GOLDTHWAITE, MILLS COUNTY, TEXAS, FRIDAY, MAY 22, 1931.

NUMBER NINE.

Plans Are Perfected For Mills County Fair

Gate Entrance Announced

Directors of the Mills County Fair Association have announced that the gates will be opened at 10 o'clock on Friday, May 22, 1931, and the gates will be closed at 10 o'clock on Saturday, May 23, 1931.

The closing exercises commenced with the baccalaureate sermon in the school auditorium by Dr. W. R. Hornberg last Sunday morning at 11 o'clock. This most interesting service was attended by an audience that taxed the capacity of the auditorium and the music, which had been specially prepared, was one of the most interesting portions of the program.

Officers
President: F. Toland; Vice-president: R. L. L. L.; Secretary: J. A. Palmer; Treasurer: W. P. Weaver, county clerk.

Directors
Key Johnson, O. H. Yarbrough, J. A. Curtis, R. E. Clements, L. B. Burnham, J. A. Palmer, S. P. Sullivan.

Special Guests
Confederate Veterans are special guests of the Fair and the pioneers of the county will also be accorded attention and privileges.

ROAD LAW APPROVED

Daily papers yesterday carried the information that the road law for Mills county is a re-vamp of the old law, eliminating some provisions and making new ones. About the most important change is that the commissioners court may issue warrants for road and purposes to the extent of upon a vote of the people. Another provision that is new is one allowing the court to issue warrants for bridges, upon a vote of taxpayers, and also providing for the creation of special districts. The new law will benefit in enabling the county to cooperate with the state department in road improvement.

AUTO COLLISION

Wednesday afternoon Mrs. Leverett was bruised and slightly hurt when her auto was driven by Miss Swanger at the intersection of Front and Main streets, near the intersection of Front and Main streets, near the intersection of Front and Main streets. Mrs. Leverett's car was coming from the east. Mrs. Leverett's car was turned completely over. The wonder is that she was not seriously hurt. Parties saw the accident hurriedly to the assistance of the lady and she was released from the wreck. She was confined to her home for a few days, but reports said she soon be fully recovered.

HEALTH NURSE HERE

A health nurse whose services are to be given to a dispensary which Mills county is instituting, was here this week meeting with the general committee arranging for the work to be done. She will be here during the fair and will conduct a clinic. Every citizen should be interested in this work and cooperate in the movement.

Goldthwaite School Closing Exercises Held

A Successful Session Comes To Close

One of the most successful sessions in the history of Goldthwaite schools came to an end with the graduation exercises last night. The closing exercises commenced with the baccalaureate sermon in the school auditorium by Dr. W. R. Hornberg last Sunday morning at 11 o'clock. This most interesting service was attended by an audience that taxed the capacity of the auditorium and the music, which had been specially prepared, was one of the most interesting portions of the program.

Graduation Program

The program for the graduation exercises last night in the school auditorium was also largely attended and greatly appreciated: Graduation Song (Beam) — Class. Invocation—W. E. Miller. Salutatory—Marlin Ross. Vaedictory—John C. Price. Commencement Address — Dr. A. E. Prince. Presentation of Diplomas — E. D. Stringer. Presentation of Scholarships — R. H. Mayfield. Presentation of loving cup to honor pupil in Seventh Grade — Mrs. F. N. Irvin. Dismissal.

List of Graduates

John C. Price, Vaedictorian. Marlin Ross, Salutatorian. Oma Black, Lena Huffman, Floy Beard, Lee Hendry, Donald Brim, Frances Moates, Myrtle Crawford, La Vera Oltrogge, Melvina Fox, Marie Stuck, Jocelyn Frizzell, Noma Lee Webb, Bertram Geeslin, Ina B. Walden, Lula Howard, Inza Wright, Vera Mae Hale, Eugene McNutt, Pearl Hale, Horace Gray.

HIGH COMMENDATION

Superintendent E. D. Stringer and the School Board this week received from the state department of education a report of the High School visitor, who recently inspected the school here and its workings. The report highly commends the work and gives enthusiastic praise for the advancement made along all lines. It tells of the improvement in equipment, both inside the buildings and outside and among other things, says the faculty is found to be capable, efficient and well trained, while the pupils are responsive, alert and interested. The school could not receive higher endorsement than was accorded and the patrons and citizens generally have a right to be proud of a report such as this one. It will certainly keep Supt. Stringer and his assistants "on their toes" next year to come up to the high standard established by this year's work.

A NOBLE OUTCAST

Everyone is invited to come and see "A Noble Outcast," which will be presented by the Y. W. A. at the Trigger Mountain schoolhouse Saturday night, May 23. Admission 10 cents. Cast of Characters: Colonel Lee—Jack Davis. Jerry, the outcast—John Cunningham. James Blackburn—Jasper Dellis. Jack Worthington—Roy Dellis. Mrs. Lee—Gladys Long. Frances Lee—Irene Tullos. Sadie—Lorraine Calaway.

SERIOUS WRECK OF AUTOMOBILE CONVOY

Driver Badly Injured In Wreck

About midnight Saturday night an automobile convoy was wrecked on the railroad track just above the crossing on First street and the driver, G. A. Riske of Houston, was painfully hurt, although his injuries did not prove serious.

The convoy loaded with four cars and drawn by a truck driven by Houston to Fort Stockton. When the top of the hill, east of town on the Waco road, was reached the driver found his brakes would not hold. He then threw the truck into low gear and started down the steep incline, but the load was so heavy that it doubtless caused a break in the gears and the vehicles came down the road at high speed, gaining momentum as they ran, the driver having no means by which they could be checked. Added to the misfortune the lights on the truck went out. When the foot of the hill was reached the driver could not make the turn in the road and the convoy ran straight across the ditch and onto the railroad track. There one of the cars fell off the convoy and struck Mr. Riske, causing injuries which at first seemed very serious. A physician was called and after giving him first aid treatment he was placed in the Fairman ambulance and carried to the hospital at Brownwood, where he was given x-ray examination and was found to be suffering from bruises and shock, but not seriously hurt.

The truck was badly wrecked and the car that fell over was damaged considerably, but the other cars were uninjured. Another man was sent from Houston to pilot the convoy to Fort Stockton, as it was expected Mr. Riske would be confined to the hospital for several days. It is said the injured man has a wife and children in Houston.

GOLD PINS GIVEN STAFF OF HIGH SCHOOL PAPER

Friends here of Oscar Lee Conroy are pleased to know of his graduation from San Jacinto High school in Houston, where he has specialized in journalism and has been signally honored. A Houston newspaper had the following to say of the awards of pins to the school paper's staff: "Twenty student editors and reporters on the Campus Cub staff at San Jacinto Senior High school were awarded gold pins bearing the resemblance of a miniature newspaper at the Wednesday auditorium exercises. The students received these awards as marks of meritorious work done on the school newspaper over a period of one term or more. Those receiving them were: Oscar Conroy, editor; Dan Scher, assistant editor; Sarah Redman, associate editor; Jewel Moore, advertising manager; Dorothy Moore, business manager."

A GOOD RAIN

A light rain fell here Sunday night and Monday and while it was not as heavy as most people would have liked, it was helpful, especially as the small grain was heading out and needed the moisture. Some grain is beginning to ripen and a good rain at this time would certainly be helpful. Most of it, however, is high enough to cut now and undoubtedly will grow higher anyway, but will be better for a good rain. REPORTER.

SOUTH BENNETT

Our little rain was fine. If we had had more of it, for the gardens and crops are needing rain.

BAPTIST CHURCH

Sunday is rally day at the Baptist church, and we are expecting the largest attendance at Sunday school we have ever had. Some one said to this preacher that the Athens were expecting a hundred. We are expecting half that number at the Melba theatre and the other classes are expecting an increase in attendance in proportion to these two classes. Let me urge every member of the school to do his best. Listen men and boys who attend the class at the Melba. "We've got to go after 'em." So begin now to have those who attend no Sunday school promise to be present.

The ladies have had Mr. Booker make our church look like a new one on the inside. We have ordered a hundred new song books. In fact, it looks like everything is pointing toward the Baptist church for the best day in its history as to Sunday school attendance. Let's make it the best. You who live in rural districts come to Sunday school Sunday morning. With the superintendent pulling and the rest pushing, Sunday will be a great day for our church.

We had a splendid trip and an enjoyable stay in East Texas. We are always happy to get back and be ready to take our place in our own community, doing what we can to promote the work which is near our heart.

On coming thru Fort Worth the other day, we found out that Mills county citizens are shown special favors. Wife is color blind and she forced her husband to run a red light. The cop stopped us and asked, "Where are you from?" "Mills County." "Well go on then." Just a word of caution here to husbands. It is alright to listen to your wife sometimes, but at other times you had better use your own judgment. It seems that had I not been a Mills county citizen, I might have been \$9.70 short on change, just because I listen to my wife.

