DEMOCRATIC STATE CONVENTION.

A delegate convention of the Democratic party of the State of Kansas is hereby called to meet in the hall of the House of Representatives, in the city of Topeka, at 3 o'clock, p.m. on Wednesday, May 20th, 1880, for the purpose of selecting ten Delegates and ten Alternate Delegates to represent the Democratic party of the State of Kansas in the Democratic National Convention, to be held in the city of Cincinnati, on Tuesday, June 22, 1880.

The basis of representation in the State Convention, will be three delegates from each representative district. We recommend that the primary conventions for the election of delegates and alternates to the State Convention as the several county committees may determine, on Saturday, May 15, 1880. The manner of selecting the Delegates and Alternates whether by County, District, mass or delegate conventions, to be determined by the several county committees, each for itself.

The Secretary of the several Conventions, County and District, are respectfully requested to forward to the Chairman of the State Committee at Topeka, and to the Secretary of the Committee at Leavenworth, each full and accurate lists of the Delegates and Alternates chosen, immediately after the adjournment of said conventions.

We earnestly urge upon the Democrats of Kansas the absolute importance of making and thorough organization of the party in every county and township in the State, in order that every district may be fully represented in the State Convention and an active and effective organization obtained at once, for a vigorous campaign the coming summer and fall.

We respectfully request every Democratic newspaper in the State, to publish this notice and editorially call special attention to the importance of complying with the suggestions herein made.

By order of the State Central Committee, at Topeka, March 31, 1880.

J. M. MARTIN, Chairman.

H. MILES MOORE, Secretary.

THE REPUBLICAN RULE.

HEADS, I WIN; TAILS, YOU LOSE. 1877. (When Democrats were to be rejected, it is to be regretted that their votes at the polls were not given to the Republican party.)

The Democratic party is harmonizing in New York and in Pennsylvania. All will be lovely on election day.

Dr. Robert Morris, of LaGrange, Ky., the great Masonic poet and author, has been lecturing in Topeka on Masonry.

Postmaster-General Key has signified his acceptance of the vacant U. S. Judgeship in Tennessee tendered him by the President.

Can the people be expected to vote for a man who, for the sake of keeping up the circulation of his paper, at every issue thereof, violates the laws he has sworn to obey?

Attorney General Willard Davis has called another State Convention of the County Attorneys, to be held in Topeka, on Tuesday, May 11, 1880, for the purpose of consultation.

West Point motto: "No nigger need apply."—Marion County Record.

And yet, West Point is a Republican Institution, as far as its present government is concerned.

Tilden has secured the delegates in every Democratic State Convention thus far held.—Leader.

When the Leader man pounced this item he knew that Vermont, Louisiana and Texas had elected Hancock delegates.

Since the first boat load of colored refugees landed at Wyandotte, a year ago, from 30,000 to 40,000 colored people have emigrated to Kansas; and the greater part of them have found homes here and in Nebraska, Colorado and Illinois.

The Land Department of the Atchison, Topeka and Santa Fe railroad has our thanks for copies of a lecture delivered by H. R. Hilton, Esq., before the Scientific Club of Topeka, Wednesday evening, March 31, 1880, on the "Effects of

Civilization on the Climate and Rain Supply of Kansas."

The Topeka Commonwealth of May 9 reached us on the morning of the 4th, five days ahead of time. We always thought brother Baker was full of enterprise, and we now know it, especially when we read a dispatch in said issue dated May 24; but then some one set it up on the publisher by letting into said paper some stale dispatches dated April 2 and 3, and May 3 and 4.

Let every Democrat, and independent voter who will work with the Democracy, read the call on our local page, and come in and bring with him a few neighbors, on the 15th of May. It was thought advisable to call a mass convention so that every Democrat in the county could take part in its deliberations, if he so desired; and if Democrats absent themselves from the convention, it is their own fault, and they should acquiesce in its decisions the same as if they had been present; but consider the importance of the approaching campaign, and give one day to your country.

