Swimming Pool Is Closed After Short But Successful Season Run

The swimming pool board of trustees has announced that the pool is now closed for the season. Decision to close was made by the trustees at a meeting Monday morning giving

consideration to cooler weather conditions and opening of school.

According to announcement the pool had a very successful season, although it was a short one, since opening on July 10, and the trustees take this means of expressing their appreciation to the public for their fine support. They also gave special praise to the boys and girls for their splendid spirit of cooperation and stated that management had no discipline problems.

The committee expresses heartfelt appreciation to Carl Knox, former coach here and now of TCU, for coming to Goldthwaite and giving a special course of instruction for life guards. After this course John Carothers, one of the local life guards, completed the Red Cross Water Safety Instructors course and served as instructor for the "Learn To Swim" classes which had over a hundred pupils enrolled.

The pool did a gross business in the short season in an amount sufficient to take care of operating expenses and provide net operating profit sufficient to take care of retiring the first bonds as they become due and pay interest expenses, the committee stated. The committee also pointed out that success of the pool is due to the wholehearted county-wide support which has been given. It is a county-wide project and folks of the entire county have used and enjoyed it.

Although the pool is now closed for the season work on the park will continue as funds are available. The park will be open to the public for year around use.

Committee To Keep Pushing Park Project

The program of developing municipal park will continue to be pushed by the Swimming Pool-Park committee according to announcement made this week, when they pointed out that the park will be open for the public to use all year.

Many folks who attended the Quarterback Club meeting last Friday night expressed amazement at the progress made to date in clearing and developing the park. Some stated they had no idea that such a wonderful park was being developed at the swimming pool while others praised the committee for the work that has been accomplished. Everyone seemed happy with the park as it has been built to date and the prospects that it has for further progress.

During the past week the fill around the bridge at the East entrance was completed and now folks can use both entrances. Mohler Simpson donated several days work during the past week with his bulldozer in clearing additional areas in the park. The committee expressed appreciation to Mr. Simpson for his cooperative spirit in helping with the work that needs to be done and they also invite anyone else who is interested in making contribution to the park in labor or finances to do so.

The project will be carried forward as funds and labor are made available to the committee.

Calls From Japan

1st. Lt. James C. Miller, who served as a Forward Observer with the 3rd Infantry Division in Korea for the past eight months, called his parents, Mr. and Mrs. Tom Miller last Tuesday night from Japan. He told his folks that on his way to Japan he discovered that his brother, Billy, who is serving aboard the U. S. S. Menifee, was in port at Inchon. The boys had not seen each other since last December. James said that he and Billy enjoyed a few hours visit and hope to be together again before Billy's ship leaves Inchon.

Is Another Report From Carothers Up In Alaska

Golovin, Alaska

are camped on the north side of the Bering Sea near the southern-most herd of reindeer in Alaska. We are on a peninsula and the nearest civilization is an Eskimo village, about three miles from the bay. The only thing on the side is our tent, the reindeer will be where the reindeer will be, I hope and an old herd where the chief herder camped with his family. I have known him six months the time John and I were here to get our first deer. He is a very fine fellow and is trying to get the

deer in but having very hard luck. He has five herders after them, but of course they are on foot. There are no horses here, in fact, no domesticated animals of any kind except sled dogs and a few reindeer dogs. The peninsula, which is the summer range for the reindeer herd, is 30 miles long and approximately 6 miles wide. The corrals where we are camped are on the point.

Two weeks ago the herders went 30 miles back and started gathering the deer, bringing them this way. At one time about a week ago they had over 2,000 head together about 12 miles from the corral, but weather has been against them. It has rained almost every day and the wind has changed a

In announcing the move Minister Fry said: "It was not easy to make the decision to leave Goldthwaite, for our stay here has been most pleasant." He stated the church which he served has been very kind to him and his family, and they are leaving with the good wishes of all. He also stated his only reason for going to Jasper was the challenge of a larger field, and a larger work.

