GOLDTHWAITE, MILLS COUNTY, TEXAS.—FRIDAY, SEPTEMBER 25, 1942

NUMBER FIVE

CPL. NORMAN BLACK 'SHUTES TO SAFETY IN PLANE CRACK-UP

Relatives and hundreds of Mills County friends will joyously receive the information that Corporal Norman Black, son of Mr. and Mrs. Irk Black of the Center City Community, parachuted to safety recently in Louisiana, after an army plane in which he was riding became unmanageable—finally cracking up and burning. Corporal Black, in landing was bruised and scratched, requiring some hospitalization, but was not seriously hurt.

Corporal Black enlisted in the Army Air Corps Mechanics Division in Fort Worth last December; he was sent to Sheppard Field for preliminary training, was sent from there to San Diego, Calif. Upon graduation from that training school, he was given his wings and transferred to Barksdale Field—title, Aerial Mechanic.

Corporal Black talked to his parents Tuesday. He assured them of his safety from the wreck in which the other three members of the crew were killed.

MORE GUARDS DIETICIANS SOUGHT BY U. S. CIVIL SERVICE

To recruit additional departmental guards, at \$1,500 a year, and staff dieticians at \$1,800 a year, the United States Civil Service Commission announces amendments liberalizing original requirements for these jobs.

Wanted particularly are departmental guards for service in Washington, D. C. only. To obtain them the Commission has done away with experience requirements, and simplified physical standards. Now applicants may qualify by passing a general test and satisfying appointment offices of their physical fitness to be guards.

Staff Dieticians in increased numbers are also sought. Applicants who have completed a 4-year course in a recognized college with a major in dietetics may now substitute 1-year of successful experience as dietitian in a hospital of at least 200 beds capacity for each 6-months of graduate training hitherto required. No written test is given.

There is no maximum age limit for either of these positions. Applicants will be accepted until the needs of the service have been met; they must be filed with the Commission's office in Washington, D. C. Applications are not desired from persons engaged in war work unless a change of position would result in utilization of higher skills possessed by the applicant.

Individuals engaged in essential war production activities of mining, milling, smelting, refining non-ferrous metals, and lumbering and logging must note that their applications cannot be approved except when accompanied by certificates of separation issued by the United States Employment Service.

All information as to requirements, and application forms, may be obtained from C. F. Moore, Secretary of the Board of U. S. Civil Service Examiners at the Postoffice in this city, or from the Secretary of the Board of U. S. Civil Service Examiners at first and second class post offices anywhere.

CHAIRMAN PRIBBLE ANNOUNCES CHANGES IN AUTO RATIONING

Under a change in rationing regulations, new automobile purchase certificates will not be granted hereafter to applicants who have disposed of cars adequate for their needs since January 1 of this year, A. T. Pribble, chairman of the Mills County War Price and Rationing Board, announced today.

"The test of the adequacy of such a car will be the same as it would be if the car were now owned by the applicant," Mr. Pribble emphasized.

Mr. Pribble also directed special attention to provisions of this amendment which changes the conditions under which men in the armed forces may dispose of automobiles.

"Hereafter, unrestricted sale of a new car by an inductee into the armed forces will be permitted only when it becomes certain that the seller actually will enter the service," he said.

"Previously an inductee with a 1942 model car could sell it, even to a buyer who could not qualify for a certificate under the rationing regulations, as soon as the seller received notice to report for induction.

"If the seller was rejected on final physician examination but meanwhile sold his car, he would have done so under a provision of the regulation that was intended only for those who actually go into the service."

This has now been changed, he explained, because of the greater number of rejections on physical examination at the induction point.

Another change, also, is that hereafter, members of the armed forces who acquire new automobiles after entering the service will be permitted to sell them hereafter only to certificate holders or members of their own families.

GOLDTHWAITE LADIES IN CAR ACCIDENT

Mrs. L. P. Huddleston and Mrs. M. M. Skaggs visited Mrs. R. P. Moore at Sipe Springs Monday. As they were coming back to Goldthwaite, just out of Comanche city limits, they had a blow-out, slowing down the car, and it turned over on its side. The jar threw Mrs. Skaggs against the reflecting mirror, which caused a serious cut on her forehead.

Mrs. Huddleston was pinned under the steering wheel, but had presence of mind enough to cut off the engine. A tire tool was used to break out the windshield Mr. Barrett took the ladies back to Comanche where an ambulance took them to Gorman hospital for treatment.

Mrs. Skaggs is doing as well as can be expected, while Mrs. Huddleston received only minor bruises. The car was damaged very little.

RATIONING BOARD ISSUES STATEMENTS

A. T. Pribble, Chairman of the Mills County War Price and Rationing Board, called attention to the fact that many persons, either from lack of information or through negligence, are failing to surrender their War Ration Books to the local board when they are inducted into the armed services.

Heirs and next-of-kin also are failing to surrender to the board the books of persons who have died, Mr. Pribble said.

"There have been only 20 ration books surrendered for these causes to this board," he pointed out, "while conservative estimates are that 46 persons have entered the armed services from this county since May 4, 1942."

"Birth registrations and surrenders of books as a result of deaths also are considerably below our estimates of the reasonable expectation."

Mr. Pribble added that the war rationing regulations are very strict in this regard and he expressed hope that the local board would not have to call on the Office of Price Administration to invoke penalty provisions against persons who fail to observe this regulation.

RED CROSS REQUESTS FILE MESSAGES TO PRISONERS OF WAR

Washington — Relatives and friends of prisoners of war or military men missing in action in the Far East are urged by the American Red Cross to go immediately to their local Red Cross chapter to file messages to them. The message will be carried on the exchange ship "Gripsholm", soon to sail on its second voyage.

The procedure for those wishing to send messages is:

First, the message is to be filed with the local chapter of the Red Cross on Form 1616; second, complete information as to name number rank, military unit and last known address must be given; third, where possible, relatives and friends should join in sending one message; and fourth the message must be confined to 25 words.

The American Red Cross announces that these messages will be mailed on the "Gripsholm", addressed to the International Red Cross delegate in Japan, who will make every effort to see that they are delivered. The Red Cross can give no assurance of delivery, but this method has been adopted in agreement with the State, Navy, War, and Post Office departments, because the Japanese government has not furnished official lists of the majority of American prisoners in the Far East.

