Pictured above, left to right, are Mills County Agriculture Agent George G. Reese, Davis Owens, son of Mr. and Mrs. J. Sherwood Owens of Center City; Bobby Zane Egger, son of Mr. and Mrs. Arl Egger of the Pecan Wells community;

Merion Reynolds, son of Mr. and Mrs. D. R. Reynolds of Rt. 3, Goldthwaite; and Dana Saylor, son of Mr. and Mrs. Lincoln Saylor of Goldthwaite. They came home last week from College Station with gold medals for having taken first place in State-wide livestock judging in the

annual 4-H Roundup at Texas A. & M. College. In addition, Dana Saylor brought home another gold medal for having been tied for high point man among all of the 4-H livestock judges. Now the Mills County 4-H Club members are working hard, pointing toward their next

competition at the State Fair of Texas at Dallas, where they will vie with other contestants for the high honor of representing Texas at the International Livestock Show at Chicago. The work will continue all through the summer, County Agent Reese said this week.

CONSERVATION UNITS MERGE AMIDST COOPERATION PLEDGES

Consolidation and coordination of the activities here of the U. S. Soil Conservation Service and the Production and Marketing Administration of the Department of Agriculture became a fact this week with the establishment of joint offices in the Mills County Court House. P. M. A. previously had operated from the Court House while the S. C. S. had worked from the "barn" or agriculture building of the Mills County Livestock Raisers Association.

Field Tour Gives Soil Men Views Of Water Problem

(Editor's Note: In the following article Charles O. Haensch, Acting Chief of the Goldthwaite Work Unit of the U. S. Soil Conservation Service, discusses points of emphasis that were developed in informal seminars here last Thursday by conservationists and technicians. Of special interest is the manner in which Mr. Haensch links water retention with erosion control.)

By CHARLES O. HAENSCH

To members of the Brown-Mills Soil Conservation District Supervisors and the County PMA committeemen of Brown and Mills Counties, the word "soils" took on an entirely different meaning last week. This group, along with the PMA secretary of Mills County and technicians of the Soil Conservation Service, heard M. T. Turner, Soil Scientist with the Soil Conservation Service, discuss soils and how they should be used.

Mr. Turner points out that in this area alone there are more than twenty different kinds of soils. These different soils however, fall within three classes: clays which are derived from limestones and shales, sands which come from sandstones and pack sands, and sandy loams made from a combination of these two. Within these three major divisions lie numerous soil units varying in depth, type of subsoil, and ability to soak up water.

Soils have various limitations, some of which are inherent while others are man-made. The inherent limitations are those over which man has no control. These consist of shallow soils, drouthy soils, rocky soils, and many other conditions. These conditions must be recognized and treated accordingly. Mr. Turner stated that in our efforts to cultivate the land we have caused certain conditions to occur which reduces the productivity of the land. Through the use of certain types of farm equipment, we have formed plow pans which prohibit the intake of water into the soil. When the organic matter in the soil is exhausted, a crusting effect occurs on the surface and the soil particles within the profile run together causing less aeration. These conditions are temporary and by the use of grasses, clovers, and other crops can be corrected. A similar condition was found to exist on native ranges.

During last Thursday's tour I illustrated two soil profiles taken from a pasture that had been severely overgrazed and from a pasture that had received good range management. It was noted that within the first four or five inches, the soil (Continued on Page 9.)

Weather Report

Harry Allen last Monday morning measured 30 of an inch of rain in Goldthwaite. That was all the rain we have had and it was not enough.

Marking the physical merger on a local level of the work of previously semi-independent agencies of the Department of Agriculture, Willis A. Hill, Chairman of the Board of Supervisors of the Brown-Mills Soil Conservation District, was host at a luncheon meeting at the Hangar on Thursday of last week.

Present with Mr. Hill were County Judge Lewis B. Porter, Supervisor J. Hobart Priddy, Chairman A. A. Downey of the Mills County P.M.A. Committee, Supervisor Anson Oden, Goldthwaite P.M.A. Administrative Officer L. F. Bain, Soil Scientist M. T. Turner of Dublin, W. R. Helzer, District Supervisor of the S.C.S.; Charles O. Haensch, Acting Chief of the Goldthwaite Work Unit of the S.C.S., G. G. Goss, Supervisor of the Rising Star Soil Conservation District, Randall Reeves, Chief of the Rising Star Work Unit of the S.C.S., D. V. Speakman, Chief of the Soil Conservation Service Work Unit at Brownwood; M. L. Guthrie of Bangs, Chairman of the Brown County P.M.A. Committee; and H. R. Ekins.

Prior to the luncheon the volunteer conservationists and technicians had engaged in a laboratory seminar on soils and soil conditions, with special consideration of local needs, and after the luncheon there was a field tour of the Willis A. Hill ranch. The technical aspects of the seminar and field tour are dealt with in another article in this week's Eagle by Charles O. Haensch.

Following last Thursday's luncheon, Mr. Hill called for what turned out to be most informal speeches but which were important because they carried pledges of cooperation between the Soil Conservation Service and the Production and Marketing Administration both by volunteer Supervisors and Committeemen and by employed administrators and technicians.

In his brief but pointed remarks, Mr. Bain said: "I am personally glad that the Soil Conservation Service and the Production and Marketing Administration have joined forces. I have been in P.M.A. for 15 years—until now we never have been close enough together to do the job as it should be done. Now we (Continued on Back Page.)

Coznette Beauty Shop Will Have Own Face Lifted

All next week the fair ladies of Mills County who usually get primped at Coznette Beauty Shop will just have to go uncurled, unmanicured and unshampooed because the great center of conversation, information and gilding of lilies will be closed down. Leta Rudd and Reva Mae Moreland, who happens to be luxuriating in Mexico City, announced that their shop will be closed for repairs and improvements from July 9 through July 14. That will give the old magazines a rest and for a few days there will be fewer damsels roaming the boulevards of Goldthwaite with those strange steel gadgets in their hair.

Goldthwaite Is Included On New List Of Airports

Goldthwaite was included on a list of proposed new airports for Texas that was issued in Washington this week by the Civil Aeronautics Administration.

According to the Washington announcement, Goldthwaite would have an airport with a runway from 1,500 feet to 2,300 feet long. It would be located at a site "not yet selected" and presumably, upon application, would become eligible to receive federal funds for construction and other work.

