IMPORTANT LOCAL EVENTS REPORTED

HOBOS MEET AT SULLIVAN BARN

Between twenty-five and thirty hoboes met at the old Sullivan place above the High school Tuesday night, Dec. 9, to hold a meeting of great consequence.

These hoboes built their huge fire and put on a pot of slumgullion that consisted of meat, beans, corn, tomatoes, chili, onions, potatoes, and what not. After this feast was cooking, can you imagine a lot of bums playing games. Well, they did. And they even jumped rope to cap it all. After an hour or two of games of all sorts they assembled to hunt for treasure in the barn. The group was divided in two sections and the way they went! But all they could discover was two sacks of fine Christmas candy, and they decided that the candy was all the treasure they could find, so they took the pot off the fire and really enjoyed a big feast. When they had finished they began to depart slowly and in ones and twos for their destinations.

Oh! Almost forgot to tell you folk who these birds were. They were the finest bunch of Epworth Leaguers in the country. And they sure know how to have a good time. Thanks to Prof. Mayfield and Mrs. Sparks Big-

MISSIONARY SOCIETY

The Woman's Missionary Society of the Methodist church has this week sent to the Orphan's Home at Waco, a coop of chickens and a box of canned goods, including vegetables, fruits, jellies and preserves for the children's gift from the Society for Christmas. Another box was prepared and sent to the Conference Community house of San Antonio, which consisted of clothing and donations of clothing, shoes, etc., made to the Epworth League in looking out for the needy of our own county.

DELEGATION TO PRESS MEET

A delegation composed of Mrs. John M. Scott, Misses Marie Rice, Ethel Dean McFarland, Mildred Case, Katherine Duren, Virginia Scott and Messrs. J. B. Lewis and Ray Duren, all of Mullin High school and most of them of the Tattler staff, passed thru the city yesterday afternoon, en route to Belton, to attend the High School Press association. They expect to return home Saturday and the Eagle predicts they will receive many compliments at the association upon the general excellency of the Tattler.

PREACHING AT CENTER POINT

For the benefit of those who are looking for some place to go next Sunday afternoon, I am writing these lines:

We received an invitation to Center Point some time ago to preach in the afternoon. No doubt it was through courtesy, but if you do not want this preacher on hand, you had better not ask him your way, for he is sure to go. We will be at Center Point Sunday, Dec. 14, at 3 o'clock. Will be glad to meet all of the Center Point people at that time, also all those who are interested in good services.

A. L. BRASWELL.

MIDWAY

Church services were not very well attended over the week end on account of the singing convention and then it was not very well announced. We will not have church on the second Saturday and Sunday any more, but will have it on the first Saturday and Sunday because Brother Stripling was called at Star for the second Sunday. Everybody remember that the date has been changed and come.

Our school teach, Mark Fallon, has been going to Brownwood to have his eyes treated.

Some of the young people of our community enjoyed a party at Roy Bynum's Friday night, and one at Ira Doggett's Saturday night.

JAPANESE PARTY GIVEN SCHUBERT CLUB

Misses Rachel Johnson and Ruby Lee Dickerson entertained with a pretty appointed auction forty-two party and program at the home of Miss Dickerson.

The living room had been arranged into a charming Japanese garden. Chrysanthemums, roses, Japanese umbrellas, tables and pillows were profuse on the floor throughout the room. The hostesses wore beautiful hand-painted satin Japanese costumes and the incense burners exhaled perfume, which enchanted the atmosphere and attractiveness of the occasion. The Japanese scheme was also featured in the tables, prizes and menu.

An interesting program was given on Franz Schubert by club members.

Those present were Mmes. F. P. Bowman, Al Dickerson, Lewis Gartman, R. V. Littlepage, Duke Clements, Fred Martin, S. P. Sullivan, C. A. Eacott, E. D. Stringer, R. V. Mayfield, Miss Myrna Miller and Miss Luella Patterson. REPORTER.

