HOW TO THE LINE, LET THE CHIPS FALL WHERE THEY MAY.

VOLUME VI.

COTTONWOOD FALLS, KANSAS, FRIDAY, FEBRUARY 20, 1880.

NUMBER 19.

BREVITIES.

The capital employed in British railroads is little less than \$3,500,000,000. It is administered by 224 distinct companies, some of which pay no dividend, while others are hopelessly insolvent.

Known ones predict that the agreement entered into between the Atchison, Topeka, and Santa Fe and the St. Louis and San Francisco railroads to jointly construct a line to California will fall through if congress passes the resolution now before it to declare forfeited to the government lands of the latter road.

Old iron rails are even coming from Russia to the United States. A vessel is now en route from Odessa to New York with a cargo of old rails; and it is stated that some 25,000 tons more are the Atchison, Topeka and awaiting shipment to this country, the American dealers seem to be ransacking the world for old iron.

The promptness with which little rise in speculative stocks is met by offerings from holders does not encourage hopes of a permanently higher market. The supply evidently exceeds the demand, and every approach toward the prices which prevailed just before the November break may be relied on to bring more stocks than buyers are ready to take.

The humane Live Stock Express company is building 250 stock cars under patents which they control, which consist in the attachment of feed and water troughs and the construction of partitions separating the stock. The cars about six feet longer than the ordinary cattle cars, and are designed to carry cattle long distances and without unloading or reloading.

The annual municipal report shows Paris to contain 74,740 buildings, containing 337,587 sets of rooms used for business, and 684,952 for habitation. The rental of the former is estimated at 248,000,000 francs, that of the latter at 32,400,000 francs. In the Thirteenth and Twentieth Arrondissements nine-tenths of the tenements are below 300 francs rental.

From the calculation of M. Paul Leroy Beaulieu in the Economiste Francais, it appears that the public debt of France exceeds 26,000,000,000 francs, on which 1,296 are paid annually as interest. Divided among 37,000,000 of Frenchman, this debt, the most colossal in history gives an average of 700c. as principal, for each individual, and 341c. interest per annum.

A SAN FRANCISCO man went into the country to avoid a predicted earthquake, and on the journey was run away with a stage coach and being thrown out fell into a creek and barely escaped drowning. On getting ashore he was tackled by a bear, and when he finally escaped the animal and got to a ranch the proprietor came out with his dog and gun and almost killed him, thinking he was a robber.

The China Merchants Steamship company has proved a formidable rival to British steamers in the Chinese coasting trade, and now, according to the Shanghai Mercury, it proposes to compete with American steamers navigating the Pacific. One of its vessels will carry emigrants to the Sandwich Islands, and another will engage in the passenger traffic between Canton, Honolulu and San Francisco.

A strange disease has appeared in the East End of London. It is an affection of the eye, known in the affected district as "the blight," and not familiar to the native oculist. It is virulent and dangerous, not seldom destroying the sight if it be not promptly taken in hand. Three weeks ago there were sixty-nine cases of this disease in Whitechapel alone. The epidemic is supposed to be a foreign importation.

The parties owning the paper car wheel interests of the United States have finally given the preference to Chicago over St. Louis as the location for the new and extensive works. The capital stock is \$1,000,000, all paid up, of which \$600,000 is held in the East and \$400,000 in Chicago. The site selected is on the line of the Chicago, Rock Island and Pacific railroad, south of the city limits. The plans of the building are already prepared.

The Louisiana rice crop of 1879 is estimated at 80,000 barrels, against 154,318 barrels in 1878. The Carolina and Georgia crop is estimated at 80,000 barrels against 72,093 tierces in 1878. A tierce is equal to 2 1/2 barrels, so that the total production in the United States is estimated at 280,000 barrels, against 236,778 barrels in 1879, showing a deficiency of 56,778 barrels. There were 24,000 barrels of Louisiana rice on hand in New Orleans on January 1, and an estimated amount of 7,106 barrels to be marketed. Of the Carolina and Georgia crop, 26,000 tierces had been marketed January 1, leaving 54,000 tierces, equal to 135,000 barrels, yet to come in.

Recent Important Events at Home and Abroad Duly Chronicled.

WASHINGTON.

The Committee on Pacific Railroads postponed for two weeks the consideration of the bill extending the provisions of the sinking fund act.

The Committee on Appropriations has agreed to report a deficiency appropriation of \$135,000 for the support of certain Indian tribes for the year ending June 30.

The deficiencies in the annual appropriations for various departments of the Government for which deficiency appropriation bills are asked aggregate \$5,770,339.

The proposals to sell bonds to the Government on the 12th aggregated nearly \$12,000,000, and the prices ranged from 103.10 to 108, and were mostly accepted by the Secretary of the Treasury.

The Senate Committee reduces the appropriation for additional clerks in the pension Bureau from 61,900, to \$49,900, and for the War Department from 39,000 to \$32,000. The Second Auditor is to have additional clerks to clear off the pension business.

The House Committee on Ways and Means disposed of the remaining question on the 12th. The rate of interest was decided in favor of 3 1/2 per cent by a vote of 11 to 2. The question of time was settled by a decisive vote of 12 to 1, in favor of the 20 40 bond.