The Civil Aeronautics authority proposed to spend \$47,954,000 for 203 new airports and to improve 219 others. Of the amount, \$22,896,000 is to be spent in Texas, where an additional \$25,049,000 would be spent by sponsors or owners.

Following the Washington announcement by the C.A.A., Mayor Loy Long said on Thursday of this week that it remains to be seen whether the inclusion of Goldthwaite in the airport system program now being developed is linked with Air Force proposals to establish an auxiliary unit of the James Connally Air Force Base at Waco here. Mayor Long said he was waiting for further action on the proposal, which would provide employment for some 20 civilian workers from Mills County and which would (Continued on Back Page.)

Bill Yarborough Named To State Bar Association Group

William G. Yarborough, Goldthwaite attorney-at-law, this week was appointed to the committee on real estate, probate and trust law of the State Bar Association by Cecil E. Burney of Corpus Christi. Mr. Burney will take office tomorrow, Saturday, as President of the State Bar Association. He and Mr. Yarborough were classmates at law school. Mr. Burney notified Mr. Yarborough that he regards his committee appointment as one of the most important in the entire organization of the State Bar Association.

Air Crash Kills Men Who Worked On Telephone Co-Operative Here

President Willis A. Hill of the Central Texas Telephone Cooperative said this week that the organization feels keenly the loss of several key officials of the Rural Electrification Administration in an air disaster that took the lives of 50 passengers aboard a United Airliner in Colorado last week.

Mr. Hill said the disaster was not expected to delay for long continued progress toward making the Central Texas Telephone Cooperative a reality that will provide dial telephone service to rural areas of nine Counties with Goldthwaite as the hub.

"But we lost some men who have worked hard and loyally with us and I lost some close personal friends," Mr. Hill said.

Among the victims of the air crash were George W. Haggard, Deputy R.E.A. Administrator; Arthur W. Gerth, Chief of the R.E.A. Applications and Loans

Division; Chief Engineer Stewart E. McCabe, Robert L. Beeghly, Regional Heads of the Loans and Appraisals Division; and Engineers Evans and McAuliffe. All of them were involved in the planning for the Central Texas Telephone Cooperative. Mr. Haggard, who was a friend of Mr. Hill, was deeply interested in making the Central Texas Telephone Cooperative the first of its sort and Mr. Gerth and Mr. Beeghly conferred frequently with the officers and directors of the Co-op.

Condolences were sent by the officers and directors to the families of the men who were lost in the air crash.

Meanwhile, Secretary Ernest E. Wilson of the Central Texas Telephone Cooperative said that the telephone division of the R.E.A. in Washington had sent word to officers and directors (Continued on Back Page.)

Sgt. Jack Dankers Returns After Eleven Months Of Combat In Korea

After eleven months of combat up and down the tortured peninsula of Korea, Sgt. A. J. "Jack" Dankers, Jr., came home this week to be reunited with his wife, the former Jean Porter, and their son, John Porter Dankers, who will be four next September.

"Rugged," was the single word used by Sgt. Dankers to describe his long service with the Second Division against the Reds in Korea.

On rotation, he arrived last Saturday from Sasebo, Japan, aboard the Navy transport, the Marine Phoenix. Sgt. Dankers arrived on Wednesday in Goldthwaite to spend a 30 days furlough before reporting to Fort Sam Houston in San Antonio for reassignment to duty somewhere in the Fourth Army Corps area.

In commenting on pending negotiations for a "cease fire" in Korea, Sgt. Dankers expressed the opinion that while undoubtedly the United States and its allies were anxious for an end to bloodshed in Korea or honorable terms, there was

good reason to doubt the sincerity of the enemy.

As for the eventual outcome of the hostilities in Korea, Sgt. Dankers said: "They can't whip us so long as supplies and equipment keep going to our troops."

For Sgt. Dankers' family, the Fourth of July was something like Christmas. In the Square on Thursday of this week, little John Porter Dankers was sporting a red, blue and gold Japanese jacket. It was embroidered in gay colors—embroideries of Japanese torii or gates, yama or snow-covered mountains, and other typical examples of Japanese art. The jacket was just one of several gifts that Sgt. Dankers brought home to his happy son.

Mrs. Dankers, who is the daughter of County Judge and Mrs. Lewis B. Porter, said that her husband had brought her "lots of pretty things" from Japan. She agreed with John Porter that it was wonderful to have Sgt. Dankers home again. Just to prove it, they were beaming all over the place.

Water Rates Are Cut For Summer By City Council

Members of the Goldthwaite Garden Club, along with everybody else who hates to see lawns burn up for lack of water, now may jump up and down with delight as result of action last Monday night by the City Council ordering City Utilities to go easy on water bills during the summer months.

Reflecting the general jubilation, City Utilities Manager W. C. Barnett described the action by the City Council as "offering a summer excursion rate on water to domestic consumers."

"Beginning with July 20 meter readings, the following rate will be in effect," Mr. Barnett said.

"The first 5,000 gallons of water used per month will be charged for at the regular rate of 50 cents per 1,000 gallons. The balance used each month will be charged for at the rate of 25 cents per 1,000 gallons or one-half the regular rate.

"This rate is to stay in effect for the three months of July, August and September."

Mr. Barnett said that actually the rate will be retroactive to June 20, since water meters have not been read since then.

Mayor Loy Long said the water rate reduction had been decided upon by the City Council in order to enable Goldthwaite residents to keep lawns and gardens green during the (Continued on Back Page.)

County Agent Sets Every Monday For His Office Hours

County Agriculture Agent George G. Reese said this week that effective immediately, he will be available at his office on the ground floor of the Mills County Court House every Monday of each week—all day.

Since his duties require so much field work, Mr. Reese said, it often is necessary for him to be away from his office. He has, however, worked out a schedule that will make it possible for him to be available at his office throughout every Monday.

SOIL CONSERVATION COORDINATION

We had the privilege the other day of sitting down at the same table with members of the Brown-Mills Soil Conservation District Board of Supervisors, with Supervisors of the Rising Star Soil Conservation District, with technicians of the United States Soil Conservation Service, and with a number of others, including County Judge Lewis B. Porter, A. A. Downey, Chairman of the Mills County Production and Marketing Administration Committee, and L. F. Bain, P.M.A. Administrator in Goldthwaite.

