CITY COUNCIL EMPLOYS ELECTRICAL ENGINEER

Interest Growing In Monthly Trades Day

The largest Trades Day Goldthwaite has ever had was Monday taking advantage of the numerous feasting merchants and citizens had prepared for.

Petition Asking Electrical Power Presented Council

A large group of the leading citizens and businessmen of the city met at the Court House Monday night and presented a petition with 266 signers to the city council demanding that they take immediate action to make arrangements to receive and distribute electrical power that is going to be available from the government-owned Buchanan and Inks Dams.

The council was very receptive to the request and are apparently going to make every effort possible to comply with the wishes of the people in this matter. A committee of seven was appointed and approved by the city council to assist them in this work.

Future Farmers To Hold Meeting

Only Thursday, August 11, at 8 p. m., in the Vocational Agriculture class room, the F. F. A. Chapter will hold its only meeting of the summer to make arrangements for their annual encampment, which will be held on Brady Creek, near Brady.

This encampment will be the second held by the schools in this Federation, which includes Cherokee, San Saba, Lometa, Lampasas, Brady, Rochelle, Richland Springs, and Goldthwaite. Lampasas will have Vocational Agriculture next year for the first time, but boys who intend to enroll in Vocational Agriculture in September will be invited to attend this encampment.

There will be plenty of entertainment at the encampment and contests will be held in such sports as swimming, diving, play ground ball, horse shoe and washer pitching, and chinning the bar.

The exact dates have not been set for the encampment, but it will be during the third week of this month. The dates will be announced at the meeting.

Last year, 36 local boys attended and all had a fine time. This year we are expecting an even larger attendance and a better time.

Colorado River Bridge Open to Public

According to information received Wednesday afternoon by Mayor H. G. Bodkin from Highway engineers at Brownwood, the Colorado River Bridge on highway 81 between Goldthwaite and San Saba would be open to light traffic the latter part of the week and that gravel was being placed on the approaches where it has been so muddy. This will be greatly appreciated by both Mills and San Saba counties as heretofore to reach San Saba was almost a day's drive around by Burnet, Llano, etc.

The opening of this bridge is merely a courtesy of the highway department and everyone is asked to respect it by keeping out of the way, so as not to hinder construction work on the approaches to the new bridge now under construction.

Lions Club Held Regular Meeting

The Goldthwaite Lions Club held its regular meeting Tuesday evening in the dining room of the Methodist Church. A fine dinner was served by the ladies of the Missionary Society. The program consisted of a round table discussion of various subjects which was enjoyed by all present.

The club voted to hold the next meeting in the form of a picnic or watermelon supper and to bring the wives. Remember the date, August 15.

Grocery Company Opens Store Here

A new grocery store, the Farmer's and Rancher's Supply House, opened their doors for business Saturday. The store is located in the A. J. Harrison building next door to Steen's.

Mr. Lamkin of Brownwood, is manager of the new establishment and Clyde Tate, an experienced market man is in charge of the meat department. Opening day there was a large crowd thronged the store all day and a splendid business was done.

Star Church of Christ To Hold Revival

The Church of Christ of Star, will begin a meeting Aug. 5, and will close August 14.

Brother Forrest R. Waldorf from Coleman will do the preaching, and Damon Smith of San Saba will direct the song service.

Everyone is invited to attend.

Nazarene Church

We are always glad to have our friends visit with us, and for the past few weeks we have been enjoying the presence of a number of them in our regular services.

Sunday at the evening hour, Luther Tyson will bring the evening message. On last Sunday morning Luther preached at the Nazarene Church of Temple, his father's first pastorate, and where Luther attended his first church service.

We had a splendid day over last Sunday and we will be glad to welcome you at all services Sunday.

Correction

In last week's issue of the Eagle in the political returns, the name of J. J. Witty appeared under Constable Precinct 2 and should have been under Justice of the Peace, Precinct 2. These are two separate offices and we are glad to make this correction as J. J. Witty was running for Justice of Peace, Precinct 2 unopposed.

Goldthwaite Band Nets \$69.05 from "Cake Walk"

Tuesday night at 7:30, the Goldthwaite Band under the direction of D. W. Diserens of Gatesville, gave a concert at the bandstand on the square, to several hundred enthusiastic boosters who gathered to hear them and to participate in the "Cake-walk" which was given for the benefit of the band.