Now don't be a slacker Sunday. Let's not let anything but providence keep us away from the Baptist church. If any of our bunch goes to a goat ranch Sunday and doesn't come to church, or if any go fishing and does not come to church and this pastor finds it out, we will begin our church notes next week with their names at the top. Of course, if you are shearing sheep, just send in the Sunday proceeds to our church and we will not say anything about you. Oh well, sure "nuff" we are going to look for you and we believe that you will be present if you are not providentially hindered.—G. C. IVINS, Pastor.

MISS BRAZZIE CLEMENTS DEAD

The following reference to the death of Miss Brazzie Clements is taken from a part of the account published in the Stephenville Empire-Tribune: "No death has been more sincerely regretted than that of Miss Brazzie Clements, who passed away suddenly early Monday morning at the home of her sister, Mrs. J. W. Clements, 405 East Benton street, with whom she had been staying since the twenty-fifth of January.

Miss Clements was loved by everyone who knew her and her untimely death has brought unutterable grief into the hearts of her loved ones and friends.

She was born at Hamilton on Aug. 6, 1900, and had lived in Texas practically all her life until 1921, when she was stricken ill with influenza while in Houston with her parents, Mr. and Mrs. G. G. Clements. She never recovered from the effects of her illness and for nine years had sought to regain her health in sanatoriums at El Paso, California and Denver, Colorado. She had made her home in Denver until four months ago, when she returned to Texas to be with her sister and in whose home she passed away Monday morning, May 11, at 12:15 o'clock, after only a few hours of suffering.

Miss Clements was converted and joined the First Baptist church at Goldthwaite at the age of sixteen years.

ROCK SPRINGS

Everybody was at Sunday school and B. Y. P. U. or most everyone was there. Some came who have not been coming for sometime. It was hard to hear as plain as you would like to hear, so many have bad coughs.

Maryland Woman Happy Now—Loses 55 Pounds

Edith J. Marriott of Baltimore, Md., writes: "Last winter I weighed 200 pounds and was very much ashamed. I bought a bottle of Kruschen Salts which gave such wonderful results I bought more. After four bottles I weigh 145 pounds and all my friends say, 'How slender you've gotten—how did you do it?' I say only four words—thanks to Kruschen Salts."

A generous bottle of Kruschen Salts that lasts four weeks costs but 85 cents at Hudson Bros. or any drugstore in America—take one half teaspoon in a glass of hot water every morning before breakfast—cut out pastry and fatty meats—go light on potatoes, butter, cream and sugar—that will help Kruschen take off your fat.

Take Kruschen every morning it's the little daily dose that does it—if not joyfully satisfied after the first bottle—money back.

A WARNING IN TIME

The Southern farmer usually is given high cotton prices—on the futures board—just at the season of the year when it is time to plant the fleecy staple. That silences a good deal of the argument temporarily about reducing cotton acreage. And by the time cotton is ready to be gathered, the market is down again.

There has been no such condition this year. Cotton prices have been steadily declining for the past several weeks, and certainly there is no incentive for the farmer to plant as much cotton as he did last year. Unless something unforeseen happens, the cotton farmer may have to take 7 cents a pound for his cotton this fall—and cotton can not be produced that cheaply in the United States.

It is a serious dilemma for the farmer—a dilemma that is shared by most every business man right now. The farmer can not turn to other products and see a profit in them either. Prices of other farm products are correspondingly low.

The only hope seems to be the balanced farming plan urged by county agents the country over. Balanced farming will reduce the needs of the farmer considerably, and if any one of the products of the soil should happen to advance in price he will be in a position to take advantage of the matter.

The farm board has demonstrated that it can not help. The farm relief program has not been approached in the proper manner, and the most capable executives that could be placed in charge of the operations of the farm board and its various agencies could not make it work.

But there is one thing for which we may be thankful—and that is that no sudden upturn in the future market at planting time should bring about the planting of a large acreage to cotton.—Greenville Herald.

SCHOOLASTIC CENSUS

Judge Simpson forwarded the scholastic census rolls of the county to the educational department Saturday and the scholastic apportionment will be made in accordance with these rolls. It is possible a few deductions may be made from the rolls on account of some listed being so near the border line of "overs" as to require elimination. This number will not be great.

There is a slight less in scholastics this year, as compared with last year, the totals for the entire county being:

For 1930.....2185 For 1931.....2167

These totals include Goldthwaite and Mullin Independent districts, which show:

For 1930—Goldthwaite.....468 Mullin.....262 For 1931—Goldthwaite.....452 Mullin.....246

The total of 1436 for the county last year, outside the two independent districts, was reduced 8 by the department, leaving a total of 1455 for the balance of the county. Of this number the boys and girls were divided thus:

1930 Goldthwaite boys.....209 Goldthwaite girls.....259 Mullin boys.....122 Mullin girls.....140 Balance county boys.....784 Balance county girls.....679

Of the county eight were eliminated from the total.

1931 Goldthwaite boys.....225 Goldthwaite girls.....227 Mullin boys.....107 Mullin girls.....107 Balance county boys.....768 Balance county girls.....701

With these figures the public school money coming to the county can easily be determined.

James Newton Mullan of Dallas has been here this week, visiting his grandparents, Mr. and Mrs. J. C. Mullan and Mr. and Mrs. F. N. Irwin.

When you go for a visit or have friends and relatives visit you, it is a good idea to inform the Eagle of the fact. Your friends will be interested.

Rev. and Mrs. G. C. Ivins returned Monday night from a visit to relatives and friends in eastern Texas. They encountered rain at several points.

Dr. S. A. Lowrie and daughter, Miss Kate, and his little granddaughter came in from Post last week end for a visit to relatives and to meet with friends.

Read the advertisements in this paper and then tell the dealers about having read them. It will help you as well as the Eagle and the advertisers will appreciate it.

Miss Virginia Lambert, daughter of Rev. and Mrs. S. D. Lambert, is listed as one of the graduates of Eagle Lake High school. Her Goldthwaite friends extend congratulations.

You can get fresh Graham flour every day at Keese Grain store.

W. W. Rahl and family of San Angelo were week end guests of his parents, Mr. and Mrs. W. E. Rahl, at this place. Mr. Rahl is manager for Wooten Grocery Co., at San Angelo.

Mullin school is the last one in the county to close and the commencement program begins Sunday and will end with the graduating program next Friday night, at which time Judge Lew Brewster will deliver the address.

Miss Effie Louise Geeslin, daughter of Mr. and Mrs. Frank Geeslin, has the congratulations of her Goldthwaite friends upon the occasion of her graduation from Hempden High school at the close of term this week. The lady spent a part of her week end here and has frequently visited relatives in this city.

Mr. and Mrs. Haskell Smith are here from Austin last week end, visiting Mr. and Mrs. H. Randolph. They were accompanied by their son-in-law and daughter, Mr. and Mrs. Pulliam, the latter being known to many here as Miss Janice Smith, who frequently visited in the Randolph home here and is quite popular with a large circle of friends.

BAPTIST CHURCH

Sunday is rally day at the Baptist church, and we are expecting the largest attendance at Sunday school we have ever had. Some one said to this preacher that the Athens were expecting a hundred. We are expecting half that number at the Melba theatre and the other classes are expecting an increase in attendance in proportion to these two classes. Let me urge every member of the school to do his best. Listen men and boys who attend the class at the Melba. "We've got to go after 'em". So begin now to have those who attend no Sunday school promise to be present.

The ladies have had Mr. Booker make our church look like a new one on the inside. We have ordered a hundred new song books. In fact, it looks like everything is pointing toward the Baptist church for the best day in its history as to Sunday school attendance. Let's make it the best. You who live in rural districts come to Sunday school Sunday morning. With the superintendent pulling and the rest pushing, Sunday will be a great day for our church.

We had a splendid trip and an enjoyable stay in East Texas. We are always happy to get back and be ready to take our place in our own community, doing what we can to promote the work which is near our heart.

On coming thru Fort Worth the other day, we found out that Mills county citizens are shown special favors. Wife is color blind and she forced her husband to run a red light. The cop stopped us and asked, "Where are you from?" "Mills County." "Well go on then." Just a word of caution here to husbands. It is alright to listen to your wife sometimes, but at other times you had better use your own judgment. It seems that had I not been a Mills county citizen, I might have been \$9.70 short on change, just because I listen to my wife.

Now don't be a slacker Sunday. Let's not let anything but providence keep us away from the Baptist church. If any of our bunch goes to a goat ranch Sunday and doesn't come to church, or if any go fishing and does not come to church and this pastor finds it out, we will begin our church notes next week with their names at the top. Of course, if you are shearing sheep, just send in the Sunday proceeds to our church and we will not say anything about you. Oh well, sure "nuff" we are going to look for you and we believe that you will be present if you are not providentially hindered.
G. C. IVINS, Pastor.

