

# THE GOLDTHWAITE EAGLE

THIRTY-SEVEN.

GOLDTHWAITE, MILLS COUNTY, TEXAS, FRIDAY, JUNE 12, 1931.

NUMBER TWELVE.

## WONDERFUL RAIN OVER THIS COUNTY

### Crop Benefitted Everything Helped

One of the most beneficial rains ever fell in Mills county Tuesday night, just in time to save the corn crop and all other crops. About an inch and a half fell here and there and possibly more in other parts of the county. The fall was just right for the lands to get the full benefit and there was a sufficient amount for all present needs. The corn was beginning to suffer from the young corn was not in a suffering stage, but doing fine now and some say they will make some money, even if no more rain comes.

There is a local proverb that rain never falls at night in this section, but this time proved incorrect while the fact that our crop is usually ruined the week in June has been proved to not be an inviolable law.

At any rate and anyhow, every one is lovely in good old Mills county—the best part of the world.

### Another Heavy Rain

Thursday evening about 7 o'clock one of the heaviest rains has fallen here for many years. The rain fell over this section. The amount could not be ascertained accurately, but the estimate is about 3 inches. There was little hail, but not enough to do any damage in this immediate area and probably no serious damage was done in the county. There was no need for rain at this time, but it will be beneficial to the main grain that has been cut was probably damaged, but in the main the rain was beneficial.

### HEALTH CLINIC

In co-operation of the National State Health Departments the county health committee is to be held at the home of the children of pre-school age also at the opening of school next fall for children of school age. A health nurse is supplied by the department free of all cost and examinations are to be made without charge. Health committees have been organized in the thirty-three districts and the co-operation of the people in the district is desired. If the child has tonsils or adenoids the fact is made known to the parents or guardians. If there is defective hearing or the information given. If the teeth need attention the parents are informed, as is the case with any other trouble needing attention. However, the nurse or physician giving assistance in the clinic will not perform any operation or provide any treatment such matters being left to the parents and family physician. Examination is all that is done in the clinic and will be without charge or cost. If the examination shows that the child needs dental or surgical attention it is optional with the parent or guardian when and where treatment will be procured if it is procured at all. The county central committee is headed by Judge Roy Simpson, chairman, and Mrs. Roy Simpson as secretary.

## The County Tax Levy Same As Last Year

### Business Transacted By the Court

The court held a regular monthly meeting Monday and transacted considerable business, while much of it was of routine nature.

The tax levy was made for 1931, which is the same as the rate for the past several years, whereas, the tax valuations have materially decreased. The total assessed values for the county this year are \$5,342,750, as against \$5,610,110 last year. The tax rate of 60 cents on the \$100 valuation is less than most of the counties in this section. The tax is divided among the various funds thus: General fund, 25c; court house fund, 15c; road and bridge fund, 15c; jury fund, 5c.

The levy in the various school districts was made in accordance with the special tax voted. Rock Springs district has joined the number of special tax districts with a levy of 30c.

The court declared the result of an election held in Ridge district wherein a \$2000 bond issue was authorized for the purpose of building a new school house. The highway money was divided between the different precincts according to the collections from the precincts: No. 1 \$90.08; No. 2, \$60.86; No. \$95.20; No. 4, \$43.15.

Official reports were audited and accounts were allowed.

## Mills County Fair Planned On A Big Scale This Year

### No Entrance Charge Many Attractions

The Mills County Fair for 1931 will be the biggest and best in the history of the organization, if the plans and desires of its management mature.

The fact that there will be no entrance charge to the grounds will prove attractive and the directors have been highly commended for this move.

Race horses are being booked rapidly and there is no doubt now that a fine string of racers will be here for the three days of the Fair. The good purses will guarantee sharp competition.

Concessions are being booked by Mr. J. H. Burnett and he also plans to book a high class carnival, to provide continuous amusement for the people.

Many good speakers have been invited and while this is an "off year" in politics, there is sufficient interest in public affairs and enough political planning for the next campaign to insure a number of able men responding to the invitation to speak.

The catalog will be out this week and every plan for the Fair will be completed in the next few days.

Come to the Fair July 15, 16, 17.

### A BIG EVENT PLANNED

Plans are being formulated for the entertainment of the entire Texas legislature here on Thursday, July 16—the second day of the Fair. The plan was suggested by Representative DeWolfe and those interested in making the Fair a greater success than ever before, heartily agreed with the plan. A large number of the lawmakers agreed among themselves some time ago to hold a meeting at some point in the state during the year and Mr. DeWolfe promptly issued a verbal invitation for them to meet in Goldthwaite. After more mature planning he determined to ask the co-operation of citizens here in entertaining the legislators and selected the second day of the Fair as the proper time.

It is proposed to prepare a barbecue at the Lake Merritt club grounds either at noon or for a six o'clock dinner and a program of music and speechmaking will be arranged.

This is perhaps the most elaborate scale of entertainment ever attempted in Mills county and the Fair will be greatly benefited by having it carried to success. The Fair management, the citizens of the town and many of the outstanding people of other parts of the county will enter heartily into the plan.

### A REASONABLE CHARGE

The Eagle makes a charge of 5 cents per line for obituaries, resolutions of respect, cards of thanks, notice of entertainment where there is a financial benefit, as well as for all similar articles. The sender of these articles will be expected to see the bill paid. The fact that the Eagle has accumulated quite a number of these accounts makes it necessary to require that payment be arranged before the articles are published.

### BLUEBONNET SEED

Gather Bluebonnet seed now. In a few days they will all be gone.

### BAPTIST CHURCH

The pastor will be out of town Sunday morning and Rev. J. D. Coleman, pastor of the Baptist church at San Saba, will preach at the 11 o'clock hour. Let everyone be on time and everyone stay for the preaching service and hear Brother Coleman. The pastor will preach Sunday evening at 8:15, the usual hour. Delton Barnett will have charge of the Sunday school class at the Melba theatre Sunday morning. Let every man and boy who has been attending this class be present and bring someone with you.

Some of our Baptists and Methodists have been reviewing "civics" just to refresh their minds on some of our Texas laws. Just a warning to Methodists and Baptists, who fish on Sunday. Mr. DeWolfe our representative has promised not to convene the legislature for such violations of the law. So we had better be careful.

Our city cabinet, that is, the men who compose this cabinet have been trying to get everybody to cut their weeds, put oil in their tanks, move all unnecessary garbage around their homes, and do many other things that are necessary for the health of our community. This is a right step in the right direction for every citizen in our town. It's true that these men are well paid for their services. The honor that goes with this position, and the "balling out" they get is ample pay, but that won't buy bread and mean, and so let's everyone back them in their cleanup campaign.

We had three invitations last Sunday to dine out for the noon day meal and wish we could have accepted them all. The wife of the sheriff gave us the first invitation and it always pays the preacher to stay on good terms with the sheriff. In fact, everybody ought to be on good terms with the officers of the law. So we had dinner in the above mentioned home. Had plenty of good eats, well prepared and delightful fellowship during our visit. It's customary when the sheriff has the preacher and his wife for a meal that all of his deputies do likewise.

Somebody has misinformed some of the tourists that pass through our town as to where the banks are located. We have had two callers this week asking them to cash a check for them. No doubt but what these were good men, but who ever heard of a preacher that could cash his own check, much less somebody else's. It might be well to give out this information to our citizens regarding transient people who need advice, as well as help otherwise. Our city secretary, Mr. F. P. Bowman, and our city Marshall, Mr. Harry Allen, are supposed to give such information and help that is needed. That is part of their pay and let's help pay them a good salary.

