Three Candidates Announce For Commissioner, Precincts 1 And 3

W. T. "Son" Lee, Burthel B. Roberts and W. R. Lindsey this week authorized the Eagle to announce their candidacies for the office of county commissioner, subject to the Democratic Primary election next year.

Goldthwaite FFA Elects Sweetheart

MISS MARSHA EDINGTON,

daughter of Mr. and Mrs. Willard Edington, was chosen Sweetheart of the Goldthwaite FFA Chapter for 1959-60, at a recent meeting of the chapter. Marsha is also president of the Freshman class and is active in all school functions.

John Burdette is president of the Goldthwaite FFA Chapter. He is the son of Mr. and Mrs. Robert L. Burdette. He is a senior and is outstanding in many phases of school activities. Other officers this year are:

Billy Roy Gholson, 1st vice-president; Jimmy Wigley, 2nd vice-president; Jerry Skiles, 3rd vice-president; Tom Cody Graves, chaplain; Robert McKenzie, secretary; Jack Edington, treasurer; Charles Sherwood, reporter; Pat Rudd, sentinel; Gary Hammond, parliamentarian; and Roger Horton, historian.

Lee is serving his second term as commissioner of precinct three. He formerly worked for the commissioner in that precinct for several years and has been associated with the precinct activities for about 14 years.

In making his announcement Lee stated that he appreciates the job and the cooperation he has received from residents of the precinct and would like to continue serving them.

W. R. Lindsey who is entering the race for commissioner has been a resident of Mills County for the past 10 years where he farms and ranches. He was born in Lampasas County.

In announcing his candidacy Lindsey stated that this is the first time for him to seek public office. He has had some experience with heavy machinery and in operating maintainers and bulldozers. He feels that he is qualified to take care of the job and will appreciate the support from residents of the precinct in his bid for election.

than 60 per cent of parity available on the eligible cotton.

If marketing quotas are not approved by the necessary majority, then only the "regular" allotments will be in effect, and price support on cotton grown in compliance with the allotments will be available at 50 per cent of parity.

Mr. Burkett pointed out that the 1960 county allotment—representing the county's share of the State allotment, less any acreage reserved for new cotton farms—is divided among farms on which cotton was planted or "regarded as planted" in 1957, 1958, or 1959. An allotment may be "regarded as planted" if it was "reserved" under the Soil Bank Conservation Reserve Program or if it was otherwise preserved under some legal provision. The minimum farm allotment for "old" cotton farms is the smaller of 10 acres or the farm's allotment for 1958.

At this meeting, Mr. S. L. Jenkins, Agent in Farm Management, Extension Service, will discuss the Federal Income Tax as it affects farmers and ranchers. Mr. R. W. Ward, Field Representative, of the Social Security Administration, will discuss the social security program for farmers and ranchers. It is believed that this program will be very beneficial for the farmers and ranchers of the county and everyone is invited to attend this meeting.

MARCH OF EVENTS
Census to Give Line On Population Clock Accuracy | First of Our Nose Count Authorized Back in

By HENRY CATHCART
Central Press Association Washington Writer

WASHINGTON—One of the results of the nationwide census to be launched April 1, next year, will be of high interest here in how close the official tally compare with the estimated nose counts on the Population Clock which adorns the main lobby of the Department of Commerce building.

The clock reveals the estimate of statisticians that there is a net gain of one American citizen every 11 seconds. This is based on an estimated birth every 7 1/2 seconds, death every 20 seconds, an immigrant landing on these shores every 1 1/2 minutes and an emigrant departing every 20 minutes.

Incidentally, the decennial nose count set by Uncle Sam was originally authorized an act of Congress, back in 1790 "for purpose of allocation of representative Congress." However, it was not until that the Census Office was made permanent before that it was just a project that would be revived every 10 years.

● **HAPPY SHIP**—The increasingly active role President Eisenhower is playing in both foreign and domestic affairs will create the impression that the White House is a tense, busy, nerve-racking place these days. However, oddly enough, the opposite is true. There is an air of purposefulness about the place, but there is also an atmosphere of good fellowship. There is a lot of friendliness and laughter that was missing until a time ago.