MISS BRAZZIE CLEMENTS DEAD

The following reference to the death of Miss Brazzie Clements is taken from a part of the account published in the Stephenville Empire-Tribune: "No death has been more sincerely regretted than that of Miss Brazzie Clements, who passed away suddenly early Monday morning at the home of her sister, Mrs. J. W. Clements, 405 East Benton street, with whom she had been staying since the twenty-fifth of January.

Miss Clements was loved by everyone who knew her and her untimely death has brought unmitigated grief into the hearts of her loved ones and friends.

She was born at Hamilton on Aug. 6, 1900, and had lived in Texas practically all her life until 1921, when she was stricken ill with influenza while in Houston with her parents, Mr. and Mrs. G. G. Clements. She never recovered from the effects of her illness and for nine years had sought to regain her health in sanatoriums at El Paso, California and Denver, Colorado. She had made her home in Denver until four months ago, when she returned to Texas to be with her sister and in whose home she passed away Monday morning, May 11, at 12:15 o'clock, after only a few hours of suffering.

Miss Clements was converted and joined the First Baptist church at Goldthwaite at the age of sixteen years.

ROCK SPRINGS

Everybody was at Sunday school and B. Y. P. U. or most everyone was there. Some came who have not been coming for sometime. It was hard to hear as plain as you would like to hear, so many have bad coughs.

Mrs. Beryl Turner is visiting her parents, Mr. and Mrs. J. M. Traylor.

Claud Smith and wife had company Sunday from the looks of cats in front of their house, but I failed to learn who was there.

Mrs. James Holley and Nickols spent last Wednesday in Joe Roberts' home.

Mrs. Mesdames Coats, Roberts and McClary and J. C. Tiner went to the Lake fishing last Wednesday afternoon.

Miss Nellie D. Cooke visited Mrs. Claud Smith last Thursday afternoon.

Mrs. Claud Holley left for her home in Gonzales Sunday morning, after visiting her mother, Mrs. Nickols, and other relatives last week.

J. T. Robertson and family visited Douglas Robertson and family at Lake Merritt Sunday.

Mrs. J. C. Stark visited Mrs. Claud Smith last Wednesday afternoon and Friday afternoon Mrs. Smith returned the call.

Nellie D. Cook and Ethel and Hardy McClary dined in the Nickols home Sunday.

W. A. Cooke called at A. D. Karnes' at town Sunday afternoon.

J. C. Stark and family and Joe Davis and family from Elkin spent Sunday with J. F. Davis and wife.

Oran, Orville and Lewis Hale sheared Duke Clements' sheep Tuesday.

Philip Nickols is helping Walton Daniel hoe corn this week.

Donald Brim from Liberty was in this community Saturday night and Sunday.

Loy Long and wife spent Sunday night in the Ellis home.

Fred McClary and Abbie Hunt sat until bed time in the Nickols home last Thursday night.

F. W. Chadwick and family visited E. D. Robinson Sunday afternoon.

Mrs. Mesdames Nickols and Holley enjoyed last Thursday in R. E. Clements' home.

A. F. McGowan visited his children in Coleman last week.

Laughlin brothers sheared sheep last week for Daniel, Webb and Robertson.

Marion Robertson and family visited Sunday in the Traylor home.

J. F. Davis and wife sat until bed time Sunday night with Mr. and Mrs. J. T. Robertson.

Mrs. Mesdames Holley and Nickols dined with Homer Doggett and wife and Dwight Nickols Saturday.

Henry Simpson and family visited in the Davis home Sunday afternoon.

R. C. Webb and wife and James Nickols visited in J. C. Stark's home Monday night.

Mrs. Eula Nickols and Miss Love Gatlin and Miss Kerfoot from town enjoyed the afternoon Sunday on the Gatlin farm.

At this writing it looks like we may get a rain before this is printed.

Maryland Woman Happy Now—Loses 55 Pounds

Edith J. Marriott of Baltimore, Md., writes: "Last winter I weighed 200 pounds and was very much ashamed. I bought a bottle of Kruschen Salts which gave such wonderful results I bought more. After four bottles I weigh 145 pounds and all my friends say, 'How slender you've gotten—how did you do it?' I say only four words—thanks to Kruschen Salts."

A generous bottle of Kruschen Salts that lasts four weeks costs but 85 cents at Hudson Bros. or any drugstore in America—take one half teaspoon in a glass of hot water every morning before breakfast—cut out pastry and fatty meats—go light on potatoes, butter, cream and sugar—that will help Kruschen take off your fat.

Take Kruschen every morning it's the little daily dose that does it—if not joyfully satisfied after the first bottle—money back.

A WARNING IN TIME

The Southern farmer usually is given high cotton prices—on the futures board—just at the season of the year when it is time to plant the fleecy staple. That silences a good deal of the argument temporarily about reducing cotton acreage. And by the time cotton is ready to be gathered, the market is down again.

There has been no such condition this year. Cotton prices have been steadily declining for the past several weeks, and certainly there is no incentive for the farmer to plant as much cotton as he did last year. Unless something unforeseen happens, the cotton farmer may have to take 7 cents a pound for his cotton this fall—and cotton can not be produced that cheaply in the United States.

It is a serious dilemma for the farmer—a dilemma that is shared by most every business man right now. The farmer can not turn to other products and see a profit in them either. Prices of other farm products are correspondingly low.

The only hope seems to be the balanced farming plan urged by county agents the country over. Balanced farming will reduce the needs of the farmer considerably, and if any one of the products of the soil should happen to advance in price he will be in a position to take advantage of the matter.

The farm board has demonstrated that it can not help. The farm relief program has not been approached in the proper manner, and the most capable executives that could be placed in charge of the operations of the farm board and its various agencies could not make it work.

But there is one thing for which we may be thankful—and that is that no sudden upturn in the future market at planting time should bring about the planting of a large acreage to cotton.—Greenville Herald.

SCOLASTIC CENSUS

Judge Simpson forwarded the scholastic census rolls of the county to the educational department Saturday and the scholastic apportionment will be made in accordance with these rolls. It is possible a few deductions may be made from the rolls on account of some listed being so near the border line of "overs" as to require elimination. This number will not be great.

There is a slight loss in scholastics this year, as compared with last year, the totals for the entire county being:

For 1930	2185
For 1931	2167

These totals include Goldthwaite and Mullin Independent districts, which show:

For 1930—Goldthwaite	468
Mullin	262
For 1931—Goldthwaite	452
Mullin	246

The total of 1436 for the county last year, outside the two independent districts, was reduced 8 by the department, leaving a total of 1455 for the balance of the county. Of this number the boys and girls were divided thus:

1930 Goldthwaite boys	209
Goldthwaite girls	259
Mullin boys	122
Mullin girls	140
Balance county boys	784
Balance county girls	679

Of the county eight were eliminated from the total.

1931 Goldthwaite boys	225
Goldthwaite girls	227
Mullin boys	127
Mullin girls	107
Balance county boys	768
Balance county girls	701

With these figures the public school money coming to the county can easily be determined.

"When I sell anybody on Germ-Processed Oil once... they stay sold!"

THE use of Conoco Germ-Processed Motor Oil becomes a decided preference once you have had it in your crankcase. Its value to your motor, and to you, is quickly demonstrated. You may never have need to call on it for the extra safety factor it provides. You may never drive fast enough to test its ability to stand up day after day at 60 miles per hour. But when your speedometer says it is your usual oil changing time and you find your oil in perfect condition for longer use... when your gas-

gauge tells you that your mileage has definitely increased... when the space of time between added quarts of oil and between repair bills has appreciably lengthened... then you know that you were right in changing to Germ-Processed oil. So many motorists have changed to Germ-Processed and "stayed sold" that it has caused a real stir in oil circles. Join these motorists in their satisfaction. Stop today at the sign of the Conoco Red Triangle and ask for Conoco Germ-Processed Motor Oil. All grades 35¢ per quart.

DIVERSIFIED FARMING

Diversified farming does not mean a system which takes the farm into little bits of this and that design. Diversification means home surplus at home and cotton surplus crop. All of the read tiresomely of what a farmer to produce. Many calculators put it as 20 a pound, and all about twice as high as now sells at. The true is that the cost of production varies with the types of farmers. One depends on his cotton crop everything certainly can be done cheaply. But who depends on cotton by a few necessities, the them being produced at an come out ahead even in-cent cotton. It has one a million times. Every shows that nine cents used nice price for cotton. was not uncommon, the people lived as long, hatched a darn sight often under present conditions. What broke the South's leg was the war boom, beguiled all of us in states into regarding a patch as a gold mine. Independent farmer is one independent of credit, no all-cotton farmer is, as or ever will be, —ness in Dallas News.

