The Goldthwaite Garden Club, in co-operation with city officials, is sponsoring a clean-up campaign April 28 through May 3. All home owners are requested to do their part in the clean-up drive which gets underway Monday. In a survey of the city it was found that numerous vacant lots and alleys were overgrown with weeds and grass.

The city is giving the fullest cooperation to the Garden Club's big annual civic project in the hope that this year's clean-up week will be more effective than ever before.

City trucks will be made available for hauling away trash, rubbish and debris, according to W. C. Barnett, city manager.

All city residents are requested to do their part in the clean-up drive by placing all trash in a pile where it is easily accessible for the trucks to pick up, Friday, May 2.

Pride is shown in almost all yards and around many business houses in Goldthwaite.

Everyone is urged to clean-up, paint-up and "Create Beauty for Goldthwaite."

VIC'S . . .

SOLILOQUY

WILL CONGRESS SAVE \$330,000,000?

Is the saving of more than \$300 million worthwhile to the government? The taxpayers, bearing a crushing tax load and faced with rising spending, will answer that question with an overwhelming "Yes" vote.

According to no less an authority than Senator William F. Knowland, the minority leader, that saving can be accomplished if Congress will approve partnership development of an irrigation and power project in California.

Its name is the Trinity River Project. Under the partnership plan, a taxpaying private utility company, the Pacific Gas & Electric Company, would install, finance and operate the necessary power facilities, paying the government for the falling water used. Senator Knowland has issued a statement approving the plan. Under it, he says, over a 50-year period "partnership development would benefit the taxpayers of California and the nation as follows: a) 56 million dollars in construction costs, b) at least 165 million dollars additional net revenue to the Central Valley project, c) 83 million dollars in tax revenues: Total, an estimated 304 million dollars. Partnership development would also contribute to State, County and local governments another 62 million dollars in tax revenue."

Secretary of the Interior Seaton has also approved the plan, along with many other responsible authorities. So, you may ask, what's holding back approval? The answer is simple: It is being held back by the "blockaders"—those who want power development by the federal government, on a tax-financed, tax-subsidized, tax-free basis.

There's nothing unique in this. The same thing has been and is true of similar projects in many sections of the country. And the question at stake goes far beyond just power. It's a question of whether we're going to keep our system of free enterprise on which free, representative government rests—or supplant it with a socialized system in which government is the master of us all.

GOOD QUESTIONS

Why do labor leaders object to making secret ballots in union elections mandatory?

Why do they object to penalties for failing to file statements of union finances?

In a "free" country how can they have the power to deny men the right to work unless they join and pay their organizations for the privilege?

In a land where equal justice for all is supposed to prevail how do they have immunity from "anti-trust" laws that apply to all other organizations that combine to control or restrict production to gain their ends?

More and more Americans are beginning to wonder whether the terms "democracy" and "freedom of the individual" are empty phrases in the United States.

Have workers in businesses become the pawns of labor organizations so powerful and wealthy that they are above and outside the laws that apply to all others?

These are good questions?

STIMULANT TO RECOVERY

In the view of former President Herbert Hoover, we can recover from the current business recession — and do so without bringing on more inflation. And here, to quote him, is how we can accomplish that fact:

- "We must have no wave of wage and fringe rises . . .
"There should be no lifting of prices by industry . . .
"We should cut Government expenditures, not only to provide for additional weapons and balance the budget, but also to the point where we can have a tax reduction. This would be the greatest possible stimulant to recovery."

The great danger now is that panic will result in measures which will make uncontrollable inflation all but inevitable. Mr. Hoover's formula stems from hard experience, and it is the soundest yet proposed.

Miss Polly Stubblefield is a recent employee at the Goldthwaite Eagle Office. She will do office work and will also specialize along the lines of advertising.

After fifteen months with the Eagle Publishing Company, James Ethridge has resigned his position effective May 1. He left last Thursday for a two-weeks' vacation and will visit Seattle and points in Oregon and Montana.

Fire of undetermined origin breaking out in the Sullivan Cash Grocery about 1:30 Wednesday morning destroyed the furniture and fixtures and most of the contents of the Sullivan Cash Grocery, next to Burl's Coffee Shop.

Henry Nowart's 1941 Chevrolet was demolished about eleven o'clock Tuesday night when it was rammed under a truck. The accident happened near the Methodist Church.

Courtesy shown a colored man here last year paid off last Saturday in dollars and cents when County Clerk Earl Summy sold a license and County Judge Patterson performed a marriage ceremony for John T. Caly and Miss Ora Lee Cabiness, who drove over from Camp Hood. Caly had retired from the army after 30 years service. He said the reason he decided to come to Goldthwaite to get married was because on February 5, 1947 he was sent over here from Camp Hood to take care of two of his best friends who were killed in a car wreck near Scalorn, and the people treated him so nice he made up his mind to come back some time.

Charles Albert Simpson was born December 19, 1883 in Burnett County and passed away April 12, 1948 at the age of 64 years, 3 months and seven days. D. D. Tate, Joe Bailey Karnes, Jack Reid and F. M. Stephens spent last weekend as guests of

Penrose Metcalf ranch out at San Angelo. These gentlemen reported enjoying Metcalf's hospitality very much and that the San Angelo country is in the worst drought since 1917.

25 YEARS AGO—

Mrs. Mollie Rahl, nee Kirby, passed from this life last Sunday morning at an early hour, at the family home in the eastern portion of this city, after years of patient suffering.

The remains of Mrs. S. H. Roberts were brought here from Colorado City, Texas, Tuesday and interred in the cemetery at this place.

The Mullin school paper—The Tattler—has been adjudged one of the two best publications of its kind in this part of Texas by the Interscholastic League Press Conference at the University of Texas and is, therefore, entitled to send two delegates to the press conference to be held at the University of Texas, May 5 and 6. This is the second time The Tattler has been awarded this honor and it is certainly creditable to the staff and its sponsor, Mrs. John M. Scott.

Mrs. Betty Bowden of Fort Worth is a guest in the M. McGirk home this week.

Miss Lois Boone of Hico and Miss Elaine Cross of Pottsville were guests of Miss Lucille Bledsoe last weekend.

Attorneys Miller and Clay Stinnett of Gatesville were visitors to Goldthwaite the early part of the week. They were guests of their relatives, the Saylor families.

Prof. John M. Scott, who has been superintendent of the Mullin School the past eight years, has been elected to the superintendency of the school at Buffalo, Leon County, and has accepted.