Everybody at all services Sunday. On time and get out on time is our motto.

### G. C. IVINS, Pastor

### NICKOLS—TYSON

Dwight Nickols and Miss Juanita Tyson drove to the Baptist parsonage last Monday evening and were united in marriage, Rev. G. C. Ivins officiating. These young people were reared in Mills county and have a great many friends who extend good wishes to them.

### RECEPTION AND TEA

On Monday afternoon at three o'clock the Woman's Missionary society and the Carrie Bodkin Philathea class of the Methodist church gave an informal tea at the beautiful home of Mrs. J. G. Berry, to honor Mrs. Mollie Lowrie, who for many years has been a valuable and faithful member of both organizations, and is soon to depart from our city to make her home in Beaumont with her daughter, Mrs. Clyde Sealy.

Mrs. Berry received the guests at the door and a receiving line composed of Mesdames R. M. Thompson, Mollie Lowrie, Joe Brown of San Angelo, Harry Allen, Dan Yates, Lee Conro, Hugh Moreland, J. C. Evans, and C. H. Ford welcomed the guests and Mrs. Claude Saylor seated them. After a short time of very pleasant conversation and greeting of friends, a musical program interspersed with beautiful readings on friendship was rendered.

The first number was a piano solo, "Polichinelle," by Rachmaninoff, given by request by Miss Ruby Lee Dickerson. A beautiful poem on "Friendship" by Edgar A. Guest, was read by Mrs. R. H. Mayfield, Miss Garetta Little sang "Mammy's Lullaby" by Roberts, Mrs. McBride of Dallas gave Henry Van Dyke's definition of "Friendship" and a tribute to a friend, "Auld Lang Syne" was given as a duet by Mesdames Thompson and Ford. "Holy Hour" was sung as a chorus by a number of the ladies. Mrs. M. Y. Stokes sang "Friend O' Mine" by Wetherly. A talk by Mrs. Eli Fairman on "Friendship's Farewell" was very touching and a response by Mrs. Lowrie and her cousin, Mrs. Joe Brown of San Angelo, in appreciation of the courtesy shown Mrs. Lowrie, was followed by Mrs. J. C. Evans announcing that our friend Mrs. Lowrie had no doubt often read of hidden treasures and she would now find herself in a treasure house if she would pull the right strings, especially all lavender ribbon bows that seemed to be hanging about in all conceivable places. To each bow, but hidden from view, were numerous gifts for Mrs. Lowrie—gifts to be treasured when she is far away.

The color scheme of lavender, white and green was carried out in the refreshment course of angel food squares iced with lavender, lime sherbert, lavender and green mints, punch iced with grape and mint ice cubes. The plate favors were bouquets of lavender and white sweetpeas.

### A BIG WOOL SALE

H. B. Bradley, a rancher a short distance west of town, reports the sale on Wednesday of the Whittenburg wool to A. M. Hilliard, representing a Boston mill at 17 cents. There were approximately 75,000 pounds of this wool and it was carried by truck to Galveston. Those interested in this sale are H. P. Bradley, Will Whittenburg, Kirk Buttrell, Joe W. Morgan, F. R. Hines, Elza Laughlin, T. F. Elliott and possibly others.

**REFINERY AT BRADY**

A 300-barrel capacity oil refinery has been completed at Brady and will begin operations at once.

The new oil refining plant is owned and operated by M. D. Carson, pioneer oil operator, who had formerly built and operated an independent oil refinery at Wichita, Kan., and at Brownwood, Texas.

The Brady plant will manufacture gasoline, fuel oil and tractor fuel from crude oil shipped from the Brown county oil field near Brownwood.

The plant is located near the railroad tracks within four blocks of the business district.

**TOWNS HAVE NEW RIGHTS TO REGULATE UTILITIES**

Incorporated cities with a population of 500 or over have been given the right to regulate the rates of water, gas, telephone, electric light and sewerage companies by a bill signed by Governor Sterling. Previously, incorporated towns below 2,000 population did not have this right. Goldthwaite is included in this class.

**TOILET ORDINANCE**

All persons building pit toilets are cautioned to comply with the terms of the toilet ordinance, particularly it is necessary that he covering or slab over the pit be strong, tight-fitting and fly-proof. It is important that there be no openings in it except for the vent pipe and stool. The back of the toilet should be boarded up.

Please take notice, as an inspection will be made, and toilets improperly built may have to be built over again.

The CITY COUNCIL, Goldthwaite, Texas.

**SELL DAIRY PRODUCTS ON MERIT**

It has long been taken for granted that butter, cream-milk and cheese were such well-known and necessary foods that they sold themselves. We are slowly learning differently. In this opinion, the Land o' Lakes News is in thorough accord.

In discussing this phase of the dairy business, the Land o' Lakes News calls attention to the fact that the companies and corporations in the United States having the greatest distribution of their products are the heaviest advertisers, some of them making appropriations for newspaper and magazine space of as much as \$9,000,000 per year.

The dairy industry, in these days of synthetic foods and compounds, which look like and oftentimes taste like the genuine, must get its products before people in a legitimate manner if it expects to maintain the present rate of consumption. Other products are advertised in an attractive and convincing manner, and but few of them are without some merit. Are we going to let a three-billion-dollar industry languish because of old-fashioned ideas, or is the industry going to be brought up-to-date and its products presented properly before the consumers?—Farm and Ranch.

**CAPONE INDICTED**

The chief of gang chiefs—Alphonse Capone—today faced the possibility of a 32-year sentence in the penitentiary and a fine of \$80,000 for alleged evasion of the government income tax. This is the maximum sentence possible if he is convicted on the charges on which he surrendered in Chicago, following his indictment by a federal grand jury.

He posted a \$50,000 bond and was released. There were two indictments, one was returned this week. Another was voted March 16, but was suppressed. They contained six felony and two misdemeanor counts, and alleged a government tax claim of \$215,080.45. The government has yet to lose a case on income tax charges.

