The Methodist Church

As the Christmas season approaches may our thoughts turn to the Saviour of the world whose birth was heralded so real to us that he may live in us and rule our hearts and lives. Why not make this season one of worship and service giving ourselves to the living Christ and giving of our means to help the needy. "Inasmuch as ye have done it unto me." We invite you one and all, to worship with us next Sunday and every Sunday. The Lord needs you and you need the Lord. Come and help.

She graduated from high school here in 1934 and entered Abilene Christian College the following school session. It was there that she met Mr. Connell who was a football star and senior at the college. Before the close of the school year, the young couple became engaged.

After graduation in 1935, Mr. Connell went immediately to Jal, N. M., to take over the management of the branch office of the El Paso Natural Gas Co., which position he still occupies.

The delicious supper consisted of Tomato juice cocktail, roast turkey with dressing, baked ham, candied sweet potatoes, spiced apples, fruit salad, deviled eggs, potato chips, cranberry jelly, celery hearts, stuffed olives and gherkins, fruit compote with whipped cream, fruit cake and coffee.

THE LONG BIRTHDAY CELEBRATION AND FAMILY REUNION

In honor of three of their grandchildren birthdays all coming real close together the Robert Long family held a reunion and celebration Sunday at the home of Mr. John Jackson, who is one of the sons-in-law.

All the children and grandchildren were present except Mr. and Mrs. Jack Attaway and their son who live in Hopkins County.

Grandmother Richey, Mrs. Long's mother was present also Mr. and Mrs. G. W. Jackson as guests of the occasion.

The Long family is well named for they are long in stature as well as name. Also long in hospitality. On this occasion each one brought along something good to eat from a good long turkey with its accessories, to a long string of pies and cakes.

The number present was so long that all could not eat at once and the ones who came first stayed a long time and the waiting ones looked longingly in the direction of the table. And when their turn came it was along time before they came away.

The only thing that seemed short was the time until we had to say goodby, but we are looking longingly forward to another Long reunion of which we hope they may have many and that we may be one of the guests.—One who was there.

COMPLIMENTED

Mrs. Walter Gross of Thrall, entertained Wednesday afternoon, November 24, with a miscellaneous shower, complimenting Mrs. Barlow Piel of Thrall, formerly, Miss Lillie Henkes of Priddy.

The home was attractively decorated with autumn cut flowers the pink and white color scheme being carried out throughout the afternoon.

After having registered in the Brides book every one present took part in several interesting and appropriate contests after which little Shirley Julaine and Howard Gross dressed as a little bride and groom pulled in the wagon on which a miniature house had been built, loaded with gifts. After viewing the many useful and beautiful gifts, dainty refreshments consisting of sandwiches, cookies, fruit cake and coffee were served to the guests.

Many were absent due to bad weather, but sent their presents.

MARINE CORPS NEED MEN

An unlimited number of men will be enlisted in the United States Marine Corps during the month of December, and will be sent to San Diego, California, for training, it was announced here by the Officer in Charge of the Marine Corps Recruiting Office, Dallas.

Applicants must be good moral character, white, single and with out dependents, between 18 and 30 years of age, not less than 64 inches nor more than 74 inches tall. Those under 21 years of age must have consent of parents or guardian.

Applicants not living in the immediate vicinity of Dallas may secure application blanks and physical examination forms from the local postmaster, and have a physician of their choice give them a preliminary examination. On receipt of these forms at the Dallas Headquarters, the applicant will then be notified whether or not to report for final examination.

PETER CONACHY, Major, U. S. Marine Corps.

Following the adoption of Bagley cotton by patrons of the Goldthwaite gins, a sufficient number of growers have signed the agreement to assume separate ginning for that variety. Mr. Bagley offers his best seed by car lots for \$1.55 a bushel. The acreage signed up at present will require 400 bushels. As a car lot is more than 900 bushels it is imperative that all farmers who will plant Bagley let us have the advantage of this, the car lot price. Notify at once how many acres you expect to plant.

We have information that the Star and Priddy gins will give separate ginnings if farmers will plant one variety cotton.

Star farmers have selected Watson Cotton. Caradan farmers selected Harper.

Foreign countries are buying our best seed for 1938 planting and it behooves us to make sure of good seed while they are available.

The Italian government has already bought 33000 bushels of Acola seed, the entire supply, for planting in Ethiopia. They are still buying of other varieties always the best.

Mills County growers are urged to give this matter consideration.

W. P. WEAVER, County Agent.

FOOTBALL BANQUET

The Parent-Teacher Association will entertain the football boys with a banquet on Thursday evening, December 9, at the High School auditorium. An outstanding feature will be an address by on-out-of-town football official, whose name will be announced later.

Departing from the usual custom of having the banquet exclusively for the team, the sponsors will sell tickets to others who wish to attend at the price of 50c. A chicken dinner will be served.

MERRY WIVES

Mrs. Marvin Hodges entertained the Merry Wives Club Friday, November 26. The living room was lovely with Chrysanthemums. Mrs. Paul McCullough was awarded the high score prize for the members; Mrs. Charles Frizzell for guests.

After the games, a delectable tea plate was served the members and following guests: Mmes. V. C. Bradford, W. W. Wilkerson, Walters Hester, Rufus McKinney, Charles Frizzell, S. E. Cloninger, Miss Lucile Conro.

Mrs. Frank Crowder of Oakland attended church here Sunday, and spent the rest of the day with her mother, Mrs. Lula Kelly.