The Senate confirmed Joseph M. Howarth, of Kansas, Indian inspector. The select Committee of the House upon alcoholic liquor traffic instructed Representative Brewer to report a bill to the House providing for the appointment of a commission of ten members to investigate the subject, to serve without pay, and to be selected respectively of their views upon the liquor traffic. The bill also appropriates \$10,000 for the expenses of the commission.

The House Committee on public Lands took final action upon a number of public or private bills, to-day, and agreed to make favorable reports to the House on the following: Mr. Ryan's bill authorizing the Secretary of the Interior to certify school lands to the State of Kansas. Mr. Davis's (Missouri) bill to declare forfeited to the United States the lands granted to the State of Missouri in aid of the construction and extension of the Iron Mountain Railroad from Pilot Knob, by act of Congress, approved July 14, 1868.

The Inter State Commerce Committee adopted Representative Henderson's bill as a substitute for the Reagan bill. It provides for a board of commissioners with powers and duties similar to those proposed by the McCord bill, and the Charles Francis Adams plan. One of the amendments extends the jurisdiction of the commissioners over the transportation of all property by railroad from one State or Territory into or through another. Another amendment, adopted on motion of Bliss, requires the commission to inquire into that method of railroad management known as "pooling," and state the results of their inquiry in their first annual report and whether in their judgment any, and if so what, legislation is expedient in relation thereto. By the bill discriminations and abuses are forbidden. Henderson's bill was adopted by a vote of 9 yeas to 6 nays. The bill was ordered to the House with the request that an early day be assigned its consideration. The last section of the bill appropriates \$25,000 for carrying into effect its provisions from the date of enactment to June 30, 1881, and provides that no pending litigation between railroad companies shall in any way be affected by the provisions of the act. It is probable that Drew Hodge will be appointed Register of the Salina, Kansas Land Office.

PERSONAL AND POLITICAL.

The Empress of Austria has contributed \$200 to the Marlborough relief fund.

John Kelly, sachem of Tammany, fell from a street car and dislocated his shoulder.

Edward Reinhardt, convicted of wife-murder at New York, will be hanged on the 3d of April.

It is reported that Baroness Burdett-Coutts intends to give \$2,500,000 of her immense wealth, for the permanent relief of distressed Ireland.

The Hon. Mrs. Ronald Campbell, whose husband was killed in the engagement on the hill at Zumbula, will accompany the Empress Eugenie in her pilgrimage to Zumbula.

Secretary Sherman, before the Ways and Means Committee on the 11th, admitted that his views on refunding had modified somewhat, and he was disposed to concede the possibility of negotiating at par, a bond bearing a lower rate of interest than four per cent.

The illness of the Empress of Russia will interfere materially with the celebration with which it was intended to honor the twenty-fifth anniversary of the Czar's accession to the throne. For this reason the Czar has determined to decline all tenets of the attendance of special representatives from other courts on that occasion.

GENERAL FOREIGN NOTES.

Cuban insurgents have been defeated at Monteruz, 250 surrendered.

Another battle at Herat is reported, in which the Herats were badly defeated.

gress for acceding to the privileges of the floor of the House to Parnell.

Measures have been taken by the Dublin Mansion House Committee to reach the Germans by soliciting subscriptions in an address to the editor of the North German Gazette.

A Berlin dispatch says that although the Navy laws may be enacted with great leniency, temporarily the situation is still governed by the letter of the Crown Prince to the Pope.

Prussia has presented in the Bundesrath a bill prohibiting foreign vessels from engaging in the coasting trade of Germany, except if the right is acquired by treaty or by special permission.

The police of St. Petersburg have seized a printing press any many copies of revolutionary pamphlets on "Redistribution of Land," and a great quantity of type and forged passports. The occupants of the house have been arrested.

The London Times says as long as the nations are unable to devise any improvement in the maintenance of their natural relations, it is idle to complain of the continuous increase of armaments as necessarily inconsistent with peaceful intentions.

The sculling match between Boyd and Hawdon over the Tyne championship course on the 14th for two hundred pounds was won by Boyd by two lengths. Time twenty minutes, fifty-two seconds. Boyd allowed Havdon four lengths start.

Arthur Crough, a magistrate of Carragh, County Clare, Ireland, was recently fired at five times in his own house, through a window, by a drunken soldier who fell out and fired eight shots at the assailant without effect. There has been two arrests on suspicion.

Queen Victoria is the owner of a silver gilt casket in which are locked containing locks in London, which were found at Isandula. Each lock is engraved with an "In Memoriam" and the name of the officer, together with the date of his death. The sovereign was ordered by the Queen.

The Baroness Burdett-Coutts intend to devote \$2,500,000 to the amelioration of the distressed in Ireland, and she has invested in the purchase of land in the district of Connemara, County Galway, to be afterwards let to small tenants at long leases and moderate rents. A committee of Irish gentlemen interested in agriculture is associated in the scheme.

THE EAST.

At New York on the 11th, Edward Reinhardt was denied a new trial on the charge of murdering his wife, and so was sentenced to be hanged April 2nd.

Near Londonderry, N. H., Frank Dillingham, fatally shot her and made an unsuccessful attempt to kill himself.