**Maryland Woman Happy Now--Loses 55 Pounds**

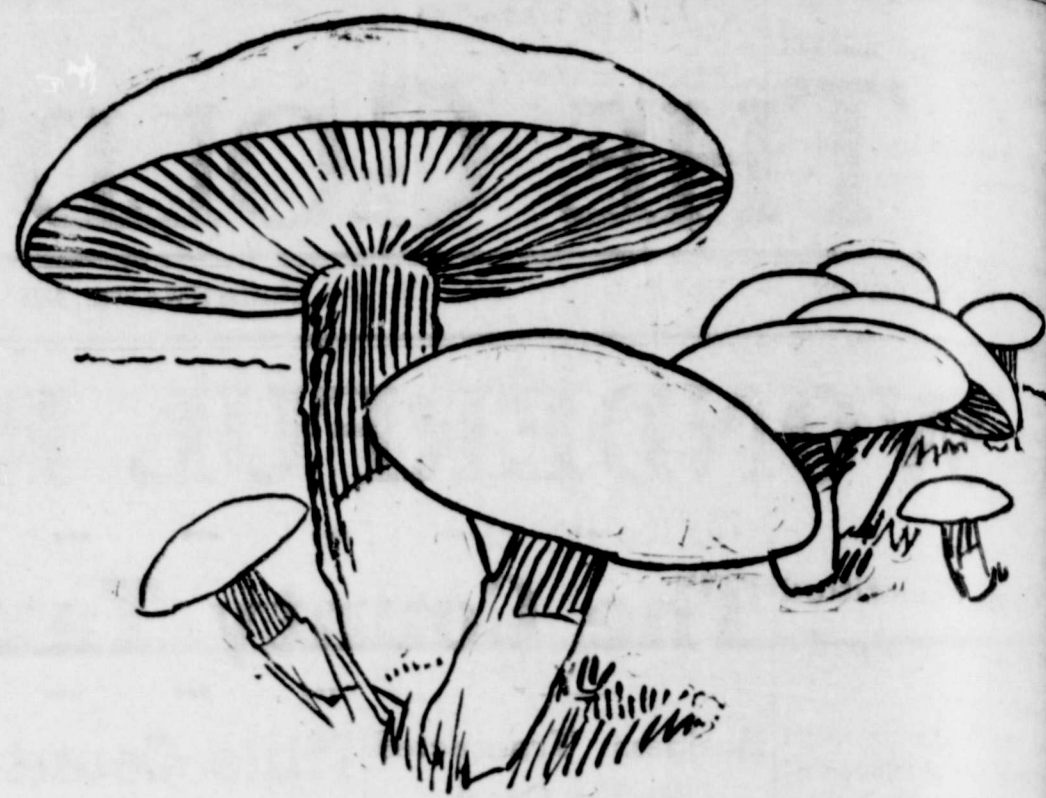

Edith J. Marriott of Baltimore, Mr., writes: "Last winter I weighed 200 pounds and was very much ashamed. I bought a bottle of Kruschen Salts which gave such wonderful results I bought more. After four bottles I weigh 145 pounds and all my friends say, "How slender you've gotten—how did you do it?" I say only four words—thanks to Kruschen Salts."

A generous bottle of Kruschen Salts that lasts four weeks costs but 85 cents at Hudson Bros. or any drugstore in America—take one half teaspoon in a glass of hot water every morning before breakfast—cut out pastry and fatty meats—go light on potatoes, butter, cream and sugar—that will help Kruschen take off your fat.

Take Kruschen every morning it's the little daily dose that does it—if not joyfully satisfied after the first bottle—money back.

**CULTIVATED AREA IN TEXAS**

The total area of Texas is 168,000,000 acres, of which 32,200,000 acres are in cultivation. There are about 110,000,000 acres of and included in farms and stock farms. About 67,100,000 acres are included in 188,480 arms, which are operated by owners; about 10,000,000 acres are included in farms, operated by managers, and 33,000,000 acres in small farms totaling 67,627 in number, operated by tenants. Less than one-third of the acreage included in farms is being cultivated, and only about twenty per cent of the total area of the state is under cultivation. There are great open spaces in Texas that are waiting for development.—The Earth.

**Safety Glass**

Ford cars are now equipped with safety glass in all doors and windows at a small extra charge

\$15 for the Coupe, De Luxe Coupe, Sport Coupe or Convertible Cabriolet \$20 for the Tudor Sedan, Standard Sedan, De Luxe Sedan, Town Sedan or Victoria

THE Triplex safety glass windshield has always been an outstanding feature of the Model A Ford. By reducing the dangers of flying glass, it has saved many lives and prevented countless injuries in automobile collisions.

Now comes a further assurance of safety to every Ford owner . . . polished plate safety glass in ALL DOORS AND WINDOWS at slight additional cost.

The charge for this extra protection is unusually low because of large production and the development of new methods of manufacture. Simply tell the dealer when you buy the Ford that you want "safety plate glass in all doors and windows" and the car will be factory-equipped for you in that manner.

Today, as before, the safety glass windshield is furnished as standard equipment on all Ford cars without extra charge.

FORD OWNERS This announcement refers only to NEW CARS. Ford dealers are not in a position to install safety glass in the windows of your present Ford at the above prices.

**COTTON CROP OUT STOCKS ACCUMULATE**

Present indications are that the carryover from the present cotton crop will total in the neighborhood of 6,738,000 bales, says the Alexander Hamilton Institute. This will exceed the previous high record of 6,590,000 bales on August 1, 1921, and will compare with 4,531,000 bales on hand at the beginning of the current season.

This distressing situation was the result, first, of the failure of the severe decline in world consumption of raw cotton. Remedial measures are being applied to the first of these. The acreage planted to cotton this year being reported as 10 per cent less than in 1930.

Several other factors will probably aid automatically in reducing the crop, according to the Institute's current bulletin. The low prices, which have prevailed in the cotton market during the entire season have materially lessened the farmers' buying power. Farm purchases of fertilizer have decreased by about 25 per cent from those in 1930. Cultivation will also probably be on a much less intensive scale, despite the cheapness and abundance of labor. Weather conditions have been more favorable for the development of the boll weevil and its emergence has been reported in greater quantities than during last season.

Taking all the adverse features into consideration, it is estimated that the cotton crop in 1931 will amount to not over 11,500,000 bales, or a decline from the previous year's harvest of 16.7 per cent. The actual supply available for distribution during the coming season, however, will be only slightly smaller than in the 1930-'31 season, and will total approximately 18,000,000 bales.

**DOWN ON THE FARM**  
By O.G.H.

Dr. Scott, Stephenville, finished the tuberculin test on 60 Jersey cows, recently and will return as soon as sufficient number is listed to justify the two trips necessary to complete the test. We have 30 listed. See the county agent if interested.

Farm people who canned meats and vegetables were not concerned about a living. If you want a living next year, you will have to raise it at home. Chickens too cheap to sell should be put up. Grain and cotton at prevailing prices will buy very little for the table. A fat goat, sheep or calf will fill many cans.

All agree that grain crops paid well last winter in pasturage. But there is some debate about the best course from now on. Small acreages might be baled for feed. It can be stocked and later the entire bundle ground for feed or it may be threshed and sold the usual way at a loss.

Barley and oats properly prepared and mixed make excellent dairy feed. Milk and cream, like cotton, is money at some price, but unlike cotton, has two pay days a month. Then dairy farming necessitates a variety of crops and makes available fertilizer for keeping up the soil.

This is the season to prevent infestation of turkeys with worms. Preventative measures cost less and permit turkeys to develop. Turkeys are apt to become infested with roundworms if they range with chickens. Tobacco dust mixed with mash is a cheap and dependable preventative. Mites and lice hinder growth of turkeys and chickens this season.

The Mills county Fair offers an attractive premium list for exhibits of field crops, fruits and vegetables.

**THE BITER BIT**  
It is hard to sympathize with the merchants of Nuevo Laredo, across the Mexican border. They protest that their business has decreased more than 80 per cent since gambling dens were licensed, and that money is being drained from the city. Another grievance, apparently, is that an American syndicate seems to monopolize gambling with wealthy Americans, leaving to the native gambling halls the fleecing of poverty-stricken laborers.

Nuevo Laredo, Reno and similar wide-open resorts will soon realize the force of the old saying—he who sups with the devil needs a long spoon. It seems easy to make money by encouraging vice, but in the long run it kills legitimate business. Governor Ritchie's queer notion is somewhat akin. He asserts that license fees from the sale of liquor would reduce taxes. They do produce an income to the city or state, but the costs of crime, poverty and vice multiply, and family incomes among the poor are largely wasted on drink, not spent for food, clothes and decent homes.