Roscoe Jones has been drilling oats for Mrs. Nellie Malone this past week.

Neuma Crowder, Carl White, and Truman Crowder had a most interesting experience last week. As Alvin Hanna was going to San Angelo on a prospecting tour, Neuma and Carl went along with him to visit Truman and other relatives there. The three boys went along with him out to the air port. While there a large plane landed. They began to inspect it and to question to pilot. They found it was enroute to South America, but would stop over in San Antonio. The pilot told them if they wanted to ride with him to San Antonio, to climb in. It wouldn't cost them anything. So they climbed in. When they got to San Antonio, they sent a telegram back to anxious relatives telling them to notify Alvin who had been trying to find them to take them home. The newspaper reporters who met the big plane in San Antonio said it was the first time they had ever heard of hitch hiking on an air plane.

Yes, and we also saw Neuma's picture in the Dallas Semi-Weekly Farm News last week in

Evidence shows that we are back on the job after several weeks absence. We can't say just why we haven't been writing, but, anyway, we are glad to be back.

We were dismissed last Wednesday afternoon until Monday morning for the Thanksgiving holidays.

Miss Iva Lee Daniels attended the Teachers Meeting at Houston last Thursday and Friday.

Several of the pupils were absent from school Monday and Tuesday on account of bad weather.

Mrs. Cunningham and little daughter, Jane, visited school Monday.

BETTER ENGLISH CLUB

The fourth, fifth and sixth grades are sponsoring a Better English Club. The purpose of this club is to learn to speak better English and recite better as well as entertain our classes. Our regular meetings are held every

a group of 4-H boys who had won high grading on the cotton they had raised. Two publicity stunts in one week. That's going some. Congratulations, Neuma.

A light snow with some sleet fell here Monday, but quickly vanished before the Tuesday morning sunshine.

Friday morning. Due to the fact that we were not going to be in school last Friday we met on Wednesday to elect new officers as one set of officers serve only one month. The following were elected: Barbara June Wesson, president; Elmo Simpson, secretary; Sybil Meyer, treasurer; and Joe Taylor officer of Student Council. We have a "blunder box" and when someone uses incorrect English his name is put in the "blunder box" with the incorrect words that he used. The box is opened and the slips of paper read at each meeting. We are sure this organization will be a benefit to all.

GIRL'S SPORTS

Our greatest mistakable sport at present seems to be complaining and having the "blues" We haven't practiced much in volleyball. Our old ball has just about seen its last days. But, we should not expect it to last always (considering the way the boys use it for a football). We are going to get a new one as soon as the bad weather is over and it gets dry.

ENTIRE SCHOOL SPORTS

The popular sport of the first of last week was snowball fights. Can you imagine—someone hitting Ovella hard enough on the head to break a hair comb. Mr. Shelton getting hit so hard so many times he surrendered. Miss Daniels being afraid to get out of the school house for fear of getting hit? It is hard to believe but, we witnessed it all.

BOY'S SPORTS

Due to the fact that we broke our bat and our ball has become so worn, we have not been playing baseball. Instead we have

been practicing the girls in volleyball. We wonder why the boys do not have volleyball teams. We raised enough money at the pie supper to buy us a new ball and bat which we are planning on getting right away. As soon as we get practiced up a little we would like to play some match games.

HUMOR

"Well, Garland," said Mr. Cunningham, after sinking a hard algebra lesson, "what are you

going to do tonight? I looked up surprised special," he replied, "go on a little hunt, or two, listen to the on"

"I see," Mr. Cunningham, "when you go on, don't forget algebra lesson good"

Upon arriving home report card for the James handed it to and asked, "Mother resign it?"

