"God Of The Atom," Sound-Color Film, To Show At M. E. Church

A new approach to the atom bomb problem will be presented when the sound-color film "God of the Atom" is shown at 7:30 p. m. Monday, March 28, at the First Methodist Church Auditorium according to Rev. Joseph L. Emery, pastor of the First Baptist Church.

The picture has been produced by Dr. Irwin A. Moon, director of Moody Institute of Science in Los Angeles, and noted originator of "Sermons from Science." In the film, actual shots of the Nagasaki and Bikini explosions are featured, as well as the only full-color moving pictures ever taken of the giant 184-inch cyclotron at the University of California. Since this exclusive sequence was filmed, concrete walls have been built around the cyclotron, and the interior has been rendered dangerously radioactive.

In his role as narrator of "God of the Atom," Dr. Moon declares, "Our trouble in the world has never been due to the fact that we've had swords, or tanks, or airplanes, or even atomic bombs. Take all these things from the world and men will beat each other to death with their bare fists!" The problem is not what man has, but what man is, he says. Larry Johnston, a young physicist who aided in atomic development at Los Alamos and photographed all three wartime bombs as they exploded, also appears in the film with an eyewitness account of his experiences.

"God of the Atom" is second in a series of religious-scientific films produced in the laboratories of Moody Institute of Science, a branch of Moody Institute in Chicago. It follows the popular "The God of Creation," which was shown last year to more than a million people in churches, schools, and civic auditoriums.

The film will be shown by Mr. Percy A. Bagge, film representative.

DAVID T. ROACH TO SPUD IN OIL TEST AT TRIGGER MOUNTAIN

David T. Roach, oil operator of Austin, is the latter part of this week moving in rotary and will as soon as it is set up spud in an Ellenburger lime oil test on the W. R. Dobbins survey in the Trigger Mountain Community, about eight and a half miles north-east of Goldthwaite.

Leases, which were secured here by S. L. Morris and Henry Venable, have all been signed, and drilling location has been filed with the Texas Railroad Commission in Austin.

Work is now under way securing leases for two other tests in different sections of Mills County.

Baptist Youth Revival To Continue Through Sunday, March 20

The Baptist Youth Revival which began with the morning services last Sunday, with Rev. Keith Parks of Fort Worth as the speaker, has been very successful and inspiring. The services have indeed been inspiring as Rev. Parks speaks with great power and with a convicting and convincing message. Souls have been saved and lives re-dedicated which brings much rejoicing to the entire church.

REV. KEITH PARKS

Large crowds are attending both the morning and evening services, held at 7:30 a. m. and 7:30 p. m. The young people of all Mills County are especially urged to attend these services which will continue through this Sunday evening. The young people are filling the choir section each night and are directing the ushering and other features of the services.

A brief fellowship hour, under the direction of Walter Langston, educational director of the church, and Rev. Parks follows the evening services. During this time, a question and answer period has been

conducted several evenings. Everyone is extended a most cordial invitation to attend the remainder of the services, and Baptists are not only welcome but expected.

Baptismal services for all the candidates awaiting baptism will be conducted Sunday afternoon at three o'clock at the First Baptist Church, San Saba.

Goldthwaite F. F. A. Father And Son Banquet Here Friday Night

SPECIAL WORSHIP AT M. E. CHURCH FRIDAY

This evening, March 18, there will be a worship service at The Methodist Church in observance of this WEEK OF DEDICATION throughout Methodism. The service starts at 7:30. All Methodists are reminded that during this week we are giving special attention to a most serious challenge to give ourselves more fully to eternal values and devotion through the program of our church.

Tonight (Friday) night at the high school lunch room the F. F. A. Boys will honor their fathers with a banquet. A program will be given with E. V. Walton, Professor of Agricultural Education of A. & M. College, as the principal speaker.

Another person to be honored is the F. F. A. Sweetheart for this year. She will be crowned at the banquet with a crown of roses.

The menu is being prepared by the Goldthwaite Home Economics girls. They are planning upon 120 people, and the F. F. A. boys feel indebted to the girls for helping them put the banquet on.

Three Mills Co. Communities Have Oversubscribed Red Cross Quotas

Scallorn, Ridge, and Jones Valley have completed their Red Cross funds drive and have oversubscribed their quotas. Other communities in the county will complete their work this week.

Won't you make your donation this week?

Suppose a procession made up of all the people benefited from Red Cross services in 1948 should march by your house, marching ten abreast. Such a line of ten passing your line of vision at every tick of your watch, marching 24 hours every

day, it would take exactly one week for the last line to pass.

All who donated to the Red Cross last year helped in every service that the Red Cross gave last year.

There will be calls for Red Cross help in 1949 from disaster-stricken areas, servicemen, veterans in hospitals, families of servicemen and veterans.

You, too, can help again in 1949. Won't you make your donation today?

AL T. LANGFORD WINS PURINA "MIKE AND IKE" AWARD

Hollis Blackwell Feed Co., of Goldthwaite, received the Eddy Arnold Award for Showmanship this week for the successful completion of the recent "Mike and Ike" live pig display at the store. The award was given by Arnold on behalf of the Ralston Purina Company, sponsors of "Mike and Ike" demonstrations throughout the country. The award consists of a large picture of Arnold, who is acknowledged the nation's favorite singer of folk songs, an inscription calling attention to the showmanship exhibited by Blackwell Feed Co. and bears Arnold's autograph.

The "Mike and Ike" demonstrations here gave definite proof that the feeding of a proper ration will help raise a big hog for marketing. The two hogs were litter mates and were nearly equal in size and weight when the demonstration started last fall. "Mike" was fed a Purina Hog Ration, while "Ike" received straight grain. At the end of the demonstration, "Mike" was bigger and heavier than "Ike" and the gains made by "Mike" were made at a lower cost per pound than gains made by "Ike."