SUNDAY MARKED THE PASSING OF JAMES WILLIAM WEST, NATIVE SON

In the untimely passing of James William West, Hamilton loses a youth beloved for his courtesy, sincerity and gentility, and his memory will ever be cherished in the town of his nativity and among the people who knew him and who had known through all of the 24 years of his life.

JAMES WILLIAM WEST

Four years ago James West suffered a severe illness of pneumonia. In outward appearance he had fully recovered, and was at all times industriously engaged at his place of employment, the Quick Tire Service Station, where for seven years he had been one of the most faithful, honest and efficient members of the group in the employ of George Chambliss, who loved and trusted the boy as a young brother. Eager to serve his country in the armed forces, James West sought to enlist, but physical disability placed him in a long deferred class, and two months ago his health began falling alarmingly. He was under treatment of physicians here, and at Hillcrest Memorial Hospital in Waco, and passed

away at the Scott and White Sanitarium in Temple, Sunday, Sept. 13, succumbing at last to the inroads made on his constitution by the effects of that illness earlier in life.

Resting in a casket of beautiful flowers, the casket holding the sleeping form of James West was visited by hundreds of greet-

ing friends, who called at his home, 802 Park Road, between the hours of the funeral party's arrival from Temple, and the time of the last rites, held at First Baptist Church on Tuesday afternoon at four o'clock.

In recorded events, the life of James William West began in Hamilton on May 1, 1916 when he was born to William I. West and wife, Ota Olden West. He was a grandson of pioneer Hamilton County settlers, Mr. and Mrs. W. H. West, and Mr. and Mrs. J. M. Olden, of Fairly and Hamilton, now gone to their rest. He finished the required courses for graduation from the Hamilton High School in 1935. James William West and Miss McCasland, of Center City, a teacher at that time in the Pottsville schools, were married on December 21, 1941, and established their home in Hamilton. He was converted and was baptized into the Baptist Church at the age of 14 years, and was a loyal supporter of Baptist programs and a devout worshipper to the end of the few years of his life's span.

Surviving James William West are his widow, Mrs. Mollie West; his parents, Mr. and Mrs. William I. West; a brother, Pvt. Jere O. West, of Enid Army Flying

School at Enid, Oklahoma, and a number of near relatives. To all of these are expressed tenderest sympathy by a legion of understanding friends.

EBONY— (By Clementine Wilmeth Briley)

A cold wind from the north Saturday changed our summer weather to winter and made the fire in the fire place feel good. Hubert Reeves who is working on a defense job at San Marcos, spent the week end at home. Mr. and Mrs. Ralph Wilmeth and children of Brooksmith attended church here Sunday and visited his parents, Mr. and Mrs. J. R. Wilmeth. Mrs. Bennie Huron of San Antonio is visiting her mother, Mrs. Billie McNurten. Mr. and Mrs. Willie Beakley of Placid spent Wednesday night at the Wilmeth home. Mr. and Mrs. Beakley were also included in a group of friends, consisting of Mr. and Mrs. J. R. Wilmeth, Mrs. Edna Dwyer, and Mr. and Mrs. Stanley Reeves, who met at the Briley home Wednesday night for a talkfest with Mrs. Cicero Reeves. Mrs. Irene Reeves spent Friday afternoon with Mrs. Nellie Malone. Leslie White left Monday for McCamey. People in the maneuver area are working frantically to get crops gathered and get out by October 1. Mr. and Mrs. Wallace Perkins have already moved to a place leased near Mullin. Billie McNurten is expecting to move to the Henry Egger place. P. R. Reid has leased the Crowder place until January 1. Cloud Mashburn, who is so busy gathering his crop that he does not have time to look for a place is moving his stuff temporarily to the home of his daughter, Mrs. Alvin Ketchum. The Beemans will move to an apartment in Brownwood. We have hopes now of retaining the Ebony post office, though it will be moved further down the road out of the maneuver area. The most outstanding event of the past week was our farewell supper at the tabernacle Thursday evening. The crowd attending surpassed our fondest dreams and all the community, both old

and young, seemed to be present. And not only the community, but also friends from far and near. It was decidedly the largest crowd assembled here for many a day. The feast spread was amazing. Ebony has long been noted for the abundance of good things to eat put out at her community gatherings, but this seemed to be bigger and better than any before. The time was spent in talking with one another and meeting old friends. We were fortunate to have with us Mrs. Cicero Reeves, who was visiting here from Colorado. Perhaps no other person is so universally loved here as "Miss Sallie" and it was a great pleasure to many present to see and talk with her again. She is a great talker, always intensely interested in everyone. And she has the talent of saying something nice about everybody. Among the visitors present were Mr. and Mrs. Raleigh Egger and daughter, Pat; Mr. and Mrs. Wister Egger; Mr. Daz Oliver and son, Elton; Mr. and Mrs. Clifford Crowder, Billy Burl Crowder, Grace Briley, and Clayton Egger, all of Brownwood; Mr. and Mrs. Joe Horton and children of Bangs; Mr. and Mrs. Henry Egger and Mrs. M. L. White of Regency; Mr. and Mrs. Ross White and Mrs. Hammond of Bowser; and Mr. and Mrs. Ira Ratliff of Sloan Ranch, San Saba County, and their daughter-in-law, Mrs. Brooks Ratliff and children of Velasco. Mrs. Cicero Reeves left Friday morning for her home in Colorado. She was accompanied as far as Dalhart by Grandmother Reeves, who goes to Texhoma to spend the winter with her daughter, Mrs. Sam Hodges. Mrs. Elizabeth Ketchum of Brownwood spent the week end here. She says she has heard from her son, William, and he is in England. Bill has been in the army only a short time. Wayne Roberts left Tuesday for Camp Wolters. Lieut. Lillard Wilmeth writes that he is stationed at Camp Wolters. Mrs. Wallace Perkins, president of the H D Club, announces that we will not have the club

State Department Health Notes

Because of the fact that a venereal disease is no respecter of persons, people of every class and color, rich and poor, educated and ignorant are numbered among its victims, asserts Dr. Geo. W. Cox, State Health Officer.

