Methodist Notes

At the time this is written it is expected that the new church will be ready for use next Sunday, and that the services will be held there, instead of in the school auditorium. Of course the work will in no sense be finished; only the educational department will be ready for use. The preaching service will be in the basement, and the rooms for the classes will be ready for use for Sunday school. The auditorium will probably be finished within the next two weeks.

This work has progressed rapidly from the very start. Brother Duke announced when the old building was wrecked that we would probably have the new building finished within the next ninety days. With next Sunday's service the ninety days will have passed. This was a pretty close estimate of the time that it would take to do the work.

It is expected that everything will be in readiness for the dedication, which is to be held, so I learn, May 31, with Bishop H. A. Boaz conducting the service. This should be a great occasion and should be looked forward to with pleasure.

Brother Duke and his wife expect to leave Goldthwaite on May 6, for a much needed vacation, after the toll to which he has been subjected in the building program. Scarcely one thing has been done in this program that has not been done under his careful supervision. The responsibility has been a tax upon him and the vacation will be desired and deserving. They will spend some three weeks amid old scenes in their native state of Mississippi, and will also visit a daughter in Louisville, Kentucky. The friends here and elsewhere will wish them a pleasant visit and happy return.

It is always a pleasure to all of us, and should be so, when our young people who go away from home to school make good in their work, and so meet the highest ideals as to merit the commendation of their fellows. The thing that prompts this observation is the fact that Miss Mary Ellen Trent and Miss Billy Weatherby are to sing in a recital given at Highland Park Methodist church in Dallas next Tuesday evening. This is a distinction of which anyone might well be proud. Our people who know these young people so well, highly appreciate the honor that comes in this recognition of their accomplishments.

As announced above, the first service in the new Methodist church will be held Sunday. Would it not be well for all who have any interest in the betterment of the moral and religious life of the community to take a renewed interest in the work of the church. You may have grown lukewarm; you may never, for one reason or another, have taken any interest in the work of any church. Make a good start next Sunday. If you are a Methodist, or desire to make the Methodist church your church, start Sunday. If you prefer some other of the churches of the town, make a start Sunday. These churches are built and maintained at a great cost for your benefit. Show your appreciation of what people are attempting to do for you, by making use of what is offered you, and that, too, without money and without price. The efforts that are being put forth are for you and for me. Let us take advantage of these efforts so freely made. I trust that every church in town may be filled to capacity, Sunday. This can be accomplished, if the membership of the churches will do what duty demands. Besides, there are hundreds of people, in and near the town, many of whom never darken a church door, who should, as a duty to their families, and to the community, be present at some of these services.

County Marker Being Erected

The Texas centennial commission is erecting markers in the name of the counties of the state, giving historic facts in connection therewith. The wording proposed for the Mills county marker has been submitted to the county centennial committee for approval.

MILLS COUNTY

- Formed from Brown, Comanche, Hamilton and Lampasas counties.
- Created March 15, 1887
- Organized August 30, 1887
- Named in honor of JOHN T. MILLS 1817-1871

Judge of the third and seventh judicial districts in the republic of Texas Goldthwaite, county seat

The intention of those organizing Mills county was to have it named for Hon. Roger Q. Mills, then United States senator from Texas, but it was found to be against the policy of the legislature to name a county for a living person, hence the name of Judge John T. Mills was substituted. This accounts for the name of Hon. Roger Q. Mills not appearing on the marker.

Missionary Society

Woman's Missionary Society will meet Monday afternoon in regular business session at the home of Mrs. R. M. Thompson at 3 o'clock.

All of the members of the church who will, are asked to contribute to the box being packed for the mission home in San Antonio. Anything from a spool of thread to towels, sheets, pillow cases, table cloths, short lengths of prints, or any thing that can be used in a household.

Junior-Senior Annual Banquet

The junior-senior high school pupils banquet last night was an outstanding success and well up to the standard set by the classes of former years. The banquet was prepared by the members of the Parent-Teachers association, which accounts in a measure for the delightful menu and the attractive arrangements, also the two classes had somewhat to do with the arrangements of the tables, the decorations of the hall, the planning of the program and the excellent service.

