MILLS COUNTY SCS STAFF—Here are members of the Mills County Soil Conservation Work Unit Staff. From left, I. Hubert, Soil Conservationist; Hubert L. Berry, Work Unit Conservationist; and Carl Casbeer, Conservation Aide. Copeland worked the local unit for the past several years until two weeks ago he was assigned to Rising Star. Charles Head has been with the local unit for the past several weeks as a Conservation Aide.—(SCS photo).

Local Members Attend Supervisors'; Bankers' Soil Conservation Meeting

On Thursday, April 23, W. P. Duren, Earnest Kohler, and H. L. Berry attended a Supervisors and Bankers soil conservation meeting on the Black Ranch near Granbury.

A tour of the twenty-seven thousand acre ranch began at 10:00 a. m. in school buses. A number of stops were made to view the various phases of conservation farming and ranching. Proper range use is practiced on the entire ranch and many pastures have received periodic deferments. All of the cropland is either in small

grain and clover or has been sodded to coastal bermuda. Coastal bermuda was praised very highly and is being used on some of the bottomland meadows which are now in range.

The elaborate ranch headquarters was toured just before lunch. A barbecue lunch was served with all the trimmings. These lunches are ordinarily paid for by the Southwest Bank and Trust Company of Dallas; however, in this case Mrs. Black, owner of the ranch, picked up the tab.

After lunch the group heard many speeches praising Soil Conservation Districts and the wonderful cooperation which banks have given them in Texas. Speakers were such men as Dr. J. C. Terrell, Stephenville Doctor and banker; Harley Reed, Vocational Agriculture teacher of Tolar; Emmitt Under, Soil Conservation Service of Wichita Falls; Bill Schmeer, banker of Dallas; and W. S. Gibbs, president of the Texas Association of Soil Conservation Districts.

The joint meeting of bankers and District Supervisors was one of five held in the State each year. Many voiced the opinion that this was the best area meeting that they had ever attended.

RAINFALL SINCE 1903—This chart shows the annual rainfall for Goldthwaite from 1903 through 1958.

Farmers and ranchers in Mills County have come to realize during the past few years that "It's the rain you keep that counts," is a highly important factor in their operations.

It is interesting to note that in 1957 the rainfall recorded here was the second highest in the 56 year record. In 1957 rainfall here measured a little over 40 inches. In 1958 rainfall dropped to 25.29 inches. Highest rainfall recorded here during the 55 years was in 1919 when over 45 inches was recorded.

Another interesting phase of this chart is the fact that prior to 1957 there were eleven years of below normal rainfall. Starting in 1946 and continuing through 1956 the amount of rainfall recorded here was below the long term normal average of 30.14 inches. The year 1954 was the record low of below 15 inches.

SOIL STEWARDSHIP WEEK

By EZRA TAFT BENSON
Secretary of Agriculture

We depend on soil and water for much of the food, clothing, and raw materials needed to maintain a strong Nation. It is fitting, therefore, that all citizens and organizations join in the observance of Soil Stewardship Week, sponsored by the National Association of Soil Conservation Districts and various national church organizations, May 3 to 11 inclusive.

The eight-day period, opening with Rural Life Sunday on May 3, is the time when farmers and ranchers, churches, soil conservation districts, schools, urban people and many organizations will join in emphasizing that soil is a God-given resource. The observance stresses that man is merely the steward of the soil while he uses it and that he must pass it on in as good or better condition than he found it.

Soil and water conservation is an integral part of modern agriculture. Farmers and ranchers in more than 2,800 soil conservation districts throughout the Nation each year join with the clergy in emphasizing the spiritual as well as the material values of soil and water. They themselves set an example by recognizing that "the earth is the Lord's and the fullness thereof" and by heeding the Creator's command "to dress it and to keep it."

But because we all depend so much on the land for our high standard of living, non-farmers too, have a place in such an observance. I hope they will join with our rural people in increasing numbers in this recognition of the obligations and opportunities for soil stewardship.

will not continually try new methods and new means of conserving our soil and our moisture.

Certainly many of us may not do a big lot of soil conservation on our land but we can study and observe and take advice from operators who have put some of these practices into use and have increased their production by their use.

May we all strive to do the very best toward our land, keeping in mind that some good citizen will use it after we are through with it.

We, of the Production Credit Association, are strong believers that where good sound conservation practices are carried out a better dividend will be the reward.

PREVENTION DAM—This photo shows flood water being released through open principle spillway. Release is the capacity of stream channel below without flooding. Flood water retarding dams up-stream which provides any land treatment program.

Conservation Progress From PCA

CHARLES CONRADT reports again on this Soil Conservation Week.

made any improvements in good soil conservation practices since last year.

Farming and ranching is continually on the move. A good operator can not set idly by and not keep abreast with modern production. One should never get to the stage that he

Proclamation

WHEREAS this Great Country of ours was developed under a tall grass cover; and

WHEREAS our native grasses are more effective than any other type of plant life in conditioning the soil for continued high production; and

WHEREAS the soil, which all of us, town and country people alike, live from—is our most valuable material resource; and

WHEREAS the land is our base, for everything that we do, all we share, our nation and people depend on the productivity of our soil; and

WHEREAS good top soil and water are the main things that make the land productive; and

WHEREAS top soil is not permanent, but can be moved or severely damaged by improper use and lack of care; and

WHEREAS conservation means abundant production on a sustained basis as an integral part of our community and national welfare;

THEREFORE, I, as County Judge of Mills County, Texas, do hereby designate the week of May 3 to 10 as SOIL CONSERVATION WEEK.

Wm. G. Yarborough

County Judge

Mills County Texas

Our Responsibility!

This picture shows some of my Angus cattle grazing in field of rye and hubam sweetclover. This clover was planted in 1954 and has volunteered since. A high percentage of crop is clipped as residue each year.

By including range and field crops that will build and conserve favorable soil condition and fertility.

I want to recommend the program to all Mills County farmers and ranchers. Soil Conservation will pay dividends.

To Leave our Land as Productive and Fertile as — or more so than — we received it.

In doing this it is necessary to condition our land to hold the water that falls.

Here is one of my fields on which range seeding has been practiced. Old field was seeded in 12-inch rows to native grass mixture. Alternate rows seeded to locally grown seed and Oklahoma mixture. Notice stand from locally grown seed as compared with Oklahoma mixture which produced little amount of grass.

L. B. BURNHAM

Cooperator with Brown-Mills Soil Conservation District

Plans are complete for the 50th annual summer cotton school at Texas A&M College. The school will again be conducted by the Department of Agricultural Economics and Sociology during the six weeks from June 8 to July 17. Additional information on the school can be obtained by writing to Professor J. M. Ward at Texas A&M College.

A Perfect Tribute

... to your skill as a farmer and rancher is a completed SOIL CONSERVATION program on your acreage.

The Brown-Mills Soil Conservation District and SCS technicians are available and ready to help you!

And --- We can help you too, when it comes to general Machine Shop work ---

Come in to see us.

Lethbetter Machine Shop

Carl Lethbetter

THE BETTER WE PRODUCE THE BETTER WE LIVE

SOIL IS THE GREATEST PRODUCTION PLANT IN THE WORLD

When a manufacturer or company fails to keep his machinery in condition to be operated efficiently his plant soon becomes run down, and production declines. His profits decline and he is likely to face an extreme slump in business.

THE FARMER AND RANCHER also is a producer, and can face a similar situation. The SOIL is his manufacturing plant. If he fails to follow SOIL and WATER CONSERVATION practices, which will keep his land in good condition, his production is certain to decline. The farmer, too, may meet with financial disaster.

WE ALL HAVE A STAKE IN THE LAND — LET'S WORK TO CONSERVE OUR SOIL. See the supervisors of the local Soil Conservation District, or the representative of the Soil Conservation Service in your area about a complete planned Soil and Water Conservation program for your land.

Production Of Large Fish Requires Pond Fertilization

By I. H. COPELAND

Pond fertilization will serve two important purposes—it will help produce large fish in a short length of time and assist in controlling pond weeds growing below the water surface.

Everyone likes to catch large fish and not be bothered with weeds fouling the fishing line.

Microscopic plant and animal life, a link in the fish food chain, is greatly increased by pond fertilization. When these are abundant the small fish do well, and in turn become food for larger fish—the kind we like to catch.

When a pond has enough microscopic plants and animals the water will be a "soupy" brown or green color. This will

starve the submerged weed for sunlight.

Mixed fertilizers such as 5-10-5, 8-8-8, 4-12-4 and others are very good and are easy to apply. Normally 200 to 500 pounds will be needed for each surface acre of water.

The pond fertilization program should be started about March 1 and continue until June 1, but should decrease then because of danger of depleting oxygen in the water.

The first fertilization should be about 100 pounds of fertilizer for each surface acre of water. If the water does not show a definite color change, another 100 pounds of fertilizer should be added about a week later.

When the "bloom" is established, it should be maintained. There is no need to add additional fertilizer until the "bloom" begins to fade. A "rule of thumb" can be followed in determining need for fertilizer.

At weekly intervals thrust arm into the water up to the elbow. If your thumb is not definitely visible, the bloom is sufficient. If your thumb is clearly

Several Ways Can Be Used To Stop Soil Erosion

Erosion is sometimes classed as a sin. Like a thief it robs the landowner of his most valuable possession—his soil. We all resent this loss.

Excessive losses from erosion can be stopped. It can be controlled by the landowner with the use of cover crops, crop residue management, good permanent grass and other practices.

Organic matter or humus, in other words, decaying crop residue is considered the life of the soil because of its desirable effect on soil structure and because it increases the number of beneficial soil organisms in the soil.

Organic matter increases the water-holding capacity of the soil. It will also cause water to be absorbed faster and reduce runoff and erosion.

A good cover, whether it is a dead cover or residue or close growing plants, will reduce the chance of soil particles being torn loose and washed away. Cover also lowers soil temperature during hot days and decreases evaporation.

Mechanical practices such as terraces, diversions and contour cultivation, are the tools of better management. Terraces are sometimes considered a necessary evil because they are hard to work and must be maintained, but some fields must have terraces if they are to be cultivated. Without terraces these fields would produce less each year.

Permanent grasses for pasture is the only alternative for those fields that are too steep to be cultivated without causing erosion.

Rangeland Cover Is Important Today As At Beginning Of Time

By CARL CASBEER

A good cover of grass on rangeland is very important and closely related to growing grass. The cover reduces runoff from rain, increases fertility and shades the ground to prevent evaporation.

Bare ground soil in hot summer will show 20 degrees hotter than soil with a good cover of grass.

Ranges with a cover of 750 to 1,000 pounds of cover per acre will only absorb 2 inches of rain per hour. A range with 2,000 pounds of forage per acre will absorb 6 inches of rain per hour.

A 2 or 3 inch rain will only penetrate from 4 to 6 inches on bare range while on one with a good cover it will penetrate two feet or more. The hot sun will soon evaporate all available moisture on a closely grazed pasture.

When air temperature is 108 degrees, bare ground temperature is 130. At this temperature grass can not grow.

Grass production is controlled

by the depth of its roots. Shorter grass is grass whose roots are will not grow during dry er.

A pasture with a good cover of grass will produce from 3,000 pounds of air-dry forage per acre while the same pasture will produce from 500 to 1,000 pounds of air-dry forage on a good pasture with more forage than you took all the poor grass.

Most cattlemen do not take to themselves as farmers. One rancher made this statement, "We are grass and market our product livestock."

Statewide production programs for growers of corn and grain sorghum have been announced by the extension agronomist. Local county agents can supply detailed information programs.

visible more fertilizer is needed. Practice this system until about June 1.

The Good Earth

It smells good. It feels good. Treated properly and tended with care, it provides our food and our income. Handled without thought for the future, it withers and grows poor... depriving us of our livelihood.

Agricultural science has shown us the way to farm security by discovering new ways of soil conservation.

This week is SOIL CONSERVATION WEEK—and we are glad to cooperate with the Soil District supervisors here, and with other representative groups in emphasizing the importance of this program.

RESIDUE UTILIZATION—Results of using one way plow in such a way as to leave all residue from oats on the surface, are shown here on the R. V. Geeslin farm north of Goldthwaite. This provides good soil protection when no growing cover is present. Crop utilization is becoming more and more important to those who are practicing soil and conservation methods.—(SCS Photo)

WANTED!

Plant Cover--Dead Or Alive

The protection of cultivated soil against erosion by wind and water, nothing can be done in the place of continuous cover of dead or living plants, true regardless of loam, rainfall, soil, or the kind of farming or ranching that is practiced. In Plains country, however, the need for plant cover is more important as conditions tend toward the dry side. The same time getting good cover is a tougher job. It is two-sided: First, the cover must be grown that will produce large amounts of residues; second, the residues must be left in a way that will protect the soil until a new crop is planted. The cooperation of farmers and research workers is an important lesson. We know that burning crop residues is one of the worst mistakes that can be made. And too much tillage wears out the soil and therefore should be held to a minimum. Leaving stubble and other crop residues on the surface has proved especially valuable in the grain summer-fallow areas where 15 or 16 months usually pass between harvest and the planting of a new crop. One way of leaving such cover and disturbing the soil surface as little as possible is by using equipment having sweeps or blades 32 inches wide or wider. This practice is known as stubble mulching. It is a year-around system. In it all tillage, planting, cultivating, and harvesting operations are done in a way to keep crop residues on the surface to protect the soil. Where wheat is grown each year, more cutting or stirring of stubble is possible without serious harm. The period for seedbed preparation is shorter. Narrower sweeps, chisel-type implements, or even disk types in some instances, may be used. When sorghums are grown separately or in rotation with wheat, the principles are the same. They involve the conservation of residues during the critical period to protect against wind, runoff, and splash erosion. The same practices help develop a soil condition that will take in moisture faster and keep it longer. In growing sorghums, if there is a high yield of stalks, as on irrigated land, it is safe to shred the stalks coarsely and tuck them lightly into the soil with a disk. On dry land, however, where yields are not so high, it is best to leave a high stub-

Bulletin On Pecan Diseases And Pests

College Station (Spec.)—The pecan tree must be protected from attack by the many destructive diseases and insects that affect it to produce a bountiful crop. Pecans are attacked by more than 20 species of insects that cause damage to leaves, nuts, twigs, buds, branches and even the bark. Diseases that affect the pecan, especially those caused by fungi, are rapidly spread through an orchard in the early spring. During this season of frequent rains, spores of the disease fungi germinate and invade young, tender tissues of the shoots, leaves and nuts. The many destructive insects and diseases must be controlled for successful pecan production. The grower must understand

ROTATION AND PASTURE—E. H. Hapgood is shown here in bottom-land field of blue panic grass planted in April. Grass was allowed to make abundant growth before cutting for hay on the Hapgood farm Southwest of Goldthwaite.—(SCS Photo)

the nature and habits of the various disease and insect pests that threaten his crop and use certain cultural practices which help to reduce damage. The wise use of crop residues, including stubble mulching, takes top billing in any plan of operations in a Conservation Program.

growers faced with this problem. It is entitled "Pecan Diseases and Insects and Their Control." This 19-page bulletin contains discussions of the characteristics, type of damage and control of almost all the major diseases and insects which damage pecan trees. It is available free of charge from local county agents or the Agricultural Information Office, College Station, Texas. Ask for MP-313.

