

# THE GOLDTHWAITE EAGLE

GOLDTHWAITE, MILLS COUNTY, TEXAS, FRIDAY, AUGUST 14, 1936

NUMBER FIFTY-ONE

## Methodist Notes

In spite of the excessive heat, we had a very good attendance at the Methodist church Sunday, at both the morning and the evening hours. The Sunday school was also very well attended.

The Sunday school lesson was of unusual interest, and several students have spoken to the writer this week of their individual enjoyment of the Sunday school hour.

If our people would attend the Sunday school, I feel sure that they would soon become so interested that but few would miss the services in the future. They simply do not know how interested they would become with regular attendance.

We were glad to have the presence of Carter Mohler and his wife and son of Menard last Sunday morning. He was superintendent of our Sunday school several years ago, and has never lost interest in the church work here. In fact the Mohlers have been connected with the church work of Mills county for half a century. His father was a Sunday school superintendent when Carter was but a child. His steps are still found in the county in the person of his grandchildren.

In the above statement there is a fact worthy of all consideration. How often is it the case that this can not be said of those who have given their lives to the building up of the principles of Christianity in the community. I once heard a man say that within his own family, a large family too, that only one was making any sort of an attempt to keep up the principle that he and his good wife had tried to instill in them. This, I dare say, is in no sense an isolated case. The facts are that these days show a tendency to break away from the old moorings and wander into the forbidden paths. This, to an extent that is destructive to the very best that is in human society. What the outcome is to be, God in heaven alone knows. In many cases, ruin, I fear.

One of the most pessimistic expressions as to the influence of the church that I have seen lately, comes from Dr. Fleming, rector of Trinity Episcopal church, New York City. If some country preacher had made the statement that Doctor Fleming made, he doubtless would have been hung to the nearest telephone post. But, coming as it does, from one of the oldest and wealthiest churches of America, it gets the front page of all our great papers. If we judge by his statement, we should conclude that the church is in a sorry plight. He thinks that there is no preaching worthy the name today; the sermons are nothing but very poor editions of topical homilies, or religious pep talks. He declares that there should be no preaching for two years. I suppose he means such preaching as he assumes the present to be, and that the church should engage in the business of saving its own soul. The charge is a serious one, but is worthy of consideration.

There is one thing that stands out prominently, and this should be given the closest and most prayerful consideration of the church at large: There is a mighty need of a great revival that would sweep this country as in the days of Finney and Moody and others. The church will never save its soul until that comes. Not only is it true that judgment should begin at the house of God, but that the revival should begin at the house of God—our own house—and in our own hearts. This is a truth that should sink into our hearts.

J. S. BOWLES.

## SLACKS VISIT HERE

## School News

**School Board Meeting**  
At a regular meeting of the school board held last Monday night Miss Rowene Saunders was elected home economics and English teacher to fill the vacancy caused by the resignation of Miss Lillian Stokes. Miss Saunders is a graduate of C. I. A. and has specialized in both home economics and English. She comes very highly recommended.

**Vocational Agriculture Conference**  
Last Tuesday Mr. Winslar carried Pat Obenhaus, Rex Collier, Herbert Faulkner and J. T. Soules to a conference of vocational agriculture teachers and students held in Brownwood. At this conference plans were discussed for the year's work and the boys were given an insight into the program that is ahead.

Mr. Winslar is working every day laying plans for his year's work. Any father or boy interested in this type of work should see him and discuss the matter with him.

**Vocational Agriculture Boys Meeting**  
Remember the meeting that has been called for boys who are interested in taking vocational agriculture. This meeting will be held at the high school building at 3:30 p. m. Saturday.

**Personnel of the Faculty**  
Owing to the fact that final schedules of classes have not yet been worked out it is impossible to announce the exact work each teacher will have, however, the list of teachers, together with the departments in which they will work is as follows: High school—S. E. Cloninger, principal, Miss Love Gatlin, Mrs. Euna V. Barnett, C. L. (Bill) Stephens, Otha Winslar, Mrs. Lois Cox Marshall, Robert Leterson and Miss Rowene Saunders. Grammar school—W. T. Smith, principal, Mrs. Sparks Bigham, Hope Schulze, Miss Lou Ella Patterson, Mrs. Doris Carothers, Miss Martha Harrison. Primary school—Miss Ethleen Adams, principal, Mrs. Helen Saylor, Miss Grace Moore Skinner and Miss Lily May Ely.