The occasion marked the actual physical coordination here of the activities of the Soil Conservation Service and the Production and Marketing Administration. There is a news story about it on the first page of this week's Eagle. But we believe it to be in the public interest to underline some of the words that were spoken after 14 men had pushed back their plates, leaned back in their chairs, and listened to some impromptu speeches that were called for by Chairman Willis A. Hill of the Board of Supervisors of the Brown-Mills Soil Conservation District.

Charles O. Haensch, Acting Chief of the Goldthwaite Work Unit of the Soil Conservation Service, Mr. Bain, Mr. Downey, and W. R. Heizer, District Supervisor for the Soil Service with headquarters at Dublin, all expressed a determination to pull together, in the public interest, in making the coordination plans for SCS and PMA work. That was good news for everybody on the land.

You can read more about the speeches that were made in the news story that starts on the first page of this week's Eagle. The purpose of this editorial is to emphasize to any doubting Thomases who may linger among us that so far as Mills County is concerned, both the volunteer leadership in P.M.A. and the S.C.S. and the technicians or hired hands are pulling together because, as Judge Porter said at the meeting of which we write, we have an obligation to pass on to posterity our land in better shape than it is now. The shameful neglect of the land that has resulted in the loss of so much of it during the past 50 or 75 prodigal years is something that is going to be stopped by men who have learned how to rebuild what remains, even if they cannot replace what has been lost.

The significance of the gathering of soil and water conservationists here last week is that, if they have their way, the progress of the past few years is to be continued.

But there is something else that we wish to underline. It was the recognition by Mr. Heizer, himself a hired hand, of the tremendous contribution to soil and water conservation that is being made by such volunteers as Willis A. Hill, J. Hobart Priddy, and A. A. Downey.

After we had broken bread together last week, the technicians, supervisors and committeemen went out to the Willis A. Hill ranch and sweltered and sweated under a broiling sun while Soil Scientist M. T. Turner dug holes, analyzed soil conditions, and suggested ways and means of coping with the conditions that were found. Mr. Hill, Mr. Priddy and Mr. Downey were not being paid for either their time or their effort. We were bewildered because busy citizens such as Messrs. Hill, Priddy and Downey were enduring considerable discomfort as they heard about erosion, permeability, how much top soil there was on "parent soil," and slopes, productivity and remedies. So we asked Mr. Hill what it was all about.

"We are studying what the scientists and technicians can tell us so that we can do our jobs," Mr. Hill replied. "As supervisors and committeemen, we need to know and understand the problems with which every land owner is trying to cope. That was what the digging under the hot sun was all about."

There you have it. As Mr. Heizer had pointed out previously, the job of soil and water conservation belongs to the people—the LOCAL PEOPLE. "The only way to get the job done is by the democratic approach," he had said.

If the technicians themselves recognize and pay tribute to the work of the volunteer supervisors and committeemen, then the least the rest of us can do is to be deeply grateful to such men as J. Hobart Priddy, A. A. Downey and Willis A. Hill for their constructive efforts in behalf of everybody. They don't go around looking for kudos, but there ought to be 17-gun salutes for them by anybody who gives a fig whether we continue to lose our land or reclaim it. Happily, the promise is that soil and water conservation hereabouts is going full steam ahead.

GUEST EDITORIAL

(Editor's Note: A most important speech on the influence of the Democratic Party in the South on the destiny of our country was made last month by Senator Byrd of Virginia. We publish below a worthwhile commentary on the Byrd speech by Peter Molyneux, editor of the Southern Weekly. Please read it, so as to know where you stand in relationship to the future of America.)

By PETER MOLYNEUX

In his speech at the Jefferson-Jackson Day dinner in Atlanta, Ga., Sen. Harry F. Byrd outlined a program of action for Southern Democrats at the Democratic National Convention next year.

It calls for a showdown with Harry S. Truman and the elements now in control of the national Democratic party.

Being a realist and a practical man of politics, Senator Byrd did not carry the suggested procedure beyond the convention itself. But the inference is plain that that bridge will be crossed when the southern delegations come to it.

The speech as a whole was a sweeping indictment of the Truman administration and what Senator Byrd called "the Truman Democratic party." And the program of action was offered by him with the object of preserving the Democratic party of Jefferson and Jackson. Here is the program in Senator Byrd's own words:

"What can we do? The South is not impotent. It is true the South is a minority in the Democratic party, but no Democratic President can be elected without the votes of the Southern States.

"In 1831 the two-thirds rule was established. It was repealed in 1936. The two-thirds rule was a protection to minorities in the Democratic party just as the Constitution is a protection to minorities among our citizenship. The South should demand the restoration of the two-thirds rule in the 1952 national convention before candidates are voted on.

"We can insist on a resolution reaffirming support of States' rights by the Democratic party. At the convention of 1948, controlled by Mr. Truman, such a resolution was defeated by a record vote.

"We can insist upon the adoption of a platform that does not advocate unconstitutional or socialistic measures.

"The South can still be a great and mighty force in the Democratic party if it has the will to do it. The South has been treated as a stepchild by the Truman Democratic party too long.

"We can insist upon a return to the principles of Jefferson and Jackson. The answer of the Fair Dealers will be that this will be going back to the horse and buggy days, but I say that the true principles of our constitutional democracy are immortal and those fundamentals can not be dimmed by age or distorted by demagogues.

"Let me say I am the kind of a Democrat who wants, above everything else, to see the real Democratic party preserved and strengthened. I am the kind of a Democrat who intends to oppose to the utmost of his capacity measures that are unconstitutional, socialistic, and destructive of the principles of government established by our forefathers. I am an old-fashioned Democrat who believes in a rigid standard of honesty in our public officials."

That's the program. It calls for the choosing by the Democratic party in each Southern State of delegates to the national convention who are pledged to this program: The rule, the adoption of a resolution affirming the party's support of States' rights, and opposition to all unconstitutional and socialistic planks in the platform, including, of course, (Continued on Page 11.)

The Eagle's Ace

By The Editor

A major topic for speculation this week among members of the Eagle staff has been why so nice a man as our newest neighbor, A. W. Lilly, would think first of the Eagle when he had five baby skunks on his hands and no home for them. Mr. Lilly, being in the real estate business, may be interested in knowing what happened to the five little pole cats that he brought to the Eagle office on Friday morning of last week—in a garbage can. As a home-finder, Mr. Lilly is good.