"Venereal diseases, of which syphilis and gonorrhoea are the most commonplace, are among the most vital health problems of the State of Texas today," Dr. Cox said. "This state has been chosen as the location for dozens of army camps, training fields, naval bases, shipbuilding yards, airplane construction plants, and other major defense industries. The resulting influx of workers and armed forces has emphasized the need for exerting every known means in the control of venereal diseases."

The State Health Officer pointed out that self diagnosis and self treatment are extremely dangerous and advised consulting a physician for determining definitely whether or not a venereal disease is present.

"Only a reputable physician can properly diagnose such a disease. The presence of gonorrhoea is not disclosed by a routine blood test, and the diagnosis of syphilis requires more than a blood examination," declared Dr. Cox. "Both syphilis and gonorrhoea are almost 100 per cent curable if discovered and treated in their very earliest stages. And thousands of deaths annually could be prevented," Dr. Cox said. "If sufficient attention were given to the early diagnosis and thorough treatment of syphilis, delay reduces the chance of cure and in many cases is the direct cause of death."

Mrs. J. H. Randolph spent the first of this week in Austin visiting her sister, Mrs. Haskell Smith, and Mr. Smith.

CHRISTIAN SCIENCE RELIEF REACHES OUT TO FAR PLACES

The hand of comradeship is being extended to allies in northern Russia and to refugees from Singapore by Christian Science War Relief Committees to help the spread of relief activities throughout the United Nations world.

Financial aid for relief is also being sent to China by the War-time Fund of the Mother Church The First Church of Christ, Scientist, in Boston Massachusetts. As responsible Christian Science relief committees on distribution are established in countries other than Great Britain, where aid was first sent, shipments of clothing and other supplies are being made.

Prime Minister Winston Churchill has asked that all shipments to Britain, other than war necessities, be curtailed. The Red Cross and the British War Relief Society are exempted, however, and the latter has agreed to continue to share its space with the Christian Science War Relief Committee.

As a result the Committee urges local workers in scores of cities and towns to continue their efforts, confidently expecting that the clothing will still reach the British Isles.

Clothing for Russia On the first shipments to a destination other than Britain was made recently when forty cases of warm clothing were dispatched to northern Russia.

Men and women who had fled from Singapore as the Japanese armies bore down on that fortress, reached South Africa recently, there to receive aid from the Christian Science War Relief Committee of the Southern Rhodesia.

Shipments are impossible to China, but considerable sums of money have been contributed to China Relief.

Future shipments to Britain will contain only the most essential articles. These include pajamas, clothing for children 5 to 15 years old, men's and boys' suits, boys' blouses, girls' pinafores, coverall aprons for women and underclothing.

Other goods are still desired in Boston and other shipping depots. What cannot be shipped will be stored until such time as the submarine menace is wiped away and the route once more cleared for humane ship-

ments. Relief needs are expected to be especially great after hostilities cease.

Appreciation Shown How deeply the British people of all denominations have appreciated the help sent them from Christian Scientists in America is mirrored in letters which still flow into Committee offices in large numbers.—Christian Science Monitor.

Mr. and Mrs. B. B. Bateman of Oklahoma spent last Thursday with his mother, Mrs. J. M. Bateman.

What You Buy With WAR BONDS

The Army's fighter planes are the finest in the world and develop speeds up to 400 miles an hour. They cost approximately \$100,000 each, provide fighter escorts for the huge flying fortresses, and combine speed, range, altitude and blistering fire power.

America's plane production plants are working over-time turning out thousands of these fighter planes. War Savings Bonds will help pay for them and the American people are committed to at least ten percent of their income to finance their cost in War Bonds. Every American, buying his share every day, will make it comparatively easy to supply our army and navy air corps with these supreme Eagles of the air.

Hilda Irma Kluge Weds Sgt. Perkins at Phillipsburg

Wearing her mother's satin and lace wedding dress, which was also worn by another daughter of the Kluge family, Miss Hilda Irma Kluge, daughter of Rev. and Mrs. A. T. Kluge, became the bride of Sgt. Ned S. Perkins, of Post Medical Detachment, Fort Sam Houston, in a ceremony at St. Paul's Lutheran church at Phillipsburg, at four o'clock Wednesday afternoon. The bride's father, pastor of the church, officiated with the double ring ceremony. The bridegroom is the son of Mr. and Mrs. C. W. Perkins of Newgulf.

The bride was attired in ice blue slipper satin, with overdrape and veil of heirloom lace, the beautiful dress Mrs. Kluge wore when she was married and also carried her mother's white satin prayer book, overlaid with a spray of white asters.

R. J. Kluge of Sweeney, brother of the bride, attended the groom as best man. Matrons of honor were Mrs. Wanda Klendening, sister of the bride, and Mrs. Eleanor Gibson, sister of the groom. Mrs. Erna Polk, another sister of the bride, played the Bridal Chorus from "Lohengrin" and Mendelssohn's Wedding March.

R. J. Kluge presided over the three-tiered wedding cake, ornamented with a miniature bride and groom, which centered the lace-covered table at the Kluge home. Miss Norma Lee Kluge served fruit punch from a crystal bowl. Only immediate relatives were present.

After a trip to points in South Texas, Sgt. and Mrs. Perkins will be at home in San Antonio, after September 10. — Brenham Banner.

The Kluge family have many friends at Priddy and elsewhere in this county. Rev. Kluge was pastor of the Lutheran Church at Priddy.

The Approaching Farm Crisis

(by GEORGE C. HESTER)

One of the unfortunate things about the price control program is the way in which the whole farm issue has been clouded by misleading statements on the part of those who pretend to know what should be done. Many eastern writers and commentators, for example, have talked much about parity prices for farm products. The people generally have been given the impression that anything above parity prices is nothing short of out-right war-profiteering by the farmers of America.

The first task in appraising any problem is to know the facts. As applied to farm prices, parity is merely a standard of exchange value. The exchange value of any farm commodity is assumed to be at parity when the price is high enough to give the farmer the same purchasing power he had in the base period of 1909 to 1914.

Granting that agriculture was fairly prosperous in that period, there are other considerations that are usually overlooked. In the first place, American standards of living generally were far lower in that period than at present. In the second place, the farmer has never received a fair share of the total income of this country. He did not receive it in 1914, he does not receive it now. This is a hard, cold and inescapable fact that must be taken into consideration if we expect to approach anything like a fair solution of this important problem.