Winter Weather

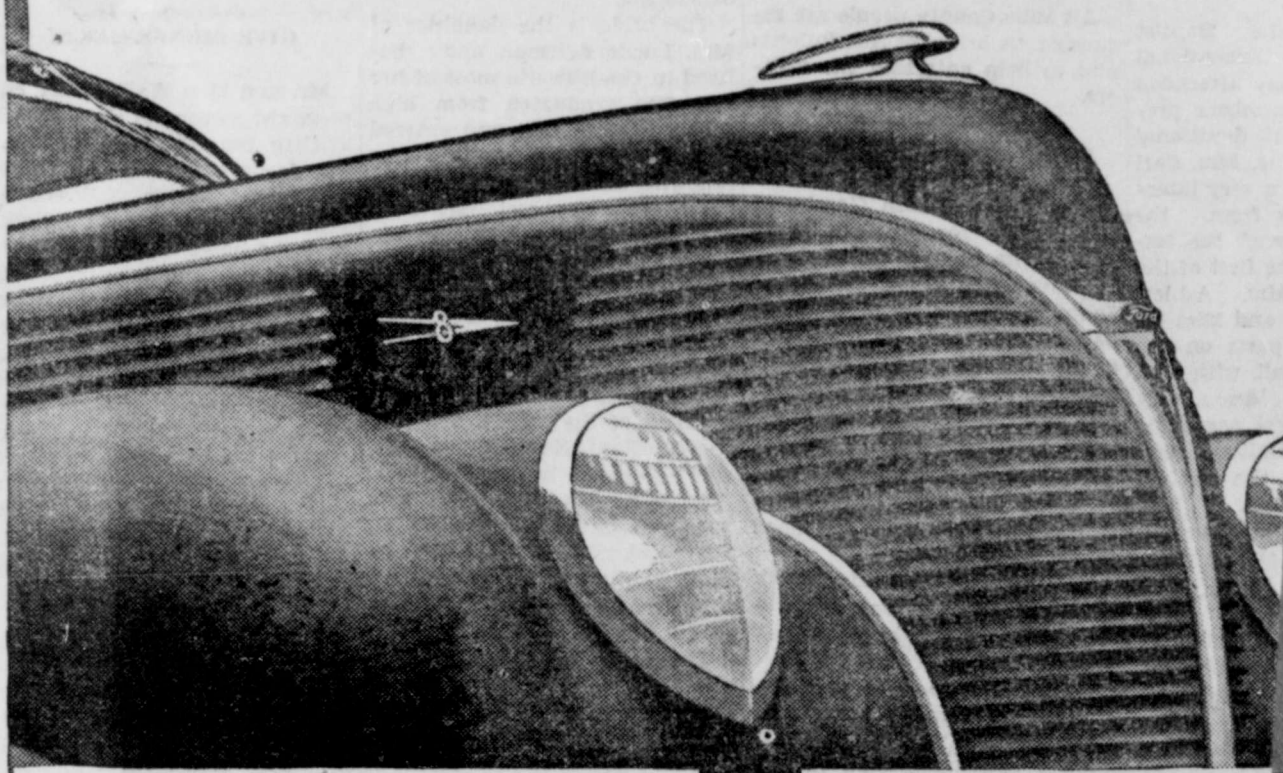

Winter weather is indoor weather. Now is the time to brighten up the interior of your home with fresh paints and varnishes, that the long winter days will be cheerful days.

Our fine selection of Paints and varnishes is guaranteed to please and give lasting satisfaction.

TWO NEW FORD V-8 CARS FOR 1938

STANDARD FORD V-8... 112" wheelbase; 60 or 85-horsepower engine; Improved Easy-Action Safety Brakes; All-steel body; Broadcloth upholstery; Mohair extra in "60"; Mahogany tail light, sun visor; Twin horns; 3 body types; 6 colors.

FORD offers two new cars for 1938—the Standard Ford V-8 and the De Luxe Ford V-8. They are different in appearance—but built to the same high standard of mechanical excellence—on the same chassis.

Because people liked our 1937 car so well, they bought more than of any other make. They liked its looks, its smooth performance, and the way it handled. We have improved on that car in the newly styled Standard Ford V-8.

But some folks wanted still more size and style, with the same Ford advantages. For them, we designed a new De Luxe line. The De Luxe Ford V-8 Sedans are longer with more room, larger luggage space, and finer appointments all around.

De Luxe cars are equipped with the 85-horsepower engine only.

The Standard is even lower priced than the De Luxe. It has graceful new lines and well-tailored interiors—with a choice of engine sizes—85 or 60 horsepower.

Before Ford made V-type 8-cylinder engines available to every one, they were used only in expensive cars. Since then, four million Ford owners have learned the genuine enjoyment of driving an eight-cylinder car with all-around economy. The thrifty "60" engine, especially, makes possible in Standard models a very low first cost and equally low operating cost. With two distinct designs, two engine sizes and two price ranges, you'll find a 1938 Ford car to fit your needs exactly.

PRICES

Standard Ford V-8 (60 hp.)—Coupe, \$574; Tudor, \$644; Fordor, \$689. Standard Ford V-8 (85 hp.)—Coupe, \$629; Tudor, \$669; Fordor, \$714. De Luxe Ford V-8 (85 hp., only) Coupe, \$689; Tudor, \$729; Fordor, \$774. Convertible Coupe, \$774; Club Coupe, \$774; Convertible Club Coupe, \$804; Phantom, \$824; Convertible Sedan, \$904.

Standard and De Luxe cars equipped with bumpers, bumper guards, spare wheel, tire tube, tire lock and band, cigar lighter, twin horns, and headlight beam indicator on instrument panel, at no extra charge.

In addition, De Luxe cars are equipped with extra tail light, windshield wiper, sun visor, also de luxe steering wheel, glove compartment lock, clock, and chrome wheel bands at no extra charge.

Santa Fe spends
125 million
.. in Eleven States!

The Santa Fe, in 1936, paid out more than 125 millions of dollars for materials and supplies, fuel, wages and salaries, and other items of operating expense, in the eleven states in which it operates. The amount assignable to each state was as follows:

Illinois . . . \$ 8,600,282	Louisiana . . . \$ 137,989
Iowa . . . 1,086,406	Colorado . . . 4,865,701
Missouri . . . 8,197,033	New Mexico . . . 15,111,396
Kansas . . . 27,069,366	Arizona . . . 12,919,152
Oklahoma . . . 9,606,664	California . . . 21,251,768
Texas . . . 16,216,061	Total . . . \$125,061,818

From 1927 to 1936, inclusive, the monies disbursed by the Santa Fe in these states for operating expenses totaled \$1,350,499,728.

This average annual expenditure of more than 135 millions of dollars over the past decade, devoted entirely to the purchase of goods and services, has been of inestimable value in promoting local industry and trade, and in providing varied employment for thousands of persons, throughout Santa Fe territory.

CHAPEL PROGRAM

The chapel program of Tuesday morning was opened with the singing of two songs by the assembly.

Rev. Brucks, pastor of the Methodist Church, was introduced by Mr. Smith as the speaker of the morning. He led the assembly in a prayer, following which he gave a very inspirational talk on "Forming a Good Life." He compared the forming of a life to the sculpturing of a statue.

The pastors of the various churches are always welcome at the school. We hope that not only Rev. Brucks, but also the others may visit us often.

