taxpayers voted on Saturday in the city's issuing \$45,000 bonds with which to install an electric system to current from Buchanan.

the vote was unusual for a city election, especially only those who own property for taxes could poll taxes could be used. The election was quiet and uneventful.

Mayor H. G. Bodkin, Alderman and Frank P. Bowman, general manager of the Lower Colorado River, were present. They found that the purchase of the system in 16 Texas counties to the Colorado River deal goes through. Goldthwaite will be necessary for the building a transmission line from Goldthwaite, probably to install a municipal system using CRA current.

Recall election is now in effect in the city for current year.

County Wild Association Met

40 members of the County Wildlife Association met on Saturday, Oct. 15, in District No. 1. A majority of the present reported from their previous meetings. They agreed to their covets and to the killing by hunters 60 per cent of the property. All protect and encourage the wild animal life and all wild life detri- ceps and valuable wild life were made by sev- eral present pointing out that wild house cats are destroying more and more combined. Several outbreaks of the county are be- lieved to have been caused by water by buzzards.

The Flapper Grandmother

"The Flapper Grandmother" will cavort across the Center City school house stage tomorrow night, Saturday, Oct. 22, in a three-act comedy sponsored by the Center City P.-T. A. Characters are supplied from local talent but the play is directed by Miss Katherine Thar- rington, a professional director of the Wayne P. Sewell produc- ing company.

You are invited to come and "laugh your blues away" in this two-hour riot of fun. A small admission will be charged.

### Reuben! Reuben!

Reuben, Reuben, I've been thinking  
What a funny thing 't would be,  
If instead of using stairs steps,  
You'd jump down more speedily!

It wasn't exactly in the words of this rhyme, but some thing like it that was said on the second floor of the court- house Wednesday morning by Willie Woody, but it cost him a dollar just the same. Tak- ing up a joking remark by Woody, Reuben Privett offered to bet that he could go from the second floor to the first floor of the courthouse without using the stairs. When Woody called him, Reuben clambered over the railing around the light well on the second floor and drop- ped with a mighty thud on to the tile floor below.

### Medical Meeting Well Attended

About 90 physicians attended the thirty-third annual meeting of the Fourth District Medical Society in Brownwood this week, according to Dr. J. M. Campbell who presided at the Open Forum at the noon hour Wednesday. The society is composed of phy- sicians in Brown, Mills and San Saba counties. A number of dis- tinguished guests addressed the meeting.

### Recent Bride Honored

As a courtesy to Mrs. Jesse C. Moreland, a recent bride, Mrs. Maston Pribble entertained Wed- nesday afternoon with a bridge party and miscellaneous shower.

Lovely dahlias and roses were placed about the reception room, and game appointments carried out the approaching hallowe'en season. Mrs. W. G. Saylor received a piece of Roseville for scoring high, and Mrs. Wayne Corne- lius, a pair of Mexican plaques as a low score prize. Both re- cipients very graciously presented their gifts to the honoree.

A lovely salad plate was served to the guests after which the hostess presented the honored guest with a shower of useful gifts.

The following guests were present: Mmes. Wayne Cornelius, Dave Clements, V. C. Bradford, W. G. Saylor, Rufus McKinney, and Misses Gertrude Johnson, Floyce Aileen Dickerson, Myra Johnson, Ima Lois Bayley, Char- lene Brim and Connie Saylor.

### Judge C. L. South Addresses Lions Club

In an intimate address over- flowing with good humor and plenty of sound common sense, Judge Chas. L. South, member of Congress for this district, ap- peared as the principal speaker at the Lions Club meeting Tues- day evening. He was introduced by Postmaster M. Y. Stokes, Jr. Judge South touched on Euro- pean conditions and then dis- cussed the farm program and its benefits to agriculture. He issued a word of caution regarding the fantastic pension schemes that are being proposed through- out the nation, stating that an overextension of the govern- ment's liberality would inevitably defeat the purpose of relief to the deserving. His speech was warmly applauded, and a num- ber of his listeners remained af- ter the program for further dis- cussion.