Mr. Lilly lives in the former Ben R. Day home, owned by Mrs. Carlos Patterson. Early last Friday morning, apparently at the firm insistence of Mrs. Lilly, he dug the tiny wood pussies out from under a shed at his home and, as has been indicated above, put them in a garbage can, thought hard for a moment, and then promptly headed for the office of the Goldthwaite Eagle where, so far as is known, nobody ever has done any harm to Mr. Lilly.

After having presented his skunks to the Eagle, Mr. Lilly went on his way rejoicing. It was noted that he insisted on keeping his garbage can, so our Misses Ruth Ervin and Earlene Nix let him have it. Following the departure of Mr. Lilly, Miss Ervin observed that without the garbage can the skunks were easier to take, anyway.

For most of last Friday, Mr. Lilly's wholly unexpected gifts to the Eagle remained in the front office in a cardboard box. A number of good, solid Mills County citizens came to the office that day and when the day was over Miss Nix remarked that there had not been a single skunk lover in the crowd. One man, in fact, was heard to say "pew," and he definitely was not speaking of a seat in a Church.

A number of events transpired regarding our wood pussies. First, Roy Lee Hill flatly refused to print "A W. LILLY, REAL ESTATE," on the white stripes down their backs. He said he was too busy getting out invoices for Hollis Blackwell, billheads for F. D. Reynolds, baseball throwaways for Howard Hoover, envelopes for Rev. L. L. Hays, bulletins for the Monument Builders of the Southwest, Inc., checks for Eric D. Roberson, and form letters for Major and Mrs. M. Allan Campbell.

Second, at the suggestion of Miss Nix, the editor went down to Hudson Drug to buy vanilla ice cream for the baby skunks. He told Ray Campbell Hudson why he wanted the ice cream and Ray almost forgot that a Scout is obligated to do a good deed daily. Then the editor politely asked Lewis Hudson for a gadget for feeding skunks. "Come again?" Mr. Hudson said so abruptly that there now is a blot on the record of Hudson Drug's customer relations. On the way back to the office with the ice cream, the editor met Warren P. Duren and their conversation lasted so long under a hot sun as to cause the confection to turn soupy. Mr. Duren looked very skeptical when the ice cream was explained to him.

Still dragging its feet, after six months of the present session, the House last week finally passed a Mexican labor bill which is designed to effectuate the agreement between this country and Mexico whereby Mexican laborers may be processed and permitted to enter the United States on a temporary basis to do agriculture work.

A provision in a companion Senate bill, previously passed, made it a felony for an employer to hire a Mexican national illegally in this country, if the employer could have found out or should have suspected that the employee was unlawfully in the United States. The House by a vote of two and one-half to one defeated a similar provision offered as an amendment to the House bill.

The House and Senate versions of the labor bill are now being considered by a Conference Committee, and it is hoped an acceptable compromise can be agreed upon shortly.

Stopping off in Washington for a brief tour of the capitol and city on last Friday was a large delegation of Texas Lion Club members, en route back to Texas from the International convention in Atlantic City.

Gene Long Returns To US Navy Service

Gene Long, son of Mr. and Mrs. Lee Long, returned to duty with the United States Navy on Thursday of last week after a 30 days furlough at home that followed extensive service in Korean waters. Gene again is a member of the U.S.S. St. Paul, a cruiser, but whether he will remain with that gallant ship depends on future orders.

HPC Mission Group At Scallorn Sunday

Sunday will be a very big day, indeed, at the Scallorn Baptist Church where the program will be provided by the missionary band of Howard Payne College. There will be activities both Sunday morning and Sunday afternoon. Lunch will be served by Church members on the grounds. "Come, meet old acquaintances and enjoy Christian fellowship," Mrs. Ora Black said this week.

Traveling on a special train, the party visited briefly at the capitol which gave a number of the Congressman a chance to see friends from their districts.

Pointing to the phenomenal growth of Lions Clubs in Texas, the convention delegates from the Lone Star State issued their own publication which recorded that in 1940 there were 280 clubs, in 1945 there were 354, and in 1950 — with Herb C. Petry, Jr. of Carrizo Springs, President of Lions International to inspire and lead them — the number of clubs jumped to a total of 609, comprising 33,810 members.

News Of The Ebony Community

By CLEMENTINE WILMETH BRILEY

The summer drouth is bearing down upon us. The grass begins to look dead in the pastures and the maize twists in the fields. Rain to the amount of .5 inch fell here Monday. That will help some, but can't last long.

Cotton in the Dale Reid and Percy Russell fields, undaunted by the drouth, is growing nicely. So are the peanuts in the Dewey Smith and Charlie Griffin fields. The Sudan in the Wallace Perkins and Charm Whittenburg fields is making lush pastures. Cecil Egger's Hubam clover is looking lush too. Edward Egger has mowed a field of Johnson grass. Hope I can get a bale from him for my hen nests. The bare boards in my hen nests are causing lots of cracked eggs.

Mrs. Charm Whittenburg visited her mother, Mrs. P. R. Reid, at Goldthwaite Friday while Charm and the boys went to the Sale Barn.

Mr. and Mrs. Wister Egger of Brownwood and Mr. and Mrs. Raleigh Egger and Pat of Lubbock visited with the Eggers Sunday.

The Raleigh Eggers were here for the wedding of June Hanna and Tommy Wilson which took place at the home of the bride's parents, Mr. and Mrs. Alvin Hanna, Saturday night.

Mrs. Paul Lockett and Mrs. George Russell and their babies, who have been visiting their parents, Mr. and Mrs. Blue Thompson, returned to their homes at Big Spring early last week.

Rob Melvin Philen and sons of Dallas visited his aunt, Mrs. Effie Egger last week.

Mrs. Frank Crowder and her son, F. L. Jr. visited Mrs. Edna Dwyer and the Brileys Wednesday. Frank L. Jr., who is home on leave, is instructor in the Air Corp at Cheyenne, Wyoming.

When we got to our wash place Friday, there was an invitation to have dinner with the Wilmeths. Besides us they had for guests Mrs. Wilmeth's cousin, Mrs. Myrtle Duncan, of Brady, Mr. and Mrs. Paul McClung and Martha and Larry of Lamesa, and their little granddaughter, Sylvia Jean Wilmeth, of Fort Worth, daughter of the late Lillard Wilmeth, who lost his life in India while in service in World War II. Their son-in-law, Paul McClung was conducting a revival at the Church of Christ in San Saba.

After Bible School and Communion here Sunday, the Dwyer-Brileys went on to Oakland to hear a sermon by Bro. Henry Cleghorn of Star.