Reports of officers were examined and approved.

Accounts against the county were audited and allowed.

There was no special business, outside the regular routine.

This county has been given a quota and should use that many at least. Place these seals on all letters and Christmas packages and show loyalty to this worthy cause. The seals can be obtained upon application to Mrs. Eacott.

Some much needed repairing has recently been done on the Church of Christ, and plans are being made to paint it soon. REPORTER.

TRIGGER MOUNTAIN

I have not represented our community for a week or two. However, we are just as important as ever. We heard someone say that the Eagle sure was a good county paper. The reason, I think, is we have so many community items reported each week. When everyone begins to realize that the Eagle is their paper just the same as is their school and church and it is what we help to make it, it will be still better; so if you know any item of news report it, while it is new, sign your name and our good editor will appreciate it and the rest of us will enjoy reading it.

Mr. and Mrs. W. S. Cunningham are spending a few days in Goldthwaite with their daughter, Mrs. Arthur Bryant.

Our church had the pleasure of having the county singing convention meet with us. We hope all the singers and visitors come back again, for we surely enjoyed the singing and having the preachers with us also.

I was asked to give the honor roll for the past month, but did not write last week, so will send it now. Those whose names appear are: Eighth grade—Lula Mae Huffman, Wilson Lewis, Seventh grade—Jewel Bramblett, Bura Ledbetter, Fifth Grade—Charles Kennedy, Wilma Nauer, Dennis Davis, Fourth Grade—W. C. Dellis, Third Grade—Flora Ledbetter, Primary—Norma Lee Harmon, Florene Stephens. Those making the honor roll in perfect attendance were Lester Dellis, Noel and Flora Ledbetter. THE FARMER'S WIFE.

ATHENS CLASS CHRISTMAS TREE

Old Santa, fat and jolly as ever, visited the Athens Class in their Sunday school room Monday night, Dec. 8. By 7:30 o'clock everyone had arrived and they beheld one of the most beautiful Christmas trees imaginable.

The house was called to order by our president, Mrs. J. V. Cockrum. The devotional, which was a beautiful picture of the birth of the Christ child, was read by our teacher, Mr. Haynes Harrison. We were then entertained by Mrs. L. J. Gartman with a reading and the latest jokes, and Elizabeth Fisher, as Liza Jane, with a reading in negro dialect. From the roars and laughter, we are sure everyone enjoyed them.

Then we heard the sleigh bells and knew old Santa was near, so we waited breathlessly for his coming. He entered with a big sack on his back. He scattered popcorn, apples and candy thru the crowd, and we are very grateful to our president for vouching for our "being good," through the past year, so he gave each of us lots of nice gifts. After Mrs. Cockrum had displayed her many beautiful presents, Mr. Toland, in his pleasing manner, announced that he was a candidate for president of the class for another year.

Brother Ivins and Mr. Haynes Harrison expressed their appreciation for the good fellowship which existed in the class.

We are planning on having several indoor socials before spring.

We have one of the best teachers ever. So let's show our appreciation by attending Sunday school regularly. REPORTER.

LIVE OAK

Christmas is on the way, and we are all trying to be good. In some cases, however, that is impossible.

Joe Roberts of Dallas, a former Live Oak boy, passed through this part of the country last week and visited in the J. W. Griffith and C. S. Featherston homes.

Quite a few from our community attended the singing convention at Trigger Mountain Sunday.

Brother Mitchell filled his regular appointment at Bethel Sunday afternoon. Since conference we get only one afternoon a month, which is not as satisfactory as two a month, but maybe the other people need more preaching than we do.

Nothing else happened, so I might as well stop. You know "it is better to keep silent and be thought a fool than to speak out and remove all doubt." REPORTER.

our own. Let's don't forget in our merry making and rejoicing that always comes, during Christmas holidays, to go to church and worship God. Many of us will never see another Christmas. And let's do this Christmas just like we know that it would be the last one we would ever witness. If we do, we will know where to go on Sunday. Bring your visitors to church. Many of you do that; it is always a joy to have them.