An attractive new newspaper made its appearance in the seventh grade at the Goldthwaite School this week. Mildred Tyson was the editor and Charline Tyson assistant editor. An attractive hand lettered heading dressed up the three-page paper.

50 YEARS AGO—

(Taken from The Eagle Files of April 25, 1908)

J. D. Fallon of Miller Grove was here Tuesday and reported that the hail was heavy in his community and that crops were badly damaged. The hailstones drifted into E. P. Shelton's tank to a depth of seven feet and crowded the water out.

A few days ago Miss Bessie Moreland and a party of friends in Pleasant Grove community were amusing themselves with a kodak taking pictures and lined up to have their own likeness made. When the operator looked into the kodak to get a proper focus on the group she was horrified to see a large snake reflected. Upon investigation the reptile was found to be a rattlesnake with twelve rattlers and its likeness is clearly shown in the picture they made before they knew of its presence. It is indeed fortunate that the snake was seen before it had an opportunity to strike.

Mrs. P. R. Browning and Miss Nellie Eaton were here from Lampasas the first of the week visiting C. L. Stephens and family.

B. P. Hurdle was one of the good men of the Antelope Gap community who had business in the city the first of the week.

Mrs. Will Allen and children visited her brother, C. L. Stephens and his family in this city

Federal Regulatory Agencies' Problems Baffling Congress | Lesser Men Being Sent For Jobs, Senator

By HENRY CATHCART Central Press Washington Writer

WASHINGTON—Congressional experts are finding it working out any proposed formula to correct problems have been spotlighted by the House investigation of the regulatory agencies such as the Federal Communications mission.

Even though the House inquiry has brought to light "politics" operating on FCC members and a general grand jury is investigating possible criminal prosecutions, there is doubt among those that legislation can solve the problems.

The main problem centers on the fact that most of the agencies have been created by piecemeal legislation and congressmen are of the opinion that any general overhaul might create confusion and consternation among vital agencies of the economy which are controlled by boards.

One critic, Senator Paul Douglas (D., Ill.) blames most of the current troubles on the selection of commissioners has been and men of minor caliber are being picked to see little that can be done to correct the by way of legislation.

Most likely upshot at the moment is that there will be legislative remedies adopted but in the future Congress will have to exercise a much more careful watch on the agencies and give thought to appointees to such posts.

OTHER SIDE OF THE FENCE—Attorney General William Rogers had many a tussle with the executive branch of the government over secrecy of information when he was chief counsel to Senate investigations subcommittee. However, now that he is top member of the executive branch, Rogers finds himself on other side of the fence, defending the right of the White House without certain information from Congress.

Rogers recently read a 38-page statement to a Senate committee studying the question, in which he went back to the day of the first President to bolster his arguments.

The attorney general pointed out that the first congressional investigation of the executive branch took place in George Washington's administration and involved a military expedition.

Rogers noted that when Washington was called on by the congress to furnish secret papers, he summoned his Cabinet and held that the executive could refuse to disclose papers to congressional probes. Rogers testified that this precedent has been followed to today and that there has never been a court test of it.

HAGERTY'S HEALTH—Despite the fact his ulcer has healed up, White House News Secretary James C. Hagerty has announced his inclination to step out of his job as long as President Eisenhower keeps on.

Hagerty admittedly has been plagued with troubles lately has reflected the downturn of Ike's personal political popularity with snappish clashes with the press.

There is no question that Hagerty could step out of the White House at any time and land a better paying, easier job in public relations with private industry.

As of now, Hagerty won't. He is too fond of the President, personally, and believes in the Eisenhower administration thoroughly ever to abandon ship.

At the same time, there is no question whatsoever that the President leaves the White House, Hagerty will go. The job is assuming man-killing proportions for the secretary and he won't stay on a minute longer than his boss does.

Mrs. Cartwright Guest Speaker At Art And Civic Club Meeting

The Art and Civic Club met Thursday afternoon, April 17, at 4:00 o'clock for its Texas Day program in the home of Mrs. Lewis T. Hudson.

Mrs. Hudson had several beautiful arrangements of Texas wild flowers in the room. She also served delicious sandwiches, nuts and mints with coffee.

Mrs. Milton Schwartz introduced the guest speaker, Mrs. Walter J. Cartwright, who spoke on the Wild Flowers of Texas. Mrs. Cartwright stated there were some 4,000 wild flowers in

Mrs. Victoria Harrington, Edna Striepe; Della Harrington, daughter of Mrs. Harrington, Bonnie Ridgeway; Miss Drusilla Dobbins, Mary Conner.

Texas, but only 38 were most common. She displayed a number of specimens of wild flowers now in bloom, and also gave the "Legend of the Bluebonnet." After the program an open discussion was held. The club assured Mrs. Cartwright that much was learned from this most interesting program.

Mrs. Jack Elms, presided at the brief business meeting. The club voted to set up \$10.00 in the budget to send delegates to future district and state conventions. Contributions of \$1.00 each were made toward gifts to be given to the retiring president of the Sixth District and the State President of the Texas Federation of Women's Clubs.

The last meeting of the club year will be held May 15, 1958 in the home of Mrs. W. G. Saylor with the installation of next year's officers.

Heart O' Texas Singers Reunion At Brady, April 26-27

The annual Heart O' Texas Singers Reunion will be held in the auditorium of the Brady High School this weekend, April 26 and 27.

A concert by the visiting quartets will be given Saturday night beginning at 8 o'clock. Among the many fine and well known quartets will be Del Clever and The Cavaliers of Fort Worth, The Melody Boys Quartet of Houston, The Kings Men of Midland and The True Tone Four of Fort Worth.

Singing will start at 9:30 and continue until 4:30 in the afternoon. Lunch will be served at noon in the school cafeteria.

Mrs. A. C. Stewart of Voeca is president of the association and cordially invites the public to attend.

Girl Scout Patrol Encampment At Camp Lake Wood, Last Weekend

By MRS. L. V. BENNINGFIELD

The Heart of Texas Girl Scout Council had their first training event in preparation for the 1958 Patrol Encampment Friday, April 18, to Saturday, April 19.

Patrol A, or Wells Fargo Patrol is made up of six Goldthwaite girls: Norma Faye Duren, Judy Nell Benningfield, Lynetta Duren, Judy Dalton, Linda Yarbrough, Jan Moreland, Evett Meadows from Byrd, and Lou Balke from Winters. Patrol advisor is Mrs. L. V. Benningfield, Goldthwaite.