The Weatherby Motor Co.'s sales room was used as the banquet hall and well arranged tables extended through the building.

A well prepared program provided entertainment for the guests throughout the evening and everybody was in a happy mood and enthusiastic in praise of the two classes, the P-T-A, the faculty and the entire student body.

At the close of the program the audience adjourned to the Melba theatre, to enjoy a show by courtesy of the juniors and Miss Coleman.

The program together with other particulars of the banquet will doubtless appear in the Herald next week.

Priddy High Visits Alamo City

On Friday, April 24, the seniors of Priddy high school started on a trip to San Antonio. A group of fifteen made the trip by way of Fredericksburg and returning by Austin. The trip was a hurried one to San Antonio and the climax of the battle of flowers celebration was witnessed, as the parade of the ages was enjoyed by all who went.

Visits were made to points of interest, including the Alamo, Breckinridge park, the Japanese tea garden and Fort Sam Houston.

Members of the party enjoyed various means of entertainment, one of which was most enjoyed being motor boating. In fact, there was not a minute when some excitement was not taking place.

On Sunday morning the gang turned to Austin, stopping at San Marcos to go through the Wonder cave. This proved to be one of the high lights of the trip and of greatest interest. When Austin was reached, many interests filled the "ticket." The capitol grounds were well explored, along with a climb to the top of the capitol. Great inspiration was given when the old bus drove by the university of Texas campus.

Continuing, after having eaten lunch at the dam of the Colorado river at Austin, the first stop was at the orphans' and old peoples' home at Round Rock.

The happy group reached home Sunday night and don't ever (Continued on page 4)

SANTA FE PURCHASE

The Fort Worth & Rio Grande railroad, purchase of which has just been authorized by stockholders in the Santa Fe, runs from Fort Worth to Menard via Stephenville, Brownwood and Brady. The economies in freight movement by the Santa Fe lines, which the purchase will afford, are achieved by using the hypotenuse of a triangle instead of the two legs, as on the present Temple route.

There are other distinct advantages from the Santa Fe viewpoint. Additional passenger facilities to the southwest are opened up and there is new territory to serve both in passenger and freight lines out of Dallas and Fort Worth.

The move opens up considerable speculation, too, as to the future. The Fort Worth & Rio Grande line stops at Menard. The Santa Fe runs directly west from Temple via Brady to Eden in Concho county. At both Menard and Eden the system will be within connecting reach of others of its lines reaching down into rapidly developing southwest Texas. An extension of the line south from San Angelo via Sonora, where it now stops, to Del Rio, and a connecting line from Menard to Sonora would furnish direct accessibility that does not now exist from north and east Texas to the central Rio Grande country.

There is no intimation that this is in the minds of the Santa Fe directors, but it is a distinct possibility; it would aid in developing Dallas and Fort Worth markets in a wide area not now served by rail.—Dallas News.

PIKE'S PEAK ADVERTISED

If you sometimes doubt that advertising pays, remember that there are 26 mountains in Colorado higher than Pike's Peak. Can you name them? Neither can we. Pike's Peak has been given publicity and plenty of it, so it gets all the business, and other mountains just sit—or whatever mountains do—and complain that business is punk. Don't let your business suffer from lack of advertising. Make it a Pike's Peak.—Chariton, Iowa, Herald-Patriot.

POLITICAL CLUBS

The assistant superintendent of schools in New York City has proposed the organization of school political clubs to promote "intelligent understanding and discussion." Objection is made, however, on the ground that "high school students are not sufficiently mature to understand the political platforms of any party." The weight of the argument would seem to lie with the affirmative. Certainly high school students ought to begin the effort to understand party platforms. Then when they were old enough to vote they could see how much of a platform had been forgotten, and perhaps why.—Kansas City Star.

Beautiful Finishes for walls and woodwork that enable you to laugh at dirt

Where in your home do walls and woodwork soil quickest? In the kitchen? The bathroom? Or somewhere else?

These places cry for Du Pont Interior Gloss or Interior Semi-Gloss. The Gloss gives a full, rich sheen finish. The Semi-Gloss is the softer, semi-lustrous finish so popular now. But both are alike in resisting dirt. Soap and water restore the soiled surfaces to full original beauty in a minute or two. They cost little... wear like iron... clean as easily as a china dish.