**Transfers**  
Records compiled in the office of the county superintendent reveal the fact that one hundred sixty-five students are transferred to the Goldthwaite schools this year. This may be compared with thirty-eight net transfers in 1933. The greater part of the transfers are high school students.

**Prospective High School Enrollment**  
Indications now are the high school enrollment will reach near the three hundred mark this year which will represent a twenty per cent increase over last year and almost a doubling in the last four years. The enrollment in the entire system this year should go well beyond the six hundred mark.

**Repairs**  
Quite a bit of repair work and renovation is being done in the buildings. Everything is expected to be in readiness by the opening date, September 7.

**School Opening**  
The entire school system will open for regular class work September 7. If at all possible parents should see that their children are ready to start the opening day. It is unfair to the child to keep him out of school four to six weeks and then expect him to do the work that is planned for a full term. However, for those who for any reason feel compelled to keep their children out a while everything possible will be done by the teachers to make it convenient for such children.

**Librarians**  
Miss Ruby Cave will be at her accustomed place in the high school library.

## State Rates is 62c; County Rate 70c

Commissioners court set the county tax rate at 70 cents for this year to be divided as follows: jury fund 10c, road and bridge 7 1-2c, tractor and grader 1-2c, special road and bridge 4 1-2c, bayou 2 1-2c, general 20c, pauper 5c and court house 20c.

Texas' tax rate for 1936 was set by the state automatic tax board at 62 cents on \$100 property valuation. The rate is the same as that for 1935. The tax is divided into: Confederate pension levy, seven cents; levy for state general purposes, 35 cents; and levy for state school purposes, 20 cents. The taxes become payable October 1. If not paid before February 1, 1937 penalties begin to accrue. After June, 1937 both penalties and interest are charged. A section of the tax law allowing deductions for payment in October, November and December was held unconstitutional. The levy is made against property valuations of \$3,196,000,000 as reported by county tax assessors. The tax board estimated the general revenue deficit on August 31, 1936 will be \$9,505,741. Total anticipated net tax collection from ad valorem taxes for general revenue at the 35 cents rate was computed to be \$8,800,241, leaving a deficit of \$705,500 to be absorbed by other revenue.

## Cotton Will Likely Open Little Lower

It is likely that the fall cotton price will open slightly lower than it is at present which is ranging from 12.69 to 12.80, according to a government cotton man who was in Goldthwaite this week looking after the government cotton that is in the Henry Stallings & company warehouse here.

About 300 bales of cotton are in storage here and a monthly report is made to the government on this cotton by J. A. Hester, local manager of the Stallings company. This cotton carries a 12-cent loan to the farmers and with the storage and insurance costs, the cost to the government on this cotton is around 14 cents.

## Romans

The men's bible class of the Baptist Sunday school are making a study of the book of Romans.

Dr. B. H. Carroll said, "It is the most fundamental, vital, logical, profound and systematic discussion of the whole plan of salvation in all the literature of the world. It touches all men; it is universal in its application; it roots, not only in mans creation and falls, but also in the timeless purposes and decrees of God before the world was, and fruits in the eternity after this world's purgation."

Surely a book of such vital importance to man should command our most intense study.

We would be glad to have all men in Goldthwaite, who are not in Sunday school, to meet with us for this study each Sunday morning at 10 o'clock.

Brother G. W. Jackson, one of the best Bible students to be found, is our teacher. You will enjoy the discussions and his teaching. Come. REPORTER.

**HOME OWNERS**

Austin Callan It has long been conceded that the home owner is the best and happiest citizen. The home is the nation's citadel of strength.

Those who have made it easier to own a home and to keep a home, have rendered a distinct service to humanity. They have planted flowers along barren pathways.

