Plans For Rebuilding Baptist Church Here Progressing Rapidly

Plans for the building of the new First Baptist Church of Goldthwaite, which was destroyed by fire on October 26, are progressing under the direction of the building committee composed of E. B. Gilliam, Jr., chairman, Loy Long, Earl Summy, V. C. Bradford and Luther Piper.

A contractor has been at work investigating the remaining walls of the burned building in an effort to ascertain the advisability of using them in the new structure.

"Much depends on the Kick-Off financial campaign now in progress as to the extent and accommodations of the new building," states Pastor Joseph L. Emery. "The goal for the initial campaign has been set at \$50,000. Of course, we realize that this is not sufficient to replace the building but we do feel that if this amount can be underwritten, then we will be assured and encouraged to go on into the actual construction."

"Something in excess of \$20,000 of the above figures has been pledged by the church constituency, and this figure has been supplemented most generously by friends of the congregation both from Goldthwaite and from other cities," the pastor explained. He continued: "Let me take this opportunity to express again our sincere appreciation to each and every individual who has had any part in helping us materially at this time. We shall never forget your thoughtfulness and generosity in helping us to rebuild our place of worship."

The church had been occupied for two years and two weeks until it was destroyed by the \$100,000 fire. It had been considered one of the most beautiful structures in this section of the state, and the Rev. Emery concludes: "We are hoping, praying and working that our new building will be equally as beautiful and commodious as the one we lost."

Since the fire, and until the new building can be constructed and furnished, services of the Baptist Church are being held in the Grammar School auditorium, which was generously offered by the Board of Trustees of the Goldthwaite Independent School District.

How you can paint this picture

IT'S A JOYFUL PICTURE - this scene of a happy family reunion. It's the kind of picture every man would like to paint for himself.

For it portrays him as a good provider - deserving of the love and gratitude of his family.

You know that good food and good drink are just beyond his doors. You know, too, that credit for supplying all the good things of life can be laid at his door.

To paint this picture of contentment and happiness, you should start saving right now. And you should save regularly - with a foolproof plan that safely tucks away a part of your earnings each payday.

EXCELLENT RELIGIOUS FILM AT M. E. CHURCH

One of the recent releases in religious films, YOUTH FOR THE KINGDOM, will be shown this Sunday evening, Nov. 28. Youth faces a crisis today. Our children need sympathy, love, understanding, and encouragement. They need God in a very definite way. Being mindful that the gospel of Jesus Christ is the power of God unto Salvation this motion picture is offered with the hope that it may stimulate the Christian home, the Christian Church and the Christian community. This film may be an instrument whereby our young people will dedicate themselves anew to Jesus' way of life.

COMMUNITY SINGING

Everyone is invited to attend the Community singing Sunday afternoon at 2:30 at the Church of the Nazarene in Goldthwaite. We are expecting a good time. Come, bring your books and give us a special.

M. E. DISTRICT SUPT. TO PREACH SUNDAY AM

The Rev. J. R. Hilliard, District Superintendent of the Southwest Texas Conference, will preach at the morning worship Sunday, November 23. The Superintendent's office is very important in the Methodist Church as it keeps all the churches in the District working together in the total programs of the Church. We are happy to have Bro. Hilliard come again to preach for us.

BILL LAUGHLIN SUFFERS FOOT INJURY

Bill Laughlin suffered a severe injury to his foot Tuesday morning while the west-bound freight train on which he was a brakeman had stopped at Tensus.

Mr. Laughlin's foot was caught between the couplings on two freight cars when his foot slipped after he had stepped on the coupling to pass between the cars which were moving slowly.

He was placed in the caboose of the train and an ambulance met the train at Marathon taking him to an Alpine hospital. He was placed on the east-bound passenger train later in the afternoon and carried to the company hospital at Houston.

Mr. Laughlin is the son of Mr. and Mrs. Worley Laughlin of Goldthwaite. They visited their son last Sunday. He will undergo an operation on his foot the last of this week.

Automotive Industry Cites Contribution Of Texas To Production Of 100,000,000 Motor Vehicles

A significant transportation milestone is being observed this year with production of the 100 millionth motor vehicle in the United States. Important contributions to this American industrial achievement have been made by the people of Texas.

Currently, one passenger car manufacturer operates a major assembly plant in the state. According to the Texas Employment Commission there are nearly 4,000 Texans who earn their livelihoods with firms making vehicles, bodies, parts, accessories, tires and tubes. Annual wages for workers in these industries exceed \$11 millions.

Indirect and partial automotive employment is found in such Texas industries as copper mining, synthetic rubber production and petroleum refining. From Texas farms, automotive companies receive cotton, wool and mohair.

Ranking fifth among the states in the number of vehicles registered—with 2,062,379 reported in 1947—Texas' highway transportation business is one of the leading industries in its entire economic structure.

According to recent figures, there are 364,569 truck and bus drivers in the state. Another 81,987 persons are employed in sales and servicing work, while 14,634 are engaged in building and maintaining highways.

Texas holds fourth place nationally in the number of retail outlets for new motor vehicles, with 2,072 such businesses.

Out of the state's grand total of 196,615 miles of roads, approximately 71,651 are surfaced. It ranks third in the amount of paved highways, with 13,542 miles.

The Texas Employment Commission estimates that last year gasoline filling stations in the state employed nearly 3,000 persons with wages of \$6 millions. It also reports 3,733 persons working in automobile repair shops with annual wages of \$8 millions. Sales of vehicles, parts and accessories gave jobs to 26,675 persons who were paid wages in excess of \$75 millions.

Texas' scenic attractions lure thousands of tourists each year. In 1947 nearly 1,400,000 cars entered the "Lone Star" state. These visitors spent \$178,562,365 of which nearly \$30 millions went for vehicle upkeep.

Last year Texas' 2,318,000 licensed drivers paid nearly \$67 millions in gasoline taxes. Another \$43 millions were paid in the form of motor vehicle registration fees. The average annual tax per vehicle amounts to \$54.42.

SAN SABA PEAK— BY MRS. DUTCH SMITH

Well at last we had a very nice rain, which we really needed.

Maybe there will be more smiles and less frowns.

Mr. and Mrs. P. R. Jordon received a message Sunday stating his aunt had passed away and would be buried Monday afternoon.

