NUMBER 51.

BREVITIES.

"EBELGEG"—that's the way that Judge Scott says Jacob Klienhaus of Milford, spells "applejack."

The colporters of the American Bible society distributed 10,253 Bibles in Texas during the last four months.

The Rev. M. H. Wilson, Methodist of Parsons, Kansas, has been expelled from the ministry for immoral conduct.

PARTRIDGES have not been so scarce for many years in London. Well-grown young birds are sold at \$1.75 per brace.

The railroad up Vesuvius has done such a flourishing business since its opening last spring that the value of the stock has increased fifty per cent.

The Rev. Mr. Maconochie, the noted ritualist of London, will be present at the opening of the General Convention of the Episcopal Church in this city.

TERESA TUA of Turin, a young girl of thirteen, bore off the first prize as a violinist at the Paris Conservatory last year. She has been offered \$40,000 for a five years' tour through the United States.

ITALIAN laborers at home and abroad stick to their national diet of bread, macaroni, and fruit with an occasional dish of meat. In Italy this diet is based on necessity and abroad on economy.

The Pope's new journal and organ, the Aurora, started at Rome, January 1st, 1879, has reached a circulation of 5,000, and is now considered firmly established. It is contributed to by personages in the Vatican.

MR. JOHN RUSSELL YOUNG, who is now in California, is just recovering from a protracted illness. He caught a cold crossing the Rocky Mountains. His wife is critically ill with the gastric fever in San Francisco.

DR. TANNER had a plaster cast taken of his head. His head was an hour in plaster, and quills were stuck into his nostrils for breathing through. He can do nothing more for science, unless he gets vivisectioned.

A young wife remonstrating with her husband on his dissipated habits, was answered: "I am like the prodigal son, my dear; I will reform by and by." "I will be like him, too," she said; "I will arise and go to my father."

THE Marquis of Bute, who has just returned from his villa in Jerusalem, intends to establish a Roman Catholic monastery for English monks on the property. Plans are in preparation by the architect of the new Brompton oratory, the cost not to exceed \$25,000.

THE largest cotton mill in the country has just been opened at Willimantic, Conn. It is only one story high, but covers a space of 820 feet, by 174, all of which is in a single room, lighted at night by 51 electric burners. Eighty thousand persons could stand at once in this building.

MR. WARTON, a Tory member of Parliament, writes to the London Times that during a recent division of the House of Commons he was sleeping so soundly that he did not hear the question put by the Speaker, and upon being aroused to vote he got into the wrong lobby and voted with the Liberals.

In future, newly created titles in Italy will have to be paid for. Some of the nobility object, like old Marshal Bugeaud, who, when created a duke by Louis Phillips at the close of the Moroccan war, accepted the honor, but when the fees were demanded, said: "Pas un rouge liard." Not a red cent.

PRINCE NAPOLEON, of Napoleon V., accompanied by his two sons, is visiting the Princess Clotilde, his wife, at Moncalieri, near Turin. Of late years the couple have been estranged, but a reconciliation has now been effected, and the meeting of the entire family at the Turin station the other day was very cordial.

At a recent anniversary celebration of the battle of North Point, near Baltimore, ten of the sixteen survivors marched in the procession. Their ages ranged from eighty-three to ninety-five, and the oldest carried the flag which they defended—the identical one which, on that occasion, incited Key to write "The Star Spangled Banner."

CHARLES CALVERT was for fifty-four years a clerk in the War Department at Washington. Recently, when he was seventy-eight, he was dismissed. It is said that he was still able to perform the duties of the position, which was not a very important one. At any rate, he felt that his removal was an injustice, and the blow soon made him insane. His death is now announced.

NEWS IN A NUT SHELL.

EVENTS OF THE PAST WEEK FROM ALL OVER THE WORLD.

The Cream of the Two Hemispheres Carefully Condensed and Classified—An Interesting Budget of Personal and Miscellaneous Information.

Washington.

—Some time ago a package of \$6,000 worth of town bonds, taken from a dead soldier, were abstracted from the safe in the chief clerk's room in the second auditor's department. Investigation satisfies the Secretary of the Treasury that the bonds were appropriated by Chief Clerk Herring, now dead.

—Secretary Schurz says the Indians at a number of points in the Northwest are very industrious, and have a great deal of land under a fair state of cultivation. At some points in the Sioux reservation, where they raise considerable wheat, their cultivation of the soil compares very favorably with that of the whites further east.

—The United States Consul at Lyons, France, informs the Department of State that the cereal crop of France this year will amount to 102,000,000 hecoliters, the average yield. Nevertheless, there is a large demand for American wheat. In Germany the cereal crop is a mediocre one, and in Russia somewhat of a failure.

—The Cabinet has been invited to attend the forthcoming celebration of the one hundred and fiftieth anniversary of the settlement of Baltimore. Vessels of the navy, which are to assemble at Hampton Roads for annual review, will be ordered to Baltimore to aid in the celebration. A detachment of marines will also participate.

—Gen. Williamson, Commissioner of the General Land Office, has called a convocation of surveyors general of all Western States and Territories in Salt Lake City, Utah, on the 8th of October next. The object of the meeting is to discuss the present method of making surveys with a view to instituting certain reforms tending to secure better and more permanent work under the present laws.

