Heavy Grain Crop Will Soon Be Harvested

Grain Crop Grown in the County

There is no doubt that the 1931 crop is the largest ever in this county. Much of the land has been devoted to small grain this year and the grain acreage is abnormally large, the cotton acreage correspondingly small. Harvesters have been at work some time and threshing already started in many places. The marketing of all begin in earnest next week and will put a lot of money into circulation, even though the crop is not as good as we would like. H. Frizzell, one of the best grain men in Texas, says that a million and a half bushels of wheat, oats and corn will be marketed here and now ranges from 15c for wheat, 50c to 52c for oats and 30c for barley. It is the county will market a million bushels, a small part of the crop being sold in the markets, but the money crop will be circulated at the same.

The marketing of this crop, the financial depression of the past year or more considerably relieved.

GETTING READY FOR A GREAT COUNTY FAIR IN JULY

Fair Catalog Ready Next Week

The officers and directors of the Fair association have a line up on everything for the opening on July 15, and the indications are for a successful occasion. The grounds will be in better condition than heretofore and ample provision will be made for attractions and exhibits. A part of the program is to have a number of the most prominent members of the legislature come and speak and if the plan matures as outlined, a barbecue dinner will be provided for the visiting speakers.

The premium lists will certainly justify some nice exhibits and the interest the general public has taken in the coming Fair makes sure it will be one of the best ever held in Mills county. The dates are July 15, 16, 17.

ACCIDENT AT BROWNWOOD

D. F. Maddox, foreman for the Standard Supply Co., building a bridge at Brownwood, met with a serious accident some nights ago, since which time he has been in a very precarious condition. Driving to the city to get gas for his car, he failed to see that a culvert had been removed over a slough crossed by the road and the car dropped down several feet, pinning him beneath it. He suffered a fractured skull, several ribs broken and one rib pushed thru his lung. He was hurried to the hospital, where he has since been in a serious condition, although doing as well as could be expected. His uncle and aunt, Mr. and Mrs. H. B. Bradley, of this place, have been frequent visitors to the hospital and are hopeful of his recovery.

ATHENS' FISH FRY

Some time ago, one of the Athen's said, "Let's have a fish fry," and of course, that sounded very interesting, so our president appointed a committee of the best fishermen in the class, and to prove that they were good, they caught over one hundred pounds of fish for the occasion.

So on Friday night, May 29, the class, almost one hundred per cent strong, with Mrs. Floyd Jackson's class and a number of other guests met at the Fair Park for one of the best times we have ever had.

Several of our men are extra good cooks too. For the fish and coffee were cooked just right.

The members took bread, pickles, cakes, salads, etc., which were soon spread on the long tables and supper called. After doing justice to the eats, we tried to sing, but all soon decided they had eaten too much fish to sing except Mesdames Bowman and Cockrum, they sang several duets, which were very amusing.

Brother Ivins, T. F. Toland, Mrs. J. V. Cockrum and others gave short talks, which were very encouraging and will spur us on to do greater things.

We again want to express our gratitude to the men, for this delightful entertainment.

CEMETERY SOCIETY

The Cemetery society will meet in the rest room in the court house at 5 o'clock Monday afternoon. All those interested in the work are invited to attend.

Prentice Ballard, well known here died at the home of his mother, Mrs. John Ballard, in San Saba county Sunday and his remains were interred in San Saba cemetery Monday. He had been in bad health a long time, but was only confined to his bed a few days. He was a bachelor and leaves his mother and a number of other relatives.

Early settlers remember the Parish family, who lived in the Chappel Hill community, and are pleased to know that a son of the family, O. L. Parish, has been appointed district judge for the new district in which Ballinger is included. The Parish family moved from here to Runnels county and the young man has been honored with several offices prior to this time, among them county clerk and county judge.

ACTING GOVERNOR PARDONS BROTHER

Acting Governor Lawrence Wilson of Arkansas has granted a full pardon to his brother, Fred Wilson, who was convicted on four counts of grand larceny in Union county last March.

The jury fixed the prison sentences of one year on each of the four counts, Wilson, however, had not been sentenced formally.

The lieutenant governor is acting as chief executive in the absence of Governor Parnell, who is attending the governors' conference at French Lick Springs, Ind.

He told newspaper men he had "no apologies to offer." He said he issued the pardon largely on account of his grief-stricken mother.

STERLING PARDONS FORMER KLAN HEAD

Ben C. Richards, Jr., former Ku Klux Klan official, who was convicted in Dallas of forgery in connection with a bet on the Mayfield - Connally senatorial race, that ended in the slaying of the stake holder, will not have to return to state prison, where he served a little more than eight months.

Governor Ross S. Sterling Tuesday filed a proclamation, date May 20, granting Richards a general parole. Two months ago, Richards was granted a furlough. He has a position and is "making good," the governor said. His wife died recently. He has a son, nine.

CANADA HITS BACK

Approximately 200 products in wide general use and manufactured in the United States and other countries for exportation into Canada were subject this week to the new, higher tariff rates announced by Premier R. B. Bennett.

Many of the rates strike directly at the pocketbooks of the American farmer, as well as the manufacturer, and are intended to aid industry and employment in Canada.

The increases, which went into effect immediately, affect nearly every product produced for export from the United States.

Although many see the new tariff as a retaliatory measure against the tariff wall placed around this country with passage of the United States' Smoot-Hawley measure, Premier Bennett in his budget speech indicated the increases were a result of new rates put into effect last September.

Autos, coal, coke, corn and corn products, food, hogs, fresh meats, hams, bacon, shoulders, canned goods, oranges and many other food products are affected by the increases.

WOMAN PLANS FLIGHT

Almost on the anniversary of the day in 1937 when Col. Chas. A. Lindbergh thrilled the world by taking off alone for Paris, comes the first trans-Atlantic solo flight to be attempted by a woman—Miss Ruth Nichols.

She will fly a 660 horsepower plane with speed of 175 to 200 miles per hour and will make one stop in Newfoundland for fuel. Miss Nichols expects to cross the Atlantic in half the time required by Lindbergh.

BOARD STOPS BUYING WHEAT MARKET DROPS

In line with recent announcements, the Federal Farm Board has stopped buying wheat, and as a result the market collapsed Wednesday. With 250,000,000 bushels of last year's wheat on its hands, the Board gave up trying to support the market, and prices have sagged to the levels of the world market. It has been expected that the Board would continue purchasing until July 1, but the arrival of new crop Texas wheat was given as the reason for getting out of the market now.

What the Board will do with the quarter billion bushels it now owns is a mystery. Officials have promised that it will not be dumped on the world market. There is no market for it at home, and within twelve months it will be too old to mill.

BALLOON FLIERS SUCCEED

Fears for the safety of the German scientists, August Piccard and Charles Kipfer, who ascended in a balloon at Augsburg, Germany last week, proved groundless when they landed safely on a glacier in the Alps. Their instruments showed that they had risen nearly ten miles, the highest on record. Previous altitude records were around seven miles.

Piccard stated that the flight was wonderful and an entire success, but does not wish to repeat it. Kipfer, however, is looking for someone to finance a flight with a larger balloon, in which he believes he can reach a height of 20 miles.

At ten miles, the temperature of the air was 55 degrees below zero, but the scientists were kept warm by the rays of the sun on the airtight aluminum ball in which they ascended.

GIRL WAKES IN MORGUE

Pronounced "dead" by a physician and lodged in the morgue of the Grand Central Terminal, Ivy Rogers, 18, of Greenwich, Conn., awakened four hours later under a sheet on a marble slab in the pitch dark vault.

Miss Rogers entered the railroad terminal late one afternoon to take a train for her home. Because of the heat she had not eaten during the day, and feeling faint, retired to the restroom. She fell prostrate in a corner and the next thing she knew she was waking up in the dead of night in the morgue, which the station maintains. A nightwatchman heard her screams and released her.