The street in front of the Court House was blocked off in order that the crowd could gather for the fun. Four tables centered with cakes to be won by the holder of the right number were kept busy as the cake-hungry band boosters continued to walk. The 65 cakes which were given on this occasion were made by townswomen who backed the band.

Those in charge of the "cake-walk" were highly enthusiastic over its success. The plan cleared \$69.05 which will be used at the discretion of the Chamber of Commerce for taking care of the financial needs of our up-and-coming band.

4-H Boys Wildlife Conservation Encampment

Jack Eaton and Herbert Rothwell of Mullin and Foy von McCasland of Center City were fortunate to be awarded free trips to the Wildlife Conservation Encampment at Rockport, July 20-32. This meeting was sponsored by the Western Cartridge Company, who paid all expenses of the camp. The camp was under direction of L. L. Johnson, State Boy's Club Agent, District Agents and Specialists from A&M College, officials of State Game, Fish and Oyster Commission and Local Game Wardens.

4-H Club boys and officials and County Agents brought the enrollment to more than 100. Lectures on Conservation of wildlife, management of game demonstrations, organization of game preserves and good sportsmanship, interspersed with swimming, boat riding, gathering shells, visits to Aransas Game Preserve and St. Joseph Island and an excursion along the Gulf shore kept the boys busy every minute of the three days.

Everyone was greatly interested in the lecture on "Our Friends The Birds," by Mrs. Jack Hegar of Rockport. Mrs. Hegar also went along with delegates to gather shells and came back to the camp for another lecture on "Shells."

The Western Cartridge Company is to be commended for giving the boys and leaders this opportunity to study methods for restoring the desirable species of wildlife, some of which are now approaching the vanishing point. Plans are under way to make the camp an annual affair.

First Baptist Church E. E. DAWSON, Pastor

"John's Birthday Wish" will be the sermon subject next Sunday morning at the worship hour, 11:00 o'clock. A suitable theme will be presented at the evening hour, eight o'clock. Observe the change in time; back to eight, instead of a quarter of an hour later as we have been running during the summer months.

B. T. U. will meet at 7:00 next Sunday evening. We hope for a representative attendance this week. Get ready, young people, for a week's study in B. Y. P. U. work.

CAUGHT 6-LB. BASS

Dow Hudson, local fisherman, caught a six-pound bass at Lake Merritt Sunday, July 31.

50 Chairs Bought For Auditorium

Through the combined efforts of the senior class of last May and the Parents-Teacher Association, fifty more chairs have been added to the project of seating the school auditorium. Plates bearing the names of each member of the senior class will be attached to these chairs, thus serving as a memorial to that student.

This is a project that has been carried forward from year to year by the senior class with the help of the Parent-Teacher Association and various individuals and business institutions.

When fully seated the auditorium will hold four hundred-fifty chairs, exclusive of the stage which provides seating space for fifty people.

The seating project should be completed in two more years.

Goldthwaite Band Tours County

Tuesday a six-car cavalcade carrying the Goldthwaite Band and several of its boosters toured the county advertising the band concert and cake-walk which was held Tuesday night.

The group consisted of 36 members led by Billie Saylor. They left early in the morning, and visited Mullin, Star, Priddy, Indian Gap and Center City and invited citizens in each place to be in Goldthwaite for the special occasion.

A stop was made for lunch and a watermelon feast at Center City.

Star Band Gives Concert Here Sat.

Rhinehardt Kluge brought his Star band to Goldthwaite Saturday afternoon and presented a concert in the band stand at 7:30 that night. A large crowd was out to hear the visitors and enjoyed their playing greatly. This band is strongly organized and has a large membership of over fifty members.

Army to Stage Mock Battles Near San Antonio

FORT SAM HOUSTON, Texas, Aug.—What would happen if the Southwest were invaded by a foreign army, and the citizen soldiery of Texas and Oklahoma were called to the colors in defense of their native land?

The answer to this question will be revealed in the long awaited Third Army Maneuver which is to be held north of San Antonio on August 6 to 20. On a battlefield covering 273 square miles 26,000 soldiers in two evenly matched army corps will meet in bloodless combat, each firmly determined to drive the other out in defeat.

