Local Markets

The sale at the Mills County Commission Company last Friday showed a good increase in number of head from the week before with a total of 5175 of sheep and 1660 head of cattle passing through the auction.

The market price on sheep was variable with some classes showing steady, some showing an increase and others showing a decrease. In the goat market all classes were down from the week before with the exception of good wethers and kids which remained the same as last week.

**SHEEP**  
Wethers, 15c to 17½c; aged wethers, 12c to 16c; stocker ewes, \$10 to \$12 per head; old ewes, 8c to 10c; old bucks, 8c to 9c; ewes with lambs, \$16 to \$28 per pair.

**GOATS**  
Good mutton goats, \$7 to \$9 per head; weighing kind, 7c to 10c; good nannies, \$8 to \$10 per head; cull nannies, 6c to 7c; wethers, \$6 to \$9 each.

**EGGS—PER DOZ.**  
Current receipt eggs were listed at 31c and 32c this week for large whites at 35c. Butterfat, 45c per pound.

**CHICKENS—PER LB.**  
Broilers 5c-6c; Hens 10c-11c.

According to an official report from Harry Allen, rainfall measured here since last report is .43 inch. This brings the amount of rain for the month of March to 1.31 inches with a forecast of sleet on March 18.

Don Reynolds And Dr. L. H. Pitt Have Record Sale Of Herefords

The PH Hereford Ranch sale recently was a record breaker according to information received here this week from Mr. and Mrs. Don Reynolds of Pittsburg, Texas.

February 24, 1958, will probably be a date Don Reynolds and Dr. L. H. Pitt will long remember. That day they had ten Hereford bulls in the sales ring which averaged better than \$20,000, which is one of the best bull averages in the United States. They also had 27 heifers in the sale which averaged \$3600 per head. Marion Reynolds had one of the top heifers which he sold to the Hull-Dobbs Ranch

of Walls, Miss., for \$5800.00. Don Reynolds states that he is very glad to have most of their cattle stay in the Northeast or in that section of Texas. Last year most of the cattle sold were to out-of-state buyers.

Mr. and Mrs. Don Reynolds and Marion Reynolds are all well known in Goldthwaite and Mills County. Both of these boys were raised in the county and attended school here; they also got their start in raising and showing of fine stock while in school. Mr. and Mrs. Reynolds were in the ranching business in Mills County before moving to Pittsburg to make their home.

**PH HEREFORD RANCH BULL**  
—reportedly the greatest of the breed. He weighs over a ton and is a top quality bull along with his mate. He has been seen by many a top cowman and liked by all.

He is the grandson of Essar Domestic W, 1949 National Champion, one of the great breeding bulls of the breed. He is out of J. W. Winkel's great breeding bull, WPHR Domestic

W. He is a 100% dehorner, he has never sired anything but a top calf. Half interest in this bull sold for \$26,500.00 to Greene Pastures, Elizabeth, North Carolina, last year, and he spends

half of his time there. This at one time was the world record price for a Polled Hereford bull, according to an announcement by Mr. and Mrs. Don Reynolds of Pittsburg, Texas.

Hale-Aikin Committee To Meet Monday Night

County Group Makes Grass-Roots Study Of Public School Problems

A statewide Hale Aikin Committee of twenty-four has been appointed and organized for the purpose of studying our public school system and for making recommendations for changes and improvement of our present system to the next session of the Texas Legislature.

This state committee has requested that a similar committee be set up in each county in Texas for a local study of our public school problems.

Mills County Committee is composed of the president of the County Board of School Trustees, the ex-officio County Superintendent of Schools, the president of each of the four district Board of Trustees, the superintendent of each school in the County, and five lay citizens nominated by the president of the Board of Trustees of each district in Mills County.

This committee is to study our school situation in these areas:

PROGRAM—(1) Subject of

ferings, (2) standards, (3) services, (4) instructional materials, (5) special programs.

**FINANCE**—(1) Use of State Available Fund in financing Public Education, (2) use of the Foundation School Fund in financing Public Education, (3) the role of the Permanent School Fund in the educational picture, (4) Direct appropriations from the General Revenue Fund for school purposes, (5) Financing school construction, (6) use of local funds, (7) the relationship between the State and local school district in school financing, (8) the high school transfer problem, (9) the

City Election Is Next Tuesday

The regular city election will be held next Tuesday, April 1. Voters will elect a mayor and three aldermen, all for a two year term.

Candidates whose terms expire this year are Mayor Wm. G. Yarborough, and councilmen R. L. Steen, Houston Duren and Joe S. Langford.

Candidates whose names appear on the official ballot are: For Mayor—Y. B. Johnson.

For Aldermen—I. W. Mauney and Joe S. Langford.

Three aldermen are to be elected. Only two candidates are on the official ballot, so, one alderman will be elected by a write-in vote.

Norman Duren Family Nominated Methodist Family Of The Year

The Norman G. Duren family of Goldthwaite was nominated as Methodist Family of the Year by the First Methodist Church Sunday night. Upon recommendation of the Commission on Education (Miss Love Gatlin, chairman) the Official Board approved the nominees of the local church in the National Methodist family of the year competition being conducted by "Together Magazine" and the Church's General Committee on Family Life.

Entries must be families where the parents are under 50 years of age, with two or more children, at least one of whom must be a teen-ager. Further special qualifications are that the "family exemplifies inspiring Christian family living," "family applied Christian ethics in everyday life," "family active in church and community life" and "family members are known as warm, good neighbors."

In the case of the Norman Duren family, a unique situation exists with three of the four members of the family being members of the local

Baptist Choir Rated "Superior" At Music Festival

The adult choir of the First Baptist Church of Goldthwaite received a certificate of award of "Superior" Wednesday night of last week for their entry in District 16 Music Festival at Brownwood. District 16 is composed of six counties.

Misses Betsy Glass, Peggy Rowlett and Linda Faulkner, the girls trio, received an "Excellent" rating award and Miss Barbara Burns received an "Excellent" award for her solo entry.

S. L. Tate is music director of the First Baptist Church.

ANNETTE DUNCAN WITH HER GRAND CHAMPION CROSSBRED FAT LAMB—At the San Angelo Stock Show, Annette was awarded \$240.00 for exhibiting the champion, also a nice trophy was awarded her. Pictured with Annette is the superintendent of the San Angelo Stock Show and a representative of the jewelry firm who presented the trophies.

Additional Signup For 1958 Acreage Reserve Program Probable

By LEE W. TABOR  
ASC Office Manager

The chairman of the local county ASC committee, E. L. Burkett, reports that most farmers who wanted to take part in the 1958 Acreage Reserve of the Soil Bank, but could not file signed agreements because of fund limitations, will apparently be able to sign up at the county office in the near future.

Both the Senate and House

of Representatives have approved a supplemental appropriation of 250 million dollars to provide for additional Acreage Reserve participation. This will bring the total to 750 million dollars for the 1958 program. Because agreement on some detailed program provisions must still be reached in House-Senate conference, congressional action on the supplemental appropriation is not complete. As soon as final action is taken, the county committees will get the go ahead for completing the signup. Preliminary steps have been taken by the State ASC Committee to prepare the way

See SIGNUP, page 12.

Other entries from the Mullin FFA Chapter were Roger Sanders, who exhibited the second place Crossbred lamb and Jean Pafford who placed sixth with a Crossbred lamb and seventh with a Fine wool lamb. The lambs were fed under the supervision of Argie Whisenand, VA teacher of Mullin schools.

The large trophy in the picture above is awarded to some chapter each year and this was the second year in a row for the Mullin Chapter to bring home the trophy; if they can win it again next year, then it is theirs to keep, as any chapter winning it three years in succession is sole owner of the trophy.

Annette's smaller trophy is an exact replica of the large one. Annette is the daughter of Mr. and Mrs. Taylor Duncan of Mullin.

Plans Are Being Completed For Easter Sunrise Services April 6

The Annual Easter Sunrise service for Mills County will be built upon the theme of the Risen Lord with the Rev. John Striepe, pastor of Zion Lutheran Church at Priddy as speaker. His sermon text will be, Matthew 28:5-6.