Various reasons have been given for the change. The White House staff, from presidential assistants down to clerks, is closely mirroring the President's rising popularity as he deals directly with foreign affairs, the steel strike, and other problems. There is a revived sense of participating in the "crusade" he promised to lead.

Surprisingly, another reason was also given—the absence of Sherman Adams, who has now been gone from the executive offices for a year. Insiders tell that the operations are running just as smoothly as when the tough, terse Adams cracked the whip as the sometimes real acting President.

With Adams' departure went the feeling that goes with winning for a tough, unreasoning man who in the course of brooding no nonsense, brooks no good sense either.

Now, the White House staff is working more as a team than ever before, doing it willingly instead of grudgingly, and acting getting more done under the gentle persuasions of Maj. Wilton B. (Jerry) Persons, who is the personification of ability.

● **PRESIDENT'S FRIEND**—President Eisenhower's vacation at the Palm Springs, Calif., retreat of his friend George Allen has revived public interest in the man whose person has enabled him to be a close friend of Presidents Franklin Roosevelt, Harry S. Truman and Dwight D. Eisenhower.

The question is how any one man could become a cronie of three such different personalities. The answer seems to lie in Allen's ability to be interested in the relaxing hobbies of Presidents. He is an excellent, though not smutty, story teller and he violates no confidences.

In turn Allen has been a poker player with Truman and a bridge and golfing companion of Eisenhower. He is also reputed to take care of Eisenhower's personal investments. What if Vice President Nixon should succeed to the White House? The current joke around Washington is that "Eisenhower keeps Allen so busy he hasn't time to cultivate Nixon."

SHOPPING BEGINS AT HOME

A little planning before going shopping helps us to use our time, energy and money more efficiently. Some shopping can be simplified by using store services, such as telephone and delivery services, milk and bread routes and local aids. I suggest a shopping list, but "There's more to a shopping list than just writing it down." As a Home Economist I would like to give you the following 10 steps in planning a shopping list:

Plan your menu a week in advance. Make the shopping list according to plan and food on hand. Keep a pad and pencil for a "want list." Organize the shopping list according to store or shopping center layout to avoid "backtracking."

Make shopping lists legible and clear to enable someone else to do the shopping. Split up the shopping list among family members to speed up shopping and avoid "back-tracking." Take sample swatches of paint, paper, floor coverings and fabrics when shopping for home furnishings. Keep a record of family clothing sizes in your billfold or purse. Time your buying to avoid rush hours; don't wait until the last minute for Christmas shopping.

Final Rites For Andy Locklear, Texas Pioneer Rancher & Horseman

Funeral services for Andrew James Locklear, 88, of San Saba, were held Wednesday, November 18, at the Howell-Doran Funeral Chapel in San Saba.

Mr. Locklear was a pioneer cowman of Texas and New Mexico, having had extensive ranching interests in both states for many years prior to his retirement. He also raised and raced thoroughbred and quarter horses for many years. He, in partnership with his brother, Clabe Locklear, ranched in the west part of Mills County for several years and was always present with his string of race horses at the Mills County fairs in the past.

"Andy" Locklear, as he was known to family and friends, was born in Bosque County in 1871, eldest child of the late Jack and Sarah Wolfe Locklear. He was married to Mary Elzada

Thomas in Ballinger, Texas in 1896. To this union three children were born. His wife preceded him in death in 1952. He was a member of the Methodist Church.

Survivors are one son, Earl Locklear of San Saba; two daughters, Mrs. Tull Johnson of Valley Mills and Mrs. James Ellis of Coynosa, Texas; three brothers, Ben of Richland Springs, Clabe of Goldthwaite and Lon of Voca; one sister, Mrs. Henry Roberts of Richland Springs; seven grandchildren and eight great-grandchildren.

Interment was in Richland Springs Cemetery with Masonic graveside rites. Pallbearers were Ray Gage, J. W. McDoniel, Joe Ellis, Lynn Ward, Sam Laird, and Warden Terry.

