WANT TO BURROW 511 BORROWS—SEE O. H.

(By OLD MAN 100)

CLASSY-FRIED AD—

WANTED—To borrow 511 burrows for use in a big Pe-rade. Must have pleasing personality and be able to carry a 300-pound load without making straining noises.—See Old Man 100 at that modern-convenience shack for further particulars.

PERADE MARSHAL—

Old Hunnert has been getting so many honors lately that his head won't hold his hat on, but expects to get a new one 2 sizes larger if and when Mr. Matlock finds that 500 Jack-ash loads of silver worth 13 million and that 10 Jack-ash loads of gold, at present worth 10 million, are to be used in the Pe-rade. Old Hunnert is the reason for that C-ad at the top. If you don't know what that is, then four-legged critters long ago was called burros. Today, some extra perlitie ladies call them donkeys while us men and some not-so-perlitie ladies call them Jack-ashes, depending on whether they're facing north or south. Enyway, Old Hunnert figures to have one of the biggest Pe-rades ever seen in this section—with 511 Jack-ashes winding up and down the streets of Gold-wait loaded down to the grunting-stage with gold and silver. That is, the Jack-ash in the lead will carry the prettiest girl in Mills County, followed by 10 Jack-ashes loaded with 300 pounds of gold, and 500 of them loaded down with 300 pounds of silver. This'll be a world-wide publicity stunt that'll put old Mills Co. on the map—with reporters from all over the world writing, news-reels cameras with loud speakers reeling and speaking, radio men broadcasting it to the hull world, and maybe that television stuff combined. A grand Pe-rade Marshal, will be Old Hunnert—and he'll wear a big straw hat so's spectators can tell him from the rest of the J-ashes. Then next two men in the J-a P will be Proc McCullough, owner of the land where the treasure was found, and Meter Matlock, who found it, if any. Then two dozen men walking fast to keep up on the sides will be govt. men here to see they get their share—which will be nearly all.

If you have a borrow O. H. can burrow, just let him know. Requirements are: Jack-ashes must have Pleasing Personality and must be able to carry a 300-pound load up and down hill without too much blowing and grunting and other straining noises that might go out over the radio or maybe embarrass the lookers-on that will be lining the streets. Old Hunnert intends to have two county-wide contests just before the Pe-rade—one for the prettiest girl in Mills County—7th permitting—and one for the most Pleasing Personality Jack-ash in the county, the party girl to ride the winner in the PP J-A contest, with O. H. and his big straw hat leading the same. See O. H. at once—that lost treasure may not be lost any too long.

HOW TO DIVIDE IT

Also, Hugh McCullough of Hico has some ideas about how to divide the hidden treasure when it gets to an unhidden stage. He also wants his part divided by the Jack-ash load, and wrote his father, Proc McCullough, here as to-wit: Quote: "Dear Dad: Enclosed herewith is the contract for the recovery of the treasure on the dry pond

pasture. I have signed as you indicated and I think you will find everything in order. I have gone over this contract pretty thoroughly and can find only one thing that I object to: I notice where the people who are to recover this treasure are to be allowed ingress and egress for, and the use of bulldozers and other heavy equipment. Since time immemorial treasure has always been hidden by the jack-ash load. I think forty jack-ash loads was the usual size and finally became the accepted standard for buried treasure. In spite of the fact that nothing was ever said about the size of the jack-ash it is generally accepted by the leading treasure recoverers today. So in this age of bulldozers, rocket ships, atomic power and the new look I still cling to the time honored, age-old traditions where treasure is concerned and contend that treasure should be recovered and divided as it was buried—by THE Jack-ash Load.

GOLD HUNTERS—

This hunt and silver hunting excitement around here has got nearly everybody telling Old Hunnert how they used to spend their time hunting for gold and silver around the hills here. Brian Smith says he may open a mineral-leash office if he can find space; but anyhow will lease his land for oil at the prevailing \$60 price, but wants to hold his gold and silver rights to lease after he's spent the first money.

Jess Tullos—who most everything around here thought to be a truthful man until he told this—said he worked for 6 or 7 years off and on—mostly on—digging in the Guthrie Caves two miles on from Dry Pond. Jess said once in his primmer days he was digging a tunnel through a mountain there which was about four miles long, and half way in the middle met a man coming from the other direction, and neither one knew the other was digging. Enyway, about a mile from the Guthrie Caves he found a round moss-covered rock which when cleaned off bore the words "\$90,000—1849."

Harry Allen says when he was a boy he and some more boys found where some old-time outlaw had dug up some outlaw-buried treasure that had been buried in an old-time round pot at Kirby Springs, just southwest of town. Harry also was the man that cleaned off the copper box lid with muriatic acid that Roach Fox brought to him in 1932 and uncovered the inscription written in Spanish.

Also, they tell about the time when Mr. Humphries was county clerk some man around here found some rocks on his land that looked like they had gold in them. His "friends" advised him to take them to the county clerk's office and put them in the vault for safekeeping. He did—and a few days came back with some more and kept coming back until the vault was full.

GOLDDIGGER HUNNERT—

Now, don't many people know it yet, but Old Hunnert spent some months digging for gold—or maybe silver—around these parts. Onct O. H. and a Mexican worked together in the mine. On several occasions the Mexican had rabbit for dinner and shared it with O. H. One day while eating away on the Mex's rabbit, O. H. asked him: "Where do you get the rabbits, Jose? I can't find any." Jose—"My wife, she get 'em. Ever" night they come round the house and make noise. She shoot 'em." Old Hunnert—"No oise? Rabbits don't make noise." Jose (positively)—"Sure. Go 'Meow, meow!"

BROWN-MILLS SOIL SUPERVISORS HAVE FIELD DAY TUES.

The Supervisors of the Brown-Mills Soil Conservation District held their monthly meeting in Goldthwaite in the new Agricultural Building, Tuesday, August 10 at 10 a. m. In the afternoon a field tour of Cary Owens Pigfoot ranch was held. At the business meeting the Supervisors approved two applications for assistance. These applications were for C. H. Hall and Edith Covington of the Pleasant Grove Group. They also considered and approved agreements for the following: Kenneth M. Kidd of the G. I. Group, J. M. Spinks of the Center Point Group, J. W. Neal of the Mt. Olive Group, Ercher McCasland, C. O. Geeslin, J. M. Pettsick of the North Bennett Group and Don Geeslin of the Center City Group.

At the close of the business meeting A. C. Spencer, Field Representative of the State Soil Conservation Board, outlined the responsibilities of land owners in carrying on the District Program. He pointed out the responsibility of the land owner in seeing the conservation practices applied to the land, and that they are maintained each year, and that he tells his neighbors of the benefits of conservation farming. "We know what to do for the land, we know how to do it and we need only the will to tackle the

job in order that we can preserve our soil," Mr. Spencer said.

A free lunch was served the group by Supervisors Priddy and Willis Hill on the Pigfoot Ranch near Star. Approximately 40 local farmers and visitors enjoyed a fine meal and stayed for the afternoon program.

Ben R. Day, Work Unit Conservationist at Goldthwaite, discussed the various pasture grasses in this district and evaluated the production of each grass. He described the observation plots set up on the Pigfoot Ranch which has shown that a good cover of grass can hold over 90% of rainfall whereas an overgrazed pasture loses between 40 and 50 per cent of the rainfall by runoff. Cary Owens, owner of the Pigfoot Ranch, answered the questions of the group and told of his experience with this pasture. Mr. Owens said, "I am making more money now with about one-half the cows that I used to run on this place and my range is improving each year."

A tour through the pasture revealed a thick carpet of Blue-stem, Indian grass, Sideoats grama and other desirable grasses over most of this pasture. Grass was still green and growing and the cows and calves were fat and will continue (Continued on back page)

MATLOCK AND CREW DIGGING NEW SHAFT AT DRY POND MINE

L. M. Matlock of Richland Springs and his crew of terasure hunters have abandoned the old shaft they had sunk down to over 20 feet at Dry Pond, three miles northeast of Goldthwaite on the W. P. McCullough ranch, as too dangerous to work. They the latter part of last week staked off about 70 feet east of the old shaft, and have it down a little over half way to the 20 feet, where they expect to intersect an old tunnel at its forks and where the tunnel is expected to be safer.