—The case of Jessie Raymond against Senator B. H. Hill, in which plaintiff claimed \$10,000 damages for alleged seduction, was dismissed today under the rules of the Supreme Court of the district for failure to print the record. Chief Justice Carter, in the course of the case, said to Mrs. Lockwood, plaintiff's counsel, that the suit never ought to have been brought, since the alleged offense was no cause of action here.

—Internal Revenue Agent Latham, of Huntsville, Ala., in a letter to the Commissioner, says: "Deputy Marshal Howlett is returning under date of the 12th inst. from Cross Plains, that Deputy Marshals Ellett and Lowe attempted to arrest Joe Little for illicit distilling near the Georgia State line, when Lowe was shot in three places by Little and badly wounded. After Lowe was disabled Ellett pursued Little to or near a church where worship was being held, where Little was reinforced by armed men from the church, when Ellett was compelled to abandon further pursuit."

—The commission have secured to the instrument of ratification the signatures of 532 adult males of the confederated bands of the Ute Indians in Colorado. This number is more than three-fourths of the male adults of the Ute bands. The law requires the signatures of only three-quarters of the adult male population of the Utes to the treaty to insure the ratification. Secretary Schurz will in a day or two instruct the commission in regard to the preliminary steps to be taken to secure compliance on the part of the Utes with the terms of the treaty which require the removal of a portion of them to the limits of their new reservation as defined in the bill.

PERSONAL AND POLITICAL

—Gov. Davis telegraphs, September 30th, that there is no doubt of his election.

—Hon. Thomas Allen is said to be a candidate in the Second Missouri District.

—A large staff of military officers is to be attached to the French Legation at Washington this winter.

—Benj. Balsh, founder of the first American insurance company, died at Newburyport, Mass., September 24th.

—The so-called repudiation amendment, in the late Arkansas election, was defeated by about 7,000 majority.

—There will be a sort of Republican council of war at Mentor, O. Gen. Grant and Senator Conkling, en route to Warren, where they will preside and the other speak, will stop there, and Gen. Arthur and several members of the National Committee will happen in to talk over the situation.

—Major Morrow, of the Ninth Cavalry, who has passed the last eighteen months in the saddle in the mountains of New Mexico and Arizona, fighting Indians, will now receive his reward. He goes to Paris to witness the autumn maneuvers, and on his return will be given a place on Gen. Sherman's staff.

—Wade Hampton, who saw a good deal of hard service during the war of the rebellion, escaped with an unbroken skin, only to be maimed and mutilated at his favorite pastime of hunting. Two or three years ago a mule fell on him and crushed one of his legs so severely that amputation became necessary. A letter from Dargatz Springs, Va., states that he was thrown from a horse the other day while on a deer hunt and painfully injured.

—Tammany's ratification meeting in New York, September 23rd, was the most imposing political demonstration ever held in that city. Union Square and all adjacent streets were packed, while several large halls were filled to their utmost capacity. The enthusiasm of the people was of the wildest character. Speeches were made by August Belmont, Senators Bayard, Hill, and Hampton, Speaker Randall, Daniel Dougherty, and others. In the procession of Democratic ward organizations there were forty-five thousand torch-bearers.

GENERAL FOREIGN NOTES.

—Kearney urges the Maine Greenbackers not to fuse with the Democracy.

—The horses in Boston are down with a distemper resembling the epizootic.

—Joe Emmet was on a spree at last accounts at Pittsburg. It was six feet long.

—Wm. Howe, sentenced to death, hanged himself in his cell at Sault Ste. Marie, Ont., Sept. 21.

—Miss Florence, daughter of Theodore Tilton, married Dr. Felton of New Orleans, in London, September 22.

—Fifty-nine families were burned out by the great fire at Green Bay, Wis. The loss is about \$135,000, and the insurance \$63,000.

—The warlike Canadians engaged in some very entertaining torpedo experiments at Montreal, on Sunday, 30,000 people witnessed the show.

—Mr. Geo. W. Williams, a prominent business man of Seneca, is in the city attending the Exposition, and is stopping with his sister, Mrs. Munford.

—Fifty-two citizens of Cincinnati have subscribed \$1,000 each toward the fund of \$150,000 necessary to meet the condition of Mr. West's donation of a like sum for the erection of an art museum.

—The difference between M. de Freycinet, the French Premier, and his colleagues in the ministry having become irreconcilable, he resigned. President Frey and several members of the cabinet urged him to reconsider his determination, but nothing they could say had the slightest influence with him. The president then reluctantly accepted the resignation, and, sending for Jules Ferry, he directed him to form a new ministry.

THE EAST.

—There was a \$90,000 fire in Sherburne, N. Y., Sept. 22.

—The Northern depot of the Boston & Maine Railroad, at Boston, burned September 21. Loss \$30,000.

—John Conway, while endeavoring to crawl under a starting train at Housick Falls, September 24th, had both legs cut off and soon died.

—While a drove of cattle were crossing the Passaic River near Newark, N. J., September 21, the bridge broke and precipitated forty head into the stream.

