

# April Rainfall Here Is 7.25 Inches

## 13.07 Inches Recorded For Four Months

Rainfall recorded here during the past week, from Wednesday noon last week through Tuesday of this week, measured 1.87 inches, bringing the total for the month of April to 7.25 inches, it was revealed by Harry Allen, weather observer for Goldthwaite.

His report shows rainfall during the week as follows:

Wednesday p.m. April 24	.01
Friday, Apr. 26	1.00
Saturday, Apr. 27	.42
Sunday, Apr. 28	.16
Monday, Apr. 29	.09
Tuesday, Apr. 30	.00
Total	1.87

The record shows that rainfall recorded here during the four months period, January through April, measured 13.07 inches which is 4.56 inches over the long term average normal rainfall according to the weather bureau.

Following is a comparative report of average long term normal and rainfall recorded here covering the four month period this year.

Month	Nor. Av	1957
January	1.83	1.09
February	1.51	1.27
March	1.57	3.46
April	3.60	7.25
Total	8.51	13.07

Total rainfall recorded here for the entire year 1956 measured only 17.81 inches, or 12.33 inches short of the long term normal average of 30.14 inches.

### Planting Started At County Park Monday

Last Monday morning, members of the Goldthwaite Garden Club, city employees, the Cockrell Bros., and R. L. Burdette met at the County Park. In spite of the rain, Mr. Burdette used his machine for digging holes, W. C. Barnett and crew planted sixteen pecan trees with the assistance of the Cockrell Bros. They also staked off areas for other planting with special emphasis on the Swimming Pool entrance on the San Saba Highway and the east entrance on the Lampasas Highway.

The park is in the process of being mowed and cleaned with full scale work starting Wednesday of this week, weather permitting, according to an announcement by Mrs. T. M. Glass.

Mr. and Mrs. Oscar Burns have returned home after a visit to their daughter, Mr. and Mrs. Billy E. Hightower and family in San Antonio. While there they attended the Battle of Flowers on Friday and Saturday of last week.

This five generation picture was made recently in Brownwood when the son and grandsons of S. J. Tullas visited him. They are left to right S. J. Tullas, 95 years and three months of age; his son, J. Y. Tullas of Goldthwaite; Earl Tullas, of Fort Worth, son of J. Y., Billy Tullas and son David of Austin, son and grandson of Earl.

### Work Days At County Park, And Barbecue, Postponed Another Week

Work days which were scheduled at Mills County Park Wednesday and today and the barbecue which was scheduled for 6:30 this evening have been postponed one week, to next Wednesday and Thursday, it was announced as the Eagle went to press.

Ray Duren, chairman of the park board, made the announcement after a committee meeting was held Wednesday morning to discuss the change which became necessary due to heavy rains during the last week and Wednesday morning.

The committee has announced further that one hundred volunteer workers will be needed next Wednesday afternoon from 4 to 6 o'clock when a concerted effort will be made to clean up the park. Those who can are urged to bring power mowers, weed slingers and other tools. Workers from all Mills County are invited to take part in the project. The park is a county project and is being used for picnics and family reunions by large numbers of county citizens as well as tourists.

The clean-up drive is being spearheaded by members of the Garden Club which is sponsoring landscaping of the park, and the Lions Club whose members are heading the clean-up campaign during the two days.

Plans for the barbecue were changed after reported last week and instead of being served by a catering service it will be prepared and served by local committee worked out between the Lions Club and the park Committee.

Tickets for the benefit barbecue are being sold by committee of garden club members headed by Mrs. Howard Campbell.

So, everyone is urged to remember next Wednesday and Thursday clean-up days at Mills county park and benefit barbecue dinner Thursday evening at 6:30 o'clock.

### LOCAL MEN SAVE MAROONED SHEEP

About 4:30 o'clock last Sunday afternoon, Deputy Sheriff Clyde Cockrum, called Ray Duren to take his boat to G. T. Feazle's place on the Colorado River for a job of rescue work.

On arriving at the river, Ray and Clyde found about 45 head of sheep marooned on a small island in the flood water. They tried putting the sheep in the boat, but wound up by herding them into the shallow water where other men could catch, and carry them to high ground. They lost three or four head of sheep in the process of moving them to higher ground.

Recent guests of Mr. and Mrs. Ray Hamond were their daughter, Mrs. Doyle Duncan, Mr. Duncan and children, Kay and Allen, of Midland.

Visitors in the Ray Hammond home during the recent Easter Holidays were Mr. and Mrs. Bill Hammond, Susan and Loretta of Midland; Mr. and Mrs. Jesse Hammond and Mr. and Mrs. Joe Hammond of Waco.

Mrs. Vera Doggett is attending the San Antonio District Assembly and also the N. F. M. S. Convention this week in Austin; having been appointed Delegate from The Church of The Nazarene by the District Superintendent, W. H. Davis.

### Laymen's Revival Continues At Star

The Laymen's Revival of the Star Baptist Church, which began last Sunday, will continue through Sunday, May 5. The following local laymen of the First Baptist Church here will conduct the services. This evening, Harold D. Roberson; Friday evening, J. D. Berry; Saturday evening, Charles Haenish; Sunday morning, J. D. Harper and Sunday evening, Frank Bowman will be the speaker.

Song service and special music will be under the direction of D. W. Arnold and Floyd Spradley.

The public is cordially invited to attend this meeting.

### J. Hern Harris Long Time Resident Dies Tuesday

J. Hern Harris, long time resident of Goldthwaite and a former sheriff of Mills County, passed away suddenly in a Brownwood hospital, Tuesday afternoon.

As the Eagle went to press details were incomplete but funeral services will be conducted at the First Methodist Church of Goldthwaite at 2:30 o'clock this afternoon (Thursday).

### Final Effort Is Made To Reach Red Cross Quota

A final last ditch effort is being put forth this week to try and reach the goal for the 1957 Red Cross drive for Mills county it was announced Wednesday morning by campaign director G. C. Head.

Two hundred and fifty letters are being mailed to Mills county residents who were missed in the regular contact work of the committees and have not had the opportunity to make their contribution. These letters will go to every section of the county in the hopes to raise an additional five hundred dollars and reach the goal of \$2,067, set for the county this year.

According to last reports from the committee chairman \$1,506.42 has been contributed to date.

In checking records it has been found that a number of local business establishments have not contributed as yet. Those in charge of contact work realize that some were missed when they called and it is hoped that these will mail their contribution to chairman G. C. Head or to Glynn Collier at Mills County State Bank.

With the present storm and flood disaster throughout Texas additional funds will be needed by the Red Cross to carry out the needed disaster relief work. This places a greater need than ever on the organization and Mills County Red Cross Chapter officials are urging everyone to do their best in this special last minute call for funds.

Mrs. Viola Townsen of Star is visiting her cousin, Mrs. Florence Lasley this week.

### Disaster Warning System Discussed At Civil Defense Meeting Tuesday

The need for a large number of volunteer workers in the Civil Defense Ground Observers Corps was pointed out by county CD officials Tuesday afternoon at a special Civil Defense meeting when the matter of a disaster warning system for Mills county and Goldthwaite was discussed.

County Civil Defense Co-ordinator County Judge John L. Patterson and Sheriff C. F. Stubblefield called the meeting.

### Bloodmobile Coming May 16

The next official visit of the Red Cross Bloodmobile to Goldthwaite will be on Thursday May 16, it was announced this week by Norman Duren, blood program chairman, for Mills county.

Mills county residents should be interested in the fact that so far this fiscal year there have been two visits to the county by the Bloodmobile and both trips fell far short of the goal in number of pints of blood donated.

In the two previous visits here 70 pints was set as the quota for each visit towards the annual quota of 180 pints. On the first visit 28 pints were donated and on the second only 27 pints, making a total of 55 pints which is short 125 pints on the year's quota, with one more visit to go.

That means a lot of residents of Mills county will have to rally to the cause if the blood program is to be maintained and Mills county is to continue to be included in it.