Minister Fry also stated that all the people of Goldthwaite had been very kind to them and many courtesies had been extended to each of them, which were greatly appreciated. In leaving Goldthwaite they wish to extend their very best wishes for every one.

"The Last Jaguar" Brought Down Fifty Years Ago

Subject for "The Last Jaguar", by Hart Stillwell of Austin, featured in the September issue of True Magazine, is pictured here with two members of the party taking part in his capture just fifty years ago today, September 3, 1903.

Pictured with the jaguar, left to right, are Homer Brown and Henry Morris, with their rifles and dogs. The picture was made at the side of the then Mills County Courthouse.

Excitement started when some Mills County ranchmen chased the animal into some thickets

after it had killed some of their livestock. What they thought to be a mountain lion turned out to be a jaguar, the only really dangerous member of the cat family believed living north of the Rio Grande at that time.

The above picture was presented to the Eagle by Edward Harris.

Another picture of the hunting party was brought to the Eagle office by Mrs. Otto Kendall. It was too light for reproduction and we were unable to make use of it. The picture

is reported as having every member who took part in the hunt in it, and no one except those taking part.

Members of the group according to the picture were: Bill Morris, John Walton, Will Walton, Mack Casbeer, Charlie House, George Morris, Henry Morris, Al Langford, Jim House, Tom House, Homer Brown, Thad Carter, Joe Langford, Claud Eacott and Will Burks.

The three men who reportedly jumped the jaguar were Homer Brown, Henry Morris and John Walton.

Repairs Made On Elementary School And Lunch Room

The repairing of the interior of the lunch room building is completed and some new equipment has been provided. The chief difference is in kitchen arrangement and painting of floors. Mr. Terry busied himself earlier in the summer applying three coats of paint to the floors of the lunch room and Clarence Elder rearranged the steam table and partitions thus adding much to the appearance and mouse proof cabinets for dishes and foods have been completed. The public is urged to see the changes as chances for the inspections presents themselves.

An addition to the lunch room in form of a hand washing fixture is in the making. This perhaps will be added soon.

Local School Enrollment Monday Morning Exceeds Expectations

By J. T. JONES

School days for children of the Goldthwaite Independent School District opened on Monday morning with a good attendance and much enthusiasm among the students and teachers.

The many parents that visited the school experienced a lot of satisfaction in finding school opening in such stages as is often found after a week

of school. This interest is very much appreciated.

Mr. and Mrs. Tom Stephens of Lubbock were guests of his brother, Tiny Stephens, last week.

Mr. and Mrs. O. R. Ervin of Ranter were guests of her sister, Mrs. W. M. Johnson and other relatives here Sunday.

Mr. and Mrs. Mark Fairman and son visited his mother, Postmaster Lucile Fairman, last week. They will visit his sisters, Mrs. Ray Ford and family of Pleasanton and Mrs. Fred McKenzie and family of Alice before returning to their home at Tulla.

Three Hundred Attend Quarterback Club Barbecue Last Friday Night

Three hundred local boosters of high school athletics attended the annual barbecue meeting of the Quarterback Club on Friday night of last week at the municipal park.

A word of welcome was extended to those attending by E. B. Gilliam, Jr., program chairman, and Superintendent of Schools J. T. Jones gave the invocation, after which the meal was served.

They were entertained by the school band with several selections under the direction of Anna Gene Hale while gathering for the occasion.

Following the dinner hour Coach Ray Akins introduced the football players and their parents who were recognized along

with members of the pep squad, band, and basketball girls. The coach gave a brief resume of athletics during the past year and also outlined some of the activities planned this year and announced the football schedule for this season.

Joe S. Langford, president of the Quarterback Club, spoke briefly on the purpose of the meeting and the work of the club. He also expressed appreciation to all who came to the annual meeting and committee members for their help in this project.

Cheerleaders took over and led the entire group in a number of new yells and the meeting was closed with the school song.

Freedom Of Choice

You must join and pay dues to a labor Union, or else give up your job—that is a compulsion which is now being imposed upon hundreds of thousands of "free" American citizens.