—A. M. Noy, a druggist of Poughkeepsie, was shot by a student of Eastman College. A warrant is out for the arrest of the son of Ex-Gov. Porter, of Tennessee.

—A semi-annual meeting of the General Passenger and Ticket Agents' Association in New York the controversy between the Louisville, Nashville & Great Southern and the Cincinnati Southern railroads as to which has the right to make rates from New Orleans to Cincinnati was settled in favor of the former.

—A boy living near Gibraltar station, on the Wilmington & Northern road, in Pennsylvania, was going through a field with two pounds of powder and a fuse under his arm in a cigar box. He met a stranger, who set fire to the fuse, which protruded from the box. The lad, unconscious of the villain's act, proceeded on his way a few steps when the powder exploded, injuring him so severely that he can not recover.

—Lieutenant Schwatka and party, who sailed from New York two years ago to discover the remains of St. John Franklin and his Arctic expedition, have arrived at New Bedford. Their long journey was not as successful as they had hoped, but they have obtained many relics of Franklin's party, made numerous charts which will be of great value to future explorers, and demonstrated that white men can adapt themselves to the habits of the Esquimaux in making long journeys in the polar regions.

THE WEST

—Quiet was restored at the Cornish mines September 20.

—The Star in the West, Universalist organ, has suspended.

—A genuine sea-serpent was captured on the Pacific coast.

—The striking white lead workers at Omaha have given in.

—D. I. Arosemena, cashier of the N. Y. Associated Press, died Sept. 26.

—A committee of St. Louisians will go to Washington to confer on the census question.

—Gustavo Frank, of St. Louis, suicided by hanging September 25; cause depression from drink.

—A great deal of damage has been done to property between Debuque and Clinton, Iowa, by floods.

—Nancy Heywood, who lived with her brother at Rockland, Wis., was murdered mysteriously September 20.

—Durham & Co.'s drugstore was damaged by fire \$40,000 Sept. 25. Adjoining stores were damaged by water about \$20,000.

—A boiler exploded in a saw mill, fourteen miles from Leadville, Col., Sept. 25, killing Washington Emory and Joseph Menzies.

—Levi Johnson, of Morton county, Kas., is traveling through Iowa imploring aid for Kansas farmers who have suffered by destruction of crops.

—Four soldiers belonging to the garrison at Fort Snelling, Minn., found a woman gathering hazel nuts near the post, and outraged her person.

—The steam pipe on the Louisville and Madison packet, Maggie Harper, exploded Sept. 25th. The engineer and two roustabouts were killed.

—Alfred Smith, correspondent of the Associated Press at Sierra City, Cal., was murdered September 24th. His neighbor, Thos. Devine, was arrested.

—Theodora Gladys of the Santa Barbara (Cal.) Press, was shot and killed by Clarence Key, Republican candidate for prosecuting attorney, for censorious articles.

—The schism in the Indianapolis Board of Trade has ended in the consolidation of the Merchants' Exchange, the seceding branch, and the old board under the name of the Indianapolis Commercial Exchange.

—A man named John Rouse saw a jug under a philosopher's wagon at the Marshall, Ill., fair, and thinking that like all jugs, it must contain whisky, he slyly took a drink. The coroner will report that his death was caused by sulphuric acid.

—The telephone men of Springfield, Ill., undertook to put up their poles on Fifth street, on Sunday, September 19th, in order to escape an injunction, but the marshal arrested them for violating the law in regard to the observance of the Sabbath.

—John Nevins, a farmer, living near Rochester, Minn., abused his wife and his hired men. He was punished Mrs. Nevins, as usual, when Burke, an employe, intervened. Turning on Burke, he was administering a severe chastisement to him when another farm laborer, named Buren, appeared on the scene, and put a bullet through the ruffian killing him instantly.

THE SOUTH.

—The naval review will take place in Hampton Roads about October 19.

—Detectives Ellet and Lowe attempted to arrest a moonshiner in Alabama. He shot Lowe and, being reinforced by armed men, drove off Ellet.

—The Florence Meyer struck a snag near St. Charles, September 24th, and sank to her hulk on the deck. Five people were drowned, and cargo a total loss.

GARFIELD.

Kansas City Times.

We desire to call the attention of Democrats and Republicans alike to the Congressional record of JAMES A. GARFIELD. In an article of limited length it is, of course, impossible to do more than generalize.

GARFIELD stands a convicted perjurer, by the testimony, as to his connection with the Credit Mobilier fraud. To prove this we cite the verdict of the Republican Congressional Committee raised for the purpose of investigating GARFIELD. This committee is commonly called the Poland Committee, and, for a wonder, it did not attempt to whitewash. This tribunal found that "Mr. GARFIELD agreed with Mr. AMES to take ten shares Mobilier stock, but did not pay for the same. That afterwards this sum (\$320) was paid over to Mr. GARFIELD, and that Mr. GARFIELD then understood this sum was the balance of dividends after paying for the stock." Hear the New York Tribune's comments on this matter under date of January 28, 1873: "To accept on the Credit Mobilier a valuable allotment of shares; to lie and shuffle and prevaricate about the transaction; to concert with a witness the manufacture of false testimony; to testify falsely under oath. These are offenses which should ruin not only those who commit, but those who apologize for them." Within the next month the Tribune again says: "JAMES A. GARFIELD, of Ohio, had ten shares, never paid a dollar, received \$320, which, after the investigation began, he was anxious to have considered as a loan from Mr. AMES to himself."