### More Boys Needed For Four Little League Teams

There was a nice turnout at the local ball park Saturday afternoon, with 42 Little Leaguers out, according to an announcement by L. J. Ward. This is still not enough boys to make up four teams, so the managers are asking once again for all boys and their managers to be at the Park Saturday, May 4, at 2:00 p.m. Boys are asked to bring their gloves. If the weather permits the boys will work out. Last Saturday, suit measurements were taken for all boys present.

### MOMS VS POPS SATURDAY MAY 11

Don't forget May 11, for that is the date to see Mom beat the sox off of Pop. There has been some discussion about practice, but Mom says "she can beat Pop with out practice." So gather up the family and come out to the ball park on May 11, to see this benefit baseball game and help finance the uniforms for the little league players.

Mrs. T. M. Glass and Mrs. Jim Weatherby judged the Town and Country Garden Club Flower Show at Coleman last Saturday.

of CD workers from over the county. It was held in the commissioner's court room in the courthouse with sixteen attending.

A committee was named to study a possible disaster warning system, or signal, locally. Named on the committee were the following: C. F. Stubblefield, chairman; Wm. G. Yarborough, W. C. Barnett, Ray Duren, Jack Reid and Judge Patterson.

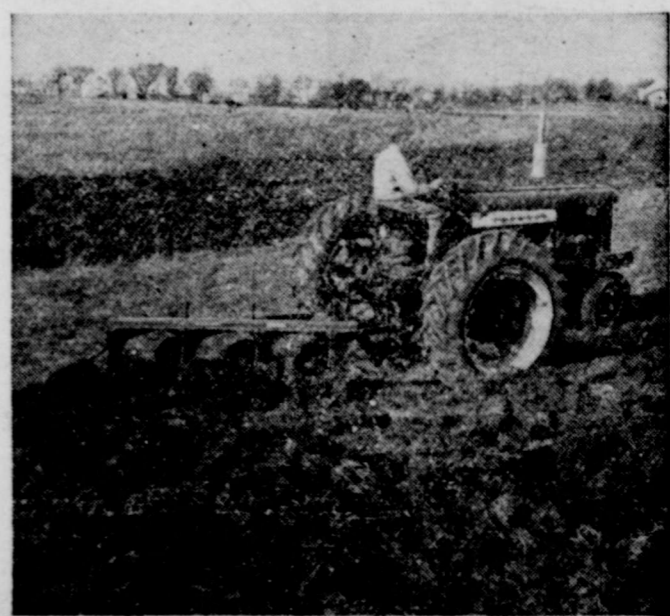

Residents from throughout the county are reminded that in case of a disaster they can make report to proper officials by telephoning two numbers in Goldthwaite. These numbers are 52 and 256. Civil Defense and Red Cross officials will work hand in hand in case of disaster effecting this area.

T. M. Glass and Harold Yarborough who have served the past year as Post Supervisor and Assistant Post Supervisor, respectively, for the Goldthwaite Ground Observer Corps have asked to be relieved of their duties and Judge Patterson is working on plans at this time to appoint successors.

Officials pointed out that a large number of volunteer workers are needed to man the GOC on an around-the clock basis. They must be available to serve subject to call at any hour.

Attending the meeting Tuesday afternoon were the following:

Joe Green, Center City; Harmon McCasland, Star; Dick Vestal, Priddy; Leroy Johnson, Democrat; W. C. Barnett, Ray Duren, Harold Yarborough, Jesse Moreland, W. P. Duren, Floyd Langford, John L. Patterson, Jack Reid, Clyde Cockrum, Vic E. Koleber, T. M. Glass and Howard Campbell, all of Goldthwaite.

### NEW TRACTOR INTRODUCED

Pictured here is one of the new 1957 Farmall line of tractors which are now being shown by International Harvester dealers everywhere. The "450" is shown here with the new Fast-Hitch with Traction Control pulling the new McCormick four-bottom plow.

Duren Equipment Company, International Harvester dealer for this area, is inviting everyone to the big 1957 New Tractor Introduction and demonstration this week Friday at Third and Parker Streets, in Goldthwaite.

In addition to the display and demonstration of the new tractor line they will also have on display large stock of other farm equipment.

Demonstration will take place from 10 a.m. to 5 p.m., This Friday according to announcement by Norman Duren, in extending the invitation to the public for this special event.

In addition to the introduction of tractors and equipment, and the demonstrations, there will also be refreshments served all day at Duren Equipment Company.

## SOLILOQUY

Gerald Gene Hale, two year old son of Mr. and Mrs. Billy Hale, had a brand new experience the other day. He and his mother were visiting at the Floyd Spradley home on Hannah Valley Road where Gerald was enjoying himself with the family pet cat.

As he spent considerable time stroking the cat there started the customary 'purring' as she relaxed in the sunshine really eating up the special attention from Gerald. About that time he ran to his mother and told her this story: "Mamma, the kitty started his motor."

## BULGING MAIL BAGS

"Bulging mail bags crammed with calls from the folk back home to 'cut that budget' are piling into many a congressional office," writes Douglas B. Cornell of the Associated Press. Some of the writers—as is to be expected—want the economy move to be confined to projects in which they aren't personally interested. "But," Mr. Cornell adds, "the general run of merchants, housewives, laboring men, Republicans, Democrats—people of every description—is setting up a howl that the Eisenhower administration's record peacetime budget of \$72 billion is too big and that taxes are too high."

It is reported that Secretary of the Treasury Humphrey is getting 1,700 letters a day of this nature—the greatest response to any public question since he took office.

So much for the tide of public opinion. Can the budget be cut substantially?

The Citizens Public Expenditure Survey has gone into the budget in detail and states that it can be reduced by more than \$4.5 billion by cutting non-defense spending back to the level of three years ago, without touching any defense spending.

Senator Byrd, a recognized Congressional authority, believes that a \$5 billion cut is possible, and he intends to show Congress where and how.

Other studies have produced similar opinions.

John S. Knight, of the Knight Newspapers, has this important comment: "We can't curb inflation by telling labor and industry to be good boys, or urging economic discipline upon the individual, if the government goes all out for the bigger and better spending."

☆☆☆

Mike Conradt, young son of Mr. and Mrs. Charles Conradt, is in his first year of school and along with that experience he is also experiencing a few other facts of life.

One of these experiences of recent date was his encounter with Chicken Pox.

After he spent the customary number of days at home on the sick list he was told he could start back to school. He wasn't completely cleared up from his Pox, but it was time to get back into the groove—school.

When he came home after that first day back to classes he was commenting on the situation and from all indication he wasn't too happy with life. When asked how things went he said: "Not too good, nobody except (and he mentioned a couple of his classmates) who would play with me. And the only reason they played with me was they had 'BUMPS' on them too."

## NEWSPAPER ADVERTISING

"At the retail level, nothing sells like newspaper advertising if the product has newsworthiness, is priced right, and if in-store promotion follows through."

That statement was made the other day by a Philadelphia advertising man, speaking at a sales forum. He gave the example of one of his clients, who gained \$8 million in retail sales over a three-month period for an advertising expenditure of less than \$100,000. He added, "The real payoff of this promotion came as the result of newspaper advertising."

The other and newer media have their place—but they can't supplant the newspaper. That goes for the papers in the little towns no less than those in the great cities. And that same principle works for a little merchant in a small county seat town just as it does for the large retail establishments in the cities.

M. L. Jernigan shipped 11 car loads of cattle to Kansas for grass this week.

Omar Harvey, ex-GI and formerly of Goldthwaite, will open his new variety store on the north side of the square today, May 2. The remodeled red front store building was occupied until some time ago by the late Dr. Campbell.

### 25 YEARS AGO—

(Taken from the Eagle files of April 29, 1932)

Prof. and Mrs. D. A. Newton of Brady were visitors in Goldthwaite Sunday, having come here to meet their daughter, Mrs. McNeill of Valley Mills and Mr. McNeill, who were enroute to Brady to visit them.

Thomas Gatlin of Archer City, brother of the late A. J. Gatlin, with his family visited relatives here last weekend.