Nuevo Laredo wanted to make money from gambling Americans, but the tables are turned. American gamblers have secured the concessions, and the merchants of the city "hold the bag."—Dallas News.

**Adults Contract Children's Diseases**  
Adults can, and do, contract many children's diseases. And, usually, they suffer from them much more than children do. For instance, many adults contract worms, an ailment usually associated with children. Sometimes they suffer intensely and take expensive medical treatments, without realizing that worms are the cause of their troubles. Yet, the symptoms are the same as in children, loss of appetite and weight, grinding the teeth and restlessness, itching of the nose and anus, and abdominal pains. And, the same medicine that surely and harmlessly expels round and pin worms from children will do the same for adults — White's Cream Vermifuge, which you can get at

**SHERIFF'S SALE**

The State of Texas, County of Mills:  
Notice is hereby given that by virtue of a certain Order of Sale issued out of the Honorable District Court of Mills County, of the 5th day of May, 1931, by Jno. S. Chesser, Clerk of said Court, for the sum of seven hundred and twenty-six dollars and costs of suit, under a judgment, in favor of J. A. and W. J. Jones, in a certain cause in said Court, No. 2329, and styled J. A. Jones et al vs. J. L. Scott and placed in my hands for service, I, C. D. Bledsoe, as Sheriff of Mills County, Texas, did, on the 3rd day of June, 1931, levy on certain real estate, situated in Mills County, Texas, described as follows, to-wit: Block No. 40 situated in the town of Mullin, Texas, according to the plat thereof as made by J. C. Hitchcock, engineer, and levied upon as the property of J. L. Scott, and that on the first Tuesday in July, 1931, the same being the 7th day of said month, at the Court House door, of Mills County, in the town of Goldthwaite, Texas, between the hours of 10 a. m. and 4 p. m., by virtue of said levy and said order of sale, I will sell above described real estate at public vendue, for cash to the highest bidder, as the property of said J. L. Scott.

And in compliance with law, I give this notice by publication, in the English language, once a week for three consecutive weeks immediately preceding said day of sale, in the Goldthwaite Eagle, a newspaper published in Mills County.

Witness my hand, this 3rd day of June, 1931.

C. D. BLEDSOE,  
Sheriff, Mills County, Texas.

**DON'T CALL HER TEX**

When a notoriety seeking night club hostess in New York adopted the name of Tex or Texas and proceeded to drag it through the mire of police court trials and prohibition raids, the citizens of this state had ample cause for protest. It is regrettable that even the name of one who boasts that her living is made "trimming suckers" in the night clubs of the metropolis should be associated with that of the nation's greatest state.

When this woman and her troupe of "nice little girls" and a white horse were refused entry by England and France, one of her friends had the insolence to appeal to the Governor of Texas to intervene in her behalf. Governor Sterling promptly refused on the ground that she was a citizen of New York. But it is regrettable that he could not also deprive her of her assumed name to which she has no right and does no credit. In conversation and in conduct she is anything but a Texan.

**FACING THE PRESENT**

The Eagle does not aspire to become a chronicle of pessimism, but neither does it wish to be considered a chirper of senseless chatter about how good times are just around the corner.

Truth to tell, many eminent observers of things economic say so, and they are backed up by gentlemen of political learning, and they may be right, but all we can advise, at this time, is for every citizen to look carefully to his or her future.

There is no reason why the United States should be in the midst of a great economic depression. We have in this country ample gold, and considerable surplus of commodities. The men who produced the wealth of the past have not departed. The "makings" of good times are in our midst.

In the present era the wise man does not become despondent, because he knows that things could be much worse, but he does not become foolish and kid himself about the facts. Everyone of us should strive to do as much work as we can and keep out of additional debt while we try to pay what we owe.

HOUSE FOR ROOSEVELT

Col. Edward M. House, political adviser to President Wilson during the greater part of his administration, declared his preference for Franklin D. Roosevelt, governor of New York, as the Democratic party's next presidential candidate.

"If nominated, he'd be elected," the colonel said. He said also he thought well of Newton D. Baker, former secretary of war under Wilson, and asserted he had the greatest admiration for former Governor Alfred E. Smith. "I was sorry the people didn't elect Smith the last time," he declared.

"I am very fond of Governor Roosevelt. We are friends of 20 years. We see a great deal of each other and I agree with him on many of the issues of the day, including the Smoot-Hawley tariff bill and the need for reducing its schedules."

LONGEST HIGHWAY

State highway No. 4 which leads north from Brownsville, some day will be the longest continuous highway in the world, it is claimed at Brownsville.

The changing of highway 12 to highway 4 makes this highway continuous through Texas from Brownsville, through the United States, through Canada, and on to the Arctic Circle.

When the highway from Brownsville south to Victoria, Mexico, is completed, and the highway from there on south to Mexico City and beyond is completed, this highway, it is claimed, will be the long in the world.

PLAN FOR MILITARY RESERVE

The plans are being worked out to create a Mexican military reserve of 1,500,000 trained men. A Mexico City newspaper says the scheme involves military training in all public schools, starting in kindergartens, where children will be taught to play with toy soldiers and given other preparatory training. From the first grade up actual military studies will be given. The newspaper estimates that within a few years the upper schools will be turning out thousands of trained soldiers each year.

GERMANY BEGS RELIEF

The German government proclaimed to the world Saturday that there must be alteration of the Young plan for reparations payments, because it said, Germany can pay no longer. President Paul von Hindenburg issued his expected emergency decree providing drastic reduction of government expenditures and wages of labor and outlining means which will, it is hoped, relieve German unemployment. U. S. Senator Borah has announced that he favors the reduction.

WOMAN SLAYER NOT TO BE CHARGED

No charges will be filed against Mrs. Jennie Harper of Madisonville, Texas, for the shooting of her husband, Carl T. Harper, former district judge. Sheriff Gibson has indicated. The shooting took place at their home at noon Monday.

According to Mrs. Harper's account of the killing, the former judge had been drinking heavily over the week end and repeatedly attempted to attack her. He had been upstairs, she said, and ran down the steps with a gun in his hand. She said she grabbed a .45 caliber pistol fired twice, both bullets striking him in the face.

SPEED COPS NAB JUDGE

Harris county speed cops were criticized before the commissioner's court in Houston recently by the county auditor, who said they did not show enough activity. Last week two of the cops caught a speeder, who was doing 65 miles an hour. It was County Judge Spence. He told the officers he was guilty and willing to pay his fine.

LINDBERGH'S NEW PLANS

Aviation's best known couple, Mr. and Mrs. Charles A. Lindbergh, plan to fly across the North Pacific within a month.

This done, they will spend several weeks touring the Orient by air. Then they will turn homeward again to their year-old son.

Unlike the historic flight when he spanned the Atlantic between New York and Paris in thirty-three and one-half hours, Colonel Lindbergh plans no long water hops. He will take a northern route where the vast expanses of the Pacific narrow to a slim barrier between the continents.

The closest direct hop between American and Japanese territory would involve an ocean flight of 600 miles between Attu, most westerly of the Aleutian Islands, off the Alaskan Coast and Shumshu, most northern and eastern island of the Japanese Empire. A shorter flight of between 300 and 400 miles could be made between Attu and the Soviet Kamchatka Peninsula.

However, Lindbergh may take off from a far northern point of the United States instead of Alaska. He means to take every safety precaution and is having his Lockheed monoplane equipped with pontoons.

The Oriental tour, the first extended foreign flight Lindbergh has taken with his wife since the air journey through Central and South America in September, 1929, is expected to last two or three weeks.