The New York Times of February 19, 1873, comments severely upon this matter, and insinuated that GARFIELD is anything but an honest man.

The Cincinnati Commercial said GARFIELD was either a knave or a fool; that "it was a division of spoils taken from the munificence of the people."

All these organs of the Republican party, besides a host of others of the same politics, unsparingly condemned GARFIELD at that time as a dishonest, unworthy man. In fact, this now candidate for the high office of President over 50,000,000 of people was in a bad box and had been taken in the manner, like the woman in adultery. It is in vain that he now waxes his lips, saying, I have done no evil thing, for here stands recorded against him the unwilling testimony of a partisan committee and the political organs of his own party.

As an illustration, showing the eternally itching palm of GARFIELD, and how easy of approach he was to the jobbers and bribe givers, we mention the instance of the De GOLYER bribe of \$5,000. DE GOLYER & McCLELLAN, a firm of Chicago contractors, represented a kind of wooden pavement, long before pronounced worthless wherever used. This firm wished a contract to pave certain streets at Washington, and sent one CHITTENDEN to lobby it through. Wind of the plot got abroad at the Capital, and at a meeting of its citizens, the pavement was denounced. Nevertheless, the enterprising CHITTENDEN was not disheartened, for he brought him of GARFIELD, who was Chairman of the Appropriation Committee, visited that gentleman, offered him \$5,000, and was most agreeably surprised to find his bribe at once accepted with the promise of valuable assistance. The happy CHITTENDEN writes home as follows: "I can hardly realize that we have Gen. GARFIELD. It is rare, and very gratifying. All the appropriations of the District come through him." Verily, this "Christian" statesman was a deity!

From an abundance of material we select one more verdict of his own party against GARFIELD, and this is from his own constituency of the Nineteenth Congressional District of Ohio in 1876. The Independent Republicans in GARFIELD'S district, opposed to his re-election, met in convention and, after the fullest deliberation, adopted a series of resolutions too voluminous for reproduction here, but most scathing and denunciatory of GARFIELD. These resolutions take up the Credit Mobilier and De GOLYER steals, GARFIELD'S constant and active participation in all rings and monopolies, and his championship of the same, the salary grab, his garbled and altered report of the Poland Committee which he circulated among his constituents, his venality in the Indian post tradeships, and his championship of the act denouncing silver against the interest of taxpayers without their consent or knowledge. This long series of resolutions, thirteen in number, close by saying that the Republicans of the Nineteenth District cannot, without stultifying their manhood and debasing their self-respect, support GARFIELD, and call upon their party to elect an honest and reliable man in his stead. The result of this exposure was a loss to GARFIELD of 3,569 votes for the Hayes vote of the district.

The Republicans of GARFIELD'S district had come to believe that his lurid speeches upon Andersonville and Libby prisons were but a poor offset to his habitual stealing and deviltry in Congress, and refused to longer keep their faces turned toward the South while GARFIELD was picking their pockets from behind. This is the same GARFIELD whom the stalwarts are now so inconspicuously lauding. What has happened that so radically changes their opinion of him?

AN OLD LETTER.

I found an old letter, long lost, to-day;
The ink is faded, the words are few,
But they speak to my empty heart, and say;
And far away from this quiet room
"One love in your life was deep and true!"
Away from this working-day world of ours,
My soul flies out through the twilight gloom
To a land of temples and palms and flowers.

Once more I am watching the minarets shine
In the last rich glow of a tropic sun;
Once more I am clasping his hand in mine,
When the sultry hours of the day are done;
The air is full of the balmy scent
Of Orient blossom and shadowy tree,
And I muse and rest in a still content
On the heart that never was fond of me!

It is but a dream that is far too fair,
The voice is silent, the light light dies;
I am here in the dim old London skies;
He sleeps in peace beneath Indian skies;
And I fold the letters and meekly pray
For strength to suffer my life-long pain,
Till I come at last to the quiet way
That shall lead me home to my love again.

REUNITED AFTER SIXTY YEARS.

"Although You Don't Know Me I'm Your Brother."
Richmond (Va.) Despatch.

On Saturday, August 21, a stranger came here and made inquiries regarding the whereabouts of John Woodworth, a worthy farmer, who owns the place formerly the property of Lewis H. Frayser, on the Williamsburg road, about four miles from this city. The stranger had the appearance of a well-to-do farmer, and was evidently not familiar with our localities. He however soon found Mr. Woodworth at a stable on Eighteenth street, hitching up his team and getting ready to go home. He entered into conversation with Mr. Woodworth, asking him several questions, to which Mr. Woodworth, supposing him to be a sewing machine or lightning rod agent, returned evasive answer. Presently, however, becoming more earnest in his manner, he startled his hearer by remarking:

"I am going home with you to-night. Although you don't know me I know you. I am your brother William."