Luther Rudd and Cass Bledsoe this week shipped some of the finest and fattest cattle that ever left Mills County, and they were all fed at Goldth-

waite on Mills County corn. Fifty steers went to Chicago. They were on feed here 148 days and their average weight was increased in that time from 1096 pounds to 1581, a net gain of 485 pounds. The calves made even better progress in ration of size. They increased in weight from 356 pounds to 681 pounds, a net gain of 325 pounds. There were 210 calves and they were shipped to Los Angeles, California.

Judge Ocie Speer, a former member of the court of appeals at Fort Worth and later a member of the commission of appeals at Austin, was here last weekend in the interest of his campaign for associate justice of the supreme court. He was a guest in the home of Judge E. B. Anderson, to whom he is related by marriage.

The Mullin School paper, the Tattler, has been highly complimented by the director of the Interscholastic League Press Club of the University of Texas in recognizing it as one of the best school papers in this section. In a letter to Mrs. John M. Scott, sponsor for the paper, Mr. Reddick said the Tattler and the Pecos School paper ranked highest and she was invited to send two representatives of the paper to Austin May 6 and 7 to compete for honors with the entire state. Mrs. Scott will accompany the young people to Austin.

Federal Action May Make Your TV Receiver Obsolete

Government Puzzling Over Current Channel Headache

Special to Central Press Association

WASHINGTON—The way the government solves the current television channel headache could make your present set obsolete. There is increasing pressure on the Federal Communications commission—and on Congress—to wipe out at least part of the familiar channels that appear on ordinary television receivers.

These channels—2 through 13—were born with the television industry and are used by most of the stations that are now broadcasting. However, there aren't enough channels in this very high frequency band to go around for all the potential stations that want to go on the air.

Furthermore, the military is reliably reported to be after the "lower half" of the standard television dial—channels 2 through 6—for jet plane communication and other purposes. Some countries also want to use these bands.

If these channels were pre-empted, some 20 stations would have to find other channels. There is still plenty of room in the ultra high frequency band and some stations are already operating on these channels. However, many complain that they are losing their shirts because ordinary sets require fairly expensive adapters to receive the ultra high frequency picture.

Some viewers complain that the UHF picture isn't as good as the VHF one to start with. Some observers maintain that a widespread switch to UHF would rescue the existing stations using those frequencies by forcing consumers to buy adapters. The FCC is juggling back but has not yet found a fully satisfactory solution.

SPORTS IN CONGRESS—Some key lawmakers look for a change in professional baseball operations in the near future. They think the big leagues must take such action or face the threat of legislation and federal control.

A Supreme Court order placing professional football under antitrust laws put quite a scare in baseball's ruling circles. Although the court didn't include baseball it made clear its view that Congress should take such action.

Legislators took the hint and came up with a fistful of measures designed to make baseball a business, not a sport, under the antitrust statutes. Now some sponsors of such legislation say they expect the big leagues to take action to "clean their own house" without tempting Congress to take direct action. In other words a compromise seems to be in the wind.

STASSEN SPRINGBOARD—Harold E. Stassen, who incurred the enmity of a number of GOP political strategists because of his "dump Nixon" efforts in 1956, has quietly made it apparent that he will continue his political ambitions.

Stassen has agreed to buy a home in the Philadelphia suburban area, strongly indicating that he will seek to run for governor of Pennsylvania.

The one-time governor of Minnesota is expected to resign later this year as disarmament aide to President Eisenhower and bid for the Pennsylvania governorship. If successful, he would be in a strong position for 1960 when the Republicans must select a candidate to succeed Mr. Eisenhower.

**SENTRY DUTY**

IN AMERICA every editor is on sentry duty, guarding constantly against all encroachments on the Freedom of the Press. It has always been like this. Ever since the press battled for and won freedom of expression, its guardians have had to be on the constant lookout for infiltration by the enemies of that freedom. Infiltration—pressure from powerful groups to tone down comment on a situation...pulling of strings to keep a story from being published...predigested propaganda releases.

But the press knows the importance of never giving up its freedom. For on freedom of the press depend all other freedoms that make up democracy. Therefore, the men of America's press refuse to recognize any check—except military security—on complete, unbridled and inviolate freedom to print the truth.

That is the challenge of today to the country and the vigilance of these sentries of America's press.

Mr. and Mrs. Wilburn Hobson Miller

**Miss Peggy Faine Bramblett And Wilburn Hobson Miller Are Wed**

Miss Peggy Faine Bramblett became the bride of Wilburn Hobson Miller in the First Baptist Church of Goldthwaite, Saturday evening, April 20, at 8 o'clock.

The bride is the daughter of Mr. and Mrs. L. B. Bramblett of Mullin and Mr. Miller of the son of Mr. and Mrs. E. H. Miller of Goldthwaite.

The double ring candlelight ceremony was performed by Wayne L. Zuck, minister of the Goldthwaite Church of Christ, before an altar decorated with an arch entwined with brake fern, white roses, wedding bells, baskets of lilies and stocks, candelabras and palms.

Mrs. G. J. DeLapp, organist presented wedding music and accompanied Miss Nelda Lynn Yeager as she sang "Oh Promise Me" and "I Love Thee."

Candles were lighted by Misses Patsy Ruth Miller, sister of the groom and Jan Yeager, cousin of the bride.

The lovely bride was given in marriage by her father. She wore a waltz length Chantilly lace over satin gown, designed with a peter pan collar, long fitted sleeves, pointed bodice back and front, attached to a full gathered skirt. Her shoulder length veil of nylon tulle was attached to a lace and satin crown embroidered in rainbow pearls. She carried a white lace covered Bible topped with a white orchid showered with satin ribbon streamers tied in double lovers knots.

Miss Carolyn Bramblett, sister of the bride was maid of honor. She wore a waltz length gown of pink brocaded nylon over taffeta and carried a bouquet of pink daisies with pink net streamers.

Bobby Wilcox, brother-in-law of the bride served as best man. John Alex Miller of Austin, brother of the groom and Charlie Bramblett, brother of the bride ushered.

For her daughter's wedding Mrs. Bramblett chose a pink linen dress with white accessories and a pink carnation corsage. Mrs. Miller, mother of the groom wore a dress of ice blue linen with white accessories and a white carnation corsage.

Immediately following the ceremony a reception was held in the chapel of the church. The

bride's table was laid with a white linen cut work cloth and centered with a beautiful arrangement of pink carnations and glads. Mrs. Bobby Wilcox, sister of the bride served cake and Miss Patsy Pafford poured punch. They were assisted in serving by Misses Lucy May Burrus and Betty Yeager. Mrs. John Alex Miller, sister-in-law of the bride registered the guests.

For traveling Mrs. Miller wore a navy blue linen suit with white accessories and an orchid corsage.

The bride is a graduate of Mullin High School and was employed by Duren Equipment Company of Goldthwaite as bookkeeper. The bridegroom is a graduate of Goldthwaite High School and is employed by Gulf Oil Company of Kermit, where the couple will make their home.

Mrs. W. P. Weaver returned home last week from a two weeks visit with her daughter, Mrs. Blythe Shults in Oklahoma and her son, Clyde Weaver and family in Dallas.

**Miss Gatlin Gives Book Review At Self Culture Club Meeting Thursday**

One of the outstanding Club meetings of the year was that of the Self Culture Club on Thursday afternoon, April 25. The Jenny Trent Dew Library was beautifully decorated with spring flowers of pastel colors. This was the concluding meeting of a successful club year.

Guests were greeted by Mrs. E. R. Bruce the outgoing president and Mrs. Jesse Moreland, elect and other officers for the new year.

Mrs. John Berry was leader for the program. After greetings to the club members and guests, "Happy Birthday" was sung to Mrs. E. B. Anderson, a charter member of the club.

Miss Love Gatlin in her gracious manner reviewed "The Philadelphian" by Richard Powell. The review was very interesting and a treat to all who heard it.

Mrs. Bruce was presented a lovely gift in appreciation of her capable leadership as president of the club.

The tea table was laid with a beautiful hand made linen cloth centered with a colorful arrangement of iris. Two figurines, a gift to the club from Mrs.

**H. D. Club Plans Craft Work At Last Meeting**

The Goldthwaite H. D. Club met Tuesday, April 23 in the home of Mrs. Harvey Hale. Club prayer was repeated by all after which the club song "Ever Onward" was sung. Roll call was answered with a craft I would like to learn.