Work has been delayed several days this week and the latter part of last week by Mr. Matlock's son getting injured at Richland Springs. He is now in a San Angelo hospital.

The old shaft was flooded in 1935 when digging then was stopped at a point where Mr. Matlock believes the long lost treasure may be stored. He says he was never satisfied with the 1935 search, when he was a silent partner and did not have the say so as to where to extend the old tunnels. It is his belief that the treasure, if any, will be found at the far end of one of the tunnels in a room which will be sealed off from the tunnel. He expects to clean out all the tunnels to their end and extend them further.

Mr. Matlock said the tunnels were about 20 feet down from the surface, and he expects the new shaft which is now being dug to intersect one at its fork. If he does not hit it center, he will tunnel back to it. He and his crew started back to digging in the shaft Wednesday. It is hard digging and may take several days before he enters the tunnels.

Mr. Matlock, an oil well driller, hunts buried treasure at odd times. He brought in a fine soft-water artesian well last year near Richland Springs while drilling for oil. His business is to find things buried under old Mother Earth—and he's had plenty of experience.

Mr. Matlock, during the digging in 1935 which never has satisfied him, crawled back in one of the tunnels about 50 feet, and it still extended on as far as he could see. The tunnels were first discovered in 1933,

when a six-inch rain left water standing 18 inches deep over the Dry Pond area which discouraged further exploration at that time. He says there are two sets of tunnels, all uniform in height and width, evidently dug by man in the long ago. They are about 20 feet down from the surface and are high enough for a man to walk erect and wide enough for a donkey to pass through with a load. One of the tunnels runs for as yet an undertimed distance north and south under the present tank at Dry Pond; another branches off the north tunnel and runs east. He figures the new shaft now being put down will hit somewhere near the fork of the two tunnels. It is his intention to clean out these tunnels to their end and then run them further to try to find the room or rooms where the treasure trove has been stored for nearly 200 years. If the treasure that is called for in the charts can be found it will be worth—the silver and gold—about \$15,000,000 at present prices.

Mr. Matlock is not yet sure whether the sun that was pictured on two copper plates found in 1903 near dry pond is a setting or a rising sun which will change the location of the buried treasure. A dispute between a bunch of treasure hunters from Oklahoma and another bunch from Mullin and Goldthwaite who were working together there in 1903 over whether the pictured sun was a setting or rising one caused two factions to carry their six-guns, Winchesters and shot guns to the site ready for a showdown. The law at Goldthwaite went out and stopped the fireworks, and the Oklahoma men went back home.

Mr. Matlock is also trying to find a cross made out of rocks which is about 20 feet long to see for sure in which direction it was pointed. He saw this cross himself while working there in 1935, but believes maybe it has been destroyed since. The cross was about half way between where the copper plates were found in 1903 and the spot where he is now digging. The (Continued on back page)

Much Improvement Being Made In Goldthwaite Business District

Spearheaded by the new Barnes and McCullough Lumber Yard which has just been completed and the Fairman Company \$75,000 new addition to their present building on which work is to start within a few days, many improvements are being made in the business district of Goldthwaite at the present time. Other plans are in the making.

Building of new residences and remodeling of old has and still is going on at a steady rate, as fast as carpenters and builders are available.

Among improvements and additions in the business district can be included:

V. C. Bradford is having his building on the east side of the square on Fisher Street remodeled and rebuilt. Plans call for a glass and plastic front covering the two lots. The building will be used as an automobile display room and offices to display Pontiac cars, while the lot adjoining is to be available for a used car lot and driveway.

Mrs. Annie Armstrong has had a crew of men working for several weeks on her building on Front Street, which is to be remodeled and modernized and

will be occupied by a machine shop firm.

Work was started the first of the week on repairing the building on the north side of the square that was recently destroyed by fire and had been occupied by the Cash Grocery.

An addition to the Davis Variety Store is now being completed at the back of the building, and is to be used as a storeroom.

Luher Piper, manager of Long and Piper Grocery, is having extensive repainting and remodeling done at the store. Work has just begun.

While Dr. and Mrs. Ruel Slaughter are off on their vacation, the interior of the Slaughter Clinic and Hospital is being redecorated and improved.

To be built in the future are: A new \$75 thousand school gymnasium, bonds already having been voted.

A new Church of Christ building.

Recently completed here also is the new Municipal Baseball Park in the north edge of town, and a new modern tourist court near the North end of Fisher Street, and the Mills County Agricultural building.

SCHOOL BOARD HERE REQUESTS VACCINATION

In order to prevent an epidemic and to comply with State Health regulations, in cooperation with the local Parent-Teacher Association; we the Goldthwaite School Board suggest that the parents of all children entering school this term have each child vaccinated against small pox, diphtheria and whooping cough. (Signed) THE SCHOOL BOARD Claude Collier, Sr., President 8-13-28

FORMAL OPENING OF BARNES & MCCULLOUGH DRAWS CROWD

The formal opening of the enlarged and remodeled yard and building of Barnes and McCullough Lumber Company here last Saturday drew large crowds all during the day of people from Mills and surrounding counties, as well as many invited guests from a distance.

Crowds were in evidence from 9 a. m. until after the giving away of five door prizes about 8:30 p. m. Barnes and McCullough Lum-

BALLOTS READY FOR ABSENTEE VOTING

BalLOTS were ready Tuesday in County Clerk Earl Summy's office at the court house for absentee voting in the Second Democratic Primary on August 28.

Only one race will be voted on in Mills County, that for United States Senator. The ballot contains the following wording:

OFFICIAL BALLOT (second Primary, 1948). I am a Democrat and pledge myself to support the nominee of this primary. For United States Senator: Coke R. Stevenson of Kimble County; Lyndon B. Johnson of Blanco County.

R. E. CLEMENTS IMPROVED

The many friends through this section of R. E. Clements will be glad to know he has fully recovered from his recent illness, and is back in town meeting his friends.

ber Company here has one of the most modern yards in the state and better than any in this section of Texas. It has been described as being one that would be a credit to the city of Dallas. With a front of 100 feet in length, the plant contains a total of 17,540 square feet of floor space.

NORTH BENNETT REVIVAL

You are invited to attend the revival at North Bennett beginning Sunday night August 15th. Bro. G. L. Derrick from Calvary Baptist Church in Gatesville will do the preaching. Come bring your friends and tell others.

Earl Hollis of San Diego, Calif. visited his grandmother, Mrs. W. A. Hollis of Ridge community and other relatives and friends here recently.

Mrs. Omar Weatherby is visiting her son, Lester Weatherby, and family at Fort Worth.

The curtain was pulled down again Saturday on the 80th Congress as the called session came to a quiet end.

A housing bill liberalizing Government loan guarantees to builders of low-cost homes and large-scale rental projects, was passed. Senator Taft, point author of the T. E. W. housing measure, joined in removing socialized housing, subsidized slum clearance and rural housing provisions from the bill. Those were the controversial matters and the legislation had easy sledding once they were stricken out.

The primary purpose of the housing bill as passed is to channel materials into big city low-cost housing, encourage production of low-cost housing and an expanded production of rental housing units.

Another bill that got the green light has to do with consumer credit controls. The purpose of this Act is to make it possible to curb volume and velocity of consumer credit and, thus slow down an inflationary pressure. The Federal Reserve Board is given authority to restrict installment credit and to tighten up on bank reserve requirements.

Over in the Senate, Senator Barkley offered an amendment to restore wartime O. P. A. along with other suggested provisions. Included in the President's recommendation. But the effort got only 33 affirmative votes. In the House the O. P. A. question was not raised and no vote was taken on that subject.

All in all, the called session was an unusually quiet one. One of the mildest filibusters in history was put on in the Senate by the Southerners to block the Federal anti-poll tax bill. It seemed that everyone was happy over the talk-fest. Nobody got mad at anybody and after a week of it, the Republicans sidetracked the measure and proceeded with the business of the session.