Don't forget that next Sunday afternoon at 2 o'clock the Workers Conference convenes at our church. We have an interesting program, and will have some splendid speeches. Everybody is extended a cordial invitation, regardless of church affiliation, and regardless of where you live. G. C. IVINS, Pastor.

THE GOLDTHWAITE EAGLE

Two hundred and sixty-five men were given jobs Monday by the city of Houston and it was announced that 735 more would be employed within the week.

Emergency relief plans were pushed forward in both houses of Congress Friday, as the Senate Agriculture Committee ignoring the recommendations of the administration, voted to appropriate \$60,000,000 for loans to farmers in drouth and storm stricken areas. The committee unanimously approved the McNary Aswell resolution to authorize \$60,000,000 for loans to farmers, not only for feed, seed and fertilizer, but also for food

A man identified as Brunson McCarver of New York, carrying a New York police permit to have a gun and bearing letters from the Treasury Department at Washington, was shot to death in a gun battle with officers at Canyon Monday. The man was slain by officers who lay in wait for the bus, on which he was conducting a siege, threatening the lives of passengers and the driver. McCarver was a passenger on the bus, bound for points in New Mexico.

Estimated total production of cotton in the United States in 1930 has been placed at 14,261,000 bales by the agriculture department. The 1929 cotton crop was 14,828,970 bales, or excess here announced findings of the crop to Dec. 1 aggregated 12,844,970 bales. The abandonment of average 2000 July 1 was estimated at 21 per cent, leaving 45,218,000 acres left for harvest, indicating a yield of lint cotton was given as 150.8 pound per acre for harvest.

An electric car can be operated to incur damages, where a passenger is injured by a bus, and crashes into it and causing broken glass to scatter. This was held in reversing the trial and Appellate Courts in the case of W. E. Scott vs. Texas Electric Company, from Dallas, where Scott had obtained a \$5,000 judgment for the loss of his left eye, destroyed by a shiver of glass when the bus crashed into the front of the car.

The Senate Monday adopted the Hayden resolution requesting the labor department for a recommendation as to what steps should be taken to facilitate deportation of aliens. The proposal also seeks the number of aliens unlawfully in the United States and whether additional appropriations are needed to send them back to their native lands. Such aliens holding jobs are displacing deserving citizens, Senator Hayden said, while those not working constitute a charitable burden. Sixteen thousand aliens were deported last year.

Former United States Senator James A. Reed of Missouri last week opened the battle in the United States Circuit Court of Appeals at New Orleans to take the \$10,000,000 estate of George H. Hermann from the city of Houston and give it to his Swiss relatives. It is one of the most hotly contested appeals in recent times. Mr. Hermann made no provision for his heirs in his will. He bequeathed to the city of Houston two squares of ground and provided that on one square "a breathing place for the poor" should be established, while on the other the city should build a hospital designed after the Johns Hopkins Hospital in Baltimore.

HIS CROWNING WORK

Eleutherios Venizelos, who was long ago known as the foremost advocate of Hellenic nationalism and as one of the most astute of the competitive statesmen of Europe, has recently done something which is not at all nationalistic and which is the greatest thing he has ever done. He has gone personally to Angora, that obscure and mysterious capital of the Ottoman realm, and he has there signed a treaty of Greco-Turkish peace and unity which will doubtless stand for generations. For it has removed from the Turkish mind the traditional suspicion of Greece, and it has given to the Greek people who live so heroically carrying on the work of national rehabilitation a feeling of security which was absolutely essential to final success.

The pilgrimage of Venizelos to Angora was courageous in more than one sense. In the first place there was a decided element of physical danger.

