### Around Muleshoe

Rusty Williamson, Executive Director of the Bailey County ASCS office told the Journal on Friday that he had been transferred to San Benito in Cameron County and would be leaving Muleshoe on May 18 to assume his new duties there. "It is a promotion for us and we are happy about it, although we hate to leave all the friends we've made in Muleshoe," Williamson said.

The Rodeo Cowboy's Ministry will have a regular meeting on May 17 at 7:30 p.m. in the Bailey County Coliseum. Guest speaker will be Eddie Mardis of Muleshoe and guest musicians will be the Storie Brothers.

The Rodeo Cowboy's Ministries will have a gospel music jubilee on May 27 beginning at 7 p.m. in the Bailey County Coliseum. Local groups such as the Crusaders, Good Times Quartet, the Storie Brothers and the Fishers of Men from Olton will be on hand for musical renditions. There is no admission charge.

The Muleshoe Ladies Golf Association will be hosting their annual Naomi and Marie Memorial Tournament Wednesday, May 18 at the Muleshoe Country Club. A sack luncheon is planned and all ladies who are members and like to play golf are urged to attend.

HELP US SAVE OUR HERITAGE--The Muleshoe Santa Fe Depot has become the subject of much discussion lately, especially in the ranks of the youth of the area. These youth have organized and plan to begin soon, making money to help pay for the moving and relocating of the building. A May 18 car wash has already been scheduled and other plans will be forthcoming soon.

### Students Unite To Save Historical Santa Fe Depot

As many Muleshoe citizens have been made aware recently, the Old Santa Fe Depot at the north end of Main Street in Muleshoe has been scheduled for demolition and removal by Santa Fe Rail-

road officials, due in part to the lack of a need for it any longer.

According to information received from the Santa Fe officials, it is entirely possible that the Depot may be donated to some club or organization in Muleshoe. One of the Railroad's provisions for the donation hinges on the agreement that the land on which it sits be restored to their satisfaction. Joe Martellero, a Santa Fe official who is handling the Muleshoe project told the Journal on Thursday that the Railroad would require that the land where the Depot now sits be clean of debris and reasonably level after the building is removed.

Martellero also stated that full and final approval of the release of the Depot to a club or organization had not yet been completed, but that he expected word within a short time.

### Traditional Red Raider Day Set Thursday

Muleshoe's annual Red Raider Day celebration is scheduled to kick-off next Thursday, May 19 at the Muleshoe Country Club. Apologies to the ladies, but this is a "Stag Only" event and is a Muleshoe tradition.

The golf tournament will begin with a sign-in at 1:30 p.m. on May 19 at the Pro Shop. A shotgun start is scheduled at 2 p.m. for the

official also stated that two or three other towns were awaiting official word.

A number of Muleshoe High School students have expressed a great desire to save this landmark and are in the process of organizing an historical society or her-

### Child Safety ID Plan To Initiate Here

Tragically, over 15,000 children are reported missing every year, thousands are found each year, un-identified. Some are run-aways while others "just seem to vanish."

Out of concern for young people, the Muleshoe Independent School District is providing a service that could protect local parents with fingerprint records of their children.

### CCC Will Exercise PIK 1983 Wheat Crop Option

Producers would be able to follow their normal marketing patterns and would know where they would receive their PIK.

Producers who place their 1983-crop wheat production in an approved structure on the farm or in a UGSA warehouse will be eligible for a regular loan. Storage payments will be earned on the quantity needed for PIK at the annual rate of \$.265 per bushel beginning on the PIK availability date and ending on the earlier of the date of PIK redemption or the end of the 5-month PIK availability date, the Director explained.