Johnnie Smith of Tarleton spent the week-end with his dad and mother, Mr. and Mrs. Dutch Smith. He said C. S. Jr. was on guard duty and couldn't come home.

Mr. and Mrs. Ward Carlisle and Walunice visited Mr. and Mrs. Cowell Martin Sunday afternoon. Cowell broke his leg on Oct. 31, and is just back from the hospital.

Mr. and Mrs. Terrel Casbeer visited her mother, Mrs. Emma Hufstutler, Sunday.

Mrs. Dutch Smith visited Mrs. H. C. Carothers in Lometa Friday. Mrs. Carothers will be remembered as Betty Zane Williams.

Dutch Smith, Bud Conradt, Loy and Lee Long returned Tuesday night from a hunting trip with one deer. They saw lots of deer, but couldn't hit them.

Mr. and Mrs. Dutch Smith visited awhile Sunday evening with the P. R. Jordons.

Robert Jordon spent Friday night with the Cub Scouts in the Barnett pasture. He reported a fine time.

During the 50-odd years since the first car made its appearance on the streets of Springfield, Massachusetts, the automotive industry grew from a collection of alley shops to a nationwide enterprise employing nearly a million persons.

Its direct operations now encompass 112 final assembly plants which are located in 77 cities in 24 states.

There are approximately eight million other persons who earn their living in such related fields as trucking, vehicle sales and servicing, road building, catering to tourists, repairing and garaging.

Altogether, 56 firms are producing motor vehicles in this country. Currently, the industry offers 21 makes of passenger cars, 39 makes of trucks and 20 different makes of buses. Their output accounts for five out of every six motor vehicles built in the world.

Working hand-in-hand with these vehicle producers is a cross-country network of 5,000 automotive parts and accessory plants most of them small, independent businesses employing less than 500 persons. Raw materials flow into the industry's factories from 50 foreign countries and each of the 48 states.

Mrs. T. A. Andrews and daughter, Miss Dulcie Lee, were here over the week-end visiting her daughter, Mrs. H. E. Patton, and Mr. Patton. The Pattons took them back to Austin Sunday.

Mr. and Mrs. W. J. Weatherby went to Fort Worth Sunday. They are guests in the home of his brother, Marvin Weatherby, and family.

SEAL SALE SEASON NOV. 22 TO DEC. 25

Austin, Texas—Naming tuberculosis as a major public health problem in Texas, Governor Beauford Jester officially proclaimed November 22 to December 25 as Seal Sale Season.

"Our tuberculosis associations are engaged in a fight against a disease that kills more than 2500 Texans a year," said Governor Jester. Stressing the fact that the Texas Tuberculosis Association and its affiliated locals derive the funds to carry on their work from the yearly sale of Christmas Seals, the governor urged everyone to give generous support to the fight against tuberculosis by buying and using Christmas Seals.

The proclamation reads: WHEREAS, tuberculosis is spread from person to person, and constitutes a major public health problem in Texas; and, WHEREAS, tuberculosis claims the lives of more than 2500 Texans annually, killing more of our citizens between the ages of 15 and 44 than any other disease; and,

WHEREAS, the Texas Tuberculosis Association and its affiliated local units are conducting a tuberculosis control program in the State; and, WHEREAS, the work of the tuberculosis associations is supported by the sale of Christmas Seals:

NOW, THEREFORE, I Beauford H. Jester, Governor of Texas, do officially designate the period from November 22 to December 25 as Christmas Seal Season and do urge that residents of the State of Texas generously support the 1948 Christmas Seal Sale.

IN TESTIMONY WHEREOF I have hereunto signed my name officially and caused the Seal of State to be affixed hereto at Austin, this 5th day of November, A. D., 1948.

Let 'er blow...

The one thing that won't help you through the winter is a lot of talk. So we'll make it brief:

Change now to winter-grade Conoco Nth Motor Oil for faster starts, peak winter engine performance and the full-time protection of OIL-PLATING.

Faster starts: Winter-grade Nth is specially refined to lubricate your engine even when the temperature plunges. It's free-flowing.

Peak winter performance: When you drain out that thick, dirty summer oil, you say goodbye to balky engine response. Winter-grade Nth puts June under the hood!

Full-time protection: A special added ingredient fastens an extra protective film of lubricant to metal surfaces... OIL-PLATES every working part... cuts down "dry" friction starts and general engine wear. Let winter blow...

Oil-Plate and go!

OUTDOOR ACTION FILM TELLS SENSATIONAL DOG STORY

A new contender for honors in filmdom's animal kingdom throws his collar into the ring next Sunday and Monday when Paramount presents "Shaggy" at the Melba Theatre. "Shaggy" is not only the title of Pine-Thomas' new Cinecolor production, but the name of the dog whose story it tells. According to all reports, "Shaggy," the picture, and Shaggy, the dog, are both destined to capture the hearts of fans from coast to coast.

Featured in support of Shaggy are George Hokes, Brenda Joyce and Robert Shayne. Young George Hokes portrays the boy to whom the dog belongs, and whose devotion to it is put to a dramatic test when Shaggy is accused of killing sheep. Miss Joyce has the role of Shayne's young, new wife, a city-bred girl whom Shayne brings home to his ranch. George's immediate resentment of his new mother turns to active hatred when she accidentally causes the death of his pet raccoon.

George's unhappiness increases when Shaggy is suspected of being a sheep-killer and, because of what looks like conclusive evidence, his father decides to shoot him. The boy helps the dog to escape to the hills, then joins him there.

The real sheep-killer makes his appearance. He is a vicious mountain lion and the fight between him and Shaggy is said to rank with the best animal action scenes of this type ever filmed. Animal-lovers and those who enjoy outdoor action thrillers filmed in nature's own colors, should have a wonderful time with "Shaggy."

'THE MIRACLE OF THE BELLS'

Eagerly awaited by film-goers, the Jesse L. Lasky-Walter MacEwen production of Russell Janney's "The Miracle of the Bells" has reached the screen with Fred MacMurray, Valli, and Frank Sinatra co-starring in the appealing story of an actress' pathetic last wish and its surprising fulfillment.