DENVER MINT COINS GOLD

One of the three mints owned and operated by the United States government is located in Denver. It has been coining money since 1906. In 1930 there were 893,649,140 pieces of money coined at the Denver mint, aggregating in value \$447,734,455. The mint authorities in their reports still call a \$20 gold piece a double eagle, a \$10 gold piece an eagle, a \$5 piece a half eagle, and a \$2.50 piece a quarter eagle, but nobody else does. In fact nobody else ever sees a gold piece any more to call it anything. The government has quit coining three dollar and one dollar gold pieces, the former being too near the size of the \$5 piece and the latter too small for any practical purpose.

BIG VALLEY

These are very busy days. Will you have time to read the news from my part of the world?

Well, one important thing is the county singing convention that meets Saturday night and Sunday. We would not forget that there will be preaching, too. Bring your lunch and spend the day with us.

Barton Reed and family are visiting their parents, Mr. and Mrs. T. P. Reed.

Mr. and Mrs. Griff McConal left Monday for O'Donnell and other points west.

Miss Cleota Swim is visiting in Austin this week.

I. M. Weaver was operated on in Brownwood Tuesday, for appendicitis. At this writing his condition is reported very serious.

Mr. and Mrs. Elmo Smith of Luling are here on account of the illness of her father, I. M. Weaver.

Edgar Greeley was a visitor in Big Valley last Sunday.

Charlie Hasting, Otis Moore and Joy Doak visited Sunday at J. J. Cockrell's.

Since the women these days are busy about so many things I must close and see that the beans don't burn, while the mistress looks after other interests.

FARMER.

BOZAR

Miss Lorene Callaway, and John Cunningham attended the party at Mr. Lewis' Saturday night.

Mrs. Jim Hays entertained some of their friends with ice cream Saturday night.

J. C. Sanderson, a prosperous young ranchman from Moline, visited Miss Irene Tullos Sunday.

Mr. and Mrs. Browning Roberts of Brownwood spent Sunday with her father, Mr. R. E. Jenkins, and stayed over and attended the B. Y. P. U. at Trigger Mountain Sunday night.

Mrs. Dan Callaway spent Wednesday in the Callaway home.

Tom Clark Graves entered school at Tarleton college at Stephenville Monday.

LIVE OAK

Did you know that:

The Heart O' Texas Epworth League Union meets at Bethel June 14, 1931. In the morning there will be Sunday school and church. A visiting preacher yet to be supplied will bring a message. After church the young people of Bethel will serve lunch to the visiting Leaguers and in the afternoon there will be a period of directed recreation, business meeting and a program put on by the Union Leaguers. Everybody remember June 14.

Margie Featherston left Saturday for Wichita Falls where she has a position for summer.

Virginia and Mary Louise Girk of Goldthwaite have been visiting in the C. G. Featherston home this week.

Quite a few of our people attended the play at Midway Saturday night.

The Bethel Sunday school was pleasantly surprised Sunday morning when Brother Joe Benningsfield came and preached for them.

Mrs. Nolan Horton of Wichita Falls has been visiting in the home of her parents, Mr. and Mrs. C. G. Featherston, this week. She has also been visiting in the Paul Horton home at Pleasant Grove.

It has been expected that the Board would continue purchasing until July 1, but the arrival of new crop Texas wheat was given as the reason for getting out of the market now.

STERLING PARDONS FORMER KLAN HEAD

Ben C. Richards, Jr., former Ku Klux Klan official, who was convicted in Dallas of forgery in connection with a bet on the Mayfield - Connally senatorial race, that ended in the slaying of the stake holder, will not have to return to state prison, where he served a little more than eight months. Governor Ross S. Sterling Tuesday filed a proclamation, date May 20, granting Richards a general parole. Two months ago, Richards was granted a furlough. He has a position and is "making good," the governor said. His wife died recently. He has a son, nine.

CANADA HITS BACK

Approximately 200 products in wide general use and manufactured in the United States and other countries for exportation into Canada were subject this week to the new, higher tariff rates announced by Premier R. B. Bennett.

GIRL WAKES IN MORGUE

Pronounced "dead" by a physician and lodged in the morgue of the Grand Central Terminal, Ivy Rogers, 18, of Greenwich, Conn., wakened four hours later under a sheet on a marble slab in the pitch dark vault. Miss Rogers entered the railroad terminal late one afternoon to take a train for her home. Because of the heat she had not eaten during the day, and feeling faint, retired to the restroom. She fell prostrate in a corner and the next thing she knew she was waking up in the dead of night in the morgue, which the station maintains. A nightwatchman heard her screams and released her.

LIVE OAK

Did you know that: The Heart O' Texas Epworth League Union meets at Bethel June 14, 1931. In the morning there will be Sunday school and church. A visiting preacher yet to be supplied will bring a message. After church the young people of Bethel will serve lunch to the visiting Leaguers and in the afternoon there will be a period of directed recreation, a business meeting and a program put on by the Union Leaguers. Everybody remember June 14.

WOMAN PLANS FLIGHT

Almost on the anniversary of the day in 1937 when Col. Chas. A. Lindbergh thrilled the world by taking off alone for Paris, comes the first trans-Atlantic solo flight to be attempted by a woman—Miss Ruth Nichols. She will fly a 660 horsepower plane with speed of 175 to 200 miles per hour and will make one stop in Newfoundland for fuel. Miss Nichols expects to cross the Atlantic in half the time required by Lindbergh.

DENVER MINT COINS GOLD

One of the three mints owned and operated by the United States government is located in Denver. It has been coining money since 1906. In 1930 there were 893,649,140 pieces of money coined at the Denver mint, aggregating in value \$447,734,455. The mint authorities in their reports still call a \$20 gold piece a double eagle, a \$10 gold piece an eagle, a \$5 piece a half eagle, and a \$2.50 piece a quarter eagle, but nobody else does. In fact nobody else ever sees a gold piece any more to call it anything. The government has quit coining three dollar and one dollar gold pieces, the former being too near the size of the \$5 piece and the latter too small for any practical purpose.

Mrs. Forgy of Hico, accompanied by her mother, Mrs. L. J. Vann of Mullin, made the Eagle an appreciated call Saturday. Mrs. Forgy is with the Hico News-Review and is well versed in the newspaper business, as well as being a most interesting lady, and it is always a pleasure to have her call at this office.

BAPTIST CHURCH

Last Friday about 8 p. m. more than a hundred gathered at the Fair Park to enjoy an old fashioned fish fry given by the Athens Sunday school class. We had fish galore, as well as many other good eats. We had several visitors from out of town and we dare say that they could not help catching the spirit of this class. Mrs. J. V. Coekrum, who is president of this class, took charge after the sumptuous feast and spoke in a most commendable way of those who caught the fish, stating that they had done their work well and that she wanted the class to remember that they should be fishermen for men and that is the main purpose for which this class was organized, and that is the purpose of its existence. This pastor believes that this class is doing an outstanding work that eternity alone will only be able to reveal its value. The spirit of loyalty and good fellowship among its members is very noticeable.

Splendid congregations attended all of our services last Sunday, and three additions were made to the church. We have a number of people who live in and near our town that ought by all means cast their lot with us. The church needs your help and you could be a blessing to us and in some way we would try to be a blessing to you. Why not come Sunday? Join our forces and be ready to enter into our evangelistic campaign, which begins the last Sunday in this month. In our coming campaign, let me plead and urge every member of our church to be very much in prayer. Pray first that everything in your own life that would hinder you from being used of God be removed. Men can not be used for the glory of God unless they are willing to be submissive to His will. This pastor is praying day and night that the entire membership of his church may be co-operative and that all follow the leadership of the Holy Spirit. We also urge all Christians regardless of church affiliation lend a helping hand in this work. We must have your prayers. We must have your presence. We want your help in every way possible. To those who live in the rural districts, we must have your presence and help. Begin now to make preparations to attend these services.

The pastor has been invited to speak Thursday night of this week to a community gathering at Bend in Lampasas county on the subject "The Influence of a Church in the Community." He has been asked to deliver the monthly sermon at the Workers' Conference in Hamilton county Monday. We have several other engagements we hope to fill between now and our revival, but the utmost thing in our soul is our revival meeting.