SOPHOMORE PICNIC

Last Friday, April 24, Mr. Stephens and the sophomore class had a picnic at the lake. After arriving at the place, the boys and some of the girls played baseball, while the rest of the gang climbed to the top of the dam to view the lake. On returning to the place of the picnic (below the dam), we played "red-rover;" then "flying dutchman," which resulted in several skinned knees and elbows and the loss of the heels from Oleta Knight's shoes. Mr. Stephens and the boys did some stunts and played "leap frog." By this time everyone was ready to eat. We enjoyed plenty of sandwiches, pickles, potato chips, cookies and cold soda water. Next someone started the game of slipping ice down each other's backs. That kept everyone busy for awhile, hopping around trying to keep his back dry. As it was beginning to grow dark, we returned home, everyone in a good humor.

The entire class is very sorry that George Johnson is sick, and hope that he may soon recover.

GLEE CLUB

As you all know, the glee club did not bring back the first prize at Belton. It has shown a decided improvement over last year. Last year our grade was only 89 but our grade this year was 95 on one song and 91 on the other. This was an improvement of at least 3 points.

An article published in the paper made the mistake of stating that Mrs. Sullivan was only our assistant director. She is not our assistant director, but is our one and only director. Miss Dickerson is our pianist and we greatly appreciate the efforts of both of them in their work with us.

Miss Dickerson was greatly complimented on the playing of the accompaniment of the contest songs. She played them better than any other pianist for class B.

The glee club is to give its recital on May 11 and we want to invite all of you to attend.

The club will not only sing on the recital but also on its federation club meeting and at commencement.

SENIORS GO TO SAN ANTONIO

Senior day this year was the biggest event of its kind in the history of Goldthwaite high school. The Texas centennial graduating class visited San Antonio, the oldest city in Texas, and Austin, the capital of Texas. Friday morning at 5:30 the eight cars carrying the seniors met at the Baptist church. At 6 o'clock they all left. The trip was very pleasant. At Marble Falls the cars had to be ferried, three at a time, across the Colorado river.

Most of the cars arrived at the San Antonio city limits at 9:30. They went to Breckinridge park to wait for the others who had not yet come. Breckinridge park was very beautiful. The huge green trees and the deep blue San Antonio river made the weather seem cooler than it really was, though it was a hot summer day. The seniors visited the zoo, which is in the park. Then they went to the Japanese sunken gardens. By this time the weather was undeniably hot, and the gardens were very refreshing. Evelyn and Elaine, who took kodaks, took pictures. Post cards do not exaggerate the Japanese gardens. There are flowers of every hue. In the pavilion two little Japanese girls served tea, chop suey and other Japanese food, while an old man played a harp. The group did not want to leave this pleasant spot, but it was time for lunch.

By this time everyone had arrived. The whole crowd gathered at the beautiful Spanish style dancing pavilion and ate the lunch the senior mothers had prepared. As they were very hungry, there was not much to clean up after the meal. Mr. Smith, Mr. Sullivan, Mr. Fox, Mr. Bodkin and Mr. Fairman then left the group and went to town to find a lodging place for the night. While they were gone, many of the seniors took motorboat rides on the San Antonio river.

Since about fifty schools had sent students to San Antonio to the battle of flowers, a hotel was rather difficult to find. The Traveler's hotel, on Broadway, finally decided that it could accommodate the forty or more people in the party. They all went to the hotel, put the baggage in a room and parked the cars in a parking lot across the street.

At 3:30 the parade started. It lasted about three hours. There were many beautiful floats in the parade. They represented various scenes from Texas history. Governor Allred and his family led the parade. There

were fifty bands. John Reagan high school of Houston won the prize for the best band. It was an all-girl band.

Most of the seniors and their chaperons stood in front of their hotel to watch the parade. By 6:30 they all had blistered faces. The weather was comparable to fourth-of-July weather here. The hotel then assigned rooms and the members of the party dressed for dinner.