In some instances producers may not have acceptable farm storage or approved warehouse storage available to utilize the normal loan procedure. Rulings indicate that a special loan procedure is provided to permit them to obtain a loan on their 1983 wheat for PIK. The loan must be requested before the grain is disposed of or sold. The producer will: (1) obtain a loan on the 1983 crop wheat production needed for PIK; (2) immediately redeem the loan. CCC will: (1) immediately purchase the wheat for

### Jennyslippers To Head Mule Day Parade Project

The Women's Division of the Muleshoe Chamber of Commerce and Agriculture met for their regular monthly meeting on May 10 at noon in the warehouse of the Five Area Telephone Cooperative.

Reports from the Executive Committee resulted in the Jennyslippers supporting the National Child Safety Council by printing the necessary forms, helping with the actual processing and donate \$100 to the fund for necessary items.

A possibility of a junior college facility for Muleshoe had previously been discussed; however it was found that no more can be offered than is being offered at this time, without a bond election. A parade project for the upcoming Mule Days was discussed, along with the preservation of the Depot building. It was recommended that the Miss Tri County Pageant not be undertaken at this time. These recommendations by the Executive Committee were approved by the members.

President Marjorie Merritt announced the Chamber of Commerce Garage Sale that has been planned for June 25.

Special guest for the meeting was Jeff Smith,

who gave an account of the planned Mule Days activities and formally requesting that the Jennyslippers undertake the parade project this year. Rose Lee Powell and Dianne Nieman will chair this project. Smith also showed a slide presentation of the 1982 Mule Day activities and revealed plans for the upcoming event. Also present for the program was Larry Winkler and Lonnie Adrian. Mary Stegemoller and Sondra Wilson were guests visiting the Jennyslippers.

### Lazbuddie FFA Members Win At Area Level

### Top Awards Given, '83 Scholars Named

The annual awards banquet of the Muleshoe Future Farmers of America, Parent-Members was held in The Muleshoe High School Cafeteria on Thursday evening, May 12.

Special guests including members of the faculty, school board, parents and FFA Boosters were introduced, along with the speakers of the evening. Louie Hendricks and Aaron Alejandro, public information director and FFA President at Cal Farley's Boy's Ranch near Amarillo were the featured speakers. Aaron told of the many activities at Boy's Ranch and of his appreciation of the home that it had been for him. He also threw in some figures pertaining to the amounts of food that it takes to prepare one meal at Boystown. Alejandro stated that the facility was almost totally ag-related and told of the many and varied jobs that boys undertake either own their own or with direction from a house parent. He expressed his happiness at being asked to a banquet that had parents attending and stated to the Muleshoe FFA members how much different was our banquet

from theirs. Hendricks, who was a personal assistant to Cal Farley up until the time of his death, is also the editor of the Boy's Ranch Round-up and is the author of some other books dealing with life at the facility for young men. He, too, expressed delight at attending the banquet.

Since this is the year's end for school activities and the end of a high school career for many of the seniors, each senior FFA member presented his or her parents with an Honorary Chapter Farmer Degree, signifying the importance of their help and support.

Top awards in the Muleshoe FFA Chapter for the 1982-83 year went to four outstanding youth in the Chapter. Named as Outstanding Freshman-Star Greenhand was Lupe Rejino, Jr. Craig Hunt was honored as the 1982-83 Star Chapter Farmer and Jay Pearson received the Outstanding Co-op Award, as well as the Kenny Henderson Memorial Scholarship for the year.

Kim Farmer, current Chapter President and District President, was honored with the "Big 'E'" Award. This award traditionally goes to a four year ag student who has distinguished themselves in the field of agriculture, leadership and who has done the most to promote their organization during those four years.