Russell Janney's popular novel, still high on the best-seller lists, is produced as an absorbing piece of entertainment. MacMurray has the role of the Hollywood press-agent who brings an obscure actress to short-lived fame, and after her death takes her body back to her native Pennsylvania coal-mining town for a sensational burial. Sinatra portrays the sympathetic priest of the little church there.

LOCAL HUNTERS GET BAG LIMIT

Howard Hoover, Tab Ledbetter, V. C. Bradford and P. H. Hamilton of Goldthwaite, and A. L. Pate of Brownwood and Vern Pendleton and Reey Jones of Stephenville formed a hunting party that closed in on the deer on a lease in Llano County Tuesday morning. They all got their limit, and brought back fourteen deer.

Another party hunting in Llano County the first day the season opened both brought back a deer—bucks, we hope: Mr. Joe Huffman got his, and O. H. (Old Man) Shaw did likewise—but didn't bring 'em back alive.

R. V. Littlepage, on a Llano County lease, also brought back his buck.

ANNUAL MEETING OF COMANCHE TRAIL COUNCIL, B. S. A.

The Annual Meeting of the Comanche Trail Council, B. S. A. will be held December 6, at John Tarleton College, Stephenville. The business session will begin at 5:30 p. m., and the banquet hour at 7:00 p. m.

During the business session the election of officers for the Council will be held, and reports on various phases of the Council work and activities for the past year will be given.

All wives are invited to come with their husbands. From 5:30 p. m. until the banquet hour at 7:00 p. m., there will be a special session for those ladies in the parlors of the Girls' Dormitory.

George Peddy, attorney of Houston, will be the principal speaker during the banquet hour. The meal will be served in the Dining Hall of the College.

GOLDTHWAITE GARDEN CLUB

The setting for the November Seventeenth meeting of the Goldthwaite Garden Club was the beautiful suburban home the Malcolm Jernigans'. Mrs. Jernigan had as her co-hostesses Mmes. E. T. Fairman, Chas. Haenisch, T. M. Glass, D. D. Tate, M. F. Horton, Misses Abbie and Ruth Ervin.

The house was decorated through out with glads, carnations, and chrysanthemums. In the business meeting, Mmes. Smith and Childress were unanimously elected to membership.

Mrs. M. F. Horton was program chairman for the following program:

Roll call: Language of Flowers.
Poem: I Planted A Rose, Mrs. J. A. Hester.

Rose Growing for Home Gardens, Miss Ella Hintz, Home Dem. Agent.

Piano Solo: To A Wild Rose,

Lathan Jernigan. The Sweetest Town On Earth Mrs. Mayme Winsor.

Formula and Demonstration for Making a Potpourri, Mrs. M. Y. Stokes. The program and a lovely refreshment plate depicting the Thanksgiving theme was enjoyed by a goodly number of club members and the following guests: Mrs. Burks, Mrs. Fletcher, and Mrs. Howard Campbell.

ACC HOMECOMING THANKSGIVING DAY

Homecoming of former students of Abilene Christian college, to be held Thanksgiving Day, Nov. 25, is expected to draw the largest number of visitors in the history of the event, P. H. Hill, Jr., Abilene, president of the Alumni association, said this week.

A principal reason for expecting larger attendance is that the student body is the largest in history—nearly 1,700—and more students are sons and daughters of Alumni who are expected to take advantage of Homecoming to visit their children.

Homecoming football opponent of the ACC Wildcats will be the Howard Payne Yellow Jackets from Brownwood. The game will be played in Fair Park stadium there beginning at 2 p. m. Seats may be reserved with A. B. Morris, director of athletics, Station A, Abilene.

Big Valley H. D. Club

The Big Valley H. D. Club met at 2 p. m. Thursday in the home of Mrs. Connie Knowells. The meeting was called to order by the chairman. Roll call was answered by each one relating the demonstration of the year that was most beneficial to them. There being no old business, new business was called for. Mrs. Robert Doak was elected vice-president for 1949 in place of Mrs. Johnson who resigned. Plans were made for our Xmas party for our families which will be with Mrs.

Bill Daniels, date to be announced later. Everyone bring a small gift and each one will exchange gifts.

A discussion of well arranged kitchens was given by Miss Hintz, especially stressing the saving of steps and saving our feet and backs by learning to work sitting down.

This being our last meeting for 1948, refreshments were served to eleven members, one visitor and Miss Hintz.

Mrs. Lloyd Eckert from Miles spent the week-end with her parents, Mr. and Mrs. M. M. Skaggs. Clarence Skaggs and son, Jimmy, of Comanche, also visited in the home Sunday. Mrs. Gus Oberly of Gorman spent the week-end with her sister, Mrs. M. M. Skaggs, in this city.

MISS DORIS HARPER OF STAR IS MAKING AN EXCELLENT RECORD IN HOWARD PAYNE

MISS DORIS HARPER

For several years Mills County young people have made good records in the various colleges they have attended. Some have long since completed their college work and are now farmers, ranchmen, and teachers; others are nurses, physicians, preachers and lawyers.

A large group of our young men and women are now enrolled in some college preparing themselves for a life of usefulness. One of these is Miss Doris Harper of Star, who is a Senior in Howard Payne College at Brownwood, Texas. She is the only daughter of Mr. and Mrs. P. O. Harper, who for many years have been residents of the Star community. One of her brothers is Forest Harper, the County School Superintendent of Hamilton County. She is also the sister of Prof. Sammie Harper of Lometa, Texas; Prof. Tommie Harper of Fair, Texas, and of DeWayne Harper of Goldthwaite, who is the Veterans' Vocational teacher in Mills County. Two other brothers live at Star.

After graduating from the Star high school she attended Texas University for a term. In the Fall of 1946 she entered Howard Payne College. Here she won many friends among the student body and faculty. These students have seen fit to honor her with the following offices and positions: Membership in the Jacket Co-Ed Club, Vice-President of the Life Service Band, which is the largest religious organization within the college; the Librarian of this same organization, which office carried with it the responsibility of planning for, financing, and making the program for the Band's Fall Retreat, that is, its special religious services; vice-President of the Baptist Student Union, which correlates and promotes all the religious activities of the college. She had membership in the Greater Council of this Union. She was Secretary of the Texas Alaskan Club, and edited a small magazine that was circulated among the students, in Texas colleges and universities, interested in religious and mission work in Alaska.