Prof. Tice's statement in regard to the Marshfield tornado, that a wave of water followed it, and that rocks of from three hundred pounds to eight tons in weight were carried with it, goes very far to prove his theory that the terribly destructive power of the cyclone is from electricity. The cloud being positively charged and the earth negatively, the cloud comes down in obedience to the law of equilibrium; and as that equilibrium must be brought about by conducting media; the rocks, the water, the trees, houses, and other debris leap up into the cloud to restore it; and, when restored, the cloud lifts and passes on. The theory agrees with all the phenomena.

THE STATE CONVENTION.

Every reader of the COURANT has, no doubt, ere this, seen and read the call, which heads our editorial columns, for a Democratic State Convention to elect Delegates to the National Convention to put a Democratic Presidential ticket in the field for the coming contest.

While we earnestly urge upon the Democrats of the State, and especially those of Chase county, to comply with the suggestions therein contained, we would call attention to the first paragraph of the call. It says the Convention will meet at Topeka, May 26, 1880, "for the purpose of selecting ten Delegates and ten Alternate Delegates to represent the Democratic party of the State of Kansas in the Democratic National Convention, to be held in Cincinnati, on Tuesday, June 22, 1880." It will be observed that there is not one word said in the call about the manner of choosing the ten Delegates—whether it shall be done in part by the Congressional Districts and in part by the Convention, or whether they shall be chosen entirely by the Convention—and for this reason we wish to have a little to say on that subject.

Some time ago we showed that at the State Convention, held in 1876, each Congressional District elected two Delegates and two Alternate Delegates, while the Convention elected four Delegates and four Alternate Delegates from the State at Large, the entire delegation from the State at Large being equally divided between the First and Second Congressional Districts, while the Third District had not even an Alternate in this part of the State delegation. Now, what we desire, is that the coming State Convention be more Democratic in the selection of Delegates, and that the Third District be allowed at least three Delegates and three Alternates, to be chosen by the members of the Convention from said district; and while we ask this for this district, we also insist upon each of the other two districts being allowed the same privilege, and that one Delegate and one Alternate from the State at Large be elected by the Convention as a whole; and it would not be doing the other two districts any injustice if the Delegate from the State at Large was to be from the Third District, as that would only be giving us four members of the State delegation to their three each, while the last time they

had four members, each, of the delegation to our two. The Delegate from the State at Large might act as Chairman of the delegation.

The Delegates to the State Convention, from this district, should insist upon our having a fair quota of the Delegates and Alternate Delegates to the National Convention; for, before another Presidential Convention will have been held, the Congressional apportionment will have been made, and then the west and northwest will hold the balance of power, and will get justice anyhow.

AGRICULTURAL REPORT.

The First Quarterly Report of the Kansas State Board of Agriculture, for 1880, is a volume of 120 pages. The statistical matter consists of valuable tables giving, by counties, the value per capita of products of the farm for 1879, real value of assessed property per capita, for 1879, tax on each \$100, of assessed valuation, number of school districts, number of school-houses, number of teachers, average wages, and value of school buildings and grounds in each county; the acreage of corn and wheat to the square mile, ranked by counties for 1879, and the area in square miles of each county; also product of the farm, and population for 1879, ranked by counties. The prospect for fruit, in each county, are also given; condition of winter wheat, amount reported winter-killed, or injured from lack of rain, that in the best condition, dried or broadcast, and varieties sown. This information is given by counties preceded by a table showing the number of acres and value, together with increase and decrease each year from 1874 to 1880. The condition of the rye crop is given by counties, reports as to value of spring wheat, barley, oats, flax, buckwheat, corn, sorghum, castor beans, broom corn, millet and Hungarian, cotton, hemp and tobacco, together with tabulated statement of increase and decrease of crop in acres and value from 1874 to 1880, giving varieties grown, price of seed March 1, 1880, and other important general facts. Information upon the potato crop is given by counties, varieties produced, time of planting methods adopted, and market price of seed March 1, 1880. The reports on tame grasses are instructive, as showing the counties in which they are successfully grown, time and method of sowing seed, etc. The meteorological data is compiled for the months of January, February and March, for different stations reporting to the Board.

The special feature of this report, is the extended manual on swine husbandry, giving the practical experience of swine breeders for every county, and valuable facts concerning the treatment, breeding and cost of raising pork for market, together with many and varied suggestions for the profitable care and management of swine. The Quarterly Report may be had by applying to the Secretary of the Board, J. K. Hudson, Topeka, Kansas.