Felt Bad After Eating
 "BEFORE I started taking Black-Draught, three years ago, my health was very bad," writes Mrs. C. C. Carson, 945 Concord St., Beaumont, Texas. "I suffered constantly from constipation. I had headache when I got up in the morning, and I felt dull and sluggish. I hardly ate a meal that my food agreed with me. Frequently I would have gas on my stomach, and felt awful."
 "I read about Black-Draught, and I thought it might help me. After I had taken it a little while, I felt much better. It relieves constipation. I keep it on hand so when I need a laxative I will have it. In the three years I have been taking it, I have never found anything as good for constipation."

JOBS FOR THE LEGISLATURE

The next legislature will have before it work of highest importance to the welfare of the state.

First there will be the task of redistricting the state to provide for the election of three additional Congressmen — a most difficult job, if all sections of the state are to be appeased.

Then it must face the growing demand for a driver's license law. There isn't a lot of popular interest manifested in the matter, but lives are at stake.

Bills will be offered to increase taxes, in the form of special levies, against prosperous Texas industries. There is danger here, because Texas stands upon the verge of an era of industrial development which depends, to large extent, upon the attitude of the legislature. Any disposition to levy taxes of a punitive or discriminatory character will cost the state a thousand times the amount of revenue involved. Industry should bear a just share of the burden of government, neither more nor less. Upon such a basis, and no other, can the program of prosperity through industrialization be consummated.

Then there is the matter of the motor trucks. Despite wide spread indignation, they continue to kill and maim, to destroy our highways, to offer ruinously unfair competition to the railroads. For considerations of safety, the legislature will be asked to define maximum widths, lengths and weights for trucks which use the public highways; it will be asked to levy taxes sufficient, but no more, to repair the damage trucks have done the highways; and, finally, it will be asked to place trucks engaged in the public carrier business under the same supervision as are the railroads. Otherwise the condition of the railroads will become so impaired as to render them of little service to the state, which, in large measure, they have built.

Then there is the perennial prison problem, still demanding solution; there is the task of revising and modernizing the code of criminal law and procedure; and there is the ever-present demand for greater economy and efficiency in the administration of government.

Truly the incoming legislature has before it many man-sized tasks. But, fortunately, it has the confidence of the people and a quality of leadership of which much may be expected.—Editorial Digest.

And in the second place it marked the aged statesman's final renunciation of the Panhellenic policy which brought territorial expansion and increased wealth to Greece, but which was never carried to its logical conclusion.—Cleveland Plain Dealer.

What Happened To a Chicken House

A YEAR ago it was a chicken house in the yard of a suburban resident and did good service as such. Now it is a guest house and just about one of the most delectable little houses that can be imagined. The owner and his wife who entertained a good deal are modern in ideas. The interior of the guest house shows it. Upon entering, one of the first things that strikes the eye pleasantly are the draperies at the windows. These are a lovely combination of orange and yellow rayon, a fabric that has decided advantages for curtains and that gives a soft and sophisticated color note to the whole room. The woodwork is in a barker-tine blue and, with the exception of the interiors of the bookcases and the furniture is lacquered in black. Otherwise the woodwork agrees with the trim of the room. A day bed is upholstered in black fabricoid with a fabric grain and the shower curtains are of yellow in the same material, as is the screen of blue embroidered in yellow. The three tier cushion provides a mattress for the other half of the couch bed when in use. It has a blue fabric grain and the rug is a natural tan with conventional blue designs. This color scheme against warm yellow linen textured fabricoid walls makes a guest apartment that is utterly charming. This is particularly so in the late afternoon when the sun sweeps in yellow shafts through the hangings at the windows and colors the whole room with its golden presence. Such a colorful and utterly cheery layout suggests many ideas to the housewife who has a decoration problem to settle for her home. This general idea can be modified and worked out with similar attention to fabrics in one or more rooms in any modern home, particularly if attention is given to color harmonies and the use of lustrous materials which are not likely to dull the light but rather to make the best advantage of the sun. And, as all housekeepers know, the sun and its nuances of brightness and gloom, must always be taken into consideration. The trouble has been in the past that we were too afraid of letting color charm us at windows and on walls.