Mrs. Lloyd Reynolds, president, presided during the business meeting, at which time plans for what craft our club would like to take up was discussed. Reports from different committees were also given at this time.

Mrs. A. L. Reese and Mrs. Dutch Smith were elected nominees for delegate and alternate to State Home Demonstration meeting July 31-August 2, at Houston. Mrs. W. W. Fox read a poem "What I've Learned". Mrs. Oscar Burns gave a demonstration on how to make "A Buddy Burner and A Garden Lamp."

The hostess served refreshments to 19 members and one new member, Mrs. Carl Woods. The next meeting will be in the home of Mrs. A. B. Lindsey, May 14, the program for this meeting will be the "History of Home Demonstration Work." Roll call will be how long I've been a club member.

Mrs. W. P. Weaver returned home last week from a two weeks visit with her daughter, Mrs. Blythe Shults in Oklahoma and her son, Clyde Weaver and family in Dallas.

**TODAY'S Menu**

**Heart-Shaped Cakes For Shower Parties**

By ALICE DENHOFF  
HEARTS and Flowers is the theme for this time of year as engagements are announced and shower parties planned. A heart-shaped cake surely deserves a place of honor at such festive gatherings.

For example, bright red maraschino cherries add the right bit of color and impart an elegant and delicate flavor to a Maraschino Cherry Heart.

**To Make Cakes**  
To serve 6, separate 4 eggs. Beat whites until frothy. Add 1/4 tsp. cream of tartar. Gradually add 1 1/2 c. sugar, beating constantly, until very stiff.

Line baking sheets with well-greased brown paper. Spread egg white mixture into 4 heart shapes on paper. Sprinkle with 1/2 c. finely chopped walnuts. Bake in very slow oven, 270° F., 1 hr. Remove carefully from paper with a spatula and cool thoroughly.

**Beat Yolks**  
Meanwhile, beat egg yolks until thick and lemon-colored. Gradually add 1/2 c. sugar, 1/4 c. lemon juice, 2 tsp. grated lemon rind and 1/2 tsp. salt. Cook over boiling water, stirring constantly until thickened. Cool thoroughly.

Spread lemon filling over three heart-shaped layers and top with 2 1/2 c. chopped maraschino cherries, well drained (about 25 cherries). Put layers together and top with remaining layer. Garnish with 1 c. heavy cream, whipped, and whole, drained maraschino cherries, artistically arranged. Chill before serving.

Next, a delicious cream cake, the recipe for a 9-inch layer cake. Sift 2 c. sifted, all-purpose flour, 1 1/2 c. sugar, 2 tsp. baking powder and 1/2 tsp. salt together. Add 1/2 c. chopped, drained maraschino cherries. Mix well.

Beat 3 eggs until very thick. Fold into 1 1/2 c. heavy cream, whipped. Gradually fold in flour mixture and blend in tsp. vanilla. Turn into 2 greased and floured 9-in. layer cake pans. Bake at 350° F. 35 to 40 min., or until cake tests done. Cool 10 min. Remove from pans and cool thoroughly.

Frost and decorate with hearts and arrows made of maraschino cherry slices and strips.

**Heart-Shaped Mold**  
For something less rich but very good, try this mold. Dissolve a 3-oz. pkg. lemon-flavored gelatin in 1 c. boiling water. Add 1/4 c. maraschino cherry juice and 1/2 c. drained, chopped maraschino cherries. Chill until slightly thickened, stirring constantly. Fold in 1 1/4 c. whipped instant nonfat milk crystals. Turn into 1-qt. mold (heart-shaped for special occasion) and chill until firm.

To whip the instant nonfat dry milk crystals, mix 1/4 c. instant nonfat dry milk powder with 1/4 c. water. Whip until soft peaks form (3 to 4 min.). Add 1/2 c. lemon juice. Continue beating until stiff peaks form (3 to 4 min. and whole, drained maraschino cherries).

of years, the United States Savings Bonds program has become an integral part of the American way of life. It has taught countless Americans how to save. It has enabled young men and women to enjoy higher education. It has furnished the down payment for new homes and for new businesses. For many persons, it has made possible a more comfortable and secure retirement. It has provided protection against unexpected adversity for millions of our citizens.

Today, 40 million Americans own over \$41 billion in Series E and H Bonds. We want to see more people continually buying more bonds, so that Savings Bonds provide even greater financial protection for our people in the years ahead and, at the same time, help assure the economic stability of our country.

I invite every citizen to take advantage of the opportunity of investing in the now better-than-ever United States Savings Bonds.

**HOMEMAKERS LACK  
NUTRITION KNOWLEDGE**

Most Americans get enough or too much food, but not always the right kind. Three of every four homemakers have only a scanty knowledge of nutrition, a recent study in New York State shows. The other fourth of the homemakers surveyed had only a "fair" knowledge of nutrition as related to feeding their families. Surveys are now being conducted in 12 sample Texas counties which will reveal some of the eating habits and meal planning techniques used by Texas homemakers.

The younger, better educated group know most about food values but also expressed more need for help with problems of planning, buying and preparing food. Meal planning was the most common problem reported. Women want help on planning meals that their families will enjoy. They also want the satisfaction of knowing that family meals are properly balanced and provide the nutrients needed for good health.

"Good Meals Everyday"—a new, colorful publication by extension foods and nutrition specialists, gives up-to-date information on planning balanced daily meals, on buying and preparing food. Also included are sections devoted to special needs of certain family members, infants, teen-agers, overweight and under-weight members.

Copies of the new bulletin are available at my office.

**INSECTS AND DISEASES  
OF FRUITS AND NUTS**

Insect and disease control is important in the production of fruits and nuts, according to extension horticulturists. The health of the trees and the quality of the fruits and nuts will depend on an insect and disease control program that is carried out with some long time planning.

With these insects and dis-

eases, a very important factor is the proper timing of the spray or dust application. Along with proper timing goes the correct dosage of the material being used. Timing, and material are very important, but the coverage you give the tree or plant will be as important. A complete coverage is necessary to control any insect or disease. All three of these factors are a must to get best results from control practices.

If you are interested in diseases and insects that harm fruit and nuts, ask in my office for a copy of L-245 "Texas Guide for Controlling Insects and Diseases on Fruit and Nuts."

## Community News From Mullin

By MRS. JOHNNIE HOLLAND

The Senior Class presented their Class Play "Aunties Money" to a large audience last Tuesday night in the High School auditorium.

Mr. and Mrs. Charles Kelley have been here visiting with his parents, Mr. and Mrs. L. N. Kelley. While on their way here from Georgia they ran into a wind storm, and their trailer house and furnishings were demolished. Charles has just recently lost his grandparents in the Dallas tornado. He is with the U. S. Army and is being transferred to Del Rio.

Mr. and Mrs. S. J. Casey of Dallas and their son, Mr. and Mrs. Jack Casey and family of Rochester, N. Y., were here last weekend visiting with Mrs. L. J. Vann and Mrs. Jewell Ivy. They are former citizens of Mullin.

Easter weekend visitors in the R. F. Collier home included Mr. and Mrs. R. J. Collier and sons and Gary Boles of O'Donnell.

Mr. and Mrs. Eldred Collier and Robert of Mason, Mr. and Mrs. Jack Davis and family of Fort Worth.

Mr. and Mrs. B. M. Womack and daughter, Joan, of San Angelo visited here recently with her mother, Mrs. Will Fisher and other relatives.

Mr. W. H. Baskin of Post has been here visiting with Mrs. Sallie Chancellor, Mr. and Mrs. George Fletcher and Miss Lillian Baskin.

Mrs. Ollie Lee Holland, Mrs. Jimmy Holland and children and Mr. and Mrs. Marvin Green all of San Angelo visited last Sunday with Mrs. Jessie Reed and Mr. and Mrs. Johnnie Holland and Gayla.

Mr. Tip Roberts passed away at the home of his sister-in-law at Goldthwaite last Friday. Funeral services were conducted last Saturday afternoon and burial was in Regency Cemetery.