Following Judge South's ad- dress a number of guests were called on for short talks. They included R. H. Patterson, Mullin postmaster, and W. H. G. Cham- bers of Mullin, Mr. Lunsford of Coleman, who accompanied Judge South, C. J. Crawford and several local guests.

The meeting was held in the recreation room of the Metho- dist Church, and the ladies of the church served a delicious dinner preceding the program. Marsh Johnson and Judge R. J. Gerald were appointed to prepare the program for the next meeting of the club on November 1.

### Moreland—Dennis

Mr. and Mrs. J. Frank Dennis announce the marriage of their daughter, Madeline, to Jessie C. Moreland, Saturday night, Octo- ber 15, at eight o'clock, in a quiet home wedding at the Methodist parsonage. The cere- mony was performed by Rev. Fred J. Brucks with only a few close friends present.

The bride is a popular member of the younger set of this city and is a graduate of the local high school. She is employed at the Melba theatre.

The groom, son of Mr. and Mrs. H. E. Moreland, is also a gradu- ate of the local schools and is employed at Clements Drug Co.

This couple have a host of friends who wish for them a long and happy wedded life.

Following the ceremony the party was served refreshments by Mrs. Fred J. Brucks.

After a short wedding trip to Dallas and other points, Mr. and Mrs. Moreland are at home to their friends at an apartment in the home of his parents on Parker Street.

### Self Culture Club

The Self Culture Club met last Thursday in the home of Mrs. W. E. Miller, with Mrs. John Hester presiding.

During the business session, the club voted to give five dol- lars to the city library.

Mrs. J. J. Stephen, as program leader, opened the meeting with Miss Maggie Marie Hill singing two beautiful numbers, "Indian Love Call" and "The Sunshine of Your Smile."

With art, as the main topic, Mrs. W. C. Dew discussed "Ancient Mayan Art" and Mrs. J. C. Evans, "Modern Art."

Miss Inez Mayo, an artist of Brownwood, as guest speaker, brought a varied and beautiful exhibit of her own paintings which added much to the pro- gram.

During the social hour the hostess served delicious ice cream and loaf cake. Miss Inez Mayo and Mrs. O. N. Mayo of Brown- wood were out-of-town guests.

At the close of the meeting, the club enjoyed looking at some valuable pieces of art in the home of the hostess.—Reporter.

### Donkey Base Ball Game Next Tuesday

The laugh fest of the year will take place Tuesday night at the Goldthwaite high school athletic field when the Braying Batters baseball nine captained by How- ard Hoover cross bats with the Krafty Kickers led by Lamar Mc- Lean.

vided lights and seats for the field. Following is the unofficial line-up for the game:  
**Braying Batters:**  
Dwight Nickols, Rufus McKin- ny, Healy Ballard, Jimmy Fox, Jack Long, Dog Locklear, Har- mon Frazier, Spot Saylor, Jack McCarty, V. C. Bradford, and Howard Hoover.

### THE SENSIBLE WAY

Goldthwaite held an election Saturday. Although voting was restricted to taxpayers, there were three times as many votes as are often cast in a city election. But despite this record vote, there was no disorder or hard feeling.

This is a striking contrast to similar elections held in some of our neighboring cities. Credit is due the leaders on both sides for conducting a clean, fair campaign. The Community Public Service Co. is especially to be commended. With thousands of dollars at stake, it has done nothing to alienate the good will of Goldthwaite people.

And in fairness to both sides, let it be said that the vote of nearly five to one for the bond issue was not a vote of condem- nation of the present system. Since its reorganization, its rates and its management have been fair and aboveboard.

The citizens of Goldthwaite were confronted with the neces- sity of choosing between cheap, government-generated electricity and the fairly priced but naturally more expensive current pro- duced by the local company. While the savings to each individual customer will not be large, the aggregate saved by and for the community is too great to be refused. With other towns in this territory using cheap current, this city would be placed at a seri- ous disadvantage if it could not join them. That explains the one-sided vote.

