GOVERNOR PROCLAIMS FEB. 28 TO MARCH 6 WEEK FOR TEXAS

PROCLAMATION BY THE GOVERNOR OF TEXAS To All to Whom These Presents Shall Come,

Whereas, as people of Texas are setting the pace for the nation in its resolute march to victory; and

Whereas, total war lays a duty and a responsibility upon every man, woman and child to do those things which will further the war effort and forego those things which will hinder; and

Whereas, among those who are contributing to the war by work and sacrifice on the home front are the youth and children of Texas; and

Whereas, the work of these young people is not only valuable to civilian participation in the war, but is building Democracy stronger in the hearts of those who will be leaders in the peace to come; and

Whereas, it is fitting and timely that we direct attention to the importance of fostering a partnership with youth in the tasks of war and peace as a means of protecting their welfare now and assuring their preparation for the work to come; and

Whereas, if the people of Texas, in a world threatened with breakdown, can present a picture of a people devoting thought and resources to building a strong future citizenry; we shall, by these actions, strengthen faith in democracy;

Now, therefore, I, Coke Stevenson, Governor of the State of Texas, hereby proclaim the week of February 28 to March 6, 1943, as

TEXAS CHILDREN'S WEEK

This proclamation is a call to action to the home, to the school, to the community, and to the State, to re-examine services for children, to increase understanding of every child's needs for growth, to give audience to young people in planning the kind of world we are fighting for, and to strengthen, in every way, directly and indirectly, that dedication to freedom which is the motivation of our citizens. It is important that we do what is necessary now to make the freedoms for which we fight a living reality in the lives of our people, and that we pass on an enriched heritage to a nation of children who will have the strength to keep the victory when it is won.

In Testimony Whereof, I have hereunto signed my name officially and caused the Seal of State to be affixed hereto at Austin, Texas, this the eleventh day of February, A. D. 1943.

COKE R. STEVENSON,
 Governor of Texas.

TEXAS CHILDREN'S WEEK FEB. 28-MAR. 6

The theme of Texas Children's Week for 1943 is "Youth—a Partner in Victory and Peace."

All parents in Texas should observe this week by resolving to make better citizens of their children, keeping in mind that children bear the promise of a better world.

Children should be encouraged to:

1. Have better health habits.
2. Appreciate and make good use of free education.
3. Have feeling of security.
4. Have useful duties to perform.
5. Understand basic principles for which the war is being fought.

Let's make sincere efforts to carry out this program for 1943.

MRS. J. J. STEPHEN,
 County Chairman,
 Children's Week.

Mrs. J. S. Chesser received word on February 22 that her son, Pvt. Randall B. Chesser, is serving his country in Africa. Randall reported his trip across the ocean was the most thrilling trip of his life.

Well, at last our hopes have been fulfilled. On Monday of this week we received the glad surprise that our Senior rings had arrived. We Seniors didn't waste much time after school before we got our rings.

But now to study hard enough to pass these six-weeks' tests and solve this problem of graduation.

JUNIOR CLASS REPORT

Rationing was almost welcome to the Juniors since it meant a holiday, which we always welcomed. Six-weeks' tests are here again. Everyone is trying to find just how much we have to know so we won't have to try to remember too much.

Not bad, not bad! Gene Trotter attended Sterling Schools for six years, Water Valley School for two years, Mullin High for one, and Goldthwaite his Senior year.

Gene was a member of the Boy Scouts for four years and is now an Eagle Scout. He is a friendly sort of guy, too. Making a straight E card was his job last semester, and it seems that he is holding the same job now.

GOLDTHWAITE GETS 5 PER CENT REDUCTION INSURANCE POLICIES

AUSTIN, FEB. 25.—A good fire record of 5 percent will apply to fire insurance premiums on policies written in Goldthwaite for 12-months beginning March 1, it was announced today by Marvin Hall, State Fire Insurance Commissioner. This will result in a direct saving on fire insurance as 5 per cent of the normal premium will be deducted on policies written after the effective date.