Patrol B, or Trall Blazer, is made up of six girls from Breckenridge: Julie Sullivan, Jackie Williamson, Betty Ann Brewer, Ann Gordon, Janet Morgan, Brenda Day, Donna Brennan from Byrd, Barbara Ziegler from Weatherford with Sharan Rawson as alternate. Mrs. Balke, Winters, is advisor for Patrol B.

Friday afternoon, on arriving at Camp Wood Lake, Brownwood, Patrol A pitched their tents and prepared supper for Patrol B.

After a camp fire ceremony and "Taps," we settled down to try to get to sleep. This was hard to do because it was our first night to sleep out and we had so many things to talk about.

Saturday morning after being served a delicious breakfast by Patrol B we went into our separate Patrol meeting. Judy Nell Benningfield from Goldthwaite was elected Patrol leader with Evett Meadows from Byrd, as assistant Patrol leader.

At this meeting we selected our name, Wells Fargo Patrol, designed our Patrol Flag, decided on our next training period which will be May 9, 10 and 11, planned our menu for this training, made grocery list, and

kaper chart. We also went over the patrol equipment we would need to take to Grapevine and made a list of personal equipment we would need.

Wells Fargo Patrol cooked lunch on charcoal. We served hamburger steaks with carrots and onions, baked potatoes, pickles, gingerbread and applesauce. After lunch we took down our tents and cleaned all the equipment, put it away and packed our cars.

Mrs. Lena Mae Holland, District Director for the Heart of Texas Girl Scout Council, was the director for this training.

A tired but happy bunch of Scouts started for home, with a lot of planning finished. Now, they can settle down to actual work getting ready for the 1958 Patrol Encampment at Grapevine Lake to be held June 23 to July 2 near Grapevine.

We are looking forward to Senior Roundup in 1959 to be held in Colorado. The Heart of Texas Girl Scout Council quota for Senior Roundup is six girls. Wouldn't it be wonderful if they were all from Goldthwaite?

Mullin F. H. A. Girls Attend Meeting At San Antonio Last Week

By MRS. H. E. GALLOWAY

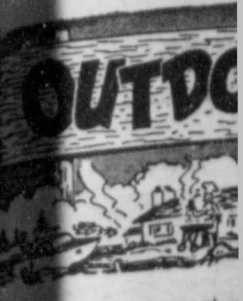

Miss Glenda Calder, daughter of Mr. and Mrs. Glen Calder, and Miss Mary Calder, daughter of Mr. and Mrs. E. L. Calder, accompanied by Mrs. H. E. Galloway, Homemaking instructor, left Mullin High School Thursday morning, April 17th, for San Antonio, Texas, to attend the State F. H. A. meeting. Miss Glenda Calder is president of the local organization and Mary Calder is treasurer of her chapter.

The theme for the convention was "Live and Radiate F. H. A." Outstanding speakers were Dr. Walter K. Kerr, pastor, First Methodist Church, Tyler, Texas, who spoke on "Youth's Part in Today's World." Mrs. Lloyd M. White, Kansas City, Missouri spoke on "F. H. A. Tips Its Hat to Successful Living." State degrees of Achievement were conferred on 350 girls in a

beautiful ceremony by LaRue Elbert, Houston and Polly Lettice. When the girls were attending meetings in principal Auditorium, busy going to all the interesting places such as Casa Rio, taking a group up the San Antonio river and seeing the old missions. The girls reported a very full time and only wish it could be possible to go back to Mexico. However, fishing for the sport is more work than it is worth. The first half-dozen girls attended the meeting. Thereafter a number of delegates limited as we now have fifty-three thousand members in F. H. A. members in

Questions And Answers About Social Security

Question: I am a school teacher over age 65. My salary is \$3600 per school year. I receive this income in monthly payments of \$300 for 12 months. During the vacation months of June, July, and August, the school is closed and I have no other outside employment. Could I be entitled to social security benefits for these three months?

Answer: Yes, generally, payments in the non-school months are deferred compensation for services rendered during previous months of the school year and as such would not constitute earnings for the months of July and August.

Question: I am 55 years of age, disabled, and have a wife and two children who are 13 and 15 years of age. Do I understand correctly that they cannot draw monthly benefits?

Answer: You are correct. Only the disabled worker himself can get monthly disability benefits. However, at age 65, your benefits are automatically changed from disability to regular retirement benefits, and your wife may then be eligible for monthly benefits, if she is then 62 years of age or older. In the event of your death, regular survivor benefits may be payable to your wife and children, provided at least one of the children is under 18, or if over age 18, is disabled.

OUTDOORS IN TEXAS

...for the sport of it. However, in addition to the fun of fishing, most of us are taking a good string home. You really want fish to eat, and the time to take an excursion and bring home a sub full of red snapper, and only one of the real pan fish of the Gulf of Mexico.

...fishing for red snapper is more work than the first half-dozen give you a thrill. Thereafter it becomes a chore, especially if you are on a good boat over a hundred pounds or more of red snapper, if your

reefs on the bottom of the Gulf. These reefs have been built up through millions of years, and afford a fine breeding and hiding place for snapper, as well as groupers and some of the other large fish of the briny deep.

There are a few of these reefs at around 10 to 12 fathoms. (A fathom is approximately six feet.) Most of them are at 25 to 30 fathoms, some at from 30 to 50 fathoms.

You fish for red snapper with heavy equipment, such as a large Ocean City reel on a heavy rod with about 300 yards of good line of from 75 to 125 pound test. For a terminal equip it with a good Weller bottom rig leader, a couple of No. 6 hooks and a 16 ounce sinker.

Bait this terminal with squid, cut bait or frozen bait and let it to the bottom as fast as you can. And we do mean fast. Otherwise, on the way down some smaller fish may take it and you'll lose your bait before it ever reaches bottom.

When your rig is on the bottom, fish it something like fishing for crapple. When a snapper gets on, it's up to you to crank him up just as fast as you can. Occasionally if it is a small snapper, a big old amberjack or ling may come by and decide it's hungry. If that happens, then you have a real fight on your hands.

Incidentally, you don't have to buy your own red snapper fishing equipment. It can be rented from any party boat operator. Also he'll show you how to use it. He wants you to make a good catch. If you do you'll tell your friends and his business stays good.