Mr. and Mrs. Monroe Hillard have been visiting at Lubbock with their son, Eric and family.

Mr. and Mrs. Hutton and three sons from Illinois have moved into our community. They will live on the "Sleepy Hollow" Ranch which belongs to the Methodist Orphans Home at Waco.

Mr. and Mrs. H. G. Gibbard and Henry visited their daughters, Mrs. J. C. Stuart and Betty at Lampasas recently. Their son, Henry is in the Air Force, stationed in Maine. He is visiting here with them.

Mr. and Mrs. C. C. Wright were recent visitors at Lampasas.

Mrs. E. L. Fisher and son, Bill are in Abilene today. Mrs. Fisher's mother, Mrs. W. D. Hopkins was to have surgery in an Abilene hospital today.

## Glenn Sanders Shows Top Selling Ewe At Brownwood Sale

The Texas purebred Sheep Breeders Association awarded its annual two day show and sale to Brownwood on a permanent basis last Friday to high light the 1957 event.

A total of 187 head of top breeding sheep were sold in the sale Saturday.

Glynn Sanders of Mullin consigned the top-selling ram at the sale last year, and had the top-selling ewe this year. His Suffolk ewe and lamb were sold to C. M. Green of Stephenville for \$145.

The next to top-selling ram of the show was a Suffolk consigned by Harrison Davis of Dorchester and bought by Gerry Head of Goldthwaite.

of years, the United States Savings Bonds program has become an integral part of the American way of life. It has taught countless Americans how to save. It has enabled young men and women to enjoy higher education. It has furnished the down payment for new homes and for new businesses. For many persons, it has made possible a more comfortable and secure retirement. It has provided protection against unexpected adversity for millions of our citizens.

Today, 40 million Americans own over \$41 billion in Series E and H Bonds. We want to see more people continually buying more bonds, so that Savings Bonds provide even greater financial protection for our people in the years ahead and, at the same time, help assure the economic stability of our country.

I invite every citizen to take advantage of the opportunity of investing in the now better-than-ever United States Savings Bonds.

**Savings Bonds Sales Report**

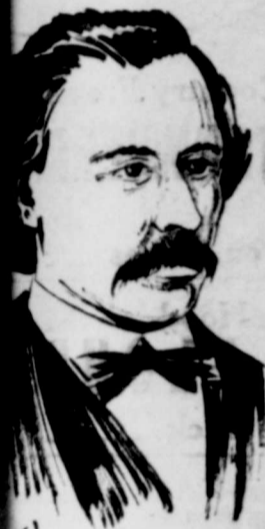

Texas ranks twentieth in nation in percentage of Savings Bonds quota attained. Sales during March amounted to \$13,095,441. This announcement came from Mr. Nathan Adams and Mr. Ed Gossett, Chairman and Co-Chairman of the State Bond Program.

During the first quarter of 1957 Texas had achieved 23.4% of its 1957 bond quota. Total sales for the first three months of this year were \$45,160,721. Sales in Mills County amounted to \$26,309 during the first quarter which was 19.5% of the 1957 quota of \$135,170, according to W. P. Duren, Chairman of Mills County.

"The month of May, 1957 has been designated Minute Man Month in Texas and across the nation. During May special emphasis will be made to remind all citizens that for their own future security and the future security of the United States everyone should invest regularly in U. S. Savings Bonds—the safest investment in the world today," Chairman Duren stated.

**HOMEMAKERS LACK NUTRITION KNOWLEDGE**

Most Americans get enough or too much food, but not always the right kind. Three of every four homemakers have only a scanty knowledge of nutrition, a recent study in New York State shows. The other fourth of the homemakers surveyed had only a "fair" knowledge of nutrition as related to feeding their families. Surveys are now being conducted in 12 sample Texas counties which will reveal some of the eating habits and meal planning techniques used by Texas homemakers.

The younger, better educated group know most about food values but also expressed more need for help with problems of planning, buying and preparing food. Meal planning was the most common problem reported. Women want help on planning meals that their families will enjoy. They also want the satisfaction of knowing that family meals are properly balanced and provide the nutrients needed for good health.

"Good Meals Everyday"—a new, colorful publication by extension foods and nutrition specialists, gives up-to-date information on planning balanced daily meals, on buying and preparing food. Also included are sections devoted to special needs of certain family members, infants, teen-agers, overweight and under-weight members.

Copies of the new bulletin are available at my office.

**INSECTS AND DISEASES OF FRUITS AND NUTS**

Insect and disease control is important in the production of fruits and nuts, according to extension horticulturists. The health of the trees and the quality of the fruits and nuts will depend on an insect and disease control program that is carried out with some long time planning.

With these insects and dis-

ases, a very important factor is the proper timing of the spray or dust application. Along with proper timing goes the correct dosage of the material being used. Timing, and material are very important, but the coverage you give the tree or plant will be as important. A complete coverage is necessary to control any insect or disease. All three of these factors are a must to get best results from control practices.

If you are interested in diseases and insects that harm fruit and nuts, ask in my office for a copy of L-245 "Texas Guide for Controlling Insects and Diseases on Fruit and Nuts."

**AUSTIN, Tex.**—Worst drought in Texas history is broken. After seven years farmers look out over soggy fields and talk of "bumper crops."

But the troublesome drought had a troublesome end. Tornadoes, cloudbursts, hail and floods brought loss of lives and property damage in the millions. Spring planting is reported far behind schedule in many areas. In others, washedout fields will have to be re-sown. And despite the deluge, some dry pockets were noted by agriculture officials, notably in far West and Southwest Texas.

But most reports reflect sober optimism. J. E. Sturrock, manager of the Texas Water Conservation Association, warned that the next drought, probably in 15 years, will be worse unless precautions are taken now. Water must not be allowed to race off into the Gulf, he said.

And Agriculture Commissioner John White issued a comment not heard in years. He said the fields "needed sunshine."

**FOR NEXT TIME**—As rain fell in sheets and rivers boiled over into the bottoms, lawmakers debated how to build a bulwark against future dry spells.

Water program sponsors contended an earlier conservation program might have prevented much of the flood devastation.

Plan for a \$200,000,000 fund to help local districts build conservation projects was approved by the House in final form. But Senate opposition slowed progress of another proposed bond issue which would allow state to buy storage space in federal reservoirs. It was cut from \$200,000,000 to \$200,000,000.

**BEAT THE CLOCK**—Time is now the main enemy of an unpassed bill in the Legislature. Any measure that gets caught on the smallest parliamentary snag is likely to die there in the stampede to finish.

During the next week legislators can be expected to show their ingenuity in creating snags to sidetrack unwanted bills. Some favorite devices are sending measures from one committee to another, to subcommittee or loading them with controversial amendments. In the Senate, of course, the old reliable is the filibuster which forces other members to give up so they can get on to other things.

Matched against this foot-dragging will be the furious efforts of bill sponsors to "beat the clock."

Seasoned observers now are looking for adjournment of the Legislature about May 17. Appropriation bills will be the determining factor, and principally the teachers pay bill. If it looks as though no satisfactory agreement can be reached, or that a tax bill is necessary after all, lawmakers may throw in the towel and go home on May 10, looking to a special session to iron out those knotty problems.

**SEGREGATION FIGHT DUE**—House-passed segregation bills moved forward in the Senate, but still face a filibuster threat.

Five of the nine bills were sent from Senate State Affairs Committee to the floor. There two senators, Henry Gonzalez and Abraham Kazen Jr., say they'll fight as long as their breath holds out.

A large but orderly crowd attended the committee hearing. House sponsors and a spokesman for former Gov. Allan Shivers' advisory committee on school segregation spoke on behalf of the bills. Representatives of various church groups, organized labor and several Negroes spoke against them.

**REORGANIZATION WRANGLE**—Insurance Commission reorganization hung by a thread for days, but apparently is to be thrashed out in a House floor

fight.

State Affairs Committee tied 9-to-9 on whether to bring the bill out of its subcommittee grave. Chairman Bill Heatly tipped the scales with a "no."

