The entire membership of the church is urged to hear him at both services.

CHARLES BOTTS O.K. ON MIDWAY ISLAND

Pfc. Charles H. Botts of Goldthwaite, serving with the United States Marines on Midway Island, sent his mother, Mrs. I. N. McGirk, the message "O.K. Love" on the ninth of June, after the battle there, and the following letter was received from him on July 2:

Dear Folks:
How's everybody? I'm fine as usual. Well, I've received both packages now and everything was good. Thanks to everybody. I received a letter from Nelda, George and Mary Louise.

There's been a little trouble here, so I haven't sent any mail. You ask if there was a U.S.O. here. Folks, there isn't anything here female except birds. You also wanted to know the color of our uniform. We have three—the blue, green and regular khaki. Well, it's happened. I've met a boy in the Navy who knows everybody in Goldthwaite that I know (well nearly—). He's Lewis Porter's nephew from Waco. We're great friends; in fact, when we get back we plan to come home together. As you already know, the Japs have been pestering. This makes six or seven times, but don't worry.

Tell Grandmother how's for a box of tea cakes. I'm still waiting for a letter from Bill. All the pictures are good. Be sure and tell Mr. Porter about his nephew and I. Well, that's all for now, so I'll close with thanks to everybody for the packages. Love, Buddy.

P. S.—I'm late on your birthday present and Dad's Father's Day, but don't think I forgot them. Watch the next letter.

COUNTY AND CITY DEPARTMENTS ASK THAT WEEDS BE CUT

The County and City Health Departments request that all owners of vacant lots, fields and neglected places cut their weeds and tall grass now. Hay fever and asthma have already started, and this condition will get worse when the rag-weed starts to bloom. If they are cut now, the hay fever sufferers will be very grateful. USO War Fund Campaign

Houston, Texas.

N. E. STOCKTON, Goldthwaite, Texas.

With 90 per cent of USO quota raised and only 5 more days before campaign ends officially, the success of Texas' campaign is hanging in balance; therefore am wiring you and all other counties which already have done a fine job for USO to make a final check-up and inquiry on what additional if any may be expected. Needless to say am pushing hard those other counties not yet up to your pace. With our soldiers and sailors offering their lives for our country, it is unthinkable that the great State of Texas should fail to meet its full quota.

Will appreciate your wiring me collect today the amount raised thus far and your conservative estimate of what additional amount can be expected.

H. C. WIESS, Chmn. State Campaign Committee.

Mills County lacks around \$200 filling our quota of \$1,000. Can't we raise the balance this week? All who have not donated and those who feel like increasing donations, do so.

THE TRENT STATE BANK will accept any and all donations for the USO.

CHURCH OF CHRIST ANNOUNCEMENT

Beginning next Sunday, July 12, and continuing through July 26 the annual summer meeting will be in progress. Luther Blackmon, who already is well known in Goldthwaite for his interesting and plain Bible preaching, will be the speaker. Brother Blackmon now labors in the state of Arizona and comes here for his third meeting with the church. He is a forceful gospel preacher and you will want to attend each service.

The services will be conducted twice daily, at 10:00 a. m. and 9:00 p. m. Ervin Driskill, the local minister of the church, will conduct the song service. If you enjoy plain New Testament preaching and gospel singing then make your arrangements to be present at all of these services. We cordially extend an invitation to the people of Goldthwaite and surrounding communities.

Our Lord's Day services are as follows: Bible Classes at 10:00 a. m. and preaching at 11:00 a. m. and 9:00 p. m.

R. ERVIN DRISKILL,
Minister.

REAL ESTATE SOLD

One of the biggest real estate deals was closed here this week when E. J. Ward sold his ranch located two and one-half miles southwest of Goldthwaite to J. H. Harrell of Killeen. This ranch is one of the best improved pieces of property anywhere in this section of the country.

This deal was handled by Arthur Cline, local real estate dealer.

ARMY EMERGENCY RELIEF DRIVE BEGINS OVER MILLS COUNTY

The Army Emergency Relief Fund has been authorized by the United States Congress and is designed to meet emergency situations developing with soldiers and their families. It often happens that soldiers or their families are distressed under circumstances which cannot immediately be relieved by the National Red Cross. The Navy has heretofore been authorized to set up a similar organization. Neither organization is designed to displace the work of the Red Cross, but is to supplement the work of that organization.

Funds collected will be sent to the Corps area headquarters and in turn will be allotted to the various camps and posts.

Mills County's quota is \$225, allotted in the various communities in the county as follows: Goldthwaite, \$50; Mullin, \$25; Priddy, \$25; Center City, \$15; Nabors Creek, \$5; Lake Merritt, \$10; Payne Gap, \$5; Prairie, \$10; Ebony, \$10; Pompey Creek, \$10; Regency, \$5; Jones Valley, \$5; Star, \$20; Big Valley, \$7.50; Caradan, \$7.50; Mount Olive, \$7.50; Scallorn, \$7.50.

The following named persons have been named committeemen in their respective communities to take the contributions:

Goldthwaite: Chas. Frizzelle, Joe W. Huffman, A. Ware, Mullin—Mayor Frank Shelton, Lynn Wilson, Priddy: Ed Rost, Ed Jeske, Center City: Mohler Oglesby, George L. Walton, Big Valley: E. D. Robinson, Floyd Weaver, Scallorn: Fred Conradt, Mrs. Ora Black, Caradan: W. C. McNeil, Frank Kerby, Mt. Olive: Alma Neal, I. B. Cody, Ebony: W. L. McNurien, Mrs. Effie Egger, Pompey Creek: W. B. All persons having service men in foreign lands may secure V-Mail Envelopes free at the Goldthwaite Post Office.

MILLS COUNTY SCRAP RUBBER DRIVE BRINGS IN 98,715 POUNDS

Oil agency reports to E. T. Fairman, chairman of the Rubber Scrap Campaign for Mills County, totaled 98,715 pounds at the close of business Tuesday.