The nation's strength lies in the small homes because most modest domiciles affects millions. The Texas legislature not only showed its interest in good citizenship but its consideration for the hard pressed when it adopted Senator Carl C. Hardin's home exemption measure relieving from state taxes all homes up to the assessed value of \$3,000.

If Carl Hardin had rendered no other service than that he would be entitled to the gratitude of thousands of Texans.

Whoever makes it easier to maintain a place of habitation for a family confers a blessing, and adds a bloom and breath of fragrance to life. We want to see more home owners not only in the cities and villages of our state but out beyond the pavement in the rural communities. No home owner will become a communist. The blessings of a home will nurture in his heart love for his country and his country's flag. He will bring his children up to respect the worthy things of life; he will train them for good citizenship, and they will be an ornament to society.

E. T. Davis has roofed his home on the Williams Ranch road.

## News In Brief

Joe Blondin, of the Yount dairy, near Beaumont, believes keeping cows cool will make them give more milk—hence he has installed two large blow fans in his milking shed.

First in turkey production and second in chickens, is the standing of Texas in the nation according to figures of the United States census of agriculture. Turkeys numbered 824,887, being 15.3 per cent of the nation's total output. Chickens numbered 20,561,529, or 5.5 per cent of the nation's total output.

To mulch shrubbery beds, Mrs. Walter Merrell, yard improvement demonstrator in Dallas county, used soil from under and around an old straw stack. This soil was put several inches deep early in the spring and held all moisture that fell so well that the shrubbery continued to grow at a rapid rate during the dry weather.

A new money crop for the El Paso valley has been developed in the growing of beet-seed. This year \$250,000.00 worth of beet-seed has been harvested and shipped to Colorado and Utah. Sugar beet seed is raised in the upper valley and table beet seed in the lower valley. 2,000 acres, in the two valleys, cultivated by farmers, produce about 3,000,000 pounds of seed. Beet seed raised in the El Paso valley may be planted for a crop in one, instead of two years, as is the European system.

Two thousand autoing nomads who roll their own homes were bivouacking on the county fair ground at Sandusky, Ohio, for their annual reunion. They are members of the Tin-Can Tourists of the World, who believe there is no place like home, as long as it is on wheels. The hearthstone of these 2,000, who claim a national membership of 97,000, only they all couldn't get here, is wherever they pull on the brake for the night. They are people who eat, sleep and live on, or by, the side of the road.

Newspapers report that O. Kenedy, watermelon king of Jefferson county, grew a melon of the triumph variety that weighed 183 pounds.

An outstanding attraction of the International Harvester company's exhibit in the transportation building, at the Texas centennial, is a mechanical cow—a Holstein—that chews her cud, blinks her eyes, moves her head and ears, switches her tail, breathes, moos and gives milk in a realistic manner.

Stocky Tom Mooney eagerly took his final fling at rebuttal of 20-year-old bombing charges, as his prolix habeas corpus hearing neared the end. Faced with another long wait in San Quentin before a decision in his fight for freedom from a life sentence, the prisoner is making the most of his last chance to make full, public denials that he bombed the San Francisco Preparedness Day parade in 1916, killing 10 persons and injuring 40.

Vice-President Garner called attention to the healthy condition of business in general and banking in particular. He invited listeners to look at bank statements and compare the statements of July, 1933, and July 1936. "You will find the totals have doubled," he said. "Railroad tonnage has increased and one railroad recently paid back \$3,000,000 it borrowed from Jesse Jones. I don't say President Roosevelt did it, but I will say this: He didn't prevent it from being done!"

Spain's revolt-threatened popular front government was served formal notice by the United States August 6 that it will be held strictly accountable for the protection of American property in that country. Disturbed over the potential menace to America's \$70,000,000 investment in that country, the state department disclosed it had dispatched a note to Madrid invoking the aid of Spanish authorities in safeguarding American property and warning that compensation must be paid for any damages.

### ROCK SPRINGS

There were a few at Sunday school Sunday morning. There was one teacher present.

Carter Mohler was in town Saturday afternoon meeting some of his old friends. I had the pleasure of meeting him. He still looks young. He complimented our Eagle and the Rock Springs news.