Mr. Woodworth was dumfounded at this remark, and disposed to be distrustful, but his brother recalled incidents of their childhood which were distinctly remembered by him, though he was over three years old at the time, and convinced him that he who thus addressed him was indeed his brother. It seems that about sixty-five years ago their father and mother, with their children, named in the order of their ages, Catherine, William, Margaret, John and Absalom, were living in or near Albany N. Y. The deaths of the parents following close the one upon the other when Absalom was a mere infant and John only three years old, caused a scattering of the family, kind friends taking the little ones and ministering to their wants.

The boys without home attachments or home influences to restrain them, wandered off early in life to various portions of the country. John was the only one whose wanderings could be traced; for when thirteen years after the sisters visited the scene of their early childhood, his whereabouts was easily discovered, and communication was entered into with him. No knowledge could be obtained of the others. A short time ago that feeling which has a lodgement in every human breast to visit the old homestead, induced William to go to Albany and see once more the place of his infancy and the friends of his early life. Here he found his sisters, and heard that his brother John was also alive and living near this city. The whereabouts of the younger brother, Absalom, even should he be living, is unknown.

An Untimely Fall of Snow.

Rochester Democrat.
The Signal Service officers on two occasions, and at far distant localities, this summer, have reported a fall of snow when the mercury at the snow points was in the region of 50°. The Rochester officers almost doubted the sanity of those making the reports, and so did the public. But the signal men of this city, who reported the mercury on Monday night, September 13, at 53°, also report on the same night, the first snow-storm of the season. These officials must be correct, for, besides their careful and experienced observation, the report they make is confirmed by numerous parties who were out on Monday night, or early Tuesday morning, both in the city and

adjacent towns, and they confirm the account of the actual fall of snow. A snow storm with the mercury at 53° is not in the ordinary course of events.

A "stringy," "rattling" voice and a constant disposition to expectorate, indicate incipient throat trouble of dangerous tendency. Use Dr. Bull's Cough Syrup in good time, and be saved much trouble and annoyance. For sale by all druggists.

Vegetine.

MORE TO ME THAN GOLD.

WALPOLE, MASS., March 7, 1880.
MR. H. R. STEVENS:
I wish to inform you what VEGETINE has done for me. I have been troubled with Erysipelas Humoral for about 27 years in my limbs and other parts of my body, and have been a great sufferer, commenced taking VEGETINE one year ago last August, and can truly say it has done more for me than any other medicine. I seem to be perfectly free from this humor, and can recommend it to every one. Would not be without this medicine—is more to me than gold—and I feel it will prove a blessing to others as it has been to me.
Yours most respectfully,
MRS. DAVID CLARK.

J. B. BENTLY, M. D., SAYS:
It has done more good than all medical treatment.

NEWARK, ONT., Feb. 9, 1880.
MR. H. R. STEVENS, BOSTON, MASS.:
Sir—I have sold during the past year a considerable quantity of your VEGETINE, and I believe, in all cases it has given satisfaction. In one case, a delicate young lady of about 18 years was much benefited by its use. Her parents informed me that it had done her more good than all the medical treatment to which she had previously been subjected.
Yours respectfully,
J. BENTLY, M. D.

LOUDLY IN ITS PRAISE.

TORONTO, ONT., March 3, 1880.
Dear Sir—Considering the short time that VEGETINE has been before the public here, it sells well as a blood purifier, and for troubles arising from a sluggish or torpid liver, it is a first-class medicine. Our customers speak loudly in its praise.

SMITH'S TONIC SYRUP,
FOR THE CURE OF
FEVER AND AGUE

OR
Chills and Fever.

The proprietor of this celebrated medicine justly claims for it a superiority over all remedies offered to the public for the AGUE, CHILLS AND FEVER, whether of short and long standing. He refers to the entire Western and Southern territory to bear him testimony to the truth of the assertion that in no case whatever will it fail to cure if the directions are strictly followed and carried out. In a great many cases a single dose has been sufficient for a cure, and whole families have been cured by a single bottle, with a perfect restoration of the general health. It is however prudent and in every case more certain to cure, if its use is continued in smaller doses for a week or two after the disease has been checked, more especially in difficult and long-standing cases. Usually this medicine will not require any aid to keep the bowels in good order. Should the patient, however, require a cathartic medicine after having taken three or four doses of the Tonic, a single dose of BULL'S VEGETABLE FAMILY PILLS will be sufficient.

The genuine Smith's Tonic Syrup must have Dr. John Bull's private stamp on each bottle. Dr. John Bull only has the right to manufacture and sell the original JOHN J. SMITH'S TONIC SYRUP, of Louisville, Ky. Examine well the label on each bottle. If my private stamp is not on each bottle do not purchase, or you will be deceived.

THE REPUBLICAN RULE.

HEADS, I WIN; TAILS, YOU LOSE. 1877. (When Democrats were to be rejected, it was to be regretted that voters are lost by negligence of town officers, but the obvious remedy is to choose such as know their duty and will perform it.) W. E. TIMMONS SUCCEEDED BY HANCOCK

Placed, the fusion candidate for Governor of Maine, is elected by a plurality of 174 votes.

It is a strange phenomenon that nearly all the Doctors of this State are Democrats, while nearly all the lawyers are Republicans.

It is estimated that the Republicans expended in Maine and Vermont between \$75,000 and \$100,000. It was money thrown away.