Let every member of our church be found in his place Sunday. Let nothing but providence keep you away. Remember that the pastor is not the judge as to the things that keep anyone from attending the services of the church. We always leave that to man and his God. And if man will always let God settle the question of whether he shall or shall not go to Sunday school and church, then it will be settled right, and no man has a right to question it. G. C. IVINS, Pastor.

PRIDDY NINE BEATS GOLDTHWAITE NINE

In a baseball game Sunday, 31st at Priddy, the Priddy boys beat Goldthwaite 5 to 1. Tieman, pitcher for Priddy gave the Goldthwaite boys only 5 scattered hits, while Priddy collected 12 hits off Fulton of Goldthwaite. Goldthwaite's only score came when Clements drew a walk and Benningfield got a two base hit over left field for the score in the ninth inning. Richardson led Priddy's team with 3 hits in 4 times up. How One Woman Lost 102 Pounds of Fat

Almost Unbelievable Nevertheless True

Dear Friends: You advise Kruschen Salts for reducing, so I finally tried them and when I started I weighed 19 pounds and when I took them for a year and three weeks, I lost exactly 102 pounds.

I am 23 years old and I look at least 5 years younger now than I did when I was fat. I have a picture of myself before and after, so if you want to see them let me know.

I am always telling my friends about the wonderful salts. I am always advertising them.

I took two bottles every month for a year and three weeks. It amounted to \$25 for reducing 102 pounds, but it was worth it. If I can be of any help to you let me know.

Yours truly, Miss Nellie Simpson, 1903 Wayne street, Swissvale, Pa., Oct. 31, 1930.

The Modern Safe Way—Right Way to Lose Fat

Just take a half teaspoonful of Kruschen Salts in a glass of hot water every morning before breakfast. You can hasten the reducing action of Kruschen by going lighter on potatoes, pastry and fatty meats.

Unlike other Salts, Kruschen doesn't reduce by rushing food thru your system. Rather it's an ideal blend of 6 separate mineral salts which help every gland nerve and body organ to function properly.

Women everywhere are overjoyed with this marvelous reducing treatment. Frequently pound by pound of surplus fat leaves and soon you possess that trim, slender figure you've always craved.

An 85c bottle of Kruschen (lasts 4 weeks) is sold by leading druggists the world over—so start this SAFE method to lose ugly fat TODAY! Hudson Bros. sell lots of it.

ROCK SPRINGS

Sunday was a beautiful day. We had Sunday school with every teacher and office present. Rev. Earl Hill, Mrs. J. O. McClary's son, preached for us Sunday night. He brought us a good message. This community wishes this young man good luck in his work.

Our hearts were made sad late Sunday afternoon when the news came that Evette Ballard had passed away. He is Mr. and Mrs. C. Ballard's nephew and made his home with his mother, Mrs. Minnie Ballard, in San Saba county. We extend to the bereaved our sympathy.

Harvey Dunkle and wife took Mr. and Mrs. J. T. Robertson and Billie to Big Spring and Breckenridge last Thursday to visit Walter Robertson and family at Big Lake and Hillard Dyches and family at Breckenridge. They will be gone a week or ten days.

Mrs. Eula Nickols and James and Mrs. Beryl Turner enjoyed a good dinner with Woody Traylor and family last Tuesday. They reported goat and ice cream.

Marvin Spinks and family, and James Nickols enjoyed a 42 game with R. C. Webb and Wick Webb last Thursday night.

Rev. R. W. Bynum from Anona, Texas, visited in John Roberts' and Eula Nickols' homes last Wednesday.

Hammond Bodkin and wife from town visited Mr. and Mrs. Claud Smith last Tuesday evening.

Harvey Dunkle and Gus Roush have been putting some new improvements on the Robertson farm such as cement walks, new screens and many other improvements.

Misses Nellie D. Cooke and Ethel McClary took supper with Mrs. Nickols and boys Sunday night.

Ray Stark and wife and his mother went to Elkin Saturday afternoon to visit Joe Davis and family. They also visited in the Hollis home at Ridge Sunday afternoon.

Those who visited in the Nickols home Sunday afternoon were Laurie Carroll, Abbie and Levern Hunt, Fred and Ethel McClary, J. C. Stark, and Miss Florence, W. A. Cooke and Miss Nellie D. and Rudolph, Elsie McDermott, Dwight Nickols and Miss Juanita Tyson.

Miss Fay Ellis spent Monday with Mrs. C. Ballard.

Walter Weatherby got his grain cut this week.

Last week, when I told about J. A. Stark's credits, I didn't know about Rudolph Cooke. He made four and a half credits. BUSY BEE.

Gus Roush and family visited in the Robertson home in Big Valley Sunday night.

There was a surprise birthday party at J. C. Stark's Saturday night. It was for Mrs. Stark and she decided to go visiting, so there was a bunch surprised, when they got there. We had a good time anyway, as Mr. Stark and Florence were at home.

Mrs. Eula Nickols and James sat until bed time with J. F. Davis and Philip and Shirley Nickols Monday night.

Imogene and Opal Cox and their brother from Stamford, visited Miss Nellie D. Cooke Monday afternoon.

Willie Smith and family and Homer Smith from Bulls Creek, Barton Smith and family and Hammond Bodkin and wife spent Sunday in Claud Smith's home.

Several from here attended Mr. Prentiss Ballard's funeral at San Saba Monday afternoon.

Cutting grain is all the go out here this week.

CLASS ENTERTAINED

One of the most enjoyable occasions this class has ever had was the "fish fry" given by the Athens class last Friday evening.

The charming hospitality with which each guest was greeted on arrival, attested to the fact that these folks have an established reputation as entertainers.

The well arranged and heavy laden tables were pleasing to the vision of the large number gathered at the feast. Appropriate words were spoken by the pastor in asking the blessing, and we were advised to satisfy our appetites.

One member informed us that this was only a small feature compared with what they expected to do in the future in the way of entertainment.

This good class and their worthy and estimable president are a force that can put over any object they undertake.

Every member of this class is a booster. They strive to win the things in life the Master most desire. This together with all their other good qualities make them one of the most appreciated classes in the Baptist Sunday school.

The Fidelis class feels that it was an honor and a great privilege to have been their guests.

We hope they will continue through the years with their good work. FIDELIS REPORTER.

TRIGGER MOUNTAIN

We are rather unfortunate, as the rain passed us by. Sunday school and B.Y.P.U. were well attended.

Mrs. Cora Lively and little sons visited here the past week and went to Lampasas Sunday to visit their awhile.

Mrs. W. C. Dellis and children visited Mrs. J. D. Kennedy Saturday afternoon.

Everyone enjoyed the party in the home of George Lewis Saturday night.

Mr. and Mrs. Arthur Dwyant and children of Goldthwaite visited in the home of W. S. Cunningham Sunday.

In a recent game of baseball between Mullin and Trigger Mountain, the score was 13 to 2 in favor of our boys.

Miss Erma Dellis spent Saturday night and Sunday with her grandparents.

Mr. and Mrs. H. T. Vaughan and baby of Goldthwaite visited in the J. H. Vaughan home Sunday.

Mrs. Kitty Dellis enjoyed a visit from her sisters from Temple, who spent the week end with her.

Mr. and Mrs. Baker and children of Seagraves are visiting her sister, Mrs. George Lewis.

Page Mays, who has been in school at Santa Anna, is now at home with his father.

Our young people who left for summer school Sunday were Tommy C. Graves, John Tarleton and Mrs. J. M. Hays, Howard Payne. THE FARMER'S WIFE.

LAW BY DEWOLFE MAJOR MEASURE

Among those classed by the press as the six major laws passed by the legislature was the permanent split tax payment plan, a bill introduced by Representative Homer C. De Wolfe of Mills and Comanche counties.

The new law provides that those who wish may pay their state and county tax as heretofore without a penalty, but those who prefer the split payment plan may do so by paying half on or before November 1, the remainder to be paid without interest or penalty on or before June 1.