Commanding the Brown Corps will be Major General Frank W. Rowell, Regular Army commander of the famous Second Division. Major General Claude V. Birkhead, commander of the 36th (Texas National Guard) Division, will command the Blue Corps. The total strength will include 9800 Regular Army personnel, 15,381 Texas and Oklahoma National Guardsmen, and 1027 officers of the Organized Reserves—one of the largest military concentrations in the Southwest since World War days. Units of all three components will be assigned to each of the two opposing forces.

Although, in magnitude and importance, this maneuver will exceed all previous military exercises in the Southwest, there is nothing unusual about it from the Army standpoint. It is simply one phase of the Army training program by which military efficiency is maintained. The stage was set for this maneuver two years ago by the Third Army command post exercise at Fort Sam Houston in which a similar problem was dealt with, but in which no actual troops were involved. Each of the nation's other three field armies has held a similar field exercise, and this year it is the Third Army's turn.

But so extensive is the territory entrusted to the Third Army, it has not been practicable to assemble the entire personnel in one place. While 26,208 officers and enlisted men

In compliance with the request of the citizens of Goldthwaite, as voiced by their committee and petition, the city council, Wednesday, employed Wm. G. Morrison, consulting engineer of Waco, Texas, to prepare a report and make application to PWA for funds to buy and construct a municipal electrical distributing system.

Wm. G. Morrison Engineering firm, is the same firm working on the Rural Electrification of Mills county and of course will be of benefit to the city of Goldthwaite and Mills county citizens.

Mr. Morrison stated that a staff of his engineers would be in Goldthwaite in the next few days to study the situation with the users of electricity and will call at each home to see what appliances each user has in service. Your cooperation with the engineers in securing this data will help greatly.

Every person who is able, should cooperate in this undertaking and sign-up for this rural electricity, for the money is available to light up the entire county if the citizenship will do its part.

Our "Adam and Eve" contest is creating quite a bit of interest in our Church School. The "Eves" are now in the lead but the "Adams" had the highest score for last Sunday. Let us make Sunday a big day in our Church School.

Eagle Athletic Field Nears Completion

A long dream, that of an athletic field in the Goldthwaite high school grounds is about to be realized. Ten more days of working time will see the present WPA project well nigh complete. This will mean an athletic field large enough for football, baseball, track, and all other school games, well graded as for drainage, levelled for playing purposes, and covered with eight inches of soil free of rocks or gravel. With the completion of this project the local high school will be in position to stage many athletic contests at home where heretofore it has been necessary to play away from home. Also it will mean that regular athletic practice can be carried on right on the school ground, thereby eliminating the loss of time, inconvenience, and danger that had to be incurred when this practice was conducted all the way across town from the school ground.

With the completion and equipping of this field the Gold-

thwaite high school will be in a position to take its place along with other schools of similar class, as San Saba, Brady, Comanche, Lampasas, and so on. If you have not looked over the improvement that is being made, Superintendent Smith suggests that you drive by and take a look.

Better Than Ever Casa Manana

Starring Wayne King and Orchestra and Morton Downey

Casa Manana, Fort Worth's glamorous production, got under way to a flying start in the big open air theatre Friday night, when, under a star spangled Texas sky, a large and highly enthusiastic attendance jamming the big amphitheater to the limits, witnessed the sparkling array of big time talent, presented by Music Corporation of America as the 1938 edition of this world famous attraction. Heading the initial program, which was declared more entertaining than any prior Casa Manana production, is Wayne King's orchestra, and Morton Downey, famed stage, screen and radio star, and both headline features made a decided hit with patrons, King's music, in particular, catching the fancy of the crowd, and Downey's pleasant manner plus his golden voice won instant acclaim.

Second only to the featured stars, and gaining even more spontaneous applause was the All Texas Beauty ensemble, presented in four spectacular dance routines. Appearing with the dancing beauties as soloist was Edna Sedgewick, famed dancing sprite from Hollywood, whose twinkling toes added much to the ultimate beauty of the whole presentation.

