The motto of the Kaw Valley Chief is "Pay the Printer."

The Iowa Greenbackers elected one member of the State Senate and one Representative.

Mr. Williams, colored Representative-elect from Hamilton county, Ohio, was scratched by 2,265 radical voters.

For the year ending March 1, 1879, dogs killed 8,025 sheep in Kansas. Very lively dogs. Like United States bonds, dogs are not taxable property, hence their business propensities.

The Atchison Patriot, one of the most lively Democratic papers west of the Mississippi river, and one which every Democrat in Kansas should take, entered the thirteenth year of its publication, last Saturday.

The Cincinnati Enquirer recognizes, at last, that there is no available Presidential timber in Ohio. It says: "Either New York or Indiana must furnish the Democratic candidate for the Presidency. Poor Ohio is left out in the cold."

In ten years only 218 persons were killed and 2,158 injured in accidents on the railways in France. In one year none were killed, and in seven others only from one to seven a year. This shows extraordinary care and system in railway management.

On only three occasions in forty-seven years has Ohio cast her Electoral vote for the Democratic candidate for the Presidency, Andrew Jackson, Lewis Cass, beaten by the Whig party, Zachary Taylor, and lastly, twenty-seven years ago, for Franklin Pierce.

The late Dr. Ayer's daughter is to marry Prince Philip, of Aquila, a Bourbon, and a nephew of Dom Pedro, of Brazil. She is said to be worth \$5,000,000 in her own right, and is said to be, in other respects, a very fine lady. Great are pills and cherry pectoral!

The vote cast in Ohio, October 14 for State officers, has been officially counted, with the following result for Governor: Total vote, 671,462, divided as follows: Foster, Republican, 336,261; Ewing, Democrat, 319,132; Stewart, prohibition, 4,145; Pratt, National, 11,924. Foster's majority over Ewing, 17,129.

It is this reason, then make the most of it: "God speed the day when the maxim, 'This is my country—all my country—every section, every State, every acre of soil over which the flag of the Republic floats—shall be embraced by every American freeman, not only as a geographical, historical and political fact, but as a living, potential, inspiring sentiment.'—John P. Gordon, rebel Brigadier and Georgia's U. S. Senator

The Mobile Register thus tersely states why the South is solid and why the North never will be: "The South is solid because we of the South are the peculiar victims of Republican policy, which actually subjected, for six mortal years and which would subject again, property to pauperism, intelligence to ignorance, honesty to theft, and peace to anarchy. The North is not solid and can not become so, since the theory of government which the Republican party would apply to the South strikes at the liberties of North and South alike."

The Walnut Valley Times, Hon. T. B. Murdock's paper, wants a Republican party in Kansas. In a lengthy editorial on the subject, it says: "For twenty years or more we have had a conglomeration of bummers, and bursted politicians of other States, who, by uniting with the honest and true Republicans of our State, have succeeded in running a machine that they are pleased to call a Republican party. Here is a frank acknowledgement by a Republican paper that the Republican party in this State is run by bummers and bursted politicians. If the Republican party of Kansas sees fit to let bummers and bursted politicians run their "machine," whose fault is it? The honest men, if they have the good of the State at heart, should come out of such a party."

A Washington special to the St. Louis Republican says: "Members of the Senatorial Investigating Committee, which has been out to Kansas inquiring in the manner by which Senator Ingalls was elected, have arrived here on their way home. Chairman Saulsbury says that, of course, nothing can be said as to the character of the report to be submitted to the full committee. It may be stated, however, that there is a strong probability that more testimony will be taken in the case by the full committee, which meets in December. Ingalls' statement that the sub-committee have unanimously decided to exonerate him can how ever, be set down as one of kind so frequently made by him, last winter, when he was trying very low methods to stave off an investigation."

IMPORTANT DECISION ON FINAL PROOFS.

DEPARTMENT OF THE INTERIOR, GENERAL LAND OFFICE.

WASHINGTON, D.C., Oct. 7, '79.

To Registers and Receivers of the U. S. Land Office:

GENTLEMEN:—It is desired that the testimony offered by pre-emption and homestead claimants at the time of making final proof of their personal qualifications and compliance with the requirements of the law under which they claim, shall be that of disinterested witnesses as nearly free from objection as possible; and, with this end in view, you will reject the testimony of persons who are members of the family of a claimant, except in cases where it is impossible or impracticable for the claimant to furnish other testimony. In such cases, upon their making affidavit of the facts, showing to our satisfaction the impossibility or impracticability of furnishing other testimony, you may receive such testimony as they may be able to procure, using great care to elicit from the witnesses the true state of facts relative to the claimants' right to make the desired entry.