Young Miss Harper has defrayed a part of her college expense by working for a term or two in the Registrar's office, then in the dining room; she is now Secretary of the large Bible department of the college. The W. M. U. of District 16, which is the Baptist Woman's Missionary Union for a large section of this part of Texas, after carefully considering some worthy young women, chose from them Miss Harper to be one of the Union's scholarship girls to attend Howard Payne College this year. In connection with this and her other religious work she has spoken in a number of churches, and at other religious and social meetings.

By her high scholastic grades she had consistently made the Honor Roll of the college. On account of her high grades and general ability as a student, she had just been chosen to membership in Alpha Chi. This is a national organization of students who excel in scholarship; in fact, it represents that select group of the five per-cent highest grades and ratings. Already she is the Assistant Secretary of the local chapter of this organization. Just a few weeks ago, by vote of the student body of her college she was one of the four girls chosen to be listed in "Who's Who," among American Colleges and Universities. This is a book listing the outstanding students of our country and their accomplishments, which book is filed in the college and university libraries of the United States.

Miss Doris, with the help of two or three other students, provided for the biggest student reception the college ever had at the opening of school for new students.

Miss Harper has been among the representatives of her college to two Texas Baptist Student Union conventions, as well as to the State B. S. U. officers' convention. She has found time to teach in a few Vacation Bible Schools, and assist in other outside religious meetings. She is young and full of life, but is a consecrated and humble Christian leader and worker. In this high field of service she plans to devote her life.

Mr. and Mrs. Jack Long and Jack Earl went to Dallas Thursday of last week, where they met their brother-in-law, T. Sgt. Virgil E. Reed of Lima, Peru, South America two years and on a cross country flight. He and his family have been in South America two years and are happy and doing fine.

Mr. and Mrs. Wesley Head have received word that their son, L. Talmadge Head's body arrived in New York from over seas last week.

Mr. and Mrs. Charles M. Hicks of Cameron visited his mother, Mrs. J. M. Hicks, and other relatives Sunday.

CHRISTIAN SCIENCE SERVICES

Thanksgiving Day services are held each year by The Mother Church, The First Church of Christ, Scientist, in Boston, Massachusetts, and its branches throughout the world. The order of service includes the reading of a Lesson-Sermon on the topic of "Thanksgiving," and opportunity is afforded for testimonies of gratitude to be expressed appropriate to the occasion. The public is cordially invited to attend these services.

The Golden Text is: "Offer unto God thanksgiving; and pay thy vows unto the most High" (Psalms 50:14).

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "And let the peace of God rule in your hearts, to the which also ye are called in one body; and be ye thankful" (Colossians 3:15).

The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "The rich in spirit help the poor in one grand brotherhood, all having the same Principle, or Father; and blessed is that man who seeth his brother's need and supplieth it seeking his own in another's good" (page 518).

MAKE FIRE CHECK FOR WINTER NOW

College Station—"Don't wait any longer to check chimneys, furnaces and stoves for possible fire hazards," Mrs. Bernice Claytor, extension home management specialist of Texas A. & M. College warns. "While careless use of matches and smoking materials continues as the leading cause of fires, winter months usually see a rise in the number of fires from defective or over-worked stoves and chimneys."

Here are some recommendations from Mrs. Claytor for checking the home against such hazards.

Check the flues and chimneys carefully to be sure they are ready for winter fires. Chimneys should be free from cracks and loose bricks, and soot and trash cleaned out regularly.

Place all wood and coal stoves on a metal floor covering which extends at least 18 inches in front of the stove door. If stoves and stovepipes are not at least 18 inches from woodwork, protect it by a metal cover. Cover unused flue openings with tightly fitting metal covers.

Replace rusty stovepipes, and walls, provide ventilators for protection.

EAGLE TEAM BEATS GOLDTHWAITE EXES

The Goldthwaite High School Eagles nosed out the hard-playing and hard-hitting Eagle Exes at Eagle Field here Monday night. A cold norther resulted in a small crowd.

It was one of the best games seen here this season.

The Exes made the first score, with the extra point. But the Eagles came back with two quick scores without making the point, and the half ended with the score: Eagles 12, Exes 7.

At the kickoff to begin the third quarter, Coach Bert Brewer, who also played, caught the ball and ran through the Exes for 80 yards for a touchdown. Again the point was no good. The Exes scored in the third, with the point good, the score totaling at the end of the game: Eagles 18, Exes 14. The Exes, near game's end, on a set up by Langford for 30 yards and a run by McLean to the two-yard line, went over on two different plays, but both were called back by infractions, the Exes finally losing the ball near the goal on downs.

The Eagles were coached by Coach Bert Brewer, and the Exes by Ex-coach Ted Kirby. Ex-ex-coach Bill Lane was the referee.

ABOUT MILLS CO. STUDENTS AT A&M

College Station, Texas, Nov.— Jim Robert Steen, son of Mr. and Mrs. R. L. Steen, plans to graduate from Texas A. & M. College in June of 1951. He is now a sophomore Animal Husbandry student. Steen, who was a member of the National 4-H club Congress at Chicago in 1945, and who produced the Grand champion steer at the Houston Fat Stock and Livestock Exposition Show in 1947, is especially interested in beef cattle production. He is now studying various classes of beef cattle with the intention of competing for the A. & M. Junior Livestock Judging team next fall. Steen entered A. & M. in 1947. He is an R. O. T. C. student member of "C" Company Infantry and an active member of both the Heart-O-Texas club and the Saddle and Sirolo club. Upon graduation from A. & M., Steen will receive a reserve commission in the U. S. army. His future plans are chiefly for ranching in west Texas.

BASKETBALL TOURNAY FOR DEC. 9, 10 & 11

Plans for the Invitation basketball tournament are almost completed. This will be the first invitation tournament to be held at Mullin in several years, so let's go "all out" to make it a success.

The "ole" trophy case in the hall is looking kinda' bare, but with a little luck and a lot of work, we may be able to bring it back to life. This tournament will be a good place to start.

A list of the teams signed to participate in the tourney are: Comyn Boys & Girls — Comanche County; Brooksmith Boys & Girls — Brown County; May Boys & Girls — Brown County; Star Boys & Girls — Mills County; Priddy Boys & Girls — Mills County.

We are expecting teams from Sidney, Blanket, Early, and perhaps some others.