The coal strike in the river districts of Western Pennsylvania has become general. The Knights of Labor, who are the cause of the trouble, have departed for Ohio, Indiana and other States, where strikes will also be inaugurated.

Near Indianapolis on the 11th, a German farmer named Fingerly, residing north of the city, went out and seating himself in the forks of a tree, shot himself in the left temple, producing instant death. His body was found the next morning. He leaves a family, who can not account for his deed.

Burglars visited Westport, Connecticut, on the night of the 10th, gagged the village watchman, and carried him to the National Bank, where they forced and locked him in a closet, they then blew open the door of the vault, but the explosion was so violent that the plate glass in front of the bank were blown into the street. The burglars were aroused, and the burglars fled with \$3,500 in cash.

THE WEST.

Illinois bees are dying of measles.

J. Phil. Krings, Sr., President of the Broadway Savings Bank of St. Louis, which failed about a year ago, has been found guilty of swearing falsely to a statement of the condition of the bank, and was sentenced to three months in jail and a fine of \$500.

Jacob Frye an old and respected citizen of Peoria Ill., engaged in a contest, was shot and almost killed on the 10th, on court house square, by his daughter's husband, Luther B. McKinney. The cause, divorce suit pending against McKenney who is a violent man.

At Little Rock, Ark., on the 10th, while three men in the Iron Mountain Railroad shops were changing hot water from one engine to another at Baring Cross, the hose burst, and the men were scalded badly, one Deino Casat it is supposed fatally.

Kidnappers and Madhouse.

New York Herald.

Considering that this is a free country, and the year is some centuries in advance of the Dark Ages, the ease with which Dr. Shukze of Mexico was placed in a prominent Philadelphia madhouse is decidedly alarming. A New York business house instructed the manager of the asylum to expect such a patient; the doctor was taken to the institution under the supposition that he was going to a banking house to have a draft cashed, and a letter, purporting to be from the doctor's wife, was presented with some others. Not a certificate or line of writing from any foreign or American physician was presented; merely upon the personal letters alluded to the doctor became an inmate of the asylum! Undoubtedly the name and whereabouts of the institution will be carefully recorded for future use by all foreigners who are jealous of their wives or husbands, all impecunious sons of fathers who are slow to die, and by conspirators of all sorts who are anxious to have any one disposed of without recourse to murder; but that Pennsylvania or the United States proposes to allow such outrageous trickery does not clearly appear. Certainly neither will allow "experts" like the one who testified on Saturday to be the arbiters of a lone foreigner's fate.

Butler expects to run again for Governor of Massachusetts, as the Grant candidate.

On the 23d instant the Democratic National Executive Committee will decide where the next President will be nominated.

Major J. K. Hudson, of the Topeka Capital, has been elected Secretary of the State Board of Agriculture, to fill the place made vacant by the death of Alfred Cray.

Another Southern outrage has taken place. This time in the State of Arkansas where a court adjourned out of respect for the memory of a deceased colored member of the bar.

T. Dwight Thatcher, of the First District, David J. Evans, of the Second District, and Charles M. Kellogg, of the Third District, have been confirmed as Supervisors of the Census for Kansas.

The copartnership existing between Hudson & Ewing, at Topeka, has been dissolved, and now the Capital is being edited and published by J. K. Hudson, and the Kansas Farmer by E. E. Ewing.

Ex Gov. Horatio Seymour says it is folly for Democrats to quarrel; and that, if united, they can carry New York State next fall. The ex Governor's head is very level on this question, as also on matters generally.

Why not change the name of the State to Cameron plantation. Don seems to own the party in the majority, in the State, and it would only be fitting to give his name to his property.—Coudersport (Pa.) Enterprise.

The Atchison Patriot, of the 7th instant, gave quite an extended review of "the metropolis of Kansas," which is a splendid showing for Atchison, and will be worth thousands of dollars to that city, and for which that enterprising paper deserves great credit.

The treasury of New Jersey is said to be in so satisfactory a condition that no State tax will be levied this year. It is a Democratic State, and Gen. McClellan is the Governor. By the wise forethought of Mr. Douglas the State of Illinois will soon be in the same position in spite of the extravagance of Republican rulers.—Ex.

Here is a consolation for any young homesteader who may wish to marry a "gal" with a claim—providing the "gal" is willing of course. The general land office department has decided that if an unmarried man and unmarried woman each enter a homestead adjoining and afterwards marry and build a house on the line dividing the two claims, and live therein, that each will be entitled to a patent for their homestead.

The total of persons hanged in the United States in 1879 was 101, of whom 55 were whites, 37 colored, 8 Indians, and 1 Chinaman. The number of executions were as follows: North Carolina, 12; Texas, 12; Pennsylvania, 10; Oregon, 7; Virginia, 6; Georgia, 3; Arkansas, 6; California, 5; Missouri, 5; Indiana, 4; Vermont, 3; Alabama, 2; New Hampshire, 2; Tennessee, 2; Nebraska, 2; Louisiana, 2; Mississippi, 2; South Carolina, 2; and New Jersey, Ohio, Kentucky, Massachusetts, Colorado, Utah, West Virginia and Maryland, each 1.