THE STRENGTH LIES

Mean government is based on the theory that those who shall have the minimum of power and authority, so that people can keep their individual liberties, said Governor D. Roosevelt in a address in New York City, showing the functions of the state and federal governments. Governor Roosevelt said that back of the national and state constitutions is one thought that the governing authorities be not broad power. He contended that there was an "awful of misinformation" government and that persons even assumed the governor was a white father.

The government does not have omnipotent power," said Governor Roosevelt. "The federal constitution, after listing powers of the national government, specifically gives all powers to the states. The must not be given broad powers to regulate your life and that is our own task. The of the nation lies not in individuals and families." It is not to be forgotten that the Canadian Grain Pool operating on its own funds, though with less wheat on its hands, has exactly the same problem as our wheat board, operating on public funds. Apparently, the announcement of Feb. 26 was nowhere read with greater interest than across the border. At any rate, since February the wheat board has managed to utilize foreign outlets in getting rid of a total of only 8,000,000 bushels of which 3,000,000 was shipped during the last four weeks. However, in the four weeks during which the latter amount was exported, the Canadian Grain Pool exported no less than 25,000,000 bushels.

BILIOUS

I have used Black-Draught . . . and have not found anything that could take its place. I take Black-Draught for biliousness. When I get bilious, I have a nervous headache and a nervous, trembling feeling that unfits me for my work. After I take a few doses of Black-Draught, I get all right. When I begin to get bilious, I feel tired and run-down, and then the headache and trembling. But Black-Draught relieves all this.—H. O. Hendrix, Homerville, Ga.

For indigestion, constipation, biliousness, take Thedford's BLACK-DRAUGHT. Men who need a tonic should take Thedford's Black-Draught. Used over 50 years.

THE "HOMESTEAD" AMENDMENT

He is a wise prophet who can forecast public reaction to every political proposal.

Consider the proposed constitutional amendment to exempt small homesteads from the ad valorem tax. Every element requisite to popular approval would seem to have been incorporated in that proposal. It would have been particularly logical to expect support for the measure from small-homestead owners.

But such logic is emphatically confuted. There are owners of small homesteads—literally hundreds of them—who deem it privilege as well as duty to contribute to the support of their government. They want tax relief (who doesn't?) but they don't want tax charity. They resent the touch of paternalism, which would make them beneficiaries of government without assumption of its responsibilities. In terms which leave no doubt as to their feeling in the matter, they are expressing their resentment in a flood of open letters to the press.

No recent happenings has so clearly demonstrated the fundamental sanity of Texas thinking as the reception accorded this silly suggestion for tax relief. Texas taxpayers, small, as well as large, want as much tax relief as they can get, but they want it justly, equitably, soundly. They want relief, not charity, facts, not fallacies. More, even, than anything else, they want efficient and economical management as distinguished from such empty political gestures as class tax-exemption.

Eventually some legislator is going to learn that Texas people are perfectly willing to pay for their government, but that they want their money's worth. And that legislator is going to be promoted to the governorship, elected senator, or, maybe, made president. He can write his own ticket.—Editorial Digest.

WOES OF A WHEAT BOARD

While the intent has been denied several times since, Chairman Stone specifically declaring the other day that no American wheat would be dumped abroad, the fact remains that on Feb. 26, the Federal Wheat Board announced that it is preparing to export 35,000,000 bushels of wheat to foreign markets.

It is not to be forgotten that the Canadian Grain Pool operating on its own funds, though with less wheat on its hands, has exactly the same problem as our wheat board, operating on public funds. Apparently, the announcement of Feb. 26 was nowhere read with greater interest than across the border. At any rate, since February the wheat board has managed to utilize foreign outlets in getting rid of a total of only 8,000,000 bushels of which 3,000,000 was shipped during the last four weeks. However, in the four weeks during which the latter amount was exported, the Canadian Grain Pool exported no less than 25,000,000 bushels.

The foreign demand now is largely confined to the same grade of wheat in both countries, the durum variety, which, indispensable for spaghetti and kindred foods, is said to be scarce in Europe this spring. Australia and South America are said to be supplying the full demand for cheaper, softer wheats, perhaps more than the full demand.

If the board changed its mind about the chance to sell the 35,000,000 bushels abroad, it may have had a good reason for it. The 8,000,000 bushels it sold, plus the 25,000,000 the Canadians sold, makes 33,000,000 bushels. With deliveries made over the week end it is expected that the board will have in its possession no less than 225,000,000 bushels of wheat—an avalanche of wheat overhanging world markets such as has not been known before in the history of the grain trade. —St. Louis Globe-Democrat.

Next year's convention of the West Texas Chamber of Commerce convention will be held at Sweetwater. That city was chosen at the closing session of the convention early Saturday afternoon, in competition with Amarillo and Mineral Wells.

In a resolution adopted at Birmingham last Friday the Southern Baptist convention pledged itself to seek the defeat of any political candidate, national or state, and irrespective of party affiliation, who is opposed to the prohibition law, and who does not openly support it.

DID YOU EVER STOP TO THINK

That it is very important to think about the needs of the home city and what it takes to make it a bigger, better and busier city.

It won't even start on the road of better business until plans are first made.

There are many ways of improving business in every city. There are many people with different ideas. They could not all be put into effect at one time. Some of them would not be practical.

The best way to get a start is through the right kind of co-operation.

People co-operating together can decide on the ideas that will be of the most benefit to all. When that is done, plan together how to convert these ideas into an accomplished fact, then, with the united effort of all, DO IT!

Investigation will show that the cities that are moving ahead are operating in this way.

Growing cities attract new industries, investors, home seekers and many new enterprises.—Edson R. Waite, Shawnee, Okla.

A would-be hijacker at Wharton was shot and killed by a nightwatchman and proved to be the son of a prominent family of the town.

The president of the international typographical union, in speech before the national convention in El Paso this week, advocated a five-day week or a six-hour day as a remedy for unemployment in the printing trade. His idea is a good one; provided, of course the pay demanded is commensurate with the hours of work. If he means the reduction in working time should be made without a reduction in the weekly pay demanded, he is all wet. The plan to divide the work among workers is a good one.

Nine-Tenths Preventable

Nine-tenths of all the diseases of the American people can be traced directly to constipation, doctors say. Constipation throws into the system poisons which taint and weaken every organ of the body and make them easy victims for any germs which attack them. Prevent constipation and you will avoid nine-tenths of all diseases, with their consequent pain and financial losses. Herbine, the good old vegetable cathartic, relieves constipation in a natural and pleasant way. For sale by HUDSON BROS. DRUGGISTS

IN congratulating the winners in the great Camel contest we want at the same time to thank most cordially the approximately million men and women who displayed their friendly interest by sending in an entry.

We wish also to thank the millions of smokers throughout the country for the appreciation they are showing for our new Humidor Pack as is evidenced by the notable increase in the sale of Camel cigarettes.

By means of this dust-proof, germ-proof,

moisture-proof Cellophane wrapping the rich aroma and full flavor of choice Turkish and mellow Domestic tobaccos have been air-sealed in Camels for your enjoyment.

If you have not tried Camels in the Humidor Pack all we ask is that you switch over to this brand for one day.

After you have learned how much milder how much cooler, how much more enjoyable it is to smoke a perfectly conditioned fresh cigarette, go back to the harsh habit of stale cigarettes if you can.

BIOGRAPHY OF MRS. M. J. PECK

Mrs. M. J. Peck, who resides
near Star, on Bennett Creek
Stock Farm, formerly Mary J.
McCamy, born November 23, 1852
in Murray county, Ga., sixteen
miles east of Dalton, Ga. Death
claimed her good mother when
she was a small child and she
assumed the responsibility of a
motherless home in the tender
years of childhood. After a few
years her devoted father pre-
sented her with a stepmother,
whom she loved and honored
the rest of her life. In 1865 she
was converted and united with
the Methodist church at Mc-
Camy's Chapel in Georgia.

James W. Peck and Miss Mary
McCamy were happily married
in 1880, in Murray county, Ga.,
and resided there for seven
years. Three fine, strong sons
came to this happy home, Wil-
liam Russell, Thomas Henry and
Joseph Edgar Peck. News came
of great opportunities away out
west in Texas, where land was
cheap and grass free.

Pioneering

The young husband bade his
little family and his aged fath-
er adieu and came to Mills coun-
ty and bought land near Star,
on Bennett's Creek. It was a
beautiful tract of land with a
bounteous supply of both wood
and water and deep soil. He re-
turned to Georgia with brilliant
plans for the future and glow-
ing accounts of the new west.
He fully realized that the move
would incur many hardships
too, for pioneering in a new
land was no easy task, but the
young wife was as brave and
persevering as he and gladly
looked forward to the new home,
but man proposes and God dis-
poses. The young man's health
began to decline. He was an in-
valid for some time and then
passed into the great beyond.
He had requested his wife to be
a daughter to his aged father
and for seven years she and the
little boys tenderly administered
to his comforts and the sacred
trust was kept until the death
angel called him home.