Thanksgiving For Two

celebrate the Thanksgiving feast just as well as ten or more. It's not the number present; it's the spirit of thankfulness that really counts. Plan your twosome Thanksgiving dinner in the traditional manner right down to the last pickle fork. Turkey, cranberry, china and silver are a must at this festive feast. A variety of fruit and antique dishes filled with cranberry sauce, and other seasonal relishes serves two purposes—it's a part of the feast and the fruit after dinner. Individual casseroles of crab bisque or onion soup. An appetizer of chicken, duck or quarter-turkey plus all the trimmings. Finish the meal with sherbet in the modern manner, then the old tradition and have snippets of cheese to accompany coffee and black coffee. Silver shown here is Coronation pattern.

Miss Stubblefield Shower Honoree

Miss Polly Stubblefield, bride elect of Tom Womack, was complimented with a personal shower Saturday, November 20, at the home of Mrs. Mack Horton with Mrs. Rhodes, Robertson, and Hardgroves as co-hostesses.

In the receiving line were Mrs. Horton, hostess, Miss Stubblefield, honoree, the groom's mother, Mrs. C. A. Womack, and two sisters, Miss Mamie Womack of Comanche and Mrs. Robert Finley of Coleman, also Mrs. Bill Stubblefield of Hamilton and Miss Brockie McCasland from A. C. C. in Abilene.

Miss Janie Simpson from Texas University presided at the bride's book.

Refreshments were served to fifty-five guests from an all white tea table. The centerpiece, arranged by Miss Ervin was of white chrysanthemums. Throughout the house were arrangements of chrysanthemums in various colors.

Polly received many useful and beautiful gifts.

Weekly Swing of Southwest Markets

By U. S. D. A.

Southwest markets opened Thanksgiving week with nearly all farm products higher than they were the previous Monday, reports the Production and Marketing Administration, U. S. Department of Agriculture. Cotton went up 50 cents to \$1.50 a bale, and cottonseed around 50 cents a ton.

Egg and poultry prices opened the week near the season's peak as holiday demand boosted the market. Also, lighter offerings and smaller cold storage stocks contributed to the advance. Eggs were 5 to 10 cents higher Monday than last year at the same time, heavy hens 6 to 7 cents per pound higher and turkeys 8 to 10 cents higher.

Cattle prices turned stronger Monday before Thanksgiving after drifting downward for more than a week as a result of increased shipments and sluggish demand in dressed beef centers due to a holiday shift to poultry. But when Monday's cattle receipts dropped to the lowest volume in several weeks, prices responded to active trading with gains of 25 to 50 cents per 100 pounds at most southwest markets, bringing quotations near the previous week's level.

After slipping \$1 or more during the previous six days of trading, hogs advanced Monday despite seasonally heavy receipts. Prices climbed \$1 to \$1.50 higher than the previous Monday. Top prices ranged mostly between \$23.25 and \$23.50 at most southwest as well as midwest markets. This was \$2.50 to \$3.00 per 100 less than on the comparable day last year.

Broad demand for scarce supplies of slaughter lambs pushed prices up 50 cents or more per 100 pounds at most southwest markets during the past week. Ewes and goats advanced, too. Feeder lambs held about steady. Southwest wools moved well at steady to firm prices. Trading in mohair was dull due to higher asking prices.

JONES GET THEIR DEER

News comes from Llano county that both Mr. and Mrs. Nolan Jones have got their deer this season. The first day of the season Mrs. Jones got an eight-point buck, and in a few days her husband got a nine-point one. They both are hoping to get another soon, and say deer seem to be plentiful there.

Not So Dumb

THOMAS ROY JONES

Rejecting the saying "it's all right to be dumb on occasion but there's no sense in making a career out of it," Thomas Roy Jones, a Kingman, Kans., boy who became one of the nation's leading industrialists (he's board chairman of American Type Founders, Daystrom Furniture, and other companies) once told an American Management Association conference:

"You are now looking at a man who has made a career of being dumb and thinks it does make sense. I have learned from experience that any answer which I may have for a problem is probably, at best, only half right, so I go to the best man I can find on that particular problem, and if I don't have all the answers when I come away it's because I haven't thought of all the questions. Then I take action on the other fellow's advice and get a reputation for being smart and am invited to come to conventions and make speeches to the fellows I know whom I obtained the answers."

GOOD GOVERNMENT AWARDS

TEXANS HONORED FOR PUBLIC SERVICE: Governor Beauford Jester, right, and County Judge Earl Sharp of Longview, left, were among the ten winners in the nation selected by the U. S. Junior Chamber of Commerce to receive Good Government Awards for 1948. Governor Jester, whose award was presented by John Ben Shepperd of Gladewater, past president of the U. S. Junior Chamber, was cited for his administrative ability and his leadership in the tidelands fight. Judge Sharp, who received his award from Melvin Evans of Wichita Falls, president of the Texas Jaycees, was honored for combating juvenile delinquency and for his public service to Gregg County.

YOUR RIGHT TO BE WRONG

By DeWitt Emery

(EDITOR'S NOTE: DeWitt Emery is president of the National Small Business Men's Association.)

In sportsmanlike America if a runner falls in a race, he can get up and run again. The crowd will cheer him on.

So it is in the game of private business in America. If a fellow tries and fails as a plumber, he can square himself and try again in the business race with a hardware store or something else. Between tries he can tackle any sort of job he chooses. By such trial and error he can seek out the best possible possible application of his talents, his wits and his choice of a livelihood. He has a precious right to be wrong.

Because of this right both we as individuals and our free society as a whole benefit enormously. Indeed, no system for bringing out the most productive results or the most human satisfaction has ever existed before in recorded history to compare with our simple right-to-be-wrong technique. The chief trouble is that there seems to be a constant temptation by some people to tinker with it.

Russia has eliminated the private citizen's "trial and error" rights entirely and the left-wingers are constantly trying to sell out these rights in this country. In the name of worshipful "efficiency" they suggest that the omnipotent State should decide what every man should be or do. "From each according to his ability and to each according to his needs" is one of their catch phrases. It listens good till you ask who decides what you shall need or what your abilities are best suited for.

This sort of malarkey goes over best with people who are either impoverished or frustrated, and feel they have little to lose. Hence the communists seek to encourage unemployment by any means and social strife of all kinds. Nothing would please them more than a whopping depression in America.