In dealing with the power company, the city should make a fair offer for the power house of the Community Public Service Company. The company can move its motors and dynamos away. It cannot move the house. The city can use it profitably as a city hall and auditorium. An arrangement fair to both sides can be worked out, and The Eagle believes it will.

### Dope Favors Eagles In Crucial Game

#### Split Tax Payments Being Made Now

Payment of state and county taxes is now being received at the Tax Collector's office. Until November 30, those who desire may pay their poll tax and only one-half of their state and county taxes, the other half then not becoming due until June 30, 1939. There is no penalty when pay- ment is made by the dates speci- fied.

Each year more and more peo- ple are taking advantage of the split-payment plan says Joe Friz- zell, deputy collector. Those who pay in full may wait until the last of January to pay, although most tax payers prefer to pay earlier and avoid the last minute rush.

Mrs. F. C. Smith of Gold- thwaite was the first Mills coun- ty citizen to pay taxes for the new year. Her payment was made on October 5, and about 30 other payments have been re- ceived since then.

#### Weather Man Back On Job

After setting the weather to hot, dry and dusty, the weather man who fixes the weather for this section went off on a vaca- tion last month, and it looked for a while as though we were in for another hot winter.

Wednesday he came back to work, looked at his calendar, and set the weather up to date. Yes- terday was cool enough for fires, and a light drizzle gave hope that a real rain might be on the way.

### Letter Received From FFA Delegate

Following is a letter received by the Editor from Ellis Mahan, delegate from the local FFA Chapter:

Kansas City, Mo.  
October 17, 1938

Dear Mrs. Thompson:— I am certainly having a won- derful time here in Kansas City, and again would like to express my appreciation to the Gold- thwaite Chapter of Future Farmers of America for sending me to represent their school.

I think this is a trip anybody would remember for many years to come. There are boys here from 47 states, Hawaii and Puer- to Rico. I have met boys from nine different states and it cer- tainly is interesting to find out how different and yet how near alike we all are.

The convention here at Kansas City is getting larger each year and each chapter that sends a delegate helps to make it so. I hope that the Goldthwaite Chap- ter will try to send a delegate each year from now on. I think this trip is more educational than many days of school (and much more pleasant) even though we have to meet in ses- sions that sometimes last half a day.

The convention will last thru Friday but the Texas boys will have to leave here Thursday if they ride the special train to Fort Worth.

I hope to have much more to tell when I get home.

Sincerely,  
ELLIS MAHAN

### Big Valley H. D. Club

The Big Valley Home Demonstration Club met for its third meeting at the home of Mrs. Homer Weaver, Oct. 13, with Mrs. Floyd Weaver and Mrs. Homer Weaver as joint hostesses.

Our first meeting which was for the purpose of organization, met with Mrs. Hapgood on Friday night, September 16. The following officers were elected: Mrs. Floyd Sykes, president; Mrs. Cecil Shuffler, vice-president; Mrs. Alvin Oglesby, secretary; Mrs. Harvey Hale, council member; Mrs. Homer Weaver, reporter.

Our second meeting was with Mrs. Floyd Sykes. At this time a friendship quilt was started and Mrs. Sykes demonstrated her favorite cookie recipes.

We have a total of 21 members with 17 of them present at our last meeting and one visitor.

Miss Scott met with us at our last meeting and gave us a demonstration on coloring. We spent a very enjoyable as well as instructive afternoon in trying colors to see which were the most becoming to us. After the demonstration we were served lemonade and cookies.

Our next meeting will be an all-day meeting at the home of Mrs. E. D. Roberson each person taking a covered dish. We will meet on every second and fourth Thursdays of the month and Miss Scott will be with us each second Thursday. If you are not a member, we will be glad to have you join us.—Reporter.

### General Elections

Washington.—With the general elections only three weeks away political interest now centers on the outcome of the contests for 435 House seats and 33 senatorships. One survey, among newspaper correspondents and politicians, predicted Republicans will gain fifty seats in the House and four in the Senate. In regard to the general economic situation, many in government circles are keeping an eye on the price index—to see that prices don't soar too high and force a recession similar to the one just left behind. Insiders say, however, that no special legislation is in the wind to fix price levels.