The 5 per cent credit will result in an estimated saving of \$483 on fire insurance costs for Goldthwaite policyholders during the next year. The estimate is based on fire insurance premium payments in 1942. A 5 per cent credit has been in effect for the past year.

town is determined by a fixed ratio between losses and premiums figured on a five-year average. The maximum good fire record credits 25 per cent. The maximum charge (or penalty) for heavy losses is 15 per cent.

Hall explained that the fire record credit is not to be confused with the key rate for a city or town. The key rate, he pointed out, is determined among other things, by the type and quality of fighting equipment and water facilities, as well as the adoption of fire prevention measures.

"Texas is the only state," the Commissioner added, "which has a system for directly rewarding communities for the prevention of fires. When fire losses are kept low during the five-year period, the credits earned mean a direct saving to the individual citizen. Continued low fire losses throughout the state will result in lower premium rates, thus making fire prevention a profitable practice."

"Because fires have been prevented during recent years, thus reducing losses in many classes of insurance risks, the result has been a decrease in rates. A notable example is in dwelling risks. Reductions in insurance rates since 1936 approximate an annual saving of ten million dollars to Texas policyholders."

Mrs. Louise Smith of Brownwood spent Sunday and Monday with friends in Goldthwaite. Miss Smith recently has accepted a supervisor position for the Southwestern States Telephone Company.

TRIM SHIP FOR ACTION!

We are engaged in a war to save our American tradition of liberty and opportunity for ourselves and our children. Our leaders have committed us to become the arsenal of democracy; to furnish food for our allies; through our lend-lease to help finance the Allied war machine and, finally, to raise and equip an army of some 10 million men.

Any one of these jobs is a tremendous undertaking. We are thousands of miles from the theater of war, and this involves tremendous problems of transportation. All of these jobs together will tax every resource of the United States. Already we face rationing and priorities in our materials and acute shortage of manpower, and a burden of taxes which indicates our financial resources are strained to the utmost.

Of a certainty, we must have complete unity if we are to do this job, and face the postwar future with hope and confidence.

American industry, agriculture and finance must use to the maximum the productive power, initiative and intelligence latent in every American.

No Time or Place for Drones

There must be no drones hidden away on public payrolls, engaged in peacetime experiments which are useless under the emergency of war. Every branch of our military service is devoted to the sole purpose of fighting and winning this war. Our government, both local, state and national, should inspire and lead in the support our civilian population gives to the war effort. Unnecessary civic expenditures, surplus payrollers, useless economic and social experiments have no place in a war emergency.

The new Congress is tackling this job with a will and a purpose. Those Congressmen are our representatives and we, the people, should support them to the limit. Right now they are trying to bring some order and efficiency in the prevention of excessive profits in war contracts by the Army, Navy and Maritime commission. The present law, passed by the old Congress, provides for a "renegotiation" of their war contracts by each department.

New Bureaus Not Needed

There are over three million of these contracts. Not more than 5 per cent will show any excessive profits after taxes have been paid. The ordinary man on the street would say that the Internal Revenue Department can easily discover any excess profit from any war contract. Certainly we can use the manpower that would be wasted to much better advantage in other places.

We, the people, want Congress to adopt the most direct, efficient and economical method of doing this job. None of us believes in excess profits on war contracts. There are ceiling prices on most things we produce. Now let's get at the job of cutting down unnecessary civic expenditures and cutting unnecessary payrollers off the payroll.

WE ARE AMERICANS

Our United States is a government by all, conceived and dedicated by and with the consent of the governed. It constantly promotes individual dignity, worth and opportunity; guarantees to every citizen freedom of religion, speech, assembly, press and petition; safeguards private property; maintains equal justice before the law; provides free schools for all, and constantly seeks social and economic security and the blessings of liberty for young and old.

This is our country. Individuals or groups may have fallen short or failed in their duty, but we, the people, press on to our destiny. We, the people, love and cherish our Republic. We pledge support for its institutions with our lives and sacred honor.