On the other hand, probably nothing annoys the communists more than prosperity among the "poor exploited down-trodden victims of free enterprise"—unless perhaps it is to see a new little enterprise being started.

Small business is the bane of communism for several reasons, all of them painful to the red boys. In the first place, practically every American worker nurses a private urge to "be his own boss." Every time he sees another try it, it tickles his own urge a little. If the attempt is a success, the commies have definitely lost a potential recruit, and maybe more. Nothing will chill a man's tempted interest in "sharing the wealth" faster than to achieve a stake of his own in something worth sharing.

Another thing that irks the commies about small business is that every time one succeeds it creates at least one new job right off the bat. It also creates new wealth (which they will find it hard to share) and gives several people a new taste of free enterprise.

As a short-run goal, the commies would like to have everybody work for a few big giant concerns where nobody knows the boss or sees the owners, and everything is handled on a routine, impersonal basis. Under such circumstances their soap-box screeches about the "exploited masses" versus "monopoly capitalists" sound remotely plausible. But it sounds just plain silly to a worker in a small plant who may have ridden to work with his "monopoly capitalist" boss that very morning.

Dairy farmers are losing 50 million dollars worth of milk a year due to brucellosis. That doesn't count nearly two hundred thousand calves that would have made about five million dollars worth of veal.

God's Story-Teller

Lesson for November 28, 1948

"TRUTH in a tale," it is said, "will enter in at lowly doors." The greatest truth of the entire Bible does not come to us in the shape of an essay but of a story—the story of Jesus.

Dr. Foreman

"The gospel did not appear on the editorial page but on the news pages." Many people can understand essays; millions more can understand a story. Jesus himself, when he gave the world his message, used stories to do it. We are told that he never made a talk to the people without using a parable. The parables of the Bible are simple stories, often no more than a sentence long.

They are all alike in this: Whatever the story may be, there is more in it than meets the eye. Parables were not a form of entertainment; they were a way of teaching.

No Cause Is Lost

SOMETIMES the teller of a parable would explain what he meant, as Isaiah does with his little song of the vineyard. Sometimes, and most often in Jesus' case, the meaning is so plain that only a very stupid person could miss it.

Matthew arranges several of Jesus' parables in pairs; one of these is the twin story of the mustard seed and the yeast in the meal (Matt. 13:31-33). Both mean the same thing, and both are so obvious that Jesus did not think it necessary to explain them.

The Kingdom of Heaven—the ideal world, the world as God intends it to be—is a living thing, a growing thing, something at first small, almost invisible. But it will grow; you cannot stop it.

So the ideal world, the Kingdom of Heaven, (Jesus hints) is not an artificial thing; it cannot be constructed by blueprints. It has to follow the course of living things. It does not come all of a sudden, it grows very quietly. You might not see the seed in the ground, but the farmer knows it is there.

Pearl of Great Price

SOMETIMES two or three of Jesus' parables are like a musical theme with variations. The two stories of the pearl worth more than the jeweler's whole collection, and of the treasure hidden in the field, are very much alike, yet just a little different in meaning. Both tell us that the Kingdom of God is more valuable than anything else on earth; indeed, it includes everything else of value. But the stories are different. One tells of a man who was looking for something, the other tells of a man who was surprised by finding something.

Once a Chinese gentleman became dissatisfied with his inherited Confucianism, and set out to find a better religion. For years he shopped around, never finding what he needed. He left Christianity to the last, for in his section of China only coolies and peasants were Christians. But when he began to make friends with some real Christians, he was overjoyed. This was what he had been looking for. This was the pearl of great price.

On the other hand, a drunken sailor, certainly not looking for religion, wandered one night into a Salvation Army meeting. They could do nothing with him, but before they dragged him off to the lodging-house one of them slipped a bit of paper into his pocket. The next morning, cold sober, wondering where he was, he put his hand into that pocket and pulled the paper out. On it were pencilled three words: God loves you. It hit him right between the eyes; and he became a Christian. That was the "treasure hid in the field."

How Far Will Love Go?

JESUS' contemporaries told parables too, but they have all been forgotten. Jesus' parables are incomparable, unforgettable, immortal. If Jesus had been known for nothing else, he would have been remembered for the four stories of the Good Samaritan, the Lost Sheep, the Lost Coin, the Lost Son.

These all have much the same point. "Lost" does not mean hopelessly doomed. How many persons we give up as hopeless! But God never gives up any one. A "lost" person is one whom God is seeking.

Texas flax production increased from a ten-year average yield of 287 thousand bushels to 864 thousand bushels last year and 960 thousand bushels this year. Last year's flax acreage was 91 thousand, and this year it came to 160 thousand acres. This year, with sugar plums and prices down, the flow of other sweetenings such as syrups, molasses and honey to market has slackened very noticeably.

INSIDE MISSION

Lesson can be learned from the trend of conditions here, not only from our past experiences, but tragedy is taking place as the masses are more and more separated from God. I recently visiting in a city I lived for many years meeting an old acquaintance at a street corner, we had the same street car. She has much knowledge of religion is against god but hope a rehearsal of the conversation ensued will show people a hectic life leads to. We had five miles to the main district of that city had time for a lot of news her immediate vicinity. Her old-time acquaintance her lap as a map of she lives, and pointing

with the fore finger of her right hand, indicated where some of the neighbors live or did live, and added: "Some of the women are drinking." She said: "The man who lived here was a cashier of Bank. he began to drink, etc., etc." She continued, pointing to another location on her lap: "This woman is going from bad to worse, etc., etc." and added, pointing to another location: "This woman is separated from her husband and has some small children, etc., etc." After so long a time I inquired about the cashier; he lost his job. She said: "He has gone to his brother," and mentioned a town in South Texas. One after another, she told of tragedies in that neighborhood and it shows that alienation from God leads some people to abject poverty, and all people to distress and sorrow sooner or later; however, some will not heed to experiences of

Uncle Sam Says

Farming is a combination of a business and a home. And you farmers realize that a well-managed business must maintain a financial reserve as security against future needs and emergencies. This reserve is built up during the good years, like this one, when many crops are the biggest in history. It must be in the safest possible form and always available. Nothing meets these requirements so well as U. S. Savings Bonds. You know that Savings Bonds provide more security than cash because they will be replaced if lost or stolen and they also bear interest, paying \$1 for every \$3 invested, in ten years.