The other five listed as major laws are the 3 cent tax on a package of 20 cigarettes, an increase on the sulphur tax from 55 to 75 cents per ton, legalizing of Sunday picture shows, limiting loads of cotton trucks to 10 bales and giving West Texas owners of school land title to all mineral vents and bonuses.—Comanche Chief

SILVER REVIVAL IMPERATIVE

Senator Borah of Idaho, chairman of the Committee on Foreign Relations, in a recent address, asserted that the slump in the price of silver was an important contributing cause to the present world-wide economic depression and blamed the governments of the leading powers for delay in taking steps to remedy the silver situation.

Mr. Borah emphasized that reduction in the value of silver was steadily reducing the purchasing power of an overwhelming portion of the world's population, lowering world trade and more than doubling indebtedness of the countries using silver.

He outlined in detail the dependency of many countries on silver as their basis of credit and said:

"The silver problem is one which requires governmental action. It cannot be solved or settled by resolutions or through the action of the citizens. Governments must deal with it. And it is somewhat difficult to understand the delay."

"I began taking Cardui when I was in a weakened, run-down condition," writes F. S. Perrit, of Wagon, Miss. "I took one bottle, and I seemed to prove so much that I sent for six bottles. After I had taken the bottles, I seemed entirely well."

"Before I took Cardui, I was nervous, restless, blue and out of heart. I felt depressed all the time. After I took Cardui, all that disappeared."

"I gave my daughter Cardui and it helped relieve irregularity. This medicine has been used by women for over 20 years."

ON EVERYTHING BUT LEADERSHIP

We have more wool, more meat, more wheat, more money in this country than ever before. We have more men and women out of the half-fed children, more citizens in need of clothing, more mortgaged farms and more crime than any other period in the history of America. We are long on everything, but fearless, on leadership.

The leading business men of the world, at the behest of the United States Chamber of Commerce, assembled in Washington recently to discuss economic ills, many were wise enough to believe the way to better times would be opened. Judging from reports of the conference, it had been better had foreign visitors remained at home, and had our own United States Chamber of Commerce members stayed in their respective cities, all of them contributing their expense money to the conference.

The result of the conference was a set of resolutions which every main issue was wisely avoided. Two matters of world-wide importance mentioned by foreign delegates, the protective tariff and national debts. The American delegation dodged the issue. Unable to discuss openly things vital to a revival of commerce between nations, the conference was adjourned, a most colossal failure of any kind of alleged big business ever held.

Times past, leaders have usually been developed with power to meet every crisis. Perhaps, if we wait long enough and the millions now bent on survive by pulling their belts another notch, Mr. Moses will appear and us to the plains of prosperity. In the meantime, the old will remain at our gates. We sell, but we do not buy. While more than half of the world's supply of gold is in vaults, we continue to demand the payment of debts contracted in low value dollars in price gold of the present. Our selfishness seems to have blinded us to our own interests.—Farm and Ranch.

PLANE ATTACKED BY SWARMING BEES

Knowledge of the habits of bees is not usually considered an essential part of the equipment of an airplane pilot yet the lives of the pilot and passengers recently in danger, when insects from a beehive had been shipped by air express from Mexico to Paris got loose when the airplane was flying and entered both the passenger cabin and the pilot's cockpit. First the pilot and then hundreds of bees settled on the pilot's face and body. The passengers were told to protect themselves to the extent by blankets or towels drawn tightly over their heads, but the unfortunate pilot had no such opportunity for protection as he was able to land the plane at once without serious danger. A large number of stings have been known to affect individuals temporarily from the pain and from the effects of the poison which bees inject. The incident of the bee attack, therefore, material for a disaster. Fortunately, the pilot remembered that bees coming out of a hive seldom unless disturbed, for example by sudden movements of a person on whom they happen to alight. In spite of the bee attack the pilot continued to the airport, but made as many movements as possible and these very slowly. The result was that he was able to get down the airplane safely at the airport, with bees swarming all over his body, but at the expense of only one or two stings for himself and a few for the passengers. Once on the ground, the bees were in a hurry to swarm around their queen, which had remained in the damaged hive, and were successful.

THE ROAD TO AUTOMOBILE SAFETY

It is to be hoped that during 1931 more states will go in for "Save-a-Life" motor vehicle inspection campaigns such as those conducted in ten states in 1930.

This movement is something more than an appeal to automobile owners to see that their machines are in good condition. Usually the campaign is backed up by a law making inspections of brakes, headlight, steering mechanism and horns, obligatory. During 1930, in the ten states, 3,500,000 cars were examined—and over a million had defective brakes, 2,000,000 had unsafe headlights and 219,000 had defective steering.

The ill-conditioned car causes accidents. The newspapers are filled with stories of cars, which suddenly swerve from their courses to collide with other cars or trees or to leave the road; of drivers being blinded by glaring headlights and running into disaster, and so on. There is no room on our highways for cars which are not mechanically safe, or for reckless and irresponsible drivers.

Last year the "Save-a-Life" campaigns produced splendid results in the ten states where they were conducted. Making the movement nationwide would be a fine way of beginning a real fight against highway accidents.

FOURTEEN MISTAKES OF LIFE

To expect to set up our own standard of right and wrong and expect everybody to conform to it.

To try to measure the enjoyment of others by our own.

To expect uniformity of opinion in this world.

To look for judgment and experience in youth.

To endeavor to mold all dispositions alike.

To yield to unimportant trifles.

To look for perfection in our own actions.

To worry ourselves and others about what cannot be remedied.

Not to alleviate if we can all that needs alleviation.

Not to make allowances for the weakness of others.

To consider everything impossible that we cannot ourselves perform.

To believe only what our finite minds can grasp.

To live as if the moment, the time, the day were so important that it would live forever.

To estimate people by some outside quality, for it is that within which makes the man.—London Standard.

make itself the nucleus of united opposition. It is believed the government stands firmly for "cleansing" the organization of what is described as its political character. Strained relations between the church and state, marked by anti-Catholic disorders of the past few days when the police closed all the Catholic clubs of Rome and Pope Pius canceled the Eucharistic Congress which was to have been held next week. The government also closed three playgrounds financed by the American Knights of Columbus.

STERLING STUDIES HUGE DEFICIT

Notwithstanding the increased sulphur tax and the new taxes levied by the last legislature, there will be a deficit of \$5,932,411, in the general fund at the end of the next biennium, Aug. 31, 1933, using the present state ad valorem rate of 27c, according to estimates received Monday by Gov. Ross S. Sterling.

Gov. Sterling said he had just received the figures and had not had time to study them, but that it was evident either more revenue must be provided or the State tax rate raised. He is loath to do the latter and is endeavoring to give more time to the problem. Should he decide to raise more revenue that can only be done through special session, which also could consider his proposed oil legislation. He said the state departments have been whittled to a minimum and it will be difficult to veto items from the other appropriations to any extent comparable with the deficit.

FALL LOSES APPEAL

Albert B. Fall, former secretary of the interior, must present himself before the District of Columbia Supreme Court for commitment under a sentence of one year's imprisonment imposed on him for accepting a bribe.

That became imperative Monday, except in case of a presidential pardon, when the United States Supreme Court refused to review Fall's conviction of accepting a \$100,000 bribe from Edward L. Doheny, wealthy oil operator, in connection with awarding contracts and leases on the naval oil reserves. He was sentenced to one year in prison and fined \$100,000.

Previously he had failed in the District of Columbia Court of Appeals to have the sentence set aside, and then, after announcing he would not carry the controversy to the United

VALLEY FORGE PRIVATIONS?

In a pallid sort of way, the present situation is similar to Valley Forge, but how many of us have suffered as much as the average soldier who went thru that winter with Washington?

Times are hard, money is scarce, many people are out of work, and many fortunes have shrunk, if not disappeared, but it's far from being any such tragedy as our forefathers faced during the American Revolution, or as other people have faced on innumerable occasions. That should have been the uppermost thought in connection with Memorial Day.

Willie Hill goes over lower Niagara Falls in a barrel, however, and gets about as much publicity as President Hoover.

If our forefathers had been governed by such a sense of value, it is doubtful if this republic would be in existence.