A sand bar deposited by the last big rise in the creek made our road impassable for two weeks or more. To mail my letters Tuesday I had to go around the long way. In the Wilmeth pasture I met the road maintainer. Just inside the P. R. Reid pasture it had left such a

high sand ridge in the middle I tried to go up on the right hand side. In just a few feet I stuck in the sand. I had to walk back to Cecil Egger's to get a shovel. After considerable shoveling, I managed to back out. I was afraid Mr. Barker was already gone back. Then it was time I was home getting dinner. But I decided to go on. I wanted to get my letters mailed, and then there might be a letter from my daughter, Grace.

Just after I left the Whittenburg place, Mr. Baker whizzed by me. Not a chance to get my letters off if I didn't catch him. I was coming down that high hill when he got to the mail boxes. He was there some little bit. Hope rose in my heart. But just as I almost got there, he drove off. I began to honk my horn, and kept it honking till I got to Edward Egger's. He had to stop at their box, and I caught him. Back at my box there was not a thing but a love letter for Ernest Malone.

I was very much interested in the history of the Mullin Class of 1915 related in the Goldthwaite Eagle last week. It even touched my own life in a few places. I first met Mrs. Sallie Skaggs when she went to school to Miss Sallie Hildebrand at Cold Springs (Ridge). Afterward I met her at the Institute. My sister, Grace Wilmeth, once went to school at Mullin. She boarded with Mrs. Skaggs. Mr. Kemper was her teacher, and she took music from Miss Marie Kirkpatrick. She is now Mrs. J. F. Bateman, and lives in Fort Worth. Her older son, Joe, a university of Texas Electrical engineering major, is employed in the Consolidated. Her younger, John Robert, is a pre-medical student in T. C. U.

Mr. Pickens once taught at Ebony. Sam Fisher preceded me when I taught my first school at Lanes Chapel. He was so well liked that I didn't stand a chance. I was glad to hear of the whereabouts of Winnie Clark. When Bro. Clark was at Indian Creek, Ebony was on his circuit. We all thought Winnie bore such a decided resemblance to her father. Later we learned that all the Clark children were adopted. When I taught at Indian Creek, the Clarks had just adopted their third baby. One night it was very sick and Sister Clark and I sat up all night with it.

DAVID F. HOUSTON

The man who first saw the true mission of the A. and M. College of Texas as a major technological institution and raised the scholarly level of the faculty and entrance requirements for students to college level was Dr. David Franklin Houston, president of the college from 1902 until 1905. In his short time as president, Dr. Houston changed the entire course of the college's history. In 1905 he left Texas A. and M. to become the president of the University of Texas, and later became president of the University of Maryland. During the administration of Woodrow Wilson he served with distinction first as Secretary of Agriculture and later as Secretary of the Treasury.

Mrs. Flo Wilke Bitten By Spider Goes To Hospital

Mrs. Flo Wilke returned to her home at Shady Oaks Ranch, south of Goldthwaite on the Lometa highway, on Wednesday of this week after treatment at hospital in San Saba for the serious effects of a bite on her leg by a black widow spider.

With a guest, Mrs. Edna Lee Jackson, Mrs. Wilke was working last week on the entrance gateway to her ranch when she was bitten. Within a matter of minutes the toxic condition resulting from the bite caused Mrs. Wilke to suffer painfully and she was brought to Goldthwaite for treatment by Dr. Ruel Slaughter, who ordered her hospitalization in San Saba.

For several days Mrs. Wilke's condition was a matter of grave concern, especially to her father, T. D. "Dad" Stuke, and to her many friends. But she responded favorably to treatment and the glad news was that if she had any firecrackers, she could have shot them off at Shady Oaks on the Fourth of July.

Legion Barbecue Turned Out To Be Fine Fish Fry

Upwards of 100 persons representing 25 members of the American Legion, their families and guests had a fine time on Wednesday night of last week at what was billed in advance as a chicken and goat barbecue but which, according to Howard Campbell, turned out to be a fish fry.

Mr. Campbell, bemoaning that some fish was left over, expressed appreciation to the invited guests of the Harry F. Edmondson Post number 289, the American Legion.

"Those who did not attend missed one of the finest feeds of their lives," he said.

The artists of the occasion were Oscar Holland and those who helped him to fry the fish. Duncan Coffee's representative in Brownwood got a big cheer not only for providing the coffee but also for sending along the urns in which to prepare the beverage.

"We are looking forward to another big fish fry next year," Mr. Campbell said.

Roy Lee Hill, who is Historian of the Post, insists that while it is quite true that last week's barbecue did end up by being a fish fry, it still will be necessary for the Harry F. Edmondson Post to have a chicken barbecue. He reasoned that the Minutes of a Legion meeting provide for

a chicken barbecue and, according to Mr. Hill, obvious legal requirements make it absolutely necessary to have such without waiting for Mr. Campbell's fish fry next year.

It was pointed out to Mr. Hill that Sig Jernigan had been appointed to forage for goats for the chicken barbecue. It was pointed out further that by official announcement Mr. Jernigan had one goat for the barbecue.

"What happened to the goat?" Historian Hill was asked.

"Mr. Hill still has it; he's got it in his pocket," Mr. Hill said. "That is why we have to go ahead with the chicken barbecue—as per order."

Mr. Hill is leaving Saturday or Sunday or Monday for two weeks in Wisconsin. There is no hope of coping with all of this confusion about chickens, goats and fish, especially fish, until he returns. But, Mr. Hill definitely stated that there will be a dance at Legion Hall on Saturday night, July 14. He charges Arnold K. Kelly to see that it is properly publicized in next week's Eagle.

Sumpter Succeeds Brother Ellis As Circulation Man

Now that the Rev. Travis Ellis is devoting his full time to the Baptist Churches at Trigger Mountain and Priddy, his place in this area as circulation courier for a Brownwood daily newspaper has been taken by an equally likeable personality — Hubert Billy Sumpter.

Brother Ellis was a student at Howard Payne College but Mr. Sumpter, who is 23, is a member of the Class of 1952 at Daniel Baker College. He is majoring in secondary education and plans to teach high school mathematics following his graduation from college.

A son of Mr. and Mrs. J. W. Sumpter of Brownwood, Mr. Sumpter served for three years — 1946 to 1946 — as an Air Force Radar man. His wife, the former Venus Grady, is from Columbus, Ohio.