GOVERNOR PROCLAIMS
SILENT GUEST PLAN
NOV. 25-DEC. 25

On Thanksgiving Day the American Silent Guest Plan for relief to distressed Europe will be inaugurated over the nation for a second consecutive year, Governor Beauford H. Jester has announced.

The Governor has proclaimed the month November 25 to December 25 as Silent Guest Plan month in Texas.

Last year's drive netted more than \$1,400 for Texas's share of the aid to Europe's poverty-stricken people—war orphans, widows and old folks. The Governor expressed confidence that donations in 1948 will exceed those collected last year.

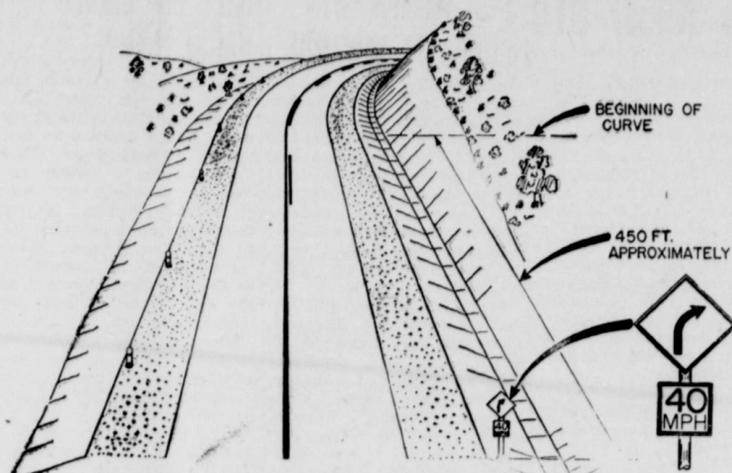

As projected through the nation, this plan calls for each American family to invite a "Silent Guest" to eat at his table for one month, sharing in a Thanksgiving and a Christmas dinner.

Mindful of the fact that it would cost a family approximately \$30 to feed a guest for one month, the Governor has suggested that those families with limited incomes may "share" a Thanksgiving meal or that of a Christmas dinner.

After calculating the cost for feeding this extra person, the family may mail a check or money order, covering that sum, to the Governor's Office in Austin. The collections will be forwarded then to Committee headquarters for purchase of food packages from the non-profit, government-approved organization, CARE, for delivery to needy families in Europe, Governor Jester said.

CARE, the Cooperative for American Remittances to Europe, Inc., was chosen by the American Silent Guest Committee last year to handle the funds because it represents all of the major religious and nationality groups, and is the only organization of its kind so comprehensive in scope.

NEW TYPE HIGHWAY SIGN ON TEXAS HIGHWAYS

Austin, Nov. 22—A view like one pictured will soon confront Texas motorists. The new type of highway sign will serve to warn of the maximum safe and comfortable speed for curves and turns.

These signs are part of a new

program of advisory speed zoning by the Texas Highway Department and represent a step recommended by the Governor's Highway Safety Conference.

Motorists who utilize the speed advised on these signs will find that there is no side-throw in their cars at this

speed. The speed indicated on the sign was determined by a scientific study of each individual curve and turn, and will vary because of the different elements such as degree of turn and the amount of bank on each separate curve.

STATE TEACHERS ASSOCIATION IN 70TH AN. CONVENTION

Austin, Nov. 22—The seventy-second annual convention of the Texas State Teachers Association in Dallas Nov. 25, 26, 27, is expected to set an all time record for attendance.

It is estimated more than 15,000 teachers will spend the Thanksgiving holiday period attending the general sessions and special meetings, it was said Wednesday by Charles H. Tennyson, public relations director for the association.

In addition to three general sessions, the teachers will have an opportunity to attend fifty-three sectional meetings and twenty-three breakfasts, luncheons and dinners. Every phase of education of interest to Texas teachers will be thoroughly examined at the seventy-six special meetings.

Dr. W. R. White, president of Baylor University, Waco, will preach the sermon at Thanksgiving service Thursday morning, which opens the convention.

Miss Emma Mae Brotze, Marshall, president of the state association, will preside at the Thursday and Friday night general sessions.

Dr. Frank P. Graham, president of the University of North Carolina and a pioneer in atomic research, will be the principal speaker at the general session Thursday night.

State Senator James E. Taylor will give a report on the Gilmer-Akin committee recommendations. The committee was

ordered by the state legislature to make recommendations for improving the Texas School system.

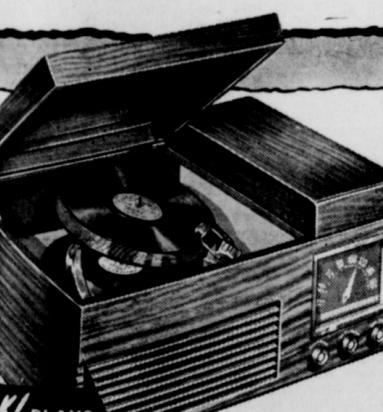

Dr. L. A. Woods, state superintendent of public instruction, Austin, will also address that session.

7,572 W. W. II Dead. Returned From Europe; Texans Await 316

Remains of 7,572 Americans who lost their lives during World War 2 have been returned to the United States from Europe aboard the United States Army Transport Carrol Victory, the Department of the Army announced last Wednesday.

Armed forces dead originally interred in temporary military cemeteries in France, Belgium, and Holland are among those brought back to this country.

A total of 316 remains were returned upon instructions of next of kin residing in Texas.

The Army stated that each next of kin was notified in advance of the arrival of the vessel, and would be notified again after arrival of the remains at the regional Distribution Centers of the American Graves Registration Service.

Among those listed from Texas are included:

1st Lieut. William T. Head, Army; next of kin, William W. Head, Goldthwaite.

Pfc. Garland Banks, Army; next of kin, Albert G. Banks, Llano.

Cpl. John D. Overstreet, Army; next of kin, Mrs. Hazel G. Overstreet, Llano.

OLD MAN 100

(Continued from page 1)

Old Hunnert likes to stay away from them courts as much as possible. Here's what happened the last time: Lawyer—"Your Honor, I would like to ask for more time for my client." Judge:—"All right. I was going to give him five years. Now I'll give him ten."