Then renewed pressure from Governor Daniel brought a promise from subcommittee chairman Obie Bristow to report out "some kind" of reorganization bill. But, Bristow observed, he couldn't see what the two bills under consideration would do except throw the present commissioners out of office. Governor Daniel has strongly urged starting over with a "clean slate." He reportedly has said he will call a special session if a reorganization bill isn't passed.

**COMMISSION, COKE BATTLE**—Physicians Life & Accident Insurance Co. and the Board of Insurance Commissioners have locked horns in court.

Commission has revoked the license of the firm headed by former Gov. Coke Stevenson. It charged the company with being fraudulently organized, illegally operated and insolvent. It obtained a court order temporarily restraining the firm from doing business.

Company countered with a suit to restrain the commission from interfering with its operation. It blamed its insolvency on a Commission-approved contract by which Physicians bought worthless assets through the state liquidators. It termed the Commission action "capricious, unreasonable, arbitrary."

**NATUROPATHS ASK HELP**—Texas Naturopathic Association has asked Governor Daniel to help clear the confusion surrounding their right to practice. Law passed in 1949 creating a board to license naturopaths has been declared invalid in court. Efforts to get new laws touched off the legislative bribery charges and investigations. Governor Daniel said he would ask for an attorney general's opinion.

Meanwhile, naturopaths have been coming in batches to talk to the Travis County grand jury. Some had charged publicly that money had been "extorted" from their association to stave off unfavorable legislation. TNA President Howard Harmon said he doubted there was enough evidence to convict anyone.

**SHORT SNORTS**—Topped by Senate committee was the bill to prevent "loss leader" advertising by retailers. Small grocers had pushed the measure to ban limited sales of below-cost items.—A new House member, Rep. Harold H. Coley, 35-year-old Conroe radio man, took office for the session's waning weeks. He replaces James E. Cox.—Speaker Waggoner Carr was praised and piled with gifts from fellow members and constituents on Speakers Day. Senate President Pro Tempore Otis Lock is to receive customary "governor for a day" honors Friday. His office places him third in line to the governorship. Portrait of Lt. Gen. Ernest O. Thompson is to be painted and hung with those of other notables in the Senate chamber. Texas Independent Producers and Royalty Owners will honor Thompson on May 22 with a silver plaque marking his 25th anniversary on the Railroad Commission. Senate confirmation of J. M. Patterson as chairman of the Board of Control and 86 others wrapped up former Gov. Allan Shivers' long list of interim appointees—all approved.

**Musical Recital At Star Tuesday Night**

Mrs. Sam Sullivan will present the Spring Music Recital at Star, in the First Baptist Church next Tuesday evening, May 7, at 7:30 o'clock.

Featured on the program will be the following students: Judy Carswell; Barbara Sheldon Beverly Kelso; Robert Schumann; Gayle O'Connell; Patricia Vicki Jeske; Patsy Carswell; Earl Wall; Landra Moore; Don Elms; Ella Ruth Clary; Jettie Joe Sheldon; Sheryll Dean Casbeer.

Thirty minutes with Schubert will be presented by Billy Roy Gholson, Barbara Burns and Edwina Burns.

The public is most cordially invited to attend the recital.

### San Saba Peak

By MRS. DUTCH SMITH

We have been having some wonderful rains and so far have been very lucky not to have had but one hard rain and it did not wash things very much.

We were happy to know Mr. Frank Hines was able to be brought home from Lampasas Hospital last week. Dutch and I visited him Sunday afternoon. Others present were his sisters, Mrs. Janie Weathers and Mrs. Minnie Ashley of Goldthwaite and a nephew, Mr. and Mrs. Lawrence Weathers of Brownwood.

We also visited my dad and mother and a sister, Mrs. Bud Conradt and Mr. Conradt, who were visiting dad and mother. On the way home we stopped by to welcome the Fred Wittenburgs, who recently moved back. We were neighbors to them for a long time and our children grew up together and now we are again neighbors.

I visited Mrs. Levi Aldridge Monday evening. She can get around pretty well with the aid of a cane. I also ran by to see Mrs. Ruth Warren, another dear friend of mine.

Mrs. Bill Hightower returned Friday from California where she visited her brother, Cecil Haney and wife. Mr. and Mrs. Haney accompanied her home for a visit.

Mr. and Mrs. Jack Hightower of San Antonio visited his parents, Mr. and Mrs. Bill Hightower last weekend.

Mr. and Mrs. Dick Hughes came by Saturday on their way to the mail box. They had to go up to the three mile crossing because the bridge had washed out. He told me of the hard rain that fell in Lometa and that he was really glad to get in his car and start for home.

I visited Mrs. Lula Morrey last week. She had been in Houston several months.

### Scallorn News

MRS. ORA BLACK

Rain and more rain is the report from out our way. So much we haven't been able to keep the exact amount. However something like eight or nine inches since our report last week.

Mr. and Mrs. Dick Hughes took their brother Al to Fort Worth last Sunday where he took a plane for his home in California. He had spent the past two weeks visiting at Shady Oak Ranch.

Mrs. Lila Ward of Stephenville was a guest of her brother, Ed Evans and sister, Mrs. Lora Maund last week.

Mr. and Mrs. Dean Burk and children of San Angelo were weekend guests of her parents, Mr. and Mrs. Silas Burk.

Rev. Jess Cook, Mrs. Cook and little son of Brownwood were luncheon guests of Mr. and Mrs. Silas Burk Sunday.

Huntis and Layton Black spent two days last week in Hondo where they attended a FFA meeting. While on their rounds detouring high water they narrowly escaped being washed down stream. Their pick up began to fill with water and started down with the tide.

Mr. Burk enjoyed a visit last week from his sister, Mrs. Lizzie Garrett of San Angelo.

Mr. Frank Hines is home again after spending two weeks in the Lampasas hospital. We are glad to report he is doing nicely.

Guests Sunday afternoon in our home were Mrs. S. M. Black and Mrs. Norman Ricker and Judy of Brownwood and Mrs. D. L. Ricker of Illinois.

Date for the next social at Scallorn Community Center falls on May 9. A covered dish supper will be served.

### Odd Fact

After New York police had dispatched a squad car with two policemen to the home of a woman who had telephoned them screaming that there was a hippopotamus in her closet, the woman apologized and explained that it was just something she had dreamed and the animal she dreamed was in her closet was only an elephant anyway.

## Local Piano Pupils To Audition In Brownwood Saturday, May 4

The local piano pupils from the classes of Mrs. Clyde Smith, Mrs. Talbot Ledbetter and Mrs. Sam Sullivan have registered as candidates for membership in the National Fraternity of Student Musicians, sponsored by the National Guild of Piano Teachers of which their teacher is a member.

This group of young piano hobbyists will play in the National Piano Playing Auditions, May 4, at Brownwood. They will strive for Pledge, Local, District, State, National or even International honors which the Mother organization will confer according to the number of standard classic, romantic and modern pieces chosen from the Masters of pianoforte literature each student can creditably perform in the presence of an imported examiner of note from another state.

Over 40,000 enthusiastic piano pupils of the nation will participate in this annual national piano-playing event being held in 403 music centers of the country and every entrant worth his salt will be certificated, given a gold or bronze embossed pin, a year's Membership in the National Fraternity of Student Musicians and Piano Hobbyists of the World. This fraternity was begun at Hardin-Simmons University, Abilene, Texas, in 1929 and its national headquarters are still maintained in Texas.

Abraham left Egypt with his family and his belongings. Lot, his brother's son, went with him. Both men were very rich in flocks, herds and tents, so that the land could not contain them all, and their herdsmen fought one another.

Abraham begged Lot not to allow strife between them. The best thing to do was to separate, going different ways and choosing new lands. Lot looked over the land and chose the plain of Jordan, which was "well watered everywhere."

As Abraham sat at the door of his tent one day, he saw three men coming toward him. He ran to welcome them, offering water to wash their feet. He had food prepared and served to them under a tree.

The wicked cities of Sodom and Gomorrah were to be destroyed, said the Lord. Angels warned Lot and his wife to flee and not look back. The wife did turn and became a pillar of salt. MEMORY VERSE—Leviticus 19:18.