Within the last few months virtually all the railroads of the country have agreed with the railroad Unions that all employees must become Union members and start paying dues and fees to the Unions and that those who are not willing to do so shall be promptly discharged, no matter how long or how competent they may have been working at their jobs. The same thing is widely spreading in other industries.

That this is as wrong as it could possibly be, seems beyond argument or question. The right and freedom to join a labor Union is no longer denied anywhere in this country. It is protected by Federal law. But the corresponding right and freedom to stay out of a Union is not so protected and is now being rapidly extinguished in this, our "land of liberty."

The matter is one that deserves a great deal more attention than it has generally been receiving. Thousands of employees the country over, who are not willing to join the Unions, have petitioned and protested, but so far in vain.

If this be not a form of tyranny, then what is it? It is a denial of individual freedom of choice. It is a levy of tribute, in behalf of private organizations, for the privilege of working and earning a living. It is an oppression of minorities and a compelled allegiance, which arouses natural and bitter resentment. It moreover creates a condition of monopoly, which in the long run will inevitably work to the injury of employers, employees and the general public alike.

The principle at stake is simple, basic and vital. Individual liberty means freedom to join a lawful organization and likewise freedom not to join. It means the one as truly as it means the other!

A bill has recently been introduced in Congress which would assure to every American citizen that he has a right to join a labor Union or not to join, as he may see fit, and that he shall not be subjected to any requirement or compulsion in either direction. This certainly ought to be the law in this land. It is to be hoped that those who share this conviction will so declare themselves to their representatives in Congress.

U. S.-Jap Military Pact Ready for Signing Soon Diplomats Say Weak Japan Prompted Invasion of Korea

Special to Central Press

WASHINGTON—The United States and Japan are getting together to cure the Japanese of a bad case of "military vacuumitis."

Japan regained her full freedom in April, 1952. But she has been a virtually helpless country ever since, protected only by a modest 110,000-man National Safety Corps—plus American security troops.

To the Reds, a militarily weak Japan is an inviting picture. It is the firm belief of diplomatic observers it was this temptation of a virtually unarmed Japan that prompted the invasion of Korea. Japan was to be the ultimate goal.

Now the United States and Japan are working on a mutual military aid program. This country will provide Japan with some \$115,000,000 worth of military equipment, and assistance in training troops, during the next year.

The agreement is expected to be signed sometime in September, marking the first real step to give Japan a first class defensive force of at least 350,000 troops.

COMMUNIST COMPROMISE—Despite official disclaimers, the administration is definitely considering the possibility of dropping its opposition to the admission of Red China into the UN.

A compromise is under consideration. It might give the Reds a seat on the UN. But it depends upon whether Mao Tse-Tung, chief Communist Chinese leader, shows good faith in Korean talks.

If he does, the United States may be willing to recognize the Communist as the government on the Chinese mainland, but also continue recognizing Chiang Kai-shek as head of Formosa.

This would give both the Formosans and Communists the opportunity to be represented on the UN general assembly, but probably would mean dropping Formosa from the Security Council. The new member—India.

It won't be easy to convince Congress of the wisdom of this course of action. The administration will point out that there are advantages in maintaining diplomatic relations even with your worst enemy—if only to have a better chance of knowing what he is up to.

DULLES' DILEMMA—Secretary of State John Foster Dulles faces a task that will may prove as difficult as his negotiations with fiercely patriotic Syngman Rhee after his return from Korea.

Dulles must convince Britain, France and other United States allies that America and Korea have no intention of embarking on a "go-it-alone" policy.

Apprehension was voiced in London and Paris when Dulles announced the United States had promised Rhee to walk out of the Korean conference if, after a reasonable time, it appeared the Communists were making a "sham" of it.

British and French sources immediately complained that Dulles did not make it clear whether the United States would consult fully with its allies before taking such a step. Now diplomats expect Dulles to busy himself quickly and clear up any misconceptions that might affect western unity.

COLD WAR PROBLEM—The anti-Communist revolts in East Germany have underscored the problems of the cold war. What to do about the revolts?

Beyond a few joint statements, the Big Three western powers did little to capitalize on the outbreaks.