Party boats usually are pretty well dated up. It is a good idea to select one you want to use, early, and make a definite date. The boat usually leaves the docks about 2 a. m. and returns about 6 p. m. with a load of fish and some pretty tired but happy fishermen.

These boats carry beverage boxes and most of them have lunches for sale. Some of them are equipped with ship-to-shore telephones, radio and other modern conveniences.

The trip will cost from \$10 to \$15 for your fare, plus your drinks, and a per-day rent on equipment. You'd better figure on spending about \$20 for the day, but if it's a good day you'll get more than your money's worth.

If you are interested in such a trip, write the Chamber of Commerce in the area where you'd like to embark from. They'll be glad to send you folders and the names and addresses of the party boat operators. Satisfy yourself you are getting the best one possible. He's the cheapest in the long run.

Something New—"Best dog-goned improvement in fishing since the invention of fish!" That's what Walco Products says of its new Stubbaster. The Chicago manufacturer has produced a 21-inch rod (yes—21-inch) that's a novelty to say the least.

But it's more than a novelty.

DOLL FOR KHRUSHCHEV—During visit to Budapest, Hungary, Soviet Premier Nikita Khrushchev is presented with a doll dressed in Hungarian national costume. A similarly dressed woman made the presentation. It was Khrushchev's first visit outside the Soviet Union since he became the Russian Premier.

It makes a practical little rig. Secret of Stubbaster's live action is its coil spring, which makes it ideal for the new closed-faced spinning reels. Another advantage—it brings your fish right up to the net.

Stubbaster is not designed to replace the conventional rod. Only to supplement. It breaks down to 14-inches, so you can carry it in your traveling bag or brief case—and most tackle boxes. Casts overhead, underhand or sidearm. It is ideal for crowded boats—and in areas overhung with trees.

Fishing With Mice—Every try a mouse for fish bait? As a kid we used to use baby mice. Sometimes we'd take them while they were still young and red. When we wanted to catch a really big fish we'd wait until the mice got big enough to give plenty of action.

For a good many years various tackle manufacturers have been making artificial mice in some form. Most of them really looked like mice. Last year Weber came out with a Dylite mouse for fly fishing. It was pretty good. This year Weber has a new Dylite mouse. It's for spin fishing, and right now it is as hot as a firecracker.

You don't just toss one of these lures out on the water and leave it there.

You pull it slowly over a lily

pad, then retrieve it fast until you can get it onto the next lily pad. Or you can toss it on a log and pull it off.

We've found it works best where it is retrieved through an area where it is likely a mouse might fall into the water. A big old bass can stand only so much temptation. So be ready when he hits.

True To Life—Weber also has come out with what they call their Lifelike worms. And they look it. They are true to life, complete with natural egg sac. Made of special plastic, they are soft and resilient, yet tough and durable. They come in assorted colors from white to grey, tan, orange, red and black—and in a variety of sizes. Also available is a 2-hook, Worm Rig, complete with spinner, No. 8 hooks and beads. For larger sizes they have the Red Worm and Eel Rig which is ideal for spinning, and has No. 2 size hooks.

Best Fishing Days—A study of some old fishing calendars indicates that the best fishing days, year-around, are the first 10-days in each month. Last half of the month seems to be the least desirable. Don't know how this compares with your successes, but it might be interesting to think back and see if maybe there isn't something to it after all.

Texas Highway Dept. Releases 1958 Official Highway Travel Map

Austin, (Spec.)—It's here! It's new! It's free! The Texas Highway Department today released the big new 1958 Official Highway Travel Map. Maps may be obtained by writing the Texas Highway Department, Austin 14, Texas, or at the Highway District Offices and Travel Information Bureaus. County tax offices have map cards available for requesting copies of the map.

The Official Highway Travel Map is used by all state and governmental agencies in Texas for determining highway distances, mileages, zones, and like information. The same map is used by Texas tourists seeking roads to recreational and historical attractions throughout the state. The reverse side of the map reflects in full color some of the outstanding scenic and recreational facilities in Texas.

Texas' new 1958 travel map is the answer to today's demand for more and more travel information. The steady growth of Texas from a state with a population of slightly over seven million just ten years ago to its present estimated population of more than nine million is reflected by the information shown.

The number of cities and towns indicated on the 1948 map was 567. Today, there are 1,812—an increase of 1,245. State and U. S. highways have been increased by 2,026 miles, and farm-to-market roads from 620 miles to 17,126 miles—a 16,506-mile increase. The map reflects a total of 43,292 miles of highways.

Roadside parks, long cherished by Texas highway users, were not shown on the 1948 map. Today, 1,026 roadside parks are pinpointed as pleasant stopping places. Divided highways also show a startling jump in the ten-year period. In 1948 there were 110 miles of divided roads shown. Now there are 1,007 marked on the map with the black bands and red center indicating divided highway miles.

CEMETERY WORKING AT WILLIAMS RANCH, APRIL 28

There will be a cemetery working at Williams Ranch Monday (April 28), according to an announcement by Mrs. Jack Huffman. There is a good deal of work to be done and everyone interested in the up-keep of the cemetery is urged to bring a lunch and tools to work with and stay all day and help in the clean-up job.

URGES TAX CUT—Former President Harry S. Truman, testifying before the House Banking Committee in Washington, said his possible cure for the recession would include a \$5 billion tax cut and a large spending program. He urged closing of "glaring tax loopholes" benefiting special privilege taxpayers. (International)

Mills County Farm Bureau Membership Meeting Held Sat.

By MRS. HOMER McCASLAND

Millard Shivers was guest speaker at the Mills County Farm Bureau supper Saturday night. The meeting was well attended with approximately 140 present.

Mr. Shivers explained how the Farm Bureau functions on the local, district, state and national levels. He emphasized the importance of farm people organizing to make and keep farming a respected industry. He also pointed out in many ways how "Big Business" is seeking to control our government. If we are not concerned enough to seek out the truths and to act accordingly, now, we may lose the freedoms we all cherish so much.

He believes there is a solution to our world problems: if we are willing to take time to sit down and work them out together. He emphasized the importance of writing our congressman in our own handwriting. Said he: "They certainly take notice of personal letters. If we have brains enough to build space ships, rockets, Sputniks, etc., surely we have brains enough to work out a better balance in our world than to have half the world with surplus food and the other half starving."

Eleven new members were added to the roll at this meeting, bringing the total to 135 members.