Most of the Texans in Congress will spend the Summer and Fall in Texas. Bob Poage of Waco, who fractured a heel in Waco a month ago, will remain

in Washington for treatment for a few weeks. He is on crutches, with one leg in a cast.

Minority leader Rayburn, who was re-elected by an overwhelming vote this year, returned to his home in Bonham. He lives on a ranch there and takes much pride in his fine Herefords.

Milton West of Brownsville, who did not seek re-election this year because of illness, recently underwent another operation but is now back on his feet again.

Tom Pickett, of Palestine, the only member of the Texas delegation to face a run-off in August, hurried back to his district following the session's end.

Ken Regan of Midland, who was re-elected by a landslide, did not return to Washington for the called session. He is ill with yellow jaundice and since the election has been recuperating. He is expected to have a complete recovery within a few weeks.

Among visitors to call on us during the past week or so, have been former Governor Coke Stevenson of Junction; John Whittenburg, Jerry Pair, Noble McSwane, Ray Schleeter, Mr. and Mrs. Felton Jones and daughter, Sandra, all of San Angelo; and Mr. and Mrs. Douglas Newton and Douglas, Jr., of Del Rio.

The Newtons have been on a tour which took them into Canada. Mr. Newton was recently nominated District Attorney in the Del Rio district.

I will return to Texas shortly after the middle of August and can then be reached in San Angelo. It is my plan to spend a little time during August on my place in Kimble County and later will visit over the district. In the meantime, my office in Washington will remain open and all mail sent to me here as well as to San Angelo, will receive prompt attention.

Jeanette MacDonald is back on the screen in M-G-M's captivating new Technicolor musical, "Three Daring Daughters," which shows at the Melba Theatre Tuesday and Wednesday.

The popular, golden-voiced star, who has spent the past five years on concert tours, makes an auspicious return with Jose Iturbi and young Jane Powell in a lighthearted comedy-romance loaded with songs and unfolding the diverting story of a divorcee whose precocious children try to prevent her from marrying again.

'DOWN TO EARTH'

They say she kissed 2000 men! But, who is she—what's her name—where's she from? We're talking about Rita Hayworth, of course, as she appears in Columbia's Technicolor musical, "Down to Earth," her newest film opening Sunday at the Melba Theatre.

Rita stars with Larry Parks of "The Jolson Story" fame in the forthcoming production.

Brown—Geeslin

Miss Laudazelle Brown, the daughter of Mr. and Mrs. F. E. Rose, became the bride of Mr. Mark Allison Geeslin, son of Mr. and Mrs. Mark Geeslin, on Monday, August 2, at 8 p. m. The ceremony was performed in the Prayer Room of the First Methodist Church in Stephenville.

Rev. John Wesley Ford read the double ring ceremony before an altar of white gladioli. On each side were tall white candelabras with lighted white tapers.

The bride, given in marriage by her step-father, wore a toast-colored crepe dress and brown satin hat. She carried a white Bible topped with an orchid. For something old, she carried a handkerchief the groom brought from Paris, France.

Miss Dorothy Geeslin of Dallas, sister of the groom, was maid of honor. She wore a pale-pink satin dress with brown accessories, and pink gladioli corsage.

Wayne Geeslin of Prade Ranch was his brother's best man. Misses Martha Latham and Donna D'Arcy lighted the candles.

The traditional wedding music was played by Miss Lucy King, organist. Vern Pendleton sang, "O Perfect Love" and "Because."

After an extended honeymoon in South and West Texas, the couple will live in Bryan, where the groom is a student in A. and M. College.

Mrs. Geeslin is a graduate of Stephenville High School, where she was editor of the annual, Senior favorite and president of F. O. O. social club, and the "Golden Rule" club.

Miss Geeslin is a graduate of Goldthwaite High School and John Taitton College, and will receive her B. S. degree from A. and M. next spring. During the war, he served in the Infantry in the European Theatre.

Both young people are active in the work of the First Methodist Church.

Dinner guests in the Jess Massey home last Monday were: Claud Hollis from Silver City, N. M., Earl Hollis from San Diego, Calif., Mrs. W. A. Hollis, Mr. and Mrs. R. D. McCarty from Ridge Community.

Mrs. Inez Leverett and sons, Gary and Guy, returned recently from a week's visit with her brother, Eris Ritchie and family, in San Antonio.

Mrs. A. T. Pribble returned home from a month's visit in Lubbock with her sister, Mrs. A. J. Farris, and her niece and family and friends.

Mrs. Norman Weatherby of Brownwood visited her mother, Mrs. J. D. Berry, the latter part of last week.

Mr. and Mrs. Marvin Hodges visited over the week-end with their daughter, Miss Katharene Hodges, at Austin.

Rev. and Mrs. A. P. Wallentine of Odessa visited a few days with her grandmother, Mrs. C. F. Williams and other relatives. They left Saturday afternoon for their home.

Mr. and Mrs. Ed Gilliam, Jr., and three sons are on a two

weeks' vacation trip to San Francisco and Long Beach, California. They will also visit in Hollywood, Calif., with Mr. and Mrs. Dorner Simms and Mrs. Hyatt Dehn. The Gilliams will return home the last of this week.

Birthday Party

Mrs. Opal Henkes enjoyed a birthday party at the Lampasas park Sunday, August 8th, with all her children and grandchildren. This was the first time the family had all been together since the war and the boys came back from overseas.

A beautiful birthday cake decorated with pink and green candles decorated the center of the table spread with a picnic lunch containing everything including home-made ice cream.

Mrs. Henkes received many

nice presents from her children and friends.

Pictures were made in the afternoon and several of the youngsters had a swim in the swimming pool. Late in the afternoon a lunch was eaten and they all departed for home.

Those who enjoyed the occasion were the children; Mr. and Mrs. Farrell Henkes and children, Deloris, Milton and Charles of San Angelo. Mrs. Dorothy Walton and sons, Robert and Roy, of Randolph Field, Mr. and Mrs. Norman Henkes of San Antonio, Mrs. Minnie Locke and son of Temple, Mr. and Mrs. LaVern Hiller of Whitney, Lee Roy and Johnnie Ray and the honoree, Mrs. Opal Henkes of Goldthwaite. Those who enjoyed the happy event besides the family were Mrs. Lyda Walton and son, Larry, of Goldthwaite, Mr. and Mrs. Herman Henkes and children, Adeline and Melvin and Miss Merle Perry of Hamilton.

Mr. and Mrs. Z. P. Kemp of Santa Anna are visiting her sister-in-law, Mrs. Edgar J. Nutt. They are also visiting friends. The Kemps are part-time residents of Goldthwaite. Marvin Hamilton of Goldthwaite is spending a two-week vacation with his parents, Mr. and Mrs. D. A. Hamilton, he will also visit relatives in Dallas before returning home.

FORMER GOLDTHWAITE ATHLETE TO COACH NEW MEXICO TEAM

A former Goldthwaite athlete, George P. Johnson, has been selected as an assistant coach to Bernie Bierman for the south squad of the New Mexico high school all-star football game to be held August 14 in Albuquerque. Coach Bierman of Minnesota University will coach the south squad and Coach Ray of Illinois University will coach the north.

Johnson is a former Hillsboro Junior College star and all-state guard in 1939. He finished college at New Mexico A. and M. where he was named all-Bordered Conference guard. He continued his football career in the Army, playing with the 7th Army All-Stars in Germany and France.

Johnson was assistant football coach at New Mexico A. and M. last week for a month's vacation in the North and East and they will probably go on into Canada.

Swing Of Southwest Farm Markets

By U.S.D.A. Livestock, cotton and some other farm products brought lower prices than a week ago at southwest markets, according to the U. S. Department of Agriculture's Production and Marketing Administration.

Sheep and lambs declined largely \$1 to \$2 for the week, though Wichita and Kansas City showed little change. Spring feeder lambs held their own fairly well at Texas markets. Common to good kinds brought \$19 to \$22.25 at San Antonio while Fort Worth paid \$20 to \$23.50. Goats lost \$1.25 to \$1.50 at San Antonio, but kids held steady.