Sunday afternoon the Rock Springs boys played Center Point again in the Westerman pasture. Rock Springs won the game again. Center Point played a good game until right at the last, then the game changed. If it hadn't been for some of the Rock Springs boys' lady friends hollering and cheering them, they would have lost the game.

Joe Davis and family and Mrs. J. C. Stark went to Ranger Friday to visit with Dial Rainey and family.

Friday, Landy Ellis and wife and Mrs. Eula Nickols and Phillip went to Lampasas to the races and ball game. They reported a good warm day with lots of excitement. It was their first time to see a Negro ball game. Phillip's horse played in the polo game, but didn't help win the game.

Mr. and Mrs. Joe Roberts and John visited Homer Doggett and family in Coleman last Thursday. John Earl stayed for a visit with his aunt.

Mrs. Glenn Nickols of town spent Sunday with the Nickols family.

J. T. Stark decided last week, while his mother was away, that it was a job to cook, especially while the weather is so warm. I believe, from the way he talked, if his mother hadn't come home Sunday, he would have been looking for a cook. J. T. this is leap year. You remember four years ago you asked to get yourself a cook.

V. D. Tyson, J. T. Stark and Shirley Nickols played 47 with Marvin Powledge and the Webb brothers Saturday night.

Mr. and Mrs. J. R. Davis spent the week-end in Coleman with friends.

James Nickols and Miss Ethel Tyson visited with Otis and Besse Hutchings at Center Point Saturday night.

Bennie Bob Long of town spent Saturday night and Sunday with his grandparents, Mr. and Mrs. Landy Ellis.

Charles William Ford of Abil-

ene visited in the Nickols home this week.

Herbert Cooke was a dinner guest with the Nickols family Saturday.

Bud Wilsford of Fort Worth was a week-end visitor in the Daniel and Dewbre home. They entertained him by spending Saturday night and Sunday on the river.

James Nickols is back home enjoying his vacation. He will go back and work for V. D. Tyson when he gets well.

Rev. Marvin Powledge of Lampasas spent Saturday night and Sunday in the Webb home.

Mrs. Richard Souders spent Friday with Mrs. Loy Long. She and her husband had supper with James and Shirley Nickols.

Mr. and Mrs. Dwight Nickols of town and Landy Ellis and wife and Mrs. Richard Souders and son were visitors in the Nickols home Thursday night. They enjoyed a melon from the Ellis melon patch.

Those who enjoyed ice cream in the Nickols home Sunday night were: Norman Adams of Hamilton, Lindburg Spinks of Center Point, Miss Ethel Tyson of Goldthwaite and R. E. Collier and wife, W. A. Cooke and Rudolph, Marvin Spinks and family and Mrs. Nickols and sons. They had banana, pine apple and vanilla cream.

Beryl Turner and family of San Saba county are visit Mrs. J. M. Traylor and children.

Mrs. Woody Traylor and daughters spent Sunday with J. T. Roberson and family.

Mrs. Will Guynes is home from the sanitarium. We hope she will get well and be strong again.

### Lady Took Cardui When Weak, Nervous

"I can't say enough for Cardui if I talked all day," enthusiastically writes Mrs. L. H. Caldwell, of Statesville, N. C. "I have used Cardui at intervals for twenty-five years," she adds. "My trouble in the beginning was weakness and nervousness. I read of Cardui in a newspaper and decided right then to try it. It seemed before I had taken half a bottle of Cardui I was stronger and was soon up and around."

Thousands of women testify Cardui benefited them. If it does not benefit YOU, consult a physician.

### Why Gulf is the Gas for August

WHY NOT BEAT AUGUST HEAT by driving someplace for a swim? And if you want to keep your gas bills down, don't forget you need a fuel with a formula that fits hot weather. Otherwise your gas doesn't burn completely—part of it escapes through the exhaust unburned, wasted. Stick to That Good Gulf in August—it's "Kept in Step with the Calendar"—specially refined for summer driving. All of it goes to work, none of it goes to waste. Try Gulf and see!

goats Monday that he traded from big brother, Phillip. Their mother rejoiced over the trade.