By Mrs. Dora Goode

The sun still shines and the nights are cool and the days are hot. No rain for 76 days, but the creeks are still running like light-hearted spring-fed brooks, and some seeps are still oozing. It's been many a year since the creeks kept skipping along thru out the hot summer.

We've heard a fieldlark singing for a week or more, but the migration from the prairies of Wyoming hasn't reached us yet, though, no doubt, they left there the latter part of August.

The scissor tails, maybe have gone. I haven't noticed any lately.

An indication of recovery of industry in the animal kingdom, the skunks and possums are out already raiding and routing and spreading terror in the homes of our feathered population. Why, just the other night your reporter went out to investigate a disturbance at the chicken house,

and a hydrophobia cat scooted out right between said reporter's feet. No use saying what your reporter did, but after that the flashlight was out of commission.

Sunday schools and the everyday school are all going on nicely with good weather and good attendance.

Everybody's well and happy and everybody's trying to be good.

The Star football team was winner in the game on the Star grid last Friday between Star and Cranfills Gap. The score was 12-6.

Next Friday Lometa will play here. If you get to read this in time, come out and see the game.

Only recently Mac Schwartz and wife and his daughter and her husband, Mr. and Mrs. Scott, all of Arkansas were visiting among friends here. Mr. Schwartz used to live in the Cottonwood neighborhood.

Mrs. Henry Soules has gone to Odessa for a visit with her daughter, Mrs. Grady Henry.

The Star people were delighted with the program presented last Sunday night by little Miss Nettie Ruth Brucks and several of the ladies of the Goldthwaite Methodist Church.

Mr. and Mrs. Dan Waggoner of Center City were visitors in the home of their daughter, Mrs. Walton Moore, one day last week.

Mrs. Viola Chappell and daughter expect to leave this week in company with her father and mother, Mr. and Mrs. Clint Head of Center City, to attend the Annual Methodist Conference at San Antonio, and incidentally they will visit a sister who lives

THE HITLER IN US

Probably no man in the world today is more hated, feared, despised and, therefore, respected than Adolph Hitler, ruler of Germany.

Yet to most of Germany he is undeniably, a hero. In the brief space of five years he has advanced Germany from a defeated, defenseless nation to a proud and warlike state armed to the teeth and able by a mere show of force to annex ten million new subjects within the year.

What is it non-Germans oppose in Hitler? First are his ambition and acquisitiveness. Next his intolerance of race and religion. Then his ruthlessness towards all opposition at home and abroad. And finally his threat of achieving world dominance.

Yet these are the very traits that characterize the so-called successful man in England and America today. Consider any man who is at the top of the heap in our United States: Did he succeed without ambition? Did he refrain from grasping every opportunity his increasing wealth brought within reach? Has his attitude towards religion been better than that of patronizing contempt or icy indifference? Has he exploited members of the less privileged races and classes that compose our nation? Has his rule been less ruthless within its sphere than that of Der Fuehrer?

What about yourself? Are you living for what you can get out of life or for what you can put in it? Or are you putting your religious principles into practice in your daily contacts, especially with those less fortunate than yourself?

This is no apology for Hitler or Hitler's methods. But in our condemnation let us be competent and consistent judges.

THE POINT OF VIEW

A sense of humor is a decided asset to an editorial writer. Possibly the reason that so few editorials are ever read and still fewer are remembered is because of their usual deadly seriousness. This unmitigated seriousness often produces incongruous results.

In Sunday's Dallas News, for example, one editorial was a diatribe against the waste of generating electric current at Buchanan Dam. Of course Dallas is too far away to profit from the cheap current to be sold by the C. R. A., but the reader was not told that.

Check by jowl of the dam editorial was one on inland waterways in which the paper's blessing was once more bestowed upon the fanciful project of a navigable Trinity river or canal. Such a project would have been completed long ago by private capital if it were feasible from a practical viewpoint. If it is ever built, its initial cost and maintenance will far exceed that of Buchanan Dam, and, unlike the latter, none of the expense to the government will ever be returned in revenue. But the canal would help Dallas business interests therefore it is commendable.