John Earl Roberts from San Antonio and Claud Holley and wife from Madill, Okla. visited this week with Mrs. Eula Nichols and other relatives.

SOME FACTS ABOUT GOVT. INSURANCE

World War I veterans who have retained their U. S. Govt. Life Insurance should think to see if the beneficiary to whom they would desire the insurance be paid to in case of death is correct.

Also of interest to veterans of World War I is the fact that they may apply for and secure U. S. Government Insurance by passing physical examination.

WORLD WAR II VETERANS AND NSLI WAR POLICIES

World War II veterans can still reinstate their National Service Life Insurance, if not lapsed for more than three months, if they are in as good health now as at time of lapse and making a statement to that effect.

If the insurance has lapsed more than three months it will be necessary to take physical examination.

Anyone can now be named as beneficiary of this insurance.

Death payments can be made in lump sum, or three other optional methods.

For further information and assistance on your insurance—and all other benefits veterans or dependents of veterans may be entitled to—see the Representative of V. A., John H. Quick, at Court House, Commissioners Room, Tuesday morning of each week—or V. A. Office, 200 East Baker, Brownwood, Texas.

We Are Operating At MAXIMUM CAPACITY—In An Effort To Supply Your Areas' Demand With A Well Cured, Properly Blended Fertilizer. WE DO NOT RETAIL—WE WHOLESALE TO OUR DEALERS

**Our Dealers In Your County Are Well Known
SEE THEM BEFORE YOU BUY FERTILIZER!**

The quality of our fertilizer is second to none. The physical condition of our fertilizer and the manner in which it flows through your fertilizer distributor are superior.

SOME PERTINENT FACTS FOR YOU TO CONSIDER

- DUE TO** the quota system your allotted acreage on certain crops has been cut—
BUT YOU can by proper fertilizing assure even higher production than you have realized in the past by making acre yield more.
- DUE TO** extreme cold weather small grains are often seriously damaged—
BUT YOU can by proper fertilizing supply the plant with minerals which are salty and lowers the plants' point several degrees, thereby assisting the plant to survive extreme cold weather as well as to supply the plant sufficient nourishment to keep it alive and growing in the event it is damaged by extreme weather.
- DUE TO** the extreme early hot winds we often fail to make a good corn crop by about ten to fifteen days—
BUT YOU can by proper fertilizing plant earlier with less danger of cold weather, also making possible more growth thereby assuring some fifteen or twenty days earlier maturity and greater yield thereby beating the hot and dry weather to the draw.
- DUE TO** the scarcity and price of feed, as well as the fact that it has been proven otherwise, successful winter grazing proved to be one of the most important factors to the livestock industry—
BUT YOU can by proper fertilizing more than double your grazing as well as furnish the animals with essential minerals necessary for maximum development.
- DUE TO** the fact that your number of cuttings of alfalfa, etc., depends upon how fast the plant grows, the cutting range from two to seven per season—
BUT YOU can by proper fertilizing put sufficient growth on your hay crop to insure maximum yield at the same cutting.
- DUE TO** the fact that fertilizer was first used in sandy loam areas forty years ago in such states as Alabama, Mississippi, Georgia, etc., many people believe that the black land areas do not respond to fertilizer—
BUT YOU can by proper fertilizing realize as much increase in yield on black land as has been realized on the soils. Your County Agent, A. A. Administrative Officer or Soil Conservation Supervisor will tell you that more fertilizer is used in the Mississippi Delta—the richest soil in America—and the rich Western grain belt than in any section of the United States. The farmers who do not fertilize black land, should properly post himself on the California and South Texas vegetable and fruit sections.
- DUE TO** the fact that some areas during the past several years have practically specialized in certain crops like peanuts in Central Texas, maize and cotton in West Texas, flax, peanuts and maize in South Texas, etc., these farmers are wondering what types they should use and how to properly apply their fertilizers on other crops to find it necessary to plant their excess acreage during this period of acreage quotas and gear shifting, so to speak.
- BUT YOU** can by proper fertilizing realize just as much increase in yield on one crop as another, for after all, all plants of some kind—their source of food (the soil) is the same. They ALL MUST have nitrogen, phosphorus, potash—and these are the basic elements in fertilizer. To be sure all crops might not respond equally to a particular fertilizer but various services at your command can advise you which analysis are best adapted to a particular plant according to the deficiencies of your local soils.
- The Cotton and Potato Raiser in the old States—Alabama, Georgia, etc., fertilize heavy and will tell you that IT PAYS.
- The Grain Raiser in the vast Northwestern Grain Belt fertilizes heavy and will tell you IT PAYS.
- The South Texas farmer finds that proper fertilizing is PROFITABLE.
- The Mississippi River Delta Farmer finds that fertilizer PAYS.
- The Central Texas farmer has found that fertilizer PAYS.

**Cline Motor Company To Show
New Plymouth In Showroom Today**

The new line of Plymouth automobiles, with outstanding mechanical improvements and up-to-the-minute styling, make their appearance in dealer showrooms here and throughout the United States Friday, A. W. Cline, of Cline Motor Co., announced this week.

Completely redesigned and streamlined, the new Plymouth contains a 97-horsepower engine which is smoother, livelier, and more economical. Other changes make notable contributions to beauty, safety, and passenger comfort.

Wheelbase has been increased for a better ride and more road stability but at the same time the over-all length has been reduced for ease of handling. Although lower and narrower, the new bodies provide greater interior room for passengers. The car's appearance reflects a complete change from last year's models. The Plymouths may be seen at Cline Motor Co. in Goldthwaite today.

Designers have achieved a "common sense" streamlining in which ease of handling, safety and comfort have received

strong consideration. Fenders which blend perfectly into body lines are nevertheless separate and detachable, thus avoiding sheet metal masses so costly to repair or replace.