Board To Consider Changes In School Accreditation Standards

The Board of Education is in consideration at its meeting in Austin to proposed changes in accreditation standards for Texas schools.

Member Advisory Committee has been studying accreditation requirements for schools has recommendations. The chairman, Cecil A. Morgan of the Board of Education, said today that if amendments are approved, all high schools will be required to make the following available every year or during years, beginning in 1958:

Units in English, three are required for graduation.

Units in World History, one American History, and one unit in Government, are required for graduation.

Units in mathematics, Algebra, Geometry, and Trigonometry, with one of mathematics required for graduation.

Units in Laboratory Science, including General Science, Chemistry, and Physics,

with two units required for graduation; and Enough elective units to make alternatives available to students.

No limitation is proposed on the number of elective courses a high school may offer, but the above list specifies 14½ units which every high school must make available and 9½ of these specified units will be required for graduation. In addition, each student must choose enough electives so that, upon graduation, he will have a minimum of 61 units over and above his credits in Health and Physical Education.

In addition to the specific unit requirements, the Advisory Committee recommended that high schools offer "an adequate program of health and physical education" and also a foreign language "if there is a demand."

The Advisory Committee proposed that the State Commission on School Accreditation be asked to determine the manner in which 2 units of vocational education courses might be substituted for one year of General Science. The Committee indicated that the "scientific concepts" contained in Vocational Agriculture, Vocational Home-making, and certain Industrial Vocational Education courses would justify this substitution.

The Committee specified that the one-half unit in Government shall include an intensive study of the Constitutions of Texas and the United States.

The Advisory Committee recommended that the new requirement be introduced voluntarily by local school districts in September, 1957, and made mandatory for all schools beginning in the 1958-59 school year.

Among other recommendations presented to the State Board of Education for consideration were these:

All high school graduates should receive the same type of diploma, with each student's transcript serving as a record of accomplishments available to employers and college officials.

A maximum of one regular class period of the school day may be devoted to competitive athletics.

Of the basic 16 units for graduation, not more than two units (other than repeated courses) may be earned in summer school and by correspondence.

Star News

A comprehensive study of the high school curriculum should be made.

The curriculum study, if approved by the State Board of Education, would describe the approved courses offered in Texas high schools, determine which courses should be added, dropped, or combined, and explore specific areas of the curriculum, such as health and physical education, in which practices differ widely among Texas schools.

Litter-Bug Parade Last Week Starts Local Clean-up Drive

Tuesday afternoon of last week, a down town parade was viewed by many as the "Litter Bug" clean-up drive got under way.

The parade was led by Sheriff Stubblefield, then the fire truck with W. C. Barnett as driver.

Signs displayed on the truck proclaimed the "Litter Bug" drive was in full swing. Following the truck was the Goldthwaite High School Band, the Elementary School Band, the Junior Garden Club members with their cans, hoes and sacks for the clean-up. Then the Cub Scouts, Girl Scouts and Boy Scouts, all of who had helped in the preparations for the drive. Mrs. W. P. Duren, out-going president of the local garden club and Mrs. V. Z. Cornelius, in-coming president, were each pushing wheel barrows loaded with flowers, representing the garden club and its efforts to beautify Goldthwaite. All members of the parade were dressed in garden clothes, straw hats and bonnets and carrying hoes, rakes, spades and other garden work equipment.

### Tips On Stocking Farm Fish Ponds

COLLEGE STATION, (Spec)—Overstocking is the most common error made in managing farm fish ponds, warns Edwin Cooper, Wildlife Conservation Specialist. Don't fall for the common belief that "the more fish put in, the better the fishing will be."

Cooper says a given body of water will support only a certain number of healthy fish just as a range is limited in cattle grazing capacity. Both state and federal hatcheries supply stock fish on the basis of an applicant's report of surface water acreage. The number of fish supplied for an accurate measure will produce more BIG fish in the SHORTEST length of time possible.

Only a few fingerling fish are needed to stock an acre of water initially, Cooper asserts, and the right combination of fish is essential in maintaining a proper population balance. Over-populated ponds, Cooper says, will mean a shortage of food and too many small fish.

When a pond's fish population becomes unbalanced with too many small stunted fish or rough undesirable such as shad, carp, suckers, and bullhead catfish, Cooper recommends complete removal and restocking with proper balance. Derris or rotenone powder may be used in removing fish from privately-owned ponds, but is prohibited by law in public waters.

Recommendations call for 5 pounds of 5 percent rotenone powder to each acre foot of water. Mix rotenone with just enough water to make a thick paste and add more water until the solution is near the thickness of ordinary cream. The solution can be poured into the ponds from tubs while motoring or rowing a boat. Fish killed in this manner are good for food if taken fresh, and treated water is harmless to humans or livestock.

Emulsifiable rotenone can be distributed by airplane on large jobs. Best time for treatment is late spring or summer since rotenone acts slowly in cold weather. Restocking may be started within 7 to 14 days after treatment. Information on stocking and restocking your farm pond may be obtained from the local county agent.

Funeral services were conducted for Hugh L. Breeding, 91, at 3 o'clock Sunday afternoon, April 21, in the Cottonwood Baptist Church, by the pastor, Rev. Floyd Newberry assisted by Rev. C. R. Myrick.

Mr. Breeding was born in Tennessee, October 29, 1866 and passed away at the Breeding home in Cottonwood, Saturday, April 20, following a short illness. He moved to the Belle Plain community with his parents at the age of eight years. The family moved to the Cottonwood community years ago and had lived on the same place since that time. He was married to, Miss Sarah Callie Hailey at Belle Plain, November 26, 1890. He was a charter member of the Cottonwood Baptist Church. Survivors are three daughters, Mrs. Ettie Jones of Abilene, Mrs. F. A. Oglesby of Cottonwood and Mrs. C. N. Scribner of Goldthwaite; four sons, J. M., Leonard and A. W. all of Lamesa and A. L. of Cottonwood. Also one sister, Mrs. Winnie Shuford of Cross Plains, 19 grandchildren and 23 great-grandchildren.

Grandsons served as pallbearers and burial was in Cottonwood Cemetery.

### Scholarship Given James W. Bowman

James W. Bowman, who has taught science in Goldthwaite High School since September of 1953, has accepted a scholarship from the National Science Foundation through the Academic Year Institute.

The University of Texas Institute is one of 16 in the nation made possible by National Science Foundation grants and will open September 15, according to an announcement made by Dr. Robbin C. Anderson, director.

The awards are made from applications to encourage the development of teachers for science and mathematics.

The scholarship is valued at \$3000 with an additional allowance for dependents, tuition fees, books and travel expenses.

Mrs. Billy Hightower and daughters, Gale, June and Pam of San Antonio were recent guests of her parents, Mr. and Mrs. Oscar Burns.

Mr. and Mrs. Bobby Brown and children, Guy, Greg and Teresa Ann of Llano were guests of Mr. and Mrs. Luther Ward Colburn and Odena Sunday.

### COTTON'S VITAL BY-PRODUCT

Many old-timers in Texas can recall the days when cottonseed was dumped away as waste.

But cottonseed today plays a highly significant role in our every day life.

The ingenious skills of American scientists and research specialists have taken this once-discarded agricultural commodity and put it into consumer channels throughout the world.

Cotton producers have benefitted greatly from development of seed uses. A market for the seed means some \$100,000,000 annually to Texas farmers, or one-sixth of the lint's value. About 900 pounds of seed are in the average bale that goes to the ginner.

Cottonseed crushing began 90 years ago at High Hill in Fayette County. Since then, this vital industry has expanded into every major cotton producing area. Lubbock, Texas, today has the world's greatest concentration of cottonseed crushing.

Among the many consumer goods made possible by the former "waste" product are salad dressing, shortening, mayonnaise, margarine and a synthetic ice cream, known as mellorine.

Besides footstuffs, cottonseed is made into feeds for animals and a variety of plastic products. Cottonseed meal is a popular fertilizer of high nitrogen content.

The story of the cottonseed industry fits well into the picture of American progress—a perpetual progress based on the technological skills of a free and independent Democracy.

Research's role in past progress offers optimism for the future.