The closing date of the campaign is July 10. If you have not brought in your scrap rubber, do so before this closing date. No matter how much we may get, it will be far short of the amount needed to meet the emergency. If the war should be lost due to lack of rubber, how would you feel if you had failed to bring in your scrap?

WAR HEROES

Major M. Y. Stokes of Dallas writes that he had an interesting week-end in Fort Worth and Dallas. On Thursday night he was a guest of J. M. North, Jr., editor of the Star-Telegram, at the Bonds for the Bombers dinner in Fort Worth honoring 14 war heroes who were introduced by Gov. Coke Stevenson by telling what each one had done. There was the ensign who reported, "Sighted sub, sank same," also two Texas flyers who bombed Japan, a half dozen English heroes, two of them Commandos, one of them who had lost an arm. All made interesting talks.

He said they were a clean, keen bunch of boys, who, except for their uniforms, looked for all the world like a football team. There were five major generals, including Gen. Donovan. It was quite late when the dinner was over, but there was a dandy one-act soldier play put on by some Fort Sam Houston soldiers, who came for the purpose. Then at eleven o'clock on the Fourth at the defense plant in Dallas, he was one of the main speakers at a picnic. The company gave the employees a bonus and doubled it for every man who invested it in bonds.

One of the Cline boys from Goldthwaite, a cousin of Arthur Cline, was one of the workers, and came up and made himself known to Major Stokes. All in all it was a wonderful week-end including the Glorious Fourth.

YOUR COUNTY HOME DEMONSTRATION AGENT TEXAS EXTENSION SERVICE

Mills County Home Demonstration Agent

BEDROOM IMPROVEMENT

The Mills County 4-H Club girls are not spending a large amount of money on bedroom improvement but are doing good work with little or no money. Thirty-nine dresser scarfs are being made now.

Lee Ella Anderson of the Midway Club, aged 14, is improving her bedroom. She made a dressing table from boxes and made the skirt from printed feed sacks. The stool is a nail keg and is covered with the same kind of material as the dressing table. She paid 18 cents for white paint to paint the top and the boxes. The mirror cost 69 cents. The dresser scarf was also made of a white feed sack which Lee Ella had washed, hemmed and embroidered. She painted her bedstead white. From some more orange crates Lee Ella made a clothes closet. The rod is on the level with her eye, and the inside sections of the boxes make the shelves for storage of hats, shoes, etc. The outside of the closet is papered with wallpaper like that on her bedroom walls. The curtains for the door are also made of feed sacks. Even her laundry bag and shoe bag were made of feed sacks which she had on hand. In all, Lee Ella has spent \$1.12 and her bedroom has improved beyond estimation.

COUNCIL MEETING

The Mills County Home Demonstration Council will meet Saturday, July 11, at 2 p. m. in the home demonstration agent's office. All club presidents will have a report ready to give as to the progress made in the club during the last month. It is time to plan the yearbook for next year; also each club is asked to bring a suggested program to the council meeting. All 4-H Club sponsors are asked to attend this meeting to plan for an encampment. Let's have all 17 home demonstration clubs represented at the council meeting.

SAVE YOUR FATS

American families eat more than six billion pounds of fats and oils yearly. According to Roy W. Snyder, animal industries specialist of the A. and M. College Extension Service, it would require 6,000 freight trains of 50 cars each to haul that essential food to a central market.

The world shortage of fats and oils makes it imperative to conserve them here. Store lard to be used at home in tight con-

tainers in a dry, cold, dark place. Packing lard in gallon buckets with a layer of wax at the top to make the containers air tight is a proved method for keeping it through the summer months. Moisture, air, light and high temperature hasten lard to become rancid.

In using lard from a large container—five gallons for example—take it off the top evenly. Snyder cautions that digging down in the center or at one side exposes more surface to the air and increases the chances of rancidity. Save lard by using no more than necessary in cooking. Bacon and sausage drippings, which are suitable for seasoning other foods, should be strained and stored in a cool place as carefully as new lard.

If lard is strained through several thicknesses of cloth to remove foreign matter after use in deep fat frying, its frying life is increased. Snyder warns against heating fat to the smoking point as it reduces the number of times it can be used effectively.

TO MAKE A CLEAN SWEEP

A clean dust bag gives a vacuum cleaner its greatest efficiency, according to Bernice Clayton, specialist in home improvement of the A. and M. College Extension Service. This was established by a demonstration with two machines of the same make, one having a clean bag and the other a dirty one.

Used on alternate strips of the same rug, the machine with the clean bag removed 12 times as much dirt as the other. But when the bag was emptied and brushed clean, and the machine run over the surface it had covered previously, the amount of dirt removed was considerably increased. The study demonstrated that machines clean best if the bag is emptied after using, and brushed inside and out once or twice a month. But washing the bag is not advised because this would spoil the finish which helps to make it dust-proof.

A speed of slightly more than a foot a second was found to be more effective in removing dirt than moving the cleaner more rapidly over a rug. A cleaner which does a good job on one kind of rug may be expected to do it on other kinds, Mrs. Clayton says, adding that the wear a rug gets from vacuum cleaning is very slight compared to the wear from actual use.

Farm harnesses should be inspected, repaired and oiled at least once a year, or twice a year if used continuously.

HEARTS and FLOWERS

TOM: Gosh, Ann, I'm glad I could get back in time for our wedding anniversary. Being on the road as much as I am, it seems like I'm never home. Here's something for you.

ANN: You darling! Flowers!

TOM: It could have been a new hat if that blamed car of mine hadn't had to have a new set of piston rings.

ANN: I know wives shouldn't interfere in their husband's business, Tom, but Mrs. Reardon was telling me how much money Jack saved on the maintenance of his car. He drives even more than you do.

TOM: What all did she tell you, Ann?

ANN: Well, Jack Reardon uses Conoco Nth motor oil. That's the oil that OIL-PLATES the engine and saves a lot of wear and tear. And it contains a new synthetic that helps keep the oil from fouling up, too. Mrs. Reardon says Jack has to make his car last two or three years longer now and Conoco Nth motor oil will help him do it!

TOM: That settles it, Ann! I'm going to change right now to Conoco Nth!