Officials of the Soviet information bureau said Lindbergh has not sought permission to fly over Russian territory, but predicted such a request would be granted readily. Moscow officials were represented as having a "high regard" for the American flyer who greeted Soviet aviators making an East-West flight in 1929.

The Russian flyers, led by Semyon Shestakov, made one of the two successful heavier than air flights across the Northern Pacific. The other was made by the army round the world group in 1924.

Despite the comparatively short water jump, Lindbergh's experience in combating adverse weather conditions may prove essential to success of his flight.

SOME PUSH

I have been silent too long. Haven't had time to look out on the world. A late very readable book titled, "Watching the World Go By," has many good lessons, but I can't apply the title.

I hear some say that we are in a practical age and others say we are in a scientific age of the world. Both statements are true. Science has delivered to the present generation many, many things highly valuable, because they are things practical in a worthy sense. There is no value to a theory, which cannot be demonstrated in some sort of practice. I am reminded of Admiral Byrd's visit among the frozen icy regions about which there was much ado. There was absolutely nothing to that bit of his navigation. It made the world no better nor worse. Nothing to it after all.

Had the expense of such a trip to an icy world been given to some needy orphanage or poor widow's home, it would have helped, but as it turned out and will next time all useless noise.

There is a moral to all this I have said about Admiral Byrd. I use his exploits as a large illustration. SAM SAY

RADIO SOOTHES COWS

Radio has been pressed into service to increase the milk production of dairy cattle. A set, installed in the barn of Mrs. Mary Blakely at Horton, Kan., and played at milking time, resulted in such uniform contentment among the cows that the average milk production was two pounds greater per month than previously.

TO VOTE ON NINE AMENDMENTS

A minority in the house decided that Texas taxpayers did not have sense enough, or something, to decide the question of good road bonds, but the legislature has submitted no less than nine constitutional amendments to be voted on at the next general election. Some of them have decided merit, at least two are corrective in nature, and most of the others are more or less trivial.

Here are the nine amendments to be voted up or down in 1932:

To repeal part of the university fund amendment adopted last year, which gave the right to invest the permanent fund in the university's own obligations. This might be termed a corrective amendment.

To permit retired officers of the army, navy and marine corps to hold public office.

To permit gulf coast counties and cities to vote seawall bonds by two-thirds of those actually voting instead of by two-thirds of number of qualified voters. This is another corrective amendment.

To exempt homesteads up to \$3000 from state ad valorem taxation.

To empower legislature to establish ten-year limitation on delinquent tax collections.

To combine the office of county tax assessor with that of county tax collector.

To change the method by which property sold for taxes may be redeemed.

To limit participation in bond elections to those who have rendered property for taxation.

To authorize the legislature to make appropriation for Texas centennial celebration. — Abilene Morning News.

EASTERN STAR OFFICERS

At a regular meeting of the Eastern Star Chapter No. 92, held Wednesday night, the following officers were installed:

Miss Rachael Johnson, W. M.; W. M. Johnston, W. P.; Mrs. Beulah Brooking, A. M.; Dr. J. E. Brooking, A. P.; Mrs. Zelma Hamilton, conductress; Mrs. Clara Weatherby, associate conductress; Miss Lucile Conro, secretary; J. V. Roberts, sentinel.

EARTH TREMORS FELT

Severe earth tremors in England, France, Norway and Belgium early Sunday greatly alarmed inhabitants, but did little material damage and caused no loss of life. At many points persons jumped from their beds and rushed to the streets half clad. Many chimneys crashed to the ground and buildings were felt to sway. Furniture was moved in strange fashions and crockery was thrown to the floor.

FALL TO BE EXAMINED

An examination by two El Paso physicians named by Chief Justice Wheat of the District of Columbia Supreme Court will determine whether Albert B. Fall is able to come to Washington to begin his prison term.

Fall is under sentence of a year in jail for accepting a bribe from Edward L. Doheny to influence the award of the Elk Hills, Cal., naval oil reserve to a Doheny company. He also was fined \$100,000. Doheny later was acquitted on a charge of giving the bribe.

VETERAN PROTEST

Paul C. Wolman, of Baltimore, commander-in-chief of the Veterans of Foreign Wars, charged that the federal government was making a profit from unjust compensation legislation.

Wolman said he was prepared to go before the senate finance committee and the house ways and means committee to offer proof that the government is borrowing money from one to three and one-eighths per cent and in lending it to veterans at one and one-half per cent.

Forsythe and daughter, Eva Jacque, of Brownwood, Mrs. J. L. Hallford, Mrs. W. A. Jenkins, Mrs. Seiggins and Miss Dayalva Jenkins of Mullin. A GUEST

Mrs. Ella Smith and children attended the funeral of Mr. J. W. Smith of Tuscola at Midway Saturday, June 6. Mr. Smith had many friends in this county, where he frequently visited and condolence is extended to the bereaved.

## MRS. H. C. KIRKPATRICK HONORED

A dozen or two ladies and a few gay, joyous little folks enjoyed a nice outing on Mullin Creek Friday afternoon. The cool breezes from the water and the cheerful conversation of the friends made the time pass by quickly. An address was given by Miss Shellbarker, a national health nurse, after she was invited to be a guest at the delicious supper. She had positive proof that this particular group did not require a health certificate.

Mrs. H. C. Kirkpatrick of Amarillo was the honor guest of this social gathering and her friends regretted that she was making such a brief visit here this summer.

Mrs. Brown of Brady is a guest in the home of her son, G. A. Buchanan.

D. J. Lockett and granddaughter, Miss Loraine Lockett, looked after business in Lampasas Tuesday.

Mrs. G. B. Wallace has gone to Los Angeles, Texas, to make an extended visit in the home of her daughter, Mrs. Bertie Crouch and husband.

Misses Sybil and Miva Guthrie left Wednesday for Austin, where they will attend the University this summer. Miss Holly Guthrie returned home the first of the week from Austin, where she has been attending the University for the past year.

Mr. and Mrs. J. B. Carmichael of Ben Arnold are visiting Mr. and Mrs. A. G. Weston and Mr. and Mrs. H. R. McDonald, and attended the big barbecue Sunday on the Weston ranch.

Miss Loaine Lockett of Brownwood spent the first of the week in this city visiting relatives. She and Miss Clemmie Hancock joined a party Sunday and toured the Richland Springs cave.

Mr. and Mrs. Thurman G. Hicks announce the arrival of a daughter, Billie Joe, at their home in Stephenville June 6. Mrs. Hicks is better known as Miss Ruth Romans.

W. A. Triplett, a genial citizen of Pompey, was in town Saturday. He and Mrs. Triplett are planning a trip to the southern part of the state, where they will fish and visit his parents for a few weeks.

Brother E. O. Stewart will preach at the Primitive Baptist church Saturday night and Sunday. All are invited to attend.

Mrs. F. M. Wortman of Tuttle, Okla., has written the pleasing information that she is planning a visit here with her parents, Dr. and Mrs. J. L. Herrington, and he joined here by them for an extended visit to Gaylord Herrington and family in Missouri.

Mr. and Mrs. E. L. Hancock and children of Gatesville spent the week end with Tip Hart and family and other relatives here.

Mrs. L. L. Wilson is ill at her home in this city from too many wisdom teeth, in fact one wisdom tooth is always considered too many. Mrs. Wilson had one extracted recently and has been ill for several days from the effect of it.