LAKE MERRITT

As I journeyed from one task
to another this beautiful sun-
shiny day I wondered if the Old
Bird was hungry, so I decided I
would send in a few more
crumbs.

The Lake Merritt community
and school have something to be
very proud of. Last Friday afternoon
Center Point motored
over to play basket ball. Both
boys and girls played. The Lake
Merritt boys and girls won, the
scores were 13 and 17 and 2 and
3, respectively. There was much
rejoicing among the pupils and
teacher of Lake Merritt.

This community was again
made sad by the death of Denver
Eakins last Thursday. Everyone
is in sympathy with the bereaved
family.

Mrs. H. S. Weston and daughter
returned home Saturday
night, after an extended visit
here with relatives and friends.

Douglas Robertson killed hogs
last Friday.

Saturday must have been turkey
day with most of the country
folk, as they went to market
with their turkeys.

Those who called in the Brown
home Friday night were W. L.
Stuck and family, Mrs. H. M.
Weston, Joe and Lorene, Mrs. J.
M. Baker, Mrs. H. S. Weston and
daughter and Tommy Fuller.

Mrs. J. M. Baker and Tommy
Fuller visited Mr. Will Fickle

Miss Gladys Brown, Willie

visited school Friday afternoon.

Mrs. Douglas Robertson and
children called in the Sparkman

We were all very sorry to hear
that Opal Petty almost broke
her leg and hope she will soon
be able to be back in school.

Joe Roberts from Fort Worth
called on Miss Gladys Brown last
Friday morning.

Miss Lois Booker took ill at
the singing convention last Sunday
and has been real sick. We
all hope she will soon be well
again.

Warren Austin returned from
Vernon last Saturday night. We
are all glad to have him back
among us.

Mrs. W. L. Stuck was called to
Brady Sunday afternoon on account
of the illness of her father.
Everyone hopes she finds him
much improved.

I certainly enjoy reading all
of the community news. Let's
try to report it all.

Several from this community
attended the singing convention
at Trigger Mountain Saturday

JEALOUSY

The most dangerous of all
creatures in this world is that
one whose bosom is filled and
fired with jealousy. Especially is
that true with the human family.
There is not a thing too
cruel for a jealous person to do.
King Solomon said that jealousy
was "as cruel as the grave." Selfishness
is the mother of jealousy, envy,
strife, malice, hatred and all divisions.
No person whose heart is pure and
unselfish is very likely to be
jealous. A jealous child is hateful
and spiteful. Jealous wives and
husbands are home wreckers
and are not worthy of confidence.
There is not a thing on
earth too cruel for a jealous person
to do. They have been known
to commit some of the blackest
crimes recorded on the pages of
history. Selfishness, hatred, malice
and jealousy are so closely related
that they are inseparable. I have
known some brutal husbands, so
everlastingly jealous, that they
would murder every member of
their home, including themselves.
Those are some of the very common
sins of this age. Whole families
throughout the world have been
brutally slain by some husband
who had a fit of jealousy.

Jealousy has not only been
destructive to the domestic life,
but it is most seriously destructive
to our financial, political,
educational and religious welfare.
Business men working against
each other. Politicians working
against each other. Schools and
churches, so selfish and self
centered that they pull against
each other. It is cruel jealousy
grown out of selfishness.