WILL NOT BE NOMINATED.

Resolved, That we consider ourselves entitled to representation on the ticket in the approaching State election, next autumn, and we pledge ourselves to then present to the consideration of the assembled delegates of the Republican party a man whose fitness and ability will command the respect and support of every candid Republican.

The above is a resolution adopted by the convention of colored men, held recently at Topeka. Time and again the colored men of this State—and of other States, also—considering themselves entitled to representation on Republican tickets, have presented to the consideration of their white political brothers men whose fitness and ability ought to have commanded their respect and support; but as yet, the colored man has had no political favor shown him. In fact, he hasn't a right in a Republican convention, which the white delegate considers it a duty incumbent upon him to respect. The colored man is expected to march to the polls and vote for white Republican candidates; but as for being nominated and voted for himself, that is out of the question. The colored men of Kansas may present to the consideration of the assembled delegates of the Republican party a man whose fitness and abil-

ity ought possibly to command the respect and support of every candid Republican, but he will not be nominated.—Atchison Patriot.

RISE AND EXPLAIN.

The Herald of Kansas, the organ of the Negroes of this State, published at Topeka, where it has superior facilities for observing the workings of the Refugee Relief Board, calls, in this wise, upon that institution to rise up and explain: "Have you ever received that \$20,000 worth of goods sent from England free of charge, and which Congress allowed to pass free of Custom House duty? If you have received them, where are they? and what do you intend doing with the same."

"What do you propose doing with the money you have deposited in the bank in this city."

"What do you intend doing with that large building you have erected in North Topeka?"

"How much do you pay your employes per month, and how many persons do you employ?"

"When are you going to locate another colony? or are you going to allow one man to locate all the refugees in North Topeka in order to be elected to the Legislature, this year, and use the Board and its influence as a means to ride into office?"

"Yes, and when are you going to make that report of your receipts and expenditures, you 'blowed' so much about?"

DELEGATES TO THE STATE CONVENTION.

The Democrats of Ford county have elected H. E. Gryden, W. F. Pettilon and S. Galland as Delegates, and A. H. Snyder, G. W. Potter and Dr. Harris as Alternates to the Democratic State Convention.

Allen county sends W. G. Jones, F. T. Aeres and Wm. Goforth as Delegates from the 52d Representative District, and John R. Goodin, Moses Neal and O. T. Coffin, from the 53d District.

Butler county has elected Walter Hartenbower, J. W. Riffe, Dr. A. Bassett, J. H. Stevens, E. K. Robinson and Jacob DeGou as Delegates, with Dr. L. W. Benepse, W. W. Pennington, F. J. B. King, V. Brown, W. J. Gault and C. A. Leland as Alternates.

Harvey county sends J. E. Neal, Chas. Schaefer and Pat. O'Brien as Delegates, with W. H. Carlin, Geo. E. Terry and Chas. Bucher as Alternates.

Kingman county sends R. S. Gates, J. W. Taylor and R. S. Jelley as Delegates, with J. H. Bromley, Joseph McClelland and Oliver Hinton as Alternates.

DEMOCRATIC MASS CONVENTION.

A mass convention of the Democratic party of Chase county, Kansas, is hereby called, to meet in Cottonwood Falls, at 2 o'clock, p. m., on Saturday, May 15, 1880, for the purpose of electing three Delegates and three Alternate Delegates to the State Convention, which will meet in Topeka, on Wednesday, May 26, 1880, for the purpose of electing ten Delegates and ten Alternate Delegates to the National Convention, which will meet in Cincinnati, Ohio, June 22, 1880, for the purpose of nominating Democratic candidates for President and Vice-President of the United States, at the coming Presidential election.

By order of the County Central Committee, at Cottonwood Falls, Kansas, April 10, 1880. W. P. PUGH, Chairman. W. E. TIMMONS, Secretary.

GREENBACK CONVENTION.