FHA Loans For Soil And Water Conservation

POND CONSTRUCTION—Lee Parker, contractor, and Arnold Head observing newly constructed farm pond on the Head farm and ranch operation in the Center City area. The pond will provide water for Head's dairy herd—and maybe a little fishing too. Farm ponds have come to where they play a more and more important part in water conservation practices.—(SCS Photo)

Grass - Our Major Crop

By HUBERT BERRY

Farming or ranching at a profit means economical production of farm products. As the producer's share of the consumer dollar becomes less and less, economics in agriculture become more and more important.

Livestock farming is the major enterprise in the Brown-Mills Soil Conservation District. Producing feed as cheap as possible

then is the big production problem. The cheapest livestock feed is grass. Then grass becomes our most important crop. To realize the most profit from our pastures, it is necessary that we understand the requirements and growth habits of grass.

Continuous misuse can lead only to low production. Continuous harvesting of topgrowth eliminates the more palatable grasses making way for low pro-

ducing invader type plants. Just the opposite is true when proper range use is practiced.

Low quality plants are replaced gradually by more desirable and higher producing plants. These plants are deeper rooted, furnish more protection against erosion, and make more efficient use of rainfall. More pounds of beef, lamb, wool and mohair is the end result.

Close observers who respect their plants are likely to reap the bountiful harvest and not the slothful caretaker who thinks only in numbers of head.

Page 4 THE GOLDTHWAITE EAGLE—MULLIN ENTERPRISE Goldthwaite, Texas, Thursday, May 7, 1959

Raise More Grass Sell More Meat
Grow Better Crops Sell More Grain

AND BUY A NEW

FROM

Saylor Chevrolet Company

By ASTON W. COLE
FHA Supervisor

Soil and water conservation loans encourage and help farmers in the improvement, protection, and proper use of farm land by providing adequate financing for soil conservation; water development, conservation, and use.

To be eligible for a soil and water conservation loan an applicant must:—

1. Be a citizen of the United States.
2. Be a farm owner or operator.
3. Be unable to obtain the necessary credit on reasonable terms and conditions from private or cooperative sources.
4. Have enough experience or training to indicate reasonable prospects of carrying on successful farming operations.
5. Plan to improve a farm on which the operator is engaged primarily in farming. Nonprofit organizations such as incorporated water users' associations, mutual water drainage companies, and soil conservation districts are eligible for a loan when they are unable to obtain adequate credit elsewhere and meet certain other conditions.

For example, associations to be eligible must be primarily engaged in extending to their members services directly related to soil conservation; water

development, conservation, and use.

Loan funds may be used to pay cash cost of making improvements directly related to soil conservation; water development, conservation, and use. This includes such improvements as construction and repair of terraces, dikes, ponds and tanks, waterways, and erosion control structures. Also sodding, subsoiling, pasture improvement, brush removal, fencing and well drilling.

Soil and Water Conservation loans will be made to carry out only the types of soil and water conservation practices that are in accord with recommendations made by the Extension Service and Soil Conservation Service.

Individuals can borrow amounts up to \$25,000.00, but it is expected that the average loan application will be for less than \$5,000.00. The ceiling on loans to associations is \$250,000.

No Soil and Water Loan will be scheduled for repayment over a period exceeding the useful life of the improvement or of the security, whichever is less. In no case will the repayment period on loans to individuals exceed 20 years. Loans to associations will be repaid on the same basis as individual loans, but in exceptional cases can be amortized over periods up to 40 years.

Loans will be secured by the best liens obtainable on chattels or real estate to the extent necessary to adequately protect the Government's interest.

The determination of eligibility for Soil and Water loans is made by the local 3-member Farmers Home Administration county committee. The Mills

County Committee is composed of Layart C. Schwartz, Kerby, and Howard Cannon. Applications for FHA may be made at the office of Aston W. Cole, County Supervisor, Mills County. The office is located in the Courthouse and is open on Tuesday and Thursday mornings of each week.

Farm Ponds

By HUBERT BERRY

Farm ponds have been recognized for years as a conservation measure by the Brown-Mills Soil Conservation District. Their use as a source for cheap livestock water is widespread.

Requests for ponds through the ASC office vary from five hundred to more than ten thousand cubic yards.

Except for a few rare instances adequate livestock water cannot be obtained without moving at least one thousand yards of dirt.

On the contrary ponds having more than six or seven thousand yards of construction are usually impractical for livestock water.

There is also a misconception among some that a large body of water is needed to sustain long periods of dry weather.

Two important points to remember is to have deep and to prevent excessive silt.

Surveys made during the drought revealed that the ponds in surface areas had effect on the available lasting livestock water.

Locating a farm pond is one size which fits best as there is one size pond available for a given site.

Anything larger or smaller is a sacrifice on the part of the owner.

Copies of B-313, "Pesticides and Insects and Control," are available at the offices of local county agents from the Agricultural Extension Office, College Station, Texas.

FARMERS--RANCHERS

SOIL AND WATER LOSS IS THE NO. 1 PROBLEM OF TEXAS AGRICULTURE

EROSION IS DAMAGING:

- 94% of Texas Cropland
- 93% of Texas Grazing Land
- 66% of Texas Woodland
- 83% of Texas Idleland

ERODING FARM LANDS MEAN:

- Declining Productivity
- Lower Farm and Ranch Income
- Reduced Living Standards
- Depressed Community, State and National Economy.

CONSERVATION NEEDS FOR THIS DISTRICT ARE

CROPLAND

- Cover Crop, 80,000 Acres
- Crop Residue Utilization, 160,000 Acres
- Rotation Hay and Pasture, 85,000 Acres
- Strip Cropping, 12,000 Acres
- Terracing, 3,500 Miles
- Contour Farming, 200,000 Acres
- Border Irrigation, 8,500 Acres

RANGELAND

- Proper Use of Rangeland, 750,000 Acres
- Deferred Grazing, 500,000 Acres
- Range Seeding, 12,000 Acres
- Diversions, 650 Miles
- Farm Ponds, 2,000
- Brush Control, 200,000 Acres
- Pitting, 15,000 Acres

Soil Conservation

It's Everybodys Business

Ask your Soil Conservation Service, County Agricultural Agent or Vocational Agricultural instructors. They can—and will—supply you with valuable technical details of a practical, profitable, individual farm or ranch and moisture conservation program.

Grass Ranks Ahead Of Livestock As Rancher's Primary Cash Crop

Most ranchers know a great deal about livestock but know less about the crop on which their livestock depends and which actually determines the success of their operations.

Proper grazing is necessary for maximum grass growth. Approximately 95 per cent of all grass growth is due to food materials manufactured in the leaves or blades of grass. The other five per cent of growth results from the soil. The grass

plant is a food factory. The leaves make food which is transported to the roots to grow more roots so more leaves will grow. If the leaves are grazed off the plant loses part of its ability to make plant food. Continued loss of leaves weakens the roots to the extent that the plant will die of starvation or perish from dry weather. By leaving half of the above ground portion of the grass, continued growth of the plant is assured.

The take half-leave half principle can be used to improve any pasture or range in the Brown-Mills Soil Conservation District. The half of the season's growth of grass that is left on the range is like money wisely invested. It provides new growth, so that the half taken each year will increase. It pro-

Vegetation Control Can Produce More Range Forage

College Station, (Spec.)—"Reduction in output, which is not always apparent, is by far the greatest loss to the production phase of agriculture," says Dr. Wayne G. McCully of the Range and Forestry Department of Texas A&M. He said that injurious plants, such as shinnery oak, increase labor and may lower the quality of the marketed commodity.

Vegetation control is the establishment and maintenance of a particular kind of vegetation on a given area. Land managers have long used the practice of intensive cultivation with a planted crop as a means of vegetation control, he added.

The recent development of selective phytocides has furnished tools to use in vegetation control over large areas of non-cultivated range and timberlands. Aerial applicators are important in the development and use of these new tools in agriculture, he said.

Dr. McCully pointed out that the concept of vegetation control implies that some plants are more desirable than others in furnishing a monetary return to the farmer, rancher or forester. These undesirable plants have long been known as weeds or brush. Management programs have been directed toward minimizing or overcoming their efforts on the production of desirable plants.

Legumes - - Natural Soil Builder

By H. L. BERRY

Regardless of all the conflicting information, legumes still remain the number one cover crop.

Perennial grasses do much to increase the potential of our soils. However, legumes furnish a quicker cover and supply nitrogen in much larger quantities.

They provide a litter that serves as a mulch against erosion, protects against loss of moisture and against evaporation.

The use of supplemental grazing can make it possible for range and pasture deferments.

Livestock numbers should be kept in balance with the amount of grass. More pounds of beef, lamb, wool and mohair will be produced only when there is enough grass to produce it.

Legumes, such as clover or winter peas, does the soil little good if grazed excessively.

The soil building process diminishes in proportion to the amount of utilization and trampling by livestock.

Any healthy soil has numerous beneficial bacteria. These bacteria are increased depending on the use made of the soil. Soil is no different from animals, both must be fed to produce.

The use of high quality planting seed is basic to successful farming. Irrigation, high rates of fertilizer, control of insects and other good production practices can be lost through the use of low quality planting seed. Ask the local county agent for a copy of L-420, "Know the Seed You Buy."

COVER CROPPING—A group of farmers examine the 28" sweeps used to cut loose the roots of winterpeas grown on the sides of beds for cover crop and soil conditioning on a San Saba farm. Planted on October 19—came up on November 8. Total rainfall 3.7 inches.—(SCS)

Small Watershed Protection Program In Texas Progresses

College Station, (Spec.) — The passage of the Watershed Protection and Flood Prevention Act by the Federal Congress in 1954 has resulted in 148 applications being filed in Texas for consideration by the State Soil Conservation Board.

Commenting on the status of these applications, Jack Bartlett, extension specialist in soil water conservation, said 14 have been approved by Congress and authorized for operations since January 1, 1959. Plans have been completed on three and are before the Budget for consideration.

Eight projects are listed by Barton as in the planning process; four were found not feasible after detailed planning began while 42 applications have been disapproved. Another 19 applications are listed as disapproved pending which means they are to receive further attention.

Of the 148 applications submitted, Barton said, 85 had been approved. Acreages in the watersheds varies from 20,000 to 240,000 and the number of structures required ranges from 2 to 40 per watershed. The average cost per structure has been estimated at \$50,000.

Under the terms of the Act, Barton pointed out that local landowners pay for operation and maintenance of the projects while the Federal government provides funds for the structures. The projects are initiated and administered by local organizations. USDA provides technical assistance, cost sharing and credit in accordance with mutually agreed upon plans.

Small watershed groups interested in obtaining detailed information on Public Law 566 are advised by Barton to contact their local Soil Conservation District supervisor or county agent.

AGRONOMY — Legumes — Winterpeas. This photo taken on the Frank Kerby farm six miles East of Goldthwaite shows an excellent fall growth of Austrian Winterpeas in 40" rows as it is being examined by Mr. Kerby.—(SCS Phot)

Soil Conservation MEANS BETTER PRODUCTION

Better Production MEANS BETTER LIVING

SURE! We can boast the best standard of living of any nation in the world. BUT we didn't get it by sitting back in a comfortable rut. We got it by working together in an atmosphere of freedom where the best is considered only something to be improved.

If our Nation, State, and County are to remain prosperous, if we are to continue vigorous and leaders in world affairs — if we are to endure at all — we must STOP WASTE OF ERODING SOIL.

WATERWAY DEVELOPMENT—Here is an ideal picture of a grassed waterway used for terrace outlet on the Elzie Ault farm 15 miles southeast of Goldthwaite. Waterway is sodded to Bermuda grass.—(SCS Photo)

"566" Highlights

Here are the answers to some of the questions local people have been asking about the Small Watershed Act.

The Act—Congress passed the Watershed Protection and Flood Prevention Act, known as P. L. 566, in August 1954. The Act provides for a new project-type approach to soil and water-resource development, use, and conservation. In 1956 the Act was amended by Public Law 1018, 84th Congress.

Local Project—Under the Small Watershed Act, each project is a local undertaking with Federal help, not a Federal project with local help.

People Initiate—The Act places full responsibility for starting small watershed projects on local people who act through their own organizations. Only local organizations can initiate a project.

USDA's Part—Under P. L. 566, as amended, the Secretary of Agriculture is authorized to give technical and financial aid to local organizations in planning and carrying out works of improvement for (1) flood prevention; (2) agricultural water management; (3) nonagricultural water management, including municipal or industrial water supply. The Soil Conservation Service has the primary responsibility for carrying out the Act.

Not Covered—Federal assistance is not available under P. L. 566 for the following: (1) measures that do not provide direct measurable flood prevention or water-management benefits to two or more beneficiaries; (2) measures for the distribution or use of water stored for non-agricultural purposes; and (3) structures or measures for non-agricultural purposes if no works of improvement for flood prevention or agricultural water management are planned for the project.

Aim Of Act—To bridge the gap existing between the effective conservation work done by individual farmers and ranchers on their own land by Federal and State agencies on public lands and the large downstream dams and other developments on major rivers.

Group Action—Many watershed problems can be solved with soil and water conservation practices applied as needed on individual farms and ranches. Wise land use and treatment are the foundation for watershed protection and flood prevention. Teamwork of local organizations is needed to do the group or community jobs that individual landowners cannot do alone.

Getting Help—You and your neighbors as an organized group can get help in working out watershed problems when:

- 1.—Your watershed is smaller than 250,000 acres.
- 2.—Your local organization has legal authority from the State to carry out, operate and maintain the needed works of improvement for watershed protection and flood prevention.
- 3.—The State approves your

application for assistance.

4.—Your local organization and USDA agree on a watershed work plan.

5.—Federal funds are appropriated to provide help in accordance with the plan.

Benefits And Costs—Benefits must be greater than costs for all independent structural measures or groups of measures.

Work Time Table—Most projects will be planned for completion within 5 years after installation funds become available.

Cost Sharing—Local organizations or landowners and operators are required to bear certain costs, either in cash or the equivalent in labor, services and materials.

Some costs, including planning and engineering costs for certain services, are borne entirely by the Federal Government.

The local organization shares in the cost of constructing works of improvement for irrigation, drainage, and other agricultural water management.

The Federal Government pays all the construction and engineering costs of installing works of improvement for flood prevention.

Project Loans—To help local organizations pay their share of project costs, the Secretary of Agriculture may make loans or advancements to the sponsoring organizations. Loans or advancements can be made for periods up to 50 years at the Federal long-term borrowing rate with a limit of \$5 million for one project. The Farmers Home Administration administers the loan or advancement provisions of the act.

Help Given—In addition to assistance offered under the Small Watershed Act, local watershed sponsoring organizations and local people have the aid of other Federal, Federal-State and State programs dealing with land, water and plants.

This assistance may include:

- 1.—Educational assistance from the cooperative Federal-State Extension Service.
- 2.—Technical aid by the SCS under its national program of assistance to soil conservation districts.
- 3.—Agricultural Conservation Program cost sharing.
- 4.—Credit from the Farmers Home Administration.
- 5.—Farm - forestry assistance under the Cooperative Forest Management Act.
- 6.—Protection of forest areas from fire, insects, and diseases under cooperative programs authorized by the Clarke-McNary Act, Forest Pest Control Act, and White Pine Blister Rust Protection Act.
- 7.—Protection and treatment of Federally owned lands in the watershed by land-managing agencies.
- 8.—Collection of basic data by research agencies.

Leadership—The U. S. Soil Conservation Service has been assigned primary responsibility of carrying out the provisions of the Watershed Protection and Flood Prevention Act.