Kansas is experiencing another of her remarkable winters, and the bright skies and clear frosty nights are the admiration of all who do not know our young Common wealth in her best moods. Even sparkling on the front gate has not been discontinued, and lovers thread their way to and from church with a calm consciousness this unprecedented weather was mapped out especially for their delectation, and even the crescent moon smiles down benignantly on their innocent folly. It is many a year since Kansas experienced a more open and sunny winter, and spring's work will be well advanced before spring rings up the curtain for active work.

Just how the State has been divided, respecting the census districts, is not generally understood by the public at large. Hon. T. D. Thatcher, of the Lawrence Journal, who is one of the commissioners, thus explains the case: "Considerable misapprehension prevails in regard to the numbering of the census districts in the State. The first census district is composed of the Second Congressional district; the second census district is composed of the Third Congressional district; and the third census district is composed of the First Congressional district. By keeping this distinction in mind many persons will save themselves the annoyance of writing to the wrong Supervisor, as is now almost constantly done."

The New York World, by the following neat little work of juxtaposition, plainly illustrates the partisan character of that accommodating tribunal known as the Supreme Court of the State of Maine, and shows what a very convenient and handy thing it is to have in the family:

HEADS, I WIN; TAILS, YOU LOSE. 1877. (When Democrats were to be rejected, it is to be regretted that votes are lost by negligence of town officers, but the obvious remedy is to choose such as know their duty, and know it will perform it.) JOHN APPLETON, Chas. W. Walton, John A. Peters, Artemus Libby, Wm G. Barrows, Wm Wirt Virginia, J. G. Dickinson.

When Proctor Knott traced \$64,000 of Little Rock, Fort Smith and Union Pacific bribery money in Blaine's pockets, Blaine's conclusive reply was that Knott was a rebel. When Ben. Hill showed that Blaine, in writing, had demanded, and in writing, had received for tens of thousands of dollars, for making his rulings and packing his committees. Blaine's crushing rejoinder was that Hill had been a secessionist. When Lamar proved that J. B. Stewart brought Blaine \$21,000 worth of coal stock at midnight. Blaine's unanswerable counter-statement was that Lamar had been a Confederate soldier. When the Maine people bring bribery to Blaine's house he cries out conspirators and rascals. In calling names and receiving or disbursing bribes Blaine is an entire success. As the reverse of a reformer, or as the exhibition of an honest character, however, he is a complete failure.—Albany Argus.

Some idea of the means used to beguile the Texodusters to throng upon us as they have been doing for the last three months, may be gathered from some of the photographs distributed among them representing emigrant life in Kansas. Here is one of them: A cotage in the villa style. Doors open showing elegant furniture and an open grand piano, at which a colored lady has seated herself, while others gaily attired in the latest fashionable style are sauntering through the halls or piazza, or surveying parterres of flowers to the adjoining grounds. The land seap presents a field of waving grain, with horses and mules in an adjacent pasture browsing on clover pasture high. In the midst of all this luxury a fine buck lopes up within easy rifle range from the villa door, ready to be shot for the day's repast. The picture has been circulated all through the lower Mississippi valley and is headed "Emigrant Life in Kansas."—Independence Kansan.

MUDGE MONUMENT FUND. TOPEKA, KANSAS, Feb. 1, 1880.

DEAR SIR—The announcement of the sudden death of Prof. B. F. MUDGE, at his home in Manhattan, two months ago, brought pain to the hearts of many friends, not only in the State, but also throughout the land. His whole life in Kansas had been unselfishly devoted to the investigation of the natural sources of wealth within our borders, and to the inquiries which resulted in those valuable scientific discoveries which have made his name famous throughout the world. He also improved every opportunity to communicate his rich stores of practical and scientific knowledge, not only to the student placed under his charge in our

State institutions of learning, but also to the people of this Commonwealth—by public lectures, by private correspondence, and by contributions to the public press.

Giving himself unreservedly to the great work of education, he felt that, like the great Agassiz, "he had no time to make money," although hundreds were peculiarly benefited by his labors, and thousands were enriched by the more precious wealth of his learning.

Feeling assured that the proposition to erect a suitable monument to his memory will meet with a hearty response, the Kansas Academy of Science, of which PROFESSOR MUDGE was the honored President at the time of his death, has appointed a committee to take charge of the enterprise. The members of this committee are as follows: F. G. ADAMS, Topeka, Chairman; JOSEPH SAVAGE, Lawrence, Secretary; R. J. BROWN, Leavenworth, Treasurer; I. T. GOODNOW, E. A. POPENO, Manhattan; J. D. PARKER, Kansas City; F. H. SNOW, J. H. CARRUTH, Lawrence.

It is proposed to raise one thousand dollars for the erection of this monument, and the many friends of our beloved leader and associate are cordially invited to render all possible assistance. Local committees will be authorized to receive subscriptions in the chief towns of the State. Individuals not thus solicited are hereby invited to send their contributions to the Treasurer; or, if more convenient, to any member of the committee above named.

F. G. ADAMS, Chairman. JOSEPH SAVAGE, Secretary.

BULLDOZING IN KANSAS.