Cattle sold generally 50 cents to \$1.50 lower than a week earlier. Stocker cows ranged from \$16 to \$18 at Houston and Fort Worth. San Antonio handled medium and good yearlings at \$25.50 to \$26.50. Good and choice stocker and feeder steers changed hands at \$26 to \$31 at Kansas City. Denver paid \$24 to \$28 for Medium and good.

Hogs closed Monday 50 cents to \$1 lower than a week ago. Bulk sales of good and choice medium weights went at \$27.50 at San Antonio, \$25 to \$28.50 at Fort Worth and Oklahoma City, and \$28.25 to \$29 at Kansas City and Wichita. Denver paid \$29 to \$30. Medium weight sows

reached \$23 to \$24 at most markets. Texas pigs brought \$29 down.

Eggs and poultry found mainly steady to firm markets during the week. Eggs strengthened slightly at Denver, where poultry weakened some. Ordinary current egg receipts brought 37 to 38 and 1-2 cents a dozen at Denver and 38 at Dallas. Fort Worth paid 28 cents with loss off. Most fryers sold from 35 to 41 cents a pound. Heavy hens moved at 24 to 26 at Fort Worth and 28 to 30 at Dallas.

Wheat, corn and barley advanced three to four cents a bushel for the week, oats about 2 cents, and sorghums 6 to 11 cents a hundred pounds. No. 1 wheat closed Monday around \$2.31, with No. 2 yellow corn \$2.19 1/2 to \$2.22, and milo \$2.38 to \$2.48.

Cotton lost about \$3.50 a bale. Spot middling 15-16 inch closed Monday at 31.10 cents a pound at Dallas and Houston, and 31.15 at Galveston and New Orleans.

Mrs. J. S. Bowles of Fort Worth spent several days with her mother, Mrs. A. J. Gatlin and other relatives. She left for her home Tuesday.

Mr. and Mrs. John Jones and sons of Brady were Sunday guests of Mr. and Mrs. Robert Steen, Jr.

SOUTHWEST MAGAZINE PRAISES GOLDTHWAITE EAGLE

The Goldthwaite Eagle has received the following letter from W. N. Beard, President and General Manager of the Southwest Magazine Company, publisher of The Southwest Magazine, Fort Worth:

August 4, 1948

Mr. and Mrs. Wilson
The Goldthwaite Eagle

Dear Friends:

Thanks for several local issues of the Goldthwaite Eagle which you so kindly sent me. These issues bear out all that you told me at San Antonio about the Eagle—it's prestige among local advertisers, its readers interest, its large circulation compared to Goldthwaite's small population.

What you two publishers have accomplished with the Eagle in Goldthwaite bears out what I have often said about weekly newspapers—that is, if any weekly publisher puts out a good readable weekly and keeps putting it out he will have plenty of patronage—plenty of

advertising—plenty of circulation.

True, said publisher must be in a live town but not necessarily a large town. Your town of 1400 population is an example. It is a small town, yet you put out a larger and better weekly newspaper than is put out in other Texas towns with 4,000 to 5,000 population. Your success in Goldthwaite would make a splendid success story for Reader Digest or Cornet. I may have time some day to write the story for one of these leading Magazines.

Yours cordially,
SOUTHWEST MAGAZINE CO.

MR. AND MRS. F. C. TIEMANN CELEBRATE 80TH BIRTHDAYS

On Sunday afternoon, July 25, a large group of relatives and friends from Eden, San Angelo, Old Washington, McGregor, Pottsville and Priddy gathered at the home of Mr. and Mrs. F. C. Tiemann to celebrate jointly the birthdays of Mr. and Mrs. Tiemann. Mrs. Tiemann was 80 years of age July 23rd, and Mr. Tiemann will be 81 years of age August 2.

The group gathered under large shade trees near the house where they sang "Happy Birthday". After the blessing was asked by Mrs. Tiemann's oldest son, August, a picnic style lunch was served. The beautiful birthday cake, topped with 81 candles, centered the table of the honor guest. A number of group pictures were made during the afternoon. One special picture was made of Mrs. Tiemann and all of her children who are; Mrs. G. H. Tiemann, August Drucekhammer, Charlie Drucekhammer, Mrs. Joe Tiemann, Henry Drucekhammer, Mrs. G. A. Tischler, Mrs. Herman Wagner Gerhart Drucekhammer, Herbert Drucekhammer and Edwin Drucekhammer. Mr. Tiemann's children who were present were Mrs. Henry

HILLSIDE MISSION

By LIDA BYRNE

Proverbs, Chapter 3, is consolation for boys going into military service, and to all of us, concerning our loved ones. Here are four outstanding verses of that chapter: "My son, forget not my law; but let thine heart keep my commandments: For length of days, and long life, and peace, shall they add to thee." "Trust in the LORD with all thine heart; and lean not unto thine own understanding. In all thy ways acknowledge Him, and He shall direct thy paths."

TRUCKS, TRAILERS AND CARS CAN BE BOUGHT BY VETERANS

Eleven days before expiration of veterans preference in the purchase of surplus property, former servicemen of World War II will have a chance to buy 17 trucks, trailers and passenger cars. Sale will be by written bids, with the public bid opening to be at the Grand Prairie WAA Customer Service Center on August 20. From one to four vehicles may be inspected at each of the following locations: Love Field, Dallas; Public Housing Project, Midland; Custom Patrol Office, El Paso, and the Bluebonnet Ordnance Plant, McGregor. Seven machines, including a sedan, jeep and pickup, are located at the Veteran's Hospital, Temple. Mailed bids must be accompanied by a 25 per cent deposit and a copy of a military discharge.

KEEPING HOUSE

SOUND FISHY?—You'll be pleasantly surprised when you see the new series of book matches which will describe by word and picture, twenty of America's most famous fish. Educational? Yes! Even mother will be keenly interested in them because each will carry a detailed recipe for cooking the species discussed. **KEEP THEM COOL:** The United States Department of Agriculture advises that you store home canned foods where it's cool, dark and dry. Keep milk clean, covered, and cold. No matter how carefully milk is handled before it reaches the home, it will not keep well if it is then carelessly treated. **"NEW LOOK" AGAIN:** Don't be shocked if your favorite supermarket dons the "New Look," too. The latest trend in self service stores is to use one deep slanted shelf on which can be arranged single or double rows of canned goods, packages, etc. As you select a can from the front of the counter, those behind it slide down on the self to replace it. Such merchandising saves considerable space and naturally saves you extra walking.

RECIPE OF THE WEEK

This easy-to-make dessert looks as good as it sounds and tastes even better. **Coconut Velvet Cream**
1 package orange gelatin
1 cup hot pineapple juice
1 cup milk
3-4 cup heavy cream
3-4 cup shredded coconut, cut
Dissolve the gelatin in the hot pineapple juice. Chill until cold and syrupy. Add the milk and chill again until slightly thickened. Fold in cream, whipped only until thick and shiny, but not stiff. Fold in the coconut and turn into individual molds—or large mold. Chill until firm, remove from mold and garnish with pineapple wedges. Serves 6.

CANNED CREAM SAUCE
There are actually very few women who can make a good cream sauce and there are even fewer who can make it consistently good. With this problem in mind, a leading grocery manufacturer has developed a canned cream sauce and is just about ready to put it on the market.

NEW GADGETS: A new idea in trays is the kind that has folding legs and handy fasteners for attaching them to car windows, baby cribs, and other convenient places... Clogged up salt shakers, soggy crackers or cereals, and sticky hard candies will all become memories if you use the dainty new plastic containers of moisture-absorbing blue crystals which are now available. Put the container over the top of the salt shakers or into the cracker boxes to eliminate moisture. The crystals, which turn pink when they absorb moisture, can be dried out again in the oven.