Some United States officials wanted this government to provide vigorous support for the striking Berlin workers. The hope was the strikes would spread.

But a more cautious view won out. The United States did not want to force or embarrass the Russians into remaining in East Germany in even that the Russians might have in mind pulling out of that section of Deutschland some day.

Brad said: "I told her when that this was one time where it is alright for her to talk but she would have to change her ways for the evening and talk with out her hands."

For the benefit of those who may have the idea that Delton "Poney" Barnett never works, it has been discovered that he does work and he has witnesses to the effect. Some friends drove in at their ranch home one evening last week and caught him on the job, as he says, of counting a herd of goats which they had just completed shearing. And from information given and the appearance of Delton about that time it was apparent that he

During a recent barber shop conversation Leroy Stacy told the gang that maybe he had better get back to work. It was shortly after lunch time and he had been enjoying a few minutes of relaxation. One of the fellows asked him what he wanted to do that for and he informed them that it wasn't a matter of wanting to at all. After a moment, Larry Hill, who was putting the finishing touches on a shine at the time, looked up and said: "Yes, that's the way it goes—circumstances of life, you know."

In commenting on the length of time the family has been reading the Eagle, P. A. Burks, of route three, said it was from way back when it was the Mountain Eagle which dates back some seventy years. By the way, according to our last week's issue the Eagle has passed its sixtieth year with volume number 60 and issue number one published last week.

According to recent surveys in old files the paper dates back several years before that under various titles. Mr. Burks also related during his remarks that he has some family papers which date back a good long while. Some of them are tax receipts issued by his father from Bell County during the '70's. He kept an old family

souvenir, a Citizen Rifle, for a long time but as he puts it: "It finally played out." For a long time he kept it along with the gourd powder horn and bullet mold that were a part of the shooting irons in those days. If those who are taking to the country this week for dove hunting had to take time out to load their shots in that manner, the doves would be having a grand time.

Our community correspondent Mrs. Oleta Coffman, who has been sending in letters and news happenings from Center City for some time, two weeks ago contributed her last report to the paper from that community. We are interested in making contact with someone in the Center City area who might like to send in news happenings of the community. Anyone interested is invited to contact the Eagle office for details.

News notes from some of our readers: Mrs. S. L. Harwell writes from South San Gabriel, California: "You will find enclosed a check for another year's subscription to the paper. Surely hope that it has rained there by this time. I always look to see if it has rained the first thing when we receive the paper each Monday. I can remember how necessary it is that it rain there for crops and stock."

"Enclosed find check for my subscription to the paper. Please send to my new address at 202 East Avenue G, San Angelo. I have been receiving the paper in Abilene. Would like to tell you how very much my mother, Mrs. C. L. Sommy, and I enjoy the paper. We feel as if we had a nice visit with an old friend after reading it." writes Marselete Sommy.

TODAY'S Menu

Now's the Time to Preserve Season's Fruits, Vegetables

By ALICE DENHOFF
BOUNTIFUL supplies of fruits and vegetables extend a hearty invitation to do a bit of canning. And you don't have to be a country gal to do up batches of preserves. No, indeed! A city child we know, whose apartment boasts only a kitchenette, turns out perfectly delicious items.

Old-Fashioned Spiced Damson Plums are favorites, easy to make and really delicious accompaniments for pork or beef. The recipe calls for 4 lbs. plums.

Spiced Damson Plums
Combine one c. cider vinegar, 3 c. sugar, 1/2 tsp. each ground cloves, ground cinnamon and ground allspice. Bring to boil in a preserving kettle. Then add plums and simmer gently until skins crack but fruit is still whole. Pack plums carefully in hot, sterilized jars, then fill with syrup. Seal immediately.

Another fine escort for meat is Tomato Mince-meat.

Peel and chop 1 1/2 pts. tart apples. Mix with one pt. chopped green tomatoes, 2 tsp. cinnamon, 1/2 tsp. each salt, allspice and cloves, 3 c. sugar, one pound raisins, 1/4 c. vinegar and one c. suet. Bring to boil and simmer until thick.