ANN: Good boy! And maybe I can still get that new hat?

You'll agree that it's orchids to Conoco Nth motor oil, once you prove to yourself how it is so economical, clean-running and wear-saving. See Your Conoco Mileage Merchant today! Continental Oil Company

REP. SOUTH SAVES MUCH MONEY FOR TAXPAYERS ON FREIGHT

By A Staff Correspondent
For Fort Worth Star-Telegram

WASHINGTON.—The opposition of a single but influential congressman is being pointed out now as having saved the taxpayers an estimated \$25,000,000. The congressman is Charles L. South of Coleman, member of the Committee on Interstate and Foreign Commerce, one of the most important and influential of the nation's legislative committees. The saving was effected in connection with freight rates over land-grant railroads.

During the 20 years between 1850 and 1870, the government made 75 grants of land to railroads to promote their construction and to develop the West. Altogether the government conveyed to the railroads title to about 134,000,000 acres of land, equivalent to an area twice that of Missouri. With the aid of this public land, the railroads built about 21,500 miles of track, or enough to build seven lines from the Atlantic to the Pacific.

In return for these land grants, the railroad agreed to haul government freight free. As the years passed these agreements were modified in favor of the railroads, but even today the government still benefits from land-grant rates to the extent of some \$7,000,000 a year in peacetime and -25,000,000 or more in war time.

The bill would have repealed the land-grant rate agreements on the ground that they had served their original purpose and that government freight had increased to an extent that

could not be foreseen when the agreements were made between the government and the land-grant railroads.

Chairman Lea of the Interstate and Foreign Commerce Committee opened the discussion with the statement that all members of the committee were in favor of the repeal measure. It looked as though it would pass with little or no opposition. Then South unwrapped his six feet, three and one-half inches from around the chair in which he was sitting and obtained recognition. He had not attended any of the hearings on the measure, he said, but he had read every bit of the testimony developed at them and he was one member at least who was not in favor of repeal.

He pointed out that the railroads still retained much of the land granted them by the government and that they should not be relieved from their land-grant-rate obligations unless they returned this land. He thought this rule of reason was particularly applicable at a time when the railroads were more prosperous than ever due largely to increased business stimulated by government activity.

The result was that the bill was recommitted to the committee as he recommended. It was as effective and neat a piece of work as veteran observers had ever seen done on the floor of Congress.

Two years ago, South was accused on the floor of the House of pulling the wool over the eyes of the entire Congress. The 21st Texas District, which he represents, is one of the great wool-producing areas of the United States, and South is so concerned about the wool situation that he knits his brows when he thinks about it. He piloted through the House the wool-labeling bill, which, to protect cus-

tomers, requires manufacturers to show the amount of virgin and reclaimed wool in their products.

During the debate, Representative Lyle Boren of Oklahoma, himself a native of Texas, told the House that the wool-labeling bill wouldn't have a ghost of a chance of becoming law were it not for the ability, industry, leadership and personality of Charlie South.

South has voted for all appropriations for the Army, Navy and Air Corps since the war broke out in Europe. He voted for the fortification of Guam in 1939 and 1940, even when some of his own leaders were fearful that such a step would be interpreted as an overt act. He also supported all lease-lend measures and the appropriations to carry them out. He voted for the farm program, WPA, PWA, social security and many other administration policies involving the expenditure of large sums of money on the theory that the emergency required these expenditures. But he has been consistently a stickler for true economy in government. Personally frugal and thrifty, he believes that the peoples' money should be spent where it will do the greatest good.

JUDGE SMITH GIVEN PRAISE AT DINNER

Austin, July 9. (Spl.)—At a dinner given to Judge E. F. Smith here today by his numerous friends from Central and West Texas counties, distinguished educators, ministers, lawyers and judges who have known E. F. Smith for many years since he was a boy working with his hands for a living, paid high tribute to his character, his industry, his ability as a lawyer and his accomplishments as a writer on legal subjects.

Dr. Conway T. Wharton, pastor of the University Presbyterian Church, was master of ceremonies. Among the 42 members of the general committee in charge of the dinner were Mrs. C. M. Cureton, widow of the late great chief justice of the Supreme Court, and Mrs. James H. Hamilton, widow of the late District Judge Hamilton.

Among those who made talks or from whom letters were read was Judge J. E. Shropshire of Brady, president of the McCullough County Bar Association.

SOUTHWEST LEADS IN ARMY BUILDING

Dallas, July 9. (Spl.)—The program of Army construction in the Southwest is smashing all previous records, according to Colonel Stanley L. Scott, Dallas, Southwestern Division Engineer. Because of natural advantages in training troops and easy access to raw materials, approximately 20 per cent of all Army building at this time is concentrated in the Southwestern Division—one of 13 such divisions in the United States.

Construction authorizations come into division headquarters every day from the War Department. They are for all types of new construction—troop housing, utilities, flying fields, hospitals, schools, manufacturing plants, and miscellaneous additions to the hundreds of army posts and stations located in the Southwest.

The Army Engineers have invited all contractors prepared to accept contracts of \$100,000 or more to write the Division Engineer, Dallas. Contracts approximating \$8,000,000 may now be awarded at the six district headquarters in the Southwest Division.

New Type Warship Launched

Here's a kind of warship that seldom gets its name in the papers, let alone its picture. This is His Majesty's Ship, the "Bold," latest of the fleet of British rescue vessels being built in this country on contract by General Motors. GM supplies the Diesel engines and other propulsion machinery and the boats are built on sub-contract by various American shipyards. Photo shows the "Bold" as she was launched at the Defoe Shipbuilding Company yards at Bay City, Michigan. The bull-dog tug-boat appearance of these ships fails to reflect the romantic and important character of their job, which is to dash through submarine and raider infested seas—to the middle of the ocean if necessary—and tow to safety vessels that have been disabled by torpedo or gun fire. They can tow anything from a fishing boat to a battleship. Vessels in this service have rescued more than two million tons of United Nations shipping since the war began, shipping that might have gone down but now lives to fight another day.