Again this year the service will be held at Cryar Mountain, the peak one mile South of the Courthouse on the Lometa highway. The hour is 6:00 a. m. on April 6. According to Walter J. Cartwright, president of the Ministerial Alliance, a parking

area will be provided off the highway to eliminate traffic congestion and Scouts and Explorers of this area have been asked to serve as ushers and parking guides. Guides with lights will greet all worshippers who arrive in the period before full daylight to help them locate the place.

Others participating in the service are Rev. B. F. Renfro, Goldthwaite Assembly of God, Invocation; Rev. Harold Orr, See SUNRISE, page 12.

### SOLILOQUY

#### FREE THE FARMER

The March issue of The Reader's Digest features a challenging article entitled, "Let's Set the Farmer Free." Its author is Earl M. Hughes—a successful Illinois grain and livestock farmer, an agricultural economist of note, and a former vice-president of the Commodity Credit Corporation, which handles the government's \$8 billion farm surplus hoard.

Mr. Hughes' solution to the farm problem is based on abandonment of "the impossible job of trying to legislate farm income through direct price supports." The government's main job, he believes, should be to help find new uses and markets for farm products, and then to turn farmers loose to produce in response to free market prices. And he cites an actual and outstanding example of how, in a free market, food consumption can be increased and diet upgraded.

Here is what he says: "At the sharp break in the price of beef in 1953 there were howls that Congress should fix prices on beef cattle. But most cattlemen figured that the real answer was to sell more beef to the housewife, not to the government larder. They joined with packers, retailers, farm groups and government in an intensive promotion effort. The housewife got a bargain, and we ate our way out of the beef glut. In the past five years beef consumption has jumped from 62 to 85 pounds per person per year. If the government had stepped in to fix prices and control production, we would have had a beef scandal to dwarf the 500-million-dollar potato fiasco of 1947-51, when millions of bushels were given away or destroyed with kerosene. And we'd have a sick beef industry today."

This isn't theory—it's hard fact. The meat industry has provided us with a blueprint for getting agriculture back on a free enterprise basis of operation—which is the only sound and secure basis.

#### ABOUT A DISHPAN

The following editorial is from the Cleveland, Ohio, Plain Dealer:

"Get a load of this, folks. The government has got out a pamphlet on 'Tools for Food Preparation and Dishwashing.' And it contains some information we'll bet you never thought of such as 'Dishpans should be large enough to hold the dishes but not too large for the sink.'"

"Well, what do you know? For years we had a dishpan that wouldn't hold the dinner plates and when we got a new one it was too big to fit in the sink. Now thanks to this advice from Washington, we'll go right out and buy an in-between-size dishpan and see how it works. We never would have solved the problem ourselves. And when it comes time to pay our income tax next year we'll be especially grateful to the bureaucrat who thought this up."

#### STRAW IN AN ILL WIND

If a bill now proposed in the Congress becomes law, the present system of unemployment compensation will be almost completely federalized.

The mechanics and mathematics involved are somewhat complicated. But the principle at stake is simple enough. Arbitrary federal standards would be imposed on the state unemployment compensation laws. And the states would be forced to pay far greater unemployment benefits, and for a longer period of time.

One result of that would be to add more fuel to the fires of inflation—at a time when the cost-of-living index has been steadily going up despite a decline in general business activity. For example, under the existing system, retailers and certain other businesses commonly enjoy low unemployment tax rates, for the reason that they stabilize their own employment. The heavy drain the proposed new law would impose on state unemployment compensation funds would mean the end of such favorable experience ratings. Inevitably, the higher cost would be paid by consumers.

In the view of a spokesman for the American Retail Federation, this "represents a deliberate attempt to increase the power of the Federal Government over the state unemployment compensation laws." Dollars-and-cents considerations to one side, the growth of federal power at the expense of the rights and obligations of the states has become one of the most critical problems the nation faces. The proposed new law is one more straw in an ill wind.

#### VIRTUES THAT MADE AMERICA

The nation is observing the 100th anniversary of the birth of Theodore Roosevelt.

Something he wrote has not lost significance with the passage of the years: "Americanism means the virtues of courage, honor, justice, truth, sincerity and hardihood—the virtues that made America. The things that will destroy America are prosperity-at-any-price, peace-at-any-price, safety-first instead of duty-first, the love of soft living and the get-rich-quick theory of life."

##### 10 YEARS AGO—

(Taken from The Eagle Files of March 26, 1948)

On Friday evening, March 19, at 9 p. m., Miss Billie Oden became the bride of Mr. Bobby Lee. Rev. Dick Lowrey read the impressive double ring ceremony.

Mrs. Mary Winsor received a message Monday that her brother, Frank Rahl, (son of the late James Rahl), had passed away after a two weeks' illness. He was laid to rest at Los Angeles, California.

Alton Jarrett, about 30, died at his home in Amarillo Thursday morning. Funeral services will be held in Amarillo this morning, and the body will be brought here for burial, which will take place sometime around 2 o'clock in Goldthwaite Memorial Cemetery.

Cynthia Dawn Walton who was born March 10, 1948 at Hamilton to Mr. and Mrs. Claiborne Walton of Route 1, Lometa, Texas. The mother's former name was Leona Patterson. Maternal grandparents are Mr. and Mrs. W. A. Patterson of Moline and Mr. and Mrs. J. C. Walton of Lometa are the paternal grandparents. Cynthia Dawn has a brother, Winston, age 5.

Miss Lula Belle Richey Allen, longtime resident of Goldthwaite, died at her residence, 10226 Humble Road, Houston, at 9 a. m. Tuesday. She was 80 years old at the time of her

death. Before moving to Houston three years ago, Mrs. Allen was very active in the Goldthwaite Baptist Church and the Order of the Eastern Star.

Mrs. T. V. Marshall and her small son, Vernon Eugene, who was born February 10, 1948, are visiting in the home of her parents, Mr. and Mrs. Hollingshead, Route 1, Mullin. Her husband, S/Sgt. Theodore V. Marshall, is at present in training in the state of Georgia as a paratrooper and will join his family, after a few days visit with relatives and friends.

W. E. Miller left the first of the week for Collingsville; he will also visit in Dallas with relatives before returning home.

##### 25 YEARS AGO—

(Taken from The Eagle Files of March 24, 1933)

County Clerk L. B. Porter reports that Presley VanZant and Miss Glenyth Dennis, both of Zephyr, have made application for marriage license.

People on the street here Wednesday afternoon rubbed their eyes when they saw a wagon load of seed cotton being driven down Fisher Street. Unusual as the sight was for the month of March, it was made still more remarkable when it was learned that the cotton had not been stored in the seed, but had just been picked.

John S. Brown, who lives

eight miles north of Mullin on the Comanche road, raised the cotton. With a sizeable herd of cattle to look after he did not have time to pick the cotton himself and could not secure pickers until recently.

Mr. and Mrs. Earl McCord of Dallas came in Sunday and spent several days visiting in the W. C. Urbach home. Mrs. McCord will be remembered here by many friends as Miss Poca Taylor.

Mrs. Earl Pearce underwent an operation in a hospital in Gorman a few days ago and is reported to be getting along nicely.

Miss Minnie Anderson of Brady spent the weekend in the home of her uncle, E. B. Anderson, in this city.

G. H. Frizelle & Company this week loaded out a car of wool for shipment to Boston. A large amount of mohair has been received and the market is quite satisfactory.

Mrs. Joe Taft and son, Jack of Cleburne, are here visiting her mother and sisters, Mrs. Lelfester and Mrs. Oltrogge and Mrs. Fox.

J. E. Greathouse, Lewis Hudson, Mrs. T. E. Todd, Mrs. L. P. Huddleston and Miss Clara Cortz of Goldthwaite Rebecca Lodge are attending the Grand Lodge at Greenville, Texas, this week.

J. C. Gibson and Miss Georgia Tolbert were married at the residence of the bride's mother in this city Wednesday evening at 8 o'clock.

Mr. Frank Stephens died Wednesday morning at Mart, where he had been for several weeks in the hope of benefiting his health.

Marriage license have been issued since last report to F. O. Wolf and Miss Dora Hopper; James C. Gibson and Miss Georgia Tolbert.

Miss Fannie Driskill, who is a teacher in Killeen public school, came home Friday night and remained until Sunday with home folks and friends.