Mrs. Eula Nickols visited in the Webb home Monday night while her sons and V. D. Tyson played 42.

Otis Hutchings and his sister of Center Point visited in the Nickols home Wednesday night.

Austin Whitt and family have been attending their meeting in town the last two weeks.

R. C. and Wick Webb's sister and family of Mexico spent several days with them this week.

J. V. Waldrip left the first of the week for west Texas to find him a home.

Woody Traylor and family and Duey Bohannon and wife went to town to church Sunday night.

J. C. Stark and J. T. spent Sunday afternoon in the Webb home. Haskell Gatlin is at home from Coleman where he had work the last two months. His friend Lloyd Hurst came home with him for a few days.

Martin Clark spent Sunday afternoon in the McGowan home.

Carl Kaubs of Bulls Creek got his horse that the Nickols brothers have been riding Sunday morning.

Rudolphe Cooke wasn't the only boy who had a job last week. Phillip and Shirley Nickols doctored a cow for their neighbor, Mrs. Mary Faulkner, Sunday evening.

If it doesn't rain, our work will be in vain. They say if it rains on the cotton, we had just as well let the crop be forgotten. The weather is so hot, we don't care whether we work or not.

BUSY BEE.

# Look Out!

At an election on the 24th day of August, 1935, the people of Texas ordered the Legislature to pass "Old-Age" Pension Law and pay it. People wonder why the Legislature did not obey that order. The answer is easy. More than half of the members of the House of Representatives are under the age of thirty years. These boys have not endured the heat and burden of the day. They simply cannot understand what it means when earning power and savings are gone.

What can you hope to gain by adding to the juvenile majority?

REPUBLICAN HARD KNOX

Col. Frank Knox, the Republican candidate for vice-president, in his Indiana speech told what his party would do to end the depression. First of all they would stop spending vast sums of money. Next they would reorganize the tax system making taxes less and simpler.

A little further on he told how they would offer benefits to equalize domestic prices with industrial prices and would improve low prices by withdrawing sub-marginal land, soil conservation and special measures to prevent soil erosion.

Those beneficial measures are already a part of the Democratic New Deal. The difference appears to be that Candidate Knox has some mystic method by which he proposes to keep up the work but cut out the expense. Possibly he knows how he can stop spending money and still secure the benefits that the expenditure would bring, but it is strictly a Republican secret that has never been divulged.

"We propose to stop the persecution of honest business men," he declaims and adds "The sweat shop and the exploiting employer we intend to drive out." But the Republican party was in power for twelve long years without attempting to stop the sweat shops. The NRA closed them up almost over night.

Col. Knox talks about reducing taxes. But no taxes were appreciably reduced under Harding and Coolidge and Hoover. It is a little late now to promise reform in this line.

"We expect to encourage investment, to encourage production, and to encourage consumption," these are familiar words. We recollect that Mr. Hoover did a great deal of encouraging in the gloomy early thirties. But those corners he so glibly predicted were about to be turned were never reached. And the millions of dollars he turned loose to big business never trickled down to the needy man at the bottom. Encouragement is mighty fine, but when the patient lies seriously ill it is not enough.

Throughout Col. Knox's speech, through Landon's speeches, the one note that is clear and easily understood is an appeal to put the Republicans back on the pay roll. Not one sound or sensible reason has been advanced. The gist of all their speeches is "Don't let the Democrats rob you, the Republicans have had more experience."

A GOOD COUNTRY

Every once in a while something bobs up in the world news that makes us realize what a fine country the good old USA is after all. Over in Germany a well known editor has been sentenced to life imprisonment for high treason. The treason in his case appears to have been divulging the rules of censorship under which German newspapers are allowed to be published.

The blessings of a free press are never adequately realized by those who enjoy them. Here every man has a right to an opinion and to express it with a guarantee direct from the constitution itself. It is sometimes charged that this country is tending towards censorship, but the widespread publication of such charges whenever and wherever made is the surest refutation of their truthfulness.