C. E. McCORMICK FOR R. R. COMMISSIONER

C. E. McCormick of Cameron, Mills and Erath Counties resigned as director of the shippers' bonding and licensing division of the State Department of Agriculture in order to make the race for Texas Railroad Commissioner. McCormick said that the same principle which would not permit him to accept his salary from the state while campaigning for public office also would not permit him to make commitments so that when he is elected he will be in a position to listen to all interests fairly without having any obligations attached to his actions.

McCormick declared that there was no public office which more affects the people of the state of Texas than that of Railroad Commissioner, and that he entered the race with a full feeling of his responsibility in the event of his election. He realizes the widespread effect that policies of the Railroad Commission can have on all the people of this state. The housewife, all businesses and professions are directly or indirectly affected by this Commission's actions. He added that the war had increased the responsibilities of the offices many-fold and being an ex-service man of the previous war he will render an all-out effort for the man in the armed service and national defense.

His experience in oil and general business, agriculture, transportation and in holding numerous public hearings in connection with his present position are a valuable background for the public service that would be required of a Railroad Commissioner.

The people of Texas have this opportunity to elect a representative to the important Railroad Commission. There is little time before the first Democratic Primary and it will be impossible for him to contact and ask each of you to vote for and actively support him, while he assures you that if you will put forth effort to place him in this important position as the people whom he knows in the other parts of the state will do, you will not regret it. McCormick pledges you his every effort in rendering you sound, constructive and fair public service.

O. C. FISHER TO SPEAK IN GOLDTHWAITE AT 2 P. M. SATURDAY

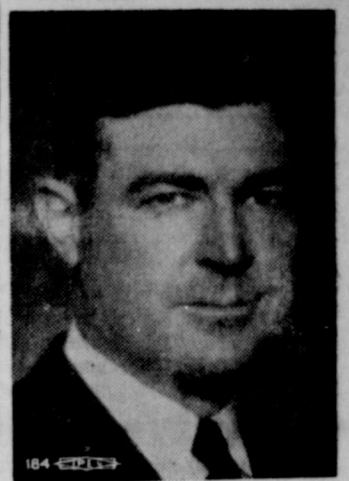

District Attorney O. C. Fisher of San Angelo, candidate for Congress from this district, will speak in Goldthwaite Saturday, tomorrow, July 11, at 2:00 p. m. He will also make an address to the voters over Brownwood Radio Station (1380 on your dial) at 12:30 noon Saturday.

Congressman Charles L. South, in a speech made on August 30, 1939, assailed the Versailles Treaty that followed the World War as a cause for turning of Germany into an 'outlaw nation,' and South branded that treaty—as 'unjust, unreasonable, and without the spirit of conscience.' District Attorney O. C. Fisher, candidate for Congress, revealed in Independence Day speeches made at Brady, Sabin and Cherokee last week.

"The victorious nations," South was quoted as having said, "were drunk with victory and thus put the yoke of defeat too heavily on the German State. So, secretly," South continued, "Germany rearmed and has grown to be an outlaw, seeking to regain her lost station."

Fisher produced and read from a photostatic copy of a letter, written and signed by South, addressed to J. J. Goodfellow of San Angelo, dated Sept. 11, 1939, in which South set out the quotations from his speech, given above, and South said they were "substantially correct."

I do not share that line of thought," Fisher said. "Hitler's ability in the short space of six years to build a murderous war machine of unparalleled proportions is proof sufficient that the

By JOHN A. WRIGHT
Mills County Agent

LET'S BRING IN THE SCRAP

BEWARE OF CHOLERA

The second outbreak of cholera in Mills County started in the herd of Jim Soules about ten days ago. Mr. Soules lives near Star, and has about 230 very sick hogs. Cholera is usually a very fatal disease unless something is done in the very early stages. The county agent thinks that everyone in the county should vaccinate for cholera, just as they do blackleg and insists that every person in the Star Community vaccinate their hogs immediately in order to further check losses.

Mills County farmers were asked to increase their production of pork 17 per cent this year in order to insure ample food for our fighting arm. Let's not let them down by letting our hogs die.

If you want additional information relative to cholera and vaccination against the disease, please contact your county agent.

CORRECT FEEDING OF DAIRY COWS ON PASTURE

So far, Mills County dairymen have been meeting their milk production goals, and I know they want to continue. We must remember, however, that grasses in most of Texas will be maturing in June, and that maturity lowers the protein content of these grasses.

If this is not offset by an increase in the protein content of the grain mixture, milk production will decline. Protein is the one and only element which stimulates milk production. Much of the loss in milk production in summer is caused by not keeping the protein in balance.

The Balanced Ration: Most grasses when young, tender and green will analyze from 12 to 15 per cent protein. Accordingly, the grain mixture should contain 15 per cent protein if the grass contains 12 per cent, and 12 per cent when the protein

content of the grass is 15 per cent. When bermuda and buffalo grasses mature the protein content will go down to seven or eight per cent. When this happens the protein content of the grain mixture should be increased to 19 or 20 per cent.

Balanced Ration in a Nutshell—The percentage of protein in the grass added to the percentage of protein in the grain mixture (concentrate) should equal 27 if the grain mixture is in balance with the grass.

Sudan Pasture Pays—Dairymen should have some sudan grass ready for grazing in June. If this is done they will not have to increase the protein content of the grain mixture, since the protein content of sudan is as high as in any of the grasses. The lower the protein content of the grain mixture the cheaper it will be—one of the reasons why it pays to have sudan pasture.

Silage Too—Every dairymen should put down at least three tons of silage for every cow in the herd. At some time in nearly every year it is not possible to have pasture of any kind. The more pasture, silage and hay which can be placed before a cow the less grain mixture will be required and, therefore, the cheaper the production of milk.

Keep the cows producing!

Mr. and Mrs. Bob Shellberg of Fort Worth visited last Tuesday and Wednesday with her uncle, Dr. J. J. Stephen, and family.

Miss Virginia Manning of Stephenville visited her sister, Mrs. Philip Nickols, a few days last week. While here she was notified that she had been elected as teacher for the Mt. Olive school this coming term.