CONSERVATION PAYS OFF TO YOU !

your
SOIL
is
MONEY...

Like any business, a farm must conserve its resources if it is to pay. We have confidence in the wisdom of our county's farmers. Many of them have already begun a program of soil and water conservation on their land.

If you are not already following conservation measures on your farm, call the Soil Conservation Supervisor of this county today. He will be glad to advise you on a program for your own land — and you'll reap the profits.

As your bank we invite you to come in and let us help you with your financial problems. If you plan to expand, buy a car, truck, tractor, Farm machinery, or improve your home, we want you to know we will be happy to discuss with you your credit needs.

Know The Difference In SCS And SCD

There is a difference between Soil Conservation Service and the Soil Conservation District even though the SCS and SCD alphabetical abbreviation may be somewhat similar.

SCD is a Soil Conservation District, a legal sub-division of the state, similar to a county or school district; organized and governed by its landowners for the purpose of promoting and practicing soil conservation.

SCS is the Soil Conservation Service, a technical Federal agency of the United States Department of Agriculture dealing with problems relating to the soil, water, and plant conservation. The assistance of the Soil Conservation Service is made available to Soil Conservation Districts through a memorandum of understanding between the SCS and the District. Upon request through the district's governing body of supervisors, Soil Conservation Service technicians render service to landowners and oper-

Soil Improvement — Basic Tips

Are your soils run down? Are your acres hard to work and slow in absorbing water? Are crop yields going down instead of up? Are washes showing up after every rain?

Want to improve the soil and get the production up and the debt down? Then take a lesson from Mother Nature.

Nature's method of building soils is a good prescription to follow in building production and protection into a soil. The following principles of Nature's method of building soil will bring those sick, lazy acres back into production.

COVER—Keep the land covered with litter or growing crops as much as possible for pro-

tection. **ORGANIC MATTER** — Grow crops for organic matter supply and leave all residue on the soil surface. **FERTILITY** — Add fertilizer where needed. **MINIMUM TILLAGE** — Keep livestock and equipment off of fields when wet to keep soil from packing. **STRUCTURE** — Follow all rooted legumes to encourage above principles and grow deep-worms and bacteria and to improve air, water and root movement. **RIGHT LAND USE**—Grow the kind of crop suited to the land. **TERRACES OR DIVERSIONS** —Where needed in addition to above principles. Maximum production and good protection will be obtained if these principles are applied to the land.

tection. **ORGANIC MATTER** — Grow crops for organic matter supply and leave all residue on the soil surface. **FERTILITY** — Add fertilizer where needed. **MINIMUM TILLAGE** — Keep livestock and equipment off of fields when wet to keep soil from packing. **STRUCTURE** — Follow all rooted legumes to encourage above principles and grow deep-worms and bacteria and to improve air, water and root movement. **RIGHT LAND USE**—Grow the kind of crop suited to the land. **TERRACES OR DIVERSIONS** —Where needed in addition to above principles. Maximum production and good protection will be obtained if these principles are applied to the land.

Priddy, Texas

Remember The Time?---

Yes, there was a time, about the time when the telephone first made its appearance as a vital link between town and country, a farmer or rancher could move on to new ground when his acreage slowed down in production. The need for protecting and conserving the soil was given little thought in those days.

But! Times Have Changed...

Yes times have changed alright. We have made much progress in farming and ranching as well as in our telephones. Farmers and ranchers are practicing soil conservation in increasing numbers and improving their economy just as the telephone has improved into this new modern dial system that is now available to Central Texas farmers and ranchers. All in all it means better living for all our families, both town and country.

We salute the soil conservation staff of this area and we heartily endorse and recommend better soil conservation methods.

And, we also invite your inquiry and recommend that you get in on the advantages offered through our modern telephone system.

Central Texas Telephone Co-operative

SERVING THE RURAL AREA OF CENTRAL TEXAS

Range specialists of the Texas Agricultural Extension Service say that late spring is the best time to use chemicals for mesquite control. For single stem plants, they recommend 1/3 pound of 2,4,5-T; 1/2 gallon of diesel oil and enough water to make 3 gallons of spray solution

per acre. For multiple stem and sprouts and regrowth spraying, increase the 2,4,5-T to 1/2 pound. Aerial application is recommended with swaths no more than 60 feet on single stem growth and no more than 42 feet for multiple stem, sprouts and regrowth.

IN OBSERVANCE OF SOIL CONSERVATION WEEK

This week has been designated as Soil Conservation Week—a period in which emphasis will be placed on the importance of conserving and improving the productivity of the soil for crop and pasture.

We are glad to co-operate with the Soil Conservation District supervisors here, with other representative groups, in emphasizing this program.

LET'S CONSERVE AND BUILD OUR SOIL

It's a practical, worthwhile and profitable plan
—Mills County's future depends on the Soil.

FHA Credit Needs Extended

There has been a significant increase in the size of farms in this area over the past ten years and there are several contributing factors to this change. Improved living standards, modern machinery, cost of operation, all have had their degree of affect on this change. There are many others. These are the words spoken by Aston W. Cole, County Supervisor, Farmers Home Administration, servicing Mills, Lampasas and Burnet Counties. Mr. Cole added that FHA is keeping pace with the time by increasing loan limits and revising loan procedure. There has been some increase in per acre appraisals based on normal earning capacity, but the largest increase has been in loan limits for operating loan credit and real estate

credit which has in some instances more than doubled in the past ten years. Farmers Home Administration is an agency of the USDA whose function is to assist farm families become firmly established on the farm. Eligibility for loans is determined by the FHA Committee in each County. A loan of particular interest at this time is for the purpose of Farm Enlargement under the Farm Ownership Program. This loan may enable a farm family who own an under-sized farm unit to purchase additional land and develop it into an economical family-type unit. A family-type unit is defined as a farm that will produce sufficient income to provide a reasonable standard of living, pay operating expenses and debts, and have a reasonable

reserve for emergencies. Farm Ownership loans may be made for periods up to 40 years. The interest rate is 4 1/2 per cent from funds made available through annual appropriation from Congress and 5 per cent from funds advanced by private lenders and insured by the Farmers Home Administration. The Farmers Home Administration, under provisions in Title V of the Housing Act of 1949, as amended, was authorized to make Farm Housing loans to eligible farm families. Loans for periods up to 33 years at 4 per cent interest are made to farm owners, who are otherwise unable to finance needed hous-

ing and other building improvements. Farm Housing loans may be used to construct, improve, alter, replace, or repair farm homes on farm service buildings, or provide water for homestead and household use. Each loan is secured by a mortgage on the farm, subject to any existing prior liens.

The Farmers Home Administration 3-member local Committee must certify in writing that an applicant is eligible for a loan. The FHA headquarters servicing Lampasas, Mills and Burnet Counties, is located in the Briggs Building, Lampasas, Texas.

Farm Fish Pond Management Ideas

College Station (Spec.)—Fertilization is the best way to keep submerged pond weeds under control in the eastern half of Texas, says E. H. Cooper, extension wildlife conservation specialist. However, he adds, chemical control is usually necessary in other areas of the state.

Spring and early summer are the only periods when control methods are really effective, he adds.

A little plant growth in shallow areas around margins of the pond is not harmful and control should be taken only when it becomes obvious that plants are spreading extensively.

Sodium arsenite will control most submerged aquatic plants with the exception of chara. Algae and chara can be controlled with copper sulfate.

Fertilizers will increase the microscopic plant and animal life in the pond and they will provide food for water insects and other organisms on which fish feed.

Good fertilizers to use are 16-20-0, 4-12-4, and 5-10-5. Barnyard manure, cottonseed meal or soybean meal may also be used.

Chemicals for aquatic plant control are not harmful to fish or livestock if the proper amount is applied and the recommended techniques of application are followed.

Treat with chemicals at about two week intervals, covering approximately one-third of the weedy area per treatment. This method will allow plants to decompose in smaller masses, and thus reduce the hazard of oxygen loss to fish, Cooper said.

If you have a plant causing trouble in your pond and cannot identify it, take a pressed, dried sample of it to your county agent.

Additional information may be obtained by ordering B-213, "Improve Your Farm Fish Ponds," from local county agents or the Agricultural Information Office, College Station, Texas.

Graduation Exercises Start Sunday For County Schools

Baccalaureate And Commencement Services To Start This Sunday

Baccalaureate and Commencement Exercises for Mills County seniors have been scheduled and will get underway Sunday, according to school officials of the county.

According to reports from school superintendents there will be 48 students graduating in the county. Following is the schedule of services for each school and list of graduates.

MULLIN

Baccalaureate Services will be held at the First Baptist Church at 8:00 o'clock Sunday evening, May 17 with Barney Welch, Minister of the Church of Christ as speaker. Commencement Exercises will be held Friday night, May 22 at 8:00 o'clock at the high school auditorium. Dean Z. T. Huff of Howard Payne College will be the speaker.

Seniors who will receive their diplomas are: Bill Donowho, Eldora Edmondson, Nelda Rutherford, Richard Ashford, LaRita Morris, Eugene Williams, Lena Fay Smith, Jimmy Jones, Charley Bramblett, Frances Carlisle, Glenda Gavin, Carolyn Bramblett, Peggy Joyce Patrick and Mary Singleton.

STAR

Baccalaureate Services for the Star seniors will be held Sunday, May 24 at 8:00 o'clock at the high school gymnasium with Rev. Jesse Long delivering the address. Speaker for the Commencement Exercises on Monday night, May 25, will be P. L. Armour of San Angelo. The exercises will begin at 8:00 o'clock.

Seniors who will receive their diplomas from Star are: George Brown, Elam Miles, Leland Meyer and Gilbert Casbeer.

PRIDDY

Priddy High School Seniors' Baccalaureate Service is to be

held on Sunday, May 17, 1959 at 8:00 p. m. in the Priddy High School Gymnasium. Guest speaker will be Brother Wayne Allen of the First Baptist Church in Early, Texas.

Commencement Exercises will be held Thursday, May 21, at 8:00 p. m. in the Priddy High School Gymnasium. Guest speaker will be Dean Paul A. Cumyus of Tarleton State College, Stephenville.

Members of the 1959 graduating class of Priddy High School are: Gay Drucekhammer, Mrs. Lanell Goerdell, Jo Ann Spinn, Norman Driskill, Ray Harris, Larry Goerdel, Carl Janner, George Roberts, Alvin Tiemann.

GOLDTHWAITE

Baccalaureate Services for the Goldthwaite Seniors will be held Sunday evening, May 24, at 8:00 o'clock in the First Baptist Church with Rev. Presnall H. Wood delivering the address. Commencement Exercises will be held in the High School Auditorium on Thursday night, May 28, at 8:00 o'clock. Senator Louis Crump of San Saba will be the guest speaker.

The following seniors will receive their diplomas at the Commencement Exercises on May 28: Gary Leverett, Addie Jo Conrad, Nathan Carothers, Linda Ward, Brenda Kelly, Prentiss Head, Barbara Dell Burns, Gene Elliott, Gary Straley, Benna Vonn Reid, Danny Galloway, Maxine Loudamy, Max Shepherd, Elsie Crumley, Aubrey Hillman, Marion Howerton, Shirley Morgan, Del Barnett, Odena Ward, Richard Jones and Shirley Manuel.

Housing Addition Is Being Planned By O. O. Smith

Announcement of plans for a new housing addition in West Goldthwaite has been made by O. O. Smith of Barnes & McCullough Lumber Company.

It will be on a four acre tract west of Live Oak Street and will be known as Fairlawn Heights addition. The sub-division will be engineered with street down the center of the tract with a circle drive. This street will be known as Proctor Drive.

The tract of land is being cleared and Marvin Turner, Austin, is working out engineering details with map of lots which will be then turned in to the city for a platted addition.

Street work will be done in preparation for building. The addition will have 17 homesites of various sizes. Most of the lots will have 85 foot front.

It will be located West of the new three bedroom brick home that Smith is building for sale on Live Oak Street at this time.

Safety Official To Appear Here

Mr. Meredith, Department of Public Safety, will give a program on Driving Safety Thursday morning (today) at 10 o'clock, to students of Goldthwaite High School. All parents are invited to attend.

Sheriff Stubblefield has arranged this program in cooperation with school officials to make young drivers as well as the older drivers more safety conscious, according to announcement by David J. Williams.

Weather Report

Goldthwaite received 34 inch of rain last Sunday. This brings the total for the month of May to 1.11 inches, according to official record by Harry Allen, weather observer.

Mr. and Mrs. Jack Locklear and children, Clyde, Cece, Curtis and Wayne, of Brady, spent Mother's Day with their parents and grandparents, Mr. and Mrs. C. Locklear.

Dr. R. L. Dobson To Preach Sunday At Baptist Church

DR. R. L. DOBSON

Dr. R. L. Dobson of the Department of Religion, Howard Payne College, Brownwood, will preach at the First Baptist Church at both services this Sunday in the absence of the pastor who is attending the Southern Baptist Convention, Louisville, Kentucky.

Dr. Dobson came to Howard Payne in September, 1957, from Wayland College, Plainview, where he was chairman of Bible and Religion for nine years.

He also has served as pastor of the Tabernacle Baptist Church of Houston, the First Baptist Church of Dublin, the First Baptist Church of Mexia, and the Mission Hill Baptist Church, Mission, Kansas.

He is a graduate of Baylor University, Southwestern Baptist Theological Seminary, and he received his Doctor of Theology from Central Baptist Theological Seminary, Kansas City. A member of the National Association of Bible Instructors, he has given many lectures using photographic slides made during a visit to the Bible lands in 1955.

Local Markets

Sheep sale at the Mills Commission Company Friday showed a slight decrease in the number of head with a total of 7,200 head through the auction. At the goat sale on Monday of this week a total of 1,000 head sold, being a slight increase in the number of head over last week.

Market prices were variable for classes of sheep and goats at the last two sales.

SHEEP
Lambs, 18c to 21c; stock- lambs, 15c to 20½c; yearling ewes, 14c to 17½c; yearling ewes, \$10 to \$18 per head; old ewes, 7c to 7½c; old bucks, 6c to 7c; stocker ewes, \$10 to \$16 per head; ewes and lambs, \$12 per pair.

GOATS
Wethers, \$10 to \$12 per head; weighing kind, 10½c; good nannies, \$8 to \$10 per head; cull nannies, 6c to 7c; nannies and kids, \$10 per pair.

EGGS—PER DOZ.
Current receipt eggs were listed at 18c and 19c this week.

CHICKENS—PER LB.
Hens, 5c; Hens, 8c.

Hands Needed for Park Upkeep

Members of the municipal and pool committee met last week to organize for year's activities. They found that the major problems facing the committee is the lack of hands for proper up-keep of the park.

Over the past few days have been held individuals have contributed to the cause but that has been insufficient to get the job done.

Members of the committee agreed that there is a definite need for approximately 20 persons to pledge their support in the amount of one dollar per month, or \$12 per year to create a maintenance fund, as the city has no funds for this purpose. If this can be accomplished the job can be taken care of properly.

Those present at the meeting pledged their support and urged others to join in the effort. The following were present at the meeting and head list of those who are willing to support the park fund.

LOY LONG

The new owner and operator of the Humble Service station located on South Fisher Street in Goldthwaite, he opened for business last Friday. Mr. Long is a 1958 graduate of Goldthwaite High School and spent the past year in Mexico.