The Eagle has a special interest in Mr. Sumpter since it is he who daily picks up our photographs and takes them to Brownwood so that Jimmy McDonald can make engravings from them.

Upwards of 1,000 persons are expected to attend the 17th annual stockholders meeting of the San Saba Production Credit Association at the Bill and Kelly Owen farm two miles east of San Saba on the Lometa highway on Wednesday of next week.

The program will start at 10:00 a. m. and will include a barbecue lunch and a business session. Two directors are scheduled to be elected and those who have been nominated for the posts are Alex Hardin of Llano and E. "Babe" Smith, Jr., of Lampasas.

The San Saba P. C. A. has offices in Goldthwaite, San Saba, Llano, Lampasas and Brady. Charles Conrad is Manager of the Goldthwaite office and Delton Barnett of Jones Valley is a director of the organization.

POSTMASTER FAIRMAN TELLS OF NEW MONEY ORDERS

Since last Monday patrons of the Goldthwaite Post Office, along with those of 42,000 other Post Offices, have been buying a new type of money order which may

be cashed at any Post Office or collected through any bank in the same manner as the depositing or cashing of a check. Postmaster Lucile Fairman said the new money order appears in the form of a punched card instead of the former paper slip, and she asked users to remember that they must not be folded, stapled, spindled or mutilat-

ed in any way. The Postmaster General has described the inauguration of the new money order system as the largest single accounting change ever made in postal history. An idea of the extent of the system is given by the fact that last year 300,000,000 money orders were issued by American Post Offices. Postmaster Fairman said that

the new system is in keeping with a program to modernize and improve the operation of the postal service. Application forms and money order fees will remain the same as in the past. The new money orders, Postmaster Fairman said, will clear Federal Reserve Banks in the same manner as Treasury checks or other cash items.

Our Pearl Crawford Assures Tom Stevens Big Noise Was Not Bomb!

Chappell Hill, Mills County is a marvelous part of the world and the Eagle has learned to take that community in stride despite what often appears to be a deliberate effort to cause confusion by our Chappell Hill correspondent, Miss Pearl Crawford.

For example: Last Monday Miss Crawford reported there was no news on Chappell Hill.

"Why?" she was asked. "Because everybody is hoeing cotton and when we hoe cotton on Chappell Hill, nobody talks," Miss Crawford explained.

Then Miss Crawford promptly proceeded to turn in several pages of Chappell Hill news. The explanation for the paradox seems to have been that last Monday morning there was 4 of an inch of rain on Chap-

pell Hill. That made everybody on Chappell Hill stop hoeing cotton, making it possible for them to get to talking again.

Here is another example of the sort of events that occur regularly on Chappell Hill. The following verbatim report is by Miss Crawford.

"No, Mr. Stevens, it was NOT a bomb! The Tom Stevens family became very excited last Thursday night over a loud noise. After Mr. Stevens was able to get out and look around to see just what had happened, he found that his large concrete storage tank had just burst. Not one drop of water was saved."

Miss Pearl—what caused the Stevens water tank to burst, or is that to go into the category of unsolved mysteries, along with your electric eels?

Exiles In Houston Rally On June 24

Nearly 30 former Mills County residents had a reunion at Herman Park in Houston on June 24 and despite "Houston weather," featured by rain, they were reported by Mrs. Arna Leverett to have had a good time reminiscing about "home."

Among those who were present were Mr. and Mrs. A. L. Bynum, Don Earl Bynum, Mr. and Mrs. A. L. Bynum, Jr., Grandmother Crawford, Miss Linnie Crawford, Mrs. Brennan, Mr. and Mrs. Claxton Spears and their sons, Clayton and Jack, Mrs. Maude Burks, now of Denver, Colorado; Mr. and Mrs. Norman Crawford and their sons, Carroll and Glenn Ray; Mrs. W. C. Holleman; and Otho Loyd Crawford, now of Austin.

Also Mr. and Mrs. Furman Crawford and their sons, Dale and Darwin, Mr. and Mrs. Henry Matthews and their sons, Jerry and Ronnie, and Mr. and Mrs. Coulter Leverett.

No definite plans were made for a similar reunion next year.

News Of Scallorn

By ORA BLACK

Dr. Hickerson, District Missionary, filled the pulpit here Sunday and brought a splendid message on Stewardship. He and Mrs. Hickerson came over from Brownwood and were luncheon guests of Mr. and Mrs. John Kuykendall. Other guests of the Kuykendalls were Rev. Pankhurst and family. We observe preachers are somewhat like sheep, where one goes the others follow.

Mr. and Mrs. D. L. Wheeler, Jr., from Brady, Mr. and Mrs. Carl Kauhs, Mr. and Mrs. D. L. Wheeler and Mr. and Mrs. Mohler Simpson, all of Goldthwaite, ate picnic supper with Mr. and Mrs. Fields Hines and Gregory Tuesday evening.

Layton Black, young son of Mr. and Mrs. C. H. Black, visited this week in Brownwood with his sister, Jane Black, who is a student of Howard Payne College, and with an aunt, Mrs. Earl Blake.

Jimmy Armstrong and daughter-in-law, Mrs. Joe Armstrong, of Hallettsville, are visiting here with his mother, Mrs. T. J. Laughlin, and other relatives.

C. H. Black and son Huntis were in Gatesville Wednesday.

Guests this week of Mr. and Mrs. T. A. Casbeer are his mother, Mrs. Casbeer and her son and two children and Mrs. Inez De Vee and son of Sherman, and Mr. and Mrs. Equiland of Gunter.

Mrs. Horace Gray Is Summy's Deputy

Mrs. Horace Gray, the former Valeria Stacy, this week became Deputy County Clerk in the office of District and County Clerk Earl Summy, succeeding Mrs. Raymond Maulsby, who has been making her home in San Saba for some time. The addition of Mrs. Gray to Mr. Summy's staff maintains, on the distaff side, the high standard for pulchritude of the County Clerk's office.

Mrs. H. O. Blair, who was brought to the home of her son, Floyd Blair, from the hospital to recuperate, was taken back to her home at Santa Anna on Tuesday of last week, after being here five weeks.

Veterans Warned By Judge Porter Of July 25 Date

County Judge Lewis B. Porter, who is Service Officer of the Harry F. Edmondson Post number 289, the American Legion, issued reminder this week that July 25 will be the deadline for starting GI training for veterans of World War II.