An editorial writer with a sense of humor would not have carried two such editorials in the same issue of his paper.

GRADING WITH E'S

Boys and girls brought home brand new report cards from the Goldthwaite schools last week on which the grades were recorded as E for excellent, F for satisfactory and D for unsatisfactory.

This is another step forward from the old complicated system in which a numerical valuation of the student's mastery of each subject was attempted.

Superintendent Smith in inaugurating the new plan is bringing the schools closer to real life. When the school boy goes out and gets a job, his boss isn't going to tell him he is doing 88 per cent or 71 per cent or 100 per cent work. If he talks at all, he will tell him he is doing pretty good or fine or rotten. That is practically what the new school grades tell the students and their parents.

The system is simpler for the instructors, is fairer to the pupils, and easier for the parents to grasp. It is a change that is worth while.

Business Picks Up

NEW YORK, Oct. 20.—"Peace, it's wonderful." That is quite evidently America's reaction to the calmer international atmosphere, and to prove it, business and industry are chalking up some highly encouraging statistics. Almost 225,000 shining 1939 autos will roll off Detroit assembly lines this month, with orders for new models in some cases the best in 10 years. Enthusiastic buying last week boosted stock prices to new peaks for 1938. Activity in the nation's cotton mills is moving upward at a much faster pace than usual for this time of year. National income will rise \$5,200,000,000 in the second half of this year, the biggest jump in a decade, according to estimates.

"RISING TIDE"

In this distraught world so much of the news deals with the destructive forces of crime, war and greed, it is easy to overlook the fact that there is another side.

To report each week this other side is the purpose of this column. It deals principally with the personal experience of a rising tide of men and women who believe in God-control and whose lives are governed by the thought that if you want a new and better world, the place to start is with yourself. If you would like to meet or correspond with any of them, write to the Rising Tide Column, Goldthwaite Eagle, Goldthwaite, Texas.

Society is becoming more and more conscious of class "rights," of "Labor," of the need for adjustment. The "underdog" is having his day—but it isn't always the under dog who is mal-adjusted, or who is alone in his hunger for release. Miss Madeline Spafford, of New York City, discovered that it takes a good deal more than financial and social security to make life a bed of roses.

"I was raised with all the privileges," she said, "a college education, and the whole world before me to choose from. But still fears and self-doubtings held me back from making friends or succeeding in anything I tried.

"After college I tried music, recreational work, camp counseling without much success. I was adrift and couldn't find anything with real meaning.

Found Vocation

"I read a book on psychology which showed me I needed to find something into which I could sincerely throw all my energies, so I took a secretarial course. I found in this the thing I liked most to do but still there were fears of people and I was unreleased in many areas.

"While I was working at my first job I met some people of the Rising Tide in New York. I finally gave my life to God and finally did so. I found that He when I power to remove fear had the power of my life. Love completely out of love, love for my came in its place, and all the family, my friends, afraid of. It people I had been told. In the was a whole new world of friends. Rising Tide I found real life, for the first time in my life, to friends who loved me enough to share their lives with me and help me to find God.

"That was eight years ago. Through the years I have found more and more areas to give into God's hands, my singing, my career, my desire for marriage. With each new surrender has come a new sense of release until

THE AWFUL PRICE YOU PAY FOR BEING NERVOUS

Quivering nerves can make you old and haggard looking, cranky and hard to live with—can keep you awake nights and rob you of good health, good times and jobs. What you may need is a particularly good woman's tonic—and could you ask for anything whose benefits are better proved than famous Lydia E. Pinkham's Vegetable Compound? Let its wholesome herbs and roots help Nature build up more physical resistance and thus help calm your shrieking nerves, give more energy and make life worth living again. More than a million women have reported benefit—why not let Pinkham's Compound help YOU, too, to go "smiling thru" trying times like it has other grateful women for the past 3 generations? IT MUST BE GOOD!