At 7:30 p. m. the group gathered in the lobby. They then went to the Holsum cafeteria and in a special dining room ate the dinner given them by the P-T. A. This cafeteria was very large and very beautiful.

After dinner they went to the Majestic theatre to see "Captain January," with Shirley Temple. This theatre is one of the most beautiful in the United States. The ceiling looks like the heavens, with stars and clouds along the walls the skyline was built, and in the house were red, blue, green, gold and violet lights.

On the way back to the hotel the girls in the group window shopped. They were especially interested in the hats and shoes. When the seniors went to their rooms they were told to be in the lobby by 7:30 the next morning.

At 7:30 Saturday morning the crowd ate breakfast at various cafes around the hotel. Then they made a walking tour of the main attractions of the city. The first stop was at Buckhorn saloon. They bought souvenirs and looked at the funny mirrors and the Indian and Mexican articles. Then they passed by a carnival which covered eight blocks, including the grounds and city auditorium. The next stop was at a Catholic church, under the main altar of which lay the ashes of Travis, Bowie, Crockett, Milam and other heroes of the Alamo. The party also went to the oldest house in Texas. It was extremely interesting to sit at the tables where our Texas heroes had sat. Finally the group arrived at the Alamo. Funeral wreaths from clubs and schools in San Antonio were there as tribute to Travis and his men. The seniors saw the famous line that Bowie had his cot carried across.

The crowd was turned loose at the Alamo to spend the rest of the morning as they chose. Most of them went shopping and then ate lunch. Then they went back to the hotel, packed and checked out. The group again went to Breckinridge park to visit the Sunken Gardens. Then they left San Antonio to meet at the capitol in Austin at 4:30.

Some of the seniors were industrious enough to climb to the dome of the capitol. Others explored the first five stories. After this a few went to Barton Springs. Then the party went to the university of Texas, where they saw Harold, Son, Worth and other friends from home. Mr. Smith acted as guide and pointed out all the points of interest. Finally the crowd was treated to dinner in the Union building cafeteria. Then they left Austin; most of the cars reached home about 9:30 p. m.

The seniors could not have had a more thrilling time or a more educational trip if they had gone to New York City.

AZTECAS CLUB

The Aztecas club met on the hill-side east of Goldthwaite, Thursday night, April 23. Everyone enjoyed a fine supper and a grand time. The members of the first year Spanish class with an average of eighty were initiated into the club. We hope they will carry on the work next year and make a big success of it.

MAY DAY PROGRAM

Next Monday afternoon at six o'clock at the grammar school auditorium, the annual May day fete will be held. Connie Saylor will be crowned queen of the May. Her escort will be Joe Davis. They will be attended by eleven dukes and duchesses, a duke and duchess from each grade.

The primary grades will furnish additional entertainment.

Ask Florine, Catherine Crook, and Sarah where they got a Coca Cola during the parade. So Aileen would rather see "Small Town Girl," with Robert Taylor, than come through Austin!

Refreshing Relief

When You Need a Laxative

Because of the refreshing relief it has brought them, thousands of men and women, who could afford much more expensive laxatives, use Black-Draught when needed. It is very economical, purely vegetable, highly effective. . . Mr. J. Lester Roberson, well known hardware dealer at Martinsville, Va., writes: "I certainly can recommend Black-Draught as a splendid medicine. I have taken it for constipation and the dull feelings that follow, and have found it very satisfactory."

REPORTER

FINE RAIN FALLS HERE MONDAY NIGHT

A good rain of .75 inches or more has fallen here, coming Monday and Monday night.

It came with out any storm or strong wind and the people here are doubly blessed.

The clouds are still hanging low and indications are encouraging for more rain.

It is true the moisture received is not sufficient to put the crops and vegetation in tip top shape. A1 and 100 per cent, so to speak. Yet we are appreciative of the good rains received and are thankful for small gifts of moisture when needed as much as this section has for several months.

Fine rains are reported in other sections of the state, in the panhandle and Oklahoma. So it is a wonderful sign the drouth has been broken and more rain en route to this section.