Judge Porter said that by July 25, a veteran actually must be in training if he wishes to continue his studies. Filing a mere application for training before July 25 will not be sufficient, he pointed out. Further and complete information may be obtained by World War II veterans from Judge Porter at his office at the Mills County Court House.

Judge Porter also has available full information on the effect of summer vacations on GI training programs and on new regulations regarding the number of hours veterans must give to their studies each week.

TELEPHONES

get things done

Colonial America relied on men riding in darkness to rally the nation to its defense. Those who rode "to spread the alarm" provided our country's emergency communication — and a spectacular page in our history.

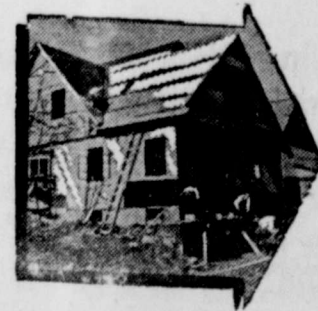

An equally vital service is provided by the Telephone Company in times of national emergency. Telephone wires are the cords that bind our nation together ... the messages that flow through them are the vital heartbeats of the country.

When national defense increases the tempo of these messages ... when the Telephone Company — telephone people and telephone equipment — are called on to provide an even greater service, it is comforting to know this vital channel of communication can be quickly made ready to meet whatever emergencies arise.

amount of erosion that has taken place. There are four classes of cultivated land and four classes of range land. As long as the land is farmed in accordance with its capability, more production can be expected, but when the land is misused, production drops.

The afternoon was spent on the W. A. Hill farm observing soil conditions in the field. Each of the four classes of cultivated land discussed that morning were observed and their uses pointed out by Mr. Turner. It was found that the soils observed were in good condition to take up water, due to the clover that had been grown for the past three years. Mr. Turner believes that one of our greatest problems is that of getting water into the soil.

"When we get the water into the soil, we have less erosion, more available moisture, and more food for the plants to use," stated Mr. Turner.

Boy Scouts Back From Camping In San Saba County

Fifteen Goldthwaite Boy Scouts returned on Tuesday of this week from a stay at Camp Billy Gibbons in San Saba County that began on June 26.

Members of Troop 45 who went to Camp were Willis Cline, John Earl McKenzie, Wilburn Smith, Thomas Burks, Chester Berry, Ronald Davis, Lathon Jernigan, Roger Booker, and Therman Scribner. The Troop 45 Scouts, incidentally, won third place on "stunt night" at Camp.

Members of Troop 77 who went to Camp were Phillip Edgington, James Wesley Nickols, Gerald Hardy McClary, Larry Day, John Wayne Davis and Rellis Earl Worley.

Adult leaders at the Camp were Charles Conrad, Scoutmaster of Troop 45; James Nickols, Scoutmaster of Troop 77; Ben R. Day, former Scoutmaster of Troop 77; and Brian Smith who, as Executive Secretary of the Mills County Chapter of the American Red Cross, taught First Aid courses.

Transportation for the Scouts was provided by Robert L. Steen, Joe Bailey Karnes, Howard Campbell, Malcolm Jernigan, Delmer Edgington, Fred Stevens and James Nickols.

While the Goldthwaite Scouts were participating in the encampment, a total of 175 Scouts from various Troops in the Comanche Trail Council joined in the activities at Camp Billy Gibbons.

Doodle Bugs Pay Darrell Yeager

Darrell Yeager, 9, son of Mr. and Mrs. Bill Yeager, proved during the past week that searching for "doodle bugs" pays off. While his Dad was working on the new A. W. Lilly real estate office, Darrell was seen hunting earnestly in the shrubbery around the Eagle office. "Doodle bugs," he replied, when he was asked what he sought. He found some—most unattractive little critters resembling baby crabs—and brought them into the Eagle office.

The next day Darrell still was searching with even added fervor among the roots of the vines that clamber up the grim stone walls of the Mills County Jail. "Still looking for 'doodle bugs'?" he was asked. "No more of that," Darrell replied, "I found a dime and I hope to find another."

Cooking School Next Thursday And Friday To Offer Fine Door Prizes

It became apparent this week that any Mills County lady, or man, for that matter, who misses next week's Cooking School at the Goldthwaite School Lunchroom will be missing both instruction and entertainment.

The School, at the Goldthwaite School Lunchroom, will be started at 2:30 o'clock on both Thursday and Friday afternoon of next week. It will represent a cooperative effort by the Lone Star Gas Company, Harry Allen, Duren Furniture, Steen Hardware, Collier Company, Inc., Barnes & McCullough, Estep Furniture, Smith Equipment Company and the Campbell Butane Company.

O. B. Walker, dealer representative of the Lone Star Gas Company who conferred with the several sponsors this week, said that Miss Marthe Ritter, who will conduct the School, will arrive in Goldthwaite on Tuesday of next week. She is the Lone Star Gas Company's home economist.

An interesting variety of gas

ranges that are sold by the sponsors of the School will be on display. All of those who attend will be given opportunity to register for door prizes. Miss Ritter will present literally dozens of new cooking and food management ideas and since many men have scientific turns of minds, they too are invited most cordially to join in the fun and the education.

Admission to the Cooking School will be free and from advance reports, just a look at Miss Ritter will be well worth the time that attendance will require.

"Living Today" will be the theme of the School at which Miss Ritter will undertake to demonstrate how what formerly were household chores now have become pleasures—at least so far as the kitchen is concerned.

Miss Virginia Oglesby, a summer student at T. C. U. spent the weekend with her parents, Mr. and Mrs. Mohler Oglesby.

was compact and ran together in the overgrazed pasture, while in the properly grazed pasture the soil was in a good friable condition. Only 72% of the rainfall that fell in 1948 was utilized by the overgrazed pasture in contrast to 95% by the latter. The grasses in the properly grazed pasture can stand longer periods of drought because of the additional available moisture.

"In recognizing these limitations, we can then classify the soil according to its capabilities," said Mr. Turner. "We cannot expect a Shetland pony to do the work of a draft horse, neither can we expect a shallow soil to produce the same crops as a deep soil."

In classifying the soil, there are certain factors that must be taken into consideration; the type of soil and its depth, the slope of the land, and the

Justice Obenhaus, Earl Summy Cheer Up As Business Improves

Justice of the Peace E. A. Obenhaus and County Clerk Earl Summy have been a bit on the depressed side lately. Mr. Obenhaus has been complaining that the preachers were getting all the weddings and Mr. Summy has complained because some people have gone outside the County for their marriage li-

censes. There was, however, an improvement in the situation Wednesday when, at his home, Justice Obenhaus tied the nuptial knot for Floyd S. White and Mrs. Mary E. Larry, both of Rising Star.