WANTS ALL-OUT COOPERATION FOR FARMERS IN LEGISLATIVE FRONT

WACO, TEXAS, FEB. 18—If Texas farmers are to be able, in the face of labor and machinery shortages and other difficulties, to produce the food and fiber needed for victory, they must have all-out cooperation on the legislative front, J. Walter Hammond, president of the Texas Farm Bureau Federation, the state's largest farm organization, declared here this week.

The state farm leader expressed vigorous opposition to legislation that would add the four-cent highway gasoline tax to fuel burned in farm tractors or any other non-highway using vehicles.

"It is not only illogical and unfair to attempt to tax for highway purposes gasoline not used on the highway, but it would materially increase the cost of producing food and fiber and add to the seriousness of the already growing shortages of these commodities", Hammond said.

The Farm Bureau is also actively opposing a measure expected to be introduced at this session that would place additional taxation and regulation on itinerant truckers. "These truckers perform a useful service in moving feed, livestock, produce, lumber, cedar posts and other supplies to and from the farm," Hammond declared. The transportation situation is already serious enough without complicating it further by legislation that would put many small truckers out of business.

The Farm Bureaus supporting a bill introduced by Senator George Moffett of Chillicothe that would set certain minimum standards for insecticides sold in this state.

On the national front the American Farm Bureau Federation with which the state organization is affiliated, is advocating farm prices that would reflect increased costs of farm labor.

"The farmer is having a hard time meeting increased production costs and competing with high wage-paying industry for labor," Hammond pointed out. "Texas farmers, with thousands upon thousands of their sons in the service, have no wish to profit from the war but the country faces a terrible food shortage unless the farmer is allowed to sell his products at prices that will at least reflect cost of production and enable him to get and retain sufficient labor to make and harvest his crops."

CAPED MURDERER SEEN NEAR HERE

The following is taken from the Temple Telegram of Thursday, Feb. 25:

Ernest Herring, escaped convict, murderer who is proving slippery than the traditional greased pig, fled through police dragnet in a stolen car Wednesday, and was still at large last night.

Sometime before dawn he stole a 1940 Ford maroon coupe (V30-330) belonging to Grace Rosanky, and fled in the car, half full of gasoline with four new tires, had left in the garage with the State Rangers identifying footprints left around the car as those of Herring. Police Chief Frank Bouldin said he was surprised that Herring rode a freight train into the area from the Ellice area, where Monmouth, highway patrolmen and county officers had all roads blocked last night.

Herring, sentenced to 99 years for the murder of William N. J. Baderford in Bell County in 1935, escaped from the farm December 2, and the chase began in this area when he stole a car here last week. He was seen in the hill country around Green and Copperas Cove.

Black, ranchman about 3 miles east of Goldthwaite, last day afternoon at about three o'clock noticed a man sleeping in a pasture on a cot by the side of a car which had been partly overturned, making a two-tone sound.

He called Sheriff Harris here, but before Mr. Harris could get out there the man had driven off in the car, which had a stolen license number obtained from Temple. The sheriff called highway patrolmen and Rangers.

Herring was jumped Saturday morning about 3 or 4 o'clock six miles east of Evans on the Lammas road, and left his car there and took to the woods. Officers rolled the road all night Saturday night. The escaped convict went into a farm house and Saturday evening when everybody was gone. He stole an truck out of Lampasas Sunday morning before daylight, and was run out of it a short way out of Lampasas on the Lampasas road, taking to the woods again. Sheriff Harris left a chase Sunday morning. Officers think Herring stole a V-80 coupe Tuesday night out of Temple.

OBITUARY

Mary B. Hodges was born April 18, 1920, the first daughter of Melrose and Okna Hodges. Mary B. spent most of her life in Mt. Olive and Caradan Communities. Finished high school in Goldthwaite at the age of 17 in 1937. From this time until the Grim Reaper called for her, she was a very energetic, modest, and popular young lady.

She will be missed at singing conventions and all popular and enterprising social gatherings, where her voice blended with that of her sister, Evelyn, in many special duets and quartets that were enjoyed by all who loved good singing.

Mary B. had her tonsils removed and never recovered. She died in Memorial Hospital at Brownwood on February 13, 1943.