Mr. and Mrs. Clabe Locklear and Mr. and Mrs. Cecil Williams attended the services.

More About Quail Hunting

Recently we wrote about Fred Palmer of Houston. He's the inventor of Truetone game calls. In that story we relayed to you some of his enlightening thoughts on quail hunting. He's so full of the subject that we'd like to pass on to you some additional tips which he has offered.

"Give the lost quail call early, before the birds scatter to feed," urges Fred. "Then listen for the reply."

About hurried shooting he says: "When you locate and flush a covey, remember that you have more time to shoot than you may think. Pick out one bird and down him. Mark where he falls. Then swing on the second bird and nail him, too. Don't let the roar of wings panic you into blazing away at the covey as a whole."

There is no doubt about it, in the opinion of this hunter, a big covey rise is one of the greatest thrills in hunting.

"But," says Fred, "veteran hunters know that you must find the singles to get your limit consistently. And that's

where your quail call comes into its own."

In response to our query about scent, Fred pointed out that frightened birds take cover and give off very little scent. Therefore, even a fine dog sometimes runs over and flushes a single, without pointing.

"The bird is expecting to hear the lost quail call," said Fred. "And when you give it, he will leave his cover, fluff out his feathers — releasing a strong scent — and usually answer the call."

"Now you can direct your dog toward the calling bird, or if hunting without a dog, you can pinpoint the singles and walk them up."

Again Fred cautioned against haste. He pointed out that it is important not to work too fast. His suggestion is that you allow a scattered covey about 10 minutes to settle down. Then give the lost quail call three times.

"You'll find that the bobwhite Gambel's quail, Mearns' quail and most other species will respond to the call," said Fred.

Guess we'd better go out and try our luck!

Pastor's Column In Cooperation With the Mills County Ministers' Association

By John Striipe, Pastor Zion Lutheran Church Priddy, Texas

Please read Psalm 100. We people of the United States have every reason to be grateful to God for the abundance of His bounties toward us.

Worley of Gatesville visited Mr. and Mrs. Fred Ethridge Sunday. Mrs. Friday of Houston and Mrs. Arthur Griffin visited in the Walton home Saturday.

Mr. J. C. Cox, an uncle of Floyd Manuel's, died at New Gulf, Texas, Sunday. Funeral services were at Bay City Tuesday.

Gene Shelton visited in the A. K. Shelton home Saturday night. Mr. and Mrs. Fred Ethridge have a new grandson born in the home of Mr. and Mrs. Eualdene Ethridge at Huntsville.

Mrs. Floyd Manuel and her parents, Mr. and Mrs. C. G. Featherston, visited in Evant with Mrs. Maggie Faulkner and Mr. and Mrs. Paul Horton Sunday.

Mr. and Mrs. A. K. Shelton visited with Mr. and Mrs. L. V. French Sunday afternoon.

and with national prosperity. Yes, also in this year of our Lord 1959 we have every reason to bow our knees and to lift up our hearts and hands in thanksgiving to God for all His gifts.

The Holy Spirit inspired writer of Psalm 100 calls upon all people to "Make a joyful noise unto the Lord; Come before His presence with singing; Enter into His gates with thanksgiving and into His courts with praise; be thankful unto Him, and praise His Name."

The psalmist emphasizes more specifically the reason for our joyful thanksgiving to God when he says, "Know ye that the Lord, He is God; it is He that hath made us, and not we ourselves; we are His people and the sheep of His pasture."

It just seems as though the psalmist could not find words enough to urge God's people to be thankful. Hence he crowds the admonitions, "Make a joyful noise; Enter with praise; Be thankful; Bless His Name."

But listen, God says, "Know ye not that the Lord He is God; it is He that hath made us and not we ourselves." On the basis of the Genesis account we must confess, "I believe that God has created me and all that exists, that He has given and still preserves to me my body and soul, my eyes and my ears, and all my members, my reason and all the powers of my soul."

"It is He that has made us and not we ourselves," is equally true of our conversion and coming to faith. Through His Apostle the Lord says, "We are His workmanship, created in Christ Jesus" (Eph. 2:10). The fact that we are believers in Jesus Christ is definitely a gracious act of God.