AIR MAIL INCREASES

THE BURDEN OF RESPONSIBILITY

Many politicians and political speakers, including President Roosevelt, charge that business and manufacturing industries have not given sufficient co-operation in absorbing the unemployment rolls and the suggestion is made that federal law be enacted to force this absorption and at the same time provide for an increase in the wage rate paid by industries.

In this connection the idea is broadcasted that the business of the country has profited greatly and is still profiting largely at the expense of labor. As an offset to this propaganda a statement has been prepared by the United States News that is interesting. It shows that in the last five years business institutions throughout the country have drawn on their reserves to the aggregate amount of more than twenty-six billion dollars.

The twenty-six billion dollars of reserves thus kept factories open that otherwise would have closed. It kept men at work that would otherwise have been discharged, to swell the vast rolls of the unemployed. It paid dividends that saved thousands of people, of whom a large proportion were widows and minor children, from utter poverty and distress.

These figures would indicate that the charge that business institutions, as a whole, large and small, have not done a fair part toward providing employment can not be substantiated and those who make the statement are misinformed, to put a charitable construction on it.

A PENSION PLAN JUSTIFIED

A demand for an old age pension or "assistance" as it is termed by some of its advocates, is universal and will continue to be well in the future, if not paramount, in the thinking of the people of this nation. There can be no doubting that the unemployment situation with us to stay, to a greater or less extent, and some plan must be evolved for relief.

It is doubtless true that in a great majority of cases ambitious young people, on the threshold of their careers, determined to be financially successful. They looked ahead to an old age of leisure and independence—not an old age of dependence and poverty. Yet in a large per cent of cases they met with failure.

SANCTIONS DID NOT AVAIL

The imposition of sanctions against Italy by the League of Nations may have caused some inconvenience to the Italian government and the individual citizens of that country, but they did not have the anticipated result of ending the war Italy waged on Ethiopia which was induced by land hunger.

CENTENNIAL BENEFITS

Great stress is being placed on the impression to be made on visitors to this state during the centennial, but the most important thing to be accomplished by the celebration is to acquaint the citizens of Texas, some of them native Texans, with the magnitude of their own state—its history, its area and its wonderful resources.

THE SUMMER ROUNDUP

One of the most important round-ups of centennial year in Texas, is the summer round-up of the children who will enter school next fall. The summer round-up of the children is the major health project of the national congress of parents and teachers.

The local parent-teacher groups of each community endeavor to have parents who have children ready to enter school next fall, take these children to their family physician for a physical examination so that any defects they might have may be corrected during the summer months.

It is a most essential factor in the life of each child that he be free from all physical defects in order that he may do his best work when in school. The child has not been allowed to play most of his time until he comes of school age, so it is most important that all handicaps be removed when he is asked to take up that part of his career which has to do with his mental training.

Each child entering public school should be immunized against diphtheria and smallpox. As the child begins to mingle with numbers of other children, it is also necessary that he be instructed as to personal cleanliness and a healthy attitude toward his schoolmates.

The health and well-being of our nation rests upon the opportunities given the children of today.

SPELLING REFORM

Every now and then someone becomes sufficiently excited over vagaries and peculiarities of the spelling of the English language to raise a hubalaboo for reform. Theodore Roosevelt became stirred in his day and a number of magazines and periodicals, notably the Literary Digest, set the example in a fairly comprehensive manner.

Unabashed by previous failures, however, two or three different sets of spelling reformers are busily engaged in bidding for favor. One of them would remedy all our evils with a phonetic alphabet of some 40 characters, and another gentleman has it all figured out, to his own satisfaction, by using only 38 characters.

On the other hand, however, there is no doubt that English is one of the most illogical and individualistic languages of them all, and all languages are more or less involved. Anyone who will take the time and trouble to consider the variations we play on "ough" alone, will very probably admit at once that we could use clarifications. Consider a list of words that contain though, through, enough, thorough, plough, cough, and tough.

ART CAPITAL

New York City, always the art capital of the nation, has in recent years seen many smaller art centers spring up throughout the states. The new city administration and Mayor LaGuardia, acting through the Municipal Art committee, have now arranged for the first national exhibition of American art here at Rockefeller Center from May 18 to July 18.