WEDDING BELLS

Mr. J. R. Damron of Goldthwaite and Miss Imogene Stewart of Brady were married in Brownwood, November 24. The ring ceremony was performed by Rev. C. E. Moore, pastor of the Austin Avenue Presbyterian Church, in his home on Avenue C.

The bride wore a blue velvet suit with brown accessories and a corsage of gardenias.

The brides only attendant was Miss Lucy Cross, also of Goldthwaite, wore dubonnet with matching accessories.

After the ceremony, Mr. and Mrs. Damron left for a short trip to Dallas.

The bride is the daughter of Mr. and Mrs. A. L. Stewart of Brady and formerly attended Daniel Baker College in Brownwood.

Mr. Damron, son of Mr. and Mrs. J. W. Damron of Blanket, is a graduate of Daniel Baker College, and is the Band Director in the Goldthwaite Public Schools.

FUTURE FARMER FACTS

Last Tuesday morning both classes of the Goldthwaite Eagle Chapter of Future Farmers assembled in the classroom to participate in a chapter meeting. The opening ceremony was completed and a general discussion followed. Each boy was asked to bring one "good thing to eat" to our Father and Son banquet which is to be held Friday evening at the Methodist Church. At the end of the meeting, Dale McCasland, local president, sounded the gavel and we were dismissed until the next meeting, the time of which has not been announced.

PICTURE SHOW PARTY

Miss Coleman admitted the Pep Squad girls to the picture show Tuesday night. The picture was, "Pick a Star." Miss Coleman's generosity is indeed appreciated, as is her splendid school spirit.

RESULTS OF THE 1937 FOOTBALL SEASON

The Eagles finished 4th in their district, lost 3 conference games, won 4, lost one practice game, won 2 practice games. A total of 4 lost and 6 won, Held San Saba to their lowest score all season.

Eleven boys have finished their football eligibility for the Eagles and will be missing next year when the season opens. They are Captain Clark Davis, Floyd McKenzie, G. Armstrong, Boyd Hunt, Marvin Hodges, H. Shaw, Charles Hill, O. Harvey, D. Kirby, Dale McCasland and George Ballard.

Next year we will have 6 or 7 letter men to build a team around B. Kuykendall and S. Gerald should make outstanding tackles, Garth Carter, Center, Aubrey Smith and D. Denison, ends. Fred Marshall should be the best full back in the district. H. Davis should develop into a good back.

The Eagles were out-weighted in every conference game, but one that being the Burnett game. The teams average weight was 145 pounds.

Out standing men in the line for the season have been D. Kirby an end and Dale McCasland, hard tackling and good blocking tackle. Dale should be close to all district. D. Denison, Floyd McKenzie co-captain and best center in the district, he has played every minute in every game the last 2 years. Last year he was voted second best center in the district, if he missed all district this year, something will be wrong with some ones choice.

In the backfield, Capt. Clark Davis Q.B. and spark plug of the Goldthwaite team, has been outstanding and should make the all-district team. He has done almost all the passing and punting and a large per cent of the ground gaining. He has made 8 touchdowns during the season and been on the throwing end of several more. H. Shaw, smallest man on the team and the best blocker in the backfield, Charles Hill, a good back held down by an arm injury, which happened early in the season.

Fred Marshall, largest man on the team, full back, good block and plenty of power.

O. Harvey, fastest man on the team looked good in the San Saba and Star games.
 Boys who played enough to earn letters this year are: Clark Davis, Floyd McKenzie, Fred Marshall, Dueran Kirby, Dale McCasland, Darwin Denison, B. Hunt, G. Armstrong, G. Ballard, H. Shaw, W. Hill, O. Harvey, B. Kuykendall, Sumpter Gerald, H. Davis, Aubrey Smith, Marvin Hodges, Garth Carter and H. Faulkner, manager.

Boys who started out and stayed out all season and who are due a lot praise are: John Bowman, Sterling Barton, Stoddard Gerald, Mark Fairman, J. M. Stacey, R. McDermott, F. Simpson, F. Frazier, Fred McKenzie and Bill Saylor.

FIRST "FAN MAIL"

The editor of the "Herald" received a very complimentary letter last week concerning this publication from Mr. S. E. Pass, principal of the College Heights Elementary School in Abilene. Mr. Pass graduated from Goldthwaite High School in 1924, and has continued to keep up with the progress of the school since then. He said:

"Each week I read with interest your school news in the Goldthwaite Eagle. You and your corps of helpers are to be commended upon this excellent page. It is a fine thing, both from the standpoint of the school and the community."

Your letters, criticisms, and suggestions are appreciated by the staff. It is hoped that others will be received in the future.

GRAMMAR SCHOOL REPORT

Last week we started having reviews for our four weeks tests. Seems like instead of having them every month, we have them every week. That's because it seems the months are passing so fast. Oh well! I guess these will soon be over and then we start all over again.

Oh yes! assembly for last week we had a different kind of assembly. It was the Goldthwaite High School band, conducted by Mr. Damron. The pieces they played were: Rosebud, Madelin, Vasil, Lillian, Kukla, Mischa and Salvatore.

They were all played very well. I guess that would be called a "musical assembly." Here's hoping they play again real soon. Oh yes, I forgot to say we have tests the 29th and 30th. Woe is us. They may not be so hard though, we hope not.

GLEE CLUB

At the Parent-Teacher Association next Tuesday, December 3, the Glee Club will make its first appearance of the year, singing, "O Peaceful Night" and "In the Luxembourg Gardens." The Christmas songs which are being taught will be presented at a later date.