In speaking of the late elections in Barton county, the Great Bend Democrat says: "The Garconian spirit manifested by the dominant party in this county at the recent township elections, is truly remarkable, following so closely, as it did, the virtuous pretensions and howls of indignation that were so numerously heard during the excitement of the Maine embroglio. From every township almost comes complaints of violation of the election laws; and in one township—Homestead—a suit has been brought against one of the Judges. In the above township, one John K. Humphrey was one of the Judges of the election. He first conceived the brilliant idea that it would be the proper thing to do to mark each ballot that was voted, and after twelve votes had been cast, he did so, contrary to the wishes of a majority of the Board, and with no law upon which to base his action; thus depriving the citizens of that township of their constitutional right to vote a secret ballot. He also took the extraordinary privilege of erasing one of the two names of the candidates for Road Overseers, in instances where both were on the ticket, thus laying himself liable, on the charge of mutilating the ballot after it was cast. He was also a candidate for Trustee at the time that he arrogantly, and with an iron will, dictated what should or should not be done. As above stated, a suit has been brought against him to-day. Mr. E. D. Campbell will file his bond, and push the prosecution to the bitter end."

LITERARY ITEMS.

Readers of standard books will be pleased to notice the great progress of "Literary Revolution" which is being published by the AMERICAN BOOK EXCHANGE, New York. Among their books just issued, or nearly ready, are a very neat edition of the Koran of Mohammed, complete, 35 cents; Macaulay's England in three volumes, \$1.50; Milton's Poetical Works, complete, 50 cents, in the Aene Library of Biography, 12 volumes formerly published at \$1.25 each now brought into one volume for 50 cents; in Modern Classics, Vicar of Wakefield, Rasselas, Piccolina, Paul and Virginia, and Undine, all in one volume, 50 cents; nicely illustrated green and ebony bound volumes of Arabian Nights, Robinson Crusoe, Pilgrim's Progress, Baron Munchausen and Gulliver's Travels, each 50 cents, and a book of humor and wisdom by the Author of Sparrow-grass papers; all in good and some in large type, and handsomely bound in cloth. Descriptive catalogues will be sent free on request.

MEETING OF THE DEMOCRATIC STATE CENTRAL COMMITTEE.

TOPEKA, February 9, 1880. The members of the Democratic State Central Committee are very respectfully requested to meet at the law office of Martin and Mileham, in the city of Topeka, at 3 o'clock, p. m., on Wednesday, March 3rd, 1880, to consider the time and place of holding a State convention to appoint Delegates to the Democratic National Convention, and for such other matters as may properly arise before the Committee.

The Democratic papers of the State are respectfully requested to publish this notice. JOHN MARTIN, Chairman. H. MILKS MOORE, Secretary.

CHICAGO, ROCK ISLAND & PACIFIC R. R.

IS THE GREAT CONNECTING LINK BETWEEN THE EAST AND THE WEST

Its main line runs from Chicago to Council Bluffs and Omaha, passing through Joliet, Ottawa, La Salle, Geneseo, Moline, Rock Island, Davenport, West Liberty, Iowa City, Marengo, Brooklyn, Grinnell and Des Moines, the capital of Iowa, with branches from Bureau Junction to Peoria; from Junction, Massac, Washington, Fairfield, Eldon, Belknap, Centreville, Princeton, Trenton, Junction, Leavenworth, Leavenworth and Atchison; Washington to Sikeston, Okalona and Knoxville; Keokuk to Burlington, Booneville, Bontemps, Independence, Eldon, Ottumwa, Eldonville, Okalona, Peoria, Monroe and Des Moines; Des Moines to Indianola and Winterett; Atlantic to Audubon, and Avoca to Harlan. This is positively the only Railroad, which owns, controls and operates a through line between Chicago and Kansas. This company own and control their Sleeping Cars, which are inferior to none, and give you a double berth between Chicago and Council Bluffs, Leavenworth, or Atchison for Two Dollars and Fifty Cents, and a single berth for One Dollar, while all other lines charge between the same points Three Dollars for a double berth, and Six Dollars for a single berth. What will please you most will be the pleasure of enjoying your meals, while passing over the beautiful prairies of Illinois and Iowa, in one of our magnificent Dining and Restaurant Cars, that accompany all through Express Trains. You get an entire meal, as served in any first-class hotel, for seventy-five cents; or you can order what you like, and pay for what you get. Appreciate the fact that a majority of the people prefer separate apartments for different purposes, and the enormous passenger business of this line warrants it, we are pleased to announce that this company runs its PALACE CARS for sleeping purposes, and its PALACE DINING CARS for eating purposes. One other great feature of our Palace Cars is a SMOKING SALOON where you can enjoy your "luxuries" at all hours of the day. Magnificent Iron Bridges span the Mississippi and Missouri rivers at all points crossed by the Railroad, and transfers are avoided at Council Bluffs, Leavenworth and Atchison, connections being made THROUGH THE LINE ARE AS FOLLOWS: AT CHICAGO, with all diverging lines for the East and South. THE CURRENCY QUESTION.