The Self Culture Club held its regular annual election of officers Thursday afternoon at the home of Mrs. E. B. Anderson. The following officers were elected: Mrs. W. H. Trent, president; Mrs. M. E. Thompson, vice-president; Miss Kate Fairman, recording secretary; Mrs. H. E. Brown, corresponding secretary; Mrs. J. M. Skaggs, treasurer; Mrs. L. B. Walters, parliamentarian; Mrs. E. N. Boon, reporter. Mrs. Skaggs was elected delegate to the State Federation Convention at San Angelo in November.

A large crowd of young folks from Goldthwaite, chaperoned by Mr. and Mrs. S. P. Sullivan and Mr. and Mrs. H. G. Bodkin and Mrs. Moss were entertained at a banquet Tuesday evening at San Saba, given by the Young Men's Club of that city. M. E. Archer is having an addition built to his residence and

having the house otherwise proved.

Pete Grundy and his wife returned to Brownwood Tuesday after a visit to relatives and friends in this city.

#### Big Valley Club Makes Easter Gifts

The Big Valley Friendship Club met with Mrs. E. D. Roberson Thursday afternoon, March 20 and resumed work on their project, which is making gifts for hospitals. Forty candy dolls were completed for the children's hospitals for Easter gifts.

Next meeting will be with Mrs. Marvin Spinks, Thursday, April 3, and the ladies will make corsages for Mother's Day gifts for the ladies in the hospitals. All ladies interested in this work are urged to attend.

At the conclusion of the meeting Mrs. Roberson served delicious refreshments to ten ladies.

## NEWS from YOUR

### COUNTY AGRICULTURAL AGENT TEXAS A. & M. COLLEGE EXTENSION SERVICE

BY GEORGE G. REESE

External parasites are a constant menace to livestock and poultry and lower the producer's profits by decreasing production by sucking blood from the animals, transmitting diseases, and causing loss of energy by annoyance. But there is little excuse for letting these pests exist—something can be done about them, according to a leaflet just released by the Texas Agricultural Extension Service entitled "Texas Guide for Controlling External Parasites of Livestock and Poultry."

The leaflet gives detailed information on some of the more common pests, including some of their characteristics and the nature of the damage they do. It also contains a chart which gives some of the more serious and common parasites of beef cattle, dairy cattle, sheep, goats, swine, and poultry as well as the treatment for these parasites and some interesting remarks about them. Too, it contains a dilution chart for mixing sprays and the tolerances for residues of DDT, methoxychlor, malathion and toxaphine in the meat of certain animals. These tolerances have been established by the Pure Food and Drug Administration. Due to this fact, several insecticides have been omitted from the recommendations for livestock and poultry.

The following tolerances have been established:

DDT—7 parts per million in the fat of beef cattle, hogs and sheep.

Malathion—4 parts per million in or on meat and meat by-products from cattle, hogs and poultry; 0 parts per million in

eggs. Methoxychlor—3 parts per million in the fat of beef cattle, hogs and sheep.

Toxaphine—7 parts per million in the fat of beef cattle, sheep and goats.

Since residue studies indicate that if beef animals are sprayed, dipped or dusted with DDT, the tolerance will be exceeded, DDT is omitted from the recommendations for controlling pests of beef cattle. Do not use DDT on hogs or sheep within 30 days of slaughter. Toxaphine should not be applied to beef cattle, sheep and goats within 4 weeks of slaughter. Methoxychlor can be applied without restriction to beef cattle, hogs and sheep as recommended in this guide. Lindane should not be applied to dairy cattle or animals being finished for slaughter. Malathion should not be applied to lactating dairy animals or calves under 1 month of age.

This leaflet can be of much value to any operator who is faced with the problem of controlling external parasites of livestock or poultry. It may be obtained from my office. Request L-256.

There is still time to take soil samples and send them to the soil testing laboratory at Texas A&M College before most 1958 crops will be planted. If the samples are submitted in the very near future, they can be processed and recommendations returned in time for use this spring.

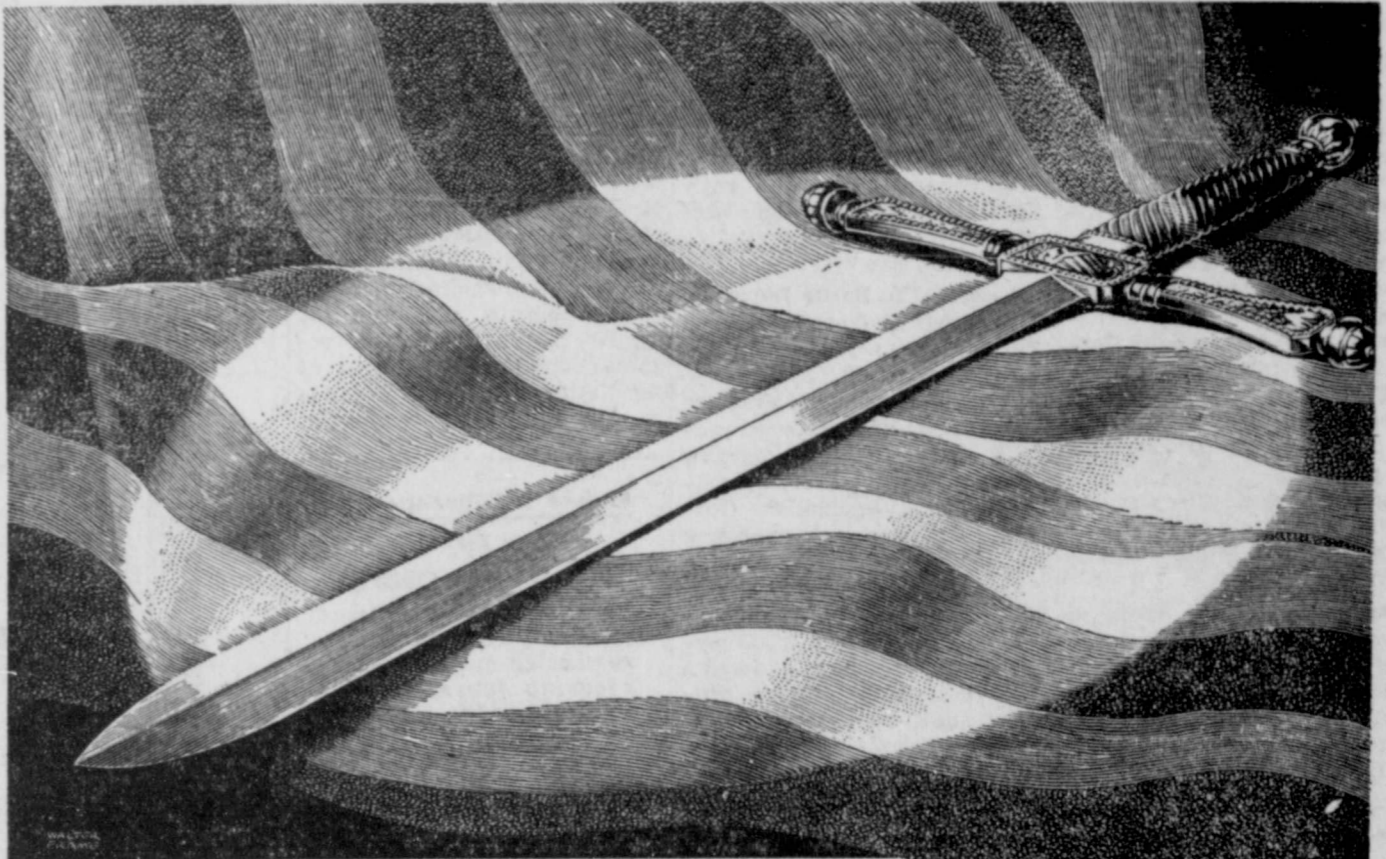

Plan before you plant is the basic rule for successful vege-

table gardening, says B. G. Hancock, extension horticulturist. Many vegetables grown in home gardens are wasted because too large a quantity of one vegetable matures at the same time. To avoid this trouble, Hancock suggests a succession of plantings in order to keep wastage to a minimum and more garden fresh vegetables over a much longer period of time.

## FREEDOM IS A MIGHTY SWORD

We Americans can rightly be proud of the fact that we are a peace-loving people. That our aim as a nation is to strive to improve human welfare, with freedom and justice for all. \*Such a people is always slow to anger, tolerant and patient. But when patience is exhausted, a peace-loving people can turn its peace-time skills into weapons of fierce and righteous wrath. There is only

one way such a nation could be enslaved. That would be through propaganda that misleads; through lack of knowledge, and of truth. America's greatest strength is...freedom of the printed word...to give the people truth, truth that builds freedom of thought, of word, and of vision. \*This great Freedom tempers the steel out of which a nation and a people can forge mighty swords.