EXTEMPORANEOUS SPEECH CLUB

The Extemporaneous Club has completed, for the time being, its study and discussion of the recent special session of the Texas Legislature. A number of good speeches on that subject were given in the club and before Miss Love's history classes. President Roosevelt's western tour is under consideration at

How To Have The Home You Want

The primary purpose of the National Housing Act is to provide an opportunity for the American people to have homes—by freeing bank credit to finance new homes.

This financing plan does away with old time mortgages which had to be renewed every so often, the new plan gives you 30 years to pay, with a very very low rate of interest.

You can build the home you desire and pay for it like rent, for as low as \$10.91 a month.

For particulars on this great housing act. Let us investigate.

CENTER POINT

The faithful few were at Sunday School Sunday morning and singing Sunday night.

The school children were dismissed last Wednesday afternoon until Monday morning for the Thanksgiving holidays. From all accounts everyone lived over Thanksgiving alright. Some of us may have thought "What have I to be thankful for." If we will just take time to think we have lots to be thankful for. One thing that we all should be thankful for is such a wide read, splendid country paper.

LOCAL FORD DEALER DEMONSTRATES NEW CAR

Ford V-type 8-cylinder cars for 1938 go on display today in Ford dealer showrooms throughout the United States. They are offered this year as two distinct lines, differing in appearance and price. Both are in the lowest price field.

Powered only with the 85 horsepower V-8 engine, the line includes eight body types, the coupe, Tudor and Fordor sedans, as well as the club coupe, convertible cabriolet, club convertible cabriolet, convertible sedan and the phaeton.

DOUGLAS YANCY FOX

In the passing of Douglas Yancy Fox this part of the state loses one of its pioneer citizens. He came to Austin, Texas from Virginia on one of the first immigration trains on April 1, 1872. At that time he was 21 years of age. The next year he moved to Lampasas, Texas, where he spent the next ten years of his life.

He was married to Nora Toland on March 1, 1882 and soon thereafter they made their home on a farm on the Colorado River.

When the town of Goldthwaite was established in 1885, he attended the sale of lots and always had a deep interest in the future of our city. So deep was his interest that in a few years he and his family moved to Goldthwaite making this city his home for the last 44 years of his life. He was active in every worthwhile enterprise that sought the welfare of the people and was a familiar figure in the town and surrounding territory. He united with the Methodist Church of Goldthwaite in 1893 and was a faithful member to the end of his life.

Mr. and Mrs. Fox had six children, four of whom are still living; as follows: Mrs. B. D. Chapman, Mrs. C. A. Eacott, Roach Fox and James T. Fox, all of Goldthwaite.

The following quotation from a letter written by Willie Mellon, a boyhood friend of the Fox family, indicates something of the reason why he was held in high esteem. "Douglas is the only fellow of that country round about whom I can recall to mind as having been entirely guileless and at peace with all persons and himself. He knew no ill, acted none and never spoke enviously of anyone.

FINAL THOUGHT
 What we bury here today
 Is the outward robe of clay,
 But the flesh that fought in vain
 'Gainst Life's never-ending strain
 All that fretted him is gone,
 All we loved in him lives on.
 At the grave where now we grieve,
 All that erred and failed we leave,
 Like a coat that can't be matched
 Grown too threadbare to be patched.
 Though he viewed it once with pride,
 Now the flesh is put aside.
 Sleeping? Yes, to wake again,
 Done with suffering and pain;
 Wake to wear with greater ease
 Longer, lasting robes than these.
 This the body was the thing
 Which contrived his suffering.
 What we loved in him shall be
 Growing still in memory
 Here we place for evermore
 Every hurt and pain we bore;
 Nothing else from life has gone;
 All we loved in him lives on.

RAILROADS AND NEWSPAPERS

The railroad industry has applied for permission to raise freight rates 15 per cent, because its revenues are not sufficient in these days of higher costs and wages to pay expenses and leave an adequate amount over for improvement and expansion.

In asking this permission, the railroads want to do only what most unregulated businesses have already done. For example, newspapers all over the country have been increasing their single copy prices and in some cases their monthly or annual subscription prices. Increased production costs make this necessary.

The railroads are in the same position as these papers. Everything the lines use costs more than it did a year or two ago, even as a newspaper's main source of expense, newsprint costs more than it did. And, like the newspapers, the railroad's only source of operating income is from the sale of their service—in one case, transportation; in the other, advertising and news.

Whenever a regulated industry asks permission for rate increases, the average human reaction is to protest at once, and hope that it will be denied. But a railroad isn't any different from a newspaper or a real estate agency or a grocery store or a specialty shop. It is governed by the same economic laws. And when outgo exceeds income, it must raise its prices or go bankrupt.

EMPLOYMENT AT PEAK

Notwithstanding the recession in industrial activity, the number of persons employed in the United States rose from 42,288,000 in August to a new recovery high of 42,484,000 in September, according to the Alexander Hamilton Institute. While factories, railroads and the building industry reported a curtailment of employment, decreases in these lines were more than offset by increases in employment, on the farms, in wholesale and retail trade establishments and in coal mines.

The gain in employment from August to September was more than sufficient to offset the increase in the supply of workers as the result of the growth of population. Consequently, the number of unemployed persons declined from 9,181,000 in August to 9,015,000 in September, a new low for the recovery movement.