A wonderful fellowship was enjoyed. Everyone in Mills County and adjoining counties who are not members are invited to join our organization. You may inquire at our office at Duren Equipment Company on Saturdays.

Dave Nugent of Oklahoma visited his sister, Mrs. Letha Evans, last week.

Master James Steen of Marfa is a guest of Mr. and Mrs. Bob Steen and Mrs. Annie Brim.

San Saba Peak

By MRS. DUTCH SMITH
We have had some good rains past weekend and everything is growing.
I was very much surprised this morning at 5 o'clock when our children from Houston began knocking on our door. They enjoyed their visit very much.
The Nelson and I attended a party in the home of Mrs. Uel Saturday afternoon, honoring Miss Doris Gall Brown, niece of Verlon Conradt. Her wedding will be May 31. She will receive her degree from Sul Ross College May 25. Sunday afternoon after we had home from the shower

our daughter-in-law, Mrs. Johnnie Smith, and Mr. and Mrs. Claud Short and sons of San Antonio visited us. We visited with them at my daughter-in-law's Dads, Saturday night and enjoyed a fish supper.
Sunday afternoon we visited my Dad and Mother, Mr. and Mrs. John Harris, also our sister-in-law, Mrs. Dee Harris, in Lometa, who is recovering from an operation. She is doing fine.
Mr. and Mrs. Frank Hines and Greta Sue visited us Sunday afternoon. We enjoyed them so much.
Sunday night Mr. and Mrs. Terrell Casbeer visited with us. Mr. and Mrs. Terrell Casbeer visited the Tommy Taff and Bill Chawning families in San Saba Sunday.
Mr. and Mrs. Bud Conradt visited Dutch and I Tuesday night.

We are indeed happy to know Mrs. Lorena (Varnell) Smith of Marlow, Oklahoma, is doing very well. She will go to Wichita Falls for surgery April 28. We do hope she will soon be well

and strong.
Mr. and Mrs. R. A. Cox were guests of Mrs. Ora Black Sunday night.
Mr. and Mrs. Dick Hughes visited the C. H. Blacks Sunday evening.
Mrs. Fred Laughlin received a letter from Jimmy and he had spent the Easter holidays in Holland. He is doing fine but of course misses his Mills County friends.

Cemetery Working At Duren, May 1

There will be a cemetery working at the Duren Cemetery on Thursday, May 1. Due to the excessive rains, there is lots of vegetation to be removed and other work to be done, according to announcement by R. C. Duren.
Mr. Duren states that pickups will be needed to haul dirt to fill in several graves which have sunk, so anyone interested in the upkeep of this cemetery is urged to attend this working and bring tools to work with.

MRS. MARY JANE COOK IS BIRTHDAY HONOREE

Mrs. Mary Jane Cook was pleasantly surprised last Saturday when all five of her daughters visited her in Wichita Falls. Mrs. Cook celebrated her 92nd birthday on Sunday, April 20.
Those making the trip were Mrs. Carrie Johnson and B. T. Winkle of Cross Plains; Lula Maddux, Ranger; A. E. Morris, Fort Worth, and M. C. Clary of Star.

Young man with faith in his future

7 pounds, 8 ounces of Sacred Trust

If you have youngsters of your own, then this picture must call up wonderful memories. How happy, how proud you were of the new baby. Proud, happy, and grateful, too. For no one had to tell either of you that your child was a sacred trust . . . that his or her happiness depended in large measure upon the way you measured up as a parent.

Today, you know better than ever how true that is.

It's you the children look to for all things . . . for love, for learning, for fun . . . and, above all, for the good example to follow in life.

That's quite a responsibility. But, thanks to God, not a lonely one. For God Who blessed you with children, knows you need His constant help to raise them wisely—and that help is yours for the asking. Worship together, at your Church or Synagogue, every week.

Find the strength for your life . . . worship together this week

NEWS from YOUR

COUNTY AGRICULTURAL AGENT

TEXAS A. & M. COLLEGE EXTENSION SERVICE

BY GEORGE G. REESE

The Mills County 4-H Livestock Judging Team will practice judging livestock at Texas A&M College next Saturday. They are preparing for the state contest which will be held at Texas A&M on June 18th. We are real proud of the Mills County boys on the Judging team; they did an excellent job in the District Contest by placing first in the district.

Insecticides are other fire hazards if not properly stored. Check the farm and home for overloaded electrical circuits; lubricate all electric motors in accordance with the manufacturers' recommendations and take a good look at the home ventilating system.

Eliminate fall hazards by keeping stairs, halls and alleyways clear of obstructions. Check light bulbs and clean lamp shades for better lighting in hall and on stairways. Remove from the premises, advises the Council, broken glass, nails protruding from boards, scrap metal and loose wire. Too, they point out that rodents don't like a clean farmstead.

Vote On Marketing Quotas Set For June 20

Secretary of Agriculture Ezra T. Benson has proclaimed marketing quotas on the 1959 crop of wheat; proclaimed a national wheat acreage allotment of 55 million acres, the minimum permitted by law; set June 20 as the date for a grower referendum in which growers will approve or disapprove quotas and announced that the minimum national average support price for 1959 production will be determined before the June 20 referendum.

This is the sixth successive proclamation on marketing quotas, and is required because the present wheat supply is 57 per cent above the marketing quota level. It is also the fifth consecutive year that the 55 million acre minimum allotment has been approved.

Texas' share of the national allotment for 1959 has been set at 4,099,094 acres. The 1958 allotment was 4,164,302 acres.

If marketing quotas are approved by wheat producers in the June referendum, the national average support price available to eligible growers in the commercial area (Texas is in this area) will not be less than the minimum support to be announced later. Individual farm marketing quotas will be the normal or actual production, whichever is larger, from the farm acreage allotment.

Growers in the commercial area who plant within their allotments will be eligible for price supports on their entire production. Those who exceed their farm allotments will be subject to marketing quota penalties if they have more than 15 acres of wheat for harvest or have not signed applications for exemptions under the feed wheat provision permitting 30 acres or less to be used exclusively for feed on the farm.

If marketing quotas are disapproved, there will be no restrictions on wheat marketings. Acreage allotments will remain in effect as a condition of eligibility for price support at the 50 per cent of parity rate. In the referendum for 1958 crop wheat, 88.2 per cent of the farmers voting favored quotas.

Mr. and Mrs. Murray Wilhelm of Lampasas were guests of the Charlie Stewarts Sunday.