Word God has sought to lead us to supply our souls with the much needed spiritual nourishment for sustenance and growth in our Christian life, lest we again become spiritual corpses instead of being living children of God.

Remember, too, that we owe God all credit for everything which we have been able to do for His church and the Kingdom of God in general. Undoubtedly, at least some readers of this article have made sacrifices, put forth efforts, and brought offerings to the Lord through His Church.

Only as we realize our own inability and unworthiness in the sight of the Lord, will our praise and thanksgiving sound forth in resplendent glory to the highest heaven.

It just seems as though the psalmist could not find words enough to urge God's people to be thankful. Hence he crowds the admonitions, "Make a joyful noise; Enter with praise; Be thankful; Bless His Name."

Ingratitude is a common sin. That is why God admonishes us so often not to forget His benefits, but to thank and praise Him for them.

Just how deeply do you appreciate what God has done for you for your soul's salvation? Through His Word He would make you wise unto salvation through faith in Jesus Christ.

Questions And Answers About Social Security

Answer: She should have her husband's social security card and her own social security card, if she has one.

God in your home and in His courts. May God's blessings serve as a mighty incentive to consecrate ourselves anew unto the Lord for greater service.

May the Heavenly Father bless us for a worthy celebration of this 1959 Thanksgiving Festival. May our contemplation of Psalm 100 stir our hearts to true Christian thanksgiving to God for His abundant grace and mercy shown us in Christ Jesus, our Lord.

Hill of Moline Route, Goldthwaite, Texas, was serving aboard the attack aircraft carrier USS Lexington when the Honorable Charles C. Question: I am a disabled farmer. I am over 50 years of age. If I qualify for social security disability benefits in November 1959, when would my benefits begin?

Answer: In June 1960 for May 1960. Congress provided a six-month waiting period before benefits can begin to a qualified disabled person.

During his one-night visit Mr. Finucane conferred with top U. S. Seventh Fleet commanders and witnessed flight operations and simulated "attacks" on the Lexington.

Also included in the Secretary's schedule was breakfast with the crew and a tour of the ship before his departure for Taipei.

STATE CAPITAL Highlights AND Sidelights by Vern Sanford TEXAS PRESS ASSOCIATION

Austin, Texas—First of the 1960 political headquarters signs will be up before the Christmas lights.

An executive committee, formed to steer the Johnson-for-President drive, is opening a state headquarters in downtown Austin. Goal of the state office is to add to the 60 or more county clubs for Johnson and eventually to expand into a national operation.

With two exceptions, the state's top Democratic brass is on the committee. Gov. Price Daniel and Speaker Sam Rayburn are honorary co-chairmen. Plans were announced by Ed Connally, chairman of the State Democratic Executive Committee, and Byron Skelton, national committeeman.

Not on the committee are the state's junior senator, Ralph Yarborough, and national committeewoman, Mrs. R. D. Randolph. Both, long identified with the party's liberal wing, have hedged questions on their presidential preferences.

Tight Schedule—A possible

time table for filling the three vacancies in the Legislature was set up by Atty. Gen. Will Wilson when Governor Daniel asked him for an opinion on the election law.

Forty days would be needed between the time the election is called and the time the new officials could take office, according to Wilson. This allows a required 35 days between the call and election day, two days for Commissioners Courts to canvass the votes and three days for county judges to certify the results to the secretary of state.

Law does not require that all the seats be filled in order to have a special session, Wilson commented. But he said he felt it would be "especially desirable if more taxes are to be voted because of the old American principle of no taxation without representation."

Governor Daniel has discussed calling a special session in January to raise money for teacher salary increases.

Insurance Plan Debated—Im-

pact of a big change in auto insurance rates, due to take effect Jan. 1, is a prime discussion among insurance circles as well as the motoring public.

Under the merit plan, drivers with no record of accidents or moving traffic violations for three years get a reduced rate. Others pay on a sliding scale up to double the usual rate, depending on the number and seriousness of their accidents and violations.