He is the son of Mr. and Mrs. Glenn Lucas of Route 2, Goldthwaite.

RECEIVE STATE FHA DEGREES—Four Goldthwaite High School girls received State Degrees of Achievement, Friday, April 24, at the State FHA meeting in Dallas. They are (left to right), Maria Eubank, daughter of Mrs. Nell Eubank, Gail Featherston, daughter of Mr. and Mrs. Boyd Featherston, Jackie McCasland, daughter of Mr. and Mrs. Homer McCasland and Judith Reid, daughter of Mr. and Mrs. Dale Reid. They were presented with certificates and state degree pins. They are all high school juniors. (See Story on Page 12)

Mullin F. F. A. Rodeo, May 14-16

Mullin's Invitational Rodeo begins tonight, Thursday, and will continue for three nights, May 14, 15 and 16th. The rodeo will be held on the new rodeo grounds at the school where new pens and chutes have been built in preparation for this event.

Schools invited to enter this event are: Goldthwaite, Star, Evant, Pottsville, Gustine, Sidney, Comanche, Blanket, May, Brooksmith, Zephyr, Early, Priddy, Coleman, Rochelle, Richland Springs, San Saba and Lometa.

The F. F. A. Chapter as well as sponsors of the rodeo are expecting a large crowd for the three nights and they promise plenty of excitement for the rodeo fans, according to Mr. Whisenhunt, V. A. teacher.

WORLD WAR I VETS TO MEET

Local Barracks No. 1265, Mills County World War One Veterans Inc., will meet this Friday night at 7 o'clock in the Mills County Courthouse, L. B. Porter, Commander, announced Wednesday morning.

The Church Of The Nazarene To Hold Zone Rally May 15

The local Church of The Nazarene would like to have 100 in attendance at the services on Friday night, May 15 at 7:30 o'clock, to help them win the attendance banner of the Brownwood Zone. There will be nine churches taking part in this Young Peoples Zone Rally and trying to win the banner. "They say 'we can't do it,' but we believe we can with your help," stated Rev. E. F. Waskom, pastor.

Rev. James Hester, District Superintendent, will try to be here for the service, but in case he cannot make it, there will be another guest speaker, according to Rev. Waskom.

Mrs. Bill Lewallen and Mrs. John F. Kirby of Jal, New Mexico were guests of their parents, Mrs. Maude Dennard and Mr. and Mrs. Bill Daniel the first of the week.

84 DRIVE-IN OPENS FULL TIME THIS WEEK

Mr. and Mrs. Philip Nickols have announced that the 84 Drive-In Theatre will be open every night in the week for the summer season beginning this week.

The show for the three nights showing (Tuesday, Wednesday and Thursday) next week will be "The Sad Horse," and according to Mrs. Nickols it is a very special picture. They invite everyone to come out and enjoy an evening under the stars and see a good movie.

Memorial Day This Year Falls On Saturday

Memorial Day, May 30, falls on Saturday this year. This is one of the six holidays during the year that were approved by local merchants some time ago to be observed by closing.

Mr. and Mrs. Earl Summy of Luikin spent several days visiting relatives and friends here.

ALLEN MORELAND

is one of the new and latest members to be added to the circle of business and professional men in Goldthwaite, as owner and operator of The Dairy Cup which is now open for business.

Mr. Moreland is a native of Goldthwaite having attended school here. He served two years in the U. S. Navy and for the past five years has been employed with the Texas State Highway department. Before that he was employed with the Hamilton County REA for five years.

1959 ACP Funds Are Exhausted

All of the \$44,429.00 allocated to Mills County for 1959 has been issued to Mills County producers in approvals, says E. L. Burkett, Chairman of the Mills County ASC Committee.

Mr. Burkett, said that participation in the 1959 ACP Program, as of to date, had far exceeded that of any year, which he had been county committee-man.

As soon as sufficient funds become available, to make it practicable, request for ACP cost-share will again be accepted. However, it is not anticipated that requests will be accepted before June 1, 1959.

Special Services At Baptist Church Next Wednesday

The First Baptist Church of this city will join churches throughout its denomination in this country in the observance of Baptist Hour Day, set for Wednesday, May 20, at 8: p. m. on the Southern Baptist Convention calendar of activities.

This announcement was made today by Presnall H. Wood, pastor of the church. This special event is to recognize the efforts of the Radio-TV Commission within the denomination for the past 18 years, Wood said.

Highlight of the service will be a tape recorded message by Dr. Herschel Hobbs and Dr. Paul Stevens with music by the Baptist Hour Choir.

New Floor For Hudson Drug

Monday night was flooring time at Hudson Drug Store. It started during regular business hours Monday afternoon when preparations got underway to move fixtures and get ready to install a new floor.

After regular business hours workmen moved in and installed the new floor which consisted of a layer of plywood and Vinyl tile over the old flooring.

VIC'S . . .
SOLILOQUY

BACK TO THE PARK FUND—Here I go again. Back to the need for a park fund to properly take care of Municipal Park. I mentioned two weeks ago the park and need for establishing a park fund to insure proper care and maintenance during the growing season each year. At that time it was pointed out that if we are to have a nice park it will be necessary to hire a caretaker for three or four months of the growing season to get the job done.

It was also pointed out that there are two ways of accomplishing this job. One is for it to be done by the city and the other is for a few **PUBLIC SPIRITED CITIZENS** to foot the bill. As we mentioned before, the city has no specific fund for that purpose, so you can soon figure out what method is left for us to turn to.

Seems that the best or quickest way to get the ball rolling is to get a bunch of county citizens behind the project and with a little help from a good number of parties the job will be easy.

That's just what the Park Board members decided last week Wednesday when they had a meeting to discuss the matter.

It was decided to work out plans for an organized effort that would insure a perpetual upkeep program for the park.

It was further decided that the goal would be to enlist 100 interested citizens of Mills County, or outside, to join in the move by being willing to contribute one dollar per month, or \$12 for one year to a special fund for purchase of needed equipment and hire of a caretaker for three or four months to insure the park being cared for.

In the past few years there have been work days and there have been contributions from a few individuals and organizations to help with work days. A lot of work has been done by the city. This has been good and is good as far as it goes, but, it doesn't go far enough.

A few days or a couple of weeks after work days are over and we get a rain and the park is back in the same shape that it was before and nobody has time to go and do the job over.

As everyone knows by now this is not just a local project. This is a county project. The municipal park is a county-wide asset and is there for people from all over the county to use and enjoy as well as those traveling our way who may find time to stop along their route.

A good many people have used the park and are using the park. It has the possibility of being one of the finest small community parks to be found anywhere. It is located in a pretty setting with the swimming pool right in the park, and there are electric, water and cooking out facilities. It is right next door to the new Legion Hall where indoor facilities are also available for gatherings. What better set-up could be asked for?

But, it needs to be kept up.

Members of the park board started the ball rolling by heading the list of those willing to invest \$12 a year to keep up the park.

Others are rallying to the cause by joining the park board members in their effort.

On the first page of this issue you will find story about this project with list of those who have already responded to the need and pledged their support.

Check the list and give the matter a little thought and see if you wouldn't like to do likewise.

This message is directed not only to business and professional men and women and organizations in Goldthwaite. It is directed to everyone in Mills County. Businessmen in Priddy, Star, Mullin and farmers and ranchers all over the county can have a part in this project. And rightly so, a good many should have a part in it. Former residents now residing elsewhere are also invited to take part.

The park is there for you to use. It's ideal for family reunions, school picnics, Sunday School or church gatherings or just a little private picnic.

If you would like to join in this worthy cause just get in touch with any member of the park board, or leave your name and contribution at the Mills County State Bank or just drop by the Eagle Office and we will be most happy to add your name to the list.

THE TREES AND GRASS—Camille Bryant, two and a half year old daughter of Mr. and Mrs. Walter A. Toby Bryant has it pretty well sized up as only a child could, and has expressed herself regarding the subject, of where the trees and the grass come from.

Her daddy was cleaning some fish one day and after the job was done the two took some scraps up to the dump ground. They got up on the hill and out of the car when Camille asked: "Daddy, where do trees come from?" Daddy answered: "God made them." Then she said: "HE'S a Good Ol' Boy, Isn't He?"

WHEN THE OLD BIRD WAS YOUNGER

10 YEARS AGO—

(Taken From The Eagle Files of May 13, 1949)

Two cases of smallpox have been discovered in Mills County and the family was immediately put under quarantine. Dr. Ruel Slaughter, City-County Health Officer, has told the Eagle.

The oil-test well that was drilled by David Roach and associates ten miles north of Goldthwaite was abandoned and casing pulled last Sunday. Total depth was 3,540 feet, down 340 feet in the Ellenburger lime, which was hit at about 3,200 feet.

Goldthwaite, a city of 2,000 people located eight miles from the exact geographical center of Texas, is experiencing now the greatest building boom in its history. Main causes of the spurt in building are the \$25,000 to be expended by the City Council in an additional water supply and the assurance of the Lone Star Gas Company that natural gas will be available in Goldthwaite before Christmas. Finishing touches are now being put on the new Fairman Company Building, started last fall, which will serve as office, display room and service room for International Harvester Company farm implements and electrical fixtures.

Work was started three weeks ago on the new First Baptist Church Building, of brick and tile to cost an estimated \$100,000, which will replace the structure which was totally destroyed by fire October 26, 1948. Commissioners Court met in a Called Session May 5, with District Engineer Leo Ehlinger for the purpose of securing some additional Farm-To-Market roads under Senate Bill No. 887 which gives the counties some additional Farm-To-Market roads. Mills County will get at this time about nine miles.

Ira Aldredge, who has been a patient in McKinny Hospital, returned home Friday.

25 YEARS AGO—

(Taken From The Eagle Files of May 11, 1934)

Friends of Mr. and Mrs. T. Robertson and Mrs. Harvey Dunkle of Rock Springs surprised them last Friday night with a party. They met at the schoolhouse and went en masse.

Judge L. E. Patterson, one of the best loved and most valuable citizens of Mills County, passed from this life Wednesday afternoon in the hospital at Brownwood.

Mrs. R. J. Hallford, better known to friends here as "Granny," died last Monday afternoon at 5:30 o'clock at Bangs at the home of her daughter, Mrs. Henry Speck.

After the Eagle was put to press information was received that Mr. J. D. Ryan had died at his home at Lake Merritt community.

Judge Carl Runge of Mason, a candidate for Congress, was meeting with the people here yesterday and made a fine impression upon all whom he met. Friends here of Will Wiggins and family, former residents of this county, were grieved to learn of the accidental death of his son, Edward, 27, who was struck and killed by a railroad train at Tulsa, Oklahoma, Friday of last week, and was buried at Mexia last Sunday.

Mr. and Mrs. W. W. Queen and her mother, Mrs. Womack, came in from Tyler Monday to look after some property interests and meet with their friends.

Mrs. Conrad Stolzenbach and little son arrived in this city Sunday from Canton, Ohio, for

55 YEARS AGO—

(Taken From The Eagle Files of May 13, 1904)

Miss May Atkinson and Mr. Marvin McGough were married at the residence of the bride's brother, Mr. R. J. Atkinson, in this city last Saturday morning.

George Lindsey Little, the baby son of Mr. and Mrs. L. H. Little died at the family home in this city Monday night at 1:15 o'clock, and the little body was interred in the Odd Fellows Cemetery Tuesday afternoon.

Hammond Bodkin this week received his state license as an embalmer, he having graduated in that profession. The same night that he received the license, he was called upon to embalm a body and the work done was entirely satisfactory.

A. J. Gatlin this week sold 100 steers from 2 to 4 years old to E. S. Kirby for \$15.50 each.

Mr. Blank was attacked by two wolves Monday while he was plowing in Captain Dan Bush's field in the Caradan community. Mr. Blank's dog was with him and when the wolves entered the field the canine made fight upon them. Mr. Blank secured some rocks with which he pelted the intruders and the dog assisted him in running them out of the field.

a visit in the home of her parents, Mr. and Mrs. J. H. Frizzle.

Supt. R. J. Gerald of Star school looked after business in this city the first of the week.

Earl Day, a rancher of the Ebony community, looked after business in this city Monday.

G. W. Mason, who was killed by the cyclone at his home near Star last Thursday night, was buried at Evant last Saturday at 12:00 o'clock.

Miss Lula Sanders of Mullin has been in this city this week visiting her sister, Mrs. W. B. Summy.

Mrs. W. F. Hearne went to Temple the first of the week to visit her mother, Mrs. Caldwell.

O. L. TURNERS HOLD OPEN HOUSE MAY 3

Rev. and Mrs. O. L. Turner of London held open house Sunday, May 3, in honor of Mrs. Harris Rogalski of Los Angeles,

California. The following relatives attended:

Mr. and Mrs. Fred Turner, Mrs. L. N. Aldridge of Odessa, Mrs. Joe Wilkinson, peras Cove, Mr. and Mrs. Carpenter and daughter, Muleshoe, Mr. and Mrs. Carpenter and sons of Worth, Mr. and Mrs. Hight of Odessa, Mr. and Mrs. Truett Aldridge and Mrs. and Mrs. James McClelland and Judy of Goldthwaite, Misses Jerrilyn Gotcher, Thomas, Ann Morris and Bunting of Austin. About other guests visited during day.

Summer Strike Threat Booms Buying of Steel Economists Concerned Over Let-Down

By HENRY CATHCART
Central Press Association Correspondent

WASHINGTON—The threat of a strike in the steel industry this summer is already being reflected in some parts of the American economy. Industries are placing steel orders more rapidly than at any time in recent years and are building up their inventories far beyond their normal requirements.

To major industries steel is "money in the bank." Some scheduled purchases to tide them over the last six months of 1959, should the strike eventuate.

However, this heavy advance buying is settling the national economy and causing some deep thinking in Washington. Economists feel that, should the strike be settled quickly or occur at all, there will be a serious let-down in steel-making after July 1, which will be reflected in increased unemployment, declining stock prices, lower rail shipments.

These economic theorists fear that such a general decline could set off a new recession or at least have the depressing effect of halting the current climb out of last year's recession.

Dangers in this situation have been called to the attention of President Eisenhower. He chose a recent conference urge both sides in the steel talks to reach a quick, amicable settlement.

ECONOMY IN GOVERNMENT—President Eisenhower's determined drive for economy in government is producing some results on Capitol Hill that have shocked some government agency heads out of their complacent feelings.

When President Eisenhower sent his lower-than-expected budget to Congress last January, there was a widespread belief that, with the possible exception of foreign aid, the whole drive by controlling Democrats would be to increase the amount of spending.

Agency heads were all geared to defend the smallness of the money requests. In fact some had gone to considerable lengths to prepare "shadow budgets" which would show how best to spend additional funds not requested by the administration, in the event Congress insisted on upping the amounts.

However, the administration seriously misgauged the congressional reaction to President Eisenhower's accusation that they were the "radical spenders." The Democratic congressional majority have scaled down some of their spending proposals to bring them more in line with presidential requests.

They have also shown, however, a tendency to cut deeply into some administration programs in order to make up for their spending in other areas and to force the administration to come to Capitol Hill calling for more funds.

This was done, for instance, in the National Defense Education Act appropriation, where a House committee slashed \$50 million from a \$75 million request. The administration thereby was put in the public position of insisting that Congress spend more money than it is willing to.

PRESIDENTIAL SAFETY—President Eisenhower had an opportunity to use his highly publicized helicopters when he took British Prime Minister Harold Macmillan to Camp David in the nearby Catoctin mountains for their secluded conferences.