Bro. Derrick, pastor of the Primitive Baptist Church at Caradan, held the services at Mt. Olive Sunday afternoon, Feb. 14. The friends and loved ones sorrowfully paid the last respects to a very beautiful, lovable character.

Mary B., your rest is truly won. Your labor on earth duly done. So we remember in your smiling eyes.

The kind of friendship that never dies. While you are resting in God's good grace. Secure in Jesus, the Christ, the Lord's embrace, From all sorrow, trouble and anguish hid, Should we wish you back? God forbid!

Ernest Herring, escaped con-
vict murderer who is proving
slippery than the tradi-
tional greased pig, fled through
police dragnet in a stolen car
Wednesday, and was still
at large last night.

Sometime before dawn he stole
a 1940 Ford maroon
coupe (V30-330) belonging to
Grace Rosanky, and fled in
the car, half full of gasoline
with four new tires, had
left in the garage with the
State Rangers identifying
footprints left around the
car as those of Herring. Po-
lice Chief Frank Bouldin said
he was surprised that Herring rode
a freight train into the
area from the Ellice area, where
Monmouth, highway patrolmen
and county officers had all roads
blocked last night.

Herring, sentenced to 99 years
for the murder of William
N. J. Baderford in Bell County
in 1935, escaped from the
farm December 2, and the
chase began in this area when
he stole a car here last week.
He was seen in the hill country
around Green and Copperas
Cove.

Black, ranchman about 3
miles east of Goldthwaite, last
day afternoon at about three
o'clock noticed a man sleeping
in a pasture on a cot by the side
of a car which had been partly
overturned, making a two-tone
sound.

He called Sheriff Harris
here, but before Mr. Harris
could get out there the man
had driven off in the car,
which had a stolen license num-
ber obtained from Temple. The
sheriff called highway patrol-
men and Rangers.

Herring was jumped Saturday
morning about 3 or 4 o'clock six
miles east of Evans on the Lam-
mas road, and left his car there
and took to the woods. Officers
rolled the road all night Sat-
urday night. The escaped convict
went into a farm house and
Saturday evening when every-
body was gone. He stole an
truck out of Lampasas Sun-
day morning before daylight,
and was run out of it a short
way out of Lampasas on the
Lampasas road, taking to the
woods again. Sheriff Harris left
a chase Sunday morning. Of-
ficers think Herring stole a V-80
coupe Tuesday night out of
Temple.

SOME THINGS THIS WAR HAS DONE TO US

By J. S. BOWLES

Some years ago when the late Editor of the Eagle and I had our very profound (?) discussions in the Eagle Office about matters not very important, he told me that there was a theory among some people that after we were done with this world we went away to return to earth again. Then he told me what he purposed to do if this theory should be correct, and he should return.

We can always do the things we are "going to do." If the time never comes for consummation we still have the excuse to offer—and the promise to make—that we are going to do it when the time is propitious.

Should the time come that I shall return, and should I be endowed with an improved type of intelligence, I am going to write a book on the above topic.

It is mere commonplace to call attention to the fact that as world citizens a mighty change has come over us. So noticeable is this that the most unsophisticated may see, and understand.

In my first chapter I am going to emphasize the well-known fact that this war has brought about a noticeable evening up of a social order that should have been evening up without all the bloodshed that has come to us. And yet this evening up process can not be traced to any other source than the fellowship growing out of the necessities of the war.

It has been said that "politics makes strange bedfellows." By the same reasoning, "war makes strange associates."

An illustration of this fact is found in some of the ramifications of our hitherto rather complex social and political mixtures.

Let me give by inference, at least, an example of what I am attempting so awkwardly to say.

Some years ago I heard Doctor John Kendrick Bangs of Boston name a certain distinguished Englishman as one of the "most contemptible snobs" he had ever met. He expressed himself as having an expressible contempt for him, and hoped never to have the affliction thrust upon him of meeting him again.

Today that great man is one of the most popular idols of all democratic personalities, and no man is more dearly beloved by the democratic nations. This line of thinking may be followed into a hundred lines of thought, and when I return, if I ever do, I shall fondly hope that absence from things mundane shall have better equipped me for my task of setting forth some other things that this war has done for us.