These years were valuable to
the sons, who learned the value
of obedience, patience and in-
dustry.

Westward Ho!

The mother, Mrs. M. J. Peck,
and three sons arrived in the
eastern part of Mills county,
Texas, thirty-six years ago and
endeavored to carry out the
plans that had been formerly
made for them. Mrs. M. J. Peck
said laughingly that "these were
strenuous times even in the long
ago. Many strong men failed to
pay out their land, to build
fences and to provide necessities
for a family.

Mrs. Peck and her sons coun-
seled together and worked side
by side. She taught them to hon-
or their name and to shun the
tyrant debt. The Bible was her
guide. The winds of adversity
came, storms and drouths visited
them, but their hope was found-
ed upon the strong rock of faith
and work. Prosperity came by
degrees, a ray of hope and victo-
ry was theirs, and gladness
reigned in this congenial home.

God Moves In A Mysterious Way

Some sweet day we will un-
derstand the calling home of the
brilliant young Wm. Russell
Peck, the first born, the main
stay and comfort of mother.
Two young sons were left to car-
ry on and bless and cheer the
home. School and work and their
college days came.

Mrs. Peck and her thrifty sons
decided that they were paying a
heavy toll in rotting feed and
freezing stock by not having suf-
ficient barns. They electrified
their neighbors by erecting one
of the largest barns in that sec-
tion of the state. While the
neighbor men were building new
home for themselves, Mrs. Peck
laughingly remarked, "my barn
will build a house, but a house
never built a barn." She demon-
strated this fact by building a
comfortable home in a few years.
The home has many modern
conveniences, electricity, run-
ning water piped all over the
place, concrete workshop and
poultry houses and a radio. A
panoramic view from this home,
broad acres at a distance with
growing grain. Down on the
banks of the creek are many
pecan trees, droves of turkeys
and chickens, herds of sheep and
goats. Then to your hearts con-
tent that valuable admired herd
of registered Durham cattle that
has won the blue ribbons of hon-
or. Mrs. Peck and sons own one

THAT SHOUSE SPEECH

When Jouett Shouse address-
ed the Texas Legislature last
week, he blasted away any hopes
that may have persisted in the
minds of some of his hearers that
Herbert Hoover might yet bring
the nation out of the depths of
depression. Calling the Republi-
can party "a barker for Wall
Street," he charged it directly
with the responsibility for the
present economic situation in
which 90 per cent of the wealth
of the country has been concen-
trated in the hands of 10 per
cent of its people.

Shouse recalled Hoover's pre-
election pledges of "abolition of
poverty," substitution of the full
garage for the full dinner pail,
"the security of a man in his
job" and other similar optimistic
phrases. He accused Hoover and
the Republican party with deli-
berate misrepresentation of the
seriousness of the "unemploy-
ment situation, by suppressing
the census figures on unemploy-
ment until after the elections
last fall. Now they are trying to
alibi with the excuse of a "world-
wide depression," he said.

When congress convenes in
December, Shouse predicted that
the Democrats will control both
houses and that their first act
will be to pass the Wagner un-
employment bill over the presi-
dent's veto.

By Their Fruits Ye

Shall Know Them

"Aunt Mollie Peck," as she is
affectionately called in the Star
community, always keeps open
house and feeds the hungry and
comforts those who are sick phy-
sically or spiritually. She gives
generously of her time and
means to help the cause of
Christ. She always has a warm
welcome for the ministers of all
denominations, and her home is
their's when they are in that
section. She is a regular Sunday
school teacher and church at-
tendant at Star, three miles
from her home.

Her eyes are growing dim and
her steps are not so firm, but
her amiable smile is growing
even sweeter and seems to say
"Peace on earth, good will to-
ward all. I gave to the world the
best I had and the best came
back to me. May there be no
mourning at the bar when I put
out to sea."

PAYNE GAP

As we have been a silent read-
er of the dear old Eagle for some
time, will break the silence by
sending a few happenings.

Mr. and Mrs. Laughlin and
children motored over to see Mr.
and Mrs. W. B. Wilkey Sunday
afternoon.

Mrs. J. G. McMurray is on the
sick list, but glad to report she
is slowly improving.

Mrs. Johnnie McMurray, who
spent some four or five months
in New Mexico, returned home
last week. She reports a very
enjoyable stay, having visited
Carlsbad Cavern and other
places of interest.

Miss Opal Taylor has been
suffering with whooping cough,
but is some better at this writ-
ing.

Ray McMurray is plowing corn
this week. He spent Sunday af-
ternoon with home folks.

Marvin Collier and family also
spent the afternoon in the Mc-
Murray home.

Mrs. Callie Higgins and Mrs.
Orbie Duncan were shopping in
Goldthwaite Saturday.

A. A. Hunt, Henry Duncan,
J. G. McMurray and others, who
own sheep, had them sheared
last week.

Mr. and Mrs. Charlie Perry
spent the week end with rela-
tives at Pleasant Grove.

Our school closed the 15th. C.
E. Smith having taught a suc-
cessful term was re-elected for
another year.

The trustees of this district
went over to Plainview to an
auction sale Saturday, where
they purchased a number of ar-
ticles for the Payne Gap school.

We are enjoying the showers
this week. Hope everybody will
get enough to benefit their crops
and gardens. BLUEBONNETT

ARE YOU TOO FRIENDLY?

Because of the custom in ser-
vice clubs of calling members
each by their first name, the
habit is becoming more gener-
ally used outside.

Too many persons on short ac-
quaintance use the first name.

To use the first name is sup-
posed to indicate a close friend-
ship, or at least a friendship
that is mutually agreeable.

There are many men who do
not wish to be classed as a close
friend of anyone of whom they
know little.

Men banded together in an or-
ganization in which each mem-
ber is admitted because no one
objects to him, have less cause
for complaint when addressed
by their first names.

But there are those outside
these bodies who carry the sys-
tem altogether too far, according
to complaint hard now and then.

The person who gets too fam-
iliar on short acquaintance
usually has a reason for want-
ing to give others the impres-
sion that he and so and so are
friends of long standing.

He thinks it may aid him so-
cially or in a business way.

But to preserve friendly rela-
tions with men generally, don't
assume a position to which you
are not entitled. — Houston
Chronicle.

Miss Georgia Frizzell returned
Wednesday from her vacation,
which was spent in New Or-
leans and Mississippi.

INITIATIVE

The world bestows its big
prizes, both in money and hon-
ors, for one thing.

And that is Initiative.

What is initiative?
I'll tell you: It is doing the
right thing without being told.

But next to doing the right
thing without being told is to do
it when you are told once. That
is to say, carry the Message to
Garcia; those who can carry a
message get high honors, but
their pay is not always in propo-
rtion.

Next, there are those who never
do a thing until they are told
twice; such get no honors and
small pay.

Next, there are those who do
the right thing only when neces-
sity kicks them from behind, and
these get indifference instead of
honors, and a pittance for pay.
This kind spends most of its
time polishing a bench with a
hard-luck story.

Then, still lower down in the
scale than this, we have the fel-
low who will not do the right
thing even when some one goes
along to show him how and
stays to see that he does it. He
is always out of a job, and re-
ceives the contempt he deserves,
unless he happens to have a rich
pa, in which case, destiny pa-
tiently waits around the corner
with a stuffed club.

To which class do you belong?

JUDGE FEW BREWSTER WILL ADDRESS SENIORS

The graduation exercises for the Mullin High school seniors will be held May 29 at the school auditorium. The seniors will have their final exercises and will receive diplomas from M. H. S.

Judge Few Brewster is an eloquent speaker and the Mullin people and friends are anticipating the pleasure of attending the senior graduation and again hearing an address by Judge Brewster.

BACCALAUREATE SERMON

Dr. A. E. Prince of Brownwood will preach the baccalaureate sermon on Sunday, May 24, at the Methodist church.

He has a large circle of friends here who will count it a special privilege to again hear him preach. A special program with songs and music has been prepared for this occasion.

KIDNAPING AT MULLIN

Late Tuesday evening as the sun was setting and night approaching Mullin citizens met their first kidnaper.

The faculty of the school was invited for a "ride" in a closed car that left town at a terrific speed, going south.

The car was closely followed by friends, and five miles from town off the highway the car abruptly stopped and the faculty was invited to enter the lovely new ranch home of Mr. and Mrs. A. G. Weston, where a banquet had been prepared for them by the P. T. A. Sweet peas and other lovely spring flowers effectively decorated the pretty reception rooms. Thirty guests were present.

Mesdames A. G. Weston and C. C. Hanepek each won a lovely prize in the flower and musical contests. To make a long story short it was one of the jolliest and best banquets of the season. Sweet peas were the favors and the menu was made in the land of Utopia, where vivid imaginations are real.