Hale-Booth Wedding

Miss Ina Bea Hale, daughter of Mr. and Mrs. J. H. Hale of Goldthwaite, became the bride of Jay Booth, formerly of Ballinger, on June 27, at 5 p. m.

The ring ceremony was performed by Dr. W. B. West at his home in Los Angeles, Calif. Both Dr. and Mrs. West are former students of Abilene Christian College, in Abilene, and he is now head professor of the ministry at Pepperdine College in Los Angeles. Mrs. West was present at the wedding.

The bride is a graduate of the Goldthwaite High School, and attended John Tarleton Agricultural College in Stephenville for two years, after which she taught school one year at Naruna, Texas.

The bride wore a navy blue dress with a full pleated skirt, and trimmed with white lace collar and cuffs. Her accessories were white and navy blue. Her something old was the navy blue hand bag she carried. A victory insignia pen was her something new. She wore a borrowed necklace, a gold cross bearing the emblem of the college she attended. Her dress was her something blue.

The groom is a graduate of the Ballinger High School and also was a student for two years at John Tarleton. For the past nine months he has been employed at the Northrop Defense Plant in Hawthorne, Calif. He wore a dark brown suit.

Mr. and Mrs. Carroll Berry of Los Angeles were the bride and groom's only attendants. Following the wedding, they gave a wedding supper in honor of the bride and groom. The white wedding cake was decorated with a miniature wedding scene.

After a short honeymoon in Long Beach, they will be at home at 1134 West 41st Place, Los Angeles, Calif.

SAN MARCOS, July 8.—In a special stepped-up program revised in line with recommendations of the War and Navy Departments, the Civilian Pilot Training sponsored here by the Southwest Texas State Teachers' College will train quotas of 30 men for special flight assignments. There will be a complete turn-over every 8 weeks.

This training is provided by the government free of charge to the trainee. Included also is insurance, medical service, and room and board. This new set-up will be open to men between the ages of 27 to 37, beyond the age limit of combat service, and applicants from 18 to 27 for Army aviation training who have been unable to meet the stringent requirements of the Army for combat service.

Mrs. John Potter accompanied her daughter, Mrs. R. G. Childre, back to Weslaco for a few months' visit.

Mullin News

From Mullin Enterprise

Sgt. J. H. Fletcher and Sgt. L. D. Fletcher enjoyed a three month furlough here with their parents, Mr. and Mrs. G. M. Fletcher, and their leaving Sunday brought sadness to relatives and many friends. They returned to Fort Blanding, Fla. Week-end guests in the home were Miss Iva Lee Daniel of Waco and Mr. and Mrs. H. F. Shultz of Aspermont.

The Mullin Nutrition Class will start Wednesday, July 15, at 3:30 p. m. Classes will be conducted in the Homemaking Department. The only fee will be the Red Cross nutrition textbook, which is 25 cents.

July has brought welcome rains and showers to this area. Several inches have fallen and the temperature is cool and refreshing, very unlike mid-summer.

Corn has been wonderfully helped by the moisture as well as all vegetation, gardens included. The Irish potato crop in this area has been bountiful and a banner crop of the year so far. It seems that all who planted reaped bountifully.

The regular meeting of the Cemetery Association will be held in O. E. Rice's office Saturday afternoon at 3:00 o'clock and all members are urged to be present. Miss Imogene Bode and Earl Holmsley were united in marriage at Goldthwaite on the second of July.

A Sound Civilian Economy Must Be Maintained

By GEORGE C. HESTER

This war is rapidly moving toward its critical stage. After a slow start, and in spite of much muddling, our own country is moving toward a war economy on an enormous scale. The full power of the war machine now in preparation cannot possibly be reached until many months hence. When it eventually reaches its full preparedness, the country's military might will have no equal in striking power.

In the meantime, there are many things in the domestic economy that may retard or weaken the nation's military effort. Most of these are matters that come directly home to the average citizen.

During the next six or eight months, the American people will witness an unusual experience. Many will not understand it. There will be much grumbling and even greater confusion.

They will see, for example, the supplies of many ordinary consumer goods diminish to the vanishing point. This is due to the fact that the manufacturing of these articles has already been cut off. The goods that we are now using were made in the past. Since there are several month's lag between production and consumption, the real effects have not yet reached the consumer.

But the pinch is coming. There is no escape. By next winter it may become so severe that we shall look back on the present as days of abundance and plenty.

It is doubtful, however, that too severe restrictions and deprivations are conducive to the proper kind of civilian morale. There is such a thing as "squeezing" the civilian too far.

Such was England's experience. British government officials realized that slow starvation of the civilian economy was weakening the war effort. As a result, the policy of supplying essential civilian supplies was liberalized.

America should not commit the same error. A sound and healthy civilian economy is absolutely essential if the nation is to reach its fullest strength as a military power.

Today our country has nearly 40,000 factories geared to war production. War materials are actually accumulating at the ports and even threaten to clog the shipping facilities.

Perhaps the time has come to give some thought to the task of renewing the stocks of civilian supplies before the famine becomes too extreme. We should include such things as repair parts, farm machinery, commercial trucks, and other equipment so necessary to keep the domestic economy moving.

It is to be granted, of course, that war needs come first. At best, the productive capacity that could be devoted to civilian supplies will be relatively small. But the gradual replenishing of civilian necessities should begin as soon as possible. Otherwise, the shortages will become so acute by next year as to do irreparable injury to the domestic economy as well as the civilian morale. Contrary to much official opinion, such a condition would weaken rather than strengthen the long time military effort of this country.

Wasted money is wasted lives. Don't waste precious lives. Every dollar you can spare should be used to buy War Bonds. Buy your ten percent every pay day.

It's common sense to be thrifty. If you save you are thrifty. War Bonds help you to save and help to save America. Buy your ten percent every pay day.

Men are dying for the Four Freedoms. The least we can do here at home is to buy War Bonds—10% for War Bonds, every pay day.

Our fighting men are doing their share. Here at home the least we can do is put 10% of our income in War Bonds for our share in America.