There will be a convention held at the court-house in Cottonwood Falls, Wednesday, May 19, 1880, at 1 o'clock, p. m., to elect four Delegates to attend the convention at Newton, May 26, to send three Delegates to the National Convention at Chicago, June 26th, to nominate the next President. The county convention will be composed of the following number of delegates: Ransom township—Basswood precinct, 2; Matfield Green, 2; Cottonwood Creek, 3; Diamond Creek township—Middle Creek precinct, 4; Diamond Creek, 4; Falls township—Cottonwood, 4; Cottonwood Falls, 4; Toledo township, 5.

The greenback voters are requested to meet at or as near as possible to their usual voting places, Saturday, May 15, at 7 o'clock, p. m., and to elect delegates to the county convention. The primary for Silver Creek precinct will be held at Cedar Point school-house, G. M. YOUNG, President.

THE HANNIBAL AND ST. JOE.

Elegant Day Coaches, Furnished with the Horton Reclining Chair, will be Run Hereafter Between this City and Chicago.

The "Old Reliable" Hannibal and St. Joe railroad will hereafter run magnificent day coaches, furnished with the Horton reclining chairs, between this city and Chicago, without change, by way of Chicago, Burlington and Quincy railway. This is one of the most direct and safe routes to the East, and this step places it in the very first rank in point of elegance and perfection of accommodations.

Without doubt it will early become the most popular line in the West with the traveling public. The Horton reclining chair is immeasurably superior in point of comfort and ease of management to all others now in use, and those placed in the Hannibal and St. Joe cars are of the finest workmanship and materials; but to the traveling public it is useless to speak of the excellence of these chairs. They have proved so entirely successful, and so fully meet the wants of the traveling community, that they have become a necessity. Mr. H. D. Price, the efficient passenger agent of the Hannibal and St. Joe road, in this city, furnishes the information that these day coaches will be placed on the road, this week. We commend this route to those going east, who wish to secure comfort, safety and expedition.

THE CURRENCY QUESTION.

Notwithstanding the fact that thousands of our people are worrying themselves almost to death over the vexed question, even to the extent of neglecting their business, their homes and their duties to their families, there are still thousands upon thousands of smart, hard working, intelligent men pouring into the great Arkansas Valley, the Garden of the West, where the Atchison, Topeka and Santa Fe Railroad offers them their choice of 2,500,000 acres of the finest farming land in the world at almost their own prices. If you do not believe it write to the undersigned, who will tell you where you can get a cheap land exploring ticket, and how, at a moderate expense, you can see for yourself and be convinced.

DIAMOND CREEK ITEMS.

WOODHULL, May 4, 1880.

To the Editor of the Courant:

It is reported that Willie Dickson, a young man that was thought a great deal of around here, died, recently, in Butler county, of the measles.

The farmers feel jubilant over the rain that we had last Wednesday.

From the licks of the fall wheat, it is supposed that the granaries will easily hold the crop that will be harvested.

Your writer was taken for a prophet, the other day. A gentleman asked me if I knew who would be elected President, just as if I could tell.

Some fields of corn have been replanted, the frost of last Friday night having killed it to the root.

Stock looks good for this time of the year; and there is quite a number on the prairie.

Everything in the line of fruit is killed; and the nearest thing to fruit that will be raised around here, will be onions; but onions are good, all the same. JOE.

CALICO DANCE.

The Social Club will close their series of entertainments with a calico dance, on Friday evening, May 7, 1880. The Club members will spare nothing to make this the most enjoyable affair yet given; and the fact that they have hitherto succeeded in making their entertainments enjoyable to those who have attended, is a guarantee that this, their last, will not lack in that attention which has been given to preceding ones. No lady or gentleman admitted, unless costumed. Admission to dance, 75 cents; supper, \$1.00.

Literary Revolution in Universal Knowledge.

An Encyclopedia in 20 volumes, over 10,000 pages, 10 per cent. more matter than any Encyclopedia ever before published in this country, and sold at handsomely and well bound, in cloth for \$10, in half morocco for \$15 and printed on heavy paper, wide margins, bound in half Russia, gilt top, for \$20—an enterprise so extraordinary that its success, beyond all precedent in book publishing, may be fairly claimed to inaugurate a Literary Revolution.