The farmers of America, for example, constitute about 23 per cent of the entire population. Over a third of the population is dependent directly or indirectly on the farm. In the South and West the number is over one-half.

In 1939, considered a fairly prosperous year for the farmers, they received about 8.5 billion dollars in cash farm income. This was about 12 per cent of the total national income, which was approximately 70 billion dollars that year. In other words, 23 per cent of the population received 12 per cent of the income and that after ten years of governmental experimenting with the general problem of farm parity.

This year, 1942, the total national income will be about 115 billions. Of this amount the farmers' share, under the wartime prices, is estimated a about 15 billions, or some 13 per cent of the total. This means that the average farmer and stockman are today receiving about one-half of their pro-rata share of the national income.

In the face of such facts, Mr. Leon Henderson recently contended vigorously before a committee in Congress that farm commodities now are too high and should be cut back to parity. Just what would such a program mean in specific prices? Beef cattle, for example, a leading product of Texas, sell today at 137 per cent of parity, hogs sell at 128 per cent, and lambs at 135 per cent. Even at these above parity prices, the country is facing a meat shortage. If parity were established for such meats, beef cattle now selling at a figure of \$11.30, would be cut back to \$8.24 per 100 pounds. Similarly, hogs would be reduced from \$14.13 to \$11.05, veal calves from \$12.91 to \$10.28, and lambs from \$12.07 to \$8.94 per hundred-weight. Cotton is selling at about parity, but cotton seed would be reduced from \$44.04 to \$34.28, while wool would fall from 39c. to 27c. per pound.

Fortunately, the President's formula, now being incorporated into the pending legislation, which permits farm prices to be fixed, either at parity or at some recent price level of this year whichever is higher, will avoid the ruinous declines as indicated by the relative parity figures quoted above.

There are other factors, however, involving agriculture in war time economy, that should be of profound concern to all of us. An outstanding feature of every war has been the growing crisis in food shortages. That crisis today is already appearing on the horizon. Lend-Lease shipments of food are increasing, and countries like England and Russia will demand much more. Domestic consumption is increasing; at the same time food production faces an inevitable decline. The army and the defense industries are digging deep into the farm labor supply. When mere boys can secure wages of \$6.00 to \$8.00 per day in a defense industry, for, as General Hershey says, "working short days and loafing long week-ends," they cannot be expected to stay on a farm and work long hours against all the hazards and uncertainties of crop failures, especially when the farmers are told that they should be content with living standards of the horse-and-buggy era. The farmers' 8-hour day, we should be reminded, comes in the afternoon, with the mornings thrown in. Under no circumstances can the farmer or stockman today compete with industrial wages.

As the army grows, more essential farm labor will be taken. Already farmers are unable to secure labor. As a result more and more farmers are going on a partial production basis. Farmers everywhere are passing out of existence. Nearly every ranch in Texas is under-manned.

Slowly but surely this war is growing into the pattern of a long drawn out struggle, a struggle in the end that production will decide. Things are occurring to agriculture that should give the leaders of our nation concern. We are bucking one of the greatest economic tides of our history. It is the sheerest sort of folly in times like these to create scarcities in farm commodities.

The solution that will be offered, of course, is to ration and thereby build still higher the entangled mesh of official bureaucracy that already is withering enterprise, killing incentive, and uselessly consuming into government jobs the much needed man-power of the nation. A little down-to-earth and common-sense thinking, that would at least recognize the law of supply and demand, as well as the incentives of production effort, might solve the problem much more satisfactorily. In the growing crisis of food production, this too is a long time defense problem second to none.

Cut down the service calls by handling cords and appliances carefully. In storing or using appliance cord it is best not to bend or kink it sharply. This causes the fine wires inside to break, making the cord useless. A cord should never be jerked from an outlet or appliance by the cord itself.

MORGENTHAU SAYS THE VOLUNTARY WAR BOND PROGRAM IS SUCCESS

On September 11, 1942, Secretary Morgenthau issued the following statement:

"The impression seems to have spread that I regard the voluntary War Bond program as a failure. This is not only a distortion of anything I have said on the subject but it is also an injustice to the hundreds of thousands of devoted volunteers in all parts of the country who are working night and day to enlist the nation's savings for the war. In view of our swiftly rising war expenditures I have said that the voluntary War Bond program alone cannot close the gap between the amount of money available for consumer spending and the supply of goods available for civilian use. I have said that it must therefore be supplemented by a more drastic and comprehensive tax program, including a tax on spendings, a part of which would be treated as a debt to the tax payer and repaid after the war. We shall, however, continue to rely upon voluntary lending for a large part of our financing. The mounting requirements of the war demand that our sale of War Bonds be continued and intensified. As I said to the Senate Finance Committee last week, it is my belief that the voluntary War Bond program has produced and will continue to produce a great contribution to the nation's war efforts. Regardless of the other measures that are needed, the voluntary savings program will be essential until the war is won. To our hundreds of thousands of War Bond volunteers, I should like to say that the nation is counting on them more than ever to carry on the magnificent work in which they are unselfishly engaged."

If such an impression as that referred to in the Secretary's statement prevails in your community, your assistance in correcting it will be very much appreciated.

Lesson for September 27

JOSEPH: AN EXAMPLE OF FORGIVENESS

LESSON TEXT—Genesis 45:1-15; 47:11, 12.
GOLDEN TEXT—Be ye kind one to another, tenderhearted, forgiving one another, even as God for Christ's sake hath forgiven you.—Ephesians 4:32.

Forgiveness, opening the way for the restoration of fellowship and the showing of kindness, brought the story of Joseph and his brethren to a happy ending. Under the good hand of God the story which began with tragedy is brought to a conclusion of blessing.

Following the earnest plea of Judah, the heart of Joseph could no longer withhold itself from the full expression of affection and devotion to his family.

I. Love Overcomes Fear (vv. 1-4). Joseph tenderly shielded the family troubles from the eyes and ears of strangers by sending out the Egyptians. It was the first step of consideration which paved the way for reconciliation. How often just the opposite is done—airing family affairs before the world, and humiliating those who may be in the wrong, thus making it difficult for them to admit their guilt.

Then, too, this was a moment too tender and delicate to be seen by outsiders. The tears of a strong man like Joseph mean a deep movement of spirit—a solemn and often a sacred moment.