There are other decided advantages that should not be overlooked:— 1. Fundamentally the country is more beautiful than the city. The artistic and esthetic value of the rural panorama—tree and plant and bird and insect and ever changing sky—is incalculable.

EDITORIAL COMMENT

VIEWS OF THE NATION'S PRESS ON TOPICS OF INTEREST AND IMPORTANCE

LITTLE RED SCHOOLHOUSE

Elimination of the one-room schoolhouse through the merging of school districts is saving the state of Washington more than \$2,000,000 annually, declared N. D. Showalter in a recent address in Vancouver to Clark county school district board members. What is more, the consolidation has permitted better salaries, allowing the districts to hire better teachers and raise the standard of school work.

REGULATION OF SPEED

The Texas highway patrol is in the midst of a mighty effort to drive death from the highways of this state. It is well they have begun this desperate effort to decrease the hazards of automobile travel by insisting on a rigid observance of the state speed law which sets passenger car speed at not to exceed 45 miles per hour and truck speeds at less.

BONDS AND INVESTMENT

In a conference with leaders of veteran organizations Secretary Morgenthau asked for their co-operation in urging veterans to hold their bonds, which will be ready for distribution about June 15. Morgenthau stresses the point that the bonds are sound interest-bearing obligations and are a good investment which veterans may well hold as a reason. He is interested also because of the new heavy financing the treasury will be required to do if a substantial part of the bonds are presented for redemption.

ARE THE STARS AGAINST THEM?

The dominant political parties of the United States may live to rue the day their leaders set the nominating conventions for dates in June this year. On the word of 300 British astrologers, treaties arranged and agreements reached in the court of that month are doomed to failure.

ADVANTAGES OF FARM LIFE

Even if it weren't worth a very great deal to be in any vocation which you really like, I wonder if you've ever had pointed out these inherent advantages of rural life as listed by Dr. O. E. Baker of the United States department of agriculture:

- 1. A farmer has more and better food to eat than have most people in cities.
2. He has better health and lives longer.
3. He accumulates more property than the average city resident.
4. He is more likely to enjoy his work than are most city people.
5. He is likely to enjoy a better family life.

Dr. Baker's statements are all backed by the actual facts. He says that the young people who reach the age of 17 are likely to live three to five years longer in the country than in the city. Also from the money standpoint, though you may not believe it, the states with the highest average or per capita wealth are all dominantly agricultural states.

STABLE FARM

Discussions by agriculture officials in Washington indicate that the program of farm stabilization is a much firmer basis than a year ago. The program is a temporary measure to stabilize the price of farm products until the market has become permanent.

Soil conservation is the stone of the new program that has been needed since the recent floods and drought have demonstrated the tragic results of neglect of forest and soil. Earlier decades' program of soil conservation is to restore the land and, at the same time, check to some extent the production of soil without the help of the Bankhead Act.

The farmer will benefit from the department's scientific method of rural residence from the continuing of federal credit and widespread program of electrification. This state law now provides farmers from the benefits of electric co-operative efforts, but this state will be amended.

ITALY SPEEDS UP

The remarkable speed of the Italian invasion of Ethiopia on the eve of the season, which was expected even by many to halt military operations to prolong the Fascist armies well beyond, seemingly is the complete collapse of Italian forces. A few appeared unlikely victors would capture the town of Dessaleigne for the summer, but already attained apparently without their way to Addis Ababa, capital, also without the prospect of serious intervention of the Ethiopians.

However, we feel free to apply the prediction to affairs on this side of the Atlantic, though in milder terms. If there is not a great deal of turmoil in the course of our major political conventions scheduled for June, something new in our history of selecting candidates and determining platforms will have been achieved. Sure we are expecting turmoil and even trouble in its conventional aspect. Otherwise nominating conventions would not be at all conventional.—St. Louis Globe Democrat.

2. The country is more conducive to clear thinking and to leisurely living than city. Life in the city is always geared to high speed.
3. The country offers wider opportunities for recreation than the city. If the advantages are utilized, if, however, any girl or boy is so minded that social advantages can never mean anything but those that must be purchased, such as movies, flashy parties, or commercialized sports, he or she will probably never be satisfied on a farm.—Alexander Nunn, in The Progressive Farmer.