In contested cases, the testimony of relatives should be received, but it will be considered only in so far as it corroborates, or is in accordance with the general tenor of the evidence of disinterested persons.

Very respectfully, J. M. ARMSTRONG, Acting Commissioner.

BOY LOST.

Probate Judge Carey has received a letter from Mrs. Mattie Jones, of Council Grove, in which she relates that her little son Willie, aged thirteen years, ran away from home, last Thursday, and has not since been heard from. She received information that he had gone to Junction City, but later news tends to show that he came to Topka. The lady is greatly distressed over the loss of her boy, and any information which may lead to his restoration to her will be gratefully received. Judge Carey will transmit any tidings which may be reported to him. The boy has dark hair, large dark eyes, a round face, is quick spoken, and has a fashion of banging his head when speaking to strangers.—Topeka Commonwealth.

WESTERN STAR CARRIAGES. Sedalia, Mo., 1879.

A full line of carriages, of first class material and workmanship, substantial and elegant, is now offered at prices to correspond with the times and with the decline in all other things. A good, well made, stylish buggy, with leather trimmings, oil tempered springs, sarven wheels for \$110; With leather top and rubber back and side curtains \$150; A Phaeton with lamps and fenders \$180, and all other carriages in proportion. All fully warranted.

In nothing else has the decline in prices been so slowly accepted as in carriages. The dread of unsafe work, dangerous and dear at any price, has forced many to use carriages at very dear prices, or clinging to the saddle.

But now, by the use of perfected machinery, we can furnish a carriage strong as the strongest and at a fair price. The Anchor Brand Axles and the Sarven Wheels insure strength, and all can see that they are getting in other respects just what they want.

We use the Anchor Brand Axles, the Sarven Wheels, Oil tempered Springs, the best Swedes Iron for the Iron Work and Second Growth Hickory for the Wood Work; and we offer a Buggy that will run with the greatest ease to both horse and rider, and that will out wear two clumsy vehicles made by ordinary workmen. We furnish just the article wanted and every test is wholly satisfactory.

Piano, Coal Box or Drop Front Buggies, as preferred. Agents wanted. Where there are none, we will give the first purchaser the agent's discount of 30 per cent.

Mode of buying: Deposit the price in the bank, and send us a certificate that you have done so, and the carriage will be sent as you direct. On its arrival, if you are not suited, you can return it by

Clergymen and useful institutions favorably considered.

To CARRIAGE MAKERS: You know that if the wheels are "Sarven" and the axles "Anchor Brand" the strength is there. They are all right and the carriage is likely to be all right. We can furnish you a carriage made by the best machinery better than you can readily make, for less money. It is of the best style, materials and workmanship; but it lacks the hand finish given to the most expensive work. This you can add. You can take off the rubber curtains and put on leather; the paint has a solid lead body and you can rub down ten or twenty more coats; and then you will have an article better than your own, touched up to suit your customers, which will give better satisfaction and more profit than your own work. Bond and Bridge Election.

Whereas a petition was presented to the Township Trustees, Clerk and Treasurer of Falls township, in the county of Chase, and State of Kansas, praying that the question of building a bridge across the Cottonwood river, on the road leading from Cottonwood Falls, by way of what is known as the Cahoon fork, of the Cottonwood river, in said township, to the southern corner of section 12, township 12, range 7 east, and intersecting a county road running up Hamond creek, at or near the southeast corner of section 12, township 12, range 7 east, said Cahoon fork, on said river, now on the lands of R. N. Simmons and Robert Clements, where said road crosses said Cahoon fork, and also, the proposition that the township issue four thousand dollars in bonds bearing not more than seven per cent interest, to pay for building said bridge, and that said bonds shall not run longer than five years, and, whereas, at a meeting called for the purpose, it was found that said petition contained the names of two-thirds of the qualified voters of Falls township, as required by law, and that the voters given for and against the proposition, as follows: For said vote, for the proposition shall have printed or written on their ballots the words "For the Bridge and Bonds"; and those voting against the proposition shall have printed or written on their ballots the words "Against the Bridge Bonds."

A LIBRARY OF UNIVERSAL KNOWLEDGE.