Had they been the kind who worried as much as we do over the difficulties of marriage, the necessity of seeing an auto race or a baseball game, and the terrible disaster that occurs when anyone bets on the wrong side of the stock market, they would have collected a conscience fund to pay Great Britain for the tea and given George III a Rotary medal. —Houston Post.

States Supreme Court, directed his counsel, Frank J. Hogan, to seek a review by the highest tribunal.

An Unpleasant Subject
All of the functions of life are not pleasant to consider. Perhaps this is why some mothers refuse to think that such symptoms as restless sleep, loss of flesh, lack of appetite or itching nose and fingers in their children, can be caused by round or pin worms. Many mothers have proven, however, that a few doses of White's Cream Vermifuge, that sure and harmless worm expellant, will make these symptoms disappear. New King of Romance Appears On the Air

LEW CONRAD

Lew Conrad Becomes Overnight Radio Romeo

New York City.—Lew Conrad, handsome young tenor, is scheduled, if volume of telegrams, letters and telephone calls is any indication, to become the new King of Romance on the air.

Conrad began his broadcasts at the hardest time of the day—in the morning, when romance is a most difficult commodity to sell. But when this singer wove his lyric spell by way of the Campbell Soup hour, the broadcasting studio started to get letters by the score, all addressed to the singer and pouring out everything from undying passion to maternal love.

Conrad's singing has the qualities of the crooner, the mellowed tones of the trained artist and the masculine virility which crooning

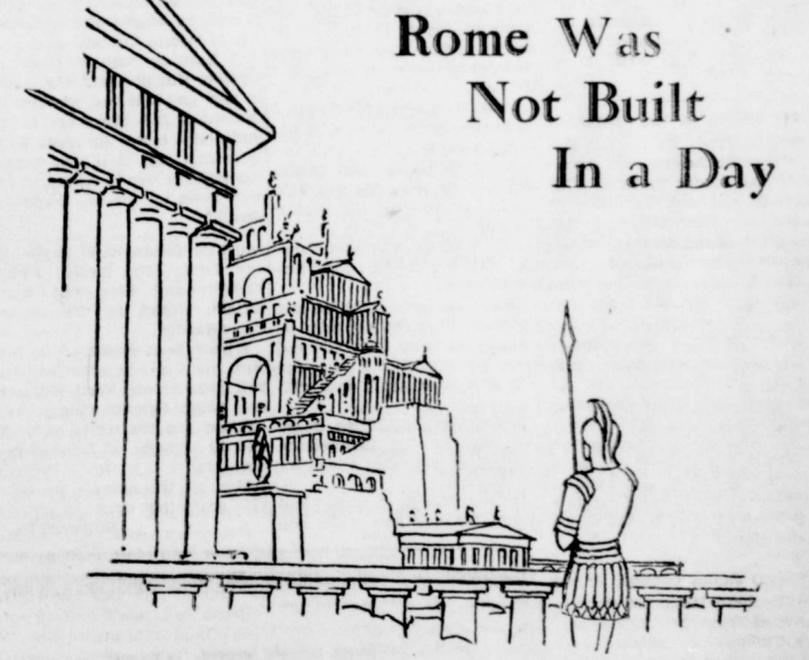

sometimes seems to eliminate. He is a Spanish type, dark with soulful, dreamy brown eyes, slight of build and very athletic. His vogue has become so great that a famous psychologist has tried to analyze his unprecedented appeal.

"Technique and finish appeal to what I might call the conscious ear, but it is that other deeper and more primitive appeal that gets us when we hear certain singers," this expert declared. "It is the unconscious ear that opens up the soul of the multitude to the voice which has that mysterious grip."

"Soul sings to soul and we feel an inner harmony and satisfaction."

Conrad's singing of "Lonesome Lover," a waltz ballad of the cooling variety, has marked a milestone in feminine America's emotions.

He has been an opera singer as well as a violinist with the Cleveland Symphony Orchestra.

Rome Was Not Built In a Day

The most powerful nation of ancient history reached the height of its glory only after years of struggle.

Our own beloved country has required several centuries for development.

Nothing good and lasting can be built hurriedly. The national system of marketing wool and mohair cooperatively is no exception to the rule.

In place of standing on the outside and condemning, producers should join the Co-operatives and help correct any mistakes that have been made. This huge machine cannot be built in a day nor a year.

It will require time and much effort but the result will be worth it—marketing machinery owned and controlled by the producer.

NEWS FLASHES

Two sewer gas explosions in the assembly plant of the Ford Motor Co. in Dallas killed one man and injured nine Wednesday.

According to Arthur Brisbane, the United States Army is to be supplied with matches "Made in Russia." Prices were one fourth lower than American prices, it is claimed.

The Library of Congress at Washington has bought 1632 books that formerly belonged to the Czar of Russia. The books were sold by the Bolshevik government to a New York dealer.

Bids are about to be taken by the state Board of Control for one hundred million cigaret stamps to be used in collecting the new cigaret tax of 3 cents per package. The law goes into effect at midnight August 21.

Americans are said to have won three-quarters of a million dollars in the Irish lottery conducted in connection with the Epsom Downs horse races in England Wednesday. There are no reports of the millions who lost money in the lottery.

Trouble is feared in Matamoros, Mexico, opposite Brownsville. Friction between city officials and federal customs officers has increased to a serious degree. Two armed bodies of men are reported facing each other across the Plaza in Matamoros.

Chairman Jouett Shouse of the Democratic national executive committee has announced that the party will make the Smoot-Hawley Tariff an issue in the forthcoming presidential campaign. Business is impeded and the depression continued by this unreasonably high tariff he asserted.

In Houston a gay party of school children on a sight-seeing trip over the city were shocked by the sudden death of a 12-year-old girl and the injury of two others. The child, Lyda Bell Moulds, had her head out of the bus window as the bus went thru a gate. The post struck her head and dragged her out of the bus.

Drastic cuts in the price of crude oil have been made thruout the Mid-Continent field as well as in East Texas. Over-production in the new field is given the reason. Although prices of crude are the lowest since 1920, no reductions have been announced in the price of gasoline and lubricating oil by the major companies.

Bishop James Cannon, Jr., of the Southern Methodist Church, has sued Republican Representative Tinkham of Massachusetts for a half million dollars for alleged libel. When Tinkham in a speech in Congress demanded that Cannon account for \$48,300, used in the Anti-Smith campaign in Virginia in 1928, Cannon called him a "blustering, cowardly congressman" and dared him to make his charges outside Congress. Tinkham did, and the libel suit is the result.

Agricultural colleges in the Southwest have for several years stressed the importance of a farm program calling for several sources of income, with the result that the "single cropper" is rapidly disappearing. In the depression of 1930 farmers who practiced diversification suffered less than those who depended upon one crop—wheat, or cotton, for instance—and those who kept milk cows, hogs and poultry as a rule made some money. The agricultural colleges report that surveys made the last three months indicate diversification will be more general this year than ever before.—The Earth.

MRS. W. H. THOMPSON PASSED AWAY

Mrs. W. H. Thompson died at the family home in Brownwood Tuesday at 1:00 a.m., after a long illness, and her remains were laid to rest in the cemetery in that city Tuesday afternoon, following funeral services in the First Baptist church, conducted by the pastor, Rev. A. E. Prince, assisted by Dr. Sherman, pastor of the First Christian church of that city and Rev. Moore, pastor of the Christian church of Lockhart, a former pastor of the First Christian church at Brownwood and a close friend of the family.

Mrs. Thompson, nee Mary Ellen Trent, daughter of the late Major D. H. Trent, was born in Llano county. In her early childhood the family moved to Williams Ranch, where they continued to reside until the railroad was built to Goldthwaite, when they moved to this city. She was married to W. H. Thompson in this city in 1889 and they lived here for several years, where he was engaged in the dry goods business. After disposing of his business they moved to Eskota and later to Lordsburg, New Mexico, moving to Brownwood thirty-five years ago, where the family has continued to reside. She was a member of the First Baptist church of that city.

She is survived by her husband and two sons, W. T. and Lindsey Thompson, two grandchildren, Marie and W. T. Thompson, Jr., a number of other relatives survive, several of whom reside in this city.