Other attractions appearing on the first program, and which pleased immensely, were the Three Nonchalants, knockabout comedians; Horton Spurr, bouncing dancer and comedian extraordinary; Serge Flash, novelty balancer; Peggy Taylor's adagio

UP THE LADDER TO FAME

NEW YORK—It took Ross McKee of the New York Daily News 35 minutes to climb to the top of the 700 foot Trylon on the grounds of the New York World's Fair 1939. Once up he squeezed out on a 14-inch ledge and took panoramic pictures of the Fair grounds and snapshots of the giant 200 foot Perisphere, the framework for which is nearing completion.

McKee was the first cameraman to accomplish this feat. He followed in the footsteps of steel "birdmen" who had just planted the U. S. flag, marking the finish of the steel frame of the Trylon.

Long Cove

By Mrs. Bill Manning

Our meeting closed Sunday afternoon. There were four conversions and several who rededicated their lives to God's cause. The rain of the week before prevented the first few services. Everyone enjoyed Bro. Scott's messages very much.

Our hearts were made sad Monday when word was passed around that Mrs. David Neal of Lometa and formerly of this community had passed away that morning. Mrs. Neal had been in bad health for some time. She will be remembered by her friendliness and cheerful ways. Funeral services were held Tuesday at Lometa where she was laid to rest. May God's blessings rest on the loved ones who are left to mourn her passing.

Tiana Godwin left Friday afternoon for Hobbs, N. M., where she has employment.

Mrs. L. R. Hereford's father, Mr. Shaw, has been visiting her for the past several days.

Eric Neely took Bro. Scott to Brownwood to conduct a funeral near there Saturday. They returned in time for the night services.

Mrs. Lela Gadberry spent the past week with her son, Farris and wife.

A Matter of Miscalculation

By IRVIN S. COBB

AS EVERYONE should know, the black and tan district of New York is Harlem. The negro population feeds, clothes and governs itself, of a darkish hue.

Now and again colored racketeers break loose and sort of shoot up the various by-ways of Harlem. To curb this bit of lawlessness the colored policemen are trained by white officers to combat and quell such outbreaks.

One of the first lessons given to these policemen had to do with running to cover when some gangsters opened fire on the world in general. "Remember," said the white officer, "when gangsters open fire they are trying to wing you. Therefore it behooves you to run to shelter so that you can observe and counter-attack. Now in making this break for cover, never run in a straight line. It would be easy for even a poor shot to hit you if he can train his gun on you long enough. So when you make this dash always run in a zig-zag fashion."

Sure enough in the course of the next week there was an outbreak among the Harlem blacks, and in the first skirmish one of the colored policemen was punctured in three places by three separate bullets.

The white officer soon visited him at the hospital the next day and commented as follows: "Well, I'm glad to see you alive and improving, but sorry to see you all shot up. Why didn't you zigzag like I tried to teach you?"

"Cap'n sir," said the negro, "that's perrackly what I did do, but J weekon de trouble wuz dat I zigged when I should have been zaggin'!" (American News Features, Inc.)

Increasing Profits by Cutting Costs

Farmers naturally want higher prices for their products, and should have them; but, as The Progressive Farmer points out, the average farmer seldom gets excited about a much more certain and easy way of getting larger profits:

"In practically all cases it is much easier to add to the farm income by reducing the cost of producing a product than by securing a better price. If the market price of cotton is 12 cents it is much easier to cut, say 2 cents off the cost of production than to add 2 cents to the selling price. Of course it does cost more to produce 300 or 400 pounds of cotton per acre than to produce 150 or 200 pounds, but even despite a higher acre cost, the larger yields are more profitable—300 pounds at 12 cents brings \$36, whereas 200 pounds at 15 cents brings only \$30. The easiest way of increasing the farm income from cotton is by increasing the yields per acre; by increasing soil fertility, using better fertilization and better farming practices generally.

"The agricultural colleges, experiment stations, national and state departments of agriculture, extension workers, and the farm press are often criticised by the thoughtless because they are seeking a larger production per acre, which is usually the easiest way to reduce cost of production. That we still know little about production is sufficiently proved by our yields per acre and average cost of production. Yields of 20 bushels of corn and 175 pounds of cotton per acre, and other crops on a similar level, which are the average or above, is all the evidence necessary to prove to any intelligent person that if we do 'know how

War a Crime that Doesn't Pay

Before reviewing the United States fleet in San Francisco Bay, President Roosevelt declared in a speech that this country is ready to join in efforts for "a definite reduction in world armament."