This LIBRARY OF UNIVERSAL KNOWLEDGE is a reprint entire of the last (1879) Edinburgh edition of "Chambers' Encyclopedia," with about 40 per cent. of new matter added, upon topics of special interest to American readers, thus making it equal in character to any similar work, better than any other suited to the wants of the great majority of those who consult works of reference, and altogether the latest Encyclopedia in the field.

Specimen Volumes in either style will be sent for examination, with privilege of return, on receipt of proportionate price per volume.

Special Discount to all early subscribers, and extra discount to clubs. Full particulars, with descriptive catalogue of many other standard works equally low in price, sent free.

Leading principles of the AMERICAN BOOK EXCHANGE:

I. Publish only books of real value.

II. Work upon the basis of present cost of making books, about one-half what it was a few years ago.

III. Sell to buyers direct, and save them the 50 and 60 per cent. commission commonly allowed to dealers.

IV. The cost of books when made ten thousand at a time is but a fraction of the cost when made 500 at a time—adapt the low price and sell the large quantity.

V. Use good type, paper, etc., do careful printing, and strong, neat binding, but avoid all "padding," fat and heavily-leaded type, spongy paper and gaudy binding, which are so commonly resorted to to make books appear large and fine, and which greatly add to their cost, but do not add to their value.

VI. To make \$1 and friend is better than to make \$5 and an enemy.

BEST IN THE WORLD.

ARM WITH HAMMER, BRAND.

Injure Bi-Carb Soda is of a slightly dirty white color. It may appear white, examined by fire, but a COMPARISON WITH CHURCH & CO'S "ARM AND HAMMER" BRAND will show the difference.

See that your Baking Soda is white and PURE, as should be ALL SIMILAR SUBSTANCES used for food.

Housekeepers who prefer bread made with yeast, will improve its quality, make it rise better, and prevent it from souring, by adding one-half teaspoonful of Church & Co's Soda or Saleratus. Be sure and use no too much. The use of this with our milk in preference to Baking Powder, saves twenty times its cost.

See one pound package for valuable information, and read carefully.

Good Hotels.
Hotel accommodations for travelers are of the greatest importance to persons who have to move about the country on business. "Just where to go" is what every man wants to know when he leaves home. The Grand Union Hotel, opposite Grand Central Depot, New York City, is a very popular resort, because the attendance there is prompt and satisfactory. The charges are reasonable and the *enjoyment* complete. It is a family hotel, but better for less money at the Grand Union Hotel than at any other first-class hotel in the city. Be careful to see that Grand Union Hotel is on the sign where you enter.

Lord Rosebery will probably visit this country next month on his way to Australia.

[From the Kansas City Journal of Commerce.]

A delicate surgical operation was performed a few days ago by Drs. Dickerson and Stark of the Surgical Institute, Kansas City, which, for the success attending it, we consider decidedly worthy of notice. The patient was Willie Reed, son of Nathaniel Reed, of Douglas, Butler county, Kansas. The lad had for two years past been afflicted with a diseased jaw-bone, which, in connection with the taking of unskilled practitioners, had grown so very bad as to endanger the life of the child. Hearing of the remarkable cures by Drs. Dickerson and Stark, the child was brought to this city and placed under their charge. Two weeks ago the little fellow was subjected to the knife, and the lower jaw was taken out, the operation taking about twenty minutes. The incision was made at a point near the tip of the ear, and extended to midway the chin. The jaw-bone was disarticulated and removed. In performing this operation the surgeon was compelled to cut around and close to the internal maxillary and external carotid arteries, to have cut either of which would have proved death. The operation is one which only the most skilled surgeons attempt.

The patient is now rapidly recovering, and will soon be as sound as ever, with the exception of having less jaw than nature designed he should have. The gentlemen performing the operation also successfully cure hip joint disease, spinal complaint and straighten club feet, and are so successful in all they undertake that we feel a pride in knowing that our city has an institution provided over by such skillful gentlemen.

August Flower.
The immense sale and great popularity of Green's August Flower in all the towns and villages in the civilized world has caused many imitators to adopt similar names expecting to reap a harvest for themselves at the expense of the afflicted. This medicine was introduced into the market for the cure of Dyspepsia and Liver Complaint, with their effects, such as Sour Stomach, Costiveness, Sick Headache, Sick Stomach, Indigestion, Palpitation of the Heart, Vertigo, etc., etc. It never fails to give relief, and is a sure cure for all cases of Dyspepsia. Two million bottles sold last year. Price 75 cents. Samples 10 cents.