If any one asks you if the Democrats have fused with the Greenbackers in this county, tell him: No; that the Democrats want to first see the metal with which it is asked that they fuse before they will talk of fusing with the Greenbackers. There are certain conditions under which a fusion of the two parties would be very desirable, and there might be other conditions under which a fusion would be most disastrous to us as a party, at present and in future, in county politics. Better ten thousand deaths than an unholy alliance. If our party must go to defeat in Chase

county, this fall, which we hope will not be the case, let us do so with manliness and courage, knowing that our cause is just, and that our standard bearers in county politics, like those in national politics, bear upon their escutcheon no taint of political or social perfidy; and that they, like Caesar's wife, are above suspicion. While we are willing to unite with the Greenbackers to compass the defeat of the Republican ticket, we are not at all willing to lay aside our manhood and, with the blindness of a mad man, rush into the contest with no other object in view. An honest Republican in office is far preferable to us than a dishonest Greenbacker in the same office, and we think this is the sentiment of the Democracy on this subject. So, if we should wed with an outside party, let the character of our spouse be as stainless as the snow upon the mountain top and her virtues shine forth with the splendor of a noontide sun.

DEMOCRATIC RALLY!

A Large Turn-out to the Flag Raising, on the 25th Ultimo.

Hon. John Martin, of Topeka, Addressed the People on the Issues of the Day.

COTTONWOOD FALLS WAS FILLED WITH DEMOCRACY.

According to announcement, the Hancock and English Club of Chase county, Kansas, raised a 100-foot hickory pole in Cottonwood Falls, on Saturday afternoon, September 25, 1880, and flung to the breeze a 20-foot flag and a 30-foot streamer, upon which was painted, in beautiful letters, the names of Hancock and English. The pole is surmounted by a most majestic rooster. As the stars and stripes were being hoisted the Cottonwood Falls Brass Band played the Star Spangled Banner; after which three cheers for Hancock and English were given, and a salute of thirty-eight guns fired. The crowd, which numbered about 2,000 persons, then dispersed, till after supper. In the evening the Hon. John Martin, of Topeka, Chairman of the Democratic State Central Committee, spoke to a very large audience of ladies and gentlemen, in the Court-house. The speech was just such as that distinguished orator knows so well how to make; and it was well received. The Band were present and played several tunes. Mr. J. V. Sanders presided at this meeting.

Our Republican fellow-citizens deserve great credit for their kind bearing to the Democracy on that day, and for the gentlemanly assistance they rendered the Club on that occasion.

DEMOCRATIC MASS CONVENTION.

Pursuant to call, the Democracy of Chase county met in mass convention in the Court-house in Cottonwood Falls, Kansas, on Saturday morning, September 25, 1880, at 10 o'clock, for the purpose of electing ten Delegates and ten Alternates to the Senatorial Convention which met in the same city at 2 o'clock, p. m., the same day, for the purpose of nominating a candidate for State Senator from the 29th District, and, in the absence of Dr. W. P. Pugh, Chairman of the County Central Committee, were called to order by W. E. Timmons, Secretary of the Committee, who explained the object of the convention; when, on motion of J. R. Holmes, Arch Miller was elected Chairman of the convention.

On motion of W. S. Romigh, W. E. Timmons was elected Secretary. W. E. Timmons moved to go into the election of Delegates and Alternates. Carried.

The following gentlemen were then elected Delegates: H. W. Park and J. R. Holmes, of Diamond Creek township; A. J. Penrod and E. C. Holmes, of Cottonwood township; O. C. Pratt and S. E. Cornell, of Bazaar township; Arch Miller and W. E. Timmons, of Falls township; and W. P. Martin and John Doud, of Toledo township.

On motion of W. S. Romigh, it was decided not to elect any Alternates, and the Delegates were authorized to cast the full vote of the delegation in the Senatorial Convention. Adjourned sine die.

DEMOCRATIC SENATORIAL CONVENTION.

A Delegate Convention of the Democrats of the 29th Senatorial District, consisting of the counties of Marion, Morris and Chase, was held in the city of Cottonwood Falls, Chase county, on Saturday, September 25, 1880, at the hour of 10 o'clock, a. m., for the purpose of nominating a candidate for Senator to represent said district in the State Legislature, for the ensuing term of four years, and, in the absence of John Maloy, Chairman of the Senatorial Committee, was called to order by W. E. Timmons, Secretary of the committee, who explained the object of the convention; when, on motion of W. P. Martin, Charles Barker was elected Chairman of the convention, and, on motion of A. J. Penrod, W. E. Timmons was elected Secretary.

The Secretary then read the lists of delegates as handed in by the two delegations present, Morris county being unrepresented, and it was found that the following persons were present and entitled to seats: From Marion county, J. N. Rogers, J. M. Huffman, George H. Cooper, J. D. Riggs, G. C. Coble, A. Williams, G. H. Frybarger, Ed. Martin, R. C. Coble, J. G. Johnson and Charles Barker; from Chase county, H. W. Park, J. R. Holmes, A. J. Penrod, E. C. Holmes, O. C. Pratt, S. E. Cornell, Arch Miller, W. E. Timmons and W. P. Martin. Neither delegation was full, but each was authorized by its county to cast the full vote of the delegation.