Old Hunnert at last believes he's reached the age when he's stopped wondering how he can dodge temptation and started wondering if he's missing any. Also, his favorite book used to be his bankbook—but he even lost interest in that when the 7th took over.

Also, they had a bad scare from burglars here once, and when O. H. started out that night, the 7th was nervous and said: "Dear, when you come home tonight, if it is you knock three times; if it's not you five times."

THEM DEAR HUNTERS—

Now, everybuddy knows that on the furs dear hunting day them dears are so gentle that all you have to do is open your pocketbook—and there they are! And if you want to go into some tamer sport, all you have to do out in the pastures is to walk up to a big buck, say good-morning, put your gun to his eye, and bring him back. But, after a few days it's different. Them dears and deers that's still alive are wiser up some—and wilder more some—but they played a joke on Old Hunnert and he drew a blank in both cases and on both days—blank cartridges just scared that buck and he run off with O. H. chucking him with rocks.

DEAR EAGLE EDITOR:

I have been celebrating the election and haven't had time to write or anything else except to celebrate. Yes, there were a lot of red faces the next day. The wisecracks that bet on Dewey, their faces were red, but they felt blue, and some of them were yellow enough to desert the party. They should be blackballed out of the party. Me, I just have a dark brown taste in my mouth from celebrating. I spent a few hours in Goldthwaite not so long ago, had a nice short visit with Dow Hudson, Butch Dickerson and Oscar Burns. Those boys are sure holding their ages well. They don't seem to have changed a bit in the past forty years. However, I didn't see Old Man 100. I think he heard I was coming and took a powder. I did run into the Old Man in Dallas on Press Day. He rushed up to me and shook hands and said: "Howden dooden, Methuen." I wondered why he couldn't talk plain and the 7th said she drove all the way and the Old Man slept. He took his teeth out so he could rest better and when they arrived in Dallas he couldn't find his upper plate. I went inside with him to

register and get his badge. The Old Man walked up to the desk and said: "Good mornin, I'm Old Man Un-unrd." The fellow at the desk was very busy, he just glanced up and said: "I never heard of you" The Old Man said: "I am a communist." Then the fellow did perk up. He held up two fingers and whistled and said: "We don't want any communist in here." A couple of huskies gave the Old Man the heave ho and he landed in a trash can on his side up. He was waving his legs and hollering for help when a boy came along on a scooter, overturned the can and the Old Man crawled out and reached back and retrieved his upper plate; it was in his top coat pocket and fell out when he lit in the can. Boy was he hot, his face was red as a tall light in a tunnel, his blood pressure a hundred and twenty. He stormed back inside with blood in his eye. I took over about that time and told the man that Old Man 100 was a Communist and not a Communist, and with his upper plate in he could much plainer. He was issued a badge large as a saucer which he pinned on his tie so everyone could see it. He put the 7th in the football game and offered me his ticket as he had some business to attend to and wouldn't need it. I refused on the grounds that I don't like football. I don't understand it, I have nothing against it, I just don't like it, as Dow Hudson says there is a lot of people that don't like soda water. Well, we separated there and I didn't see the Old Man for two or three hours, and when I did he was attending to the business he spoke of, he was with a East Texas Red Headed widow with fourteen children. She was wide as 915 on the face of the clock, had freckles on her face as large as a ginger snap, was so cross eyed she could lay flat on the back and look down a well. But that didn't bother the Old Man. He was light and airy, frivolous and frolicsome. He barged into a hamburger stand and consumed seven dollars worth of hot dogs and pop. I think the Old Man had stepped on a Brass Rail or two, for he sure was talkative. He was beating his gums about what a Big Shot he was in his home and produced a copy of the Eagle to prove it. The old gal finally suggested a show and they wandered off down the midway to a small circus and menagerie. The Old Man walked up to the ticket box and said to the ticket seller, who was also the manager, "Me and my wife and children would like to see the show. We don't care anything about the acting. We just want to see the Animals. What will you charge us just me, my wife and children to see the Animals and walk out, not stay for the acting, what will you charge?" The manager asked, "How many children have you?" The Red Head spoke up and said: "Only fourteen." The man-

ager said, "Never mind, just bring the animals and let them see the children." Then he saw a six-foot husky coming our way, a Widow said: "Oh, there's Zeke." The Old Man said: "Is Zeke?" She said, "Oh, my Sweetie back in my Gulch." The Old Man bid quick goodbye and sudden remembered a pressing engagement, which he fulfilled at once. When I saw him an hour he was still pressing, he stepped against a Brass Rail, the fair comes but once a year so let the Old Man have a fling. Hope to see you at Turkey time.

Yours truly,

O. H. has heard so much of them fine pecans on the good place on the river him and the 7th drove off one Sunday P. M. hoping to get a handout. O. H. did, all right—one pecan. However, Mr. Hapgood told the difference between a far and an agriculturist: A far makes his money in the country and spends it in town, while agriculturist makes his money in town and spends it in country.

O. H. has jest about quit weather-profiting business—it ain't no profit in it, jest laugh when he misses. Here's some pointers to some younger newcomers—or other things—might want to do some weather-profiting: Don't start predicting rain in the middle of a long dry spell; also, O. H. has noticed that it never rains or snows long on a dry ground. The best way to predict the weather ahead is to make up your mind that you're correct, write down, then study it some more tear it up and don't tell nobody.

Them 11 dullers from the Boss are sure each week—but O. H. has been having troubles on his sidelines lately. About a month ago he started in writing short stories for them magazines. He writ a good one, one night and sent it in to the editor and set back to await the check. He waited three weeks before writing them for the check—but got instead the following letter: "Dear Sir: Your short story was so badly written that we had to have one of our staff writers re-write it before we could throw it in the waste basket."

Also, when Old Hunnert went to the banker here to try to get backing for a new Mills County industry he wants to start, Earl just said: "Polecat Perfume, Phooey! For Mills County people I'd back anything if they needed it—gold mining, lost treasure hunting, oil well drilling, uranium mining, or anything that help Mills County. I'd even back old A. Ain't to find that lost San Saba mine if it was in Mills County—but Polecat Perfume—that SMELLS—nothing doing." A great industry here went ka-floody with them wents.