GRAMMAR SCHOOL OPERETTA WILL BE GIVEN FRIDAY, MAY 22

The preliminary program for the closing exercises of the Mullin school will be given by the primary and grammar grades in the form of an operetta on Friday night, May 22. This presentation has been under the direction of a faculty committee composed of Miss Katherine Kemp, chairman, and Misses Mabel Smith, Clemmie Mae Hancock and Aline Fisher.

There will not be any admission charge. All patrons and friends have a cordial invitation to attend this promising program.

BRIDE SHOWERED

The pretty new home of Mr. and Mrs. LaFayette Smith was most attractive with lovely flowers and an atmosphere of welcome by the hostess, Mrs. Smith, Thursday afternoon from two to four, when Mrs. J. C. Chancellor was showered with a bounteous supply of both useful and ornamental gifts.

Contests of Touring and Flowers were the cause of much merriment, then a new game that never grows old was the all absorbing "42" that occupied a group of the guests.

A little gift book for the bride entitled "Favorite Recipes by Favorite Friends" each guest wrote a tried and true recipe that will be used by the new housekeeper in the years to come as well as the present.

Cake and cream were served to the following guests: Mesdames J. B. Applewhite, J. L. Herrington, S. M. Casey, G. W. Chancellor, J. W. Ratliff, F. E. Leineweber, O. E. Rice, S. V. Roberts, M. R. Wylie, M. E. Casey, W. C. Preston, H. R. McDonald, L. L. Wilson, S. J. Casey, G. M. Fletcher, C. C. Hancock, A. G. Weston, A. S. Pyburn, T. J. Clendennen, S. H. Davis, I. McCurry, M. McCullars, W. S. Kemp, S. H. Davis, E. Ince, Misses Kirkpatrick and Tyson.

Misses Aline Hamilton of Dallas and Alma Hamilton of Kilgore are here for a visit to their parents, Mr. and Mrs. D. A. Hamilton.

Friends here will regret to hear of the death of Mrs. W. T. Fisher's brother at his home in New Mexico. He had been ill for some time and his going was not a surprise. Sympathy is extended to Mrs. Fisher by the Enterprise and its readers.

Mr. and Mrs. G. W. Chancellor, Mrs. J. L. Herrington, Mr. and Mrs. S. J. Casey, Mr. and Mrs. L. L. Wilson and Mrs. J. L. Chancellor and W. H. McFarland were among the group from here who attended the Royal Arch Masonic lodge at Goldthwaite Friday night.

Mr. and Mrs. R. P. Canady and Mr. and Mrs. Hicks of Brownwood visited in the home of J. J. Canady Sunday.

C. P. Alberty was a visitor to the dentist in Goldthwaite Tuesday.

Mr. and Mrs. W. G. Shirey and Miss Appie Lou Shirey left Wednesday for an extended trip to Albertsville, Ala., and points in Georgia. This is their first visit back to their native state in years and may be a most pleasant one, without a shadow to mar the pleasures of the visit.

John Shelton was a visitor to Star Sunday.

Mrs. J. E. Ince and little daughter, Christine, were in town Wednesday and Mrs. Ince said they had recently traded with Mrs. O. B. Fleming for the farm, where they now reside and will remain here permanently. This is good news to their many neighbors and friends in this section of the county.

THE GOLDTHWAITE EAGLE

A movement has been inaugurated by the war department to displace horses and mules with motor vehicles. It will take several years to effect the change entirely, but already the plans are going forward.

Thieves in Galveston put over a fast one on a Houston policeman, who was spending the day in the island city. They gained access to his locked automobile by means of a duplicate key, took his diamond pin valued at \$150, his watch, a purse containing \$29, a revolver and his official bond, relocked the car and made a getaway.

Six prisoners in San Angelo jail overpowered the jailer, beat a deputy sheriff into insensibility and escaped in an automobile taken from a postman Saturday. The leader of the gang was J. D. Conner, a former school teacher of Brown county and graduate of Howard Payne college, who was under sentences aggregating thirty-five years for robbery by firearms and other charges. He had made the claim that he would never be taken to the penitentiary and it now looks as if his claim will be made good. It is supposed the outlaws headed for Mexico and were last seen south of Ozona. One of Conner's most outstanding acts was kidnaping a railroad president in San Antonio and securing \$75,000 ransom, most of which was afterward recovered.

It is believed that Mrs. Woodrow Wilson is considering journeying to Poland to witness the unveiling of a monument to the war president. Although the formal invitation from the president of Poland has not been extended, it is understood that Mrs. Wilson has been consulted, and has expressed interest in witnessing the ceremonies that July 4, will attend the unveiling. Gen. John J. Pershing, who commanded the American expeditionary forces, and is now in Europe, also is expected to be present at Poznan—old Posen—when highest officials lead a national expression of Polish friendship for the United States. Woodrow Wilson declared the restoration of an independent Poland to be an object of the allies' cause and one of the points he outlined in the peace negotiations restored Poland, with an outlet to the sea.

Staff of Texas joined with Waco and Baylor university in paying last homage to Dr. Samuel Palmer Brooks, for whom funeral services were held at 2:30 p. m. Friday in Waco Hall, one of the new university buildings, which he dedicated a year ago this month. The body of the late president, who died Thursday, after a long illness, lay in state at the hall with a guard of honor, composed of 16 Baylor seniors, before the services. Dr. Brooks' effort to sign diplomas for the 25 June graduates, while on the deathbed, was blamed by physicians with having hastened his death by several days. Being able to sign only 200 of these before his strength failed. Waco closed its business offices and stores Friday afternoon in tribute to the educator's memory. Public schools also closed, and the city hall suspended activities, as did the county court house. Flags were draped at half mast. Former Governor Pat M. Neff, roommate of Dr. Brooks for four years, while the two were students at Baylor university, presided at the funeral services. Dr. J. M. Dawson, pastor of the First Baptist church of Waco, delivered the funeral address.

You are hereby commanded to summon Mrs. Nannie F. Cook, widow, Mrs. Mary Bryan and husband, C. A. Bryan, Mrs. Avo Lumpkin and husband, W. H. Lumpkin, Mrs. Willie James and husband, A. H. James, Mrs. Della Bason and husband, S. M. Bason, Mrs. Etta James and husband, L. L. James, Mrs. Mary Brian and husband, C. A. Brian, Mrs. W. D. Halle, Mrs. Ella Halle and the heirs of W. D. Halle, deceased, and all the heirs, representatives, legatees and devisees of the above named parties, by making publication of this Citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your county, to appear at the next regular term of the District Court of Mills county, to be holden at the court house hereof, in Goldthwaite, Texas, on the fourth Monday in September, A. D. 1931, the same being the 28th day of September, A. D. 1931, then and there to answer a petition filed in said court on the 13th day of April, A. D. 1931, in a suit, numbered on the docket of said court No. 2334, wherein Co-Operative National Farm Loan Association, a corporation, of Comanche county, Texas, is plaintiff and Mrs. Nannie F. Cook, widow, Mrs. Mary Bryan and husband, C. A. Bryan, Mrs. Avo Lumpkin and husband, W. H. Lumpkin, Mrs. Willie James and husband, A. H. James, Mrs. Della Bason and husband, S. M. Bason, Mrs. Etta James and husband, R. L. James, Mrs. Mary Brian and husband, C. A. Brian, Mrs. L. A. Lumpkin, Mrs. W. D. Halle, Mrs. Ella Halle and the heirs of W. D. Halle, deceased, and all the heirs, representatives, legatees and devisees of the above named parties, are defendants, and said petition alleges: That on Aug. 11, 1917, Willie Henderson Baskin and wife, Effie Gertrude Baskin, executed a deed of trust on the hereinafter described land, to the Federal Land Bank of Houston, to secure a note for \$1,875. Said note bore 5 per cent interest and was payable in 71 installments, semi-annually, payments being \$50.25 each, with final payment of \$78.05, said deed of trust recorded in Vol. 8, pages 135-138, deed of trust records of Mills county, Texas, and conveying the following described lot, tract or parcel of land, to-wit:

A part of Block No. 3 of the subdivision of the East 1,500 acres of land out of the Adam Cloud survey in Mills County, Texas: Beginning at the original SW corner of said block No. 3; thence S 84 7/8 vrs to SE corner of Block No. 3 and SW corner of Block No. 4; thence S 1,000 vrs to stone mound in east line of Block No. 3; thence S 84 7/8 vrs to west line of said Block No. 3; thence S 1,000 vrs to the place of beginning, containing 150 acres of land, and being same and conveyed by G. B. Baskin and wife to W. H. Baskin by deed shown of record in Volume 10, page 326, Deed Records, Mills county, Texas, to which reference is made for more particular description.

That, thereafter, to-wit: On or about the 14th day of March 1923, the land above described was sold and conveyed to W. D. Halle, the latter assuming the payment of said note for \$1,675 above described, thereby becoming personally liable for the prompt and punctual payment thereof.