Both the President and Macmillan used the whirlybirds to make the trip. A segment of the public long has been concerned about the President's safety on such rides, and reporters have been trained to observe the safety precautions taken by the Secret Service to protect the chief executive.

It came as something of a surprise, therefore, when news was noted that, while the pilot and co-pilot of the helicopter were equipped with parachutes, neither the President nor Macmillan wore them.

Connie Donowho, Noel Joe Winner Exchange Vows

Sunday morning, April 26th, in Tucumcari, New Mexico, Noel Joe Winner of Goldthwaite and Connie Donowho of Tucumcari were united in marriage. The bride is the foster daughter of Mr. Sam Everett of Tucumcari and the groom is the son of Mr. and Mrs. W. M. Winner, Route 2, Goldthwaite. They will continue to reside in Tucumcari where the groom is employed by Tideland Exploration Co. of Houston, Texas, and the bride is a nurse in the local hospital.

Cub Scouts Honor Mothers With Tea

Monday afternoon Den 4, of the Cub Scouts, honored their mothers with a Mother's Day Tea in the home of their Den Mother, Mrs. Jack Aden.

The Cubs helped in preparing and serving refreshments of cake and punch.

Each Cub presented his mother with a gift he had made. Cubs and their mothers present were:

Mrs. Jessie Moreland and Dennis; Mrs. Roy Loudermilk and Larry; Mrs. S. W. Holcomb and Garry; Mrs. Talbot Ledbetter and Jamie; Mrs. Lewis Hudson and Sammy; Mrs. T. J. Blackburn and Charles Frank; Mrs. Raymond Summy and Billy; and Mrs. Jack McAden and Lanny. Also Cheryl and Joe Hudson, Crystal Loudermilk and Den Chief L. V. Benningfield.

Susanna Circle Meets Tuesday

The Susanna Wesley Circle of the First Methodist Church met May 12 at 9 a. m., in the home of Mrs. Milton Schwartz. During the business session, plans were made for some members to attend an officers' meeting in Burnet on May 19. The regular meeting of the Circle which was scheduled for that date has been postponed until May 26 at 9 o'clock.

After the business meeting Mrs. Loyd King presented the program.

Refreshments were served by the hostess to the following members: Mmes. A. J. Tully, Jesse Moreland, Malcolm Jernigan, C. A. Keeler, Loyd King, Vance Cornelius, E. R. Bruce and Y. B. Johnson.

— IT PAYS TO ADVERTISE —

BODY FOUND—Sisters Barbara (left), 14, Virginia (center), 13, and Susan Martin, 11, of Portland, Ore., are shown before they disappeared with their parents in December, 1958, after going to cut Christmas greens. The body of little Sue was found floating in the Columbia River, giving authorities the first tangible clue as to what might have happened to them.

BIRTHS

Mr. and Mrs. J. F. Martin of Trickham are parents of a son, Paul Alan, born in Memorial Hospital, Brownwood, Thursday morning, April 30, at 11:53 o'clock.

Grandparents are Mrs. Mary Crawford of Goldthwaite and Mr. and Mrs. J. H. Martin of Trickham.

Mr. and Mrs. Dale Gillian of 3019 Lulu Street, Fort Worth are to be congratulated on the birth of their first child, a daughter, Laura Adele, born April 8, 1959; she weighed three pounds and eight ounces.

Grandparents are Mr. and Mrs. Gilbert Harris and Mrs. T. C. Westfall of Fort Worth and Burl Holland of Goldthwaite.

Mrs. Gillian will be remembered here as the former Janet Holland.

Musical Recital At G. H. S. Auditorium Thursday, May 14

Mrs. Thurman Head will present her pupils in piano in a recital (tonight) Thursday, May 14, at 7:45 o'clock. Pupils of Mrs. G. J. Delapp, Mrs. Sam Sullivan and Mrs. E. O. Shepherd will be guests on the program. Everyone is most cordially invited to attend the recital.

Girl Scouts Visit San Antonio Saturday

By Judinell Benningfield

On Saturday, May 9, the Girl Scouts under the supervision of the program leader, Mrs. L. V. Benningfield, went to San Antonio. There were 49 girls and 20 adults that made the trip. We left Goldthwaite at 5:30 o'clock Saturday morning and on arrival we went to Whitte's Museum, where we saw the art gallery, stamp collections, coin collections, one of the first airplanes, stuffed animals and some Indian graves.

At 12 o'clock we met back at the bus and went to Brackenridge Park and ate lunch. After lunch we went to the Sunken Gardens and then to the zoo. At the zoo we saw the reptiles' house, the aquarium, the seal act, monkey act and we rode the train.

Then we met back at the buses at 5 o'clock and went to Buddy's for supper. There our nurse, Mrs. Marwick, made her rounds to doctor all our ailments, after which we started on our way home.

We arrived home at 10:00 o'clock, a very tired but happy bunch of Girl Scouts, that had had a good time.

John Gilliam Named To Phi Delta Phi

John A. Gilliam, son of Mr. and Mrs. Ed B. Gilliam Jr. of Goldthwaite, was recently initiated into the Roberts Inn Chapter of Phi Delta Phi, national legal fraternity at the University of Texas.

The chapter, which is named after O. M. Roberts, former governor of Texas, celebrated its 50th anniversary at the spring initiation banquet held April 23 in the Driskill Hotel, Austin. The fraternity has the highest scholastic requirements in law schools and is the oldest national legal fraternity.

Gilliam is a 1958 graduate of Baylor University. During his junior year he was initiated into Alpha Chi National Scholarship Society, a member of Taurus Social Club and a present member of Baylor "B" Association.

This past March he was initiated into Austin chapter of Phi Gamma Delta, national social fraternity. He is the grandson of Mrs. E. B. Anderson of Goldthwaite.

It's Graduation Time CLASS OF 1959

Clementine Wilmeth Briley Writes From Temporary Home In El Paso

By CLEMENTINE WILMETH BRILEY

Although May is here and roses are blooming profusely, and El Paso looks like a blooming oasis, we still have cold spells and the wind blows like March. Some days the temperature gets up near one hundred. We had our heating systems changed to cooling this week. Next morning it was so cold we almost shivered and we had to get our coats out again.

I went down town yesterday and as I sat on a bench under the trees at the Plaza waiting for a bus, I noticed the pigeons. I believe they really are thinning out the pigeons here in El Paso, but there were still some at Plaza. They are beautiful things and they walk like they owned the Plaza.

Another thing El Paso is starting to make war on is vacant lots covered with tumbleweeds. They are trying to get a city ordinance to fine those who do not keep their vacant lots free of weeds. Just take our bus to town and you will pass lots of vacant lots covered with tumbleweeds. I always think how nice it would be to set fire to them and burn them up, but I guess that would not be permissible here in town. Our bus also goes up Glenwood Drive which is so narrow it hardly seems possible to pass another vehicle. On this are lots of little uneven Mexican homes with tiny little yards, but many of them are lit up with flowers. Yesterday I noticed in one of the yards a wealth of tall pink hollyhocks. This district is called San Juan and the city has wanted to buy up these little hovel homes and build some comfortable government houses. But the people say, "No. We love our homes. We do not want to give them up."

Tonight (Friday) we went to Cooley for the May Festival. It was put on by the physical education teachers and sponsored by the P-T. A. Seats were placed around an immense concrete-ed place in the schoolyard and on this concrete all the program took place. We sat facing

the blazing sun and the wind was blowing a gale. Just outside the schoolyard was busy Highway 80 with its continuous stream of cars, oil tanks, big trucks, and trailer houses longer than the trucks. But just the crowd and the jam were interesting. And when the children came out with their little dances and drills and the larger girls with their rhythms and twirling batons, and the larger boys with their pyramids, two-legged races, and calisthenics, it harked me back to my teaching days when programs brought parents out and we experienced a sort of joyful triumph. At the close of the program the P-T. A. had hot dogs and all sort of drinks, etc., for sale, but when Grace saw the awful crowd, she didn't think we would ever make it. So she took us to the Red Rooster where we sat in the car and ate hamburgers and Cokes and coffee and rejoiced that there would be no supper dishes to wash.

A graduating announcement came today from Mr. and Mrs. Robert Andrews of Gilmer (formerly of Indian Creek) announcing the graduation of their son, Robert Jr. Mrs. Andrews is our own Ruth Mashburn and it didn't seem possible that her little boy could be old enough to graduate.

A letter from Ruth Mitchell today remembering Mother's Day was something to make the heart glad. Ruth always thinks of the happy things to say. She said she had almost forgotten her operation until she tried walking around town. They had had a spring revival and she missed only two services, but she said she didn't cook any company dinners. She remembered to tell us that when they went to Marilyn's Easter they were all invited to a wonderful dinner Saturday with Opal and Austin Caywer at Victoria. She said Marilyn's and Opal's homes are so lovely that they make hers seem rather old fashioned in comparison.

Farm Tractor Can Be Killer

College Station, (Spec.)—Ignorance and carelessness in using farm machinery are sure ways to make the headlines. Records show that more than 1,100 fatalities in the United States each year are caused by tractor accidents. Extension Agricultural Engineer Willie L. Ulrich offers suggestions for preventing such accidents.

A child's safety is a parent's responsibility, he says. Teach children the importance of safety and point out dangers involved in the use of machinery. Emphasize that operating a tractor is a job for a mature person.

Tractors are involved in 35 per cent of all farm accidents making it the Number One farm killer. Forty per cent of all tractor accidents are fatal to the

FUGITIVE RETURNS—Mitchell Ostwind (left), who had a controlling interest in the Bank of Edgewater, N.J., at the time when Earl Belle, "boy wizard of finance," borrowed \$150,000 on "dubious notes," is shown in Pittsburgh as he surrendered his passport to Federal Attorney Robert C. Tellebaum. Ostwind returned from Rio de Janeiro where he was a fugitive from federal justice with Belle, who is accused of fleeing a number of investors and three banks of about \$2,000,000.

Community News From Mullin

By MRS. JOHNNIE HOLLAND

Funeral services were conducted last Sunday afternoon at 3:30 o'clock for Mrs. Martha Chesser, wife of the late Ben Chesser. Just a few weeks ago Mrs. Chesser celebrated her ninety-second birthday at the home of her daughter, Mrs. Frank Davee. While it was not my privilege to know Mrs. Chesser too well, I know from all the things I have heard about her that she was a very devoted Christian mother.

The Rev. Otis Brown, a former pastor of the Methodist Church here, conducted the services, assisted by Rev. J. K. Brim and Rev. A. M. Bell. Interment was in the Williams Ranch Cemetery.

Mrs. Myrtle Savoy spent the weekend in Goldthwaite with Mrs. Josie Wallace and Miss Marie Wallace. Mrs. Helen Gillstrap, who is staying with Mrs. Savoy, spent the weekend with relatives in DeLeon.

Mr. and Mrs. Chester Chancellor and son, Robert, and a friend of Seminole, spent Mother's Day here with Mrs. Sallie Chancellor.

Mr. and Mrs. Bert Lockett and son, Carroll of Whiteface have been here visiting with relatives and friends.

Mr. and Mrs. Oran Coor of Eola spent the weekend here with Mrs. Vesta McCormick.

Mr. and Mrs. Tuggle and son, Mike, of Dallas were weekend visitors here with Mr. and Mrs. Walter Keating.

J. T. Hart received a message last week telling of the death of his son, Gene, who was killed in a car wreck. Gene's home was in California.

The Rev. George Henry and G. W. Chancellor attended the funeral services for Mr. George Davis in Comanche one day last week.

Visitors with Mr. and Mrs. Bob Collier over the weekend included Mr. and Mrs. Jake Davis, Charles Ray and Barbara Ann, and Mr. and Mrs. Glenn Casbeer of Fort Worth.

Miss Annie Marie Pafford and Richard Womack were united in marriage last Tuesday night in the home of Dr. James Basden, pastor of the First Baptist Church in Brownwood. Richard is going to school at Tarleton State College and Annie Marie is in Nurse's Training in Brownwood.

Mr. and Mrs. Charles Coburn and daughter of Crane spent Mother's Day here with her parents, Mr. and Mrs. Lindsey operator.

Chances of an upset, points out the engineer, increase four times when speed is doubled. If possible, lock brake pedals together when driving on the open highway. Use brakes cautiously and keep them evenly adjusted.

Other safety suggestions by Ulrich are: throttle down before making turns, do not carry extra riders on either the tractor or on trailed implements, and avoid climbing steep banks with tractor since overturns are one of the chief causes of tractor accidents.

Mr. Jeff Clendenen has been moved to a Dallas hospital from the hospital in Goldthwaite.

Chappell Hill

By PEARL CRAWFORD

We received one half inch of rain Sunday afternoon and two tenths inch during last week.

The pipe line workers from Brownwood have been doing a lot of work at the W. J. Weatherby and A. L. Crawford farms, repairing leaks.

Mr. and Mrs. Don Humphries, Donnie and Dannie were at the farm Thursday working in the garden.

Mrs. Lillie Johnson of Oklahoma City and Mrs. Ethel Kemp of Comanche were weekend guests of Mr. and Mrs. Luther Geeslin and Mr. and Mrs. V. T. Stevens.

Mr. and Mrs. W. W. Ratliff were business visitors in San Saba last Monday.

Mrs. B. F. Humphries and Mrs. Don Humphries and Donnie were Brownwood visitors. Mrs. Don Humphries purchased a new wringer model washing machine, which she likes very much.

Mr. and Mrs. J. S. Ivy visited Mrs. Jewell Chaney at Lampasas last Monday.

Congratulations to Mr. and Mrs. Henry Bessent, who celebrated their golden wedding Sunday, May 10. We wish for them many more happy anniversaries and happy visits with their loved ones. They are form-

er residents of this community. Mr. and Mrs. A. L. Crawford and William G. visited George and Pearl Crawford Sunday night.

Mr. and Mrs. Ray Auldredge of Brownwood were guests on Mother's Day of their mother, Mrs. Maud Parker.

Mrs. Bud Williams of Gateville is visiting Mr. and Mrs. W. W. Williams.

Mr. and Mrs. C. D. Gerald spent last weekend at Andrews with Mr. and Mrs. Lyndel Gerald, Mr. and Mrs. Charles Gerald and Mr. and Mrs. Jackie Gerald and families.

Mrs. Carl Evans and family were recent guests of Mr. and Mrs. Pearl Shipman.

Several folks have visited at the G. K. Lynch home. Health at the Lynch home remains about the same.

Mr. and Mrs. Pearl Shipman visited Mr. and Mrs. Fred Sutherland Sunday.

N. C. Karnes, Mrs. Benton Auldredge and her daughter and grandchild, Mr. and Mrs. C. A. Karnes, all of Brownwood, attended funeral services for Mr. Lewis Jones. They also visited the Stone Shipmans.

We extend our sympathy to the John Long family and the Jones family in their sorrow at the death of their loved ones.

Recent guests of Mr. and Mrs. A. R. Whatley were Mr. and Mrs. Jim Brooke, Mr. and Mrs.

Hillside Mission

By LIDA BYRNE

In Isaiah's prophecy, chapter 3, beginning with the verse, we are told of things that will be taken away in verse 19, speaking of chains, and "the bracelets you suppose that means of all sorts, including the attractive costume jewelry be radio-active? And in verse 17:19, in part, we are told "They shall cast their altars, and their shall be removed." Do you on those metals will be active?