Stand Steady!

DANIEL WEBSTER once was giving one of his stirring and eloquent addresses in a large hall on the second floor of an old building. The room was packed with people, crowded close together . . . many of them standing. As Webster talked the crowd began to sway in rhythm with his words. There was eminent danger that the vibration would cause the building to collapse. Sensing the danger, Webster stepped to the front of the platform, held up his hand and, in a voice of command, shouted: "Stand steady!"

Stand steady! A nation swaying to the rhythm of war hysteria needs that message today. We need to firmly plant both feet on the good earth and brace ourselves for the days ahead.

Stand steady! Bad news, rumors, disappointments, fear will try to topple over our spirits. Against it all, we must stand as firm and steady as a giant oak in a gale. We must root deep in the faith of our fathers . . . faith in God and in each other.

Stand steady! We must stand as steady as Joe Louis does when mowing down his opponents with blows that flash like lightning and crash like thunder. We must let our enemies know that they, too, have taken on a champion!

Stand steady! As Atlas supports the world upon his shoulders, America must stand steady, supporting and upholding the world of freedom, justice and goodwill.

Stand steady! We must face limitations and sacrifices with high courage. We must take them all, not lying down, but standing up, in the full stature of our manhood.

Stand steady! Let us keep our feet on the ground-of-reality and our heads in the clouds-of-hope. While we meet, battle with, and subdue the problems of each day, let us hang on to the ideals of the American Way of Life with a firm resolve to win the peace as well as the war.

LOOKING BACKWARD

TWENTY-FIVE YEARS AGO

(From Eagle Files July 14, 1917)

While in Brownwood Monday the Eagle editor had the pleasure of meeting with a number of former Mills County people, and was glad to know of their continued prosperity in that town. Among those we met were Dr. M. L. Brown, E. M. Boon and W. W. Tullos.

Brian Smith left the first of the week for Fort Worth where he has enlisted for military service in Company K, 7th Infantry.

Mrs. J. S. Bowles and children arrived from Brownsville Thursday evening for a visit to her mother, Mrs. A. J. Gatlin, and other relatives.

Henry Martin and J. L. King made a business visit to Waco this week.

Walter Fairman and wife returned Wednesday from an automobile trip to Waco, McKinney and elsewhere.

The revival conducted in the Baptist Church by the pastor, Rev. W. R. White, closed Sunday night.

The San Saba and Goldthwaite baseball teams played a matched game here Thursday afternoon and again yesterday afternoon. A third game will be played this afternoon, which will close the series.

County Clerk Summy issued marriage licenses this week to Lawrence Johnson and Miss Jimmie Smith.

State Department Health Notes

Thousands of children and adults die every year from diseases carried by the fly. Typhoid fever, tuberculosis, summer complaint, cholera, intestinal diseases, and frequently death follow closely in the trail of the common house fly.

"The control of the fly menace comes at the top of the list of necessary public health measures which should be applied by every city and community in the state," urged Dr. George W. Cox, State Health Officer.

"The most effective measure of control is to prevent breeding," Doctor Cox said. "Flies breed in filth, and about eight days are required to complete a life cycle. During her life time of several months, one house fly lays from 600 to 1,000 eggs. Thus it can easily be seen that in a season which usually begins in the spring of the year, the descendants from one fly number countless thousands.

"To eliminate flies, the breeding places must be destroyed. Manure piles, garbage, and other organic filth furnish the requirements of warmth, moisture, and food necessary for the propagation of the fly. Flies should be kept from contact with food or drink or utensils in which such food and drink are prepared and served. Likewise, they should be kept from access to privy vaults where they pick up the infections, which they later spread to humans by contact with the food and drink, and by unwashed hands and utensils.

"See that windows, doors, and porches are screened so that the stray fly from some careless neighbor will not molest your family. See that your grocer keeps meat, vegetables, and fruit screened from flies.

"Organize health measures to destroy the breeding places, control the flies' access to your home and food, and establish standards of cleanliness in your community that will eliminate the fly."

Improved Uniform SUNDAY SCHOOL LESSON

By HAROLD L. LUNDQUIST, D. D. Of The Moody Bible Institute of Chicago. (Released by Western Newspaper Union.)

Lesson for July 12

Lesson subjects and Scripture texts selected and copyrighted by International Council of Religious Education; used by permission.

ADAM AND EVE: TEMPTATION AND SIN

LESSON TEXT—Genesis 3:1-13, 23, 24. GOLDEN TEXT—The soul that sinneth, it shall die.—Ezekiel 18:4.

The finished creation of God was "very good," but before long it was marred by sin. Dr. Hart-Davies in his book on Genesis speaks of a brick from the walls of ancient Babylon, now in the British museum. It "bears the imprint of one of Babylon's mighty kings. Right over the center of the royal seal is deeply impressed the footprint of a 'pariah' dog which apparently trod upon it when it was soft and plastic. Human nature is like that brick. Man originally was made in the image of God, but over the divine likeness there has been superimposed the dirty disfigurement of the devil's imprint."

We see first in our lesson the appearance of the serpent who is the subtle emissary of—

I. Satan (vv. 1-5).
Man, because he was made in God's image, was not a mere automaton, having no moral choice. He was a free being who had to choose between good and evil. Obedience to God is the underlying moral principle of the universe. Man was given an opportunity to obey the prohibition of one tree in the Garden of Eden. The principle of prohibition in the midst of a world of privilege thus has divine sanction.

Satan provided the occasion for man's fall into sin. He came, not as the cloven-footed monstrosity of modern cartoonists, but as a creature more subtle than all other creation. His approach in our day is just as smooth and cultured (II Cor. 11:14).

II. Sin (v. 6).
Let us be clear that sin is not a necessity, not a natural weakness of man, not a falling upward in the progress of the race, but a deliberate choice to transgress the law of God. At once it showed its true nature by reaching out and leading another into transgression.

The one who listens to a slander against God can easily begin to doubt His Word, and then it is not difficult to look at what God has forbidden. Then the desire of the flesh takes hold and disobedience follows (cf. I John 2:16).