In compliance with the Federal Farm Loan Act the makers of said note, and deed of trust, and those who assumed its payment, became the owners of 17 shares of Capital Stock of this plaintiff of par value of \$5.00 each; and the plaintiff was required to dig, subscribe and pay for an equal number of shares of stock in the Federal Land Bank of Houston of the par value of \$5.00 each; and which is held as collateral security by said bank on account of the endorsement of said note and loan by plaintiff; and plaintiff holds the stock of the makers of said note and mortgage as collateral security to it by the reason of said endorsement. That the payment of interest herein alleged, represents only a small part of the loan made herein, and that the stock owned by the makers of said note is pledged for collateral security for the whole of said loan and cannot be used or applied in discharge of any single installment on said note, and plaintiff holds said stock as collateral security for the payment of the whole indebtedness. And the plaintiff, by reason of the provisions of the Federal Farm Loan Act is entitled to have said stock sold with the land and not separately, subject to the unpaid balance of the defendants note to said bank and the obligation of said plaintiff as herein set forth, and now sues for such relief, as well as other relief sued for herein, and as to said stock for only such equity and ownership as defendants have or appear to own. That defendants above named, failed to pay the semi-annual installments on said note, due on May 1, 1930, November 1, 1930 and May 1, 1931, amounting to \$150.75. That complying with the provisions of law, the said loan first above referred to was made thru

WEENIE ROAST AT TRIGGER MOUNTAIN

Last Thursday afternoon at five o'clock all of these were ready for a good time at Miss Ruby Caves home at Trigger Mountain: Mrs. J. C. Mullan and daughter, Miss Harrell, Mrs. Brookling and in other, Mesdames Holley, Robexts, Nickols, Smith, Cave and daughter, Misses Miller, Crews, Patterson, Gatlin, Harrison, Kerfoot, Bowles and Mrs. Orby Woody and daughter. While the crowd was gathering some made the fire, some fixed the sticks to toast the bacon and weenies, while others prepared the table for the feast. The eats were fine. It was hard to tell who ate the most or who drank the most lemonade. After all had eaten all they felt safe to eat they played "Flying Dutchman", which Mesdames Smith, Gatlin, Mullan and Brookling enjoyed. It made them feel quite a bit younger. Miss Beese Crews tried to play sick, but we decided she was just real hungry from the way she ate. Miss Harrell seemed to be picked at more than anyone, it was because she was lit-

plaintiff as a National Farm Loan Association serving the Federal Land Bank of Houston, and payment thereof guaranteed by plaintiff. That upon the failure of defendants to pay the semi-annual installments of said note, when due, plaintiff was required to pay the same, and has paid same because of its liability therefor. That after such payment by plaintiff, the Federal Land Bank of Houston assigned to plaintiff its lien on said land to the extent of said payments made, and by virtue of said deed of trust and the Federal Farm Loan Act, authorized and empowered plaintiff to sue for foreclosure of said lien, and to obtain judgment and sell said land for payment of said indebtedness, subject to the balance of said lien, still held as superior lien by said bank.

Plaintiff alleges that defendants herein named are asserting some claim to said land and premises, the exact nature of which it is unable to determine but which claims, if any, are inferior to that of plaintiff, and constitute a cloud on plaintiff's title to said land.

Wherefore, plaintiff prays that defendants be cited to answer this petition, and that on a final hearing hereon, plaintiff have judgment for said sum of \$150.75, and all interest thereon at 8 per cent since the date of payment, 10 per cent thereof, as attorney's fees, all costs of suit, and that plaintiff's lien as it existed at the execution of said deed of trust, and now exists, be foreclosed, and the said land cleared and sold as under execution. Plaintiff further prays for a foreclosure of its lien on said stock held as security for said loan, as plaintiff's rights and defendant's equity may appear. And for all other relief, general and special, both in law and in equity, as it may appear to the court, it is entitled.

Herein fall not, but have before said Court, at its aforesaid next regular term, this writ with your return thereon, showing how you have executed the same. Given under my hand and the seal of said court, at office in Goldthwaite, Texas, this the 23rd day of April, A. D. 1931. Seal: JOHN S. CHESSER, Clerk, District Court, Mills Co., Tex.

Restless, could not sleep

THERE were days when I felt like I could not get my work done. I would get so nervous and 'trembly' I would have to lie down. I was very restless, and could not sleep at night. My mother advised me to take Cardul, and I certainly am glad she did. It is the first thing that seemed to give me any strength. I felt better after the first bottle. I kept it up and am now feeling fine.—Mrs. T. R. Gibson, Fort Payne, Ala.

GRUMBLING IS EASY

Do you grumble about your outlays and, like many persons at the present time, think how you can cut expenses?

Instead, how about thinking how to increase your income? Increasing your earnings would necessitate greater effort on your part and you don't care to consider working harder.

Rather than exert yourself more and get very tired you would rather cut your expenditures.

It would take extra work to get more money and you don't want to work any harder nor put in more hours in a day. You have grown to value your leisure, but not as time to make yourself more valuable in health and mentality. Leisure means a lazy time to you.

Additional income would relieve you of much cause for friction in your home. But you would rather shut your ears to entreaties and knowledge of what your family really need to make them comfortable and happy.

You want to do what you enjoy, but you can't see yourself working any harder than you can help to keep the home going—it is easier to grumble and out.—Houston Chronicle.

One man was kidnaped and left bound to a tree in a lonely spot and another man was quietly robbed in his place of business in two hold daylight hijackings Saturday in Dallas and many crimes of similar nature were reported in other sections of the state.

He and short, but she wasn't the smallest young lady there, because Ruby Cave was there. This good time was planned by Misses Gatlin and Cave, so we hope for next year they plan just such a picnic again. Every body had a good time.

A GUEST.

GAS LINES FROM TEXAS

Within a year 100 cities and towns of Central Illinois will be cooking their meals, heating water, warming their homes and turning their industrial wheels with natural gas from Texas fields. Last week at Springfield the State Commerce Commission authorized the construction of a new pipe line. The territory to be served includes Springfield, Bloomington and Peoria. A similar project to supply gas to an even larger territory in Northern Illinois is planned. No physical difficulties are anticipated. The gas, which is piped from the Texas Panhandle under the corn fields of Kansas and Missouri can be pumped a few miles more into the Chicago zone.

All this has an important bearing on the problem of what Cleveland and other Northern Ohio consumers are going to pay for natural gas in the next few years.

It illustrates strikingly how a new technique in production and transportation of natural gas has completely outlived the old factors upon which rates were based. The gas supply is ample; it can be sent almost anywhere.

These long, new pipe lines, pushing themselves all over the Midwest argue more ably than any advocate for a revision downward of gas prices in this part of Ohio.—Cleveland Plain Dealer.

McCORMICK-DEERING HARVESTER-THRESHER and SERVICE —The Soundest Investment in the Combine Field!

PURCHASE of a harvester-thresher is a very important investment. You are buying it for 10 years or more of harvesting. Each year will be exactly as important to you as this first year. That is why combine service is just as valuable and vital to you as the combine itself. Be sure you get both!

Buy a time-tried, efficient McCormick-Deering Harvester-Thresher, coupled with our assurance of branch house and dealer service—right here in your own community—to back you for the full life of your machine. If you can't count on both the machine and the permanence of the service when you buy you will make a costly mistake, no matter what price you pay.

Sometimes the lack of even a small part, of trifling cost in itself, may mean disaster at the height of the harvest-time rush—but not with McCormick-Deering. We maintain a service of great cash value, substantial stocks of genuine IHC repair parts, fast handling in any emergency, never-failing aid close at hand year after year. This assurance, which may in time save you many hundreds of dollars, can be had in the McCormick-Deering investment.

The McCormick-Deering Harvester-Thresher is the surest, soundest, most economical investment in the combine field today, and it is also the easiest to buy. Under the newly announced McCORMICK-DEERING HARVESTER-

THRESHER SAVINGS INVESTMENT PLAN, you or any other responsible grain grower can buy a McCormick-Deering Harvester-Thresher now and meet your first payment after harvest with just a part of the savings made possible by the new machine—with two more years to pay the balance.

Crop production cost figures compiled by McCormick-Deering users show savings of 20 cents or more per bushel, and show conclusively that the harvester-thresher will pay for itself in two or three years. Make these savings in your own crops and in custom work... and count on the permanence of McCormick-Deering service.

See the McCormick-Deering dealer in your own community for labor-saving power and machines essential to profitable handling of this year's crops. Keep in mind that McCormick-Deering Tractors—10-20, 15-30, and Farmall—and tractor-operated equipment may be had on terms arranged to help you begin at once cutting the costs of your operations and increasing your profits.

AN IMPORTANT DAY

Tuesday, May 5, 1931, was an
important day in the history of
accident prevention. At that
time a campaign was started to
reach all the 27,000,000 school
children of the United States
with safety education, instead
of only the 13,000,000 that have
been reached in the past. The
campaign is designed for the
child in the old red school
house at the crossroads as well
as the child in the modern mil-
lion dollar metropolitan.