Mr. Obenhaus said that both of them have many friends in

Mills County. Mr. White has been in the farm implement business in Central Texas for several years.

Mr. Obenhaus was all smiles Thursday morning after the White-Larry nuptials had broken a long spell without a wedding ceremony for the Justice of the Peace. Mr. Summy's better outlook on life is explained under the headline, "Wedding Bells," on page three of this week's Eagle.

William B. Evans Dies In Houston In His 71st Year

Mr. and Mrs. Walter Doggett and Mr. and Mrs. Jerry Walker of Goldthwaite went to Houston last Thursday to attend funeral services for William B. Evans, 71, who died on Tuesday of last week in a Houston hospital. Interment, also on Thursday of last week, was in the Gann Cemetery at Lufkin.

Mr. Evans, who was the son of the late Mr. and Mrs. W. A. Evans, was born in Falls County on December 21, 1880, but moved to Mills County in 1900 and made his home at Center City, where he remained until he moved to Houston in 1911. In 1901 he was married to the former Dora Geeslin of Center City. She died in 1908. In 1911, Mr. Evans was married to the former Zula Henson of Lufkin.

Survivors include Mr. Evans' widow, his daughters, Mrs. Olen Thompson of Katy, Mrs. G. L. (Charlene) Matson of Houston, and Mrs. J. P. (Dorothy) Lowe of Fort Hood; a son, Alvis Evans of Houston; two sisters, Mrs. Walter Doggett of Goldthwaite and Mrs. A. A. Cook of Fort Worth; and a brother, Charles Evans of Freeport. In addition, ten grandchildren and two great grandchildren survive.

from the Republicans. Their course will be determined by the character of the Republican ticket and platform.

Doesn't it seem that the wise course for Republican leaders right now is to get copies of the text of Senator Byrd's speech and to study it?

As a young man Mr. Evans was a street car conductor. Later he served as a member of the Houston Police Department. Between 1917 and 1926 he and his family lived in Katy. Subsequently, Mr. Evans was employed by the Houston Weights and Measures Department. He retired a year ago.

 here that because the maps, charts and lists of subscribers had been prepared so well in Goldthwaite the engineers were doing their work for the Co-op in Washington instead of having to transfer activities to "Much time will be saved in the long run because the engineers are able to work in Washington from the paper work that was completed here," Mr. Wilson said.

Mystery Of Week

Are Goldthwaite and Mills County to have a drive-in movie theater? That was the mystery of the week. A sign on the "mountain" on highway 84, just east of town on the road to Center City, says the Skyline Drive-In Theater will be opened there if the project is approved by the National Production Authority. According to another report, a similar project is in the works for a location about three miles south of Goldthwaite. Still a third report had it that there will be a drive-in northwest of Goldthwaite on the road to Mullin. Maybe somebody will resolve the mystery with an announcement soon.

 can and will do a better job." Speaking in behalf of the "hired hands" of the Soil Conservation Service, Mr. Helzer said:
 "Thinking back to the start of our work, I realize how many farmers have come to apply soil conservation practices in some form. When we speak of good roads, schools, better farms and finer towns, we speak of the benefits of soil and water conservation. It is a privilege now to join hands with P.M.A. I wish to thank Judge Porter for his cooperation in making accommodations available at the Court House. Working together, we shall have a joint program to continue the good work. I wish also to pay tribute to the volunteers—to the Supervisors of the soil conservation districts and to the P.M.A. Committeemen. You Supervisors and Committeemen show that this vital job of soil and water conservation belongs to the people—to the local people. The only way to get our big job done is by the democratic approach—and that is the approach that we are taking in soil and water conservation."
 For his part, Mr. Downey said:

"I came here 47 years ago. I saw our land when it was good and I saw it suffer from neglect and lack of knowledge about how to control erosion. Eighteen years ago we were in a bad way. I can say, however, that the land produces now better than it did 18 years ago. The conservation work of the past ten years or so has been a tremendous factor in building back our soil. We have been learning things. Cover crops are the only way to control erosion. I think that all of us here today understand that agriculture is one of the main spokes in the wheel that keeps our nation going. We shall all do our share, I know, now that P.M.A. and S.C.S. are going to work so closely together."
 Mr. Haenisch pledged full cooperation by the technicians of the Soil Conservation Service on a local level. Under the new set-up, the S.C.S. technicians will continue to be responsible for permanent soil conservation practices while payments for the application of practices by cooperators will come within the jurisdiction of P.M.A.
 In addressing the luncheon meeting last Thursday, Judge Porter said:

"Mills County officials were glad to plan for federal Department of Agriculture quarters in the Court House. I was here when there were not too many fences and I want all of you to know of my ever-present readiness to aid in soil conservation. Soil conservation can build this country back, and make a much better place in which to live. We must not let our own country slip back to the position in which other lands find themselves suffering so much from loss of the soil through neglect. We must conserve for those who will follow us. We have an obligation to the generations of the future."

especially for those who are deep in worry over loved ones who have been fighting it out with the Red enemy. Nothing since has happened to change my view that if we are not careful, we shall be built up to a big let-down. On the basis of long and hard-nosed experience I simply cannot believe that the Russians and their satellites are up to any good and if they are bringing about a temporary relaxation of tension it is purely for their own purposes and in hope that when they let fly the next socko they will find our guard down.

In all of the talks about cease-fires, trade relations between occupied zones in Germany, and the release of an American flier by Czechoslovakia, there has been no attempt to deal with fundamental issues, which remain to be

fought out unless there should be a complete about-face by the Kremlin, which is just about as unlikely as anything could possibly be. The danger is that the next step in the Russian program calls for the Russians to be released from their commitments to Red China. So long as that danger exists, we cannot allow ourselves to toss our hats in the air and sit back to enjoy the complacency that always causes Americans to have to meet crises the hard way.

The most important part of the news right now is the effort by responsible men in Washington to talk both the Congress and the American people into not relaxing either their vigilance or their preparations to defend their lives, their homes, their treasures and all that we have wrought in this country during the past 175 years. If there is anything in the news to which all of us can subscribe wholeheartedly, it is the warning by such men