**STATE CAPITAL**  
*Highlights*  
**AND**  
*Sidelights*  
by Vern Sanford  
TEXAS PRESS ASSOCIATION

**Austin, Texas**—Two super-charged issues—taxation and recession—like two strands of a high-voltage electric fence, seem to be twined through every area of Texas government.

Recession, though considered mild and temporary, is here and now. New taxation, in the light of official estimates, will be practically unavoidable next year.

Even though the recession is labeled "minor" and new state taxes the inevitable result of explosive growth, having both issues come up at the same time makes each seem worse. New tax talk, never popular, is even less so with people feeling the chill wind of a cut in income.

Barring an unexpectedly swift upturn in the economy, the twin issues will break through the middle of next summer's political campaigns. It'll be particularly rough campaigning for those who have to get on one side or the other of the taxation fence.

Some legislative candidates are already being asked, "If there has to be a new tax, what kind will you vote for?" Some say they haven't decided what they'd vote for, but will say what they'd vote against. Others say they're making no decision until after the State Tax Study Commission completes its reports.

**Lower, But Growing**—Latest report by the Tax Study Commission shows some of the possible directions in which Texas may have to move to get additional tax money.

It notes that: Besides Texas only two other states are without either a general sales tax, personal income or corporate income tax.

Texans in 1956 paid lower state and local taxes than the average for other states—\$129.50 per capita for Texas compared with \$157.50 per capita national average.

Rate of tax increase for Texas has been much faster than U. S. average. Texas rate of increase from 1953-56 was 23.4 per cent; national average, 19.4 per cent.

Commission's next report will deal with future spending needs, says Sen. William S. Fly, chairman.

**Unemployment Up Again**—Texas Employment Commission reports claims for unemployment compensation at a new high.

There had been a slight drop for the previous week. But lat-

est weekly tabulations showed TEC paid out \$1,435,448, compared to \$69,464 for the same week a year ago. Number of persons filing claims was 82,576, almost double the 42,705 who filed a year ago.

Even so, most recent nationwide figures show Texas to be a highly favored area. Labor Department's Bureau of Employment Security says that Texas has the lowest rate of unemployment of insured workers of any state in the nation—3.6 per cent here compared to 7.9 per cent nationally.

**On Plus Side**—Other business barometers tend to bolster the view that Texas' economy is weathering the squally weather well.

First 1958 reports from the Bureau of Business Research on overall business activity showed the January index up eight per cent from December, one per cent from January, 1957.

Texas Banking Commission's spring call for condition of Texas banks brought reports of hefty increases in money on deposit. Some cities showed drops in bank deposits, but in general they were up with some cities setting records or near records.

BBR's report notes that "although evidence of recession is plain, the strength of the state's economy is shown by its stubborn resistance to further decline."

A small increase in building activity in early 1958 may be the forerunner of a general revival of the home building industry this year, says BBR.

On the state's No. 1 economic headache—sagging oil production—a BBR spokesman says competition of cheap foreign oil could "flatten out" Texas' growth curve. Suggested antidote: bring in other industries with strong growth potential to "fill in the gap."

**Governor To Battle Imports**—Gov. Price Daniel has asked Washington to reduce oil imports.

He has presented evidence gathered by the state oil imports study commission on how Texas economy is hurt by cutbacks in oil production. Governors of other oil-producing states have joined him in asking that imports be limited to the 1954 level.

Though many economists predict that the problem of foreign oil is here to stay, Texas officials hope to gain at least enough relief to get the stymied domestic industry going again.

**DOOMED TO DIE**—These three children, shown with their mother, Mrs. Salvatore Campo, of Framingham, Mass., are doomed to die, according to doctors, unless scientists find a cure for cystic fibrosis. They are Robert, 4; Anne, 3; and Joan, 2. Mrs. Campo will live in fear for the next three months, during which doctors will be able to tell whether a fourth child, Joseph, also has the disease. (International Soundphoto)

**Juvenile Immunity Cited**—A proposal to allow criminal court trials of teen-agers who commit serious crimes may come before the next Legislature.

Dr. James A. Turman, director of the Texas Youth Council, suggested a study in this area at the joint Austin meetings of the Attorney General's Law Enforcement Conference and Texas Law Enforcement Foundation.

Turman said he felt that in some cases "chronic and serious" juvenile offenders were being over-protected by the law at the expense of society. Under present law boys under 17 and girls under 18 cannot be tried in criminal court. One "serious offender," related Turman, told officers, "You can't touch me. I'm a juvenile."

Not so in Canada, said a visiting speaker from the Royal Canadian Police. Canada has no minimum age for sending offenders to the penitentiary, reported the Mountie, and "we are not troubled by many murders and rapes by youngsters."

**Health Drive On**—Governor Daniel has joined a young father from Baird, Texas, Bob Stanley, in urging Texans to participate in the fight against nephrosis and other critical kidney diseases which claim thousands of lives each year.

Stanley, who has lost two children to nephrosis, visited Daniel recently and won his support in the campaign to organize additional chapters of the National Nephrosis Foundation in Texas. The Foundation

**HOW MUCH IN EXAMPLE?**

(A distinguished Texas judge offers pointers on combating our rapidly increasing juvenile delinquency problem.)

By JUDGE SARAH T. HUGHES

How much power is there in example to provide children with character-training that will see them through our complex and contradictory modern conditions?

Especially in their teens, when nature makes them particularly unstable?

Do you remember during the war how many people got more gas, coffee, and meat than they were entitled to? And how some even bragged about getting around ration limitations?

**Attitudes Are Contagious**

The children are bound to know these things. And if parents cheat and get away with it, isn't it all right to cheat at school? ... And then to cheat on property, the law?

If a child hears his mother tell his father an untruth, won't he feel that it's all right for him to fib just a little—and later a little more—if he needs to get out of a tight situation?

**The Contagion of Goodness**

Just TELLING a child to be honest, to speak the truth, is not enough. Moral-ethical ideals can't be inculcated by education and religion alone. Little effect will be had on behavior, still less on character, unless right attitudes become a part of the individual—that is, unless they have been learned through living—through constant example.

Perhaps all of us need a re-dedication to the old-fashioned virtues—honesty, truthfulness, industry.

**Community News From Mullin**

By MRS. JOHNNIE HOLLAND

Seventh and eighth grade students made a trip to Austin last Friday. They visited the following places of interest: Texas School for the Deaf and Texas School for the Blind. They also toured the State Hospital and the Texas Memorial Museum. They also saw some of the beautiful churches located there, and the State University. This was a most interesting trip for students as it tied right in with a number of things they have been studying in school. The school for the Deaf seemed to be a very interesting place to them. They said the children here seemed to be so happy, and they had lots of fun together.

The following folks accompanied them: Mrs. Tom Cooksey, Jr., Mrs. Melvin Bessent, Mrs. Howard Chesser, Mrs. Doc Shelton, Mrs. Lloyd Hutton, Mrs. Mable Conley, Mr. and Mrs. Hubert Reeves, and Mrs. Womack.

Mr. and Mrs. Bill Lowe Jr. and family of Harlingen and Mrs. Lilly Lowe of Midland visited in Mullin the past weekend.

Mr. and Mrs. A. H. Pickens made a trip to Goldthwaite last Saturday.

Mrs. W. M. Carlisle is ill at the home of her daughter who lives in Brownwood.

Mr. and Mrs. Chester Chancellor of Seminole were recent visitors here with relatives and friends.

Mr. R. E. Davis is ill at his home in Mullin.

F. H. A. girls of Mullin attended church services in a group at the Baptist Church Sunday. A group of young men from Howard Payne College (a quartet) rendered special music.

Mr. and Mrs. Jack Clendennen of Dallas were weekend visitors here with his parents, Mr. and Mrs. Jeff Clendennen.

Mrs. Don Geeslin and children of Goldthwaite were recent visitors here with relatives.

Mrs. Agnes Eaton and son, Jack, and family of Eola have been here visiting with Mr. and Mrs. Monroe Hilliard. Mr. Hilliard is ill, suffering from a heart ailment. His two children, Eric and Omega, have also been here visiting with their parents.