WESTON CARMICHAEL SAILS FOR PEARL HARBOR

Weston C. Carmichael, man Apprentice, son of J. B. Harper of Mullin, aboard the U. S. S. Floyd from San Diego, California May 7 for Pearl Harbor finished his basic training November and has been stationed in San Diego since.

Hugh Nowell of Goldthwaite, Mr. Ted Goodsell, Mrs. Brown and children, Nellie A. R. of Brownwood.

Mr. and Mrs. Hugh Nowell had as their guests Mr. Mrs. Ol Brown and Mrs. Taylor and three children Goldthwaite and Mr. and Forrest Ross of Fort Worth

OUTDOORS IN TEXAS

Just the season is here
we can use top-water
men fish with plugs
about the year. But I pre-
fer in the spring, after
water has warmed suffi-
ciently that the bass begin to

type. It is shaped like the end
of a cigar, with a V-shaped
fore-end. As you manipulate the
lure in the water it darts from
right to left.

Perhaps the most often men-
tioned top-water lure is the
chuggar type. Usually it has a
concave head. My preference is
the Heddon Spook. It is best
manipulated by short jerks —
long jerks too — which splash
the water with a swooshing
sound. Some bass just can't
stand that.

Then there is the spinner
type of top-water lure. There
are at least three different var-
ieties. Some have spinners on
the front ends. Some have spin-
ners on the back ends. Others
have them on both ends.

They operate in somewhat the
same manner as the chuggar
and are very effective, especi-
ally around old logs.

You may use these lures dif-
ferently. The darter, for in-
stance, I like to use in fairly
open water. There is no partic-
ular reason that I can give,
except that it seems to me to
be more appropriate.

On the other hand, I like to
chuck a chuggar into brushy
water. It works extremely well
where treetops are sticking out
of the water. I like to toss it
well back between the treetops,
then work it toward me with a
frequent swoosh.

When I fish around old logs,
I like to lay a spinner-type top-
water lure alongside the log. I
let it rest there until I count to
twenty. Then I jiggle it just
slightly.

If the spinners are working
well, it will stir up plenty of
water. I try not to work it too
fast. If there is a bass in the
shade of that log, he may be
watching. He can't stand it very
long.

Some of the largest bass ever
caught have been landed by
fishermen who didn't rush
them. They just put that plug
in a good spot and let it rest
awhile. Then they'd move it
ever so lightly. I've seen some
fishermen leave their lures for
five minutes in pretty much the
same spot. It pays.

There are numerous advant-
ages to top-water fishing. In
the first place, it is less ex-
pensive. You seldom lose a top-
water lure unless you happen to
toss it into a treetop out of
reach.

Of course, you can lose them
to a big bass, unless you're
careful. Which prompts the sug-
gestion that at the beginning
of every fishing trip, you'd do
well to peel off a few feet at
the end of your line so that
any frayed or weak place will
be taken out. Check your swivel,
if you use one. That sometimes
makes a difference between
boating a bass or losing your
plug and the bass.

A snapped line, with a fish
on it, is mighty heart breaking.
Sometimes you can retrieve
your lure and your fish. But it

type. It is shaped like the end
of a cigar, with a V-shaped
fore-end. As you manipulate the
lure in the water it darts from
right to left.

JUST CURIOUS—Philip Horning, of Chicago, finds that his curiosity at the age of 3 is getting him in trouble. The precocious youngster reportedly prowled into a neighbor's home and, finding a \$75 string of pearls, hid them somewhere. Meanwhile, he had messed up the kitchen with sugar and flour. His mother says he is always looking for things, particularly in the bathroom of his home, where he is shown.

Mrs. Martha Chesser, Mullin Pioneer, Claimed By Death Saturday Morning

Mrs. Martha L. Chesser, 92, a resident of Mullin 82 years, passed away at 5:30 o'clock Saturday morning, May 9, 1959, at the home of Mr. and Mrs. Russell Cobb in Mullin. She was born February 7, 1867, in Llano and moved to Mullin in 1877. She was a member of the Methodist Church.

On February 26, 1890 she was married to B. E. Chesser at Mullin.

Funeral services were held Sunday afternoon, May 10, 1959, at 3:30 o'clock in the Mullin Methodist Church. Services were conducted by Rev. Otis Brown of Waxahachie, a former pastor of the church, assisted by Rev. J. K. Brim, pastor of the church and Rev. A. M. Bell, pastor of the First Baptist Church of Mullin. Burial was

in the Williams Ranch Cemetery.

Survivors are three daughters, Mrs. Russell Cobb, Mrs. Vada Singleton and Mrs. Frank Davee, all of Mullin; four sons, Johnny Chesser, Ernest Chesser, Howard Chesser and Dewey Chesser, all of Mullin; and a nephew, Eddie Ragsdale; one sister, Mrs. Polly Moore of Comanche; 19 grandchildren, 22 great-grandchildren; a host of other relatives and friends.

Pallbearers were the following grandsons, Norman G. Chesser, Benny H. Davee, Clinton O. Chesser, Dewayne Chesser, Wilbur D. Chesser, Otis W. Singleton and Clinton Singleton.

Funeral arrangements were under the direction of the Roy Wilkins Funeral Home.

POST MORTEM ADVICE—Well intentioned, but a bit late, is the advice Jack Dempsey (right), former world heavyweight champion imparts in New York to British heavyweight Brian London, who was knocked out by titleholder Floyd Patterson.

Personal Paragraphs

Mr. and Mrs. Milton Schorn and sons of Fort Worth and Mr. and Mrs. Larry McCasland of Pittsburg were guests of Mrs. H. P. Harris Mother's Day.

Mr. and Mrs. Leon Gray and children of Hurst visited his parents, Mr. and Mrs. Wilford Gray, Mother's Day.

Mr. and Mrs. David Bryant and baby are visiting his parents, Mr. and Mrs. Arthur Bryant, and other relatives and friends.

Mr. and Mrs. Bill Roberts of Houston spent several days recently with her sisters, Mrs. Truman Vaughan and Mrs. Arthur Bryant and families.

Mr. and Mrs. David Straley of Grand Prairie, Mr. and Mrs. Charles Dennard of Fort Worth, Mr. and Mrs. Billy Dennard of Rising Star and Mrs. Bill Lewallen of Jal, New Mexico, spent Mother's Day with their moth-

er, Mrs. Maude Dennard and other relatives.

Mr. and Mrs. John L. House, Mr. and Mrs. Al Park, Mr. and Mrs. James Park and Taul Pace all of Dallas were weekend guests of Mrs. Tom House.

Mrs. Tom House attended funeral services for Alfred Newman in Dallas last Tuesday. Mr. Newman was the father of Mrs. John L. House.

Mr. and Mrs. Penn Barnett of Austin spent the weekend with their parents, Mr. and Mrs. W. C. Barnett and Mr. and Mrs. Leonard Collier and family.

Mr. and Mrs. Franklin Dew Weathers and daughters, Cheryl and Rita, of Teague, Mr. and Mrs. J. A. Vines and son, Brad of Indian Creek, and Mr. and Mrs. L. W. Wigley and family of Evant spent Sunday with Mrs. Bertha Weathers and Mrs. J. B. F. Wigley.

NEWS from YOUR

COUNTY AGRICULTURAL AGENT TEXAS A. & M. COLLEGE EXTENSION SERVICE

BY GEORGE G. REESE

COTTON MEETING

There will be a cotton meeting at Priddy on Monday night, May 18th. This meeting will be held at the Schoolhouse and Mr. Olin T. Tippitt of the McGregor Experiment Station will present the latest information on cotton production. Every one interested in the growing of cotton should be at the meeting.

CHECK SPRAY EQUIPMENT

Are you ready to start insect control? If not, C. F. Garner, Extension Entomologist at Texas A&M College, suggests that you take steps necessary to be ready for this important job. One step Garner suggests is to check your spray equipment. Go over it thoroughly to make sure all parts are clean and in

good working order. Check the pump to see that it is delivering the right amount of pressure. You might even put the sprayer on the tractor and calibrate the amount of material it is delivering by spraying one acre with water. A little time spent now can make a big difference in your spray program later. If you have been using weed killers in your sprayer be sure and do not use the same sprayer for insects in crops.

POND WEED CONTROL

Now is a good time to control weeds in your farm ponds. Spring and early summer are the only periods when pond weed control methods are really effective. As the plants begin active growth they are much easier to control than at any other time.

These plants grow in shallow water but a certain amount of growth around the edge of the pool is not harmful but when plants begin to spread, it's time to start control measures.

Fertilizers will help keep submerged weeds under control in the eastern half of the state, but chemical control is usually necessary in other areas. For chemical control you must know the plant species. Should you need help to identify your aquatic plants I will be glad to assist you or you may send them to the extension specialist in wildlife conservation. He will identify them for you if you will mail them to him after they have been well dried and pressed. Do not send plants which have not been thoroughly dried.

Recommended chemicals for aquatic plant control are not harmful to fish or livestock if used according to instructions. Information on control methods are contained in the extension publication "Improve your Farm Fish Pond." It may be obtained at my office free of charge.

FARM TRACTOR

Farm tractors can be a killer. Carelessness in using farm machinery are sure ways to make the headlines. Records show that more than 1,100 fatalities in the nation each year result from tractor accidents. Extension Agricultural Engineer W. L. Ulrich reminds farmers that tractors are involved in 35 per cent of all farm accidents making it the number one farm killer.

Horehound Control was started last week on the Dr. T. C. Graves ranch. Dr. Graves sprayed 400 acres of pasture land with a helicopter. Four gallons of spray mixture of 2-4-D, diesel oil and water, were applied to the acre. In using this mixture, Dr. Graves plans to burn the leaves from the shinnery and let sunlight reach the grasses under the dense foliage. This is a very fast method to use in spraying rough pastures, and the results from this method of applying the herbicide will be followed very closely to determine the per cent of kill on the horehound and weeds.

Last Rites For Lewis A. Jones Conducted At Center City, May 11

Funeral services for Lewis A. Jones of Goldthwaite were held in the Center City Baptist Church, Monday afternoon, May 11, at 2 o'clock. Services were conducted by Rev. Clearance Dycus, pastor of the church, and Rev. Presnell H. Wood, pastor of the First Baptist Church of Goldthwaite. Burial was in the Center City Cemetery.

Mr. Jones was born at Center City April 18, 1884 and passed away in Goldthwaite May 9, after a long illness. He had lived in Mills County all his life. He was a member of the Center City Baptist Church.

On December 29, 1909 he was married to Lillie Ann Karnes in the Live Oak community.

Survivors are his wife of Goldthwaite; one son, John Nolan Jones of Llano; one sister,

Miss Mable Jones of Goldthwaite; other relatives and a host of friends.

Pallbearers were Joe Green, W. C. Frazier, W. W. Williams, Marvin Collier, Clifford Burks and Harry Welch.

Funeral arrangements were under the direction of the Roy Wilkins Funeral Home.

Personals

Mr. and Mrs. A. R. Schmied and Shirley of Copperas Cove spent Monday in the home of Mr. and Mrs. J. E. Perkins on Route 3.

Mrs. Ruby Simpson and son, James Leslie, had the following guests Monday, Mr. and Mrs. Howard Lee Lovelady of Borger and their parents, Mr. and Mrs.

Howard Lovelady of Goldthwaite and Mrs. P. K. Caraway called in the Simpson Monday.

Mr. and Mrs. Burl H. and children, Charlotte Randy, spent Sunday in Worth with their daughter, Dale Gillian. Mr. Gillian new granddaughter, L. Adele.

Mrs. Annie Armstrong returned home last week from weeks' visit with her son, and Mrs. Glendon Arms and family at Barksdale, Louisiana.

Mr. and Mrs. John Alex and children of Austin the weekend with their son Mr. and Mrs. Hobson Miller Patsy and Mrs. Ruby and James Leslie.

Mr. and Mrs. W. P. Duce Dr. and Mrs. T. C. Graves attended a Bankers Convention San Antonio Monday and day of this week.

Something "extra special" to make for dinner!

FANCY PANTS HAMBURGERS

1 lb. chopped beef 2 tbsp. fat
4 slices sharp cheese
1 can Hunt's Tomato Sauce

Season beef and form into 8 thin hamburger cakes. Place slices of cheese on four of the hamburger cakes. Cover them with the other four cakes and pinch the edges together to enclose the cheese completely. In a skillet brown the cakes on one side in hot fat. Turn them and pour over them 1 can Hunt's Tomato Sauce. Simmer 8 to 10 minutes, basting occasionally. Serve piping hot. Makes 4 servings.

The main ingredients are easy on your budget—just LOOK!

GROUND BEEF fresh-ground every hour LB. 55¢
CHEDDAR CHEESE LB. 49¢
HUNT'S TOMATO SAUCE made of rich, luscious tomatoes 3 8-OZ. CANS 29¢

STATE CAPITAL Highlights AND Sidelights

by Vern Sanford

TEXAS PRESS ASSOCIATION

in, Texas—Senators and representatives will have only a few days of special sessions of the Legislature, and all matters must start over, usually from scratch. Revealing proposals will have to be introduced again in the next session, etc., they can go to the Senate.

Shop Teaching—Any graduate could teach in Texas—at least for a year—under a House bill.

The bill would grant a teacher's state good for one year to a bachelor's degree holder, if he had had teaching experience or not. Certificates would be renewed twice. After the applicant would have 12 semester hours of education.

Maud Isaacks of El Paso, a teacher for many

years, sponsored the bill. Professional educators were divided between regu- and special sessions of the Legislature, and all matters must start over, usually from scratch. Revealing proposals will have to be introduced again in the next session, etc., they can go to the Senate.

Ban On Sunday Auto Sales, by Sen. George Parkhouse of Dallas. It passed Senate, but House refused twice to take it up.

Ban On Nudist Camps, by Rep. James Turman of Gobeer. Senate passed, but House refused to call it out of committee. Committee had referred it to the Attorney General who said it would be legal.

Highway Zoning—Both houses moved quickly toward passage of a bill to protect smaller roads from heavier truck loads.

Governor Daniel asked for on the merits of the plan.

Some said it would increase qualified personnel; others, that it would attract to Texas the misfits and ne'er-do-wells from "all the freshwater colleges" in the nation.

Ploughed Under—In the final days of a session, there usually isn't time to revive a bill that gets pushed aside. Among the bills whose setbacks were interpreted as death for this year are these:

Milk Import Regulations, sponsored by Sen. Grady Hazelwood of Amarillo. House supporters couldn't muster the two-thirds majority to take the bill out of order. Proponents said the restriction on milk brought across the state line was needed for health reasons. Opponents called it a trade barrier that would raise the price of milk.

LAFF-A-DAY

"You can take your foot off the brake now!"

ON SENTIMENTAL VISIT—Doctor's warnings were ignored by Sir Winston Churchill, 84, as he flew from London to Washington for a "sentimental" visit with President Eisenhower and what may be his last visit to the United States. He came on invitation of the President, but the Brooklyn, N. Y., background of his mother has not been forgotten by him. While the visit was described as "social," he was expected to talk over current East-West policies with President Eisenhower.

Broadening The Common Purchase Oil Law, by Sen. Haysuch legislation when he signed the bill to increase permitted truck loads from 58,420 to 72,000 pounds.

Proposed bill would allow the State Highway Department to zone state highways and farm roads for lighter truck loads and gives same authority to County Commissioners for county roads.