This new work—which is be-
ing undertaken by the National
Bureau of Casualty and Surety
Underwriters—has grown from
a study of automobile accident
statistics covering the years be-
tween 1927 and 1930. In that
time fatalities to adults and
children of pre-school age in-
creased 25 per cent and seven
per cent respectively—but fat-
fatalities to children in school
were reduced ten per cent.
Thousands of children's lives
are being saved annually by
safety education—lives that
would otherwise be wasted.

As a starting point, a teach-
er's guide book has been issued,
with a foreword by the United
States Commissioner of Educa-
tion, William John Cooper, who
has made a strong appeal to
schools to co-operate in the
work. No effort is being made
to establish safety education as
a separate study. The guide
book shows it can be brought
into other courses, such as
health, physics, science, home
economics and manual arts.

The new work is deserving of
all public and private support.
If the experience of the past
holds good in the future, it will
not be long before statisticians
are calculating how many
young lives were saved by the
campaign that began on May
5, 1931.

NEW LAWS

Having charted the record of
congress and of the various
state legislatures, statisticians
for the Associated Press an-
nounce that more than 14,000
new laws have been enacted in
the United States since last fall.
If every one of this multitude
of statutes were of general ap-
plication, the huge total would
afford a sure indication that
American legislators were still
ravaged by the itch to cure all
ills by passing laws. But since
many of the new enactments are
undoubtedly of a detailed and
petty character, the aggregate
speaks, in all probability,
nothing more than a growing
disposition on the part of law-
makers to legislate on trivial
and inconsequential matters,
while the big problems of pub-
lic policy go unsolved. Take
the record of congress, for ex-
ample. It would be possible to
enumerate on the fingers of
two hands the laws having per-
manent national significance
enacted at Washington last win-
ter. Yet congress placed 1,524
new enactments on the federal
statute books. It passed scores
of laws authorizing
bridges over navigable streams.
It passed dozens of individual
pension bills. It enacted a law
authorizing the secretary of
war to lend tents for use at a
Confederate reunion, and it
passed a law authorizing in-
creased participation in the
Yorktown sesquicentennial. But
it was so occupied with these
and other routine matters,
which might better have been
handled by administrative ac-
tion, that there was scant time
left for consideration of the
state of the nation and of mea-
sures to overcome existing eco-
nomic ills or to prevent their
recurrence. In the absence of a
detailed accounting, it is im-
possible to ascertain how nearly
the state legislatures followed
the pattern, but the chances are
that they adhered to it rather
closely. If so, their output of
new laws is also significant
more because of its inanity than
for any other reason.— Balti-
more Sun.

ROADS FOR FARM RELIEF

At present, as for the past
three years, farm relief is one
of the most important issues of
the time. And good roads, pass-
able roads, all-weather roads,
must play a leading part in ag-
riculture's rehabilitation. The
farmer who can haul his goods
when the market is most recet-
ive, whose children are assured
quick transportation to and
from schools some miles dis-
tant, who can at any time and
for any reason go where he
wants quickly and cheaply, is at
a great advantage.

Oregon, California, New York
and other states are showing
what good secondary roads can
do, not only for the farmer, but
for small towns and as an at-
traction to tourists. The entire
nation—particularly at this
time, when Federal aid has
been increased and road build-
ing is advocated to relieve un-
employment—should get in line
and build the roads that are so
vitaly needed.

Only a small part of our total
highway mileage is paved.
The majority of our citizens in
agricultural and rural areas
live on roads that are hardly
different from those used by
our fathers in the horse-and-
wagon days. It is an economic
impossibility to give all these
areas high-type highways, yet
they must have easy year-
round contact with the outside
world. And the answer is sec-
ondary roads—roads with local
materials as a base, and treated
with one of the inexpensive, but
long-wearing, modern asphaltic
materials.

**Nature Thought of
Everything**
Nature thought of everything when
the human body was made. When the
body is about to become ill, nature
planned danger signals to warn us.
Thus, if our children grind their teeth
when they sleep, or lack appetite, or
suffer from abdominal pains, or itch
about the nose and fingers, we should
know that they may have contracted
worms. Then, if we are wise, we buy a
bottle of White's Cream Vermifuge and
safely and surely expel the worms. Thus
we avoid the danger of very serious
trouble. White's Cream Vermifuge costs
only 50c a bottle, and can be bought from

Let's have a SHOWDOWN on this matter of TIRE COMPARISONS

WITH all the conflicting claims published about tires, it is obvious that misleading statements are being made. The only conclusion that you as a tire buyer can draw is that either we, as Firestone Dealers, are misrepresenting Firestone products, or that a certain mail order house is not telling the truth about theirs. Both can't be right—one or the other is misleading the public by their comparisons.

get the facts yourself, makes it unnecessary for Mr. Firestone to make affidavit on the truth of his statements or to file any complaint with the Federal Trade Commission, and then advertise it, in an attempt to lead the public to believe his statements were true.

Mr. Firestone doesn't ask you to accept comparisons about Firestone Tires and special brand mail order tires until you see the facts yourself. Neither do we. All we ask is that you make your own comparison. We have cross sections cut from special brand mail order tires purchased from stocks of mail order house and from Firestone Tires—no "tricky" or misleading comparisons—come in today and make your own comparisons for Quality, Construction, and Prices. YOU and YOU ALONE be the judge!

NORTH BENNETT

On Thursday night of last week our school closed with a two-hour program. Quite a good crowd attended and all reported the program a perfect success. The school is small, but again, we challenge any community for interest and ability to work well and thoroughly.

On Friday we had a picnic dinner, and in the afternoon we had several ball games. Our girls with two or three outside players, played basket ball with Midway and won 8 to 4. There is nothing that is more helpful than programs and all day picnics.

Friday night, May 22, we are having a play at the school house. The play is a farce of three acts, presented by the young people of our community. "The Clay's the Thing" come at 8:00.

Another year has passed by and we are hoping much of interest and good has been done. As a personal word from Miss Swim, the teacher, she wishes to express her thanks for all the help and interest shown by the parents and people of the community and it is with remembrance of a happy year's work, one of the happiest spent in a school room and community that she closes out her work for the year. Many communities do not realize the value of co-operating with the teacher in everything that comes up, both outside activities and the regular class work, but that is not a failure of North Bennett. We trust there will be another year and many more years of this same spirit manifested.

We are very glad to have Mr. McNeil back with us again, and we hope he will get along the very best ever.

Miss Swim is spending the week with Lula Batchelor and other friends, while working with the play.

Elva Wright spent Tuesday night with Una and Doll Harris. There has been quite a bit of her visiting, but we were so shed and still are, that we will not attempt to mention anything further at this time. "The Clay's the Thing"—8:00

THE BLUE JAYS.

WOMEN WHO SMOKE

I have no moral scruples against women smoking. Why should cigarettes be any more harmful than too many pork chops or too many pills?

But my housewifely instincts rise up to give battle every time I see a feminine addict coming. For the cigarette is the most diabolical enemy of cleanliness that the home has ever had to contend against. And one smoker can make more litter than three sets of twins.

Strangely, also, women appear even more messy with their smoking than men. Whether they have not become expert or whether it is fundamentally alien to their natures, is hard to determine. But the truth is that few are really good smokers.

The art sits uneasily, if not awkwardly, upon us and no cigarette ever manages to seem part of a woman as it does when a man handles it. Either our hands are not skillful or the nether lip hangs down too low while holding the fag, or the ashes fall at the wrong moment. In a woman's mouth the cigarette always has a sort of show-off swagger, a tilt of surprise to find itself there, whereas, it fits into a man's face as naturally as his nose does.

Women must get a great deal of satisfaction out of this habit, since they have taken to it in such numbers everywhere. But they have added nothing to the dignity of the cigarette.

And, so far as coquetry is concerned, the old-fashioned fan could be used more effectively.

As I said before, the mere act of smoking doesn't bother me. What I do object to, what piles me tremendously, is having to sweep up after the ladies.

Some deep feminine instinct within me is outraged when I see a woman burn the furniture or the rugs, or flip her ashes on the clean floor. A throwback, perhaps, from the days when only men and children were disorderly in the house. Mrs. Walter Ferguson in Houston Press.

CITY WORKERS GO

BACK TO THE FARM

High wages that are still being paid in the cities are sending thousands of city workers back to the farms, says the Alexander Hamilton Institute. This apparently contradictory statement is explained by the fact that only a part of the factory workers are employed at high wages, while thousands have no jobs at all. The high wages that are still being paid are keeping prices high; high prices mean reduced sales; small sales require fewer workers, and so the workers who are thrown out of their jobs are moving away from the cities and back to the farms.

In 1930, for the first time in ten years, farm population showed an increase, although prices of farm products have declined over 35 per cent since 1929.