Notwithstanding the fact that thousands of our people are worrying themselves almost to death over the vexed question, even to the extent of neglecting their business, their homes and their duties to their families, there are still thousands upon thousands of smart, hard working, intelligent men pouring into the great Arkansas Valley, the Garden of the West, where the Atchison, Topeka and Santa Fe Railroad offers them their choice of 2,500,000 acres of the finest farming land in the world at almost their own prices. If you do not believe it write to the undersigned, who will tell you where you can get a cheap land exploring ticket, and how, at a moderate expense, you can see for yourself and be convinced.

THE HANNIBAL AND ST. JOE.

Elegant Day Coaches, Furnished with the Horton Reclining Chair, will be Run Hereafter Between this City and Chicago.

The "Old Reliable" Hannibal and St. Joe railroad will hereafter run magnificent day coaches, furnished with the Horton reclining chairs, between this city and Chicago, without change, by way of Chicago, Burlington and Quincy railway. This is one of the most direct and safe routes to the East, and this step places it in the very first rank in point of elegance and perfection of accommodations. Without doubt it will early become the most popular line in the West with the traveling public. The Horton reclining chair is immeasurably superior in point of comfort and ease of management to all others now in use, and those placed in the Hannibal and St. Joe cars are of the finest workmanship and materials; but to the traveling public it is useless to speak of the excellence of these chairs. They have proved so entirely successful, and so fully meet the wants of the traveling community, that they have become a necessity. Mr. H. D. Price, the efficient passenger agent of the Hannibal and St. Joe road, in this city, furnishes the information that these day coaches will be placed on the road, this week. We commend this route to those going east, who wish to secure comfort, safety and expedition. -Kansas City Journal, Feb. 9

JOE. PLANT SHADE TREES. Not long since we copied an item from the Manhattan Industrialist, giving some good advice about planting trees around the country school-houses, which we hope will be followed; and right here we want to say something about tree planting within our city limits, where it is even more neglected than in the country. We have often urged upon our citizens the importance of setting out trees around their homes, and a few have profited by our advice. There is no reason why Cottonwood Falls should not be a beautiful city in a few years. We have a commanding site and a goodly supply of creditable buildings; but there is a deplorable lack of trees; and we want to urge upon every one owning a city lot to plant trees on it, and along the street in front of it, this spring, without fail. The cost is merely nominal—a dollar's worth of trees, together with a little enterprise, will make any house, no matter how small, look homelike in a few years. Trees make the streets look pleasant and attractive, and set off the buildings, to say nothing of the sanitary advantages they assure. It would not hurt the appearance of either the court-house or school-house to have trees growing around them.

ATTENTION, TOWNSHIP OFFICERS. To the Editor of the Courant: It you will permit me through the medium of your paper, I will call the attention of our township officers to a law that seems to be

KEEP OUT. COTTONWOOD TOWNSHIP, February 14, 1880. Pursuant to a call made by a number of the citizens of Cottonwood township a large number of the stock men and farmers met at the school-house in District No. 13. The house was called to order by F. H. Barrington. Geo. Smith was chosen Chairman, and F. L. Drinkwater, Secretary.

The object of the meeting was stated by the Chairman as being for the purpose of considering the subject of the importation of stock into Cottonwood township from other districts, for summer grazing. The subject was discussed by several gentlemen.

On motion, F. L. Drinkwater, F. H. Barrington and J. B. Furgerson were appointed a committee to draft resolutions.

After an intermission of twenty minutes the house was called to order. The report of the committee was called for, and the following

preamble and resolutions were read and adopted:

WHEREAS, It is becoming customary, each succeeding spring, to import large herds of cattle into Cottonwood township from adjoining counties, for the purpose of grazing them through the summer; and whereas the citizens of this county frequently take cattle to herd, and, in many instances, let them run at large, and thereby destroy the tall crops; and whereas hogs were introduced, last season, to add to the destruction; therefore,

Be it resolved, by the citizens of Cottonwood township, in convention assembled, That the said imported stock is becoming both a private and public nuisance; that it adds nothing to the wealth of Chase county, and detracts much therefrom; that it is a great detriment to every tax payer; that we are singly and collectively opposed to such measures; and that we will use every honorable means in our power to arrest the increasing evil; and,

Be it further resolved, That a copy of these proceedings be sent to the Chase County COURT, the Chase County Leader, the Florence Herald and the Peabody Gazette; and that they be requested to insert the same in their columns.

On motion, the meeting adjourned sine die. GEO. SMITH, F. L. DRINKWATER, Chmn. Secretary.

EXECUTOR'S NOTICE. All persons interested in the estate of Mrs. Jane Miller, deceased, will take notice that the undersigned was, on the 7th day of February, A. D. 1880, appointed by the Probate Court of Chase County, Kansas, as executor of said estate, under the will of

MICHAEL ROBERTSON, February 16th, 1880. Executor.