It should also be noted that the brothers were afraid, and well they might be, because of their sin against Joseph. After almost 50 years these unrepentant men found themselves face to face with the one whom they had supposed they had disposed of, and they knew their sin had found them out. It always does, sooner or later, but inevitably.

How great and noble was the forgiving love of Joseph; an example to us, especially appropriate and needed in a world of hate and bitterness.

II. Grace Overrides Sin (vv. 5-9). The guilt of these men was none the less and Joseph could not remove it, but he encouraged them by showing how God had used their evil devices to work out His own good pleasure. He can make the wrath of man to praise Him (Ps. 76:10).

It is worth stressing again that in the very hour when the prospects for Joseph's future usefulness seemed ruined, God was opening the door to the greatest experience of his life and was preparing him to serve the thousands whose lives were saved by his wisdom and ability in the years of famine.

Nothing is more important in the life of a child of God than to be yielded to His will, unmoved by circumstances, abiding His time, responding to His guidance whether it be by the opening or closing of doors, prosperity or adversity. And herein is the marvel of it all—even sin may be overruled by God's grace for His own glory. That does not invite anyone to sin that grace may abound (Rom. 6:1, 2), but it does offer encouragement to the one who has fallen, that God can redeem the years that the locust have eaten (Joel 2:25).

Our lesson also sets us an example of how true forgiveness acts, something we need. So often when forgiveness is asked or granted there is an "I can forgive but I can't forget" attitude, which means that while hostilities have ceased, at least temporarily, there is no real friendship or the disposition to show kindness. Is there any real forgiveness at all in such an attitude of heart and mind? We fear not.

III. Kindness Provides the Best (vv. 9-15; 47:11, 12).

It might have been enough to send food and a kind greeting with the brothers to their own land, but love does not seek the minimum expression of its feeling. It asks not how little, but how much can I give or do.

Bringing his aged father and brothers into the land of plenty was not enough. Joseph also gave to them the "best of the land" (47:11). His thoughtful consideration in sending for his father (Gen. 46:5-7) was part of the same piece of kindness.

Joseph puts to shame the modern "hard-boiled" attitude toward needy and aged members of the family. In their eager and relentless pursuit of fame or riches, many ignore or trample upon the members of their own families. Often they are ashamed of the broken bodies, the humble apparel, the broken or uneducated speech of their parents. They fear lest their new-found friends in the circle of wealth and supposed "position" will think them strange or ridiculous. God pity the man or woman who is ashamed of a humble or aged father and mother!

Joseph, who really had an exalted position gained by merit and by the blessing of God, never forgot his place before God as a son in the family and as a brother. Let us consider him and do likewise.

HOW ABOUT THIS BUSINESS OF ADVERTISING?

There are a great many people who think that advertising isn't very necessary, now that so much merchandise has either been put out of production or curtailed, and the rest is protected by price ceilings. The fact is that folks want to know more about the substitutes they can use — they want more information about how to conserve what they already have. They want to buy quality goods and they want to know where to buy. Tell them in your advertising.—Gladewater Daily Times-Tribune.

"UNIONIZED COWS"

John L. Lewis is now trying to unionize the milk industry throughout the country. If he succeeds, every bottle of milk delivered will have a union label certifying that there has been no non-union contact from the cow pasture to the doorstep.

The idea is to have milk from union farms handled by union dairy hands and delivered by union milkmen. The new slogan may be "Milk from Union Cows, Contented or Not."

We can imagine a union cow, chewing its cud in a union meadow, swishing a unionized tail and lowing in tones approved by the Musicians Union.

We can picture union clover, union brooks, union hillsides and union hay.

Whoever thought the cow barn would some day become a closed shop?

What would grandpa have thought if somebody had predicted that the walking delegate would wind slowly o'er the lea, that the cow would jump over the moon only if it had a union permit and that the milkmaid's answer to "May, I go with you" would have been "Not unless you are a member of the union in good standing, Mister."

Somehow we find it hard to gaze over the rolling country these spring days and take in the bucolic scene without feeling that, although he is not there in person, the spirit-form of John L. Lewis flits through the meadows, looks disapprovingly on the gusto of the rushing brook, and, wielding an invisible rubber stamp puts an "Okay, J. J. L." n the flank of every muley.

Whispering into the ear of every cow the wonders of the five-day week and warning the bull to take orders only from its local board.—H. I. Phillips.—TEXAS PROGRESS.

A large percentage of the service calls made by repairmen who work on electrical equipment can be traced to trouble in cords and their connections.

It is never advisable to overload any outlet with several extension cords, because the appliance may be damaged as a result.

Taking good care of electrical appliances is in line with the Victory Demonstrator's pledge signed by thousands of rural homemakers in Texas, for it will make them last longer and give better service.

Definite war news, I have none. But my aunt's sister's washer-woman's son
Heard a policeman on his beat say to a laborer in the street That he had a letter in either Latin or Greek, from A Chinese coolie in Timbuktu. Who claimed that the natives of Cuba knew
A colored man in a Texas town. Who got it straight from a circus clown
About somebody in Barneo Who had a friend who claimed to know
Of a swell society female rake Whose mother-in-law would undertake
To prove that her second husband's niece
Stated in a printed piece She had a son who had a friend Who knew when the war was going to end.

The San Saba Armadillos will meet the Brady Bulldogs in the second game of the season for the locals here on Friday night, after suffering a 7-0 defeat at the hands of Dublin there on last Friday. A. P. (Jolk) Locklear, who has led the Armadillos to district, bi-district and regional honors during his ten years or more of coaching here, is assisted by Sherman Rimes, a graduate of the local high school, who has been teaching in Mason.—Star.

Jack Wade, son of Mr. and Mrs. Wilson Wade of San Saba, escaped serious injury about 6 o'clock yesterday afternoon, on Wednesday, when the horse he was riding became frightened by a pickup honking behind him and fell under an approaching auto east of town, near the C. C. Taylor Station.
Randolph Field, Texas, Sept. 9.—Among the eight Texans in the 3rd graduating class of Service Pilots School here today was James J. Dalley, son of Dr. and Mrs. J. L. Dalley of San Saba who received his commission and Silver Wings in the Army Air Forces.