**HAMILTON**

Miss Louise Bennett of Indian Gap spent last week end with Mary Catherine Davis.

The mail which formerly arrived on the motor at 6:41 a. m., now arrives two hours later, 8:41 a. m.

Ray Main, who left Hamilton May 20, for Washington, D. C., writes that he arrived in Washington Thursday morning of last week. He has in an application for employment at the Congressional Library. While there he is the guest of his sister, Miss Wilma, who is employed in the Census Bureau.

Last Friday night about 8:30 some party, or parties, seizing the opportunity drove away in the 2-door Ford sedan belonging to Carl Davidson. The car had been parked in front of his residence and the discovery was made when Mrs. Davidson went to put the car in the garage for the night.

Word has been received that Rev. R. E. Bass, former pastor here has been called to the Teneha church and that he will likely accept the call. He is in a revival meeting this week at Orange and he expects to return to Hamilton Wednesday of next week and arrange to move to Teneha.—News.

**LOMETA**

Miss Wallace returned to her home in Mullin last Saturday, after the close of another school term.

Miss Juanita Mayberry spent Tuesday night and Wednesday visiting friends in Burnet.

Mrs. M. Mayberry, in company with Mrs. Jackson of Goldthwaite, is visiting relatives in San Antonio this week.

Word received by friends from Miss Gwendolyn McNatt of Lometa, who is visiting in Los Angeles, Calif., says she is having a wonderful time. Miss McNatt, in company with her relatives of San Saba, is taking a month's trip through California and other places of interest.

Mr. and Mrs. T. C. Corley and two children were in a wreck Monday about eleven a. m. in which Mrs. Corley sustained a broken collar bone and the others being shaken up. They were going toward Lampasas, and started to pass a Ford, which was parked in the road when they met another car, a crash being inevitable. Both cars were badly damaged. It was said.—Reporter.

**BROWNWOOD**

Mr. and Mrs. Joe A. Palmer and family of Goldthwaite were Sunday visitors in Brownwood.

Stewart D. Hopper, 51, Brownwood citizen and prominent business man died at his home on Irma street at 10:30 Thursday evening, after several weeks of serious illness. He became ill on Monday, May 18, and continued to grow worse until death resulted last Thursday evening.

Two new judicial districts were created last week when Governor Ross Sterling signed a bill, which will reorganize the 35th judicial district of which Brown county is a member. The bill was sponsored by Walter Woodward of Coleman, state senator, and was sponsored through the house by Representative I. J. Burns of Brady. With the passage of the bill and the signing by the governor, the 35th judicial district is comprised of Brown, McCulloch and a part of Coleman counties. The new district formed is known as the 119th judicial district and comprises the remainder of Coleman county, Runnels and Conecho counties.—Record.

Warm weather tiredness, failure to sleep sound, sallow complexion and total lack of ambition can often be traced to constipation and anaemic condition of the blood. Rich energy building blood can be had only when the system is taking full advantage of food. Many aggravating ailments are often symptoms of constipation and indigestion!

**Natural Herb Extracts Cleanse Entire System**

Countless thousands of sufferers have discovered that after their systems have been cleansed of toxic poisons through the aid of Herb Extracts formerly called Herb Juice, strength returns, they sleep well, eat anything and thoroughly enjoy glorious, robust health!

Herb Extract is a combination of vital health giving elements in certain herbs which thoroughly cleanse the system, tone the blood and bring relief, where other remedies and so-called "blood purifiers" have failed.

Mr. Arthur M. Pullen, 3208 McKinney Avenue, Dallas, Texas, writes: "I used to suffer miserably from indigestion pains, dizziness, acid stomach and frequent rheumatic 'shots' in my arms and legs. After two bottles of your wonderful medicine I am able to rest well at night, my appetite is good. I have no more dizzy spells or headaches, my complexion has cleared up and my weight has increased 12 pounds. I can not recommend Herb Extract too highly for the way it has helped me.

Stop suffering right now. Thousands of grateful users urge you to try Herb Extract without delay. Putting off is costly and dangerous. Now!

**TERRELL SUED**

A test suit was filed Friday by Attorney General James V. Alford in an effort to collect between \$300,000 and \$500,000 due the State from alleged forged witness certificates which were the basis of warrants issued by the Comptroller. The suit is against S. H. Terrell, former Comptroller, and his bondsmen, alleging liability for failure to comply with the law requiring witness accounts to be certified by the District Judge.

Mr. Alford is aided in the suit by Elbert Hooper, an Assistant Attorney General. It is more or less of a test proceeding to determine liability. Mr. Hooper explained that the statute of limitations does not run against the State.

The State asks for \$27,955. The Comptroller's bond is \$75,000.

Mr. Hooper said there may be other suits filed. There are three groups in prospect as defendants, those in Dallas where the State claims forgeries of about \$209,000, the Houston county situation with \$200,000 allegedly at stake and the remainder largely made up of claims not yet made public. One item is the Upshur county claim of \$60,000 under allegations made by the state in certain criminal proceedings.

**YOUTH CONVICTED IN SHERMAN RIOT**

No additional cases growing out of the Sherman riot of May 9, 1930, will likely be called until the fall term of court in Austin, District Attorney Henry Brooks said, after winning a conviction with a two years' sentence against J. B. McCasland, 19, on a charge of arson. McCasland was the first of 14 Sherman defendants to be tried. A motion for a new trial for him has been filed by his attorney, J. A. Carlisle.

Austin officers recalled no other conviction in the state in a case growing out of the lynching of a negro for an attack upon a white woman.

All references to the lynching of George Hughes, who had been put in the vault of the Sherman court house for safe-keeping when it was burned, was kept from the jurors. The throng about the court house was told in testimony, however, and District Attorney Brooks argued to the jury that an acquittal would be an endorsement of the mob.

**STATE CASH RUNS LOW**

The State's general fund will return to a deficiency basis between the middle and the last of this month, it was said Friday by Charley Lockhart, State Treasurer, in making public the balances to the credit of the four principal funds at the close of business Thursday. He estimates the deficiency will be slightly more than \$4,000,000 September 1, the beginning of the new fiscal year.

The Treasurer's statement shows the general fund with a net balance of \$285,889. Monthly disbursements average \$1,925,000, coming in the latter days of the month. The cash will disappear before June 25 the Treasurer says.

The highway fund has a healthy net balance of \$10,178,795.

**Mr. Car Owner**

Here is what Race Drivers with Life and Victory at Stake have decided about Tires

FOR twenty-one years the Indianapolis two and a half mile circular brick track, surrounded by a concrete wall to keep the cars from dashing off, has been the crucible where at white heat automobiles and tires have been tested. Thousands of men have risked, and some have sacrificed, their lives, and manufacturers have spent millions of dollars to the end of making better automobiles and better tires.

Louis Schneider and mechanic on Saturday won this race in a heavy 8 cylinder car. He made an average speed of 96.629 miles per hour—on the straightaways and in passing cars he touched 140 miles and better. He drove on 6.00-20 Firestone High Speed Tires with racing treads. He had no tire trouble.

He used Firestone Tires because Firestone experts and engineers have through twenty-one years taken this race as a challenge to tire making. From this race they have developed these vital improvements which have given to Firestone Tires the world leadership in safety, mileage and endurance.