MORE PEOPLE BUY CHEVROLETS THAN ANY OTHER CAR

COMPARE the values; compare the prices; and you'll choose Chevrolet! For to compare the values is to know that only Chevrolet brings you the Big-Car riding-smoothness of the original and outstanding Unitized Knee-Action Ride... the Big-Car performance and dependability of a world's champion Valve-in-Head engine... the Big-Car beauty and luxury of the enviable Body by Fisher... the Big-Car safety of Fisher Unisteel Body-Construction and Positive-Action Hydraulic Brakes... plus many another major quality advantage still not available in any other motor car in its field. And to compare the prices is to know that Chevrolet prices are the lowest in the field... and that Chevrolet value continues to be the highest in its field! That's why Chevrolet is America's No. 1 car; that's why it's the car for you!

FIRST in Riding-Smoothness! You just can't beat the genuine Unitized Knee-Action Gliding Ride for real riding-smoothness—real traveling ease—over any and all kinds of roads; and, remember, this famous "Knee-Action" ride is exclusive to Chevrolet and more expensive cars.

FIRST in Thrills with Thrills! There's nothing like Chevrolet's world's champion Valve-in-Head engine for thrills and thrills. It holds all records for miles served and owners satisfied. It embodies that extra-sound, extra-dependable Valve-in-Head design, found elsewhere only in costlier cars.

FIRST in Tasteful Beauty! You will be perfectly sure of your car's beauty-leadership when you own a car with the world-famous Body by Fisher; and this most desirable of all car bodies—beautiful from every angle, inside and out—is available only on Chevrolet and higher-priced cars.

FIRST in All-Round Safety! You and your family will enjoy the triple safety protection of Fisher Unisteel Body-Construction, the Unitized Knee-Action Ride and Positive-Action Hydraulic Brakes—another combination of features found only in Chevrolet and higher-priced cars.

REVIVAL SERVICES AT METHODIST CHURCH AUGUST 22-29

Dr. Tom W. Brabham, Pastor of The Methodist Church in Kerrville, Texas, will bring you an intelligent interpretation of personal religion in his evangelistic preaching at The Methodist Church starting Sunday

week. You will be pleased and spiritually helped by hearing him every day. There will be services at 9:30 each morning and at 8:00 each evening.

THE FIRST METHODIST CHURCH

M. D. LOWRY, Pastor
PASTOR'S PARAGRAPH
Our religion ought to be a blessing to us every day; It ought never be a burden as is the experience of many so called Christians. "While you are divided between God and the world, you have neither the pleasures of Religion, nor the pleasures of the world, but are always in the uneasiness of a divided state of heart. You have only so much Religion as serves to disquiet you, to show you a handwriting upon the wall, to interrupt your pleasures, and to appear as a death's head at all your feasts, but not Religion enough to give you a taste and feeling of its pleasures. You dare not wholly neglect Religion, but then you take no more than is just sufficient to keep you from being a terror to yourself, and you are as loth to be good as you are fearful to be bad", says a modern sage.
"O Come, let us worship".

The summer revival of the First Baptist Church will be held this year from August 20th continuing through August 29th. The pastor will preach for the meeting this year and Clarence D. Pruett, Educational Director of the North End Baptist Church in Port Arthur, will be here to direct the music. Mr. Pruett is a very much sought after leader and Goldthwaite is indeed fortunate in having him with us for our revival.

Visitors are most cordially invited to attend the services of the revival at 10:00 a. m. and 8:00 p. m.
Come and worship in the air-conditioned auditorium.

SHAFT—This newly opened shaft with windlass and tarpaulin shed has been dug to depth which runs 20 feet below surface. Left to right, George Ellis, Mullin mail carrier; W. H. Hester, owner of Dry Pond; J. A. Hester, Goldthwaite wool and mohair dealer; Charles T. Goldthwaite Eagle editor, and Ernest Jones, Bulletin editor.

SHAFT REOPENED—W. P. McCullough, with cane, stands above the first shaft opened by L. McCullough at Dry Pond. It is at the juncture of two ancient tunnels, believed used by Spaniards as a cache.

LOOKING INTO SPANISH TUNNEL OPENING—This photo was taken at the bottom of the shaft in center picture, 20 feet down. Old shoring timber is shown at right; opening of ancient tunnel at left. Somewhere in such tunnels underneath volcanic Dry Pond it is hoped to find a silver of gold worth millions of dollars and the key to location of the fabulous Lost San Saba Mine of the Spaniards.—(Bulletin Photos by Milton Brown).

Interest Shown In Mills Co. Treasure Hunt

Such interest and excitement was caused when readers read the story of the treasure hunt going on at Dry Pond three miles northeast of Goldthwaite in the weeks Eagle. Sid Tietzsch, who puts on the regular 6:45 news broadcast over WFAA-870 Dallas, called The Eagle last Friday afternoon for any information, and told of the treasure hunt on his broadcast Friday and Saturday. Many newspapers have carried extracts from the story. Editor Ernest Jones of the Brownwood Bulletin brought his photographer, Milton Brown, down late last Friday afternoon and took pictures of the top and bottom of the shaft. Above pictures are furnished The Eagle through courtesy of Ernest Jones, who carried a feature story in the Bulletin last Sunday and another Tuesday in which T. B. Oglesby of Brownwood, brother of Mohler Oglesby of Goldthwaite, told of his part in the digging in 1935.

RALPH WRIGHT INJURED IN AUTO ACCIDENT

(Fort Worth Star-Telegram)
 Thomas R. Wright, 20, Fort Worth regained consciousness in Methodist Hospital Sunday afternoon and his condition was reported "just fair." His car overturned on top of him on U. S. Highway 80 near the Bagdad Club about 5:35 a. m. Deputy sheriffs said Wright, driving alone toward Dallas, apparently lost control of his car. He was an employe of the Gulf, Colorado & Santa Fe Railroad and had been transferred here.

Ralph is the son of Mr. and Mrs. Bert Wright of Goldthwaite. Mrs. Wright is with him at the hospital, and her last report about him stated that he was somewhat improved but was still in a serious condition.

Mrs. E. B. Anderson returned home Friday from Ruidoso, New Mexico, where the Simms celebrated their annual family reunion last week. There were about 50 attendants.

11 CARLOADS OF PHOSPHATE ISSUED MILLS CO. FARMERS

Eleven carloads of 20% superphosphate has been issued to farmers in Mills County the last three weeks according to L. F. Bain, Administrative Officer of Mills County A. C. A.

This phosphate is being issued to farmers to be used in connection with growing winter cover crops of vetch, peas, and clover. Phosphate purchased in this way is paid for jointly by the government and the producer. The government pays \$18.80 a ton and the producer is required to pay \$11.70 per ton. The county committee is making every effort to secure enough phosphate and program funds to issue approximately 200 pounds per acre on a third of the cropland of all producers farms who would like to try winter cover crops this fall.

Bain stated that vetch, winter peas, and clover seed would be available about September first.

ATTENDED SHEEP SALE

E. W. McNutt attended the Suffolk Sheep Sale in San Angelo August 6. While there, Mr. McNutt purchased 6 head of registered Suffolk ewes at \$65.00 per head. He had them sent to his place here east of town.

Z. D. Kemp and wife of Santa Anna, long time residents of Mullin, were in Goldthwaite the first of the week visiting with their old-time neighbors.

Ada Margaret Geeslin left Wednesday morning for Sonora to visit her sister, Miss Maxine Geeslin.

Mr. and Mrs. R. E. Worley's sons, Rellis Earl and John, who spent a week with their grandparents at Whitney, came home Monday night.

C. S. Miller, Mrs. A. E. Johnson, Mrs. Marsh Johnson and Mrs. J. M. Traylor attended the funeral of their uncle, Mr. R. L. Hemphill at Bastrop Monday.

Miss Mary Alice Boyd of Plains is visiting her aunt, Mrs. Tom Collier, and family. Mrs. Oscar Burns returned home Monday night from Aus-

tin where she spent several days with her daughter Mrs. Bill Hightower and family.

Mrs. M. L. Conway of Brownwood spent the week-end with her father, W. R. Blackburn and family.

Mrs. Walter Bayley and daughter Mrs. Lee Dyas returned Monday from a 12 days visit at Rock Springs with Mr. and Mrs. Monte Kirkland and Mr. and Mrs. Hardin Tobin and Mrs. Dyas' son, James.