Volume two of this very excellent, and from an economical point of view, extraordinary work, was issued October 25. Its 736 neatly printed and well bound pages contain a wealth of knowledge, covered by the alphabet between the words Arancel and Bron, such as, it is safe to say, was never before procurable for the trifling sum of 50 cents! The 20 volumes, complete, contain over 4,000 distinct articles, and nearly as many more incidentally mentioned subjects, with complete index, are sufficient of the subject to afford a liberal education to any one of limited resources. As a matter of course, they are finding their way into the hands of hundreds of thousands of those whose love of knowledge has exceeded their power to buy it at the great prices charged for encyclopedias heretofore published in this country, none of which equal this in the amount of matter given. Volume three will be ready early in November, and the remaining volumes will appear about two each month thereafter. The publishers will send a specimen volume, which may be returned if not wanted, to any part of the United States, for the price, in cloth, 50 cents, half morocco, 75 cents, or extra fine heavy paper, wide margins, bound

WHITE BRONZE

MONUMENTS AND STATUARY, MEDALLIONS, PORTRAIT BUSTS, & C.

Cemeteries, Public and Private Grounds. A Few of the Advantages White Bronze Possesses over Stone Monuments and Headstones.

- 1st. Age will not impair their beauty. 2d. There being no deterioration in their value, they always have in them the same amount of money's worth, while, with marble, or even granite, what you put in at great expense, may, in a few years, become of little or no value, as defective headstones and monuments in every cemetery bear witness. 3d. The designs are far more elaborate and beautiful than can be made in stone at double the cost. 4th. Beautiful emblems full of meaning can be set on our large list without extra cost. 5th. The most delicate lines and sharp lines will not chip nor lose a particle of their beauty. 6th. The inscriptions, without a titanic expense, are all in raised or black letters which can not be broken off, even with an axe; while the letters of the front and constant disintegration on raised letters of stone ultimately on storage decay. 7th. The Tablets are changeable, and the old can be removed for new as occasion requires, with but trifling expense. Purchasers of these monuments do not need to send for a stone cutter to chisel in the inscriptions, as they send from our office a ready-made tablet, ready for the inscription plate, giving the number of monument and tablet required which will come by express; then with the aid of the socket wrench (which comes with every monument) the old tablet can be taken off and replaced with the new, and not requiring the labor of five quarts, then return the old tablet to the manufacturer and receive credit for it. 8th. Our monuments being Double Fronts or Slabs, inscriptions can be put on the backs equally as well as on the fronts, and thus do for two or over four graves. 9th. The Slab Monuments have from four to eight Tablets. All are filled, when made, with inscriptions, notices, or emblems, which can be removed as desired without marring the beauty of the monument. 10th. The price, we think, will average about the same that marble is usually furnished. If Stone Monuments were as beautifully carved as the White Bronze are, they would cost double the price of many of our designs. The durability of the White Bronze Monuments enhance their value to that of stone beyond comparison. 11th. They are easily—and if properly set—are as firm as if grown to the earth, and as enduring as the everlasting hills. 12th. They are boxed and shipped complete to set in cemetery, and not being as heavy as stone are more easily handled, and freights much less. In fact they have all the virtues without the vices of all monuments of stone, and we may feel that we can truthfully and conscientiously say without fear or favor, and back it by scientific facts, as well as historical data, that the White Bronze Monuments are the BEST IN THE WORLD. Thousands of purchasers already bear witness to the above. For full particulars call on or address,

TIMBER CULTURE ACT.

The Bollet Courier says that the Secretary of the General Land Office at Washington says in the timber culture act, 'timber means such trees as pine, oak, ash, maple, elm, walnut, hickory and other timber trees that can be saved up into lumber, or used for constructing wagons, carriages, etc; that cottonwood, willow and such other wood varieties can not be considered as timber; for, while the necessities of the settler may compel him to use such varieties for building and construction, yet they are not properly timber trees.' The distinction is here made between an ornamental and a timber tree. The Courier says that many persons have, supposing they were within the law, grown cottonwood and other soft wood varieties, and ask if they will get a deed under this construction.

THIS PAPER IS ON FILE WITH

Ayer's Hair Vigor,

For restoring Gray Hair to its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effective for preserving the hair. Faded or gray hair is soon restored to its original color.

Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous, and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a

HAIR DRESSING,

nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich, glossy lustre and a grateful perfume.