Increased visibility is provided in the windshield which is 37 percent larger and the rear window which is 35.4 percent larger. Windshield wipers clear 61.5 percent greater area.

Sedan seats are wider and deeper, both in front and rear. The width of both cushions has been increased 5 inches in front, 6 inches in rear—front seat width 56 inches, rear seat width 57 in.) with panels and arm rests so located as to take maximum advantage of the interior space. Rear seat room in the Club Coupe has been increased to the equivalent of the Sedan. There is more head and leg room in the Sedan rear seat.

The new Plymouth line includes nine distinct automobiles. There are four special deluxe and two deluxe types on a 118-inch wheelbase, one inch longer than last year's. In addition, Plymouth will build three deluxe models on a brand new 111-inch wheelbase. This wheelbase consists of a two-door sedan, a three-passenger coupe, and a new body type, the Suburban.

Available on the 118-inch wheelbase will be a club coupe and a four-door sedan in the deluxe series, while the special deluxe group will include both the club coupe and four-door sedan in addition to the convertible club coupe and the station wagon.

Engine performance and efficiency has been improved with a new design cylinder head which increases compression ratio to 7 to 1. A new chrome plated compression piston ring reduces cylinder wear and provides greater protection during the break-in period. There are improved oil rings for greater oil economy, while a newly-designed intake manifold induces quicker, smoother engine warm-up and produces faster response to throttle opening.

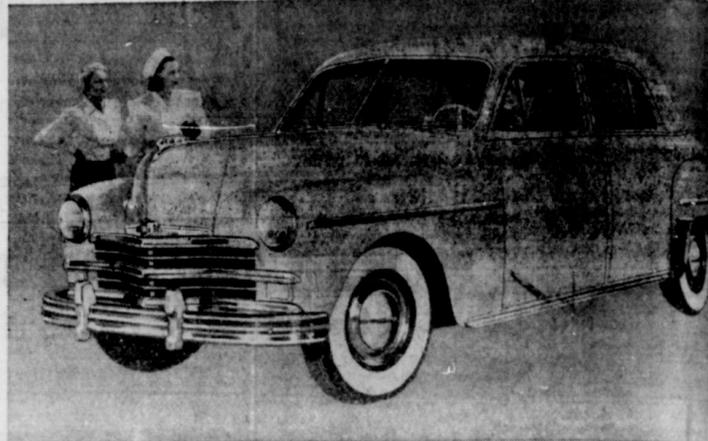

The longer wheelbase allows a "cradled ride," as passengers are more nearly centered between the axles. Another contribution toward smooth riding qualities is the addition of diagonally-mounted shock absorbers at the rear of the car, greater rebound control in the front shock absorbers, and the newly designed rubber limit bumpers. The new shock absorbers also allow greater road clearance and reduce sidesway.

Interior design of the Plymouth provides many driver and passenger comforts and conveniences. Sedans have the rear door hinged from the center post for easy entrance and exit. The seats, front and rear, have a three-pillow cushion while seat backs have a full pillow on each side and three vertical pipes in the center. Imitation leather kick pads are carried around the seat bases and on the door base. New, more rugged window regulators close or open windows with half the number of turns formerly required. Instrument panels with a new grain finish have been designed and relocated for ease in reading gauges. The glove box easy opening. A new, easily operated vent window lock has been designed to reduce theft of articles from parked cars, and the ignition cable has been heavily armored from the ignition switch through to the engine compartment as a safeguard against car theft.

A new automatic electric choke, of the same type used on other Chrysler Corporation cars, has been added. Among the outstanding innovations is the combination ignition and starter switch which completely eliminates the starter button. The car starts by turning the ignition key slightly beyond the "ignition on" position. When released, the key automatically returns to "ignition on" position. The device is not only a driver convenience, but makes it impossible for children to move cars which are parked and left in gear by accidentally pushing the starter button.

A new air car heater, which steps up defrosting and more readily removes window fog, is available, in three models.

New Plymouth on Display

Plymouth's new special deluxe four-door sedan (above). Throughout the new Plymouth line, streamlined bodies are lower and narrower, seats are wider and headroom greater. At the same time exterior dimensions are reduced, but wheelbase has been lengthened to 118 inches and glass area increased. Horsepower is raised to 97. Although fenders flow gracefully into the body they are detachable for ease of repair.

**New Plymouth Features Beauty,
Performance, Safety and Comfort**

Brilliant new styling is combined with outstanding riding comfort, increased roominess, and sweeping mechanical improvements in the new line of Plymouth automobiles.

Completely redesigned, the new Plymouth has a longer wheelbase for a better ride and more road stability, but less front and rear overhang for easier parking and garaging. While the silhouette has been lowered and the width decreased, there is more head and leg room and seats are wider. Typical of Plymouth's many refinements is the ignition-starter combination, with which a turn of the key starts the engine.

The new Plymouths are sleek in appearance. New rear-end styling provides a graceful balance with the horizontal grille lines which emphasize

the broadness of the front. Fenders which blend perfectly into body lines are nevertheless separate and detachable, thus avoiding sheet metal panels so costly to repair or replace.

The new Plymouth line includes nine distinct automobiles. Special deluxe and deluxe types are on a 118-inch wheelbase, one inch longer than last year's. Special deluxe models are: four-door sedan, club coupe, convertible club coupe and station wagon. In the deluxe group are the four-door sedan and the club coupe. In addition, Plymouth will build three deluxe models on a brand new 111-inch wheelbase, a two-door sedan, a three-passenger coupe, and a new body type, the Suburban.

proved performance and with a new design cylinder head which increases compression ratio to 7 to 1. A new chrome compression piston ring reduces cylinder wear and provides greater protection during the break-in period. There are improved newly-designed intake manifold which warms-up and produces faster response.