Insurance Question Marks—Whether the State Board of Insurance should operate full-time or part-time was an issue expected to carry over into the special session.

House made its preference clear by putting full-time salaries in the House appropriations bill and by passing a bill specifically providing for a full-time Board.

Senate version of the appropriation bill provided for what would amount to about one-third time salaries (\$5,000 a year) for Insurance Board members. Many senators opposed a full-time Board in addition to a full-time Commissioner when the Department was re-organized two years ago. Since then, they have been angered because the Board retained William A. Harrison as Commissioner after the Senate had disapproved him.

Since no conference committee was appointed to adjust differences between the two houses' appropriation bills, it was obvious the insurance hassle could not be resolved before adjournment of the regular session.

Tourist Bill Passes—The much discussed and battered bill to permit the state of Texas to advertise its tourist advantages finally was approved by both houses of the Legislature before adjournment of the regular session.

As passed, the bill puts into effect the constitutional amend-

ment approved by a close margin by the voters at the election last November. It differs in one important respect, however. It does not provide that industries shall match state funds — which was the sales pitch that was used to effect passage of the amendment by Texas voters.

Designated to handle the program is the Governor, the Chairman of the State Highway Commission, and the Chairman of the Texas Industrial Commission.

Short Snorts—House passed a resolution opposing federal regulation of wages to imported farm labor. It was sent to the U. S. Dept. of Labor and to Congress. Some called it the "get your cotton picking hands off our cotton picking hands" measure. . . . Senate approved the House-passed bill to allow for abolishing the office of county school superintendent in counties not needing one. But it was amended so it applied to only two counties, Young and Parker. . . . Number of persons receiving unemployment payments in Texas is one-third fewer this month than in the recession spring of a year ago. Texas Employment Commission reported 58,410 jobless now compared to 90,946 in May, 1958. . . . It was a rough session for a presiding officer, but House Speaker Waggoner Carr had "his day." Many colleagues paid tribute to Carr on Speaker's Day, and Carr and his family received numerous gifts.

Washington Newsletter

By Congressman O. Clark Fisher

Michigan, one of the Nation's richest states, is in financial trouble. Under Governor G. Mennen Williams' direction, a souped-up high-tax welfare program has depleted the state's finances to the point approaching bankruptcy.

Unable to meet its current payroll, state employees must wait for perhaps months to get their pay. Schools are hard-pressed. Voluntary advanced payments of taxes by Ford and other corporations helped for awhile but that money is exhausted.

Williams, cast in the modern-day role of Nero, has with CIO and ADA support placated the voters with hand-outs, social welfare and artificial prosperity, but the chickens seem to be coming home to roost. The goose that laid the golden egg appears to be a bit groggy. Maybe it is a lesson in disguise, sent to prove the truth of the old adage that you can't have your cake and eat it too — that the "something for nothing" philosophy is but a snare and delusion.

Personals

Mr. and Mrs. Frank Oltrogge and children of Austin were guests of his mother, Mrs. Emma Oltrogge and other relatives last weekend.

Center Point News

BY MRS. RUBY FRENCH

Loretta Manuel had her tonsils removed at San Saba Hospital last Monday. At last report she was doing nicely. Mrs. Floyd Manuel remained at the hospital with her and has visited her often since her return home.

Roddy Walton of Center City visited in the John Walton home Thursday. He has just returned from a two months' tour of Europe. While in France he visited Glynn Walton and family. Roddy left last Friday for California where he will work.

A. K. Shelton and Alvin worked for Mohler Simpson some the past week.

Mr. and Mrs. Page of Big Valley visited Mr. and Mrs. Marvin Spinks one night last week.

Wylie Mahan visited in the A. K. Shelton home Thursday night.

Mr. and Mrs. Fred Pafford visited Mr. and Mrs. L. V. French Tuesday night.

Mrs. Smokey Manuel, Shirley

BACK-ROAD FOLKS—BARSAIN DAY

QUEEN OF DUBLIN RODEO

Miss Jo Barbee, daughter of Mr. and Mrs. J. Worth Barbee, has been chosen Queen of the 20th Anniversary Dublin World's Championship Rodeo, by the directors of the Rodeo Association. Miss Barbee is 14 years of age, is a freshman in Dublin High School, a member of the pep squad, F. H. A., the local Chapter of F. T. A., Chairman of the tumbling group, and lives on a ranch south of Dublin. She has been trick riding since she was 6 years of age, and has performed in rodeos throughout Texas and New Mexico. She will ride in the parade which will be at 6 o'clock each evening and the grand entry before each performance. She has also ridden for several years in the famous Mounted Quadrille. The Dublin World's Championship Rodeo will be held in Colborn Bowl, May 21, 22 and 23rd.

By John C. White, Commissioner

AN "INDESTRUCTIBLE" COTTON FABRIC

In the constant battle of "cotton vs. synthetics," Texas' major crop has been given a boost with the development of a preservative which should give cotton fabric a better advantage on the market.

Cotton has always suffered a serious disadvantage because of its low rot resistant qualities. Each year, synthetics have grabbed more and more of the fabric market, partially due to superior lasting qualities under extreme weather conditions. Now that picture may change as a result of a practical method for "weatherizing" cotton materials.

The improved properties imparted to cotton give it outstanding rot resistance as well as improving its chances for longer survival under ordinary weather hazards. This research development should open up even more markets for cotton in awnings, tents, tarpaulins and other outdoor fabric items. The preservative method is based on the use of a water sol-

uable acid colloid of methylolmelamine, a chemical well known for its resin-forming qualities. The resin, which penetrates the outer portion of the fiber cell wall, becomes a part of the fiber rather than just a coating. This makes cotton virtually immune to rot and mildew.

Proof of this success was determined by burying pieces of treated and untreated cloth in various types of soil. Swatches of cotton were covered with soil containing heavy amounts of fabric-destroying bacteria.

Untreated cotton was in shreds after one week. But treated cotton fabric still retained 100 per cent of its breaking strength after five months.

The preservative not only helps cloth withstand the ravages of outdoor weather but, in some cases, will aid in keeping colors bright after long exposure to the sun.

Cost of the fabric treatment is expected to be relatively low, according to research specialists. The method can be utilized with conventional textile finishing equipment. The end re-

(Delayed)

There was church at the Baptist Church Sunday morning and night. A visiting preacher conducted services Sunday morning and Brother Dycus preached Sunday night.

Mr. and Mrs. Z. Karnes, Eva Faye and I, Mr. and Mrs. K. M. Coffman and children and Mrs. W. T. Alexander visited Mr. and Mrs. J. W. Coffman at Event Sunday afternoon. They are both doing very well.

Mr. and Mrs. R. V. Geeslin and children were dinner guests in the Herbert Coffman home Sunday.

Merlene Head came home for the weekend. She has begun her new job with the Texas Highway Department. We all wish for her much success.

Mr. and Mrs. Doyle Head and children spent the weekend here.

Mr. Charley Horner is doing some better now and we all hope he continues to improve.

Diann and Sandra Head are sick with colds. There are a number of folks with colds and flu out this way.

They are skating in the Star Gym now on weekends, so you Goldthwaite kids that skate pay us a visit.

Mr. and Mrs. Bill Hightower gave the Commercial class a party last Friday night. All the kids sure had a nice time.

Kathy Witty spent Friday night with Eva Faye and they attended the part at the Hightowers.

Mr. and Mrs. Hogan have been here visiting Mr. and Mrs. Jimmy Wright and Felton.

Grandmother Wright has been visiting Mr. and Mrs. Jimmy Wright and Felton.

It is sprinkling today and if the good Lord is willing we might get a good rain. Mr. and Mrs. Jim Green spent a while with us Saturday after-

noon while Jim sheared sheep for Uncle Joe Dalton.

Eva Faye and I went to the Senior play at Pottsville. Our niece had a part in the play and we thought her part was good.

It is not long until school will be out and I think all the children will be glad.

We were sorry to hear about Jimmy Farrin passing away. We extend our deepest sympathy to the Farrin family. May God bless them in their sorrow.

RURAL LETTER CARRIERS, 21ST DISTRICT, MEET AND ELECT NEW OFFICES

Rural Letter Carriers of the 21st District met Saturday night, April 25, in the banquet room of McLean Cafe.

There were 28 members present for the banquet and business meeting which followed. Guest speaker for the program was Senator Louis Crump of

San Saba. Members from the counties Brown, Coleman, Lampasas, San Saba, McCulloch and voted to consolidate into "The Pecan Valley Association." New officers elected for year by the new association were as follows:
George Ellis, Mullin, president; G. P. Adams, Rich Springs, vice-president; and E. (Ed) Thornton, Goldthwaite secretary and treasurer.

MAIL TO
GOVERNOR PRICE DANIEL
Austin 11, Texas

Nearly all Texans have ideas about the problems of children and youth today, but seldom do they get the chance to tell it to their President and Governor. Now they can by simply filling out the Public Opinion Poll on this page and mailing it to Governor Price Daniel in Austin.

Actually, President Eisenhower and Governor Daniel want each citizen's ideas about the state and nation's future citizens. President Eisenhower has called a White House Conference on Children and Youth, as

each president has done every ten years since Teddy Roosevelt. This week Governor Daniel issued a call for all Texans to look at barriers to the future development of the state's most precious resource—its children.

Governor Daniel has asked officials in every county to organize a large local committee to study all welfare, education, health, and spiritual resources available in each community to the juvenile delinquent, the hungry child, the student in each independent school district, the ill and handicapped,

those in day care while their mothers work, and children who need protection.

At the first meeting of the 129 prominent Texas civic leaders on the Governor's Committee for the 1960 White House Conference on Children and Youth, Daniel told his appointees, "Our purpose is not to go to Washington for someone to tell us what to do about our children. Rather, it is to generate public interest in how we in Texas can meet the needs and problems of our youngsters. Responsibility rests upon our homes, our churches and our schools to give training to qualify our children for citizenship."

Governor Daniel has asked that every Texan use time and thoughtful interest in expressing his ideas through the poll on this page, and mail it directly to him. The results will be tabulated and will represent Texas' demand for attention at the White House Conference.

Last Rites For Mrs. Geo. M. Perry Conducted In Hamilton Thursday

Funeral services for Mrs. George M. Perry were held in the Bob Riley Funeral Chapel

in Hamilton May 7. Services were conducted by Rev. Douglas Brown, pastor of the First Baptist Church of Hamilton of which Mrs. Perry was a member, assisted by Rev. Presnell H. Wood, pastor of the First Baptist Church of Goldthwaite. Burial was in the Gentry's Mill Cemetery.

Lillie Carl Dunn Perry was born June 15, 1888, daughter of Jeff and Charlie Pearl Lamb Dunn at Wortham, Texas. She passed away Tuesday, May 5, 1959 after a long illness. In 1904 she moved to Hamilton County.

On March 15, 1908 she was married to George M. Perry. They lived in Dawson County a few years and returned to Hamilton, where they remained. She was preceded in death by her husband and three sons.

Survivors are four sons, Jeff M. Perry of Hamilton, Vergel Perry of Lake Jackson, Texas, Alven C. Perry of Hamilton and L. C. Perry of Irving; three daughters, Mrs. Cleo Osterman of Lake Jackson, Mrs. Irene Ford of Angleton and Mrs. Katherine Arnold of Goldthwaite; 14 grandchildren; two brothers, Eric Dunn of Dimmitt and James T. Dunn of Lamesa; three sisters, Mrs. Marion Mitchell of Haskel, Mrs. Robert M. Perry of Hamilton and Mrs. Leonard Ferguson of Dallas.

Pallbearers were A. M. Abernathy, Bill Manning, Verne Crain, Charles Walker, Clyde Gardner and Otto Lengefeld, all of Hamilton.

CEMETERY WORKING AT NORTH BROWN, MAY 21
There will be an all day working at the North Brown Cemetery, Thursday, May 21. Everyone interested in the up keep of this cemetery is urged to bring tools to work with and a basket lunch and help with the work, according to an announcement by Mrs. Jim Weatherby.

Bond Sales For Month Of March In Mills County

"March sales in Mills County were \$26,528 and sales for the first three months of 1959 totaled \$61,667 which is 27.4% of our 1959 goal of \$225,000," Chairman W. P. Duren said.

Sales in Texas during March were \$14,096,269 and sales for the first three months of 1959 totaled \$45,196,598, which is 24.8% of the state's goal of \$185,200,000.

"Every American who buys a Savings Bond is providing for his own future, adding to the strength of his country, both militarily and economically, and is putting real meaning in the slogan "Share 1 In - America," Duren concluded.

Joseph Samuel Baylis Buried In Copperas Cove Monday, April 27

Funeral services for Joseph Samuel Baylis of Goldthwaite were held in the First Baptist Church of Copperas Cove Monday, April 27. Burial was in the Copperas Cove Cemetery.

Mr. Baylis was born in San Saba County March 13, 1877 and passed away suddenly at his home Saturday, April 25. He and Mary Lucindy Roberts were married in 1896 on the Terrell Roberts place five miles from Goldthwaite and were residing there at the time of his death. They resided in Melvin

until 12 years ago, when they moved to Mills County. They were the parents of nine children. He was preceded in death by two daughters.

Survivors are his wife; one son, Pat Baylis of Fort Worth; six daughters, Mrs. Bill Walston of Fort Worth, Mrs. Oriene Mabrey and Mrs. Jerry Trumble of Copperas Cove, Mrs. Letha Cockrell of Killeen, Mrs. Jodie Jones of Austin and Mrs. Mary Moore of Anaheim, California; 16 grandchildren, 33 great-grandchildren and a host of friends.

Pallbearers were the following grandsons, Tommy Joe Baylis, Buster Davis, Monty DeWald, J. C. Walker, Jim Ward and Freddie DeWald.

Questions And Answers About Social Security

Question: My wife, age 54, and I are adopting our granddaughter, age 10. Her parents are deceased and she is not receiving social security benefits because neither of them worked in jobs covered by social security. I will be age 65 in June and plan to retire then at a benefit rate of \$116 a month. Will it be possible for my wife and granddaughter to receive benefits too?

amendments to the law, your wife and grandchild will be eligible for dependents' payments as soon as the adoption decree is issued by the court. Before the 1958 change in the law, a three-year waiting period was required before benefits could be paid an adopted child and to the adopting mother.

Question: Although I am age 65, I plan to continue working. I understand that I will qualify for \$116 based on my average earnings of \$350 a month. Now that the social security tax is being withheld on \$4800 (\$400 a month), would two years of earnings at that rate qualify me for the new maximum of \$127?

Answer: No. It is not possible for you to draw the \$127 maximum. However, two years of \$4800 earnings would increase your retirement benefits to about \$120 a month.

Card Of Thanks

CARD OF THANKS
We wish to take this means of expressing our heartfelt thanks and gratitude to our neighbors and friends for the many kindnesses extended our loved one during his illness, and the many acts of sympathy shown us at his death. The beautiful floral offerings, comforting expressions of sympathy, food and many other acts of love in our behalf leaves us with grateful hearts toward neighbors and friends, and will always be remembered. Our special thanks to Dr. Childress and Staff and to Roy Wilkins Funeral Home for their kind attention. May God bless each of you is our prayer.
The Lewis A. Jones Family.
5-14-1tp.

CARD OF THANKS
With the deepest gratitude I wish, through this little note, to express my thanks and appreciation to each friend and neighbor for the beautiful flowers, visits and every kindness shown me during his illness.
Mrs. Leila Robertson.
5-14-1tp.