The Sons They Left Behind

A FRIEND OF MINE has an idea that I am passing on to you because it should be put to work nationally. Because of the war small sons of soldiers, sailors and marines are being robbed of the companionship of their dads. In some instances, of course, grandfathers and uncles pinch-hit for the dads, but lots of times there are no men around to give the little chaps the attention they deserve. That's the way my friend reasoned, and so every time that someone he knew went off to war, my friend called and volunteered to be a substitute dad.

The result is that this man, too old for military service, keeps busy taking small boys to ball games and circuses, going fishing with them, and swimming with them. Taking them to movies, buying them ice cream sodas, and in general showing them a good time.

Every community ought to have a "Substitute Dad Club." There's no one that can take the place of the real dads, but when they are far away, we can do some of the things for their sons, that they would do if they were at home. How about starting such a club in your town?

State Department Health Notes

RHEUMATIC FEVER

Dr. George W. Cox of Austin, State Health Officer, commenting on the seriousness of rheumatic fever, this week declared that this disease is recognized as one of the greatest killers among young people. Between the ages of 10 and 15, rheumatic fever causes more deaths than any other disease, the State Officer said, and in persons between the ages of 15 and 24, it is outranked only by tuberculosis.

Dr. Cox stressed the fact that deaths in childhood from rheumatic fever have not decreased in a satisfactory manner during the past decade, and warned the parents of children to pay particular attention to the care and treatment of such predisposing diseases as tonsillitis and other upper respiratory infections. "The diagnosis of this disease is not always easy," Dr. Cox stated. "Any child with suspicious symptoms should be under the prolonged supervision of a physician since along with a general involvement of the body, the heart is practically always involved. The symptoms may consist only of pallor, loss of weight, easy fatigue, unusual sweating, loss of appetite, and sometimes fleeting muscular pain, and a little joint stiffness and a rapid beating of the heart. The more severe cases may show repeated nose bleeds, extreme nervousness, stiffness and pain in the joints, swelling of the joints, fever and pain over the heart."

According to Dr. Cox the majority of children who experience rheumatic fever suffer more than one attack and each may last months or even at times one to three years. The final result depends on the amount of heart damage incurred. Closely supervised bed rest throughout the entire period of infection is essential in order to minimize this danger.

Improved Uniform International SUNDAY SCHOOL LESSON

JESUS RESTORES LAZARUS TO LIFE

LESSON TEXT—John 11:33-35, 38-44. GOLDEN TEXT—"I am the resurrection, and the life."—John 11:25.

Suffering, sorrow and bereavement are so common in our day that this lesson is peculiarly appropriate. Life, even to the Christian, finds its full measure of things which hurt and grieve. Many ask: "Why must I, a follower of Christ, bear such burdens?"

The answer is, that while the believer is not "of the world," he is "in the world," and here he must meet the problems of life, including the evils to which the flesh is heir because of sin. The fact that Jesus is our Friend and our Saviour does not exempt us from human sorrow, but it does assure us of the needed grace to bear the trial and makes us ready to trust Him even in life's darkest hour.

Lazarus, the friend of Jesus, was sick. The home in which Jesus had found rest and fellowship was in deep trouble. Jesus was no longer in Judea. In haste, word was sent to Him of His friend's illness. But He did not come.

Why does He delay? Such is the heart-cry of thousands today who call on Him in their hour of trouble. The purposes of God we cannot fully understand. We need only to trust Him and abide His time.

Notice that His failure to respond at once to the message of Lazarus' sisters did not mean that He had deserted them (John 11:4-6). Nor did it mean that He had denied them His help (v. 7).

Above all, note that He came. He always does. Jesus has never failed any child of His. The time and the manner of His answer to our prayers may not conform to our opinion of what should have been done; but let us remember that we know only in part. He knows all. Let us trust Him. Job, in his darkest hour, said: "Though he slay me, yet will I trust in him" (Job 13:15).

The steps from sorrow to victorious joy in this story are three in number.