Mr. and Mrs. W. C. Henry and family moved last week into their new home just completed on College Street.

Mr. and Mrs. Kyle G. Sims and family of Brownwood spent Saturday night and Sunday with his mother, Mrs. J. D. Sims.

Mr. and Mrs. A. G. Barrett of San Antonio visited recently with his cousin, Mrs. Grover Dalton and Mr. Dalton.

Mr. and Mrs. P. H. Hamilton of Edinburg spent a week with her parents, Mr. and Mrs. Henry Morris. On Monday Mr. and Mrs. Rolla Livingston of Liberty came to Goldthwaite to join the Hamiltons and Mr. and Mrs. Kelly Saylor on a two weeks' vacation trip to New Mexico, Colorado and other points of interest.

100 THINGS YOU SHOULD KNOW ABOUT COMMUNISM IN THE U. S. A.

Continued—By Committee of Un-American Activities, U. S. House of Representatives.

- 12. What would happen to my insurance? The Communists would take it over.
- 13. What would happen to my bank account? All above a small sum would be confiscated. The rest would be controlled for you.
- 14. Could I leave any property to my family when I die? No, because you wouldn't have any to leave.
- 15. Could I travel around the country as I please? No. You would have to get police permission for every move you make, if you could get it.
- 16. Could I belong to a church? In Russia, the Communists have for thirty years tried every way they could to destroy religion. Having failed that, they are now trying to USE religion from the inside and the same Party strategy is now operating in the United States of America.
- 17. Could I start up a business and hire people to work for me? To do so would be a crime for which you would be severely punished.
- 18. Could I teach what I please with "academic freedom"? You would teach only what the Communists authorized you to teach. You would be asking for jail or death to try anything else.
- 19. Could I do scientific research free of governmental interference and restrictions? Police and spies would watch your every move. You would be liquidated on the slightest suspicion of doing ANYTHING contrary to orders.
- 20. Could I have friends of my own choice as I do now? No, except those approved by the Communists in charge of your life from cradle to grave.
- 21. Could I travel abroad or marry a foreigner? You could do nothing of that sort except with permission of Communists.
- 22. Could I exchange letters with friends in other countries? With the police reading your mail, you could try—once.
- 23. Could I vote the Communists out of control? No.
- 24. But doesn't Communism promise poor people a better life? Communist politicians all over the world try in every way to break down nations as they are, hoping that in the confusion they will be able to seize control. Promising more than you can deliver is an old trick in the history of the human race. Compare Communism's promises with Communism's performances in countries where it has come to power.
- 25. What are some differences between Communist promise and Communist performance? When it is agitating for power, Communism promises more money for less work and security against war and poverty. In practice, it has not delivered any of this, anywhere in the world.
- 26. But don't the Communists promise an end to racial and religious intolerance? Yes, but in practice they have murdered millions for being religious and for belonging to a particular class. Your race would be no help to you under Communism. Your beliefs could get you killed.
- 27. Why shouldn't I turn Communist? You know what the United States is like today. If you want it exactly the opposite, you should turn Communist. But before you do, remember you will lose your independence, your property, and your freedom of mind. You will gain only a risky membership in a conspiracy which is ruthless, godless, and crushing upon all except a very few at the top.
- 28. How many Communists are there in the world? There are 20,000,000 Communists, more or less, in a world of 2,295,125,000 people. In other words, about one person in 115 is a Communist, on a world basis.

LOOKING BACKWARD

THROUGH EAGLE FILES

TEN YEARS AGO

Andrew, The Man Who Brought Others

Lesson for August 15, 1948

MEET Andrew, brother of Simon Peter, fisherman of Galilee. Follow his career and you will account him one of the truly great men of the ages.

He was ever alert to help men on to God. He was always introducing his friends to Jesus.

There are many passages of scripture cited for this study, with the devotional reading in Luke and the Golden Text from John 1:40: "He brought him to Jesus."

WHAT ANDREW TOLD HIS FRIENDS

WHEN Andrew met Jesus, and discovered in him the Saviour of men, he went and found his brother, Simon, and said unto him, "We have found the Messiah, which is, being interpreted, the Christ," John 1:41.

What do we tell our friends? Do we not delight to tell our friends what we have found to be good? This was the mission of Andrew—telling his friends about Jesus, for he had found in Jesus that which was good. John the Baptist had told Andrew about Jesus, and he was determined that he would tell everyone who would listen this good news.

HOW ANDREW KNEW ABOUT JESUS

ANDREW got his impressions of Jesus firsthand. When he heard John the Baptist say, "Behold the Lamb of God that taketh away the sin of the world," he went on to inquire about Jesus, and Jesus bade him and John spend the day with Him. They did, from 10 o'clock in the morning until late afternoon.

That was enough. Andrew knew from that day about Jesus. He was now ready to tell others what he knew about Jesus.

Do we know Jesus well enough to tell others about him? If a fisherman could tell the story effectively, cannot everyone? But let us remember this, no man can introduce his friend to Jesus until he himself knows Jesus.

THE MAN WHO BROUGHT OTHERS

LET'S look for a moment at some of the people Andrew brought to Jesus. We begin, of course, with Simon, his brother. Here, I think, is the highest test of his ability to tell others about Jesus—bringing his own brother. It is often easier to tell strangers about Jesus than those of our own family.

And now we see Andrew yonder in the multitude, finding the lad with the loaves and fishes, and bringing him to Jesus. That is the test of seeing the right person at the right time. And again this is the acid test of introducing people to Jesus.

Again, we see Andrew sensing the fact that some young Greeks had come a long way to see Jesus. He knew how to help them. In this incident we see the final example of winning people to Jesus—cultured Greeks, who were familiar, we may assume, with the current thought of the world. But this simple fisherman of Galilee knew how to approach them, how to gain their attention, how to bring them to Jesus.

THEY WAIT FOR THE ANDREWS TODAY

THE world waits for some Andrew today. I fully believe that most people could be won to Christ if only there were enough Andrews. Rarely have I had a person to repel me when I faithfully followed the leading of the Holy Spirit to speak to such a person about Jesus.

Andrew did not rely upon his own resources. He went in the might of the Lord. He knew what Jesus had done for him. He yearned to see all men enjoy their blessing. He was a simple messenger—a voice.

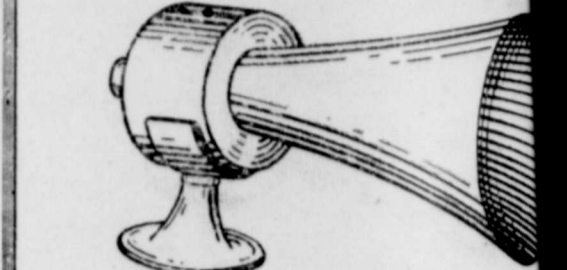

And God gave him words—words that fell like good seed into fertile soil. So may we today introduce our friends to Jesus. Only let us remember this—we must first know him!

Philosophy

A little philosophy inclineth man's mind to atheism, but depth in philosophy bringeth man's mind about to religion.—Bacon.

Try to do to others as you would have them do to you, and you will be discouraged if they fail some times.—Dilbert.

Section to follow Section 3, and be designated Section 3a, to read as follows:

"Section 3a. If, at the time the Legislature shall canvass the election returns for the offices of Governor and Lieutenant Governor, the person receiving the highest number of votes for the office of Governor as declared by the Speaker, has died, then the person having the highest number of votes for the office of Lieutenant Governor shall act as Governor until after the next general election. It is further provided that in the event the person with the highest number of votes for the office of Governor, as declared by the Speaker, shall become disabled, or fail to qualify, then, the Lieutenant Governor shall act as Governor until a person has qualified for the office of Governor or until after the next general election. Any succession to the Governorship not otherwise provided for in this Constitution, may be provided for by law, provided, however, that any person succeeding to the office of Governor shall be qualified as otherwise provided in this Constitution, and shall, during the entire term to which he may succeed, be under all the restrictions and inhibitions imposed in this Constitution on the Governor."