Mrs. Dan Goodwin of Blanket visited here recently with her sister, Mrs. W. H. G. Chambers, who has been ill.

Mrs. Ora Wilson is home after spending some time in a Brownwood hospital.

## NEWS from YOUR COUNTY AGRICULTURAL AGENT TEXAS A. & M. COLLEGE EXTENSION SERVICE

BY GEORGE G. REESE

### FERTILIZERS WILL BOOST PASTURE PRODUCTION

Pasture fertilization will pay! When only the initial cost of fertilizer is considered, farmers and ranchers often wonder if they can afford to fertilize their pastures. But when the returns are considered, it is obvious that the real expense is in the omission of fertilizer from the pasture, according to E. M. Trew, extension pasture specialist.

Pastures remove plant food the same as any other crop, says Trew. It is a common thing to double pasture and meadow yield with fertilizer.

Fertilizer will also improve and maintain the quality of forage, adds the specialist. If the soil is deficient in certain nutrients, the plants grown on the soil may also be deficient and cause adverse effects on livestock.

Other ways fertilizer improves a pasture is by helping maintain a proper plant mixture and by aiding the plants in the efficient use of water.

The proper time for fertilizing the pasture depends on the type of pasture and the season of the year. Permanent warm season plants such as Bermuda should be fertilized in early spring before the summer plants begin to grow. Permanent cool season plants show best results if the fertilizer is added in early fall ahead of their growth. Temporary pastures should be fertilized before or at the time of planting.

Phosphate and potash should be worked into the soil either ahead of or at planting in the case of temporary pastures and may be put in during renovation or cultivation of permanent pastures. Nitrogen may be applied to the surface. It should be used as a side or top dressing only when adequate moisture is available.

Trew advises a soil test to determine the exact needs of the soil. A dollar for a soil test is the best fertilizer dollar that can be spent.

### BROODERS WILL REDUCE PIG LOSSES

Pig losses, due to crushing and chilling, can be greatly reduced by the use of pig brooders, says E. M. Regenbrecht, extension swine husbandman.

The most critical time in a pig's life is the first few hours after birth when about 25 per cent of all losses occur as a result of chilling or crushing. About 75 per cent of all pig losses take place within the first two days after farrowing, he adds.

## Questions And Answers About Social Security

**Question:** I receive a pension from the Veterans Administration. Will this affect my receiving social security benefits?

**Answer:** Pensions and retirement pay are not wages under any circumstances for social security purposes. They are not considered earnings and will not affect payment of social security benefits.

**Question:** I am a silent partner in a business and I plan to retire. Will the income I receive from this partnership affect my social security payments?

**Answer:** If you do not do any work in connection with the business, the income from it will not stop your social security checks.

**Question:** If I retire and my wife keeps working, will her income affect my social security benefits in any way?

**Answer:** Your social security benefits based on your own earnings are in no way affected by your wife's earnings. Only when you work and earn in excess of \$1200 a year will you have some checks held back.

**Question:** I expect to earn about \$1000 this year working part-time for a painting contractor. I also make about \$1200 a year in rental income from a small apartment house I own. I was 65 years old last December and was retired at that time after 20 years under social security. Would I be able to draw any social security benefits for this year?

**Answer:** Yes. Rental income, insurance annuities, stock divi-

dens and pensions do not count in determining your right to receive monthly social security insurance payments. Since you can earn up to \$1200 in a year and still draw all your monthly payments, you would be entitled to 12 checks this year if you earn only \$1000.

### Farmers Home Administration Loans Available To Eligible Applicants

Farmers and ranchers are showing increasing interest in the Farm Housing loan available through the Farmers Home Administration according to a statement today from Aston W. Cole, County FHA Supervisor.

Farm Housing loans are made to eligible applicants to construct, improve, alter, repair, replace, or relocate a dwelling or other essential farm dwelling on the farm. This includes the purchase and transfer of an existing dwelling or other building to the borrower's farm. Loan funds may also be included to provide a water supply for dwellings and other farm buildings, including such facilities as wells, pumps and farmstead distribution systems, which are essential to the health and safety of the family or necessary to the successful operation of livestock enterprises.

Applicants may design their own plans and specifications. Farm Housing loans may not be made where housing or other farm building plans will appear

### '58 Conservation Reserve Funds Still Available

**By LEE W. TABOR**

Funds allocated under the Soil Bank's 1958 Conservation Reserve are still available in Mills County to cover additional farmer-participation. E. L. Burkett, Chairman, County Agricultural Stabilization and Conservation Committee, declared today. He reminded farmers that applications to participate in the program must be filed in the County ASC Office by April 15, the deadline for sign-up under the 1958 Conservation Reserve program.

Of the funds allocated for the 1958 program, Mr. Burkett points out that about \$2258 is obligated for annual and cost-share payments under contracts signed by County farmers as of March 24, 1958. About 180 acres of the County's cropland are covered by 1958 contracts signed thus far.

The Conservation Reserve is the long-range part of the Soil Bank, under which farmers may sign contracts to divert general cropland from the production of crops to soil- and water-conservation uses, tree planting, and wildlife protection for periods of 3, 5, or 10 years. Payments up to 80 percent of the cost of establishing a conservation practice may be made to participants under the 5- and 10-year contracts. All participants who comply with provisions of the program receive annual per-acre payments (on the "reserved" land) for the duration of their contracts.

to be significantly more expensive than similar buildings on farms in the community.

An eligible applicant must: (1) Own a farm which (a) will produce a substantial part of the operator's annual cash income and (b) is large enough to be considered a farm; (2) Have sufficient farm and other income to pay farm operating and family living expenses, and meet payments on existing debts including the proposed farm housing loan; (3) Be without sufficient resources on his own account and unable to obtain credit needed to finance the construction, repair, or improvement of homes and other farm buildings; (4) Have the ability, and experience necessary to carry out planned farming operations and other housing loan requirements; (5) Be a citizen of the United States.

The interest rate on farm housing loans is 4 per cent per year on the unpaid principal. Loans are scheduled for repayment within the shortest time consistent with the borrower's ability to repay. In no case will the repayment period exceed 33 years. Each loan will be adequately secured by a mortgage on the farm, subject to any existing prior liens.

The County Committee of the Farmers Home Administration must certify that an applicant is eligible for a loan. FHA Commitmentmen in Mills County are: Oran W. Carothers, Chairman; Layart C. Schwartz, Member, and Frank Kerby, Member.

### TS&GRA Requests Public Hearing On Labor At Eagle Pass

San Angelo—An urgent request for a public hearing at Eagle Pass on the Mexican National labor program has been made by the Texas Sheep & Goat Raisers Association.

A telegram from T. A. Kincaid, Ozona, TS&GRA president, to Senator Lyndon B. Johnson and Congressman W. R. Poage (D-Texas), Vice Chairman of the House Agriculture Committee, pointed out that "the livestock industry of Texas is placed in jeopardy because of recent action by certain officials of the Mexican Government in refusing to permit the contracting of braceros for ranch work."

Kincaid said that the purpose of the hearing he was requesting was for determining the cause and effecting a remedy for this most serious situation. "Braceros are practically the only source of labor in this

area," he added, "and a shortage of ranch labor is certified by local offices of the Texas Employment Commission. Lambing and shearing season which is a critical time is here and the extra labor is essential."

Kincaid stated that Association officials had received definite assurances on February 12 from Robert C. Goodwin, Director, Bureau of Employment Security that nothing would interfere with processing the specials. For a short time processing did go on but stopped abruptly on March 18. There have been no specials since that date nor any action from the Department of Labor, he said. Kincaid added that Mexico was not permitting the passage of any braceros at Eagle Pass as specials and for those reasons he had asked for the Congressional hearing.

## Rites For Mrs. Annie Schulze Conducted Saturday, March 22

Annie Witty Schulze, 78, of Fort Worth, passed away at a Fort Worth hospital, Saturday, March 20, 1958. She was born in San Saba December 1887. She was married to Schulze of Kansas City, October 15, 1913, living there until 1947, when she moved to Fort Worth.

Funeral services were held in the Methodist Church of which she was a member in Fort Worth and graveside rites were conducted by Rev. Jesse Long at the Hurst Ranch Cemetery Saturday afternoon.