ADMINISTRATOR'S SALE. Notice is hereby given that F. L. Drinkwater, the Administrator of the estate of H. E. Drinkwater, deceased, has filed in the office of the Probate Judge of Chase county, Kansas, his petition as such Administrator for authority from the Probate Court of said county to sell, for the payment of the debts of the estate of the said deceased, the following described real estate belonging to the said estate, to-wit: the northeast quarter (4) of the north west quarter (37) of section thirty-six (36), in township twenty (20), range five (5), in said Chase county, Kansas; and that the same will be heard and passed upon by the said Court at 10 o'clock, A. M., on the 30th day of March, A. D. 1880.

entirely overlooked. Section 30, chapter 89, General Statutes, makes it the duty of Road Overseers to make a report, before the 20th of March, to the Township Trustee, giving the names of all persons subject to the two days' road tax, for the preceding year, the names of those who have worked out said tax, and of those who have paid in money, and the names of those who are delinquent; and also all money received and paid out, &c. A failure to comply with this Section makes such Road Overseer liable to a fine of not less than \$5, nor more than \$50.

The Township Trustees and Township Auditing Boards violate the law by settling and paying the Supervisors' accounts before they comply with said Section thirty. This same section makes it the duty of the County Attorney to prosecute all violations of the road laws; and therefore, I shall insist that these laws be complied with before March 20.

DO YOU TAKE YOUR COUNTY PAPER? The Springfield Record tells the following as an illustration of the importance of every man taking his county newspaper: "One of our oldest and most highly esteemed patrons told us, a few days ago, that one issue of the Record saved him fifty dollars. We know of another man in our county who lost nearly a hundred by not taking it, and just as soon as his attorney's asked him: 'Don't you take your county paper?' he realized its worth and acknowledged in the attorney's presence that had he been a patron he could have obtained information which would have saved him the above amount. He marched direct to the office and said, 'From henceforth I shall take your valuable paper.'"

What a Single Bean Can Produce.
The history of a single bean, accidentally planted in a garden at Southbridge, Mass., is traced by a newspaper correspondent, who figured out its produce for three years. The bean was planted in a rich, loamy soil, and when gathered in the autumn its yield, as counted, "was 1,515 perfectly developed beans from a single stalk. Now if a single bean produces 1,515 beans, and each bean produces 1,515 more, the sum total of the second year's product would be 2,295,225, equal to 1,195 pounds, 507 quarts, or 2,390 army rations equal to eighteen and five-eighths bushels. This would be the product of the second year. Now, if we plant this product of the year in the same way, we have a product of 5,283,058,800,625 beans, equal to 1,371,800 tons, or 42,871,572 bushels, or 548,756,698 soldiers' rations. This third planting would give the steamship Great Eastern ninety-two full freights." Few beans, however, start so well as this one did.

A NUMBER of Irishmen hold commands in the armies both of Chili and Peru. The chief officer of the Peruvian artillery is a Col. Married Fourteen Times.
(Little Rock Gazette.)
There is no one in Morrilltown, Conway County, a woman who has been married fourteen times. She is now 65 years old and, matrimonially speaking she has been remarkably successful. Her fourteenth husband is now living, but it is not known how soon he may drop off, and considering the epidemic that has reigned among his predecessors, his position is one of extreme danger. In the hall of the house where the lady now lives there are thirteen pegs driven in the wall, on which hang thirteen hats labeled John, Tom, Abe, Bill, and so on.

A Household Need.

It is the duty of every person who has used Beecher's German Syrup to let its wonderful qualities be known to their friends in curing Consumption, severe Coughs, Croup, Asthma, Pneumonia, and in fact all throat and lung diseases. No person can, without immediate relief. Three doses will relieve any case, and we consider it the duty of all druggists to recommend it to the poor dying consumptive, at least to try one bottle, as 40,000 dozen bottles were sold last year, and no one case where it failed was reported. Such a medicine as the German Syrup cannot be too widely known. Ask your druggist about it. Sample bottles to try sold at 10 cents. Regular size 75 cents.

Hall's Balsam
Cures Croup, Pneumonia, Bronchitis, Asthma, Croup, Whooping Cough, and all diseases of the breathing organs. It soothes and heals the membrane of the Lungs, inflamed and poisoned by the disease, and prevents the night sweats and tightness across the chest which accompany it. Consumption is not an incurable malady. Don't despair of relief, for Hall's Balsam will cure you, even though professional aid fails.
Henry's Carbolic Salve is used extensively in hospitals, and is found to be not only a thorough purifier and disinfectant, but also the most wonderful and speedy healing remedy ever known. Heals cuts, burns, sores, pimples, and all skin diseases. Ask for Henry's and take no other.

The Kansas Agriculturist
is a paper that every worker ought to have. The farmer and horticulturist finds ample food for thought in its well filled pages. The wool growers and stock raisers are not forgotten by its publishers. Its news columns are well filled whilst the literary and editorial articles are the best. The farmers like the paper because it gives them an agricultural and newspaper combined in one. It has a large circulation, and is a good advertising medium. The subscription price is \$1.50 per annum, or by clubbing you can get 10 copies for \$12.50, 20 copies for \$20.

Free of Cost.
As you value your existence do not fail to improve the present opportunity of procuring a bottle of Dr. King's New Discovery for Consumption, Coughs and Colds, Asthma, Bronchitis and all Throat and Lung Affections, before it is too late. This is the only remedy you can positively rely on doing as represented. **TRIAL BOTTLE FREE.** Regular size one dollar. For sale by all druggists.