Body styling which provides greater passenger room and less excessive bulk also increases interior area and provides vision without distraction. Windshield wipers clear 61.5 percent greater area and the new 97-horsepower engine has im-

GREAT STAR CAST IN 'THREE MUSKETEERS' - TECHNICOLOR

"The Three Musketeers," Alexandre Dumas' immortal tale of romance and adventure amid court intrigue, has been brought to the screen with an impressive cast in M-G-M's spectacular Technicolor filmization at the Melba Theatre, Sunday and Monday.

The famed tale of the Saxony bumpkin who joins the Musketeers, becomes the first swordsman of France, pledges his loyalty to the King against the sinister machinations of Richelieu, the ambitious prime minister, and the Borgias - like Lady de Winter, and who becomes involved in an ill-fated romance with the lovely Constance, lady-in-waiting to the Queen, moves along at lightning pace, unfolding its narrative of daredevil exploits and fantastic feats of heroism against some of the most stupendous 16th century backgrounds ever created for a motion picture.

Lana Turner, cast as a coldly beautiful and cruel Lady de Winter, who twists every man she meets around her jeweled fingers until she attempts to ensnare the wily D'Artagnan and meets a deserved fate at the hands of an executioner, offers one of the most arresting portrayals of her career. The part of the fearless and flamboyant D'Artagnan is brilliantly enacted by Gene Kelly who once again demonstrates his extraordinary dexterity in scaling seemingly insurmountable walls, flinging himself from balconies and disarming

a dozen dueling opponents singlehanded.

RARE SUSPENSE FILM AN EMOTIONAL WALLOP

Suspense reached the gasping point yesterday at the Melba Theatre, where the Hal Wallis-Anatole Litvak production of Paramount's "Sorry, Wrong Number," a murder thriller with an entirely new slant, made an auspicious local debut.

Co-starring Barbara Stanwyck and Burt Lancaster, "Sorry, Wrong Number" is a shriek-by-shriek picture of the encroachment of murder. It compels its audience to shrink in common horror with a woman who early in the story overhears her death being plotted and, in an hour and a half of helpless horrorification, awaits her end.

Enlarged and transposed to the screen from Lucille Fletcher's rare radio play, which was re-broadcast seven times by popular demand, the film contains three times as many shudders as the half-hour network thriller. Miss Fletcher also wrote the screen play, and the magic of the movie camera offered her a broad vista in which to let her fertile imagination expand. And expand it did, into many spine-tingling situations.

SENATE FILIBUSTER

The talkathon in the Senate has overshadowed almost everything on Capitol Hill recently. The climax came the other night when the Senators in a close vote of 46-to-41 overruled a ruling by Vice President Barkley, which, if sustained, would probably have busted the filibuster. Technically, the filibuster has been directed against allowing a vote to be taken on a motion to consider a proposed change in the 30-year-old Senate cloture rule.

Actually, however, the whole thing is a fight over the President's Civil Rights legislation. The announced reason for changing the cloture rule is for the sole purpose of clearing the track for the passage of the Civil Rights proposals. That admission was finally made on the Senate floor by Senator Lucas of Illinois, Majority Leader.

The fact is, for decades the only times the filibuster has been used in the Senate to any significant extent has been to block so-called Civil Rights measures. It follows that the sponsors of those anti-states rights bills are really the ones who are responsible for Senate filibusters.

GOOD RESPONSES ON QUESTIONNAIRES

Tabulations on the answers to the questionnaires which I recently sent out are now proceeding. Several thousand returns have come in and reading and checking each of these naturally takes quite a bit of time.

When the job is completed the results will be publicized in the newspapers and in my weekly radio programs. The people have been most generous in taking the time to answer the questions and many to include comments. This has, of course, been most gratifying.

HOUSE BILLS PASSED

While the Senate was stalemated with its widely publicized talkfest, the House passed a few bills and set the stage for consideration of several other very important ones.

An important measure passed by the House was one to authorize a comprehensive warning systems, to be a part of our national security program. It sets the stage for the maximum use of radar in defense of our shores if war should be forced upon us.

This bill, which was reported out of the Armed Services Committee, will enable a radar network to also be perfected in Alaska.

That Territory is very strategic now and would probably be the center of activity in case of war with Russia. And it is presently woefully under-defended.

A long time ago, the famed general, Billy Mitchell, with prophetic vision, declared that "who holds Alaska holds the world."

The Air Forces frankly admit that they cannot successfully defend Alaska against an all-out attack from the air today. The seriousness of the situation is realized when we are told that if, for example, Russia should take Fairbanks, her bombers operating from that base could then attack practically every important industrial center in America.

The big immediate problem in our northern outpost today is to provide more and better housing for military personnel. Then, with the deployment of more troops, planes and equipment to that area, plus the radar screen which is absolutely necessary, Alaska will be made reasonably secure for the future.

Self Culture Club

The "Self Culture Club" met March 12, 1949 in the home of Miss Love Gatlin with Miss Dera Humphries co-hostess.

Mrs. Cecil Parker reviewed "The Shenandoah," by Julia Davis.

Mrs. Parker, with her mother, Mrs. C. G. Featherston, two of her sisters, Miss Mae Featherston, and Mrs. I. Z. Woodard, and daughter Carol, made a trip up through Virginia and the Eastern States this past summer, visiting friends and relatives. Mrs. Parker's people came to Mills County from the Shenandoah Valley. The review was made more vivid by the recent trip to this historic part of the country. She passed many pictures she had taken in and around and from the Blue Ridge Mountains. She also showed a painting by Mrs. Alta Reynolds of Goldthwaite. This painting was made from looking at a Post Card. It portrayed a great part of the Shenandoah Valley.