Survivors are two daughters, Mrs. Lou McClure, Kansas City, Mo.; Mrs. Oscar Wood, Dallas; Mrs. Wilbur of Dallas and Mrs. J. W. Hamilton, Fort Worth; four sisters, Mrs. Melvin Roberts and Mrs. John and Jim Witty; and several nieces and nephews. Burial will be in the graveside services at the Hurst Ranch Cemetery Saturday afternoon.

Clarence Nolan and Joyce, Mrs. Billie Nolan, Mr. and Mrs. Charlie Rich and Mrs. George Beauchum, all of Fort Worth; Mrs. Luke Chilcutt and Mrs. Frank Chilcutt of Springtown; Mrs. S. A. Puckett, Houston; Mr. and Mrs. Johnnie Soules of San Angelo.

Also Mr. and Mrs. Huel Coleman, Dallas; Mr. and Mrs. Dick Ezell, San Saba; Mr. and Mrs. Hansel Ezell and family, Fort Worth; Mr. and Mrs. Carl Schulze and Mr. and Mrs. Jones of Kansas City; Mr. and Mrs. Ray Schuller and daughter, Fort Worth. Mr. and Mrs. Lee Witty, Lubbock, and Mr. and Mrs. Melvin Roberts of California were unable to attend the funeral.

We had all kinds of weather: rain, sleet and snow, last week. Some folks managed to get a little garden planted.

The Long Huting Club members have been doing some hunting; they chased several fox and the hounds killed one. A number of folks have been fishing most every time the sun shined. You see the fishermen buying new hooks and lines and something to repair the old ones with.

Ralph Nowell of Denton has moved home and is going to try his hand at farming and ranching.

James Eddie Price has finished his barber course at Dallas and is now employed in a shop in Houston. We all wish for him much success.

Several folks have asked me about the Mills County History. It is now in the hands of the publisher. Mrs. Cecil Parker of Hamilton and Mrs. Floyd Manue were taking orders for the history, Saturday afternoon. They gave me several pages of the preview and I did not even get home with one, much less a few for my neighbors. I can hardly wait to see a copy of the book. I think Ruth and Margie are doing a good job with their work.

Mr. and Mrs. W. W. Williams received word Saturday that their daughter, Mrs. Roy Bankhead, was doing nicely.

Mr. and Mrs. W. O. Oden and Mrs. Jewell Ivy received word Saturday by telephone from Denver, Colorado, that Mr. and Mrs. Joe Ivy were resting comfortably and doing as well as could be expected at this time.

R. F. Daniel and Floyd were driving on the highway Wednesday afternoon and a wheel on the pickup came off. The pickup was loaded with livestock and as they were driving slowly no serious damage was done.

Mrs. Verda Price of Dallas spent the weekend with her parents, Mr. and Mrs. V. T. Stevens, and the children.

Bob and Ruth Reynolds visited Mr. and O. A. Evans Saturday night.

Mr. and Mrs. Oil Brown and Mrs. G. W. Mason were guests last Sunday of Mr. and Mrs. O. H. Harris, Ray and Roy.

Mr. and Mrs. Fate Williams of California were guests of Mr. and Mrs. Dave Phillips recently. The 4th of April will be the meeting date at the Community Center. Everyone is to bring a covered dish.

Mrs. Christina Lodico left for her home in New York Friday night, having been here with her father, Mr. N. H. Poe. Mrs. John Witty visited Mrs. Carrie Carswell Thursday.

Mrs. Red Arrowood called in the home of Mrs. Ruby Hunt Sunday morning. Mr. John Witty's sister, Mrs. Annie Elizabeth Shulze passed away Thursday and was buried at Hurst Ranch Cemetery Saturday afternoon.

Mrs. Paul Lee and mother, Mrs. M. L. Truett, attended

funeral services for her son's mother-in-law at Caradan. Mrs. Ina Hicks spent several days with her niece, Mrs. Shelby Hawkins.

Mrs. Webb Laughlin was a guest of Mrs. Paul Kincheloe Thursday morning. Mrs. J. D. Hunt and Marvin visited her parents, Mr. and Mrs. Bob Black at Star.

Mrs. Townsend Butts, Gary and Cathy of Lampasas and Gerald Adams were guests of Mr. and Mrs. Clem Adams Sunday.

Mr. and Mrs. Frank Adams and baby spent Friday night and Saturday with her mother, Mrs. Hall, at San Saba.

Mr. and Mrs. Nort McLean of Lometa were guests in the Webb Laughlin home Saturday morning.

*It takes time to grow...*

A good farmer knows what his crop needs: sunlight, soil, enough rain . . . and time. Each contributes, each is important. In fact, any one of them can spell the difference between a good harvest and a meager one.

People have to grow, too . . . and the growing season lasts a lifetime. Like plants, we also need some outside help along the way: a family to grow up *in* . . . friends to grow up *with* . . . and Faith to guide and strengthen us.

Most of us take our Faith pretty much for granted. Like all familiar things, we just assume it will be there when needed. The point is, it's needed *all* the time . . . every day, every week, all our lives.

Begin now to make sure your Faith is strong enough to weather whatever storms may lie ahead. And help your children find that same strong Faith. Take them with you to your Church or Synagogue this week . . . and *every* week.

Find the strength for your life . . . worship together this week

# Clementine Wilmeth Briley Writes From Temporary Home In El Paso

By CLEMENTINE WILMETH BRILEY

According to our calendar, to-morrow (March 20) is the first day of spring, but over the radio I heard of snow and severe cold much of the United States, even in Texas. Here in El Paso the weather is balmy. I went outdoors a good part of the day setting out chrysanthemum plants. I called my friends and said they wanted plants and several came. But even with all the help I will have many to throw away. One friend said she would give me a bronze chrysanthemum. Another said she would give me an early blooming purple one to go with my white ones in full bloom in a corner on the west side of the house. I have a long row of fine irises that will bloom later.

My row of daffodils and pansies are a joy. They are in full bloom and are so beautiful that I thrill me to ecstasy. According to El Paso's 32nd Annual Flower Show got off to a start yesterday with a luncheon at the Cortez Hotel. The Flower Show will be on April 26, 27 at the College. It is a beautiful affair. I thought my friend, Mrs. C. Cunningham, who recently gave me the pink canna and blue lilies, is quite prominent in El Paso's garden club activities. In Monday's paper her picture was included in a group of El Paso's Flower Show Judges.

We were really having good attendance at church lately. The auditorium is crowded every Sunday morning. Bro. Crews has already announced that we will have two services Easter Sunday morning, as last year. Attendance was more than the auditorium would hold. Last Sunday when we got to church I put out my foot to get out of my car and discovered that I was still wearing my old, everyday, white ones. I thought, "Well, I can't help it now. I'll

just have to wear these and let people think what they will." But Grace said, "No, get Bill to take you home and get your shoes." This we did. It made us late for Sunday School, but otherwise it saved the day.

Tuesday night we had another called meeting of the El Paso Texas Woman's Press Association at the Library. Mrs. Florence Bozo of Schulenberg, State Vice President, was here to speak to us. She began by having each of us introduce and say something of the person on our right. I was at the end of the line and was on nobody's right. She called on our president to say something about me. She had to admit she didn't know anything about me. But the person on my right had met my daughter. So she said, "She has a lovely daughter and she babysits with her grandson while his mother teaches school."

In her talk Mrs. Bozo mentioned Dr. Leslie Chambers. He is one of America's foremost scientists in nuclear physics. Recently he came to TCU to receive an award for some of his extraordinary findings. Mrs. Bozo knew him and interviewed him. She stated that he said, "Science is the art of self expression." After we had adjourned and gone down stairs, I said to her, "Mrs. Bozo, have you ever heard of Add Ran College?" She said, "I surely have. Dr. Chambers' father was in the first graduating class at Add Ran." "My father," I said, "delivered the first graduating address at Add Ran in 1876."

She replied, "It's a small world after all, isn't it?"

Governor Price Daniel reaches, with a look of keen anticipation in his eyes, for the Easter Turkey presented Texas' chief executive by the Texas Turkey Federation. The bird was presented to Daniel by Mr. and Mrs. Hardy Tidwell of Desdemona. Tidwell is president of the Texas Turkey Federation, and the purpose was to call attention to the fact that turkey supplies are huge, prices are reasonable, and turkey is now an established Easter dinner delicacy. Turkey in storage is 37% above the ten year average, according to recent USDA reports.