The most cruel jealousy that
I know of at this station of my
life is religious jealousy. Men
and women who secretly conspire
the hurt and overthrow of their
fellow brethren. Jesus said,
"As often as we have done it
unto the least of these my brethren,
ye have done it unto me." The
most brutal jealousy that is
being practiced today is ministerial
jealousy. I wish that I knew
that it were not true. It is hard
to believe that a God called
preacher would be jealous of
another God called preacher.
I had been preaching for many
years before I ever dreamed
that one of God's anointed
would get jealous of his fellow
preacher. I had always believed
before that time, and do yet,
that we preachers were God's
servants and that the more we
helped the preacher, the more
we helped ourselves, and the
lighter our own burdens would
be, but to my great surprise
some years ago in the hills of
Georgia, I had a most promising
young preacher to help me
in a revival meeting. While I
was doing all I could to help
him make a good impression on
my church and people, and recommend
him as a suitable and prospective
pastor for our church, he was
secretly conspiring my ultimate
overthrow, but he was secretly
conspiring against the wrong
preacher, for I had been pastor
there ten years. My brethren
there informed me of his secret
Hamon like conspiracy and his
wire work failed. So now he is
laid on the shelf, yet, I am his
senior by many years, with a
bright and and most promising
future before him. He tried hard
to secretly supplant me by a
house to house and church to
church campaign, but failed, and
got very jealous, because some
folk said I could "beat him
preaching." If such a thing had
been true that I could beat
him, he should have rejoiced to
know that God was using
another man in honoring the
cause he himself represented,
but no, he was so shortsighted
that he could not see those
things but got jealous. Poor
fellow, he did not realize that
he was then building the gallows
upon which he later would be
brought, and upon which his
own neck would be broken. Little
did he realize then that secret
conspiracies against God's
anointed is evidence to all
thinking people that it is false
propaganda, and otherwise
cowardly indeed. He was so
self centered that he lost all
sight and knowledge of right,
and that he was not the only
pebble on the beach. He proved
an unfair dealer. I kept tab of
all that he said to me as he came

to me in the form of an angel
of light, I also kept tab of all
his rounds and what he said to
others and at the showdown was
loaded for him. It is always best
to keep tab, and be ready when
called upon to fall into firing
ranks. This poor, jealous dignity
thought he could rise upon my
downfall, but I set my head
then and thereafter that no man
would ever do that, and I have
kept that sacred vow. Take my
wealth, take my life, but do not
slander or take my good name
for that is all I have. I had
rather know that I am right than
to be president of this great
nation. My motto has been for
years, "Be true to my fellowman,
die for him, but don't lie for
him." Deliver me from jealousy.

SCHOOL BRIEFS

Johnnie Fallon visited the Taylor boys Sunday afternoon.

Leona and Shirley Newman were visitors to our school Wednesday afternoon.

Miss Lessie Shelton is on the sick list. We hope she will soon be back in school.

Little Miss Charlene Stark visited school Monday.

Some of the school boys celebrated the opening of the hunting season by going hunting Monday night. What were the results? Bad lessons next day.

The school boys engaged in a basket ball skirmish with some of the outside boys last Wednesday afternoon.

The Shipman children have moved to the Sam Self farm in the Rock Springs community. They now ride to school with Mr. Cooke.

Lindon Davis has been doing such good work in his studies that his teachers saw fit to advance him to the seventh grade. He is now a member of the senior room.

We were glad to have Darrell Davis as a visitor Tuesday. We are always glad to have a visitor. Mothers, why don't you visit school more often and see what your children are doing?

It is believed that Curtis Taylor and Woodrow Spinks have joined a conspiracy to catch all the furs in this part of the country this winter. You o'possoms had better watch out.

Anna Belle Teifferteller has been talking of moving to town, but personally I think she likes Center Point too well to leave.

SOME FUN

After Mr. Cooke had told Vergie Mae not to be discouraged with a grade of fifty she had made on a Caesar test, Vergie Mae said, "Huh, that's lots better than some of the grades I made the first two times I took it."

Miss Mills had been trying to teach her room the correct use of "sit", as some of them used "set" instead. (After a few minutes had passed a hand went up.)

Miss Mills: "What is it Howard?"

Howard: "May I change 'sits' with Oran Perry?"

THANKSGIVING ENJOYED

The Thanksgiving holidays were thoroughly enjoyed by the faculty and students of this school. Everyone went places and saw things. Center Point was well represented at the program at Rock Springs Thursday night, and Johnnie Fallon says that Mr. Cooke ate so many tea-cakes that they gave him the toothache.