III. Shame (vv. 7-13).
The breaking of a right relationship with God broke the perfection of man's fellowship with man. Innocence was swallowed up in a sense of shame. But the shame is far deeper than a sense of nakedness. It speaks of a heart marked with sin which makes man hide from God.

Satan had promised Adam and Eve that they should know more about good and evil (v. 5), but all the good they learned about was what they had now lost, and the evil they learned was the sin which now blackened their souls and darkened their lives.

And with them fell the whole human race, for Paul tells us in Romans 5:12 that "by one man sin entered the world, and death by sin; and so death passed upon all men, for that all have sinned."

IV. Sorrow (vv. 23, 24).
Man and his help meet, who had begun with such glorious promise in the garden, now had the great sorrow of being driven out by God. No longer to be trusted, man was kept out by the cherubim, mysterious angelic beings with the awful flaming sword.

Labor, which in the garden had been but a pleasant diversion, became a struggle against a thorn-infested ground. Sorrow was linked with motherhood, and man began to bear the heavy responsibilities of life (see Gen. 3:14-19).

But we must not close our lesson without pointing out that in the midst of judgment God provided mercy. The promise of man's redemption is written first in God's Book in Genesis 3:15, and from there the scarlet thread of redemptive truth runs right through the Bible to its last chapter.

Even in judging the first Adam for his sin, God thus promised the coming of the second Adam who was to redeem the race. We became members of the first Adam's family by natural birth—without the privilege of choice. We become members of the family of the second Adam by a new birth—a spiritual, supernatural rebirth. But the latter is by our own choice! (I Cor. 15:21, 22, 45).

Wayside Ministering
Jesus was never bound down to the size of his audience. He was neither elated by a big crowd nor discouraged by an audience of one. In fact, some of his most wonderful teachings were given to individuals whom he met by the wayside; the woman of Samaria, Zaccheus, Mary and Martha, the Syrophenician woman, Nicodemus, the woman taken in adultery, the blind man in the temple, are only a few of those to whom Jesus gave of his life as he passed them on the way.

FARMERS ARE SITTING PRETTY SAYS BABSON

By ROGER W. BABSON

Gloucester, Mass. July 10—With the harvest season just getting under way, attention is now focused on the wheat belt. Crops were never more important to the United States, to Canada, and to the rest of the world than they are today. In fact, the ultimate outcome of the war and the terms of its peace may center more around our farm commodities than around munitions. Before discussing our own crop outlook, I should like to summarize, briefly, the case abroad.

Foreign Status
First, let me say that in spite of the necessity of supplying other countries with grains, Germany is probably not hard-up. Certainly, her people are not starving to death by any means. Hitler has held on to the Ukraine which is the greatest wheat producing section in the world. In addition to the Ukraine, Germany has the fields of Rumania and Hungary to draw upon. Particularly in Poland and Greece the situation is very bad. It is, however, possible that Greece may get some United States help.

If Norway and France are invaded by the United States, or if Russia pushes the Germans out of the occupied Ukraine, the situation with respect to Germany's food question can quickly change for the worse. Furthermore, like us in fact to some extent, much of the corn the Axis can get must be turned into alcohol for industrial purposes.

U. S. Supplies
Total 1942 wheat production is estimated at 868 million bushels. With an anticipated carry-over of 630 million bushels, we should have a supply, provided the weather is with us, of about 1,500 million bushels. This chalks up a new record and will provide the greatest single source of supply the world has ever known. Domestic consumption will take something less than half, say around 700 million bushels for food purpose. The only hope of the wheat farmer lies with making alcohol and other industrial products.

What About Farmers?
Certainly, farmers are sitting pretty. They always face uncertain weather so that item can be

ROCK SPRINGS—

By MRS. EULA NICKOLS

We extend sympathy to Mrs. Lacy Thompson and other relatives in the passing away of Lacy. Also to Mrs. John Potter and children in the going away of their husband and father. Our town will miss these two citizens, as they have lived here for some time.

Sunday will be church day and Sunday School at ten-thirty.

Saturday was the Fourth and we all remembered—Well, I wonder how many communities celebrated with a fish supper like we did. Earl and Collier Ballard and W. A. Daniel and son certainly did catch the fish last week. All the men said to give the credit for catching them to Early Ballard. We are sorry he got sick and didn't feel like frying them and then enjoy eating them. The fry was in W. A. Daniels' pasture, a mighty fine place for a picnic. I hope we can have another picnic some time again soon. We don't have to have fish to have a supper every time. Do let's plan another get-together in August. Eggs and bacon wouldn't taste bad. We had lots of other good eats along with our fish. Thanks to those who caught and fried them, for they were fine.

Horace and Rudolph Cooke are measuring land in the county. They each have helpers.

Wesley Nickols spent Saturday in the Tyson home at Williams Rancho.

Joe Davis spent a day and night last week in Brownwood. He didn't sign up for any of the work.

Wiley Mahan had hands baling and cutting hay on the Nickols farm last week and this week.

Pat Medford spent several days last week in Hamlin.

Greta and Christene Traylor are spending this week in town with their Grandmother Robertson.

Mrs. Dwight Nickols has suffered this week with a crick in her neck and shoulder.

The candidates seemed pretty thick in our community last week. They will begin working like bees now as their time is almost gone.

Walton Moore has been on the sick list. We're hoping that he is okay by now.

A grand July Fourth spread was enjoyed at the home of Christian Goode. Mrs. Lonnie Baker and Mrs. B. P. Goode and son, Donald, came down with overflowing baskets, and the table in the cool shade of the dense elms out in the back yard was spread with a grand feast. It was all a lovely little picnic, which we all enjoyed without the expense of gasoline, tire wear and eye strain on glaring roads, and a load of redbugs and ticks, which pasture and creek picknickers experience and acquire.

We are all working to beat the advance of brutal legions. Are we praying as we work?

Miss Billie Gayle Soules has returned home from a visit with her sister, Mrs. Dorothy Edwards of Abilene.