Old-Time Favorite
Watermelon Pickle is an old-time favorite. Here is a new and excellent version:

Have ready 5 c. peeled and cubed watermelon rind; soak in 4 qts. water and one c. salt for 12 hrs. Boil until partly tender (10-15 min.), then drain.

Combine 2 c. each water and vinegar, 4 c. sugar, 2 tsp. allspice, one orange and one lemon, both thinly sliced, and 3 tsp. grated lemon rind. Bring mixture to boil, then boil 10 min. more, taking care that it does not burn. Place rind in jars, cover with syrup and seal. Makes 2 1/2 to 3 pts.

Spiced Apricot-Pineapple Jam is the final item in this canning jamboree.

Chop Very Fine
Pit (do not peel) one lb. fully ripe apricots. Cut into small pieces and chop or grind very fine.

Measure 2 c. into a very large saucepan. Add one c. (8-oz. can) crushed pineapple and 1/4 c. lemon juice. Add 5 1/2 c. sugar and 3/4 tsp. ground allspice. Mix well. Place over high heat, bring to a full rolling boil and boil hard for one min., stirring constantly. Remove from heat and at once stir in 1/2 bottle fruit pectin.

Skim off foam with metal spoon. Then stir and skim by turns for 5 min. to cool slightly. (This prevents fruit from floating to top.)

Ladle quickly into glasses. Seal immediately with hot paraffin. Makes about 8 (8-oz.) glasses.

Koen Family Reunion Held Last Saturday And Sunday; 185 Attend

The sixth annual Koen family reunion was held at Lake Eanes, four miles south of Comanche, last Saturday and Sunday, August 29 and 30, with 185 relatives in attendance.

Only once since the Koen reunions have been held have the three Koen brothers, John Wesley, Benjamin Franklin and F. D. L., had representatives of their immediate families present; that being in August, 1951. The three brothers were reared near Nashville, Tennessee in the early 1800's.

(Continued from Page One)
which makes it bad, because the deer want to travel with the wind and it is very difficult to drive them with the wind.
We heard from them yesterday and they were about 8 miles from camp with about 100 head. Then last night we got them within about five miles of here and it started raining hard, and most of the deer came in, which was

very discouraging to us.

They went back this morning to try to get what deer they can together and bring them in, but we don't look for them to be in the corral before tomorrow.

Jack has one deer on stake. Ever since we have been camped here, there has been an orphan fawn hanging around on this end of the peninsula. We didn't want him because he was too onery, but Jack took a liking to him and we spent most of one day trying to catch the little booger, we were finally successful when Jack worked him around behind a drift fence to the corral where we could rope him. We put him on a stake rope right in front of the tent. At first he was terribly excited, but after Jack fed him reindeer moss a few times he has made a big change. Now he comes to meet us every time we pass by, he is a real pet, and would come in the tent if there was room and some reindeer moss inside. But he doesn't like Jack's hot-cakes. Jack calls him Jesero—I think after a few more cold nights they will be sleeping together.

The weather is rather cool—in the fifties and sixties—one day it got up to 76 degrees, a real heat wave.

We spent two days on the tundra with the herders last week. We went about twelve miles up the peninsula, part of the way by boat and the rest

on foot. We saw three different bunches of deer. With our binoculars we picked out some fine deer. One steer in particular that had the finest rack of antlers I have ever seen. I sure hope he is in the herd when they come in the corral. He has an extra large beam in his antlers that runs up on either side with points on the back of it. Then three points right on top with the back point on each side turned in toward the center. I would know him in ten thousand, because their antlers are like finger prints, no two alike. We also saw some spotted ones in another bunch we will try to get.

We found two dead walrus on the beach, probably an Eskimo hunter had shot them out at

sea and failed to get them, and they had died and washed ashore. They were pretty ripe. There were plenty bear tracks but we got the ivory tusks around. Jack had his rifle and we had ptarmigan to eat, also brought some ducks back to camp. I never knew that duck was so easy to cook. We boil them until they are tender, then fry in deep grease. Not bad—well, in camp, I mean.