A substantial boost was given the Red Cross Army Kit drive by members of the San Saba Rotary Club this week when it was agreed that they would purchase 400 copies of the pocket edition of the "Story of Mankind" by Henrik Willem Van Loon.
Nearly 100 per cent of the San Saba school children and students took advantage of having the tuberculin test administered to them free of charge, when the P. T. A. sponsored same this week.—News.

Comanche—
Comanche junk dealers and the W. P. A. junk foreman report a forty per cent increase in the collection of scrap metal since the drive began last week.
Despite the record number of Comanche youths in the Army, Navy, Air Corps, and in Defense Work, approximately 55 young people will leave within the next week or various colleges and universities throughout the nation.
Delmar McDaniel, who has been with the local AAA office for several years, has been made head of the Brown County AAA office and has already taken charge.
Staff Sergeant Lewis H. (Pug) McMillan, 1939 Comanche High School graduate and star player on the Comanche Indians' 1938 district championship football team, has landed in England.—Chief.

Hamilton—
James William West, son of Mr. and Mrs. W. I. West, was born May 1, 1916. He succumbed Sept. 13, 1942, at Scott and White Hospital in Temple.
The deceased was baptized into the Baptist Church at the age of 14. He finished Hamilton High School in 1935 and for the past seven years has been an employee of the Quick Tire Service Station.
James William was married on Dec. 21, 1941, to Miss Mollie McCasland of Center City.
The criminal cases disposed of were: The State of Texas vs. Charles O. Riley, charged with theft of 21 automobile tires. He entered a plea of guilty and Judge Cross assessed punishment.
More than 500 young Texans already have filed applications for the 70 vacancies to be filled soon in the Texas Highway Patrol, State Police Director, Homer Garrison, said today.
September 30 was set as the last day on which applications will be accepted. Highway Patrol Chief Hill Foreman hopes to begin a seven week training school for the recruits on or about November 1.
If you go for rhymes with your greeting, here's sump'n we think up:
Russians are red,
Germans are blue,
Italians are yellow,
Merry Christmas to you.—Camp Bowie Blade.—Record.

ROCK SPRINGS—
By MRS. EULA NICKOLS
(Intended for last week)
We extend sympathy to all of Miss Curley Doggett's brothers and sisters and other relatives in her passing away. All who knew Curley loved her.
Last Saturday morning at 2:00 my phone rang very plain and loud. I answered it just as quickly as I could. The voice I heard was my grand son, James Roberts, who had not been heard from in some time. He was some place in California. He also talked to his grand father, John Roberts. If nothing happens he will visit his mother in Abilene some time soon. We hope it can be arranged so we can all get to see him. His stay will be just four days. He is getting a ten day furlough.
Bro. Leslie Sparkman preached Sunday and Sunday night. I am sure his sermons were fine. I did not go to either service. He and family were dinner guests in the Cooke home.
Mrs. Bill Daniel and Billie Ruth had business in town late Monday afternoon.
Mrs. Earline Roberts and John and Janette from Abilene spent the week end in my home and John Roberts. Those who came Sunday to be with Earline were: Duke Clements, Dwight Nickols and wife, Philip Nickols and wife from town. After supper Sunday night, Otis and Besse Hutchings from Center Point visited until bed time with us.
Barney Tippen and Clyde Cockrum stayed at the observation post last Thursday afternoon from one until four.
W. M. Keen and wife moved this week to their new home, which they bought from Marvin Spinks.
Jim Gatlin visited his mother and sister in town Monday.
Marvin Spinks and family moved to their new home in town last week. We hope they like city life.
Pat Medford and Mrs. Grey were dinner guests Sunday in the Roberts home.
M. R. Circle and wife spent Sunday afternoon in town with their daughter, Mrs. Dan Holland.
Mrs. Eula Nickols visited with Mrs. Jesse Cockrum Monday afternoon.
Mrs. Sam Self took care of Mrs. Shipman Sunday afternoon.
Mrs. Nblan West and her son, Haskell Gatlin, from Coleman, spent the week end in the McGowan home. Haskell left for Mineral Wells Tuesday.
J. F. Davis and wife and their grandsons spent Sunday afternoon in the Nickols home.
Charles Conradt and family moved to the Sellers house in Big Valley last Saturday. He is teaching there again this year

INDUSTRY AND BUSINESS AFTER THE WAR

Every American knows that the manufacture of automobiles has ceased for the duration of the war. The great automobile industry which in 1940 produced and sold more than 3½ million cars, has been re-tooled to produce airplanes, guns, tanks and munitions of war. Where will these companies get the money necessary to resume the manufacture of automobiles when the war is ended?
The automobile industry happens to be important, and there are thousands of smaller industries which will also face the same problem.
What will the millions of workers do when the demand for war machines stops?
What will happen to the domestic market for farm products when those millions of war workers no longer have jobs?
The stage seems set for an even worse depression after World War I than we suffered after World War I unless right now we start to plan about these surpluses.
It is comforting to learn that Congress is now considering some plan to prevent, or at least to ease, any after-the-war depression.
War Profits for Peace-Time Recovery.
The best plan seems to contemplate the dedication of a portion of war profits for the purpose of providing industry with the ready cash on hand to quickly change to peacetime activity and thus lessen the shock to manufacturing and agricultural surpluses when the war is ended.
A Recovery Bond program has been suggested whereby each industry, big and little, will be required to invest at least 20 per cent of its war profits in Recovery Bonds which do not bear interest until the war is ended and which cannot be sold by the purchaser until peace is declared.
Such a plan would build, at the rate of almost a billion dollars a year, a huge recovery reserve to convert war industries to peace production, launch new products and maintain employment. It would place this reserve immediately and automatically in the hands of those businesses and industries with the greatest after-the-war needs.
The moment peace is declared the "time lock" automatically releases this recovery reserve, the bonds become negotiable and begin to draw interest. Purchasers holding them will then treat them like any other Government bonds, to be sold or used to borrow money. There would be no waiting for a post-war Congressional appropriation, no red tape, and no delay in launching the business and industry offensive that may turn threatened depression into unrivaled prosperity.
The plan is simple, practical and fair.
During late years science and research have discovered many new uses for present major farm crops and many new crops which can be used in industry. A plan of this character places immediately in the hands of industry the resources which can be used to finance further research and to plan for the conversion of surplus crops, surplus factory buildings and the employment of war workers in new and useful enterprises whenever this war shall cease and normal peacetime industry, business and agriculture shall be resumed.
This problem deserves the thoughtful consideration of every American. If we can have the assurance of reasonable security in the after-the-war recovery period we can throw ourselves into an all-out effort to win the war and feel that by so doing we have secured "the blessings of liberty to ourselves and our posterity."