1. **Gum-Dipping.** Tires had to be stronger and able to stand the heat of a hot red-brick track at high speed. Firestone met this by developing and perfecting the dipping of cords through a rubber solution to insulate each fiber of every cord to overcome heat and give the cord greater strength—and 58% greater flexibility. This is the Patented Gum-Dipping Process used in the making of every Firestone Tire.

2. **The Balloon Tire** was developed by Firestone to permit greater speed with comfort and safety by increasing road grip and absorbing shocks. It was made possible by the added strength and flexibility given by Gum-Dipping. In the 1925 race, some of the drivers tried the then new Firestone Balloons. The others stuck to high-pressure tires. Peter de Paolo on Firestone Balloons made a world's record. All the prize winners came in on Firestone Balloons—Now the balloon tire is everywhere the standard.

3. **Double Cord Breaker.** The higher-powered cars and the step-up in speed demanded still more tire toughness. At one hundred miles an hour, the circumference of a tire increases by more than 10%, and this, added to the centrifugal force, tends to throw off the tire treads. Firestone met this by developing the Patented Double Cord Breaker which gives a 56% stronger bond between the tread and the tire body and also gives a 26% greater protection against punctures and blowouts.

These are some of the great lessons that Firestone has learned on this racing track. And so the men whose lives and fortunes depend on knowing tires always buy Firestone Patented Gum-Dipped Double Cord Breaker High-Speed Tires.

There were 72 entries. Of these, 40 survived the elimination trials—and every one of them was on Firestone Tires. And every tire was bought and paid for.

We give you the benefit of all the lessons Firestone has learned from these races. You can get from us all the strength and safety in tires that the racing drivers buy.

**The Gold Standard of Tire Values**

**World's Records**

- Firestone Gum-Dipped Tires hold all world's records on road and track for safety, mileage, speed and endurance.
- for twelve consecutive years they have won the 500-mile Indianapolis Endurance Race.
- were on the winning cars in the Pike's Peak Race where a slip meant death.
- were on the G.M.C. Truck, carrying a two-ton load, that hung up the coast-to-coast endurance record.
- were on the Studebaker car which on a board track in Atlantic City in 1928 went 30,000 miles in 26,326 minutes.
- on 125 buses of the Washington Electric & Railway Company, ran 3,674,266 bus miles during 1930 with only 13 tire delays.
- on 150 trucks of the Safeway Stores, Inc., ran 1,500,000 miles in one year without one single hour of delay on the road.

Take advantage of our liberal trade-in plan. Avoid the risk of blowout, accident or delay. Prices on these World's Record Tires are the lowest in history. Come in Today.

Mrs. L. C. Gatlin is enjoying a visit from her sister, Mrs. G. A. Ellison of Killeen.

Mrs. J. C. Johnston left Tuesday for Dallas to be with her husband in the sanitarium.

Let Burch have the old hat blocked. It will look like new and will not cost you much.

Mrs. C. F. Jones of Galveston is visiting in the home of her parents, Judge and Mrs. Jas. Rahl.

William Glenn Yarborough was here from Austin Sunday, visiting in his home and meeting with his friends.

Lee Robertson and his wife and daughter left for their home in Roswell, N. M., Sunday, after a visit to his mother and other relatives in Big Valley and meeting with friends in this city.

Miss Hattie Barr of Star has returned from the Confederate Reunion at Montgomery, Ala. She accompanied her father, G. W. Barr, who is now living at the Confederate Home in Austin.

Don Yarborough and family of Boyd came in Wednesday night and joined other members of the family here to attend the funeral of Mrs. W. E. Yarborough at Richland Springs yesterday.

Misses Sybil and Miria Guthrie of Mullin passed thru the city Wednesday morning en route to Austin, where they will attend the State University during the summer. They are two of Mills county's best qualified and most progressive teachers.

MEXICAN STUDENTS SHOT IN OKLAHOMA

The gunfire of a peace officer in Ardmore, Okla., who believed he had encountered desperadoes brought to a tragic end the vacation trip of two Mexican students in American colleges—one of them a distant relative of the president of Mexico.

Emilio Cortes Rubio, 20, son of a second cousin of President Ruiz Rubio of Mexico, and his companion, Manuel Gomez, 22, were slain by Deputy Sheriff Bill Guess of Carter county, who with another officer, had attempted to interrogate them as they sat in the motor car beside a main highway in Ardmore in the early hours Monday. Salvador Cortes Rubio, 24, also cousin of the resident was unhurt.

Both Deputy Guess and Deputy Sheriff Cecil Crosby said the shooting occurred after the youths had drawn guns, which were not fired. Both officers asked that a murder charge be filed to bring about their vindication, and County Attorney Shilling said the charge would be brought.

Shilling and Senior H. Valdez, Mexican consul at Oklahoma City, co-operated late Monday in what both described as a thorough investigation, and Senior Valdez said he would make a private inquiry also.

"If the officers are guilty I will prosecute them to the fullest extent of the law," said Shilling.

Meantime at Washington, Charge D'affaires De Huerta of the Mexican embassy awaited instructions from his government and at Mexico City President Rubio, whose sons are schoolmates of the boys, viewed the tragedy with great sorrow. President Hoover has informed President Rubio of his sorrow and regret.

HORTON EXONERATED

Governor Henry Horton was cleared of all impeachment charges Tuesday, when the Tennessee house of representatives voted to quash the remaining seven articles of eight returned by an investigating committee. The first was defeated last week.

THOSE WAR DEBTS

You may not be interested in statecraft or international banking, but you are interested in taxes.

When statesmen renew their propaganda for the "adjustment of war debts," they are planning a raid on your pocketbook.

And the only way you can protect yourself is by learning the truth and refusing to be victimized by pretense and hypocrisy.

Do you know how the war debts affect your pocketbook? During the great war, Europe needed billions of dollars with which to buy supplies.

Her statesmen appealed to the American government.

But the American government had no such sum to lend. The only way to get the money was to borrow it from the American people.

This the government did, giving the people bonds as a pledge of repayment.

Now the government faces the task of redeeming these bonds and returning the people's money.

How can it be done? There are but two ways: The money must be got from the European nations to which it was loaned, or the American government must tax its own people to get the money with which to repay them.

If Europe doesn't pay, you must.

That is the whole story. You are told that the debt should be canceled—that is, taken out of your pocket instead of the European taxpayer's—because Europe is unable to pay.

You are told that debt payments to America impoverish the English taxpayer and burden France—poor, unselfish France—beyond endurance.

There is not a word of truth in it.

And the money France pays each year is less than the sum American tourists spend in France.

France is the richest nation in the world, with twice the gold per capita that America has.

Why should an American tax himself to pay himself—why should pity make him so simple—when the money England pays is not provided by the English taxpayer and the money France pays is provided by the American tourist?

Why give alms to a man richer than you are?—Robert Quillen in the Dallas News.

FIFTY YEARS AGO

Dr. Robt. T. Hill, famous geologist has this to say about drinking in Texas in pioneer days:

"As for those who now babble the bromide that there is now more drinking than before the days of prohibition, they do not even know what drinking is or was. I have seen eleven saloons in a town of 900 inhabitants and although a boy of 19 in 1881, I had probably drunk more whiskey socially than the average man will now see in a lifetime. Nearly every other salutation was, 'Let's have a drink,' and on every corner there was a place to get it."

FAMILY POISONED

Mr. and Mrs. Bert Harper and two children, Naomi, 6, and Marion Bert 4 years, were poisoned Wednesday morning from eating fresh tomatoes and ice cream. Mr. Harper and children are improving, but Mrs. Harper is still in a serious condition.

