy to see that economies in production would be of little value if they were sacrificed later through high charges for distribution, selling, financing and accessories.

The Ford dealer, therefore, does business on the same low-profit margin as the Ford Motor Company. His discount or commission is twenty-five to fifty per cent lower than that of any other automobile dealer. You gain because he makes a small profit on many sales instead of a large profit on fewer sales.

The difference in selling cost, combined with the low charges for financing and accessories, amounts to at least \$50 to \$75 on each car. This is as important as economies in production in keeping down the price you pay for the new Ford.

HE low ultimate cost of the new Ford is the result of sound design, quality of material and unusual care in manufacturing. Friction and wear are reduced by the accuracy with which each part is made and assembled.

These factors combine to decrease the cost of operation and add months and years to the useful life of the car. The good performance and low yearly depreciation of the new Ford are indicative of the enduring quality built into it at the factory.

DERVICE charges are on the same fair, economical basis as the making and selling of the car and replacement parts are always available at low prices through all Ford dealers. In two, three or five years, depending on how much you drive, the saving in operating and maintaining a new Ford will amount to even more than the saving on the first cost.

Think in terms of tomorrow, therefore, when you purchase an automobile. For tomorrow will reveal its true worth.

Why does the omelet-red

THE minute an omelet is hot from the pan, it is puffed up, tender . . . at its best. . . . And the minute vegetables are fresh from the garden, all their flavor, all their juice are at their high point.

The way to have white wax beans while they are tender; and carrots when so crisp they cook creamy before they are creamed . . . the way to have all vegetables at their climaxtime of freshness, is to pick them from a garden of your own. And the way to grow vegetables approaching perfection is to plant Ferry's purebred Seeds.

These seeds are perfected the way breeders perfect cattle. A Ferry-bred tomato is no more like an ordinary tomato than Ferry's sweet corn is like horse corn. Find Ferry's purebred Seeds at the "store around the corner." And write for Ferry's Seed Annual. This gives you 73 years' experience in gardens before you start-news of mulch paper-and even of better ways to cook vegetables. D. M. Ferry & Co., Detroit, Michigan, P. S.-THE GARDENER HAS NO SECOND CHANCE. PLANT THE BEST.

W. C. DEW

ICE THAT WON'T MELT

The prospect of obtaining ice from desert stretches of the West is no fabulous dream. True, the product is "dry ice" derived from carbon dioxide wells, but it possesses a refrigerating efficiency almost twice that of water ice. Men prospeeting for gas and oil on certain public land areas in Utah and Colorado discovered the carbon dioxide gas, Owners of the permits to prospect sent a representative to the Department of the Interior at Washington to ascertain what protection would be accorded them on their "find", and Secretary Wilbur ruled that all rights were fully covered by the orig-West Second street is nearing carbon dioxide which causes completion and will soon be soda water to fizz may be formed underground by natural processes and stored in domes and anticlines. A pressure of some 1,100 pounds per square inch will convert it into a liquid which, if released in a spray, will change into snow. queer characteristic of "dry ice" is that it passes directly Messrs. Pruden and Ditto, of into gas instead of melting in-

NOT GUILTY

The citizen without pride in his own community has ro pride in his state and mighty little patriotism. One's first duty is to home enterprises. An editor of one of Texas' best weekly newspapers - a man who has all his life given more time to work for his town and country than to his own finanschool board and assist in cial interests-recently told me selecting teachers for the next that some of the business concerns of his town that have much to say about 'mail order business' and who would boycott a citizen who orders goods in their line out of town, are getting their stationery and job printing from glib-talking down plainly, in terms that can not be misunderstood: The business that doesn't support If you want used furniture, in every possible way home en terprises, including the home printing plant, doesn't deserve support .- Will H. Mayes in Alpine Avalanche.

The quotation above has no reference to Goldthwaite business men or institution. If there is an institution, (with one single exception) individual or talks and it sure has a loud officer in Goldthwaite who sends away for printing that Mrs. K. A. Childress and could be done here the Eagle children and Mrs. Leroy Beard has not found out about it, accompanied Mrs. Childress' The single exception proves mother, Mrs. Dave Morris, and that the patron of "foreign" printers is not in rapport with day for a visit with Mrs. Mor. affairs in this town. New And Different Medicine Welcomes Any Test—Results Are What Count

MR. RAYMOND SCMIDT

Results are what count; words and promises mean nothing. Konjola has won fame and friends just by making good, and that is the medicine sufferers want and should Raymond Schmidt, R. F. D. No. 1, Sedalia, Mo., when he was able to say:

"Though I know it to be true find it hard to believe Konjola in just three months, ended my sufferings of nine years duration. For that long time I suffered from indigestion, constipation, kidney trouble and catarrh. No food agreed with me; every night I had to get up numerous times, and the catarrh certainly added to my misery. In those nine years I tried no end of medicine and treatments, and everyone was a miserable failure. But how different with Konjola! Week by week I grew better, and in self again. To me Konjalo is the most wonderful medicine in the world, and I recommend it with all my heart."

Konjola is sold in Goldthwaite at Hudson Bros. Drug Store, and by all the best druggists in all towns throughout this section.

making Brownwood headquarters for the past several days. shaping plans for proposed paving in this city. The plan of some of these represntatives is to place paving on one of the main thoroughfares so that the people of the city will get an idea of that type of work.

Because no time limit was specified in the bid let to the Jagoe Construction company Denton, by city council February 25, for the construction of the sewer disposal plant here it was declared to be non-competitive and the action taken was rescineded by council in session Tuesday night at city hall. The charter states that bids of this nature must be competitive .- News.

LOUISIANA -POWER-SERVICE

WHEN WILL YOU BEGIN USING NEW

It is being rumored (and truthfully) that no other American motor oil has been so speedily accepted by motorists. Conoco Germ-Processed Motor Oil has smashed all precedents by its amazing reception . . . And this oil is as unusual as its introduction. Its superiorities are so apparent, that even before its announcement was well under way, literally thousands of new users were appearing at Red Triangle stations.

CONOCO GERM

Its name seems to intrigue motorists and much conversation has dwelt on the Germ Process, and the whys and wherefores . . . the story is this: Under exclusive Conocoowned patent rights, a precious oily essence is added to a superbly fine paraffin base oil. This essence is lacking in all other oils, including the one you are now using. The Germ Process makes possible the metalpenetrating safety factor that we call "pene trative lubricity." And this oil, of all on the market, provides a safer, more p