TOOL USERS AND TOOL OWNERS
In a recent advertisement signed by a well-known business concern, this statement appeared: "My boss has 14 Grand tied up in me."
What that slangy use of words meant was that the average employee in industry represents a capital investment—in property, plant, machinery and equipment—of \$14,000. In other words, labor has jobs only when some business man, or group of investors, puts up the money necessary for the creation of jobs.
It was well said recently, by a student of economics, that men in governmental authority too often forget that while the rights of workers are being considered, the owner of the tools used by workers must also have some consideration.
After this war is over, the plants now devoted to military needs must be re-converted to peacetime activity; must be re-tooled for the kind of production they were engaged in when it became necessary to tool up for war. Labor will expect peacetime jobs then, but somebody must provide the money for re-converting and re-tooling. That money cannot be forthcoming unless enough profits or capital can be stored up to meet such requirements.

The First Job
Americans are impatient people, says the Farm Journal. Impatience never won a war. Soundly planned action, backed by enough power, wins victories. The job now is not to remake America, but to save it.

FARM SECURITY ADMINISTRATION TO HELP FARMERS PRODUCE FOOD

Farm Security Efforts to be Aided at Production of Food and Feed for Freedom
Every man, woman and child has a definite part to play in winning the war. Upon our farm families will fall the responsibility of feeding not only OUR NATION, but the ALLIED NATIONS as well.
The Farm Security Administration stands ready to help those who want to produce food and feed for freedom.
We know there are a number of farmers and small ranchers who want to do their part in winning this war but they are unable to get the financial help needed to enable them to carry on.
It is the aim of the farm security to help those who can't get help elsewhere.
The men and boys in uniform are giving their all. Let's do our part for them.
RAY F. CHRISTIAN,
Rural Supervisor, Farm Security Administration.
J. E. Oquin and his son-in-law O. E. Dunlop of Lamesa, were in the home of Mr. and Mrs. Walter Weatherby this past week end. They left Monday.

Mr. and Mrs. Albert Hunt received a letter from their son, Roy Hunt, who has received an officer's position. He is somewhere in the Pacific.

Miss Louise Skipper of HPO spent the week-end with her parents, Mr. and Mrs. John Skipper, who motored her back to Brownwood Sunday afternoon.

THE TOWN THAT LET HIM DOWN

HE: Well, here's the city limits. Tomorrow I can see my customers around town. Are you tired?
SHE: Not very. Does the car need anything?
HE: Yes, it does, but the map shows no Conoco station here.
SHE: You and your Conoco Nth oil . . . but I don't blame you . . . the way this car performs.
HE: Here's the hotel, and a garage right across. Let's leave the car there, eh?
ATTENDANT: Good evening! In for the night?
HE: Yes. Fill the tank, grease her, check the oil, but don't drain.
ATTENDANT: What brand do you use?
HE: Conoco Nth.
ATTENDANT: Sorry, haven't got it . . . but this is the last straw, mister. You're the fifth driver this week demanding Conoco Nth. Seems like everybody knows about that Death Valley Test, when six engines were run to destruction. Conoco Nth out-miled the average of five other brands more than two to one. I'm going to get some in stock.
HE: Sure, your regular customers, too, will want Conoco Nth to OIL-PLATE their engine.

ROCK SPRINGS

By MRS. EULA NICKOLS

Wasn't the norther fine? Of
 course some didn't enjoy it. But
 I really did. Some had a fire. I
 hope the coolness continues.
 We hated to hear about Mr.
 and Mrs. Lee Berry's house
 catching fire early Sunday
 morning in town. We hope it
 won't be long until they can get
 it fixed.

This community has always
 been on the map and not behind
 the times. Our neighbor, Wal-
 ton Daniel, has taken several
 bales of cotton to the gin in the
 last few days.

Little John David Davis came
 Saturday morning to make his
 home with his father and
 mother, Mr. and Mrs. Joe Davis.
 He weighed ten pounds. His
 grandmothers, Mmes. Stark and
 Davis, are taking care of the
 babe.

M. R. Circle has gone twice to
 Temple lately to see his daugh-
 ter, Mrs. Dan Holland, who is in
 the hospital. We are glad she
 can come home soon.

Oscar Gatlin from Winchell
 visited with his brother, Jim,
 this week.

Christine Traylor spent Mon-
 day night in Cecil Denson's
 home in town.

W. A. Cooke is visiting his sis-
 ter, Mrs. Dan Weston, in San
 Angelo, and his son, Herbert,
 and family at Eola.

James Nickols and Woodie
 Traylor papered a house at Mo-
 line last week for Paul Kinche-
 loe.

B. A. Meeks and family from
 Fort Worth visited in the Mc-
 Clary and Salters homes.

George Austin Cooke has been
 sick this week. We hope he will
 soon be well.

I visited with Mrs. Jesse Cock-
 rum Tuesday afternoon.
 Barney Tippen finished mov-
 ing to the Pierce place last week
 from Ebony.

James Nickols and family spent
 Sunday in the Tyson home at
 Williams Ranch. All the Tyson
 children were home together
 once more.

Mrs. Richard Sanders and chil-
 dren spent Tuesday in Loy
 Long's home in town. She met
 her mother and father, Mr. and
 Mrs. Ellis, there.

I dined Sunday with Otis and
 Besse Hutchings at Center
 Point. In the afternoon we went
 to South Bennett and visited in
 the Hill home.

Otis Hutchings gathered corn
 for Mrs. Nickols Thursday.
 Sam Self had business in the
 city all day long Monday.

J. T. Stark and James Nickols
 traded hogs this week. I don't
 know which one got cheated.

JONES VALLEY

By MRS. GEORGE BROOKS

Bro. Jay Donally of Brown-
 wood preached two fine sermons
 Sunday. He visited in the I.
 Portwood and H. Hale homes.

Mr. and Mrs. H. Hale enter-
 tained with a party Saturday
 night. Everyone had a fine
 time.