Montreal Heard From.
R. L. Mosely, of Montreal, Canada, certified Sept. 27, 1879, that he had suffered terribly from dyspepsia, and was completely cured by taking Warner's Safe Bilets. He says: "My appetite is good, and I now suffer no inconvenience from getting heavy meals." These Bilets are also a specific for all skin diseases.

A Rochester Physician's Experience.
Dr. Calkins, M. D., of Rochester, N. Y., certifies October 6, 1879, that he has used the Safe Kidney and Liver Cure in his practice for diseases of the kidneys and liver, and the results have been satisfactory in the extreme. He says: "I would now prescribe the same remedy to all similarly afflicted, and you are at liberty to so state in your testimonials."

ELECTRICITY is now acknowledged the greatest creative of chronic disorders, entirely superseding medicines when intelligently applied in cases of Nervous Debility, Impaired Physical Energy, Impotency, Organic Weakness, Paralysis, Brain Trouble, etc. Dr. Bryant's Electric Belt and appliances evolve a continuous current of electricity when applied to the body and are the only genuine. Illustrated pamphlets may be had by addressing the Bryan Appliance Co., No. 2, Bond Street, New York City.

An Accidental Cure.
When death was hourly expected from Consumption, all remedies having failed and Dr. H. James was experimenting he accidentally made a preparation of Indian Hemp, which cured his only child, and now gives this recipe free on receipt of two postage stamps to pay expenses. Hemp also cures night sweats, nausea at the stomach, and will break a fresh cold in 24 hours. Address Craddock & Co., 1032 Race Street, Philadelphia, Pa., naming this paper.

Consumption Cured.
An old physician, in practice, having had placed in his hands by an East India missionary the formula of a simple vegetable remedy for the speedy and permanent cure for Consumption, Bronchitis, Catarrh, Asthma, and all Throat and Lung Affections also a positive and Radical cure for Nervous Debility and all Nervous Complaints after having tested its wonderful curative powers in thousands of cases, has felt it his duty to make it known to his suffering fellows. Attended by his motive and a desire to relieve human suffering, I will send free of charge to all who desire it, this recipe, in German, French or English, with full directions for preparing and using. Sent by mail with postage stamp, naming this paper. W. W. STEWART, 149 Powers' Block, Rochester N. Y.

A Rothschild Autograph.
A sale of autographs at Frankfort-on-the-Main recently brought to light a letter from A. M. Rothschild, the celebrated founder of the house of the same name. The letter is addressed to the Russian minister and dated 1804. The autography has nothing remarkable in itself, but the sentiments expressed by the great banker are worth quoting. These are as follows, fully explaining themselves: "So his grand-ducal-highness is not preparing for the payment? It seems that he believes that a prince is not obliged to be exact in paying up; if that were so, I confess that, although I am well satisfied in my humble position, I should like to be prince for one single day—the settlement day of the third week of the fair (the banker alludes either to the Leipzig or Frankfort fair of his time) in order not to be obliged to pay. But that is not the way that things are arranged. I have to make my payments exactly, even if it costs me everything that I possess in the world. I hope, therefore, that a prince will be obliged to do the same. If a prince enjoyed such immense privileges no one would be able to exist. I assure you that the money preserves my honor, and my honor is my life. He who does not pay my money takes away my honor." History doubtless records the fact that the prince paid up after this admonition. But the autograph his dumb on the subject.

Last Days of Ex-Sec. Borie.
Philadelphia Special to N. Y. Times.
Although not unexpected, the death of Hon. Adolph E. Borie, this morning, caused great regret here. For several years Mr. Borie has been in delicate health, but it was only a month ago that he became seriously ill. On Christmas he took dinner and spent the evening at the residence of George W. Childs, in company with Gen. Grant and family. That was the last time he went to any social gathering, and it was the last time he saw Gen. Grant. He became too ill to leave the house, and keenly felt the disappointment of not seeing his friend depart as he had seen him arrive. A few days after he became so weak that he was unable to get out of bed, and since then he has gradually gone down, despite the exertions of Dr. De Costa and Drs. V. and J. M. Keeting, who were his attending physicians. He seemed to be suffering from no disease that could be checked. It was a gradual wasting away from lack of vitality. He did not suffer, and he died easily and peacefully. In the early part of the present week there was a noticeable improvement in his condition, and hopes were entertained that he might rally. Mr. Borie made part of the tour of the world with Gen. Grant, but his ill-health compelled him to return home last June.

This Syrup Possesses Varied Properties. It stimulates the Pyraline in the Saliva, which converts the starch and sugar of the food into the blood. A deficiency in this process causes Wind and Scouring of the food in the stomach. If the medicine is taken immediately after eating the fermentation of food is prevented.

It acts upon the Liver. It notes upon the Kidneys. It regulates the Bowels. It Purifies the Blood. It Quiets the Nervous System. It Promotes Digestion. It Nourishes, Strengthens and Invigorates. It carries off the Old Blood and makes room for the new. It opens the pores of the skin and induces Healthy Perspiration. It neutralizes the hereditary taint, or poison in the blood, which generates Scrophulous, and all manner of skin diseases and internal humors. There are no spirits employed in its manufacture, and it can be taken by the most delicate baby, or the aged and feeble, care only being required in attention to directions.