God has finally taken me and shown me His vocation for me—that of being a secretary in the Spiritual revolution. Available for God

"He is using me in the lives of many other people, and in this way He is making me available to raise up other secretaries for him. I can see how the whole business permeated by a new spirit of honesty and love when secretaries stand uncomprehendingly for the absolute standards of Christ in their offices. It means refusing to do any dishonest thing. It means getting rid of jealousies and ill will.

Let's Try It "As the bosses learn from their secretaries, whole industries can learn cooperation and God-control from them, and we will find the answer to unfair working conditions, strikes, and bitter competition. It's never been tried before. Let's try it once!"

New Milk Cooler

Many dairy farms lacking satisfactory refrigeration have been confronted with the perplexing problem of how to cool milk in preparation for shipping. Several devices are on the market which give a solution, newest of which is a unit consisting of a pan-like aluminum cover which fits the top of the milk can and is equipped with a water motor and agitating shaft for stirring the milk. Water from the farm system operates the motor and then drains down over the outside of the can through perforations in the aluminum cover. Tests show that the milk temperature is lowered from 98 degrees to 58 degrees in 15 minutes with water of 52 degrees temperature.

Mrs. J. B. Rudd spent the week end with relatives in Goldthwaite.

Most everyone likes to see what he writes for publication escape the waste basket, even newspapers. Each week The Goldthwaite Eagle carries a page of news from neighboring newspapers including the Comanche Chief. We always feel that our last week's paper was not so good if Lampasas, Hamilton, San Saba or Brownwood gets more reproduced in The Eagle than comes from The Chief, but our chest swells out when Comanche gets the longest column.

## Wedding Licenses Illegal If Health Test Not Given

San Angelo—It may be merely a technicality, but it became evident today that many couples married here during the last year entered matrimony on marriage licenses issued illegally.

Bringing the revelation was announced at Austin by Attorney-General William McCraw that "health certificates for men applying for marriage licenses can be issued only after laboratory tests show the applicant is free from venereal disease."

Medical doctors here agreed today that laboratory tests proving conclusively that the applicants are free from venereal disease have not been given in many instances.

The physicians hastened to point out that the light in which many marriage licenses have been cast by McCraw's ruling cannot be blamed on the county clerk, who is obliged to accept the health certificates signed by the doctors at their face value. It is not his prerogative to check up on each certificate to see if complete tests, including Wasserman tests for syphilis, had been made. It would be impossible for him to determine that even if he sought to do so.

Approximately half of the applicants for marriage licenses here do not know at the time of filing their request that they must have a certificate from a doctor stating that they have been examined and found free of venereal disease and are physically fit for marriage. And approximately half of the applicants get their licenses the same day they apply. Often they apply, go to a doctor and return in 30 minutes or an hour with their certificate. Wasserman tests can be made in three or four hours if necessary but laboratories making the tests often wait several days to get an accumulation of orders before proceeding with the tests.

Originally the law requiring health certificates from men before marriage also specified that three days should elapse between the filing of the application and the granting of a license. This provision was directed at curbing "gin marriages" and permitting doctors to take plenty of time to complete laboratory tests. The three-day provision was stricken from the law when border counties, particularly, raised the cry that the marriage business was going to the county seats of neighboring states.—San Angelo Standard.

## MAHAN ELECTED DELEGATE TO FFA CONVENTION

In a chapter meeting last week a delegate was elected to go to the Future Farmer Convention at Kansas City. Ellis Mahan, who is the present chapter treasurer, was elected as the delegate.

He arrived in Fort Worth Sunday morning and boarded the special train to Kansas City. This train carried delegates from all over the state. He will stay in Kansas City a week and will arrive home Saturday. He will be expected to give a complete account of his trip when he returns.

The date for the Father and Son Banquet was set during the meeting, for December 2, which is the same date that the banquet was held last year. This date was thought to be a good one as it was a successful date last year. All of the members are looking forward to the banquet.

## PEP SQUAD

With the help of the band the pep squad was able to have a better formation at the Hico game than has been given this season. The formation consisted of two pinwheels which turned in step with the music of the band in the center of the field.