Hope the deer come in soon as we are about to run out of groceries. All for now.

GRADY.

Mr. and Mrs. James McClement visited her grandmother, Mrs. S. L. Turner, who is a patient in the Coryell Memorial Hospital, Friday of last week.

Large Number Attend School Opening Program Monday Night Of This Week

A large number of patrons and students of Goldthwaite Independent School District attended the school opening program with watermelon feast at the Grammar school auditorium on Monday night of this week.

The program opened with some band selections and group singing led by Lee Tesson. Rev. J. T. Ayers gave the invocation. Superintendent J. T. Jones introduced high school Principal Lee Tesson and grammar school Principal Dwarmen Newton who in turn introduced faculty members from their respective

schools. Members of the board or trustees were introduced and given an opportunity to say a few words to those present.

Dr. T. C. Graves, member of the board of trustees, was the principal speaker for the evening and gave an outline of purpose and plans of the equalization board and what is hoped to be accomplished through their efforts for the benefit of the school district and the educational program of the community from the financial standpoint. He also spoke about

the bond issue and the proposed building program, giving some highlights of problems facing the board with regard to selling the bonds, selecting a site for the new building and actual construction of the project.

Household Hint

After laundering garments of washable synthetic fabrics, hang them up without wringing out and let drip dry. For best results, soft rag before placing garment on the hanger. Finger-press seams, collars and cuffs occasionally as the garment dries.

Ebony News

By Clementine Wilmet Briley
(Written For Last Week.)

While reports of good rains came in from nearby places, we got only enough to mess up the combining. Hubert Reeves got here with his combine after dinner Monday and started combining maize in the Malone field. Tuesday, he got back before dinner. Johnny Griffin came to help John handle the grain. The weather was threatening, and the cattle were threatening all the time to break into the Hosesey field. John Briley was running circles trying to help with the combining and trying to keep the cattle out of the field. Tuesday night it rained 1 inch. Wednesday morning was too damp to combine. After dinner Hubert came back, hoping to finish the Malone field, but he tore the canvas and had to quit. Mr. and Mrs. Thompson came by to tell us that four head of cattle were in the maize patch in the Hosesey field. While John was trying to get them out, the whole hungry herd got in. He almost wore himself out and ran his horse down getting them out. He drove them to the field near the house, which they had already eaten out, and shut the gate on them for the night. Next morning and through the day it misted and sprinkled enough, 15 inch, to put an end to the combining for the day. Friday was fair. John put the cattle in the Malone pen. Hubert got there, got the Malone field finished, and the cattle in by dinner. After dinner he wanted to get the combine into the Hosesey field. There were two ways. One at the regular creek crossing which had two steep banks to go down to get to the creek. Hubert didn't want to risk the combine's running down on him that way. The other was Flatrock crossing which had a short turn as it went up a steep bank. He chose Flatrock. John went ahead of him with his tractor, in case he needed help to get up the bank. Hubert stuck. Then the Briley tractor acted up and wouldn't start. Hubert said it looked back at him and his tractor and the combine and said, "That's too

much." They had to go for Charlie Griffin. Charlie brought his tractor to their rescue. Then the contrary Briley tractor popped right off. Charlie stayed to help. They got through with that field in short order, and John and Charlie got the grain hauled in before dark.

Friday was our town-going day. Mrs. Dwyer was expecting to go with us. John had to go over there Thursday evening to tell her we couldn't go. Saturday John had to watch cattle for symptoms of over eating. We haven't got to town yet, but Mrs. Dwyer got to go Friday with Mr. and Mrs. Cecil Egger.

Dewey Smith and Charm Whittenburg are drilling a well for Edward Egger.

We were happy to have out at church Sunday Mrs. Johnny Egger of Brownwood and her sister, Mrs. Norma Strasser, of Coleman. Mr. and Mrs. Egger and Mrs. Strasser were the guests of Mr. and Mrs. Eugene Egger.