Johnnie Taylor says: "I wish Caesar had died while he was a boy."

CHRISTMAS APPROACHING
Every day we hear the question, "How long will it be 'till Christmas?" It won't be long now!

BASKET BALL TEAMS ORGANIZED

The boys and girls met Monday at noon and elected captains for both teams. Julia Dee Fallon was elected captain of the girls team and Johnnie Taylor of the boys. Vergie Mae Taylor was elected treasurer and reporter.

BALL GAMES

Last Friday our boys and girls met defeat in two, fast, basket ball games against Lake Merritt. As these were our first games, we are not discouraged. Lake Merritt certainly has two smooth teams made up of as good sports men as we ever saw. It is plainly evident that our girls are going to develop into a winning team. Our boys also showed talent. With the score 2-13 at the end of the first half, we came up to a score of 13-17 for the boys. The score for the girls was 2 to 3.

STAR TIGERS WIN OVER HAMILTON
By Rollo Henry

At Indian Gap Thanksgiving, the Hamilton Bulldogs and the Star Tigers tangled up in a battle royal, with the Tigers coming out with the big end of the 36 to 6 score. Every man on the Star squad had a chance to display his basket ball skill before the whistle sounded.

The Bulldogs led by a 6 to 3 score in the first half. The Tigers loafed and played with the Hamilton quintet as a cat would a mouse. But when the second half started, Coach Williams' Tigers started that pass so typical of the Stay quintet, and emerged forth before the final whistle, with a large margin of 33 points. The Bulldogs were guarded so closely that they were unable to even score during this period.

THE PUNISHMENT
They Get in the First Few Minutes Decides How Long They Will Last

And so it is with your motor... 40% to 60% of all motor wear occurs in the first few minutes after starting, because ordinary oils drain away in idle periods. But CONOCO Germ-Processed oil is always on guard duty, never drains away, penetrates metal surfaces, reduces starting wear.

A step on the starter always takes ordinary oils unawares, and it is then that most damage occurs in your motor. By draining away during idle periods, ordinary oils "let down their guard" and let your motor in for severe punishment at a time when protection is vitally needed.

On the other hand, Germ-Processed oil always

has its guard up. Its film penetrates and covers every working part while the motor is idling. The first motor revolution finds ready protection guarding every clearance. The 40% of wear which might have taken place before ever shift a gear is substantially reduced. Thousands of motorists have found that improved motor oil prolongs motor life and better all-round performance. You can see the CONOCO Germ-Processed Motor Oil when you see the CONOCO Red Triangle.

LOOKING for an UNUSUAL GIFT? Do the unusual... forget ordinary remembrances for once and use this most acceptable gift... Give CONOCO Christmas Coupon Books... Cost is \$1.00 and \$10.00. SOME EARLY HISTORY

Brown county has the youngest telegraph operator in the world. The station at Williams' Rancho, in that county, is managed by little Miss Hallie Hutchinson, only 9 years old. She is an exceptionally intelligent child, and handles her instrument with rare skill. She spends her leisure hours playing with her dolls, and dressing them, as she sits at her table awaiting business.

The above item appeared in the Dallas Herald of Nov. 25, 1880, and was reproduced in the Dallas News of Nov. 25, 1930. Hallie was a daughter of Allen A. and Etta Hutchinson, who came from Florida to Texas in 1874, and lived for a time at Austin. In 1875 they moved to San Saba and a year later to Williams' Rancho. They built and for several years managed the Florida Hotel. Hallie was their oldest child, and noted for precocity. She first attended the community school in 1877 and for the next few years had as teacher, Rev. M. N. Weatherby, James L. Harris, S. H. Flake and others.

After Williams' Rancho was dropped from the map the family resided at Mullin, where the

father met a tragic death. The mother, now ninety years of age, resides with a daughter at Caney, Kan. Hallie married a Mr. Pool. She died young, leaving a daughter, who is now a teacher in the schools of Los Angeles, Calif. Between the grand parents of this child arose a bitter contention as to her custody as the court records will show. Kidnaping was resorted to and the child carried to Oklahoma. Grandmother Pool was awarded the custody and the Pool family moved to California.

