FINE PORTRAITS.

Quite a number of our citizens visited Prof. Barnes studio to see those life size portraits ordered by Mr. S. F. Jones, size 22x36, mounted in gold frames. As a work of art they can not be excelled. The likeness is very striking and the execution faultless.

THE CURRENCY QUESTION.

Notwithstanding the fact that thousands of our people are worrying themselves almost to death over the vexed question, even to the extent of neglecting their business, their homes and their duties to their families, there are still thousands upon thousands of smart, hard working, intelligent men pouring into the great Arkansas Valley, the Garden of the West, where the Atchison, Topeka and Santa Fe Railroad offers them their choice of 2,500,000 acres of the finest farming land in the world at almost their own prices. If you do not believe it write to the undersigned, who will tell you where you can get a cheap land exploring ticket, and how, at a moderate expense, you can see for yourself and be convinced.

W. F. WHITE, Gen. Pass. and Ticket Agt., Topeka Kansas.

THE HANNIBAL AND ST. JOE. Elegant Day Coaches, Furnished with the Horton Reclining Chair, will be Run Hereafter Between this City and Chicago.

The "Old Reliable" Hannibal and St. Joe railroad will hereafter run magnificent day coaches, furnished with the Horton reclining chairs, between this city and Chicago, without change, by way of Chicago, Burlington and Quincy railway. This is one of the most direct and safe routes to the East, and this step places it in the very first rank in point of elegance and perfection of accommodations. Without doubt it will early become the most popular line in the West with the traveling public. The Horton reclining chair is immeasurably superior in point of comfort and ease of management to all others now in use, and those placed in the Hannibal and St. Joe cars are of the finest workmanship and materials; but to the traveling public it is useless to speak of the excellence of these chairs. They have proved so entirely successful, and so fully meet the wants of the traveling community, that they have become a necessity. Mr. H. D. Price, the efficient passenger agent of the Hannibal and St. Joe road, in this city, furnishes the information that these day coaches will be placed on the road, this week. We commend this route to those going east, who wish to secure comfort, safety and expedition. —Kansas City Journal, Feb. 9

The Leader man should learn that the word "learn" means to receive instruction, and does not mean to instruct, so that his young readers may not "learn" to use this word incorrectly, because newspapers are great instructors; but they may teach the improper use of words by murdering the King's English, as was done by our neighbor, in his last week's issue.

I jest told him that I did'n't have a tail two yards long a dangling to the end of my gown and a bonnet on the tip end o' my pug. I wasn't to be insulted by any popinjay like him. He looked cheap enough, I can tell yer and tried to make an explanation. But I guess they don't think much on him in the shop, for no sooner did I take my puse out o' my ridicute than up steps a real purty little boy, no bigger'n our Steev, and takes the money right out o' the hands of that sars box.