We were also happy to have Mrs. Arle Egger of Star. She and Arle came to visit the Lem Eggers, and she came on to worship with us.

Clayton Egger of Houston was home for the weekend.

Mrs. Stanley Reeves had for guests last week her sister and her daughter and two sons from Ardmore, Oklahoma. They left Wednesday, and Mrs. Reeves went home with them.

Mrs. Blue Thompron tells me

that recently Mr. and Mrs. George Russell and Ruthie of Big Spring visited them. They brought with them Paul Limer, son of Mr. Russell's boss. Then Mrs. Thompson was especially elated over the visit of a niece and her husband, Mr. and Mrs. Finis Hamilton, of Haleyville, Alabama. This niece, whom she had never seen before, was the daughter of her only sister. The sister died the next year after Mrs. Thompson left Alabama. After fifty years Mrs. Thompson's brother, Marvin Cole, of Brownwood, visited Alabama and Mr. and Mrs. Hamilton came back with him.

The Colorado River backed Buffalo Creek up to the Hosesey Hole Saturday, then began to fall rapidly.

Charles Henry Griffin has re-enlisted in the Air Corps and is stationed at Lackland Field, San Antonio, for the present.

I have been requested to announce an all day cemetery working at the Regency cemetery Friday, September 11. Please bring tools and lunch.

Miss Letha Reynolds of Monahans and Burrell Reynolds of Fort Worth have returned to their homes after visiting their parents, Mr. and Mrs. Lloyd Reynolds.

Parking's a pushover with Ford Power-Steering

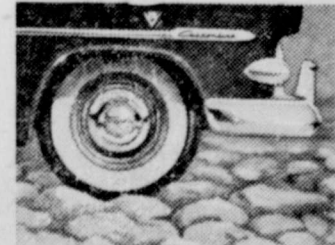

It's a brand new Ford "Worth More" feature—costs up to \$40 less than any other power steering in its field and it's the newest and finest power steering.

With one finger, while the car is standing still, a woman can turn the steering wheel. No longer will rough road ruts "throw you". Should ever a tire blow out, power steering assistance helps you to keep safe straight-line-control. Ford Power Steering does up to 75%

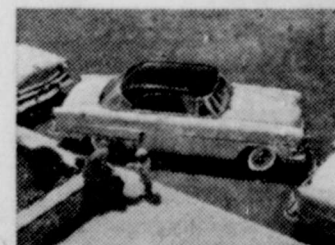

of the work; and it has a more natural "feel" than many others. You don't have to change your driving habits radically. The steering gear ratio is the same as without power steering and the hydraulic system gives you just the right assistance when you need it.

No change in driving habits! You could drive off in a Ford with Power Steering with absolutely no radical change in the way you ordinarily drive a car... just a lot less effort!

"Wheel Shock" reduced! With a hydraulic "cushion" between your steering wheel and the front wheels, Ford Power Steering noticeably reduces "wheel shock" on rough roads.

Parking is a pushover with Ford Power Steering. In fact, all driving is a lot easier and so much more relaxing. You can easily turn the wheel with one finger while the car is standing still.

You're safer! Even if a front tire should blow out, Ford Power Steering comes to your assistance... gives you the "muscle" to keep the car under control. That's really extra security!

Bethel Chapel Is New Name For Gospel Hall

Since moving the Gospel Hall to the new location the name has been changed also. The name Gospel Hall did not seem suitable for the new building; as it is not a large hall as the other building was or the name would imply.

Bethel Chapel was chosen as the new name as Bethel means "The House of Prayer" and Chapel means "a place of worship smaller than a large church." This is just what the Bethel Chapel is. Worship will be the same as before with nothing changed but the name.

Rev. Harold D. Wills, pastor, extends a cordial welcome to all to attend the Bethel Chapel Bible Study each Wednesday at 7:45 p. m., Saturday evangelistic service at 7:45 p. m., Sunday School at 10:00 a. m. followed by Morning Worship at

11:00 a. m., Young People's Services Sunday nights at 7:30 p. m., followed by an evangelistic service at 7:45 p. m.