CARD OF THANKS
We wish to express our sincere thanks to our many friends for their every act of kindness during the illness and death of our dear mother. Especially for the flowers which were so comforting and the abundance of food. We would also like to thank the Wilkins Funeral Home for their courteous assistance. May God bless and be with you always.
The Ben Chesser Children and Family.

LEGAL NOTICES

CITATION BY PUBLICATION THE STATE OF TEXAS

TO: Garhart Lorenz, Garhart Lorenz, Lena Lorenz Huber, Lena Lorenz Huber, Mrs. Val Huber, Val Huber, Mary Lorenz French, Mary Lorenz French, Mrs. A. French, A. French, Annie Lorenz Martz, Annie Lorenz Martz, August Lorenz, August Lorenz, Herman Lorenz, Herman Lorenz, Zelma Lorenz Pietsch, John Pietsch, Martha Lorenz Moerbe, Martha Lorenz Moerbe, John Moerbe, Lena Lorenz Domaschk, Lena Lorenz Domaschk, Hulda Lorenz Bohot, Hulda Lorenz Bohot, Adolf Lorenz, Adolf Lorenz, Emma Lorenz Bittner, Emma Lorenz Bittner, Gerhart Lorenz, Gerhart Lorenz, Charlie Lorenz, Charlie Lorenz, and the unknown heirs, legal representatives and devisees of each and all of the above named persons, all alleged to be deceased, Defendants, GREETINGS:
You are hereby commanded to appear before the Honorable District Court, 27th Judicial District of Mills County, Texas, at the Courthouse thereof in Goldthwaite, Texas, by filing a written answer at or before ten o'clock A. M., of the first Monday next after the expiration of forty two days from the date of the issuance of this citation, same being the 8th day of June, 1959, to Plaintiff's Petition filed in said court on the 22nd day of April, 1959, in this cause, numbered 3260 on the docket of said court and styled FRITZ BUFE, Plaintiff vs those persons first named in this writ and to whom it is directed, and the unknown heirs, legal representatives and devisees of each and all of said above named persons, all alleged to be deceased, Defendants.

A brief statement of the nature of this suit is as follows, to-wit:
suit for the partition and division of the following described land and all premises lying and being situated in Mills County, Texas:—
215.005 acres of land, being FIRST, 169.806 acres of land out of the East part of the SE part of Sec. No. 2, T & St. L. Ry. Co. survey, Cert. No. 1704, and SECOND, 45.199 acres of land, being 4.378 acres out of the Middle SE part of E T Ry. Co. Sur. No. 2, patented to W. J. Hopper, Cert. No. 245, and 40.821 acres of land out of the West part of the SE part of T. St. L. Ry. Co. sur No. 2, patented to Andress Lorenz; all of which land is more fully described in Plaintiff's Original Petition, on file in this cause, and to which reference is here made for more particular description of the said lands.
Plaintiff alleges that he and the defendants are the joint owners in fee simple and together are the sole owners of the above described lands, that the defendants are the joint owners of an undivided 5/48ths interest in said land, and the Plaintiff is the owner of an undivided 43/48ths interest in said land, and that said land is capable of a fair and equitable division and partition in kind, that the estimated value of the said land is \$8,500.00; all as is more fully shown by Plaintiff's Petition on file in this suit.
If this citation is not served within ninety days after the date of its issuance, it shall be returned unserved.
The officer executing this writ shall promptly serve the same according to requirements of law, and the mandates hereof, and make due return as the law directs.
Issued under my hand and the seal of said court at Goldthwaite, Mills County, Texas, this 22 day of April 1959.

SEAL—ATTEST:
(SIGNED) Walter A. Bryant, Clerk District Court 27th Judicial District of Mills County, Texas.

CHRIST CAN CHANGE THE WORLD

Editor's Column
Cooperation With the
Mills County
Ministerial Alliance

John Striepe, Pastor
Lutheran Church
Priddy, Texas

"I BELIEVE IN
THE HOLY GHOST"

Though we cannot see the work of the Holy Ghost, we can see its reality in the element when they speak in this power and effect. In the same manner we know the reality of the Holy Ghost, when He is at work in the lives of men, women, and children, as full understanding of His nature and person of the Holy Ghost is impossible for the mind to grasp. Just so it is impossible to grasp the person of the Holy Ghost to the extent that He reveals Himself through the revelation in Holy Scripture, and from the work of the Holy Ghost we must understand that He is a real, living being. He is the Third Person of the Holy Trinity, co-equal with the Father and the Son. He is now present in the world and continually revealing the Word of God wherever He reads and preached and

er with the Father and the Son from eternity. He was present at creation; He was active during the Old Testament times; but the fullness of His sanctifying work on earth was not demonstrated until Pentecost. But then His special work of converting sinners began, because His special task for man could not begin until Christ had completed His redemption work, for it is the work of the Holy Ghost to apply to the individual soul the redemption which Christ purchased with His blood and life.

The power which the Holy Ghost revealed in the first century of the Christian era is still available. A few disciples of Jesus upset the very foundations of heathenism. Without the Holy Ghost they could never have accomplished as much in so short a time.

While we confess to believe in the Holy Ghost, we must also confess that we have often hindered His work in us because we denied Him full heart-room. We are rather materialistic; anything that does not guarantee a financial return does not interest us. As a result we have lost sight of the spiritual values, those things which God through Christ prepared for our salvation.

Through the Word of God the Holy Ghost provides power to the Church and to the people who are a part of it. Not to read and to hear the Word of God, or to water it down to suit our ego, closes the door to the sanctifying work of the Holy Ghost. God has never failed His people. If they will meet His conditions of repentance and faith, He will provide through the Holy Ghost all the power of heaven His people need. We dare not ignore this chosen Comforter and Helper sent by God the Father on Pentecost to teach Jesus' Apostles all that He had taught them. The Holy Ghost is now in the Church through the Word of God to guide the believers into all truth as taught by Jesus, the Son of God, and to preserve them in the faith unto a blessed end.

MYSTERY CHILD—Playing with handcuffs in a San Francisco police station is an 18-month-old girl who presents a double mystery. The first concerns her identity, the second involves the circumstance under which she was found. Police say a Negro woman suddenly came running into a tavern and, thrusting the child into lap of a woman sitting at the bar, fled.

CENTIPEDE

On Saturday night last, Col. Haynes, of this city, discovered one of these animals of enormous size gradually making its way upon the floor towards the bed in which reposed two of his little children. The Colonel, of course, lost but little time in terminating the career of the dangerous nocturnal visitor. In length the centipede measured exactly eight inches, and was the largest we have ever seen.—Austin Southern Intelligencer.

SIGNIFICANT

The paper selected by Buchanan (President James Buchanan) as the organ of the administration was called the Union—not the Dis-Union. Its name, since it recently changed proprietors, is the Constitution. What is the Constitution of the United States, but the bond of the Union between the States composing the nation.

INDIAN BATTLE

St. Louis, May 4.—The Overland California mail has arrived here with advices from San Francisco to the 11th ultimo, which are six days later than were received by the Coatzacoalcos at New Orleans.

The hostility of the various Indian tribes along the route is increasing. Mr. Bishop, with a party of forty men, who left LeJohn some time since to Co-operate with Lieut. Beale, were attacked at the crossing of the Colorado by a force of six or seven hundred Indians, belonging to various tribes, mostly Mohave, Pahute and Tumas Indians.

The engagement lasted three hours and a large number of Indians were killed, the Americans maintained their ground.

After the battle Mr. Bishop conciliated the Indians by distributing presents among them, and finally received permission to pass through their country. Mr. Bishop and his party,

however, retreated and sent to Col. Hoffman for assistance.

Col. Hoffman was expected to arrive and attack the Mohave village about the 15th of April.

Capt. J. W. Davis was announced as a candidate for Representative from Hays and Guadalupe. It should have been Hays and Caldwell.

The Capt. made a speech at Lockhart, after the editor left, and D. was answered by Ferg. Kyle. Our friends tell us that the Capt. occupied conservative grounds, and defended the possibility of remaining in the Union. Kyle told the Rushing's story about the falling stars. But he made this difference: He thought Douglas was "The star with the bur round it," and that Douglas had already fallen. Therefore Ferg would "let the Union slide." Kyle is a candidate for nomi-

Local Girls Awarded State Degrees At State FHA Meeting In Dallas

By JUDI REID

The State FHA Meeting, Texas Association, was held in Dallas, April 24th and 25th. Six local girls, two mothers and the sponsor attended the meeting. The group left Goldthwaite at 9 a. m. Thursday, April 23, in order to attend a practice session for the conferring of state degrees. We were guests of Mrs. Orville Wright (Mrs. Johnson's mother), Mrs. Hunsucker, her mother, and Carol Wright for lunch at Waxahachie that day. We then traveled to Dallas and registered at the Statler-Hilton Hotel where we were to stay. At 6:30 we girls who were candidates for the state degree attended a practice session held at the State Fair auditorium. The group then saw "Imitation of Life" at a theatre.

Friday the meeting officially opened and about 4,000 girls attended. The first session was called to order at the State Fair auditorium by Linda Schroggins, state first vice-president. Dr. Travis Shelton, professor of music at Southern Methodist University, led the group in singing. The opening ceremony was led by Sandra Bingham, State FHA president, and the invocation was given by Joyce Fisbeck, State historian. The FHA prayer song was led by Nancy Taylor and Pat McMichael and colors were presented by the Weatherford chapter.

After the pledge of allegiance greetings were given by several prominent Dallas officials. Bill McDowell, present state president of our brother organization, the FFA, gave the welcome and Brenda Comedy, state corresponding secretary, gave the response. Shirley Klitten introduced the guests.

The guest speaker was Ken-ton Harvy, past State FHA president. He spoke on "Citizenship in a Changing World." The theme of the state meeting was "FHA in a Changing World." Sandra Bingham then spoke on "Stabilities in a Changing World."

Thirty-six outstanding work-

ers in FHA were presented with honorary memberships. Lunch was served in the Woman's building by Waiter Jetton and staff.

The second general session opened at 2 o'clock. "Recognizing the Values of Training in Homemaking" was emphasized during the session. An impressive devotional was given by the Tyler Chapters. The title was "Do Unto Others as You Would Have Them Do Unto You." A panel interviewed several homemakers from Texas. The state chorus then presented the program. After the conferring of the state degrees the second session was dismissed. Fun Night was held at 8 o'clock that evening.

Maria Eubank, Gail Featherston, Jackie McCasland and Judi Reid were among the number that were presented certificates and state degree pins. In order to receive a state degree these girls submitted written applications to the state degree committee, who carefully read and graded the papers. The applications consisted of about 140 typewritten pages containing six standards, covering individual goals, community activities, homemaking activities, school activities, FHA activities and National and State program of work. Also description of the applicant's school, home and community, pictures of homemaking activities and evidence of all activities in high school. This is the highest degree that can be attained in FHA.

Third session was called to order at 9 a. m. Saturday and consisted of the business session. A devotional was presented by the Slaton chapter. It was entitled "Ten Commandments of a Good Citizen." "Romeo and Juliet" was sung by the Lutz-buddle Chapter and the Break-fast Song was sung by the Georgettes. Incoming officers were installed and after the retiring of the colors and the closing ritual the State FHA Meeting, Texas Association, adjourned.

The following attended the

SLOOP SUNK IN YACHT PARADE—Three of seven persons aboard the rammed and sunken 25-foot sloop *Rode Hexes* are rescued from San Francisco Bay, near the Golden Gate Bridge, by the crew of the cruiser *What Not*. The other four were taken from the waters minutes after the sloop, which had been maneuvering for position in the annual boat parade that opens the yachting season was sent to the bottom of the bay.

"End Of School" Formal Dance Is Being Planned By Student Council

The Student Council, under the leadership of Gene Elliott, has scheduled a formal dance for May 30, 1959 at 7:30 at the American Legion Hall. This dance is to climax the year's activities for the Council that has shown a constant increase in interest on a school wide basis.

Outstanding purpose of the Student Council which was organized five years ago under the close supervision of Supt. Jones and co-sponsored this year with Principal D. J. Williams has done much to bring about a better relation between pupils, teachers and the community.

Gene Elliott was assisted by Aubrey Hillman, vice-president; Addie Jo Conradt, secretary-treasurer; and Norma Duren, reporter. Other members this year are: John Burdette, Jimmy

meeting; Gail Featherston, Maria Eubank, Jackie McCasland, Barbara Burns, Addie Jo Conradt, Judi Reid, Mrs. Nell Eubank, Mrs. Odell Burns and Mrs. Wallace Johnson.

Smith, Robert McKenzie, Peggy Rowlett, Johnnie Beth Elliott, Harlan Jernigan and Ronald Cagle.

Arrangements for the above mentioned Formal have been completed, thus admission will be by ticket only. The council will be in full charge.

As a token of friendly help, the council members are offering their services as ushers to the 6th grade graduation, senior graduations and Baccalaureate Services.

CURTIS WIESEPAPE ENTERTAIN GUESTS

Mr. and Mrs. Curtis Wiesepape of Priddy were host to a Mother's Day dinner at their home Sunday.

Guests were Mrs. Wiesepape's parents, Mr. and Mrs. Zid Chapman of Ballinger, Mr. and Mrs. Zid Henning, Vicki, Randy and Becky, of Kerrville, Mr. and Mrs. John Wiesepape of Ballinger, and Miss Bertha Wiesepape of San Angelo. They also visited Mr. and Mrs. H. R. Wiesepape of Priddy.

W. M. S. Enjoys Missionary Program

The Women's Missionary Society met Monday, May 11, at the First Baptist Church for their regular monthly missionary program with twenty-five members present.

Mrs. Lee White was in charge of the program. "Praise From the Isles," which was opened by singing "Jesus Revealed in Me."

Mrs. J. H. Hale presented the names of the missionaries on the Prayer Calendar which was followed by special prayer for these workers.

Mrs. Lee White brought the devotional. Members of the "Vivian Hickerson" Circle told of the Missionary Challenge in Hawaii, and how the young Christian Natives are working to promote Christianity among their people. They also told of the first Baptist Church which was established at Pearl Harbor, and of the Women's Missionary Society work being carried on there.

The program was concluded with the song, "Lead On, O King Eternal," and dismissed with a prayer by Mrs. L. B. Ashley.

Following the program, punch and cookies were served from a table gaily decorated with flowers to carry out the Hawaiian theme.

Personals

Mr. and Mrs. L. V. Combs and Johnnie and Mrs. Ida Warlick of Austin, Mr. and Mrs. W. A. Whit and family of San Saba and Mr. and Mrs. Paul Warlick and family of Joshua were guests of Mr. and Mrs. John Warlick, Wanda and Gary, Sunday.

Mr. and Mrs. Joe J. Johnson Jr. and children of Fort Worth were guests of their grandmother, Mrs. J. W. Weathers, Saturday. Mrs. Weathers accompanied them home for a visit and will also visit her daughter, Mrs. Joe J. Johnson Sr. and Mr. Johnson.

Mrs. C. S. Horton and Tommy Locklear of Weatherford stopped for a short visit with Mr. and Mrs. C. Locklear and other friends Saturday en route to Brady for the weekend.

Mr. and Mrs. Bill Harper and children, Gay and Ray, of San Angelo, Miss Marsha Wilkins and friend, Fred Sanders of Georgetown, spent Sunday with Mr. and Mrs. Roy Wilkins and Charles.