New crop uses, new markets, new products from the farm, will be marvelled at by the old-timers of tomorrow.

### Blanket FFA Rodeo And Homecoming This Weekend

BY LUCY MAY BURRUS

The nice rains which have fallen are not only making the plants flourish, but also garden pests.

The abundance of cut worms has been called to my attention. There are many species of cutworms. They are dull gray, brown or black and may be striped or spotted. They cut off plants above, at or below soil surface. Some cutworms feed on leaves, buds or fruits; others feed on the underground portions of plants. They are particularly destructive to early-season plantings of pepper, Tomatoes, cabbage and related crops, peas, beans, beets and squash.

To control these insects, apply a 5% DDT or 20% toxaphene dust or a spray made of 3 level tablespoons 50 per cent wettable DDT powder to one gallon of water or 3 level tablespoons 40 per cent wettable toxaphene powder to one gallon of water. Apply to the soil surface when the garden is being prepared for planting or there is a need.

Caution: Do not apply toxaphene or DDT to the foliage of cucumbers, squash or melons as it may injure the plants. Do not apply to foliage or fruit

that is to be eaten.

As further caution, may I remind you to read the instructions which are with the insecticide very carefully and follow them very closely. Insecticides are poisons and should be handled with caution.

For a concise, handy reference for which insecticide to use for each insect, get a copy of L-255 Guide for Controlling Insects on Vegetables Crops in Texas from my office.

Note: You can prevent cutworms injury to transplants without using an insecticide. Place a stiff 3 inch cardboard collar around the stems; allow it to extend about one inch into the soil and protrude two inches above the soil. Clear the stem by about one half inch.

This information was taken from USDA publication Home and Garden Bulletin No. 46 "Insects and Diseases of Vegetables in the Home Garden." It is good for identification of insects and disease with which you not familiar. I have it for use in my office or it for sale by the Superintendent of Documents, U. S. Government Printing Office, Washington 25, D. C. Price 25 cents.

GARNER STATE PARK north of Uvalde on U.S. Highway 83 is noted for its trails and horse paths. The park is named in honor of Former Vice-President John Nance Garner. It is on the Frio river at the highest point in Uvalde county. Camp grounds and roomy cabins share in popularity with the park's half million visitors a year. Photo Texas Highway Department.

GARNER STATE PARK—occupies a full section of vacation land at the highest part of Uvalde County, along the cypress shaded Frio River. The park is on U. S. Highway 83 between Leakey and Concan.

This park is especially popular among those who want to spend a week or two away from home. Because of the heavy demand for its 18 roomy cabins

and its 120 camping spaces, occupancy is limited to two weeks. This permits more people to enjoy the park. Last season approximately half a million were cared for in the park.

In response to the nationwide trend toward camping, the winter months were used for installation of improvements that will make campers more comfortable and take care of more visitors than in past years. Metered electricity is furnished at 25 of the camping spaces.

Recent construction of a small dam in the park has greatly helped boating and shallow water bathing, leaving the deeper water for swimmers. Swimming is free. There is no life guard in attendance.

Well planned and well cooked meals are served in the park's attractive stone and cypress dining hall. Rates are so reasonable that most cabin occupants do little cooking—a boon for the housewife with a family on vacation.

A large dance terrace overlooking the Frio River, a good stable for safe, well-trained riding horses, fishing, pedal boats and limited park amusement devices offer variety.

Ice, staple groceries, dairy and motor supplies are obtainable in the park. Cabins have hot plates but other utensils are not furnished.

S/SGT. BOOKER RETURNS TO BASE

S/Sgt. Barry Max Booker returned to Travis Air Force Base, California this week after a five day visit with his parents, Mr. and Mrs. Tom Booker and his brother, Bobby.

Barry Max served as military escort for a boy from Alvin, Texas, who had been killed in Japan and the body brought home for military services.

IT'S THE LAW in Texas

A public service feature of the State Bar of Texas

HOMESTEAD MAY BE SOLD FOR TAXES

Many Texans have the mistaken impression that their homestead cannot be seized and sold for delinquent taxes. In many cases, this idea has led to considerable grief and monetary loss which could have been avoided. A homestead should be rendered to tax assessors like any other property, and taxes assessed against it should be paid as faithfully as those on any other taxable property.

The deadline for rendering property for taxation is April 1, so far as most city taxing agencies are concerned. The last date for rendering real and personal property for state and county taxes is April 30. State taxes are collected by the County Tax Collector.

Under the Texas Constitution, each family is entitled to claim one piece of real property as their homestead. This claim must be established by an affidavit filed with the county tax assessor on or before April 30, each and every year. This affidavit must be filed by the owner himself. A lending agency cannot do so, even though it may actually pay the annual taxes thereon from a fund created by the owner's monthly installments.

When the homestead affidavit is properly filed, the owner becomes entitled to an exemption of State taxes up to the value of \$3,000 or 200-acres in the case of farm lands. This is an exemption from payment, not a complete exemption from rendition and assessment. There is no similar exemption with reference to county or city taxes.

The homestead claimed for tax purposes need not be the property which is actually occupied by the owner as his residence.

When the homestead affidavit is not filed by April 30, the taxpayer loses his right to the \$3,000 or 200-acre exemption, and consequently becomes liable for more taxes than he would otherwise be required to pay.

Property taxes are assessed against the person who is the record owner of each piece of real and personal property on the first day of January of each year. Individuals purchasing property during the year should make sure the taxes for all previous years have been paid. Otherwise, the purchaser may be forced to pay hundreds of dollars in delinquent taxes to protect his property. Unpaid taxes create a lien against the property which can be enforced re-

gardless of change of ownership. One should also keep in mind to make some arrangement for the previous owner to pay his pro-rata share of taxes for the current year. Otherwise, the buyer may find it necessary to pay the entire taxes for that the deadline prescribed for the year.

When taxes are not paid by particular taxing unit (city, county, state, or district), monetary penalties and interest are added from month to month. In addition, the property becomes subject to seizure and sale to satisfy the tax lien. This lien applies to all property, whether homestead or not.

LAWS OF OTHER STATES

We're all proud that Texas is a growing state. Each year thousands of people swarm here from other parts of the country to benefit from the many opportunities in business and industry. In addition to their skill and brainpower, these newcomers bring with them a variety of legal papers and ideas which are based upon the laws of other states.

We don't always remember that federal laws are only a part of our system and that each of the 48 states has "reserved powers" under the constitution to make its own laws. "States' rights" is one of the most jealously-guarded principles in American government.

Because of this difference in state laws, for example, a state like Nevada becomes a popular spot to get a divorce, many businesses incorporate in Delaware, and some other states become havens for quick marriages. But there are many lesser-known variations in state laws which can have quite a bearing on your legal affairs.

If you own property in another state, or prepared your will before moving to Texas, or have business interests elsewhere, no matter how small, the variations in state laws could make a difference to you and your family.

If one is new in Texas he should take a second look at his legal standing in the light of Texas law. If one should move

One of the "NICEST" days we observe in "THE DAY" set aside when we honor our "MOTHERS."

On this once-a-year occasion it is our custom to present to "THE QUEEN" of the family a gift. This gift may be a good deed or something material. The good deed is up to you, but we can help "YOU" with the material gift.

If you wish to select a "PERSONAL" gift may we remind you that every "MOTHER" likes to "DRESS" well. To go with her dress she may need "HOSE" or perhaps a pair of summer "GLOVES." To compliment her "COSTUME" she could use "JEWELRY" and "FLOWERS." If she is the "SKIRT" and "BLOUSE" type we have a pretty and practical array to choose from.

For an even more personal gift, you might browse in our "LINGERIE" department. There you will find the "SLIPS" she likes best; and you might find out before you shop if "SHE" prefers "GOWNS" or "PAJAMAS." We might mention that a "ROBE" or a "BED JACKET" is always welcome.

If you choose to give something for "HER" household one could never go wrong with a beautiful "BED SPREAD" or colorful "TOWELS." A delight to any "MOTHER" would also be fitted "SHEETS" in pastels or white.

We would like to have the privilege of showing "YOU" our suggested "MOTHER'S DAY" gifts.