All of her Goldthwaite relatives and a number of friends from this place attended the funeral services Tuesday. A large number of relatives from elsewhere and many Brownwood friends also attended the funeral.

BOOK REVEALS PLOT TO POISON WILSON

The story of an alleged plot to poison Woodrow Wilson while he was attending the Paris peace conference is contained in the book "America's Black Chamber," by Maj. Herbert O. Yardley, in charge of the American cryptographic bureau during the war. The author declared a decoded message which fell into his hands disclosed the plot.

"The reader may well appreciate the shock," Major Yardley writes, "I received as I deciphered a telegram which reported an entente plot to assassinate President Wilson either by administering a slow poison or by giving him the influenza in ice. Our informant begged the authorities to inform the president.

"I have no way of knowing whether this plot had any truth in fact, and if it had, whether it succeeded. But there are these undeniable facts: President Wilson's first sign of illness occurred while he was in Paris and he was soon to die a lingering death."

SELFISH

You want to receive credit for worthwhile things that you have done.

Because you have failed of recognition you wonder whether it is worth the effort you put into your work.

If the good you do is suggested and carried out with an idea of praise for it, you have the wrong spirit in your undertakings.

You are working along personal lines, not that others may benefit from your kindness or generosity.

What prompts you to most of the fine things you do?

To what extent is self-satisfaction removed from the incentive?

Unless your thoughts are wholly without idea of recompense you certainly have the wrong idea of worthy acts.

Too many folk want the world to know of their charity.

Fearing that the fact may be hidden, they refer to it.

To hear a person allude to his benefactions sounds suspicious.

The real pleasure should be the heartwarming resulting from a good act.

If you frequently allude to the amount you give to support the church or the sum total of your contributions to the community chest and to other charitable organizations, you have a selfish interest in making contributions.

WARNING AGAINST FAKE REMEDIES

The Federal Food and Drug Administration has again found it necessary to warn the people against buying fake remedies for the cure of cancer, tuberculosis, pneumonia, influenza and other ailments.

There is no known remedy for cancer or tuberculosis and very few medicines that are an aid to recovery from pneumonia and influenza, yet unprincipled scoundrels put out mixtures for the purpose of swindling the afflicted and their relatives and friends.

The food and drug laws of the country are a protection to the people, but the penalty is not nearly as severe as it should be. Any person who will deliberately take advantage of one afflicted with an incurable disease, or with an illness that might possibly yield to scientific treatment, and rob him of his money by selling him a fake remedy, should be sent to prison for a period of twenty-five years or longer.

It is a closely kept secret, but it is not commonly known that armadillo meat is considered a great delicacy by those who have eaten it.

SHERIFF'S SALE

The State of Texas, County of Mills:

Notice is hereby given that by virtue of a certain order of sale issued out of the Honorable District Court of Mills County, on the 1st day of June, 1931, by Hon. John S. Chesser, Clerk of said District Court of Mills County, Texas, for sum of nine hundred and fifty dollars and costs of suit, under a foreclosure of Vendor's Lien notes, in favor of J. G. Caraway in a certain cause in said Court, No. 2323, and styled J. G. Caraway vs. Felix Mallory, placed in my hands for service I, C. D. Bledsoe, as Sheriff of Mills County, Texas, did, on the 2nd day of June, A. D. 1931, levy on certain real estate, situated in Mills County, Texas, described as follows, to-wit: A part of W. C. Cowart survey No. 20, 1st tract conveyed by J. G. Caraway and wife to Felix Mallory by deed, dated 8th day of October, A. YEAR-ROUND ROADS NECESSARY

It may be the opinion of the average city dweller that the United States is pretty well provided with good roads. But such is not the case. Most of the good highways lead from city to city and over trunk routes from state to state.

Five million farmers, according to an authoritative survey, are cut off from their markets during a large part of each year, by impassable roads.

One very definite way to secure a practical kind of farm relief would be to set apart a specific portion of all available road funds to be applied to the building of low-cost, water-proof surfaced, farm-to-market highways connecting up with through roads and enabling residents on outlying farms to do their shopping and marketing easily and conveniently at all times of the year.

levied upon as the property of Felix Mallory, and that on the first Tuesday in July, 1931, the same being the 7th day of said month, and at the Court House door, of Mills County, in the City of Goldthwaite, Texas, between the hours of 10 a. m. and 4 p. m., by virtue of said levy and said order of sale, I will sell said above described real estate at public vendue, for cash, to the highest bidder, as the property of said Felix Mallory.

And in compliance with law, I give this notice by publication, in the English language, once a week for three consecutive weeks immediately preceding said day of sale, in the Goldthwaite Eagle, a newspaper published in Mills County.

Witness my hand, this 2nd day of June, A. D. 1931.

SNAPPY STUFF

James Boylan, 17, of West Arlington, N. J., wondered what would happen if he put a lighted match into five gallons of gasoline. His brother told police that James thought the gasoline would put the match out. James is in West Hudson hospital, badly burned.

Deputy Sheriff John E. Davis of Yaphank, L. I., had a cat and a hen. The cat ran away, leaving behind a litter of newborn kittens. Hearing the hen cackling exultantly, Deputy Sheriff Davis investigated and found her mothering the kittens enthusiastically.

A Chicago police squad was touring the streets in an automobile, when a signal came over their radio to hurry to the Prudential Life Insurance Company, where burglars were reported working on the second floor. The squad arrived a minute too late. The burglars had just left, in such a hurry that they had failed to carry off their tools. Next to the pile of tools stood a portable radio set, which was tuned in on the police broadcasting station. The robbers had caught the signal too.

Mr. and Mrs. Julius Snyder of Newark, N. J., were in the applejack business. They signed a note, which set forth that they were to pay the lender on demand. The money was to be used for the manufacture of applejack. Judge Mountain Saturday ruled that inasmuch as applejack is absolutely against the law, being quite alcoholic, the Snyders did not have to pay the note.

OUTLOOK IS GOOD FOR BUMPER CROP OF TEXAS PECANS

Austin, Tex., June 4—Prospects throughout the pecan growing regions of Texas are bright for a large crop this year, according to James T. Kelly, pecan expert with the department of agriculture, who has traveled over most of these sections in the past few weeks.

Kelly reported he had not seen a larger potential crop since 1919, when production was estimated at about 21,000,000 pounds.

Late freezes helped instead of hindering the pecans, Kelly said. He explained that the wet winter furnished an abundance of sap, but the freeze killed the terminal twigs and buds. The sap then forced out dormant buds, some of which have lain dormant for years, with the result that trees over the state are covered with nutlings, Kelly said.

Farmers in the pecan sections, according to Kelly, are fast learning to appreciate the profit of thinning out native growths of pecans on their farms and harvesting the nut efficiently, as a valuable crop.

In his section—around San Saba—farmers have found their native pecan crops a welcome source of revenue in recent "tight" farm years.

Famous Trumpet Player Leads Own Orchestra

HENRY BUSSE

Defies Tradition of Violinist or Pianist for Conductor

New York City.—A famous trumpet player, Henry Busse, has defied tradition by forming an orchestra and becoming its conductor. The leaders of orchestras, old style, were always pianists or violinists. Until now, even American music, though it has smashed many hard and fast rules, has respected this dictum. Busse, however, who won remarkable notice in the band of Paul Whiteman, often substituting for his leader, refused to relinquish his dream of an orchestra of his own just because he was not the orthodox type, musically speaking, for a conductor. His judgment has been completely justified, for his orchestra which now plays at The New Yorker, one of the city's newest and largest hotels, instantly became popular. Busse frequently wields his trumpet instead of a baton and the young and lively crowd who dance to his music love the innovation. "After all, neither the piano nor the violin is absolutely essential to the American dance orchestra," Busse points out. "Why then should it be considered that a violinist or pianist must conduct such an orchestra?" "Take a popular favorite, the fox trot ballad 'I Keep Remembering Someone I Should Forget.' What can the violin do for it? It belongs to the trumpet after all, doesn't it? Well, why should we not say so? America is a land of tradition-shattering. Our chief value to the world, really, is our independence in breaking away from old habits and restrictions."