On that occasion, the war-minded powers were put on notice that the United States is preparing against any emergency but at the same time is hopeful the tragedy of world war can be averted. The President is keenly aware that the cause of world peace is in retreat today, but at San Francisco he voiced the hope "for the day when the other nations of the world will realize that their present course must inevitably lead them to disaster."

That statement showed the President is a student of history and that he realizes the militaristic leaders of other nations are not. It has often been said that ignorance is a main cause of crime, and the same proposition can be extended to war. The greatest trouble in the world to

produce, we don't put our knowledge into practice. Such yields per acre make it certain that the production costs are too high to afford a decent living to the producers.

Breeder-Feeder Association

to decide where it is going to be and get ready for sowing on the fall rains. Do we want the best prices for Thanksgiving and Christmas turkeys? The grain for fattening must be in the bin several weeks before marketing time. Does the land need a winter cover? Seed can usually be bought more cheaply ahead of planting season than when everybody wants them.

Nearly all farm families plan ahead to some extent, but too few take the time and trouble to work out their needs and the plans to meet them in definite form. Merely doing this and getting them down on paper is no job for a half-hour's casual conversation. It takes time to discuss, adjust, and work out the details, and there is no better time than the few weeks just about now. The first plan will usually be revised several times by study and discussion, and it is therefore a good idea to lay it aside for a few days while everybody thinks it over. Then bring it out and work it over at intervals until all its weaknesses are ruled out.

A great deal of help can be had from county agents, home demonstration agents, farm management plans. Call on them, get bulletins and study them, and go to the job as carefully and thoroughly as a manufacturer plans the construction and operation of his plant. This takes time and we can't start too soon; the time spent in planning is worth more than any other equal time.

Ellsworth Departs On Pole Expedition

NEW YORK, Aug. 5.—Lincoln Ellsworth, who says he would rather live on a desert than in a modern city, sailed early last week on the liner Europa for his Antarctic wastes.

The wealthy explorer, who has flown over both the South and North Poles, said he "never could stand" crowds.

"People who live in the wilderness have a sense of God," he said.

Ellsworth, after several weeks of hunting in Africa, will proceed to Capetown, South Africa, where he will meet his ship, the Wyatt Earp, about October 1.

Norma Shearer Turns Down "Scarlett's" Role in Picture

Thousands of fans begging Norma Shearer not to accept the role of "Scarlett O'Hara" in the picture "Gone With the Wind" have won out and Miss Shearer has said that she will not play the part. She was chosen to play "Scarlett" after nearly every feminine star in Hollywood had been tried except Shirley Temple. Miss Shearer has shown very superior judgement by refusing. The role is incompatible with her personality, and would lose her a host of friends.

An old Polish belief has it that no one can drown the night of June 23. The occasion is widely celebrated throughout Europe as St. John's eve. In pagan times in Poland the festivities honored the return of the sun, but today they hold their chief interest for unmarried girls. On that night girls throw garlands of flowers to their sweethearts, who row along in illuminated canoes. A popular superstition holds that the youth who catches a garland will wed the girl who throws it.

The fact that no ordinance has been passed levying taxes for the year 1938, and that assessments have been made and that the tax roll should be made, creates an emergency, and a public necessity, and renders it imperative and necessary that the rule requiring ordinances to be read at three several meetings be suspended, and the same is by unanimous consent suspended, and this ordinance is passed to its third and last reading, and passed and adopted by unanimous vote of the City Council of the City of Goldthwaite, Texas on this 1st day of August, A. D. 1938.

Signed,

FDR Stopped At Charles Isle

ABOARD U. S. S. HOUSTON, IN GALAPAGOS ARCHIPELAGO — Charles Isle, the one-time refuge of Baroness Eloise Wehrborn and her "court," was the anchorage last week of the cruiser Houston and its presidential party.

It was the first inhabited island of the Galapagos group which the Houston has visited since its arrival among the islands last Sunday. President Roosevelt did not go ashore, but members of his party explored the islands and took gifts from the president to the Wittmer family.

Gifts were sent to Heinz Wittmer, his wife, Margaret, and their three children.

The Houston was under way shortly before noon, headed for Gardner bay in Hood Island, a run of about four hours, where it was to anchor overnight.