Everyone who fishes for bass hopes some day to land a grand pappy. Not that they are any better eating... it is just the pride in catching one bigger than you've ever taken before.

Well, if you've tried everything else, here is a suggestion that may be worth something. It has paid off. Whether it does for you may depend on luck as well as ability.

Some call it jigging. Actually it is just plain fishing. You might call it bottom fishing with a heavy rig. But it does, occasionally, pay off with a big bass.

Naturally you must have good bass water. Always in bassy water there is an area that looks good, but is unworkable with light lines. You can do it, however, with a heavy rig.

but don't take the lure out. Finally the old bruiser can't stand it any longer and he rushes it.

Set your hook and start up, all with the same motion. Don't give him a chance to wrap the line around a limb or crawl under a fence. More depends upon your retrieve than most anything else. That's the reason you need a good heavy line, one with which you can hoist him out.

When you are fishing for the big ones it is man against fish. If you land the fish you are the best. After you get him on the stringer find a new location and start all over again.

Will it work? Try it yourself. There is another way you can use the same rig, except for the lure. This time use a deep running, large plug. You might even want a trailing jig. Troll it fast through good bass water, and deep. That's why you'll need the heavy equipment, so you can pull it deep.

This is being done every day in Texoma with wonderful results. You may not do it the first time, but the idea is worth a little practice.

Again, will it work? Again, try it.

**Hawaiian Lures**—Twenty-five years ago a fisherman in Ohio by the name of Fred Arbogast was testing out lures to see what effect they would have on catching fish. There was something about a Hawaiian skirt that intrigued him, so he made a skirt for an original lure and called it the Hawaiian Wiggler.

It didn't take long for this lure to catch on. Every man

wanted one in his tackle box because it was a bass killer. Since that time Fred has gone on to his reward, but his Hawaiian Wiggler lives on. More than 14 million of them have been sold.

This year a number of silver Wigglers have been made up for presentation to a few long-time users. I am proud to have one.

**Gar Fishing**—It won't be too long until gar fishing will be coming along again. Over near Madisonville they are catching some of these big tackle busters already. Recently two were taken in Blue Lake on the east side of the Trinity, about 25 miles northeast of Madisonville.

One of them weighed 118 pounds and the other 74, with more than a score of smaller ones.

The gars were taken in gill nets. However, they can be taken on rod and reel and there is plenty of fight in doing it.

**Ice Fishing**—We don't have ice fishing in this part of the country, but occasionally we do have some real chilly weather. Fishermen on Lake Texoma have found a way to help overcome some of the chill. They are using charcoal heaters in their boats.

Others use gasoline stoves for the same results. While we believe in comfort,

we hesitate to recommend a stove for a small boat. It's taking a lot of chance, especially in a boat where there is a gasoline tank or extra can of fuel.

Rocking of the boat, a gust of wind or even excitement while boating a fish could cause a terrible tragedy. If you've never seen a boat on fire in the middle of the lake, with its passengers struggling in the water, we can tell you it's not a pleasant sight.

Speaking of cold weather. Early morning fishing is chilly even in late Spring. If you want the big economy size of warmth—take along a Jon-e, jumbo-size warmer. It's a new self-starting, lighter-fluid type of hand-warmer, only it's giant size.

Aladdin Laboratories of Minneapolis has just produced this big one, patterned after their famous lighter - size hand-warmer. It has an easy starting, no flame heater, and also serves as a handy cigarette lighter. I'm told they also have a belt that you wear close to the body for real cold days. Resembles an old-time money belt and has two pockets in the back for inserting the warmers.

Natural—"Lifelike and true-to-

nature" is how Burke's Flexo-Products Co. refers to their new Flexo-Lures. Plastic lures seem to be growing in popularity, and this Traverse City (Mich.) manufacturer is making artificial bait that is as realistic as can be.

They now produce everything from artificial red ants, to floating frogs and the most "natural" eels. Especially "tempting" is their Flex-Minnow for spinning, trolling or casting. Sure hard to tell 'em from the real McCoy.

**De-Liar**—Got a fisherman friend to whom you'd like to present an inexpensive little gift? Here's something he'd appreciate. It's only a \$2 item but it's quite a little gadget.

We're talking about the fisherman's DE-LIAR. It's a combination scale for weighing (up to 8-pounds) and a 24-inch retractable steel tape for measuring length. Right clever little all-metal gauge that's no bigger than a cigarette lighter. It's made by the Langley Corporation of San Diego, Calif. They have sold 3,000,000 of them in the past ten years.

### Some Thrifty Recipes High In Taste Appeal

By ALICE DENHOFF

SMOKED Beef Tongue, served with a delicious sauce, is mighty good fare. It's easy on the budget, too.

As for the sauce, here is a recipe that really raises beef tongue to epicurean heights. However, it requires careful preparation.

To boil the tongue, soak it several hours, or overnight, in cold water. Cover with cold water. Add tsp. salt and simmer, covered, approximately 3 hours or until very tender.

Trim off roots and slip off skin. Save 2 c. stock. Keep hot.

To Make Sauce  
To prepare sauce, put beef butter in saucepan. Stir in tsp. flour and add a medium-sized, finely chopped onion and cook about 5 min., stirring constantly.

Gradually add the 2 c. beef tongue stock and boil 5 min. longer.

Add a finely sliced and quartered lemon, ¼ c. sliced, blanched almonds, ¼ c. raisins, 2 whole cloves, ¼ tsp. ground cinnamon and tsp. vinegar. Sweeten with tsp. maple syrup and 4 tsp. sugar, caramelized by cooking over low heat until liquefied and brown.

Cook 45 min., until sauce is well reduced.  
Place tongue in sauce. Boil together, basting tongue, 20 min. Remove tongue, slice and serve covered with the sauce.

Mustard Mayonnaise  
A Mustard Mayonnaise Sauce will give a lift to cold tongue.

To prepare this sauce, beat 1 egg yolk together with ¼ tsp. salt, ¼ tsp. pepper, dash of paprika, ½ tsp. dry mustard, dash heated through. Serve at once.

"PALM SUNDAY"  
John Mark of Jerusalem,  
Eyewitness of the Things  
of Jesus Christ.

When they came nigh to Jerusalem, at the Mount of Olives, he sendeth forth two of his disciples, and saith unto them, "Go your way into the village over against you: and as ye be entered into it, ye shall find a colt tied, whereon a man sat; loose him, and bring him. And if any man say unto you, 'why do you this?' say ye, 'The Lord hath need of him; and straightway he will send him hither.'"

They went their way, and found the colt tied by the door in a place where two oxen were yoked; and they loosed him. And they said unto them, "What do ye doing?" They said unto them, "The Lord hath commanded: and let them go. And they

brought the colt to Jesus and cast their garments on him; and he sat upon him. And many spread their garments in the way; and others cut down branches off the trees, and strewed them in the way.

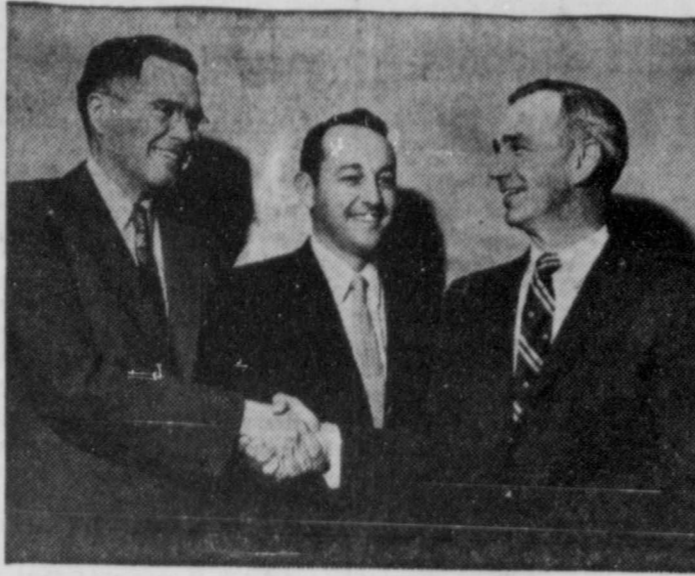

They that went before, and they that followed, cried, saying: "Hosanna; Blessed is he that cometh in the name of the Lord: Blessed be the kingdom of our father David, that cometh in the name of the Lord: Hosanna in the highest."