FORGOTTEN DOG—When the Twin Brooks Kennel Club ended its dog show at West Orange, N. J., "Bozo" found himself alone in the armory. All the other 900 contestants had been taken home, and police were wondering what to do about it when they got a call from worried Richard Roetgen, the dog's trainer, who hurried back to pick up the forgotten collie.

REV. TOM MITCHELL
Goldthwaite, Texas

For in Christ Jesus neither condemnation availeth anything nor circumstance but a New Creation.

We say that Christ can change the world, and so He can, we must give Him a chance. When divided humanity goes about trying to change the world, the world gets confused. One can listen to speakers on the radio and one can tell the Denomination to which the speaker belongs before he says very much. We mean to speak against

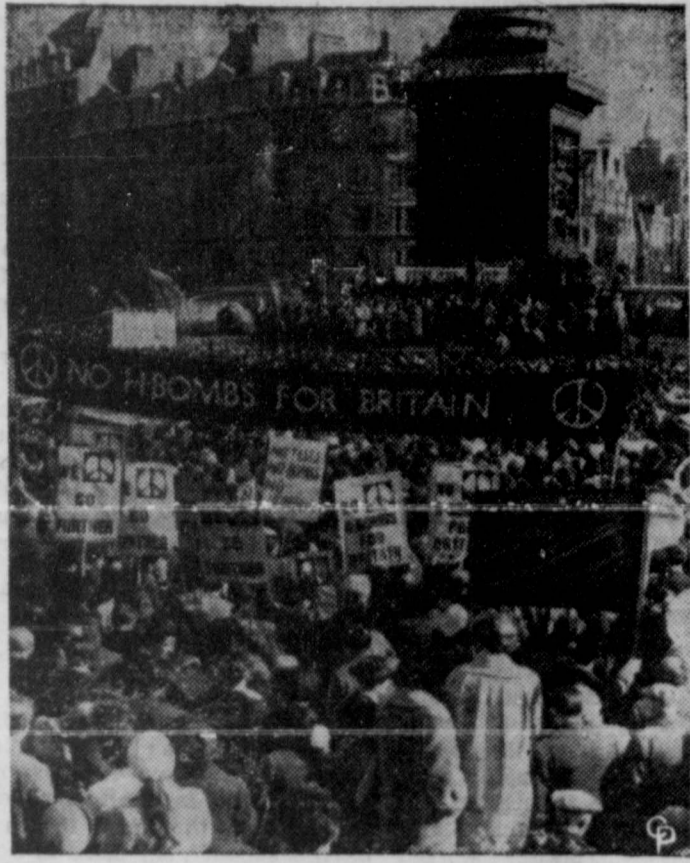

denominations, but to speak for Jesus Christ the Savior of the world. He came to give life, the Abundant Life. "In Him was Life." He told us to consider the lilies, how they grow. In order to do that we must consider the sun and its relation to the earth. In the spring when the earth turns its northern half toward the sun, the lilies respond to its warmth and life giving power. Now we are having a new creation in the vegetation, and the earth is doing its best to feed its creatures.

Just so, then we must turn to Christ, the Sun of Righteousness, and we can receive His life giving strength. All Christendom gives special emphasis to Him during Christmas and Easter times. Yet we must each day receive strength from Him as the vegetation receives its light from our sun daily.

He can make of us a New Creation. He can change all humanity. Many people with broken bodies have been made to live anew through Christ. Christ makes His appeal to all classes and kinds of people: the old, the young, the rich, the poor, the sick, the well, the cripples, the bed ridden, the discouraged, the broken hearted, yes everybody, has the invitation to accept Christ and become a new creature, or a new creation. Therefore, let us give the world a chance at Him. Let us tell the world about Christ. Christ is the Answer, He is the great heart specialist. He is the SAVIOUR.

CHRIST CAN CHANGE THE WORLD.

Mrs. W. H. Allen and children, Emily, Harold and Billy Jean of Hamilton were guests of their parents and grandparents, Mr. and Mrs. J. B. McCasland, Sunday.

CROWDS EXPLODE OVER H-BOMB—Gathered in Trafalgar Square, London, demonstrators from the British Labor Congress and the Trade Union Congress carry banners demanding a "ban on H-Bombs" and tests in general. (International)

By John C. White, Commissioner

The vicious little imported fire ant, infamous for its painful bite and destructive habits, is the target of a new federal quarantine imposed in eight states, including Texas.

Six Texas counties will be "blocked off" due to the federal order, in an effort to prevent the further spread of the pest into farm and ranch country. Beginning May 6th, movement of plants, soil and other carrying agents of the ant will be closely supervised in the infested areas.

Many East Texas farmers are already acquainted with the fire ant, a native of South America, who has also recently become an "unwanted alien" in parts of Alabama, Arkansas, Florida, Georgia, Louisiana, Mississippi, and South Carolina. Texas counties under quarantine will include Hardin, Jasper, Jefferson, Newton, Orange and Tyler.

In these counties, the fire ant has made a name for itself as a pest harmful to crops, livestock and humans. It often attacks small animals, ground-nesting birds, poultry and newborn calves and pigs. Its firey sting can bring death to these young farm animals and make the farmer's field work painful, and often impossible. The hard mounds of dirt, sometimes as high as 18 inches and two feet across, cause damage to machinery.

The quarantine order will

cause some unavoidable difficulty, especially to nurserymen whose property is infested. Any business whose main activity involves transportation of growing plants, is affected by the order.

Nurserymen are urged to inspect their property carefully before the quarantine becomes effective. Texas Department of Agriculture inspectors are available to help eradicate the pest. If a nursery is found to be free of the insect before the federal quarantine is imposed, then some of the regulatory problems will be simplified. An infested property will have to treat its plants to kill the ant before shipment is permitted.

Details of the federal quarantine order are available from: John C. White, Commissioner of Agriculture, Austin, Texas.

Mrs. Roydston House Makes Honor Roll

Mrs. Roydston House of Goldthwaite has been listed on the honor roll at Howard Payne College for the first half of the spring semester, with 36 grade points, Dr. Z. T. Huff, academic vice president and dean, has announced.

Mrs. House is a junior student and a graduate of Goldthwaite High School.

Hillside Mission
By LIDA BYRNE

Pick up your newspaper, read the headlines, however some of the most important news may be a small item with no heading and in an obscure part of the paper; hear news over the radio, then get your Bible and see how accurately and literally the prophecies are being fulfilled.