Opinions on the plan vary widely. Among them:

(1) It will make drivers more careful.

(2) It will make clear to the driving public the direct relationship between accidents and cost of insurance.

(3) It will cause "bad" drivers to drop their insurance.

(4) It will result in more hassles over who was to blame for an accident. (Only the driver held responsible gets his insurance hiked.)

(5) It will flood the court-houses with contests over traffic tickets.

(6) It will be declared illegal because of the "double jeopardy" principle. Some lawyers reason that the driver is punished for his violation once when he pays a fine and cannot be punished again with higher insurance rates.

Sen. George Parkhouse of Dallas recently predicted that merit rating would result in such an overflow of traffic cases that new courts would have to be created and new buildings to house them.

Others have complained that traffic laws and their enforcement are not uniform and that

SIX-TO-ONE PAY-OFF FROM RESEARCH

For a capital outlay of \$225,000 and an annual operating expense of about \$300,000, the agricultural research center at Brownsville has developed a cash saving of at least \$3,000,000 a year to Texas farmers on a single research project.

This was reported by us in the recent dedication ceremonies for a new laboratory and office building at the Texas A. and M. College Experiment Station in Weslaco.

For those of us charged with the enforcement of agricultural laws, it is indisputable that

some drivers—victims of speed traps, for example—will be penalized. Answer to this, says Insurance Board Chairman Penn J. Jackson, is to work out the wrinkles in law enforcement.

Insurance agents, in meetings and conferences over the state, are boning up on the new procedures, planning how to explain them to their customers.

Although the rules apply after Jan. 1, present policyholders will not be affected until their contracts run out sometime next year.

Too Many Irons In The Fire—Duties of Texas' attorney general should be streamlined down to one main job—that of serving as the state's top legal officer.

Atty. Gen. Will Wilson made this recommendation as he and his staff gained new, streamlined office space. Department moved from the west wing of the Capitol into the top five floors of the just-completed Supreme Court Building.

Wilson said he is an ex-officio member of more than 20 state boards and has to spend nearly half his time at their meetings. Moreover, he said, it makes the attorney general responsible for the activities of agencies over which he has no direct staff control. He cited the Veterans Land Board troubles of several years ago as an example of the problems caused by such a situation.

Wilson advocated strengthening the executive branch of state government by gradually placing more responsibility with the governor. As a starter he suggested having the governor make appointments to replace the attorney general on state boards.

Penny Saved, Penny Earned—A House Economy in Government committee says it has turned up some cost-cutting ideas.

Use of more prison-made products by state agencies was recommended to the committee by O. B. Ellis, director of the prison system. For example, Ellis said prison-made bricks would cost the state much less than those it now buys. Also, he said prisoners could do the re-binding of school textbooks at a saving of about \$300,000 a year.

Possibility of cutting back the farm-to-market road program was explored by the committee. State Highway Engineer DeWitt Greer made no recommendations, but said the state is now spending \$78,000,000 a year on building and upkeep of rural roads.

Under the Colson-Briscoe Act of 1949, \$15,000,000 a year is automatically appropriated to build rural roads. None of this can be used for repair which must be paid out of other highway department funds.

Rural road program has exceeded its 1949 goal which was to build 25,000 miles. There now are 31,000 miles.

Board of Control could cut costs, by combining its Austin warehousing operations, the board's executive director told the committee.

Safety Award—Department of Public Safety announced that its annual fleet safety contest was won by DPS Region 3, headquartered in Corpus Christi.

All DPS vehicles are involved in the contest. To win it, the 188 drivers in the Corpus Christi region drove 157 vehicles 4,668,993 mile with only 18 accidents. More than one-third of the accidents occurred during emergency pursuit driving at speeds of up to 105 miles an hour. There were no fatalities.

ject aimed at proving or disproving that sterilization was necessary to prevent the spread of this most dreaded of cotton insect pests.

With two years of extensive research, the center was able to show definitely that it was not only unnecessary to sterilize cotton seed but it wasn't even helpful. Thereby, we were able to remove the sterilization requirements.