Section 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified voters of this State at a General Election to be held throughout this State on the date provided by law in the month of November, A. D. 1948, at which election all ballots shall have printed thereon: "FOR the Constitutional Amendment providing for gubernatorial succession in the event the Governor-elect dies, or becomes disabled, before qualifying and for such succession in other contingencies."

"AGAINST the Constitutional Amendment providing for gubernatorial succession in the event the Governor-elect dies, or becomes disabled, before qualifying and for such succession in other contingencies."

Each voter at such election shall mark out one of such clauses on the ballot, leaving the clause expressing his vote on the proposed amendment.

Section 3. The Governor of the State of Texas shall issue the necessary proclamation for said election and shall have the same published as required by the Constitution and Laws of this State.

H. J. R. No. 13

HOUSE JOINT RESOLUTION amending Section 15 of Article XVI of the Constitution of the State of Texas, by adding thereto a provision that the husband and wife from time to time may in writing partition between themselves in severally or into undivided interests all or any part of their community property, whereupon without prejudice to the right of existing creditors the portion or interest set aside to each spouse shall be and constitute a part of the separate property of such spouse; further providing that such Constitutional Amendment, if adopted, shall be self-operative and self-executing; providing for the submission of this Amendment to the voters of this State; prescribing the form of ballot; providing for the proclamation and publication thereof.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS: Section 1. That Section 15 of Article XVI of the Constitution of the State of Texas be amended so as to read as follows:

"Section 15. All property, both real and personal, of the wife owned or claimed by her before marriage, and that acquired afterward by gift, devise or descent, shall be the separate property of the wife; and laws shall be passed more clearly defining the rights of the wife, in relation as well to her separate property as that held in common with her husband; provided that husband and wife, without prejudice to pre-existing creditors, may from time to time by written instrument as if they were a feme sole partition between themselves in severally or into equal undivided interests all or any part of their existing community property, or exchange between themselves the community interest of one spouse in any property for the community interest of the other spouse in other community property, whereupon the portion or interest set aside to each spouse shall be and constitute a part of the separate property of such spouse. This Amendment is self-operative but laws may be passed prescribing requirements as to the form and manner of execution of such instruments, and such other reasonable requirements not inconsistent herewith as the Legislature may from time to time consider proper with relation to the subject of this Amendment. Should the Legislature pass an Act dealing with the subject of this Amendment and prescribing requirements as to the form and manner of the execution of such instruments and providing for their recordation and other reasonable requirements not inconsistent herewith and anticipatory hereto, such Act shall not be invalid by reason of its anticipatory character and shall take effect just as though this Constitutional Amendment was in effect when the Act was passed."

Section 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of the State of Texas at an election to be held throughout the State on the second day of November, 1948, at which election all voters favoring said proposed Amendment shall write or have printed on their ballots the words: "FOR the Amendment to the Constitution of the State of Texas providing that husband and wife from time to time may in writing partition between themselves in severally or into undivided interests all or any part of their community property existing at the time of partition so as to convert same into separate property of the respective spouses without prejudice to the rights of pre-existing creditors."

Those opposing said proposed Amendment shall write or have printed on their ballots the words: "AGAINST the Amendment to the Constitution of the State of Texas providing that husband and wife from time to time may in writing partition between themselves in severally or into undivided interests all or any part of their community property existing at the time of partition so as to convert same into separate property of the respective spouses without prejudice to the rights of pre-existing creditors."

Section 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of the State of Texas at an election to be held throughout the State on the second day of November, 1948, at which election all voters favoring said proposed Amendment shall write or have printed on their ballots the words: "FOR the Amendment to the Constitution of the State of Texas providing that husband and wife from time to time may in writing partition between themselves in severally or into undivided interests all or any part of their community property existing at the time of partition so as to convert same into separate property of the respective spouses without prejudice to the rights of pre-existing creditors."

Those opposing said proposed Amendment shall write or have printed on their ballots the words: "AGAINST the Amendment to the Constitution of the State of Texas providing that husband and wife from time to time may in writing partition between themselves in severally or into undivided interests all or any part of their community property existing at the time of partition so as to convert same into separate property of the respective spouses without prejudice to the rights of pre-existing creditors."

Section 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified voters of this State at a General Election to be held throughout this State on the date provided by law in the month of November, A. D. 1948, at which election all ballots shall have printed thereon: "FOR the Constitutional Amendment providing for gubernatorial succession in the event the Governor-elect dies, or becomes disabled, before qualifying and for such succession in other contingencies."

"AGAINST the Constitutional Amendment providing for gubernatorial succession in the event the Governor-elect dies, or becomes disabled, before qualifying and for such succession in other contingencies."

Each voter at such election shall mark out one of such clauses on the ballot, leaving the clause expressing his vote on the proposed amendment.

Section 3. The Governor of the State of Texas shall issue the necessary proclamation for said election and shall have the same published as required by the Constitution and Laws of this State.

HOUSE JOINT RESOLUTION proposing an Amendment to Section 1-a of Article VIII of the Constitution of Texas to provide that no ad valorem tax shall be levied for State general revenue purposes after January 1, 1951, and authorizing the several counties to levy additional ad valorem taxes for certain purposes, providing for a Three Thousand Dollars (\$3,000) residential homestead exemption, and providing for tax levies in counties having tax donations; providing for submission to the qualified electors and for the necessary proclamation by the Governor.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS: Section 1. That Section 1-a of Article VIII of the Constitution of Texas be amended so as to be and read as follows:

"Section 1-a. From and after January 1, 1951, no State ad valorem tax shall be levied upon any property within this State for general revenue purposes. From and after January 1, 1951, the several counties of the State are authorized to levy ad valorem taxes upon all property within their respective boundaries for county purposes, except the first Three Thousand Dollars (\$3,000) value of residential homesteads, not to exceed thirty cents (30c) on each One Hundred Dollars (\$100) valuation in addition to all other ad valorem taxes authorized by the Constitution of this State, provided the revenue derived therefrom shall be used for construction and maintenance of public roads or for Flood Control, except as herein otherwise provided. "Provided that in those counties or political subdivisions or areas of the State from which tax donations have heretofore been granted, the State Automatic Tax Board shall continue to levy the full amount of the State ad valorem tax for the duration of such donation, or until all legal obligations heretofore authorized by the law granting such donation or donations shall have been fully discharged, whichever shall first occur; provided that if such donation to any such county or political subdivision is for less than the full amount of the State ad valorem tax levied, the poor and above such donation shall be retained by said county or subdivision."

Section 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this State at an election to be held on the date fixed by law for the general election in November, A. D. 1948, at which all ballots shall have printed thereon "FOR the Constitutional Amendment of Section 1-a of Article VIII of the Constitution of the State of Texas to provide that no ad valorem tax shall be levied for State general revenue purposes after January 1, 1951, and authorizing the several counties to levy additional ad valorem taxes, providing for a Three Thousand Dollars (\$3,000) residential homestead exemption, and providing for tax levies in counties having tax donations."

Each voter shall scratch out one of said clauses on the ballot, leaving the one expressing his vote on the proposed Amendment. In counties or other subdivisions using voting machines, the above provisions for voting for and against this Constitutional Amendment shall be placed on said machine in such a manner that each voter shall vote on such machine for or against the Constitutional Amendment.

Section 3. The Governor shall issue the necessary proclamation for said election and have the same published as required by the Constitution and Laws of this State.

Section 3. The Governor shall issue the necessary proclamation for said election and have the same published as required by the Constitution and Laws of this State.