Two \$250 scholarships are presented each year by the Muleshoe FFA Boosters

### Farm Property Identification Important

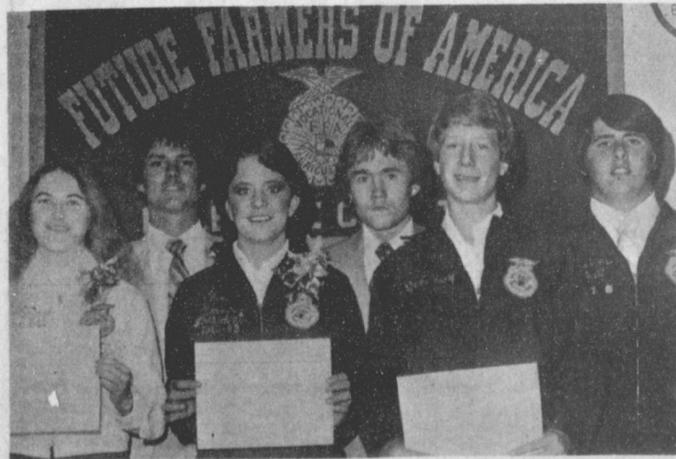

"If property is stolen from your farm can you prove it is yours?" asks Spencer Tanksley, Bailey Co. Ext. Agent. If not, the thief will have no trouble selling your possessions," he said. The chance of recovery, even if the property is found, is slim. Paint equipment in unusual colors to make it look distinctive. Then-join Operation Identification and mark it!

Operation Identification is a program to discourage burglary and theft by making sure property can easily be traced to the owner. Here's how it works: Contact the local Sheriff's Department or farm equipment dealer. They can lend you an engraving tool. Special heavy duty marking

## Creative Woman

By Sheryl Borden

Topics to be presented on "The Creative Woman" show on May 17 and 21 include more information about cooking with oats. Oats are very nutritious, they cost only about five cents per serving, and provide high fibre in our diets. Nina Swan, Director of Consumer Relations with the National Oats Co., in Cedar Rapids, Iowa will share lots of ideas with us for using oats. One recipe, Mexican Tarts, will be especially enjoyed by viewers in the Southwest.

The topics of death and dying, and grief and be-

reavement are difficult to discuss. But we do know that the more we know and understand about them, the easier they are to deal with. Dr. Gene Laramy, from International Falls, Minnesota, will share some information on this topic.

On May 19, the topics will include grocery store psychology and types and forms of rice. Rice is delicious, easy to prepare and it's economical. But the versatility of rice is perhaps its greatest asset. Kris O'Brien is a home economist and spokeswoman for the Rice Council for Market Development and she travels throughout the United States communicating the story of U.S. grown rice. Ms. O'Brien will be a guest on the show and will talk about the different types and forms of rice and will discuss the nutritional value and cooking characteristics of rice.

As consumers we should be aware of the many forms of psychology at work in the grocery store. For instance, special displays in the aisles that are placed so that we have to see them. Guest, Ray Owensby will talk about grocery store psychology, including displays, music, quantity shopping and other points. Mr. Owensby is owner of the Food Mart in Las Cruces.

"The Creative Woman" is produced and hosted by Sheryl Borden.

### Financial Aid Still An Option

The College Board, in cooperation with the Ford Foundation, issued a message about financial aid to college-bound high school seniors. "If you've already applied for financial aid, wait until you get all the facts from the colleges and programs from which you're seeking help before making a final decision about where to enroll," said Natalia K. Wickstrom, College Board Vice President for Student Assistance Services. "If you haven't applied yet, do it immediately!"

Wickstrom said that an estimated \$16 billion dollars in various forms of financial aid is still available for students enrolling in college in fall 1983. "At this stage, students should not rule out any college that interests them on the basis of costs alone," she said. "Financial aid may be available to make up the difference." Wickstrom explained that several factors had contributed to a widespread misimpression among students and families that financial aid was not readily available, including last year's well-publicized Congressional budget battles over federal student aid programs and this year's late distribution of financial aid applications. "When there were no forms to apply with, people worried that there were no funds to apply for," she said. "But

the forms have been out for months now, and there is help for students who need it." She also pointed out that every student aid application would serve two purposes. "First, applying now will assure the applicant of the best chance of being awarded financial aid for the 1983-84 academic year if he or she is eligible," she said. "Second, every application for funds will act as a reminder to the U.S. Department of Education and to the Congress that there are still millions of needy students out there."