What does this mean in terms of dollars and cents? The whole cost of construction of the research center at Brownsville was \$225,000, and its appropriation for all of its wonderful work is about \$300,000 a year. This one project on cotton seed sterilization is saving Texas farmers at least \$3,000,000 every year. Putting it another way, this single project saves six times the total cost of construction and the cost of running the entire research center year in and year out. That means money in the bank as a result of research and education.

It is also one of the answers we know to mosquito attacks on the grounds is a needless expense.

SOIL CONSERVATION DISTRICT NEWS

OUR SOIL ★ OUR STRENGTH

By H. L. BERRY
Now is the time to make plans for the seeding of perennial grasses in 1960.

Such grain sorghum stubble now on the land which has been plowed since harvest, makes an excellent seedbed in which to plant grasses. The stubble should be left standing and not plowed prior to seeding of grasses.

When sorghum is grown as a litter crop in which seed grasses the sorghum should be drilled or planted in spaced rows. The sorghum should be mowed or shredded prior to frost to prevent the matting of a seed crop.

Shredding to leave stubble six to eight inches in height is preferred over mowing.

A grass drill or planter with a cover opener should be used when seeding in a dead cover of stubble. This method permits seeding without dragging of dead litter.

Such grasses as Little Bluestem, Sand Bluestem, Indian Grass, Green Sprangle-top, Side-top Grama, and a mixture of

Bluestem grasses should be seeded during the period of January 1 to April 1.

Weeping Lovegrass, Blue Panic, Switchgrass, and King Ranch Bluestem are grasses that should be seeded from March 15 to June 1 for best results.

All of these grasses are perennial and will come back each year from the stool if properly managed.

Grazing should be deferred the first growing season after seeding or until plants are well established.

WASHINGTON AND "SMALL BUSINESS"

By C. WILSON HARDER

At times it is possible to get comparatively quick action from government.

An example of this is the passage of the legislation that protects small business from multiple taxation in states in which business is done. Without this action, it is estimated hundreds of thousands of small business firms would have had to close their doors.

Early this year, in one of those C. W. Harder strange decisions that sometimes come out of the Supreme Court, it was held that a state could levy income tax against an out of state business selling in that state on a pro rata of the income derived on its sales in that state.

Thus, a firm which only had traveling salesmen going through the states selling orders to be shipped from the headquarters, was liable to pay income tax.

Actually, while the amount of additional taxes that would be paid were in themselves no small item, these amounts were far overshadowed by the sheer cost of preparing audits in any state and tax returns.

It is quite interesting to note the procedure followed in this matter. Businessmen all over the nation wrote to the National Federation of Independent Business asking that something be done to offset the damage created to the economy by this Supreme Court decision.

The matter was laid before Rep. Wilbur Mills as he serves

as chairman of the Congressional Joint Committee on Internal Revenue Taxation. He asked Federation to observe Senate Small Business Committee hearings on question and keep his committee informed.

There are other Congressional Committees that could have taken action on this matter, but traditionally Congressional committees are most reluctant to interfere with the taxing policies of the individual states.

Rep. William McCulloch introduced a remedial bill. A nationwide poll of independent businessmen by Federation heavily backed the bill.

There was quite a hassle in Congress before a bill was passed.

The bill that was finally passed does not solve the problem completely, but probably serves as a stop gap. Under its provisions, no state can levy income tax on an out of state firm which solicits orders in the state and ships them from a point outside the state.

But in addition, the bill requires the Senate Finance and the House Judiciary committees to make a further study of the situation and to make recommendations.

It is interesting to note that independent business in the nation had adequate machinery and organization to meet this threat promptly.

At one time, before the Congress delegated a lot of its powers, as Congress went, so went business. But in recent years, the Supreme Court, as well as many government bureaus, have taken upon themselves many law making powers. This business today must have quick access to Congress.

There's "food for thought" in a Thanksgiving Day visit to your house of worship

TODAY far too many of us think of Thanksgiving in terms of food and football—overlooking the fact that there is so much more food offered than that which is placed on the family table. For there is much "food for thought" as well.