On motion, J. G. Johnson, J. R. Holmes and J. N. Rogers were appointed a Committee on Resolutions.

H. W. Park moved to take a recess of ten minutes, to give the Committee on Resolutions time to draft resolutions. Carried.

At the conclusion of the recess J. G. Johnson, from the Committee on Resolutions, read the following report, which was unanimously adopted:

Your Committee on Resolutions beg leave to recommend to this convention the following resolutions: 1st. We, the Democrats of the 29th Senatorial District, in convention assembled, reaffirm our devotion to those principles of Democratic faith which have been the sheet anchor of our party during the last 80 years. 2d. We cordially endorse the platform of the Cincinnati Convention, and pledge our united support to its candidates, Gen. W. S. Hancock and Hon. W. H. English. 3d. WHEREAS, R. M. Crane, the Republican nominee for State Senator in the 29th Senatorial District, did, in a speech delivered before the convention which nominated him in the city of Florence, on Saturday, Sept. 11, 1880, take occasion, in the most abusive manner, to refer to the Democrats, past and present, as a set of sons of bitches; therefore,

Be it resolved, That we, the delegates to the Democratic Senatorial Convention of said district, representing the feelings and sentiments of the Democratic voters of the counties of Marion, Morris and Chase, resent this indecent insult to our party, and hand the said R. M. Crane around to all good men in this Senatorial District, regardless of political feelings, as a shaming blackguard, too immoral for decency, too dirty for purity, too low and sensual for manliness, too narrow and bigoted for justice, and wholly unfit to represent a district of intelligent, moral and respectable people. A man with such a foul mouth and wicked heart would bring a shade of disgrace upon the district, as he has already brought the blush of shame to the cheeks of his political associates. We, therefore, call upon all good men in this district, regardless of party ties, to assist in electing to this important office of trust a gentleman, and not a Billingsgate blackguard.

J. G. JOHNSON, } J. N. ROGERS, } Com. J. R. HOLMES, }

J. M. Huffman moved that the Secretary furnish to each paper of the district a copy of these resolutions, and request the publication of the same. Carried. J. G. Johnson moved that we now proceed to the consideration of the nomination of a candidate for Senator. Carried.

After considerable discussion on this subject, in which nearly all the delegates, including the Chairman, took part, Mr. Huffman occupying the chair while the Chairman spoke, Mr. J. G. Johnson offered the following resolution, which was adopted: Resolved, That, in the judgment of this convention, it is inexpedient at this time to make a nomination

for State Senator, and this convention would recommend to the Democratic voters of this district that they support at the polls the nominee of the Greenback-Labor party, Col. R. C. Bates, of Marion county.

W. E. Timmons then moved to go into the election of a Central Committee for the ensuing four years; which was carried; and the following gentlemen were elected said committee: R. C. Coble and J. G. Johnson, of Marion county; John Maloy and Isaac Sharp, of Morris county; and J. R. Blackshere and W. E. Timmons, of Chase county. Adjourned sine die.

After the adjournment of the convention the Central Committee met and organized by electing J. G. Johnson as Chairman, and W. E. Timmons as Secretary.

We would like for some of our debtors to stand up and answer the following questions: Supposing your wife and children had had neither food nor raiment since you began to owe us, how fat and well dressed would they be now? This question is put because debtors, as a general thing, "have to first take care of their families," and will get around to the creditor after a while. Do you not think that newspaper men and their families need a little food and raiment occasionally? or do you think they are celestial beings and have no need of those things? or, in other words, what do you take us for, anyhow?

BEST IN THE WORLD.

CHURCH & CO'S SODA WATER. IMPURE BI-CARB Soda is of a slightly dirty white color. It may appear white, examined by itself, but a COMPARISON WITH CHURCH & CO'S "HAMMER BRAND" will show the difference. See that your Baking Soda is white and PURE, as should be ALL SIMILAR SUBSTANCES used for food. Housekeepers who prefer broad made with yeast will improve its quality, make it rise better, and prevent it from souring, by adding one-half teaspoonful of Church & Co's Soda or Saleratus. Be sure and use too much. The use of this with sour milk in preference to Baking Powder, saves twenty times its cost. See one pound package for valuable information, and read carefully. SHOW THIS TO YOUR GROCER.

Literary Revolution in Universal Knowledge.