The hostesses served a lovely refreshment plate carrying out the Saint Patrick motif. Enjoying the lovely affair other than the club members were: Mrs. C. G. Featherston, Mrs. Floyd Manuel, Mrs. Clyde Faulkner, Mrs. John Parker, Mrs. Delton Barnett, Mrs. John Schooler, Mrs. Marsh Johnson, Mrs. Julian Evans, Mrs. Roy Wilkins, Mrs. Carlos Patterson, Mrs. O. L. Woody, Mrs. Henry Martin, Miss Ruby Cave and Miss Lily Martin. —REPORTER.

Lions Club Here To Give Play, "Crazy House," In Near Future

MASON MAN ARRESTED HERE, CHARGED WITH CATTLE THIEF

Bob Green, a produce man from Mason, recently arrested after investigation by Mills County Sheriff W. L. Mahan, Mason County Sheriff, Friday Campbell and Texas Rangers Truman Stone from Austin and Clarence Nordyke from Brownwood, has been charged here with cattle theft and released under \$2,500 bond to appear before the Grand Jury which meets here on May 2.

The charges grew out of a yearling that had been slaughtered a month ago by the side of the highway adjoining Leon Johnson's place, nine miles south of Goldthwaite on the Lometa highway.

Also to appear before the May 2 Grand Jury here is a Mr. Rumbo, who is charged with chicken theft in Mills, Brown, San Saba, and Burnet Counties.

Sheriff Mahan was in Brownwood yesterday investigating the sale there of a cow which bore a local citizen's brand and also another brand.

The Goldthwaite Lions Club, in regular third Tuesday night meeting at The Hangar, voted to put on a comedy play, "Crazy House," here in the near future to raise funds for the club's welfare work. Details will be announced later.

R. H. Nowlin of Brownwood, Vocational Rehabilitation Supervisor for the State Board of Vocational Education, was guest speaker for the evening, and outlined to the club members the work his organization is doing in Texas. His talk was very much enjoyed.

Lion Ben R. Day invited the Lions Club members and all others to attend some of the Soil Conservation meetings now being held and to be held over Mills County.

Sunday, April 3, is Goldthwaite's day to entertain the patients in the Veterans' Hospital, and the following Lions and their wives have volunteered to furnish entertainment there that day: L. B. Porter, T. M. Glass, Bert Brewer, and Dr. M. A. Childress.

NOTICE TO SCHOOL PATRONS OF MILLS COUNTY

The Census enumerators are now busy taking the School Census and have the month of March to get the enumeration of all School Children in the County finished.

If you have a child that has

become enrolled in the school since last year or the enumerator fails to get any child that should be enumerated after April 1st please come to my office and enumerate them. It will be appreciated if each of you will co-operate with the enumerators as they are anxious to get every child in school age in Mills County.

Children born since September 1, 1943 are in the free school age. Let's try to make

it a 100% enumeration.

BROWNIE TROOP 1 HAS REGULAR MEETING

Brownie Troop One had their regular meeting at The Little House Wednesday evening.

We opened our meeting with a business meeting, then we worked on our felt mules. We played several games.

Refreshments made by Mrs. Kelly, were served to the following: Judy Reid, Brenda Kelly, Jenell Wicker, Isabell

Caulder, Sharlyne Schulze, Ann Caulder, Shorlyne Schulze, Ann Lockridge, Laine Day, Carolyn Wilkey, Addie Jo Conradt, Vergilene Geeslin, Patsy Hammonds, Maxine Laudamy and Alice Davis, and to these leaders, Mrs. E. D. Kelly, Mrs. Laudamy and Mrs. Guy Caulder.

We sang happy birthday to the Girl Scouts and adjourned with a wish for another scout in another country.

LOCAL P.-T.A. ELECTS OFFICERS

The choral club, sponsored by Mrs. Sam Sullivan and Mrs. Hope Schplize sang 2 numbers for the P.-T. A. at its regular meeting, March 9th.

Program leader, Mrs. Fred Reynolds, stated the choral club won Superior rating at the District Federation at Ranger in February and a rising vote of thanks was given the sponsors for their work and interest with the club.

The leader for the afternoon gave a brief outline of Girl Scouting in the U. S. A. and stated that the Girl Scouts would celebrate their 37th birthday anniversary, March 12th. Goldthwaite's 3 youngest troops of Brownies and Intermediates gave a short program showing the type of work and play that is being done each week in troop meetings.

Mrs. Reynolds announced the Girl Scout leaders: Messrs T. C. Graves, R. G. Blackburn, L. F. Bain, Dutch Smith, Holley Jernigan, L. V. Benningfield, C. M. Smith, Guy Colder, A. P. Fambrough, Mrs. Buddie Shelton and Mrs. Yeager. The association gave the leaders, county leaders and all Girl Scout workers a rising vote of thanks for their efforts and results in Scouting.

Mr. Ed Gilliam brought the association a very forceful talk on Home, a place for training for citizenship.

His most outstanding statement declared: "That the only real way to teach our children the right kind of citizenship is for parents to live it before them at home and away from home each day of the year." His talk was very impressive.

Mrs. Horton stated that the piano cover had been made by Mrs. Fred Laughlin and that it fit nicely and a card of thanks had been mailed to her.

The following officers for 1949 and '50 were elected.

- President—Mrs. Delton Barnett.
 1st Vice President—Mrs. Ed Gilliam.
 2nd Vice Pres.—Mrs. Mac Horton.
 3rd Vice Pres.—Mrs. Farris Jones.
 Secretary—Mrs. R. L. Steen.
 Treasurer—Mrs. V. A. Hudson.
 Parliamentarian—Mrs. W. C. Barnett.

A. Carl Spencer To Speak Before Farm And Ranch Group

A. Carl Spencer, Southwest Representative of FRIENDS OF THE LAND will speak at the regular meeting of the Farm and Ranch Group of Goldthwaite on Thursday, March 24 at the Grammar School Auditorium.

He will show a film and will bring a program that will be of interest to civic clubs, business men and farmers and ranchers. He will also speak at Priddy on Friday night, March 25 at the new gymnasium.