Farm And Ranch  
Jobs Available  
In Central Texas

Lonnie H. O'Dell, Manager of the Austin Office of the Texas Employment Commission, states that his office now has a number of farm and ranch jobs available within a hundred mile radius of Austin and believes that other such jobs will be open this Spring. With the scarcity of jobs in industry and recent layoffs, Mr. O'Dell is of the opinion that many qualified farm and ranch hands are without work and should be willing to return to agricultural jobs.

For the past several years farmers and ranchers in this area have had quite a struggle attempting to secure adequate help to carry on essential operations. Many have had to resort to the use of Mexican Nationals. O'Dell invites anyone desiring farm or ranch work to contact his office at 115 San Jacinto Street in Austin or write the Texas Employment Commission, P. O. Box 812, Austin, Texas. He also invites any farmers or ranchers needing workers to place an order with his office.

Arnold E. A. Roitsch, Farm Placement Representative, was a visitor in Mills County last Thursday.

PRIDDY 4-H CLUB  
MEMBERS WINNER OF  
"SHARE-THE-FUN" CONTEST

Members of the Priddy 4-H Club were chosen the winner of the "Share-the-Fun" contest Saturday night, March 22. Mildred Spinn, Dianla Oliver, Linda Driskill and Judy Goerdel blended their voices in singing "Put A Light in the Window" for the blue ribbon.

The red ribbon went to Ther-

esa Faye Stegemoller, Kathryn Limmer and Bonnie Spinn who sang "Catch A Falling Star."

Third place winners were a group of Goldthwaite 4-H girls, Wanda Warlick, Sue Childress, Linda Geeslin, Janice Parker and Sandra Arnold. They gave a skit called "Up-To-Date Doctor."

Approximately 50 4-H members and their parents attended the covered dish supper and "Share-the-Fun" contest held at the Youth Center.

I was reading a letter from Mrs. R. O. Pearson, volunteer State Advisor of the National Foundation for Infantile Paralysis yesterday.

In her letter she stated that manufacturers of Salk Polio vaccine are being forced to destroy hundreds of thousands of doses. About 25 million shots are stockpiled with little demand during this season of low incidence when the public tends to forget polio, and unused vaccine must be destroyed after six months.

It seems like a crime that after 20 years of research to end polio, "human procrastination and cussedness" (to quote from her letter), would force the destroying of the vaccine when there are still 39 million people in the high incidence group under 40 years of age who have not yet begun the series of shots.

Mrs. Homemake, have you and your husband had the three shots? Now is the time to start them for protection during the polio season. All three shots, properly spaced, are required. Have you stopped to think what would happen to your family if you should be a polio victim? Several young adults have been stricken with polio. It could happen to you.

WORK SAVING SHRUBS

Many of our common shrubs can be listed as work saving shrubs if they are planted in the right places, and if soil preparation is made ahead of time.

In listing jobs required by shrubs watering and fertilization head the list. Rated as second and third are the problems of disease and insect control and pruning.

One mistake which many people make is in the use of

young trees as shrubs. This results in later pruning problems and lack of balance in the landscape plan.

With the ranch type house that many people are building these days, special attention should be given to the use of true shrubs. . . That is, shrubs that will not grow over 8 to 10 feet tall even if they are neglected for several years. There are many of these shrubs which will survive with very little water and which have few insect enemies and diseases. Examples of such shrubs which might be used near the house are nandina, abella, rosemary, lavender, fitzer juniper, dwarf pyracantha, flowering almond and others.

Attractive plants which require little water and are suitable for use in screen plantings and wind breaks include althea, Arizona cypress, cherry laurel, French mulberry, crape myrtle and desert willow.

Careful selection and placement of shrubs in the landscape plan will result in satisfaction for years to come—and save work, too.

In case of rain in the 24 hour period preceding the Sunrise Service, arrangements have been made to hold it in the Goldthwaite High School Auditorium. Otherwise the service will be held in the out-of-doors as planned.

**NOT THE HAT  
BUT THE HEART**

"I can't possibly go to church," said Mrs. Jones, "I have no Easter Hat."

"Don't be upset about that," said her husband. "Your blue hat looks very pretty."

But Mrs. Jones felt that she would stand out like a sore thumb with her last year's hat. She knew most of the other women would have new outfits, and she didn't want to be the exception.

"Let's just stay at home," she suggested. "We can worship here!"

"I'm not so sure God would approve of that," her husband pointed out. "You see, if you did that, it would show Him that you placed your hat above your heart. And God is more interested in hearts than hats."

Mrs. Jones had to agree. It wasn't the hat that counted, but the heart. They attended church that Easter Sunday... with an old hat, but a new heart.

In your new hat or old, in fancy clothes or plain, you are invited to worship with your friends and neighbors at the Easter Sunrise service.

The Mills County Committee has already had one meeting. All four of our schools had a good representation, and interest was high. It was decided that the local committee of each school district would study the situation and educational problems of its particular district and that the county committee would meet again at 7:30 p. m. on Monday, March 31, in the library of the Goldthwaite High School. This is to be an open meeting. Any person interested in our schools is invited to attend this meeting.

The Mills County Hale-Aikin Committee is composed of the following:

**OFFICERS**

President—John L. Patterson  
Vice-President—Ernest Lynn Fisher, Mullin

Secretary—Mrs. N. L. Mosier, Mullin  
Reporter—Mrs. Cleo Rhoades, Goldthwaite.

**MEMBERS AT LARGE**

**Mt. Olive Primitive Baptist Church To Begin Meeting Fri.**

Mt. Olive Primitive Baptist Church will begin a three day meeting tomorrow morning (Friday) and will continue through Sunday, March 30. Services will be held daily at 11 a. m. and 7:45 p. m., conducted by Elder J. W. Chambers of Lampasas and Elder Curtis Ripley of Goldthwaite.

Everyone is most cordially invited to attend the meeting.

**Guest Speaker At Center City On Good Friday**

The Reverend Charles L. Giesler, pastor of First Methodist Church, Fredericksburg, will be the featured guest minister in a special Good Friday worship being planned for the Methodist Church of Center City. The service begins at 3:00 p. m. on Friday, April 4.

The Reverend Giesler served as pastor's associate for two years at Travis Park Church in San Antonio and then as pastor of the Methodist Church in Lyford, Texas, for four years before taking his present pastorate in May of 1957, at Fredericksburg.

The people of Centery City are inviting their friends of surrounding communities to join them in this Good Friday worship hour, Pastor Jess E. Long has announced.

for immediate action when the supplemental funds are authorized.

In addition to farmers, who have already filed signed agreements, which were in general covered by the initial appropriation for the Acreage Reserve, other eligible farmers will be in position to take part in the enlarged program. These will include those whose names are on the waiting list registers at the county office, and possibly others where there is evidence that they made an attempt to participate during the signup period.

While it is expected that in general funds will be available to take care of all farmers, who indicated that they would take part in the program if it was enlarged, there is a legislative annual limitation of 300 million dollars for the Corn Acreage Reserve. Because the total of signed agreements and other applications on waiting lists would call for more than 300 million dollars, if all the corn applications were completed, some adjustment will be necessary for this crop.

Public notice will be given promptly when the County ASC Office is ready to sign additional acreage reserve agreements. Mr. Burkett says that in the meantime the county office will be prepared to furnish general information but that farmers should not attempt to sign up agreements until official announcements are made.

**Dates Changed For Drivers License Tests In Goldthwaite**

Major W. J. Elliott, Regional Commander of Department of Public Safety for this Area announces that due to assignment of additional personnel and re-arrangement of schedules it has been necessary to change the date that Examinations for Drivers License will be given in Goldthwaite.

Effective March 31, 1958 Drivers License Examinations will be given in Goldthwaite on each Saturday until 12 noon. Examinations will begin at 8:00 a. m. The office location has not been changed.

Drivers License Patrolman Charles R. Clark has been regularly assigned to this Area.

Mr. and Mrs. Clark (Viola Ruth) and daughter, Debra, age 20 months, are now at home at 704 Reynolds Street. The Clarks are both members of the Lutheran Church.