SAN SABA

Miss Kittie Sue Havrison, who resigned as home economic teacher in the San Saba high school recently, is leaving this week. She will assume her duties as the first home demonstrator for Menard county on June 1.

Miss Elizabeth West, popular home demonstrator for San Saba county, was married to Jesse Winslow Brown of Houston at the home of the bride's parents at Hamilton at dawn Saturday morning, May 23.

Nightwatchman Jeff Lewis discovered a blaze, almost a roaring flame near 12:30 Sunday night. The siren was immediately sounded, but the J. D. Carter meat market building was a seething flame of fire before the fire department could be brought into play.

The lumber yard of O. C. Summers & Son was wiped completely out in a blaze of fire discovered about 3 o'clock Sunday morning. This yard was three blocks from the square and was completely enveloped in roaring flames when the fire was discovered.

Following the destructive fire, which swept the north west corner of the plaza last Sunday night, there is general talk that the three plank buildings now occupying the north side of the plaza on the northwest corner will be torn down and new brick, or other modern buildings take the places.

The fire alarm was turned in just after dark Sunday night and the W. T. Thorp grocery store reported to be on fire. The excitement completely upset every church service in town. However, it was only the burning out of a motor in the large frigidaire in the store. No damage to building or stock was suffered.—News.

HAMILTON

The second annual golf tournament for the Perry Country Club will take place June 8, 9 and 10. A field of more than 75 golfers is expected to compete.

The architect is here this week and has delivered 20 copies of the plans and specifications for the new court house to Judge Rice and up to date 17 have been placed with prospective bidders.

Wednesday, Jim Lee had his team of mules grazing around his place south of town. He had them yoked together in order to keep them from straying away. In some manner they fell into a small tank of water and before they could be rescued one was drowned.

The new Methodist parsonage is reported as being finished. All paper and painting has been completed and six floors have been surfaced, filled, varnished, waxed and polished. This is one of the most modern and up-to-date parsonages in the entire Gatesville district and it is reported that several preachers have their eyes on Hamilton, as a result.

An accident which almost cost the lives of at least two persons occurred on the Dublin road Sunday afternoon about 5 o'clock. Mr. and Mrs. Harry Boynton and their two little sons and Mrs. Bert Pirtle and her two little daughters were returning from a visit to Dublin when the youngest daughter of Mrs. Pirtle fell from the car, which was vuvning at a high rate of speed.

Mr. Boynton was driving and in an effort to prevent the little one from falling, lost control of the car, which was a Dodge sedan, and instantly the car overturned, rolling over two or three times. When it came to a stop the automobile was resting on the top with the wheels extending into the air. It is almost miraculous how the accident did not claim the lives of the little daughter of Mrs. Pirtle, as well as all of the occupants of the Boynton car.—News.

LAMPASAS

The commencement exercises of the Lampasas high school were held Friday evening in the high school auditorium.

We were unusually surprised to see so many attending the Workers' Conference at Lake Victor last Monday. Despite the busy time, the people responded well.

A meeting of the city council was held Wednesday and the regular routine business was transacted at this meeting. It was decided that the council would instruct the City Attorney to file suits against property owners who have not connected with the city sewer system up to the present time.

Deputy Sheriffs Ramsey and Long arrested J. C. "Sandy" Martin here Wednesday afternoon and he was held for San Angelo officers. Sheriff Hewitt and a deputy sheriff were here Thursday afternoon to return Martin to San Angelo where he is charged with smuggling a pistol to prisoners in the San Angelo jail. Five prisoners broke jail on May 16 at that city and are now at large.

There were 72 votes polled in the school tax election held last Friday and of that number 67 were for the tax and five against. This election does not in any way change the tax as heretofore paid by those in the Lampasas independent school district. This district has already had a tax of 75 cents, but since taking in more territory, it was necessary to vote the tax again in order that all in the district would pay alike. The new territory taken was about 13,000 acres from the Ogle district and those in that district had only been paying a 50c school tax and there were 2,300 acres brought into this district from the Fairview district. Those in the Fairview school district had already been paying a 75 cents tax in their district.—Leader.

LOMETA

Mrs. Leo Page and children of Lampasas are spending several days with Mrs. Page's parents, Mr. and Mrs. F. A. Stockton.

Miss Genevieve Wallace of Mullin is spending the week in Lometa, the guest of her sister, Miss Marie Wallace.

Miss Mildred and Robert Vance Clark, Mrs. Richards and Buck Barrows, all of Abilene were week-end visitors in the W. W. Tippen home, while en route to and from San Antonio. They were accompanied on the trip by Miss Norma Sue Tippen, and on the return by Miss Cleo Blinn Clark, who taught school in Devine the past session.

Burleigh Baxter returned Saturday from Waco, where he has been confined in the Baptist sanitarium following a serious operation, which Dr. Floyd Kirby performed. Dr. Kirby came to Lometa about a month ago and performed an emergency operation upon Mr. Baxter, who has since that time been taking a building up treatment preparing for the major operation. Mr. Baxter is 86 years of age and though he had a serious time of it, his wonderful constitution coupled with the splendid treatment and care he received, has enabled him to get along fine and he expects to be about town again within a short time.—Reporter.

DALLAS MAN FINED HAD FERMENTED GRAPE JUICE

Judge William Atwell struck a severe blow at the tremendous nation-wide business of the California Vineyards, Inc., when he fined B. Clesi, a Dallas produce merchant, \$200 for possession of their product in United States District Court in Dallas.

The case evolved itself into an argument between Assistant United States Attorney E. Crippen and Mr. Clesi, who handled his own defense after waiving a jury and asking that Judge Atwell deliver judgment.

Although Mr. Clesi claimed to have purchased the product on advice of his physician that his ailing wife would benefit by the grape juice, plainly marked "non-alcoholic" on the barrels, the prohibition department's chemist, W. S. Holman, testified the analysis showed it to contain about 12 per cent alcohol.

From what testimony was produced, Mr. Clesi made no attempt to conceal the product. He had letters from the California Vineyards people claiming that possession of their product was not against the law.

In offering his decision, Judge Atwell declared that "no physician nor manufacturer can set aside the law." He explained that a physician prescribing alcoholic beverages must use regular forms, which Mr. Clesi's physician did not do, and that the beverage must be purchased from licensed dealers.

California Vineyards, Inc., is the company that came into national prominence last year, when Mabel Walker Willebrandt, former Assistant United States Attorney General in charge of prohibition enforcement, became their general counsel and established legality of their business through legal action. The company has received a \$1,000,000 farm loan from the Federal Farm Board.

THE BLUEBONNET CROP

The possibilities of the bluebonnet as a soil builder have not been touched in Texas. Considering the fact that it grows wild here in the very region, where erosion has washed away in places some of our best black soil, it is time we gave the matter attention.

The bluebonnet has an excellent root system. It offers a chance to restore nitrogen to the soil. As a crop for plowing under it furnishes abundant humus. It grows readily with Bermuda and other grazing grasses. It seeds itself when allowed to do so.

It is so interesting that we write poems about it, paint pictures of it and call it our state flower. It is lovely as any tapeworm as it carpets the hills and denuded ridges, blending into grays and violets in the distance. It is fair as any garden bloom when massed in bowls for indoor display. But we may be growing it some day as a crop, just as is being done with other members of the lupine family in other lands.—Dallas News.

Dangerous Business

Our stomach and digestive systems are lined with membrane which is delicate, sensitive and easily injured. It is dangerous business, then, to take medicines containing harsh drugs, salts or minerals, when we are constipated. In addition to the possibility of injuring the linings of our digestive system, these medicines give only temporary relief and may produce habit forming. To relieve constipation, take Herbine, the cathartic that is made from herbs, and acts in the way nature intended. You can get Herbine at HUDSON BROS. DRUGGISTS

All-American Band Dream of Conductor

B. A. ROLFE

You were just a gay little Spanish Dancer, when you danced my way, little Spanish Dancer.