I. Death and Tears (vv. 32-259). By the time Jesus came, Lazarus was dead and his family and friends could only weep as they said: "If thou hadst been here—" Try as we may to temper its cruel blow, the fact remains that death is the enemy of man. It came into the world as the result of sin (Rom. 5:12), and only in Christ is it "swallowed up in victory" (I Cor. 15:54). Until the glorious day of Christ's returning, when the redemption of the body will be complete (Rom. 8:23), death will continue to bring sorrow to the heart and tears to the eyes.

But let us not fail to notice that as the friends of Jesus, we do not sorrow alone. "Jesus wept" (v. 35) with Martha and Mary. We know that He weeps with us in our trying hour. He is the "friend that sticketh closer than a brother." He is the one who gives grace to meet the deepest sorrow, and to bear it with grace because of His tender fellowship.

II. Faith and Hope (vv. 38-40). "If thou wouldst believe, thou shouldst see the glory of God," said Jesus to Martha. She must look beyond the evident fact of the deadness of her brother and see God's glory in His resurrection. Thus faith assures us that those who believe in Christ have more than the comfort of His sympathizing presence—they have a sure hope (read I Thess. 4:14-18).

Sorrow and unbelief would becloud our faith and thus rob us of our hope. Martha needed to have her faith stimulated by the gracious words of the Lord; and then she triumphantly put her hope in Him, the Christ of God. Once we recognize Him as God, we have no hesitation in believing in His miraculous power.

III. Christ and Resurrection (vv. 41-44). Majestic and authoritative are the words of Christ, "I am the resurrection and the life" (v. 25). He it was who gave life, for was He not "in the beginning with God"? And is it not said of Him, that "all things were made by him" (John 1:2, 3)? Paul tells us that "by him all things consist" (Col. 1:17). He is the only one who could say: "I lay down my life . . . I have power to lay it down, and I have power to take it up again" (John 10:17, 18).

So it can rightly be said that if we have Christ we have everything—both in this world and in the world to come. But if we do not have Christ, we have nothing; we are without God and without hope. "He that believeth in me, though he were dead, yet shall he live" (v. 25) is the promise of Christ to us. Let us believe it.

The resurrection power of Christ is at work in the world today raising the spiritually dead to newness of life in Him.

May we see many such a Lazarus called forth—loosed from the grave clothes of sin and set free.

Your Income Tax Explained

INCOME OF FARMERS

Farmers, which include livestock raisers, fruit and truck growers, poultry raisers, and operators of plantations and ranches, are liable for Federal income tax returns provided that their income is sufficient to require the filing of returns. Primarily, due to the reduction in the credit for personal exemption, many farmers will be liable for returns and to the tax for the first time for the year 1942.

Farmers may maintain their records and file their returns of income on either the cash receipts and disbursements basis or on the accrual basis of accounting. A consistent method must, however, be employed. If a cash basis is used, Form 1040F "Schedule of Farm Income and Expenses," is required to be filled out and filed in conjunction with Form 1040. Use of Form 1040F is optional in the case of farmers who report income on the accrual basis. A farmer who reports income on the cash receipts and disbursements basis (in which no inventories to determine profits are used) must include in gross income for the taxable year (1) the amount of cash or the value of merchandise or other property received during the taxable year from the sale of livestock or produce which were raised, regardless of when raised; (2) the profits from the sale of any livestock or other items which were purchased; and (3) gross income from all other sources.

Under the accrual basis in which inventories are used to determine the profits, farmer's gross profits are ascertained by adding to the inventory value of livestock and produce on hand at the end of the year the amount received from the sale of livestock and produce, and miscellaneous receipts of income during the year, and deducting from this sum the inventory value of livestock and produce on hand at the beginning of the year and the cost of livestock and produce purchased during the year. All livestock, whether purchased or raised, must be included in inventory at their proper valuation. Livestock acquired for draft, breeding, or dairy purposes and not for sale, may be included in the inventory instead of being treated as capital assets subject to depreciation, provided such practice is consistently followed.