Mr. Spencer will also bring an interesting program to the school children on the following schedule:

- Thursday morning at 10:00 o'clock, Star High School.
 Thursday afternoon at 2:00 o'clock, Goldthwaite Grammar School.
 Friday morning at 10:00 o'clock, Mullin High School.
 Friday afternoon at 2:00 o'clock, Priddy High School.

J. H. Priddy and Willis A. Hill, Supervisors of the Brown-Mills Soil Conservation District, David Watters, a group leader from this district, and Ben R. Day, Work Unit Conservationist for the Soil Conservation Service, all attended the dedication at Rising Star

last Friday of two buildings which are to serve as offices for the Brown-Mills and Upper Leon Conservation Districts.

The Army surplus buildings, which also serve as classrooms for Rising Star High School and veterans' agricultural classes, were obtained by the schools and Chamber of Commerce and erected at a cost of \$3,000. Farmers testifying at the official dedication of the buildings said soil conservation had been their salvation, and had in many cases represented the difference between making a living and going broke.

Walters S. Davis, Jr., of League City, president of the Texas Association of Soil Conservation District Supervisors, told the meeting: "Conservation farming is money in your

pockets. We told about saving the soil for posterity. We're doing that. But we're making money for ourselves at the same time."

Mrs. J. H. Long and daughter, Miss Darlene Long, went to Faytown last week in response to a message stating that Mrs. Jack Cartwright, nee Johnnie Belle Long, had been stricken with Spinal Meningitis. Although painfully ill for a few days, Mrs. Cartwright is making a rapid recovery and was able to go home from the hospital Wednesday. Miss Darlene Long returned home Tuesday, but her mother remained for a few days to be with her daughter.

SOCIALIZED MEDICINE—A HOAX
By R. Kirby Longino

Of all the insidious means that are being used to convert the American people to Socialism, none is so patently misleading, or more viciously dangerous than the "cradle to the grave" National Health Insurance plan. This scheme to socialize our medical services is based on one alleged fact—that "The high percentage of rejections under the military recruitment program has provided striking evidence of the unsatisfactory state of the nation's health". This statement is purposely misleading. Everyone knows military physical standard are extremely high. They have to be. A person who has lost an index finger, has flat feet, or whose vision or hearing is not 20/20 may not be able to perform arduous military duties satisfactorily—but does that fact establish a low national health standard? Does that fact justify the expenditure of billions of wage earner dollars to set up a giant bureaucracy?

We are told that the Government is going to provide social security, old age pensions and health insurance because the people are unable to provide these things for themselves. Who will pay for all of this? The income of the government is taxes—and in the case of social security and health insurance the money comes from the pockets of the wage earners.

The proposed social security and health insurance plan will cost the workers of America in excess of fifteen Billion Dollars annually. More than \$100 per ear for every man, woman and child in the United States. It means an additional 12% will be taken from the pockets of the wage earners. Already our governments—national, state and local—are costing us 31c out of every dollar we make. Is it giving us anything—except bankruptcy—when an additional 12% is taken?

Health insurance plans—the Blue Cross and others—are available to every citizen, and they cost only a fraction of the amount the government proposes spend. These plans permit you to select your doctor, your hospital—the ones you know and in whom you have confidence. There is no "herding"—no government hiring to tell you what you can or cannot do. They are part of the American Way of Life.

England's socialist labor government has set up a "radle to the grave" health plan. It's costs is exceeding the estimate by hundreds of millions; there are no hospitals available, and a "production line" service is resulted. In other words—the result is the natural product of socialistic inefficiency.

Some day we will wake up to the fact that nothing we get from the government is free. Sooner or later we will pay the bill. The tax bill of the American people stupendous and the proposed national health insurance plan could be "the straw that breaks the camel's back".

Texas 4-H'ERS ENROLL

Believe it or not—Texas boys outnumbered girls 5 to 1 in winning county honors in the 1948 National I Frozen Foods awards program. But the girls will have another chance to get in the lead this year because the Lone Star State will again offer the promise, according to announcement of the National Committee on Boys and Girls Club Work. Number of national awards and amount of scholarships have increased.

As an incentive for superior records of achievement, International Harvester provides gold-filled medals of honor for county winners and \$50 U. S. Savings Bonds for state champions. Sectional awards have been increased from four to six, while the national Fowler McCormick scholarships have raised from \$200 to \$300 each.

Leadership School

Lesson for March 20, 1949

IT TAKES more than a call of God to be a Christian leader. It takes study, it takes work. The call is necessary, of course, but it is not all. Jesus set the church an example here as always. He called his Twelve; but he was not so foolish as to think that just because he had called them they were all ready to go out and take the lead. Jesus put them through what Dr. Foreman may be called the first Leadership Training School in the history of the Christian church.

Who Was Enrolled?
THE TWELVE Apostles were the training class. Not all Jesus' disciples were equal to it; perhaps some of them actually did not have the time. But these Twelve had already been set off from the others, not because they were better men, but in order to do more direct service in Christ's name. There was nothing formal about Jesus' training school.

It met wherever he was at the time—in a house, or by the roadside, or on a hill-top. There were no set hours, no textbooks, credits or diplomas.
Jesus kept it going to the very end, for even after the Resurrection, as Luke tells us (in Acts 1) he was still teaching his Twelve.

What Did They Study?
THERE WAS no printed circular, no bulletin, no prospectus or catalogue. All the "courses" amounted to just one thing: learning to do what Jesus was doing. To this day, that is the aim of all Christian training. Mark and Luke mention at least four things Jesus' training-school students learned from him: preaching, healing the sick, feeding the hungry, and praying. It would not be quite true to say that part of what they learned was spiritual and part practical, for there is nothing more practical than praying as Jesus taught it, and Jesus never ministered to people's physical needs without touching their spirits too.