The only member of the family not poisoned was the baby, who ate ice cream, but did not eat tomatoes.

Mr. Harper lives near Zephyr at present. He made his home two miles from Goldthwaite on the Mullin road for several years.

AUTOMOBILE LOANS

\$100,000 to Loan. Any amount—any kind of terms. Reasonable rate of interest.—Brownwood Finance Company, Phone 1463, 207 West Lee.

About 200,000 pounds of 12-months wool was sold by the Wool Growers Central Storage Company at San Angelo. Principal purchasers were C. D. Stokes of Lampasas for Winslow & Co., and Allan C. Emery for Studley & Emery, both Boston houses.

BIG VALLEY

The singing convention Sunday was well attended. Big Valley enjoys having the singers come.

Oscar Gray and Dean Dickey of N.T.A.C., visited Big Valley last week. They were guests of Hoyt Cockrell.

Mr. and Mrs. V. D. Adams of near Lampasas visited Mr. and Mrs. Dempsey Sunday.

Cleota Swim is home from Austin.

Mr. Dawson of the U. S. employment bureau was in the Valley last week helping the farmers get rid of jackrabbits.

Robert Harrison Attaway is spending the week with his grandparents, Mr. and Mrs. Robert Long.

Mrs. Sena Ezzell, visited at T. P. Reid's Sunday.

Wm. Dennard and wife went to Brownwood Sunday to see her brother, I. M. Weaver, who is ill in the hospital.

Mohler Oglesby and wife of Center City were here Sunday.

Mr. and Mrs. Will Reed, formerly of Big Valley, now of Breckenridge, were back with old friends Sunday.

A light shower fell Tuesday refreshing the dry earth.

Word comes from Mr. Weaver, at the hospital, that he is holding his own. FARMER.

CENTER POINT

Quite a few went to the singing convention Sunday, therefore, our Sunday school was rather small. We had the following visitors present at the League and church Sunday night: Mr. and Mrs. Ray McKinley, Mr. and Mrs. Ray Hammond from Goldthwaite, Misses Myrtle and Ethel Parker, Nina Hill, Marie Stuck, Alfred Parker and Bill Stuck.

MRS. WILL YARBOROUGH PASSED AWAY

Mrs. W. E. Yarborough of San Saba died at the home of her son, D. B. Yarborough, in Corpus Christi Tuesday, and her remains were carried to her home yesterday and burial was made in the cemetery at Richland Springs yesterday afternoon. She had been in ill health a long time and her death was not unexpected by the family and close friends.

The Mills county friends of the family extend sympathy to the bereaved family.

TEXAS WOOL SALES

Central West Texas has sold nearly seventeen million dollars worth of wool, mohair and livestock so far this year. Contributing to this total are 7,500,000 pounds of mohair, 40,000,000 pounds of wool, 140,000 head of cattle, 740,000 head of sheep, 20,000 head of goats, and 3,500 head of horses and mules. Nearly ten million pounds of wool is yet unsold.

R. E. Ross had business in Waco Monday.

Coming Again

Dr. Fred R. Baker, who fits the best glasses in Texas, and who has been serving people of this section for several years and says he has twenty-five testimonials from pleased patrons of this community to show upon request, will be at the Saylor hotel Wednesday, June 17, only.

Among local citizens wearing "Baker's Famous Glasses" are: Miss Lois Fuller, L. B. Porter, Mrs. Chas. Rudd, W. M. Johnson, Ben Johnson, Mr. and Mrs. Luther Rudd, Mrs. John E. Evans, Mr. and Mrs. F. D. Webb, Mr. and Mrs. Marvin Rudd, Mrs. P. G. Palmer, J. D. Brim, Mrs. R. F. Enloe, Mrs. C. F. Williams, Mrs. Lewis Hudson, Mrs. A. H. Chilton, John G. Berry, Mrs. T. S. Gerald and many others.

On account of the depression, the doctor has reduced prices on all spectacles one-third and has all the latest styles. Expert Examination Free.

He says: "As he was picked by the Hon. Pat Neff, for the State Board of Examiners and has had 35 years experience fitting difficult cases, this should be a great guarantee of satisfaction to any person having eyesight trouble."

STILL SEIZED

Members of the police department, accompanied by federal prohibition officers from San Angelo, raided the produce house of W. O. McCully, across the slough bridge on the Comanche road, at 9:00 o'clock Saturday night and according to the officers' statements secured a still, whiskey and equipment for making whiskey.

McCully was arrested and placed in the city jail, where he remained until morning when he was taken to San Angelo to answer charges in federal court there.

A 50-gallon still, copper coils and a receiving barrel were included in the equipment taken. About 20 gallons of liquor was confiscated and two 55-gallon barrels of mash destroyed.

The still was buried in an outbuilding near the produce house. The operation of the still, according to Bert Hise, chief of police, was done in three places. The still was operated in one building and the liquor piped from the still, underground to a barrel bedded in concrete underneath the produce house. By use of a pump the liquor was taken from the barrel to the second story of the building, where it was placed in charred kegs and bottles, Mr. Hise said.

The barrel buried into the concrete was emptied and destroyed, while other barrels were destroyed or taken to the police station. Chief Hise said that so far as he knew this was the first still to ever be seized in the city limits of Brownwood.—Brownwood Bulletin.

COTTON BEING HELD

None of the 1,300,000 bales of cotton being held by the Cotton Stabilization corporation is for sale at present prices, declared Carl Williams, member of the Federal Farm Board for cotton, Monday. This cotton is controlled by the Farm Board while that held by the American Cotton Co-operative Association is not. Mr. Williams expressed the hope that none of the association cotton would be sold at present prices.

WAR THREATENS

The shadow of civil war lay upon China this week as the revolutionary government of South China sought alliance of other rebellious elements throughout the country to overthrow the Nationalist government at Nanking. So serious has the revolt become that all Americans near Foochow have been warned to withdraw to escape rebels advancing down the Min river, after defeating government armies in western Fukien province.

A HELP TO HAM

HAM has always been a popular meat in this country. So much of it is consumed, in fact, that dietitians have made a special study of what to serve with it in order to make it more digestible. For ham is a good food, rich in proteins, and if you like to eat a lot of it, because of its vigorous flavor, they want to be sure that your digestive apparatus can take care of it.

Of recent years, the porker, if he enjoys being eaten, has found himself indebted to Hawaii. A combination not only delectable but dietetically correct has been found in ham with Hawaiian pineapple. This fruit is blessed with a digestive enzyme called bromelain which acts powerfully on protein foods, and makes them easier to digest. That is the reason why pineapple is served so often nowadays with protein rich foods such as ham, pork, lamb chops, beef steak and other meats. Here are two recipes for its use with ham and pork.

Ham Hawaiian Style: Put slices of cold, boiled ham over bottom of shallow baking pan, one each person to be served. Slice put a slice of canned pineapple. In the hole of force two ripe olives and them by putting one brown sugar over each ham under broiler and brove.

Pork Chops with Grapes: Fry one and one-half pork chops as usual, and a hot platter. Meanwhile, place the sliced pineapple, place the sliced grapes on a platter with the chops. This fruit is blessed with a digestive enzyme called bromelain which acts powerfully on protein foods, and makes them easier to digest. That is the reason why pineapple is served so often nowadays with protein rich foods such as ham, pork, lamb chops, beef steak and other meats. Here are two recipes for its use with ham and pork.