Federal student aid funds for the 1983-84 academic year have been set at about the same level as the 1982-83 year, but Congress is already debating the Administration's budget proposals for the 1984-85 academic year. "If there are

enough applications in the pipeline," Wickstrom said, "then no one in Washington can claim there really isn't financial need out there!" Forms such as the Financial Aid Form (FAF) and the Family Financial Statement (FFS) were delayed in reaching schools and colleges due to the federal government's delay in arriving at certain key guidelines which needed to be incorporated into the application forms. In past years, the forms were available to students in November, which gave families ample time to collect the needed information and complete the documents carefully. This year, forms did not arrive at high schools until December or early January.

Wickstrom explained that the delayed distribution meant that everyone -- students, colleges, state agencies, and processors like CSS -- would have less time than usual in which to perform all of the necessary activities involved in the rest of the financial aid application process. "Colleges and state agencies are working hard to keep the process on the usual timetable," she said, "but the late start puts them at a disadvantage. And some may be later than usual in getting their financial aid award notices out."

Students who have already applied for financial aid were urged to wait until they had received responses to all their applications before making final enrollment choices. "A student's educational goals should come first," Wickstrom stressed. "Because financial aid can enable students to enroll in the college of their choice, they should have information in hand from all of the colleges and programs to which they've applied for help before making a final decision about where to enroll."

The College Board is a membership association of about 2500 colleges, high schools and school systems, state agencies, and educational organizations. It is headquartered in New York City.

## Depot Story

itage foundation which will be an ongoing project. At this time a car wash has been scheduled to kick off the funding drive for the "Save Our Depot" fund. According to Todd Holt, a spokesman for the students, "We realize that the building will have to have maintenance and upkeep. We have already had a couple offers through the Chamber of Commerce for help with the actual moving and land restoration." "What we really need now," said Jeff Hamilton, "is a place that we can put the depot building when we move it." The possibility of it being placed in the new city park area has been a topic of discussion.

R.D. Angeley and the Knights of Columbus have volunteered to assist in the moving, but so far, reports show that only two Muleshoe citizens have pledged funds to help with moving, the hook-up to utilities, laying of a foundation and the many other incidental costs associated with the move. Chamber of Commerce Manager John Gully said that the response to the survey published in the Journal last week has been very slight.

However, if the Santa Fe's description of the land clearing is accurate, there should not be too much expense involved if local citizens volunteer their services. The depot sits on wood pilings which are buried 18 to 24 inches in the ground. Martellero stated that after the removal of the building, restoration can probably be made with a small bulldozer and a front end loader.

Recently a special meeting was held to discuss this problem of the depot, and a number of MHS seniors were appointed as members of the Muleshoe City

Council Committee for Depot Preservation. Those students included Todd Holt, Laura Leal, Lori Stroud, Mike Foss, Martha Flores, Jay Pearson, Kim Farmer, Annette Crabtree, and Misti Prater. A large number of Junior students have also agreed to help and will work as a part of the organization.

The kick-off car wash is

scheduled for Wednesday, May 18 at the Phillips '66' Station located on West 8th and American Boulevard from 9:30 a.m. to 4:30 p.m. Charges will be \$2 for cars and \$3 for pickups plus 50 cents for vacuuming. So - be sure and take your vehicles by for a clean up and help save one piece of Bailey County's heritage. Western 66 Company has donated the use of this service station for the car wash that day.

## ATTEND THE CHURCH OF YOUR CHOICE

**PROUD POSSESSION**

The craftsmanship and artistry that has gone into the production of many bibles does humbly honor God's word. This work is a reflection of men's appreciation and love for God. Many commit God's word to memory and their heart.

"I wait for the Lord, my soul doth wait and in his word do I hope."

Attend Church and study God's word.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.