If farm produce is exchanged for merchandise, groceries, or the like the market value of the articles received in exchanged is to be included in gross income. The value of farm products which are produced by a farmer and consumed by his family does not constitute taxable income. Rents received in crop shares are reduced to money or the equivalent of money. Proceeds of insurance, such as hail and fire insurance on growing crops, are required to be included in gross income.

Amounts received as loans from the Commodity Credit Corporation may at the option of the taxpayer, be considered as income and included in gross income for the taxable year in which received. The election once made is binding for all subsequent years unless the Commissioner approves a change to a different method of accounting. Amounts received under the Soil Conservation and Domestic Allotment Act, as amended, the Price Adjustment Act of 1938, section 303 of the Agricultural Adjustment Act, as amended, and the Sugar Act of 1937 constitute taxable income to the recipients for Federal income tax purposes.

BLESSING INDEED
Down in Miami Beach, where the nation's pampered have been wont to go to escape whatever it is they want to escape in winter, and where the American way of life normally was freest and easiest, some of the tourists complained to the commanding officer of the air base command that the early morning singing of troops was a disturbing factor in an otherwise pleasant prospect.

The commanding officer, Col. Ralph Parker, promptly answered the complaint in an open letter. Said he:

"The singing will continue. "Moreover, please arise at the first sound of military activity each morning and get down on your knees with all members of your household who are disturbed thereby and offer thanks to God Almighty, with me and all the rest of us, that those are Americans singing American songs and not Germans or Japanese singing victory songs in American streets."

To elaborate on that would be to gild the lily.

It needs to be taken to heart by all, whoever they are, whenever they may be, who grumble because their accustomed way of doing things is being upset by the presence of the armed forces.—Exchange.

Without the Farmer the Soldier would travel far; without the Soldier the farmer would be farming for the Axis.

In 1942 the combination of favorable weather and the hard work of brave families all over the country produced the biggest crops on record. The crops, together with the record-breaking production of livestock are helping win the war.

We need more and better grades of stock for 1943—more and better of Poultry and Cotton.

We know farm labor and machinery are all out to help feed and our Soldiers and all out to win this war.

OFFICIAL TABLE OF POINT VALUES FOR PROCESSED FOODS

No. 1—Effective March 1, 1943

Pursuant to Ration Order Number 13

Table with columns for Fluids, Weight, Point Values (0-31), and Per LB. Rows include Fruits and Fruit Juices, Vegetables and Vegetable Juices, and Other Processed Foods.

THE FOLLOWING ITEMS ARE NOT INCLUDED: Canned Fruits, Jams—Jellies, Potato Salad, Chili con Carne, Olives, Preserves, Fruit Cakes, Pickles, Relishes, Fruit Puddings, Frozen Fruits in containers over 10 pounds, Frozen Vegetables in containers over 10 pounds, Fruit Juices in containers over one gallon, Meat Steaks containing some Vegetables, Paste Products—such as Spaghetti, Macaroni, Noodles, whether or not they are packed with added Vegetable Sauce, Vegetable Juices in containers over one gallon, By-products of fruits or vegetables such as soy bean oil, soy bean meal, fruit and vegetable dyes, and similar products.

INSTRUCTIONS.—To find the Point Value of an item: 1. Find out the net weight of the contents (from the label, if any), and pounds, find the column in which this weight belongs. 2. Find the item in the listing of items in the column to the left. 3. The POINT VALUE of the item appears on the same line as the item and in the column listing the correct weight. All Point Values must be determined by weights. If no weight is marked on the item, the item must be weighed. In finding the Point Value of a container where contents are given in fluid ounces, consider the fluid ounce to be the same as the avoirdupois weight ounce. One pint is one pound, one quart is two pounds.

The Point Value of any item weighing over four (4) pounds shall be arrived at by multiplying the number of pounds of that item by the Point Value per pound of that item as given in the "Per Pound" column. Fractions of a pound should be figured in quarter-pounds. Fractions of a quarter-pound should be figured to the next higher quarter-pound. Thus, an item weighing 4 pounds 9 ounces would be considered as weighing 4 pounds 12 ounces for the purpose of getting the Point Value of the item.