Although the downward trend of unemployment is likely to occur before the end of the year as the result of the prospective continuation of the recession in industrial activity. The seasonal increase in retail trade employment will be an offsetting factor. In January, however, after the holiday season is over, unemployment is expected, as usual, to show a substantial increase.

TAX REVISION

It has long been the opinion of business leaders and economists that revision of the federal tax system is essential to the eventual achievement of sound prosperity. Now that belief is making headway in the high places of government. Motivating cause is the business recession which, in the view of all the experts, was largely the result of our chaotic fiscal policy.

Secretary Morgenthau's recent utterances marked what many hope to be a new and more realistic approach to the problems of taxation. Mr. Morgenthau advocated balancing the budget by reducing expenditures for relief, highways, public works and agriculture. He further advocated broadening the tax base. And he intimated that there must be revision of certain special taxes which are worrisome and detrimental to business and investment.

At the opening of the special session of Congress, the President likewise touched on the gravity of the tax problem and the need for revision.

As Representatives O'Connor, Chairman of the important House Rule Committee, said a few days before the special session opened, Congress should grant tax relief at once, instead of waiting for the regular session. He added: "If the Ways and Means Committee came in with a tax bill changing the capital gains and corporate surplus taxes, the reaction would be tremendous. The psychological effect would be tremendous. I'm going to do all I can to build up the idea."

The WEEKLY CONSTITUTIONAL by MAX BERNS

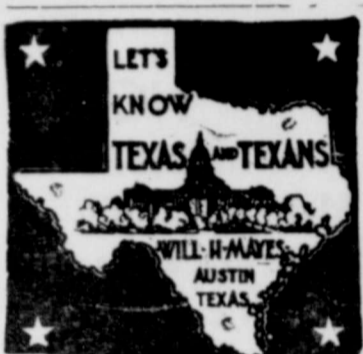

Independence of Congress

Why does our Constitution give the legislative or law-making power to Congress only and make Congress separate from and independent of the President?

Andrew Jackson once said, "It was a leading object with the framers of the Constitution to keep as separate as possible the action of the legislative and executive branches of the government. To secure this object, nothing is more essential than to preserve the former from all temptations of private interest, and therefore so to direct the patronage of the latter as not to permit such temptations to be offered. Experience abundantly demonstrates that every precaution in this respect is a valuable safeguard of liberty, and . . . my reflections . . . incline me to think should be made still stronger. . . ."

Constitution protects us against the autocratic concentration of power in one man or one group of men. Copyright 1937 by Max Berns

In this column answers will be given to inquiries as to Texas history and other matters pertaining to the state and its people. Address inquiries to Will H. Mayes, Austin, Texas

Q Did Cortes plan settlement of the Rio de las Palmas country?

A. In 1526, not knowing of previous grants to Guzman and Narvaez, Cortes wrote the King of Spain that he had heard (no doubt from Garay) that the Rio de las Palmas section was a good land with a good port and that he was planning to explore from Panuco to Florida, already having a good number of settlers for the Rio de las Palmas. Other interests kept him from following up his request to be allowed to serve the king in this way.

Q How did the Narvaez explorers equip themselves for continuing from Florida to the Texas coast?

A. They built five frail barges, each about 35 feet long, into which the 242 survivors were crowded with whatever supplies remained. Using their shirts for sails and manes from the horses tails and manes for making rope they started again in September, 1528, in quest of the magic land of riches.

Q When and where did the Narvaez survivors reach the Texas coast?

A. Two of the barges were swept ashore, November 5 and 6, 1528, on Galveston Island, some of the men naked, and all nearly dead. One vessel was washed out to sea. The other wreck was rigged and four men boarded it in an attempt to get to the Panuco for relief. The other barges were carried down the coast to Matagorda Bay, where two were lost at sea, and Narvaez was drowned, only one member of that party surviving. The fifth vessel was destroyed near Aransas Pass, where the few who escaped to shore, too

weak to resist, were killed by Indians.

Q How long was Cabeza De Vaca held captive by Galveston coast Indians and how did he manage to survive.

A. He was held a captive slave for six years and his life was spared because the Indians believed him to have powers as a medicine man. Lope de Ovideo was held captive on the Island, also a slave, afraid to attempt escape from his wretched situation for what might prove worse. De Vaca was unwilling to try to get away without Ovideo, and it was not until 1534 that they left together.

Q What route did de Vaca take when they escaped from the Galveston coast Indians.

A. They followed the coast west as closely as possible, making friends as they went by healing sick Indians they encountered and eagerly searching for other survivors of whom they received vague reports along the way. In despair Ovideo finally turned back. Two days later de Vaca found Alonzo Castillo and Andres Dorantes and his Moor slave Estevanico (Stephen), near the mouth of the Guadalupe.

YOU CAN'T PASS THE BUCK

Few of us have any adequate realization of the amazing progress that has taken place in making our modern automobiles mechanically safe. Inventors and engineers have literally shot the works, all the way from major improvements in brakes and bodies, to relatively minor safety additions such as the elimination of projections on instrument boards.

Similar progress has taken place in highway design. Non-skid surfaces have been applied curves made into straight-aways hills flattened, and turns banked with slide-rule accuracy. And what are the results of all this expenditure of time, money and ingenuity? A soaring accident record, and a death toll that approaches the 40,000 mark annually.

The motorist can't pass the buck. Individual carelessness, individual incompetence, individual ignorance—these are the prime causes of accidents. The most withering commentary that can be made on our driving habits is the fact that the great bulk of fatal accidents occur on good modern roads, under favorable weather conditions, and involve cars in excellent mechanical condition. The proportion of accidents that are honestly caused by mechanical failure of vehicles or bad roads is microscopic.