Many a person now in some hospital for the insane need not have gone there if he had had the help that a well-trained minister can give.

Ministers today are not taught how to perform miracles like the feeding of the 5,000; but knowing that people's physical well-being has a great deal to do with their spiritual welfare, the alert young Christian minister of today will be keenly interested in Christian social action.

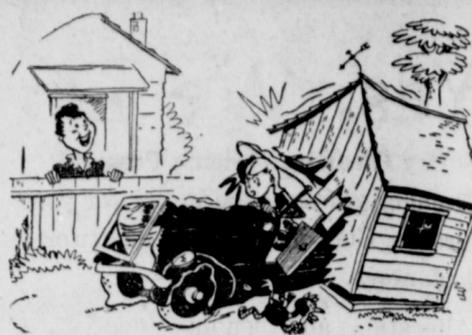

How Did They Learn?
THE TWELVE learned by doing. It is the only way you learn anything of a practical nature. Memorizing a textbook, memorizing rules, is not learning. You have learned how to do a thing only when you can do it. Of course you have to see it done, first. A boy on the farm learns to be a farmer by watching his father and helping him, more than from school courses in agriculture, useful as they are. There is nothing to take the place of apprenticeship under one who knows. So Jesus' Twelve watched him, listened to him, helped him, before they were trusted on their own.

Will It Still Work?
THE METHODS Jesus taught are just as effective today as they ever were. Not all churches nowadays follow his line to the letter; in fact, most churches do not. But the basic principles which Jesus drilled into his first traveling representatives are still good. One is faith.

Missionaries in the 20th Century are required to take a great deal more equipment with them to their fields than one pair of shoes, one case and an empty purse. Yet who can deny that any missionary of any church, in China or in Korea today, must live by faith from day to day?

Another of Jesus' principles was direct contact. People are not won to Christ chiefly by sermons from pulpits, but by in-the-home contacts. Ministers know this, missionaries know it; Sunday school teachers ought to know it too. Getting acquainted with your boys and girls at their homes, and being a friend to them there, is what will give your Sunday teaching its greatest force and success.

FUNERAL FOR E. C. MILLER HELD

Funeral services for E. C. Miller, a former Mills County resident, were conducted Monday afternoon at 3 o'clock at the Morris Funeral Home, Ranger, with the Rev. Henry Littleton of Luders officiating. Interment was in Macedonia Cemetery with Morris Funeral Home in charge of arrangements.

Edward Carlton Miller was born in Indiana on Nov. 19, 1870. He passed away on March 12, 1949, at the family home in the Lacassa Community, at the age of 78 years, 3 months, and 23 days. He came to Texas at the age of two years with his parents, who settled in Bell County. He was united in marriage with Julia Fields on June 27, 1891.

In 1905 Mr. Miller brought his family to Stephens County. In 1919 he and his family moved to Mills County where they resided some five years, before moving back to Lacassa where they have resided since.

Mr. Miller is survived by his wife, one sister, Mrs. Daisy Daniels of Dallas, and five children; Mrs. Ethel Harrison of Ranger, Riley E. Miller of Ranger, J. L. Miller of Big Spring, Mrs. Ernest Wilson of Goldthwaite, and Mrs. R. B. O'Brien of Gorman. One daughter, Mrs. Bessie Draper, preceded him in death. He is also survived by 22 grandchildren, 27 great grandchildren, and 1 great-great grandchild. He has been a member of the Church of Christ for the past 50 years.

Grandsons of Mr. Miller served as pallbearers.

FUNERAL HELD FOR MRS. J. T. ROBERTSON

Mrs. J. T. Robertson was born, August 9, 1868, in Dawson, Texas. She passed away Monday, March 14, 1949, at her home in Goldthwaite. Funeral services were conducted at 10:00 o'clock Wednesday morning, March 16, at the Big Valley Baptist Church. Interment was in the Big Valley Cemetery. Rev. M. Dick Lowry, pastor of the Goldthwaite Methodist Church and Rev. Joseph L. Emery, pastor of the First Baptist Church, Goldthwaite, were in charge of services.

Mrs. Robertson joined the Methodist Church at an early age. She was married to J. T. Robertson, Nov. 13, 1888. To this union was born ten children. One daughter, Eva Lena, died in 1896, and Mr. Robertson passed away in October, 1939. Nine children survive her: Mrs. Ada Dunkle, Mrs. Mayme Traylor, Walter Robertson, and Douglas Robertson of Goldthwaite; Mrs. Hillard Dykes, Breckenridge; Mrs. Gus Roush, McCamey; Marian Robertson, Shive; Jack Robertson, Medford, Oregon and Charlie Robertson, Borger. There are 21 grandchildren and 13 great grandchildren.

Mrs. Robertson was an habitual Bible reader, from which she derived daily inspiration and strength. She wasn't able to attend church but always delighted to hear Gospel sermons on her radio. Mrs. Robertson was a good Christian woman who not only professed to be religious but exemplified it constantly.

NOTICE:
There will be a business meeting of members of the Mills County True Sportsmen Club next Saturday, March 15th at 2:00 p. m. in the District Court room. Every one interested in good sports are invited to attend this meeting—new directors will be elected at this time and other matters discussed.

JIM TOM HOUSE MAKES EXCELLENT SHOWING AT J. T. A. C.

Stephenville--Jim Tom House, son of T. H. House, is a new member of the Tarleton Scholarship Society according to information released by John E. Thompkins, Jr., Registrar. The Tarleton Scholarship Society is composed of 64 Distinguished Students. Only 6 1/2% of the student body have a high enough grade average to be so classified. Eligibility for the Tarleton Scholarship Society is only one of the privileges awarded to Distinguished Students. The most coveted is that of unlimited cuts in theory classes.