Mr and Mrs. J. D. Berry spent
 Saturday night with her parents,
 Mr. and Mrs. O. B. Bell.

Sunday was visiting day with a
 lot of folks. Mr. and Mrs. E. D.
 Ferguson, Sr., and Mr. and Mrs.
 I. Portwood and Vernon Mar-
 shall took dinner with Mr. and
 Mrs. A. Wilcox.

Bro. J. Danally, Mr. and Mrs.
 George Brooks and children took
 dinner with Mr. and Mrs. H.
 Hale Sunday.

E. D. Ferguson and Raymond
 Wilcox spent the day Sunday
 with Horace Brooks.

Mr. and Mrs. Bradbury and
 family of San Angelo spent the
 last week-end with her parents,
 Mr. and Mrs. Tip Roberts.

Mrs. C. P. Barcroft visited
 Mrs. O. B. Bell Thursday.

Boyd Portwood, who has re-
 cently joined the Coast Guard
 and located in Louisiana, came
 home Wednesday on a furlough.
 He returned Friday. Raymond
 Wilcox, E. D. Ferguson and
 Horace Brooks visited him Wed-
 nesday night. Friday Boyd and
 Mr. and Mrs. I. Portwood went
 to Lampasas to visit friends and
 relatives.

Sydney Brooks spent Friday
 night with Vernon Marshall.
 Robert Roberts returned last

CENTER CITY—

By Mrs. J. M. OGLESBY

Our first norther arrived last
 Saturday, which called for
 warmer clothes. Many wore
 winter coats Sunday and Mon-
 day.

School dismissed Monday in
 order that the cotton and corn
 be gathered. Cotton is opening
 last and many started picking
 last week.

Mr. and Mrs. W. W. Head re-
 ceived a letter from their son,
 Talmage, stating he had been
 promoted to first lieutenant.
 Talmage has made good, and we
 rejoice with Mr. and Mrs. Head
 over his success.

The Baptist Church had Bro.
 Nalley, a visiting preacher from
 Zephyr, to preach last Sunday.
 This church is without a pastor
 and it is hoped they will be able
 to obtain one interested to pro-
 mote the success of all.

Mr. and Mrs. J. W. Coffman
 and Mrs. Herbert Coffman re-
 ceived letters last week from
 Herbert and Wayne Coffman,
 who are somewhere serving their
 country.

Mr. and Mrs. Ira Allredge vis-
 ited Mr. and Mrs. Joe Wild last
 Sunday.

Miss Clea Geeslin visited her
 parents, Mr. and Mrs. Hubert
 Geeslin, the first of the week.

Tom Booker and family visited
 in the home of Morgan McNeil,
 near Gatesville, Sunday.

Mrs. John Walton visited her
 parents, Mr. and Mrs. Bob John-
 son, near Goldthwaite one day
 last week.

Mrs. Allen Carter visited with
 Mrs. J. M. Oglesby Saturday
 morning. She is expecting her
 daughter, Mrs. Winnie Price, and
 children of Houston to come this
 week. Mrs. Price is bringing her
 daughter, Miss Ila Jean, to
 Stephenville, where she will en-
 ter college.

Lindon Head and Herman Col-
 lier are preparing to enter Tar-
 leton College in Stephenville.

Our deepest sympathy is ex-
 tended to Mrs. James West in
 loss of her husband by death.
 They were happily married only
 a few months ago and lived in
 Hamilton. She is known to us
 as Molene McCasland, and has a
 host of friends who regret very
 much to learn of her sorrow.
 May our Heavenly Father com-
 fort all his loved ones.

Mr. and Mrs. C. M. Head en-
 joyed a visit with a number of
 their children last week. Ar-
 nold came home from his work
 in California and spent the
 week. Mrs. Laura Mason of
 Vista, Mr. and Mrs. Bill Spark-
 man and children of Winden,
 Rev. Travis Sparkman and fam-
 ily, Mr. and Mrs. William Hug-
 gins of Brownwood were among
 those who visited in that home.

CARD OF THANKS

We wish to thank our many
 friends for their kind deeds and
 expressions of sympathy in the
 death of our brother and son,
 Roy McNutt.

MELBA THEATRE NEWS

"SHIP AHOY"

A delightful combination of
 dancing and music by Eleanor
 Powell and Tommy Dorsey's or-
 chestras, with comedy by Red
 Skelton, is on the bill at the
 Melba Theatre where the Metro-
 Goldwyn-Mayer musical comedy,
 "Ship Ahoy," will be shown on
 Monday, Tuesday and Wednes-
 day.

Miss Powell offers five com-
 pletely new dance routines. In
 one she actually taps out a
 Morse code message, to notify
 her friends that enemy agents
 are operating. There is little at-
 tempt at serious plotting, the
 whole arrangement being hap-
 pily dedicated to mirth.

Red Skelton, as usual, inimi-
 table in his comedy role as the
 suitor of Miss Powell, Virginia
 O'Brien and Bert Lahr add to
 the amusement, she sings a com-
 edy number while Lahr carols
 "I'll Take Tallulah."

"RINGS ON HER FINGERS"

A bell-ringer for the fans if
 there ever was one is 20th Cen-
 tury-Fox's "Rings On Her Fin-
 gers," the gay romantic comedy
 which makes its debut at the
 Melba Theatre Saturday night.

Packed with comedy, the pic-
 ture makes the most of its hilar-
 ious plot to keep Henry Fonda
 and Gene Tierney in a constant
 state of uncertainty while a slew
 of laugh-provoking situations
 resolve themselves.

Making her first appearance in
 a youthful modern dress role,
 Gene Tierney turns in a neat
 performance as she romps
 through the film matching wits
 with Fonda.

The story is just right for the
 two stars. Gene plays the part
 of a shopgirl whose services are
 enlisted by two shady charac-
 ters, Laird Cregar and Spring-
 Byington, to multie millionaires
 out of their money. Gene, at
 first, is unwilling, but the pros-
 pect of gorgeous clothes, swank
 hotels, travel, Palm trees and all
 the accoutrements of a glamor-
 ous debutante win her over. Nat-
 urally, the victim turns out to be
 Henry Fonda, a guy who has fin-
 ally saved up enough to buy
 the boat he has always dreamed
 of.