CHRISTIAN POINTS OUT WAYS TO ENLARGE FACILITIES

Opportunities to repair, enlarge or extend water facilities on many farms in Mills County for the better use of water for food production were pointed out this week by Ray F. Christian, Farm Security Administration supervisor.

Every county in Texas is under the FSA's farmstead water facilities program and loans for this type of improvement may be made to farmers who meet other requirements, and on whose farms it is clearly evident that such improvement will materially help increase the production of food and fibers.

The U. S. Department of Agriculture has stated that an adequate supply of water means that the household, livestock and poultry should have fresh, clean water at all times and that the garden should be plentifully supplied to keep in continuous maximum production.

Mark Allison Geeslin, who is attending Tarleton, spent the week-end with homefolks.

The chairman of the House Naval Affairs committee reports that, after thorough investigation, only 5 percent of the war contractors were found making excessive profits. These can be automatically sifted out by the Department of Internal Revenue in computing income taxes, so why employ an army of thousands to examine the books of the 95 percent who are honest.

Profits of 95 percent of war contractors do not exceed 2 percent after taxes.

Only 5 percent of war contractors are found to make more than 2 percent after taxes.

WAGE STATEMENTS FOR 1942 CANNOT BE HAD FROM SS BOARD

Statements of wages received during the year of 1942 cannot be secured from the Social Security Board for the purpose of filing income tax returns, according to David S. Pruitt, manager of the Austin field office of the Social Security Board.

"Wage statements issued now show only the total wages reported from January 1, 1937 (when the law first became effective) to July 1, 1942," Pruitt said. "Complete statements for 1942 will not be available for some time. Since the Treasury Department requires that income tax returns must be filed with the Collector of Internal Revenue not later than March 15, wage statements from the Social Security Board would be of no value in preparing such returns."

Pruitt explained that his office has a supply of post card forms for the use of employees who desire to request statements

of wages credited to their wage accounts.

"Employees are encouraged to use these forms to check the correctness of the wages which have been reported for them," he stated, "but the time required to handle the great volume of wage reports makes it impossible to complete 1942 postings in time for use by employees in filing income tax returns."

Retirement insurance payments after age 65 or insurance payments to the families of deceased workers are based on the total wages paid for employment covered by the Old-Age and Survivors Insurance provisions of the Social Security Act, Pruitt added.

MRS. W. E. MILLER

Mrs. W. E. Miller, 76 years old,
 for many years prominent in
 Goldthwaite church and social
 circles, died at her home here
 Tuesday morning from a heart
 attack.

Funeral services were conduct-
 ed by Rev. D. A. Bryant, pastor
 of the Goldthwaite Baptist
 Church, at 3 o'clock Wednesday
 afternoon at the church, and in-
 terment followed in the Odd
 Fellows Cemetery.

Mrs. Miller was born Sept. 2,
 1866 and was a native of Missis-
 sippi, moving to Texas in 1893.
 She was 76 years, five months
 and 21 days old at the time of
 death. She was a member of

 sionary Society, Self Culture
 Club, Garden Club, and the Red

**LOCAL SCHOOLS CLOSED
 TODAY FOR REGISTERING**

The local public schools are
 closed today and the entire fac-
 ulty is working at top speed is-
 suing War Ration Book No. Two
 to every person, both adults and
 children, in the territory. Su-
 perintendent Smith states that
 he is confident the task can be
 completed in one day if the
 teachers can have the full co-
 operation of all the people. How-
 ever, he states that if any one
 finds it impossible to come Fri-
 day that they may get their
 books Saturday. Only a very
 small group of workers will be
 available Saturday for carrying
 on the work.

The procedure of this registra-
 tion is fairly simple. A Consum-
 er Declaration Form, which ap-
 pears in the Eagle or may be se-
 cured at any grocery store,
 should be filled out for each
 family, and this together with
 all the War Ration Books No. 1
 for the family carried to the
 school house. One adult person
 may register for the entire fam-
 ily.

This is a procedure which our
 warring condition has made nec-
 essary. The least we can all do
 is cooperate with those who
 have the responsibility of carry-
 ing out this part of the program.