Majoring in agricultural education, Jim Tom won the Scholarship "T" Award last year. He has just been elected secretary-treasurer of the Scholarship Society. He is a charter member of the Simpe. Idem Club, serving as secretary-treasurer last year and president this year. He was assistant drum major of the Military Band last year as well as being a member of the Symphonic Band.

House has devoted his time to his duties as Editor-in-Chief of the '49 Grassbur during the summer, fall and early part of the spring session. This position has added greatly to his honor points of which he ranks with Who' Who.

President of the Wesley Foundation, House was a council member during his freshman year. He was also a member of the Inter-Church Council.

House is active in veteran's organizations being both a member of the Tarleton American Legion Post and Amvets. He has served as chaplain of the former and commander of the latter.

House is an army veteran of over three year's service, two and a half were spent in active duty in the K-9 Corps. While a member of the Enlisted Reserve Corps, he attended the University of Oklahoma.

Jim Tom plans to complete his education at Texas A. & M. Two of his sisters, Alpha House

UP TO 20% BIGGER POULTS

OVER MASH FEEDING AT 6 WEEKS ON NEW PURINA TURKEY STARTENA CHECKER-ETTS

Purina Research tests proved it—then last year, local turkey raisers found that Checker-Etts help keep more poult alive—made them grow faster.

THE FORM—is part of the reason. Poults take to Checker-Etts quicker and like them better. Fewer poults "starve to death" before they learn to eat. And the whole batch grows faster because they eat more feed.

THE FORMULA—does the rest. The Purina Turkey Startena Checker-Ett formula is balanced and blended scientifically for life and growth. This year, start your poults the Purina way. See us about the Checker-Etts—just 4 lbs. per poult does the job.

State Engineers Running Lines For New Farm-To-Market Roads In Co.

Engineers from the Texas State Highway Department have been busy in Mills County during the past two weeks running lines on the new locations for Farm-to-market Highways that are to be built in Mills County. They have run lines on the C. J. Crawford ranch west of the Bayou so Mr. Crawford could rebuild his fence for the permanent location along the new right-of-way. They are also running lines for the fences on the newly-designated part of the Caradan road, where it is very likely there will be a new contract this year to extend the present Farm-to-Market highway that is now under construction to Caradan. This will give an additional 4.5 miles.

County Judge L. B. Porter says there are other Farm-to-

Market Highways to be let in Mills County in the near future.

A. Carl Spencer Of Tyler To Hold 15 Meetings In Two Counties In Interest Of "Friends Of The Land"

Mr. and Mrs. W. M. Johnson, of Goldthwaite and Mrs. Johnson's sister, Mrs. O. R. Ervin of Ranger, went to Temple Wednesday for a medical check-up.

The Constitution, Navy's giant 180-passenger plane, can fly from San Francisco to Tokyo in 19 hours.

A. Carl Spencer, Southwest Representative of "Friends of the Land," of Tyler has been secured by the Brown-Mills Soil Conservation District Board of Supervisors for a series of some 15 meetings with schools, business and professional people, ladies groups, and farmers and ranchers in the District. The district and local members of Friends of the Land are sponsoring the following schedule:

Monday, March 21 with Supervisor G. G. Goss at May, Williams and Cross Cut; Tuesday, March 22 with Supervisor Vernon Carr at Bangs, Brownwood and Early High; Wednesday, March 23 with Supervisor Chas. S. Bynum at Zephyr, Owens and Blanket; Thursday, March 24 with Supervisor Willis Hill at Star and Goldthwaite; and Friday, March 25 with Supervisor J. H. Priddy at Mullin and Priddy. A more detailed schedule giving times and exact locations of each meeting, which will last about an hour, will be announced later.

"Friends of the Land" is a non-profit, non-partisan and non-political organization of people from all walks of life who see the necessity of stopping soil and water losses. It has no connection with the government but is a movement of the people to get the entire citizenship to support the work being done in soil and water conservation. The assistance given districts by the various agricultural agencies is brought to the attention of the public.

Mr. Spencer states, "Conservation of our natural resources is essential if the health, economic structure and democratic principles of American life are to be preserved." Films showing damage to the health of animals and men brought about by the loss of soil fertility will be shown. Animal characteristics indicative of mineral deficient soils are dull eyes, coarse hair, tooth decay, small or defective bones and high susceptibility to disease. "Soil deficiency is not the only factor bringing about these

OBITUARY

Jodie Ambrose McCrary was born May 21, 1893, in Hamilton County and died March 11, 1949, at Goldthwaite, Texas, at the age of 56. Funeral services were conducted at the First Methodist Church, March 13, 1949, at 2:00 p. m., with Rev. Joseph L. Emery, pastor of the First Baptist Church of Goldthwaite, in charge. Interment was in the Hamilton Cemetery.

Mr. McCrary moved to Goldthwaite in 1945, where he resided until death. In 1921, he was converted and united with the Baptist Church, and was

conditions but can be a major consideration," he says. Texans are doing their share in contributing to the national loss of a half million acres per year. In fifty to one hundred years, three-fourths of the topsoil has been destroyed from 27 percent of the state.

Business men and ladies groups are urged to acquaint themselves with the work of soil conservation districts and that of the various agencies assisting them. They need and deserve more support. School children will be told that the real heroes of American society are and will continue to be those who love the land and are willing to use it wisely.

Mr. Spencer says, "We know the answers to soil conservation. We can stop the washing of the soil and the dust storms if we do what we now know to soil conservation is a business proposition. It is a practical and do." He goes on to state that profitable measure. Records of 10 thousand farms over a three year period showed a 35 percent increase in production.

"Soil Conservation is the responsibility of all the people," Spencer says. He states that Texas ranks among the lowest in the nation in production per acre and that soil conservation could increase Texas' revenue 450 million dollars per year. "All of our freedoms are based on the abundance of food. A well-fed people are interested in improving things as they are now instead of changing things."