Since men have taken elements which God has made and combined them for destructive purposes by making bombs, do you believe the Word of God puts a light on what can happen in oceans and seas and on the land?

We find the following in Isaiah 64:2: "As when the melting fire burneth, the fire causeth the waters to boil, to make thy name known to thine adversaries, that the nations may tremble at thy presence."

Are the rulers of nations concerned? Yes. Are some of the other people of nations concerned? Some are, but the Bible gives many accounts of these who are not giving ear to conditions, going on in their own selfish ways.

There is an answer to every problem, but it appears that many people will be lost.

What are we going to do about it? There will be a climax to the situation when things are straightened up in this now world of woe.

If we believe the Bible, it will then be a good world to live in for a long time, but during affliction, and before a period of great tribulation we can pray. Some people can pray longer, some can use bigger words, but we can pray.

In St. Matthew's 24:37-39 our Lord Jesus Christ tells us: "But as the days of Noah were, so shall also the coming of the Son of man be. For as in the days that were before the flood they were eating and drinking, marrying and giving in marriage, until the day that Noah entered into the ark, and knew not until the flood came, and took them all away; so shall also the coming of the Son of man be."

Ann. Joe Warlick Is Stationed At James Connally Air Base

Airman Basic Joe Warlick, son of Mr. and Mrs. John A. Warlick of Goldthwaite, Texas has recently been transferred to James Connally Air Force Base, Texas for duty as Ground Radio Operator in the 3567th Navigator Training Squadron, 3565th Navigator Training Wing.

Ann. Warlick has been in the Air Force since 1956 and prior to his assignment here was stationed at a base in Japan.

James Connally AFB is located in the heart of central Texas, eight miles north of Waco. The primary mission of this base is to train officers to become radar observers, navigators, and bombardiers in modern strategic bombers and military air transports.

Springtime tips on telephone care

Telephones, like everything else, work best when properly cared for. So if you want to always get the best possible service from your telephone instrument, follow these simple spring cleaning suggestions. 1. When washing woodwork or mopping floors, be sure not to let the telephone cord or wire get water soaked. 2. Never leave your telephone near an open window. 3. Be sure your telephone is resting on a firm place. 4. When papering or cleaning, be careful to cover your telephone with a cloth.

MILLS COUNTY STATE BANK

GOLDTHWAITE, TEXAS

STATE CAPITAL Highlights AND Sidelights by Vern Sanford TEXAS PRESS ASSOCIATION

Austin, Texas—Unemployment or no unemployment, most people this side of the Rio Grande aren't willing to bend their backs to pull onions at 50 cents an hour.

So say Texas farmers. Their crops are going to rot in the fields, they add, if the U. S. Labor Department doesn't relax restrictions on importing Mexican nationals.

Spokesmen for organized labor have demanded a ban on importing labor because of climbing unemployment. But farmers say that idle aircraft mechanics, no matter how numerous, are no help in getting the crops in. According to the farmers, abundant rainfall gives promise of the best harvest in years—if they can get field hands.

Labor Dept. has put a limit of 26,500 braceros to be used in Texas during April and May. It's about one-fifth the number used this time last year. Rio Grande Valley growers say they could use the whole bunch in their area.

Texas Employment Commission says there are already about 26,500 here; hence, no more imports.

Under Labor Dept. regulations, workers cannot be imported until the TEC certifies the jobs cannot be filled with American citizens. Valley growers recently asked for braceros to harvest vegetables. TEC certified to a shortage of workers in the area and, even after a statewide canvass, was unable to fill the demand.

But the federal suggested recruiting in other states before

bringing in Mexicans.

Farm groups protested to every regulatory official in reach. Texas crop and weather conditions are such, they say, that when they need laborers, they need them then and there. Neither, they point out, do they have time or money to run all over the country looking for workers.

Though federal officials catch the brunt of their criticism, farmers put part of the blame for their labor problems on the increasingly fastidious nature of Mrs. Housewife. She won't have dirty old carrot tops any more, say the farmers. She wants clean, topped carrots—packaged in plastic. It means more work.

All-Out For Safety—Gov. Price Daniel has started "the greatest highway safety campaign in the history of the state."

County judges, mayors, police chiefs, sheriffs, prosecuting attorneys and school superintendents are being asked to hold meetings and organize local campaigns. Awards will be given to the local officials and news reporting agencies which do the best job of promoting traffic safety.

Anti-Ad Ban Upheld—A new law prohibiting price advertising of eye-glasses is constitutional, says the Texas Supreme Court.

Passed by the last legislature, the law says "ophthalmic dispensers" (which the court says means optometrists, too) may not mention "bait, discounts, premiums, prices, gifts" in their ads.

It landed in the courts when

one group of optometrists (Texas State Optical) brought suit to prevent another group (Lee Optical) from advertising prices. Defendants said the law was invalid because its caption did not specifically mention the things the law covered.

But the high court ruled the caption was clear enough.

The bill as originally introduced made no reference to price advertising. The portion pertaining thereto was inserted in committee without there being any change in the caption.

Opponents of the bill charged "trickery." They argued that this was just another attempt to raise the price of glasses by prohibiting the publicizing of prices.

Up The Ladder—One plan to up-grade higher education in Texas has official approval of the Commission on Higher Education. Others are under study.

Commission approved a request from the University of Texas to divert \$1,000,000 from its Available Fund, ordinarily used for buildings, to a research program. Noting that the University needs "brains as well as bricks," President Logan Wilson said the money would be used to attract and hold outstanding research personnel and provide them with equipment and books.

Still under consideration by the Commission are:

(1) Texas Technological College's request for graduate engineering study. Tech's engineering department is a sort of "strong back and weak mind" program, said President E. N. Jones, with 2,700 students and no upper-level study to attract top-notch teachers.

(2) Texas A&M's touchy problem of whether to admit women.

(3) A proposal to concentrate graduate study in home economics at the two state colleges at Denton, curtailing home ec study at the University of Texas. Commission voted to re-study after hearing UT exes' protests.

Come To The Fair—Texas Fine Arts Association is inviting all Texans with any sort of artistic bent to bring their handwork to the Fiesta of Arts and Crafts May 9-11 in Austin.

Artists and craftsmen from over the Southwest will be showing and selling their works from booths scattered over the grounds of Laguna Gloria, TFAA's picturesque headquarters overlooking Lake Austin.