HOUSE JOINT RESOLUTION proposing an Amendment to Section 61, Article XVI of the Constitution of the State of Texas so as to provide that all sheriffs, deputy sheriffs, county law enforcement officers including sheriffs who also perform the duties of assessor and collector of taxes, and their deputies, constables, deputy constables, and precinct law enforcement officers shall be compensated on a salary basis in all of the counties in this State beginning January 1, 1949; providing for submission of this Amendment to the vote of the people of Texas; providing the time, means and manner therefor.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS: Section 1. That Section 61, Article XVI of the Constitution of the State of Texas be amended so as to read as follows:

"Section 61. All district officers in the State of Texas and all county officers in counties having a population of twenty thousand (20,000) or more, according to the then last preceding Federal Census, shall be compensated on a salary basis. In all counties in this State, the Commissioners Courts shall be authorized to determine whether or not county officers shall be compensated on a fee basis or on a salary basis, with the exception that it shall be mandatory upon the Commissioners Courts to compensate all constables, deputy constables and precinct law enforcement officers on a salary basis beginning January 1, 1949; and in counties having a population of less than twenty thousand (20,000), according to the then last preceding Federal Census, the Commissioners Courts shall also have the authority to determine whether county officers shall be compensated on a fee basis or on a salary basis with the exception that it shall be mandatory upon the Commissioners Courts to compensate all sheriffs, deputy sheriffs, county law enforcement officers including sheriffs who also perform the duties of assessor and collector of taxes, and their deputies, on a salary basis beginning January 1, 1949.

All fees earned by district, county and precinct officers shall be paid into the county treasury where earned for the account of the proper fund, provided that fees incurred by the State, county and any municipality, or in case where a pauper's oath is filed, shall be paid into the county treasury when collected and provided that where any officer is compensated wholly on a fee basis such fees may be retained by such officer or paid into the treasury of the county as the Commissioners Court may direct. All Notaries Public, county surveyors and public weighers shall continue to be compensated on a fee basis."

Section 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this State at an election to be held on the date fixed by law for the General Election in November, A. D. 1948, at which all ballots shall have printed thereon: "FOR the Constitutional Amendment of Section 61, Article XVI of the Texas Constitution providing that all sheriffs, deputy sheriffs, constables, deputy constables and other law enforcement officers shall be compensated on a salary basis;" and "AGAINST the Constitutional Amendment of Section 61, Article XVI of the Texas Constitution providing that all sheriffs, deputy sheriffs, constables, deputy constables and other law enforcement officers shall be compensated on a salary basis."

BURIED TREASURE

(Continued from front page)

copper plates found in 1903 were discovered in a mound of masonry about one-fourth mile northeast of Dry Pond, and supposed to show the location of both mines and buried treasure at Dry Pond and the location of the long lost mountain of solid silver in the San Sabalano Country known as the Lost San Saba Mine.

That there may be valuable minerals in there still undisturbed state under the Dry Pond location is given a great possibility by Mr. Matlock. As there have been no indications of volcanoes in this section, Mr. Matlock believes the burned earth and blackened rocks found at Dry Pond in abundance was the refuse from the smelters run by the spaniards who worked there around 1762.

Anyways, he's putting his cash and hard work into the hole and if and when he strikes treasure there he will get two-thirds and W. P. McCullough, the owner of the land, will get one-third by the terms of the contract they have entered into.

There have been found during the digging at Dry Pond off and on for the past 45 years at least three and probably four hand-hammered copper boxes containing various things inside and their lids bearing Spanish inscriptions. Not reported last week was one found in 1932 and which is described by The Eagle in its issue of July, 1932, as follows:

BURIED TREASURE

(From Eagle July 15 1932)

There is a legend that many years ago there was a very rich gold or silver mine in this vicinity and that precious metal was molded into bars and buried by Mexicans in the fear of an Indian raid. A number of ancient charts have been exhibited from some of the descendants of the Mexicans, who buried the treasure. Much digging has been done hereabouts and millions of tons of earth have been moved in the hope of finding this immense wealth, but as far as known the discovery had not yet been made. However, there appears to be a pretty strong lead to its hiding now. Last week two strangers appeared here with a chart and selected a location on Roach Fox's land, a few miles northeast of Goldthwaite, at what is known as the "dry pond." After some surveying and digging a copper box or chest was unearthed and it was found to contain papers so old and rotten that their contents could not be ascertained. There are a number of hieroglyphics on the box and some lettering that can be deciphered. The lettering is in the form here given:

2500
Gaja Fuerta mucho denero
doblion de oro
Jeados escudos vaja
Bjondea cuatro
bjondea ocho

Deigratia Peatd

Those in possession of the box are hopeful of some developments that will bring into their possession this buried treasure and it may result in locating the lost mine. Who knows?

Translation of the above into English, line for line reads:

Strong box with much money

Bjondea four
bjondea eight

(the words Bjondea seem to be of Indian origin, and have not been translated).

Out of town guests of Mr. and Mrs. Jno. Schooler during the last week were Mr. and Mrs. Joe Garner and children, Etta Sue and Joe Bob of Austin, J. L. Schooler of O'Donnell, Mrs. Ina Shady, Miss Bessie Kate Lewis, Mrs. Jaunita Canfield, Mr. and Mrs. W. W. Foreman, and W. E. Foreman of San Angelo.

OLD MAN 100

(Continued from front page)

here—but sometimes can't think of nothing to draw. Here's one Old Hunnert remembers when he failed to get that room with bath at the hotel:

"Well, I guess that definitely settles who gets the last room with bath."

Oh, yes, one of O. H.'s meny spies this week reported that Hugh Moreland had fallen from grace and gone a-fishin' Monday afternoon. He got his feet wet for the first time in 14 years, when he last went fishing. Hugh won't tell how many he caught.

Also, here's some news: Allan Campbell and Maston Pribble, them delegates from here to the State Demo convention at Fort Worth Sept. 14, have read so much about what might happen there they've appointed O. H. a committee of one to riddle them a bodyward for said occasion. Requirements are: Must be a lot bigger and a lot tougher-looking than Campbell.

Old Hunnert reads where them people that saw the flying saucers last year are seeing new things in the sky again. They claim a bright light was overhead in the daytime and that a mystery ship from Mars was looking us over from the air. It's just one scare after another for us taxpayers that grumble—that A-Bum, Russh war, and now an invasion from Mars.

Old Hunnert listens to the radio commentators to find out what's going to happen in the future—looks at his bank balance to see what's already happened. Looks like O. H.'s famous slogan—"Save your money and let nature take its course"—ain't done even him too much good.

A year or two ago Old Hunnert got a bright idea for a new industry for Mills County, where there are lots of skunks raised. He started a Polecat Perfume manufacturing business—but got skunked at it while trying to train Polecats to cooperate in the Perfume to bottle department.

A reporter asked Old Hunnert: "And your brother, who was trying to get a government job, what is he doing?" O. H.—"Nothing—he got the job."

THEM CONVENTIONS

Now, Old Hunnert has listened over the radio to the Republican and Democratic conventions, as well as H. Wallace's and Joe Stalin's 3rd party—and notices that everybody whose voice was on the air was introduced as a Honorable. Now, don't many people know it, but Old Hunnert was one of them delegates to the B'wood convention, but wasn't a honorable nothing. Here's how she works: Them honorables at the B'wood convention all set on the platform with big fans to keep them cool, while all us dishonorables (delegates, we thought) set back and sweated her out waiting 30 minutes for them honorables to come in and get on the platform. The convention could get under way to pick the next Pres. for the rest of the people of these USes who ain't smart enough to be a honorable or a dishonorable either. Enway, O. H. wants to advise his meny readers that if they ever attend a convention to pick a Pres, to allus be one of them honorables, if possible; otherwise stay at home. Them honorables run the show, enway and us dishonorables jest say yes. Old Hunnert's jest waiting for the day when them honorables think us citizens are smart enough to vote for a Pres, and will put the candidates' names on the ballot—jest like they do for constable. O. H. has saved up a big pencil with a big black lead in it, and would like to go to the polls on Nov. 2, draw a big black line through all them other names and write in his own name for Pres.

Also, O. H. notices that crooked rivers get that way by following the line of least resistance—so do some men.

And when the father asked Son why he played hookey from school so much, the Son was right up to the current minute and said: "Class hatred, father."

When Old Hunnert was young he thought himself to be a budding genius—but finally turned out to be a blooming nuisance.

One mistaken idea people have is that ants go to picnics. They don't—people take picnics to ants.

Onet O. H. attended a lecture on Forest Preservation and when the man said: "I don't suppose there is a person in this house who has done a single thing to preserve our timber resources," O. H. stuck his hand up from the back of the house and said timidly: "I once shot a woodpecker."