B. A. Rolfe Hopes to Organize Such A Unit

New York City.—To organize and lead an all-American concert orchestra, with native personnel and characteristic instruments, interpreting American music as it should be interpreted, is the paramount ambition of B. A. Rolfe, famous conductor. "Because of the great variety of types of music in this country, I believe that the fulfillment of my dream might produce an entirely new orchestral set-up," Mr. Rolfe declared. "New instruments would undoubtedly be brought in, such, for instance, as the banjo, which has done so much for the American dance orchestra, and which is America's only instrument contribution. It is the great, great-grandchild of a musical contraption called the 'zim zim' brought

from Africa with some of the first slaves landed in Boston.

"All members of my dream orchestra would have to be born here and if possible I would draw them from all sections—New England, the Middle West, the South and the West—so that each might contribute that distinctive something for which his environment has prepared him.

"It is impossible for any one who has not spent his life amid the tempo and rhythm of America to interpret the music which, while it is favored melodically with the music of other nations, is entirely American as to rhythm and time.

"Take, for instance, a characteristic bit from a characteristic popular hit, 'Little Spanish Dancer.' While there is something of languorous, lovely Spain in this, it is also distinctively and clearly American in feeling and expression."

HOOVER GROWS COTTON ON CALIFORNIA FARM

In the heart of the San Joaquin Valley, near Wasco, Kern county, is situated a 1,300-acre tract called by its principal owner a "farm." President Hoover, who rode over the area several years ago on horseback to lay it out, today continues his active interest in the "Hoover farm," which is a model other farmers well might study, so prolific are the crops it produces.

Science has been applied in the many ramifications of farming on the Hoover farm, and economies many farmers would disdain to attempt help produce profits. Andrew R. Boone writes for the Boston Transcript. Here one sees farming diversified in the best sense of the word. Originally it was planned by the president and his associates to make it an all-cotton farm. Today, however, only 380 of the 1,300 acres bear cotton, yet on these early watering and constant cultivation produce nearly two bales each, a very high yield. Elsewhere on the farm corn, peaches, apricots, plums, grapes, beans and potatoes grow abundantly. Leslie W. Symmes, manager of the farm, keeps it up to date not only with modern equipment, but by following new scientific methods in handling the crops. For example, on the president's cotton patch this year's crop was put in by tractor planters and cultivated four rows at a time. With one man on a tractor production costs were reduced materially.

In the 380-acre cotton patch the phenomenally high yield has been made possible, Mr. Symmes explained, by using good seed, watering plentifully before planting and keeping the plants supplied with moisture below the surface. On the president's farm the cotton plants are never permitted to know need of water. Workmen are taught to anticipate wilting leaves and to irrigate and cultivate the surface before wilting commences. "When a plant wilts, something is lost," they are told.

Three varieties of rubber plants are growing on a 6-acre plot on the president's farm. The squat gray bushes resemble sage brush very closely and bear tiny yellow flowers. Until they are four years old these plants will be watered and cultivated then they will be extracted, roots and all, from the earth and converted into rubber.

The farm represents big business in its best sense. Farming is both an agricultural and an engineering problem and by combining these two sciences Mr. Symmes has been able to develop the 1,300 acres of the \$750,000 "plant" to near capacity. Mr. Symmes has attempted to diversify the crops and now is working into the early vegetable business by reducing the area devoted to permanent crops such as fruit trees.

HUGE WHEAT FARM IN PANHANDLE

Three hundred hands, a fleet of ten caterpillar tractors, 70 trucks and many combines are ready to start harvesting the wheat on Texas' largest wheat farm. This is the Hickman Price farm of 30,000 acres, of which 23,000 is in wheat this year. It is located in Swisher, Castro and Deaf Smith counties with headquarters near Kress. The crop is estimated from 350,000 to 500,000 bushels and it is claimed that the farm will make money even if wheat sells for 35c. If the price is too low, plans are being made to store wheat under a huge circus tent to be erected in place of a warehouse. Four thousand bushels an hour or 40,000 bushels a ten-hour day will be harvested by 35 combines. Portable bunk-houses and kitchens in wheels will follow the combines. Motor cycle messengers will carry messages. While the harvest is in progress, 5,000 acres will be planted to row crops with caterpillar tractors pulling seeders, which drill a front of 64 feet at a time.

TEN BETTER BUSINESS SIGNS

1. Appearance of some large constructive plans for building and other heavy construction in various parts of the country, this involving large orders for structural steel.
2. Reopening of a large number of suspended banks.
3. Breaking by repeated falls of rain and snow the year-long drought.
4. Smaller number of large failures despite a record number of all suspensions.
5. Smaller total of fire losses.
6. Early progress of farm work.
7. Earlier opening of lake navigation than last year, with all that this implies as to opportunities for work for the idle.
8. Reports of increased activity in cotton, wool and silk mills.
9. Distinct tendency for the downward curve of commodity prices to flatten out, possibly the harbinger of the end of the eighteen-month decline.
10. Bright crop prospects generally.—The Nation's Business.

TOILET ORDINANCE

All persons building pit toilets are cautioned to comply with the terms of the toilet ordinance. Particularly is it necessary that the covering or slab over the pit be strong, tight-fitting and fly-proof. It is important that there be no openings in it except for the vent pipe and stool. The back of the toilet should be boarded up.

Please take notice, as an inspection will be made, and toilets improperly built may have to be built over again.

D. 1931, and it is ordered and decreed by said judgment that said property be sold as under execution in satisfaction of said judgment. And if said property shall sell for more than sufficient to pay off and satisfy said sums of money, the excess should be paid over to the said J. L. Scott. But if said property should not sell for enough to pay off said sums of money, the balance due shall be made as under execution, and such order of sale shall have the force and effect of a writ of possession, and the officer executing same shall make a good and sufficient deed, and place the purchaser of said property in possession thereof within 30 days from date of sale.

Therefore, you are hereby commanded that you proceed to seize and sell the above described property, as under execution and make good and sufficient deed, and to place the purchaser of the same in possession thereof within 30 days after the day of sale and you apply the proceeds thereof to the payment and satisfaction of said sum of \$726.00, together with the interest that may be due thereon, and the further sum of \$15.45, costs of suit, together with your legal fees and commissions for executing this writ. And if the said property shall sell for more than sufficient to pay off and satisfy said sums of money, then you are hereby directed to pay over the excess thereof to the defendant—J. L. Scott. But if you fail to find said property, or if the proceeds of such sale be insufficient to satisfy said judgment, then you are directed to make the money, or any balance thereof remaining unpaid, out of any other property of defendant, as in case of ordinary executions. Said sale to be made, however, subject to a first lien against said premises in the sum of \$500 held by the Trent State Bank. Herein fail not, but due return make hereof within 30 days, showing how you have executed the same. Given under my hand and the seal of the District Court of Mills county, at my office in Goldthwaite, this 3rd day of June, 1931. JOHN S. CHESSER, Clerk District Court, Mills county, Texas.

Governor Sterling's first veto has been used against a bill to license ginners. Burdensome expense on the ginners without corresponding benefit to the farmers was his reason for the veto.

TENNESSEE GOVERNOR NOW UNDER FIRE

Eight articles of impeachment charging Governor Henry Horton of Tennessee with various deeds of maladministration, ranging from alleged conspiracy with political friends for their own gain, to "moral delinquency" in purchase of a \$2850 piano out of state funds, were presented to the state house of representatives at Nashville Tuesday.

If the house approves the articles, the senate will sit as a trial court, with the governor as defendant. The chief executive has been under fire since last fall, when various banks controlled by Rogers Caldwell failed, tying up nearly \$7,000,000 in state funds.

Baylor Lewis, former resident of Goldthwaite and well known in this section, will be in charge of the Henry Stallings & Co. warehouse during the present grain season. Mr. Lewis will arrive in Goldthwaite June 10.

Mrs. Field: "Joe, did you bring home that pane of glass for the kitchen window?" Joe: "I did not. I was after a 12 x 14 and all they had was a 14 x 12."

Mrs. Field: "You blank ety blank! Why didn't you get it? We could have put it in sideways, couldn't we?"

We have just finished unloading a car of lumber.