RATIONAL TREATMENT, POSITIVE CURES.

Dr. E. V. Pierce, President of the World's Dispensary Medical Association, is in earnest in selling his medicines under positive guarantee, and if anybody who purchases and uses any of these widely celebrated remedies does not derive benefit therefrom, the Association would like to hear from that person, with description of symptoms and history of case. Organized and incorporated, as the Association, to teach medicine and surgery and for the successful treatment of all chronic diseases, and managing annually thousands of cases through our original method of diagnosis, without ever seeing the patients, and giving also the largest sanitarium in the world for the accommodation of the more complicated cases, and also for surgical cases, the Faculty feel themselves prepared to undertake even the most discouraging cases. They resort to all the best remedial means known to modern medical science, neglecting nothing. Address, World's Dispensary Medical Association, Buffalo, N. Y., or Great Russell Street Buildings, London, England.

Those who may unfortunately be afflicted with a disease that baffles the skill of the physician at home, or that requires secrecy, and desire advice from the leading institution of the United States, are requested to address the Medical and Surgical Institute, 147 East Fifteenth Street, New York City. The physicians have a system of treatment by correspondence which is very successful. They make a specialty of Consumption, Catarrh, Heart, Liver, Complaints, diseases of the Kidneys and Bladder, Impotence, Nervous Debility and Weakness, Cancer, Skin diseases, Rupture, etc., and will send pamphlet and advice in reference to the disease, if particulars are sent them.

The Southern Pacific Nearing Completion

The Southern Pacific Railroad—coming east from California—is now at Tucson, Arizona, which is 300 miles from the Rio Grande River. Surveys are now being made by the same company, of the line between El Paso and San Antonio—400 miles. The roughest section of the most difficult and expensive portion of the whole line, has already been passed, to-wit, the Sierra Nevada Mountains in California. The remaining portion is comparatively easy. The construction of the line is progressing at the rate of two-and-a-half miles per day from Tucson east, and will proceed at the same speed from San Antonio west, as soon as the surveys are completed.

It is a well ascertained physiological fact that the origin of most of the ills that afflict humanity is a deranged condition of the alimentary canal. The bowels become constipated and sluggish, and thence arises a train of painful and distressing maladies. As a preventive and cure, there is no remedy so safe and sure as Dr. Tutt's Liver Pills.

A Household Need.

Vegetine

FOR CANCERS AND Cancerous Humors. The Doctor's Certificate.

Read It.
ASHLEY, WASHINGTON CO., ILL.,
January 14, 1878.

MR. H. R. STEVENS.
Dear Sir—This is to certify that I had been suffering from a Rose Cancer on my right breast, which grew very rapidly, and all my friends had given me up dead, when I heard of your medicine, Vegetine, recommended for Cancer and Cancerous Humors. I commenced to take it, and soon found myself beginning to feel better; my health and spirits both felt the benign influence which it exerts, and in a few months from the time I commenced the use of the Vegetine, the Cancer came out almost bodily.

I certify that I am personally acquainted with Mrs. DeForest, and consider her one of our very best friends.
DR. S. H. FLOWERS.
ALL DISEASES OF THE BLOOD.—If VEGETINE will relieve pain, cleanse, purify and cure such diseases, restoring the patient to perfect health after trying different physicians, many remedies, which grew very rapidly, and all my friends suffering for years, you can be cured? Why are you a sufferer, you can be cured? Why is this medicine performing such great cures? It works in the blood, in the circulating fluid. It can truly be called the Great Blood Purifier. The great source of disease originates in the blood and no medicine that does not act directly upon it, to purify and renovate, has any just claim upon public attention.

Vegetine.
I regard it as a Valuable FAMILY MEDICINE.
January 1, 1878.

MR. H. R. STEVENS.
Dear Sir—I take pleasure in saying that I have used the Vegetine in my family with good results, and I have known of several cases of remarkable cure effected by it. I regard it as a valuable family medicine.
Truly yours,
REV. WM. McDONALD.