Figures indicate that the 1937 toll will be even greater than the all-time record established in 1936. The most dangerous driving months are just ahead, bringing with them shorter daylight hours, and snow and ice and rain. There is a very definite chance that you or one of your family will be the victim of a reckless motorist—or that someone else will be the victim of your driving. We will never reduce the accident toll until

Strength During MIDDLE LIFE

Strength is extra-important for women going through the change of life. Then the body needs the very best nourishment to fortify it against the changes that are taking place.

In such cases, Cardui has proved helpful to many women. It increases the appetite and aids digestion, favoring more complete transformation of food into living tissue, resulting in improved nutrition and building up and strengthening of the whole system.

YOU CAN THROW CARDS IN HIS FACE ONCE TOO OFTEN

WHEN you have those awful cramps; when your nerves are all on edge—don't take it out on the man you love.

Your husband can't possibly know how you feel for the simple reason that he is a man.

A three-quarter wife may be no wife at all if she nags her husband seven days out of every month.

For three generations one woman has told another how to go "smiling through" with Lydia E. Pinkham's Vegetable Compound. It helps Nature tone up the system, thus lessening the discomforts from the functional disorders which women must endure in the three eras of life: 1. Turning from girlhood to womanhood. 2. Preparing for motherhood. 3. Approaching "middle age."

Don't be a three-quarter wife, take LYDIA E. PINKHAM'S VEGETABLE COMPOUND and Go "Smiling Through."

HISTORY OFFERS LESSONS

As a spokesman for independent retail merchandizing recently observed, "Almost every attempt to tax the chains out of business has resulted in additional taxes being placed upon the independent grocer." In at least one state, the authorities construed a so-called "chain store tax law" to cover independent grocers who banded together to effect certain economies in operation.

History is a hard teacher. And history shows that whenever one group attempts to penalize another group in order to gain supposed benefits, trouble follows.

It is an encouraging fact that level-headed representatives of independent merchandizing in this country, are opposed to attempts to excessively regulate or punitively tax any kind of stores. In this case of the grocery industry, as one of these repre-

sentatives has said, they are for them to put the chains out of business—that is, to merchandise them. Independent store offers products at lower prices, an appealing service, or attractive displays and advertising. The chain store next door soon have a "for rent" sign on its door.

Both chains and independents in America are following similar trends. Through buying combinations, they are cutting prices. They are using group buying and handbill advertising. They are both taking advantage of every new innovation in equipment and technique. They are on their toes to outdo competitors in pleasing the customer. The result: Both types of stores, as a whole, are prospering and growing—and the consumer who is by far the most important element in the picture, the benefits of honest competition.

BIG PECAN CROP LOWERS PRICES

The 1937 pecan crop is estimated at around 34,400 tons or seven per cent more than the 1932-36 average production, by the Bureau of Agriculture Economics in its annual outlook report issued from Washington.

In view of advances being made in Texas and Oklahoma, the Bureau said "over the next few years a small rate of increase in total production seems likely together with an increase in the proportion of improved varieties."

Southwest Improves Trees
"It is known that in the states east of the Mississippi River there have been both considerable neglect of orchards and thinning out of those orchards which are receiving good care," the report observed.

But in Texas and Oklahoma, it continued, a great deal of top-working of wild and seedling trees with improved varieties has been carried on, some new groves of improved varieties have been planted, and there has been extensive thinning of native stands to increase their productivity.

"On the whole, these factors would seem to point to a slightly upward trend in production and to an increase in the proportion of improved varieties. The figures on actual production over the last 10 years show an upward trend in the production of improved varieties but fail to show a perceptible trend in total production.

The estimated 1937 crop exceeds by 14,400 tons the very short yield of 20,000 tons last year. On the other hand, it is 18,600 tons below the record crop of 1935 when 53,000 tons were harvested.

The 1937 yield of improved varieties will probably be close to 10,200 tons, 11 per cent more than in 1936 and 26 per cent above the average for 1932-36, while production of wild and seedling sorts is expected to be in the neighborhood of 24,200 tons, well over twice the 1936 production, but still barely equal to the 1932-36 average, the bureau said.

Average Price 14.6 Cents
"The outstanding feature of pecan statistics continues to be the relatively low level of prices for improved pecans existing throughout the years from 1931 to 1936. The United States average farm price (Dec. 1) for the 1936 crop of improved varieties was 14.6 cents per pound, which is well within the range from 13 to 15.4 cents per pound prevailing since the 1931 season.

On the basis of a survey of pecan tree numbers and ages made in 1929, it was estimated that there would be 20 to 25 per cent more trees of bearing age in 1930 than in 1929.

Pecans have been selling at from six to 25 cents a pound here lately, offering a cheap addition to holiday menus.

LAMPASAS

Official notice was received by postmaster M. P. Adams a few days ago that the new Federal building for Lampasas will be located on the H. V. Campbell lots, across Second Street from the Keystone Hotel. This site was selected by the location division after considering all the locations and bids turned in.

The price paid for the lots was \$3,200.00. Nothing definite is known as to the time work will begin or the plans for the structure. It is known that \$75,000.00 was appropriated for the building several weeks ago.

According to A. W. Bales, government statistician for Lampasas County, there had been ginned in this county of the 1937 cotton crop, 2,339 bales as of November 1. This compares with 3,331 bales ginned at the same time a year ago.