An Encyclopaedia in 20 volumes, over 16,000 pages, 10 per cent. more matter than any Encyclopaedia ever before published in this country, and sold, handsomely and in cloth for \$10, in half morocco for \$15, and printed on fine heavy paper with wide margins, bound in half Russia, gilt top for \$20—an enterprise so extraordinary that its success, beyond all precedent in book publishing, may be fairly claimed to inaugurate a Literary Revolution. THE LIBRARY OF UNIVERSAL KNOWLEDGE is a reprint entire of the last (1879) Edinburgh edition of "Chamber's Encyclopaedia," with about 40 per cent. of new matter added, upon topics of special interest to American readers, thus making it equal in character to any similar work, better than any other suited to the wants of the great majority of those who consult works of reference, and altogether the latest Encyclopaedia in the field. Specimen Volumes in either style will be sent for examination, with privilege of return, on receipt of proportionate price per volume. Special Discount to all early subscribers, and extra discount to clubs. Full particulars, with descriptive catalogue of many other standard works equally low in price, sent free. Leading principles of the AMERICAN BOOK EXCHANGE: I. Publish only books of real value. II. Work upon the basis of present cost of making books, about one-half what it was a few years ago. III. Sell to buyers direct, and save them the 50 and 60 per cent. commission commonly allowed to dealers. IV. The cost of books when made ten thousand at a time is but a fraction of the cost when made 500 at a time—adopt the low price and sell the large quantity. V. Use good type, paper, etc., do careful printing, and strong, neat binding, but avoid all "padding," fat and heavy-lead type, spongy paper and gaudy binding, which are so commonly resorted to in order to make books appear large and fine, and which greatly add to their cost, but do not add to their value. VI. To make \$1 and strived is better than to make \$5 and an enemy.

THE FARMER'S NOOK.

Intellectual Food for Intelligent Tillers of the Soil.

Ensilage as a practical means of saving green food for animals is now being tested pretty thoroughly in New England, where the idea has but recently been caught up from France.

Fatten Stock Early. It is the custom of many farmers to delay feeding stock designed for the market till vegetables have attained their growth and corn has become hard on the ear.

How to Keep Butter. A correspondent of the Rural Home says: I learned one or two things about butter last spring. One of them is that butter of all kinds should either be made stiff and set away in a cold place, or if not made so stiff should be put in gallon or half gallon jars and either sealed up or thick paper (old letter paper will do) brushed over with the white of an egg beaten securely over the top.

Feeding Sheep. Adam Scott, a prominent Maine sheep breeder, last winter fed 330 ewes and, to learn how rapidly they gained in flesh selected two, which he weighed every month. On January 12 they weighed respectively 129 and 136 pounds, and continued to gain rapidly down to April 12th, when they weighed 150 and 170 pounds each.

Straw and Chaff as Fertilizers. A ton of wheat when carefully burned leaves 28.24 pounds of ash, while a ton of straw will leave 60.13 pounds, and a ton of chaff 178.07 pounds.

General Farm Notes. Treeless Iowa is being transformed into a forest covered country by the planting of the young trees which are raised in the State nurseries.

Household Receipts. Pie-Crust.—Three and a half cupsful sifted flour, one cupful sweet corn meal, one teaspoonful salt, one teaspoonful baking powder, one cupful very cold water; mix with knife, using hands as little as possible to mix with; roll.

An Interesting Experiment. The results of experiments made by Prof. Thomas Taylor with cotton seed, to ascertain the amount of resistance offered to the attacks of agents generally supposed to be of a destructive nature to organic life, have disclosed in the opinion of Commissioner Le Due and other a discovery of value in relation to planting cotton.

South, and the fact that after preparation cotton seed can be used in the planters ordinarily employed for corn and other clean seed. The mode of preparing the seed, according to the Scientific American, is as follows: The seed is placed in an earthen or glass vessel and ordinary sulphuric acid poured over so as to completely cover it.

Stable Rake and Scraper. A handy combination rake and scraper for the stable can be made as follows: Select a hard-wood stick, fifteen inches in length, four inches wide, and an inch and a half thick; bring it to a triangular shape in cross-section by shaving down one side to this edge.

Advice to travelers—Buy a bottle of Dr. Bull's Cough Syrup, the only thing to stop a Hack. A Question of Service. Mademoiselle Herberline Auclere, a Parisian, New York City woman suffragist, was lately met by a leading journalist with the argument that if women were bound to vote they must consent to fight.

Hotel Accommodations for travelers are of the greatest importance to persons who have to move about the country on business. Just where to go is what every man wants to know when he leaves home.

An Indiana evangelist known as Father Blake has wealth and considerable skill as a painter, and he devotes both to ornamenting rocks and fences with Scriptural injunctions. He travels far and wide with his paint pot and brush.

Cure Advertising.—It is an easy matter to write an advertisement; but to get busy men and women to read it is another and more difficult thing. Here, for instance, is Hunt's Remedy, which has proved to be a specific for Consumption, Coughs, and Urinary Complaints—Bright's Disease included.

An honest Quaker writes from Floy, Ala.: "Dr. Tutt, Respected Sir: Having taken your pills I find they have done me good. I am induced to write this card to know how the pills were obtained. I don't think I can do without them. They are a great blessing to the sick, and you will surely have my reward."

GRAPE JELLY.—Put the grapes in a kettle after they are stemmed, steam them with water, and when done, strain the juice through a cloth. To one quart of juice add one quart of sugar to a pint of juice; boil fifteen minutes, two pounds of grapes generally give one pint juice.

A Sister's Endorsement. The following letter from Miss Susan Moran, whose brother is under treatment at the Western Surgical Institute, of this city, will be read with interest by every parent in the land.

Taylor's Potatoes. The display of potatoes made by Mr. Edwin Taylor, of Armstrong, Wyandotte county, Kas., attracted at Bismarck, N. D., the attention of the Hon. J. P. Taylor, who may be called a disciple of the New Gospel of Farming, viz: the single-idea gospel.