Though the campaign started last week, a number of new members were enlisted making possible the larger number in the formation.

We are hoping for even greater progress in co-operation with the band during the rest of the season.

## SOPHOMORE CLASS

The sophomore class is sorry to report that one of our friends and classmates, Billy Helene Smith, was taken to Brownwood for an appendicitis operation. We are hoping for a rapid recovery and that she will be back with us soon.

The Glee Club is progressing nicely. We selected Allene Ross as soprano for our trio.

We have decided to put on a Christmas pageant instead of a Christmas Contata. We will begin work on this soon.

## DID'JA KNOW? DID'JA?

So many peculiar things happen these days, especially on week ends and at football games. But in a column like this, only the select news is used.

We are all waiting for the big crash and have been for a week now, but nothing has happened.

Mrs. Marshall has given some people some very humorous ideas. Imagine Lee Ola and Thelma trying to find a definition for "spinsterish" in a dictionary.

And speaking of finding things, what little freshman is trying very unsuccessfully to keep his best girl friend a secret?

Did'ja Know, Did'ja? That several, or all public speaking students are ruing the day of the ambitious Caesar and honorable Brutus?

Again we have two questions of the week:

Number one—What junior did Cotton escort to the game with Hico?

Number two—What certain, particular, individual has been making some "terribly, arfle" threat about another certain someone?

We wonder just exactly why Lawrence has been showing such a bright smile lately; maybe he has a secret.

And, believe it or not, one boy has lately shown signs of being a "public enemy number 1,234,567,890!" He claims he has turned "kittnapper," as he calls it.

And to finish, there were three articles in the Copy Box this week. They would have sounded good in this column, but after close examination with a magnifying glass it was found that they were not signed, and therefore are now inhabitants of a waste basket, and they jumped in mighty quick, too.

## EAGLES PLAY SCORELESS GAME WITH HICO TIGERS

Last Friday night the Goldthwaite High Eagles played the Hico High Tigers in one of the hardest fought games of this season. Although neither team succeeded in crossing the goal line, both the Eagles and the Tigers went into scoring territory.

Once the Tigers moved the ball to the Eagle ten-inch line before the Eagles held them and took the ball on downs. The Hico eleven had the ball in good scoring position three separate times, and all three times they were repulsed by the Eagle line. In the last minute and a half of play the Eagles started a passing barrage which succeeded to the extent that they moved 72 yards up the field in that short time. That was the only time that the Eagle offense showed up particularly good, but they played an excellent defense game, as showed by the fact that the Hico line smashes were held to very short gains, forcing the Tigers to go into the air to make their only large gains.

During the half, both the Goldthwaite and Hico bands and pep squads marched and formed figures on the field, the Hico pep squad forming the letters HICO, and the Goldthwaite group two turning crosses.

Tonight the Eagles will meet the Lampasas Badgers in the Eagles' third conference game of this year. The standings of the two teams at present are:

Eagles 13, Hamilton 0; Badgers 7, Hamilton 6; Eagles 21, Burnet 6; Badgers 31, Burnet 6. Conference standings: Eagles 50 per cent, Badgers 50 per cent. This puts the teams on a practically even basis.

Minus the services of the injured Wilson and Minor, the Howard Payne Yellow Jackets took to the air against the Austin College Kangaroos at Sherman last Thursday night. However, one of the touch-downs was made on a running play by the disabled Minor, the only time he carried the ball. He went over the last white line

## Prepare for Winter!

It won't be very long before cold weather will set in, and your hens will need heavy coats and strong, healthy constitutions to stand the winter. Don't lose out on winter egg profits by feeding a mash that will NOT keep your hens in condition. Feed MID-TEX, which is supplied with the necessary vitamins and minerals to keep up body warmth and health and to build eggs through the cold weather.

Bring us your POULTRY, EGGS, CREAM, and PECANS. We offer highest market prices and always strive to please.

We also carry a complete line of cow feeds, cake, meal, shorts, bran, etc. See us before you buy.