Highway No. 74 is now open all the way from Lampasas to Lometa and since last week, the official opening following an acceptance of the road for Texas by division engineer Leo Ehlinger. The road was built from Ogles to the intersection of highway 66 at a cost of approximately \$88,000. The work was done by Fred Hall and Co. of Waco, under the supervision of S. H. Gullede, resident engineer.

This is an excellent highway now, well constructed and a wide roadbed all on the west side of the railroad, and all dangerous curves and turns eliminated.

Ten carloads, averaging around 25,000 pounds to the car, of dressed turkeys were shipped from Lampasas during the past week to reach the market for Thanksgiving. According to J. H. Clark, 15 cents per pound was paid for practically all the No 1 turkeys purchased, the price advanced.

The directors of the Lampasas Chamber of Commerce voted Friday afternoon at their meeting to purchase the flood lights to be placed on four sides of the square so the courthouse will be well lighted.

Mrs. C. D. Baxter died Monday, November 22, at 3:30 a. m. at the family home at Bend. While she had been in failing health for some time, she had been seriously ill but a few days when the end came.

BROWNWOOD

Jimmie Welch and Francis Knight, charged with theft of two tires from a construction company at Goldthwaite, were arrested here Sunday afternoon by Deputy Sheriff Chester Avinger for Goldthwaite officers.

Although falling by only a narrow margin to realize a goal of 1,000 members this year, Brown County Red Cross Chapter reports the most successful roll call since 1929. To date, contributions and membership fees totaling \$734.36 have been paid, with reports from several committees still lacking.

District Judge E. J. Miller has set Monday, December 13 as date for a new trial for Tol G. Beckham, Zephyr, charged with murder in connection with the fatal shooting of Raymond Thompson, 23, at Zephyr, on June 30, 1936.

A jury found Beckham guilty in a trial here last December and sentenced him to 20 years in the penitentiary. The case was reversed by the Court of Criminal Appeals in Austin.

BREAD CRUMB RECIPES

Are you a bread crumb collector? Most housewives will testify that they are all too efficient in this respect, and that old bread has an unhappy habit of filling all available storage space.

Here are a few solutions to the problem. Crumbs made from buttered toast must be used at once or they'll become rancid, and whole wheat bread should be dry before it is made into crumbs or it may mold quickly. With these instructions as a beginning the recipes come next.

Honey Fig Pudding
(6 servings) Add two beaten eggs to one-half cup honey. Mix in one-half cup whole wheat

bread crumbs, one-half cup chopped figs, one-half cup chopped pecan meats, and one-half cup flour, sifted with one-fourth teaspoon salt and two teaspoons baking powder. If the mixture is too dry, add one or two tablespoons milk or orange juice. Pour into greased baking dish and bake 30 minutes in a moderate oven (375 F. to 400 F.). Serve with cream hard sauce.

Cream Hard Sauce
Cream one-fourth cup butter. Add gradually one cup powdered sugar, one-fourth teaspoon vanilla, and one-fourth cup heavy cream. Beat until stiff.

Brown Betty
(6 servings) Pare and core two apples and peel three bananas. Cut into thin slices and sprinkle with three tablespoons lemon juice. Fill a greased baking dish with alternate layers of buttered toast cubes and fruit, having three layers of crumbs and two layers of fruit. Sprinkle each fruit layer with one-fourth cup sugar, a pinch of salt, and one-fourth teaspoon cinnamon. Pour in one-half cup water. Cover and bake in moderate oven (375 F.) for 20 to 30 minutes. Remove cover and continue to bake until apples are tender. Serve with lemon sauce.

Lemon Sauce
Mix one tablespoon and one cup sugar. Add one and one-half cups boiling water, stirring constantly until thick. Cook ten minutes. Remove from heat and stir in one cup of sifted pumpkin, one-half cup honey or brown sugar, three cups rich milk, one-fourth teaspoon salt, one-half teaspoon ginger, one-half teaspoon cinnamon, dash nutmeg, one tablespoon orange juice, and two tablespoons melted butter. Pour into greased pan and bake in a moderate oven (375 F.) for one and one-half hours. Serve with Butterscotch Sauce or with Hard Sauce.

Butterscotch Sauce
Mix one cup brown sugar, one tablespoon cornstarch, and one-fourth teaspoon salt. Add one and one-half cups boiling water. Stir until thick. Cook five minutes. Remove from heat. Add one tablespoon butter and one-fourth teaspoon vanilla.

MRS. R. E. ROSS DEAD

Mrs. R. E. ROSS, who had been critically ill for a long time, passed away at 10 o'clock Sunday morning at the home here. Mrs. Ross had been in failing health for number of years and had been given every possible care. More than a year ago her condition became such that attending physicians despaired of any treatment benefitting her. From that time all the members of her family have been in constant attendance upon her. She was a cheerful, loving wife and mother despite her affliction and her going will sadden the lives of all who loved her. She had been a member of the Primitive Baptist Church for

many years and was a conscientious Christian woman. Her husband and children were at her bedside and had watched over her and used every method known to ease and relieve her suffering, but to no avail. Funeral services were held at 2:30 Tuesday afternoon at the Methodist Church with Bro. Reed of Brownwood who had been a former pastor in charge of the services. He was assisted by Rev. F. J. Brucks of the Methodist Church and Rev. F. E. Swanner of the Baptist Church. The pall bearers were: Joe A. Palmer, Duke Clements, J. A. Holland, Sid Eaton, W. T. Keese, J. N. Keese.