TOURING IN ANTARTICA

And now tourist excursions to the South Pole are under way. It was inevitable. What could be more appealing than swinging in a hammock on the Ross Ice Barrier. Or, perhaps, promise of eighteen holes on a solid ice plateau 11,000 miles above sea level with a flock of penguins as caddies. Or, maybe, salt water baths in especially designed ice tubs in which the temperature is guaranteed to be never above 20 degrees below zero.

Think of the attraction that a prospectus of the new vacation land may have to offer. Free rides on a glacier that speeds through its course at the rate of a foot or so a year. Plenty of fresh air everywhere. Hundreds of square miles of fresh air and penguins. As a treat, Antarctica has only the north polar area as a competitor. Deep sea bathing in every fissure, and tennis grounds wherever one can set up a net.

The Ross Barrier has about everything but palm trees and parasols to attract the traveler. And then there is daylight saving. Plenty of time for a round or two of golf after supper. No roadside stands or billboards to mar the beauty of the scenery. No music of mosquitoes. All the great ice tract now lacks is a few "summer hotels" and enterprising real estate promoters. It might take some time to dig down to the real estate, but it is there. It is true that some of the present advantages might cease to exist with the advent of crowds of tourists. But it is hardly likely that, for a year or two anyhow, trips to this area will be run at cheap summer rates. Meanwhile the inhabitants of zones which occasionally have symptoms of toxicity may find comfort in the announcement that a tourist firm is planning a trip to the Bay of Whales, where the Byrd expedition spent fourteen months on the ice in 1929 and 1930. A motor yacht built for tourist trade de luxe will furnish whatever comforts the South Pole does not naturally provide. — Christian Science Monitor.

BEAUTY in the HOME

Beautifying the Ugly Radiators

THERE is one particular feature of nearly every American home that is always amusing to those who are interested in the best interior decoration. That is the radiator. The housewife spends time, money and considerable taste in choosing and arranging her furniture, draperies, bric-a-brac and pictures. And the result is oftentimes very, very good—except right there against the wall, usually under the windows, is a big glaring radiator. And it always kills the artistic spirit of the room decorator than "Cock Robin."

Whatever one does in the way of decorating a room, let's cover up the radiators anyhow. Residee, quite aside from their appearance, these covers, generally of attractively designed steel, diffuse the heat better than it would be diffused by a bare radiator and they have concealed water-pans to humidify the air of the room. And, by the way, the Bureau of Standards at Washington recommends a light-colored ordinary house paint for radiators, due to the fact that a large percentage of the heat is lost if the radiator is covered with gold or silver aluminum paint.

The colors can be such as agree with the general tone of any room. Ducoed in four standard effects—mahogany, walnut, white or ivory, or in other shades to harmonize with any other decorative scheme, radiators so treated become an integral part of the color scheme of the room and add to the beauty of the place rather than detract from it. They are decorative assets rather than liabilities.

And, oh, what a relief they give from dust! One of the bug-bears of the housewife is the dust streaks on the walls and drapes, and sometimes ceilings as well, that are near the old-fashioned uncovered radiators. Cover it up, stop the dust streaks, put a potted plant or a vase of flowers on top and let its lustrous lacquered finish add to the attractiveness of your rooms.

Painful Condition

"When I was just a girl at home," writes Mrs. B. F. Riggan, of Baird, Texas. "I took Cardui for cramping and pains in my side and back, and it helped me at that time."

"After I was married, I found myself in a weak, run-down condition. I suffered a great deal with my back, which was so weak it hurt me to get up or when I would stand on my feet. I fell off in weight."

"A friend of mine, seeing how bad I felt, advised me to take Cardui, which I did. By the time I had taken two bottles, I felt stronger and better than I had in a long time."