Mr. and Mrs. W. F. Hiller of Shive were visitors in the Henry Martin home last Thursday.

OFFICIAL U. S. TREASURY WAR BOND QUOTAS FOR JULY

The above map of Texas shows the War Bond quotas, by counties, for the month of July, 1942. Total War Bond quota for the state is \$33,677,000. With the National quota total placed at a billion dollars, the nation goes into high gear in its support of the War financing and to give our fighting forces adequate implements of war which will bring ultimate Victory. American Soldiers, Sailors, Marines and Airmen are on every front. They are giving 100 percent for their country. What are we doing here on the home front? Are we lending at least ten percent of income to help them? It's very little. But to fight this war successfully our country needs a billion dollars in War Bonds every month from us—the People. LACY THOMPSON

Thomas Lacy Thompson, 62, of Goldthwaite, a native Texan and a former resident of Dallas, died Thursday morning after an illness of two months in the Dallas Medical and Surgical Hospital.

Mr. Thompson was born in Anderson and as a young man became connected with the railroad business, which he continued to follow until a few years ago. He was a life member of the Brotherhood of Railroad Trainmen. For several years in Dallas he was machinist at the Union Terminal roundhouse. He worked for the Frisco in Brownwood and was a long-time resident of Terrell, where the body was sent for burial.

At the time of his death Mr. Thompson was in public relations work for the Community Public Service Company at Goldthwaite.

Funeral services were held Friday at 2 p. m., with Weever's Funeral Home in charge of arrangements.

Mr. Thompson is survived by his wife, of Goldthwaite; two sons Warren (Barney) Thompson, former reporter for the Times-Herald and now attached to the staff of the naval aviation selective corps, and Joe C. Thompson, both of Dallas; one daughter, Mrs. James Cameron of Dallas; four sisters, Miss Willie Thompson, Mrs. Joe Hoppe, Mrs. Lydia Byrne of Dallas and Mrs. R. E. L. Johnson of Tyler; two brothers, Eugene Thompson of Dallas and Scott Thompson of Goldthwaite.—Dallas Times-Herald.

JOHN POTTER

John Potter was born at Round Rock, Williamson County, Texas, Oct. 9, 1862. He moved with his parents to Goldthwaite in 1886 and spent the remainder of his life here where he numbered friends by his acquaintances.

He was married to Sarah Frances Hampton on March 4, 1888. To this union were born four children: Mrs. R. G. Childre of Weslaco, Horace B. Potter, Athens, Texas, Mrs. L. P. Greer, Brownwood, and Mrs. Cassie Beck of Houston.

At 6:15 o'clock July 4, 1942, Mr. Potter passed from this life surrounded by his wife, all of his children and close friends. He was the last member of a family of seven children to pass to his eternal reward.

Besides his immediate family, five grandchildren, three great-grandchildren and many relatives and friends are left to mourn his going.

Mr. Potter joined the Methodist Church in Goldthwaite 37 years ago. He died in this faith. He prided himself in the fact that he had helped build three Methodist churches in this town. Mr. Potter was a builder and therefore left his handiwork on many buildings in Goldthwaite. While Mr. Potter did not leave behind a fortune he left a good name and many friends. He was well spoken of by those who knew him.

Mr. Potter was a devoted husband and father, so kind and affectionate to his family, no sacrifice too great to make for his wife or children for he worshipped them, and they were all dutiful, obedient children to their devoted parents. All the loved ones deeply mourn his loss and will truly honor his memory.

The active pallbearers were: F. D. Reynolds, Jim Faulkner, George Bohannon, Jim Kelly, Floyd Blair, Tom Collier.

CARD OF THANKS

We wish to express our appreciation to our friends and neighbors who ministered to and gave us their sympathy during the illness and death of our dear husband and father. We will always cherish each kind word and deed. May God's richest blessings be with you when you need Him most is our prayer.
 Mrs. J. H. Potter and Family.

Mr. and Mrs. Everett Stringer of Coolidge, Ariz., spent Tuesday night with his sister, Mrs. F. C. Smith.

Mr. and Mrs. Earl Tullos and Wes Partridge visited in San Antonio and Austin last weekend. Betty June and Billy Tullos returned home with them.

Come out of the kitchen, Mom, for the summer and Soup can help You do it!

New Orleans Chicken-and-Asparagus Soup peps up a summer meal.

Of course, we still do have three meals a day to prepare because, summer or winter, the family must be kept well nourished.

But there are all sorts of ways and means of lightening up the work when the weather is hot.

And one of them is soup.

Soup can take care of the hot dish for a meal . . . and doesn't keep you steaming endlessly over the range in the process. Just open your favorite kind of soup, add an equal quantity of water or milk, heat and serve . . . which is certainly simple.

Soup is hot and stimulating. It is nourishing. Very! It puts new life and energy into us because it provides, in easily digested form, the hot food every summer meal should have.

Soup can be used in two ways for hot weather meals. It can be the mainstay for a light meal—or

it can be a hot, zesty first course for a substantial cold cuts-and-salad sort of meal. Either way it gives you the hot food you need, and with no trouble.

Here are two soups to pep up your summer meals:

New Orleans

Chicken-and-Asparagus-Soup

1 can condensed asparagus soup
 1 can condensed chicken gumbo soup
 1 can milk, using soup can for a measure
 1 can water

Mix the chicken gumbo soup into the asparagus soup, then add the milk and water. Heat to boiling and serve. Serves 5-7.

Tomato and Vegetable-Beef Soup

1 can condensed tomato soup
 1 can condensed vegetable-beef soup
 2 cans of water
 Combine and heat to boiling point. Garnish with toast croutons.

THEY'RE SHEER AS CAN BE!
PHOENIX RAYONS

I'm keeping up leg glamour even in wartime with Phoenix rayons. And it's amazing how Phoenix has perfected rayon hosiery. They fit so well—they're delightfully sheer and they wear beyond my hopes. You'll love Phoenix rayons, too, and they're so economical. Try them, won't you?

P. S. Be sure to get several pairs . . . rayons take 24 hours to dry.

\$1.00 the pair