TFAA spokesmen said they particularly wanted to encourage exhibits from small town groups, such as hooked rug clubs and church needlework groups. Booths may be rented for nominal fees. Applications should be made at once by writing Mrs. Willie Burk, P. O. Box 5023, Austin.

Designed to create the atmosphere of an Old World fair, the fiesta will have strolling musicians, singing gondoliers, boat rides, a Mexican Market, Siamese gardens, puppet show, fish pond, and, of course, a serious art exhibit.

Judge Greenhill Files—Judge Joe Greenhill of Travis County, who was named to the Supreme Court last fall by Gov. Price Daniel, to succeed the late Judge Few Brewster, has filed for election to the office. Judge Greenhill, who has had 20 years of trial and Appellate Court experience, says he will campaign actively in every county in the state between now and the July 26 primary.

Ralph E. Massey, NTSC Student, On Busy Schedule In Senior Year

By VAUGHN HENDRIE

Denton (Spec.)—Few college students can boast of the fact that while carrying a full load of courses in school they are also editor and publisher of a weekly newspaper.

However, Ralph Massey, senior from Goldthwaite, has been co-owner of the Teague Chronicle since August as well as a full-time student at North Texas State College.

Massey, the son of Mr. and Mrs. Jess Massey, and Vic E. Koleber, publisher of the Goldthwaite Eagle, are co-owners of the East Texas paper with Massey serving as editor-publisher. Massey has been keeping a tight schedule by attending classes during the week and rushing to Teague on weekends to manage the paper.

During the summer and fall semesters Massey worked as business manager of student publications at North Texas, handling advertising for the school newspaper, the Campus Chat. He is also secretary for Sigma Delta Chi, national jour-

nalism fraternity, of which he has been a member since last spring.

After attending Goldthwaite high school, Massey entered the Navy in 1950, and served four years. Nine months before receiving his discharge, he married Vicki Koleber, daughter of the Goldthwaite newspaperman. Upon leaving the service, the Masseys entered North Texas State college. At first undecided as to the major field of study he would enter, Massey signed up for a journalism course in his curriculum. "When I made an A in the course, I figured I might as well major in it," he said.

Mrs. Massey is also a journalism major and is a member of Theta Sigma Phi, national journalism fraternity for women. When they move to Teague this summer, she plans to teach in the Teague public schools.

The couple is quite enthusiastic about their forthcoming jobs and declared, "This is the opportunity of a lifetime and we couldn't pass it up."

Garden Club Conducts Flower Show Clinic At Meeting Last Wednesday

The Goldthwaite Garden Club held its regular meeting Wednesday afternoon, April 16, at 3 o'clock at the Fellowship Hall of the First Methodist Church, with Mrs. T. C. Graves, Tom Collier, Walter Doggett, J. N. Keese and Fred Stephens hostesses.

Mrs. Collier presided in the business meeting, in the absence of the president, Mrs. V. Z. Cornelius. Reports were given by chairmen of the different committees.

Mrs. Jim Weatherby, Flower Show Chairman, announced that the Annual Flower Show, "TV Interpretations," would be presented May 3. She also named chairmen for the different committees of the show.

Announcement was also made that the Trading Post had been reopened and that all proceeds from same would be used in the beautification of the Mills County Park grounds.

Mrs. Richard Hampton was leader for the program, "The Joy of Working Together." Roll call was answered with "My Pet Peeve in Flower Arranging."

An Arrangement Clinic was led by Mrs. W. P. Duren, Malcolm Jernigan, T. M. Glass, Jim Weatherby and Mary Winsor. Members brought flowers, con-

tainers and mechanics to work with and many artistic arrangements were made.

At the conclusion of the program delicious refreshments of sandwiches, cookies and bottled drinks were served.

Next meeting will be May 21.

New Brownie Troop To Be Organized

Mrs. Houston Duren has announced that the material has arrived for the organization of a new Brownie Troop for the girls of the first grade. Work began Wednesday afternoon after school on this troop and anyone interested in joining should contact Mrs. Duren if they were not present to receive their card.

WAYNE D. MILLERS AT HOME IN MIDLAND

Mrs. Edna Hill and Larry spent the past weekend in Midland with Mr. and Mrs. Wayne David Miller. Mr. Miller has just received his discharge from the United States Army and has returned to his job at Midland. Mrs. Miller, the former Virginia Carol Hill, stayed with her mother, Mrs. Edna Hill, while her husband was in service.

PARENT PROBLEMS

Parents Must Be Firm In Handling Tantrums

By GARRY CLEVELAND MYERS, Ph.D.

"Be sure you're right, then go ahead."
This is a good slogan for parents, especially when denying a child of 4, 10 or 14 a cherished request or privilege, or requiring him to do something.

Before making the decision, you will not only want to be sure you are right, and that it is a wise decision, but also sure you can hold to this decision and carry it through.

Strong Resistance

Naturally, there will be times when your child will show strong resistance to a decision which displeases him. At 2, 5 or much later he may cry or scream or go into a violent rage. If, in consequence, you reverse your decision or let the matter go by default, the youngster will, after several of such victories, have occasion to cry harder or to throw a more violent tantrum next time. And your practice at surrendering may make it harder for you not to surrender next time. Indeed, it's because of such parental surrender that many, if not most, tantrums arise and flourish.

You have the same problem of being sure you are right before making a decision not welcomed by your older child.

If he is 7, 10 or 15 he may immediately challenge your decision. If he can get you into a prolonged argument, he will pretty surely win his way. Then you surrender, knowing all the while you shouldn't.

On the other hand, there will

be times when you discover that your decision was not wise. At such times, you should clearly and frankly state that you had erred, before reversing the decision. This is very much better for your own self-regard, and the regard of the child for you, than just reversing the decision. Even so, you can't afford to reverse such decisions very often, lest the child lose respect for your integrity and begin to feel that he can manage you.

Take More Time

If you find the need of reversing your decisions several times, you should give yourself more time in making the decisions before announcing them in the first place.

A good objective, especially with the child 8 to 15, is to state your decision clearly and in a few words. Thereafter, say no more, regardless of what the child says. Expect him to obey, with the understanding that if, after he has done so, he still thinks you were unreasonable or unjust, he may feel free to come back and tell you so.

ANSWERING PARENTS' QUESTIONS

Q. Sometimes, while reading, my daughter, 7, will spell out words for me to pronounce while I'm getting dinner.

A. Gladly say the words. Her method shouldn't matter if she's really learning to read.