Thanksgiving is a time to take stock of life's blessings . . . to take a bright-eyed child on your knee and talk to him quietly of things that really matter . . . of his great American heritage and the promise it holds for him. It's a time to take your whole family to your church or

synagogue for an hour of prayer and thanks that will make your holiday mean so much more.

True, our lives are far removed from those of the Pilgrim Fathers. We live in the uncertainty of the Atomic Age. But we also live in the abundance of 20th Century America. Has any one of us so much or so little that he cannot find room or time in his heart for thanks?

This Thanksgiving, why not take your family to your church or synagogue? Wherever you are . . . whatever your beliefs may be . . . take time to offer your word of thanks.

Clementine Wilmeth Briley Writes Temporary Home In El Paso

By CLEMENTINE WILMETH BRILEY

(Delayed)

I have said so much about El Paso's mild, sunshiny weather that I must say that lately we have had cold days, cloudy days, rainy days, and today (Saturday) it is really cold. I noticed that the zinnias, the marigolds and a lone tomato plant had been killed. A red geranium in a sheltered place is still in bloom. The oxalis are still in bloom and there are chrysanthemums and chrysanthemums. The pyracantha berries

this year are the prettiest we have had.

There is still more about that birthday I was telling you about last week. Saturday the mail brought me letters and pretty birthday cards from my sister, Grace; my granddaughter, Carol Jean, and my daughter, Ruth. Ruth also enclosed a check. We were too busy to have the birthday dinner Saturday, so we waited till Sunday. There was a white coconut cake and pink candles. They lit the candles and sang "Happy Birthday." At my plate was cologne from Billy, chocolate covered cherries from Johnny, and a generous check from Grace and Bill.

We had to hurry through with dinner as Grace and I each had an after dinner date. I was to attend a called meeting of the El Paso chapter of the Texas Woman's Press Association at Hotel Paso del Norte at 2 o'clock. Dr. Pearl Ponsford, who travels around the world every year, was to show us some slides of her travels. And in honor of Teacher Appreciation Week, the Pilot Club was giving a Tea for the teachers from 2:30 to 4:30, also at Hotel Paso del Norte.

Grace went with me to see the slides. They really were wonderful. Then Grace set me down in the hall and she went on in to the Tea. I felt rather stupid just sitting there with nothing to do, when along came Mrs. Houser, Grace's principal, and she took me in to the tea. They pinned an orchid on me, had me to register, and served me just the same as all the rest. I talked with Mr. Hibbard Polk. He is Director of Personnel of the schools. His mother was a Baxter. Her father gave Coleman County its first schoolhouse. My father taught in it. She went her first school to my sister, Clara.

I met Mr. Duncan. He is principal of McGoffin School. He is Taylor Duncan's cousin. I told him that I could remember that

GETS JUMP ON TROPHY—James Elder of Canada stands beside his mount, Isgilde, as he holds the Pennsylvania National Trophy after completing 10 jumps faultlessly in 38.4 seconds at the National Horse Show in Madison Square Garden, New York City. His victory gave runner-up Canada 62 points and moved Elder to third place in individual riding.

when I was a little girl my father held a meeting at Richland Springs and we went home with the Duncans for dinner. Mrs. Duncan told me if I would bring her in some stove wood she would make me a bread pudding. He said, "That was my grandmother." I met lots of lovely people. They all treated me like I was an honored guest.

When Grace and I got back home it was about time to go to church for evening classes at 5:30. Church services at 6:30. Out at 7:30. Then a talkfest out side. Home in time to hear the Gospel Hour over ZERF at 8:30. Also to hear Billy Graham over CBS.

My friend, Mrs. Phillip A. Shaw came by to see me this morning. I met her when I first came to El Paso. She read my column in the Banner. She was teaching in the school here. Their home is in Brownwood. She has taught at Indian Creek and Brownwood and other places in that area. Two years ago Mr. Shaw decided to retire. They went back to their home at Brownwood. She thought she could get her a teaching job somewhere around there, but she couldn't find any. She called Mr. Polk Saturday, Aug. 29. She asked if he had any place open in the school. He said yes he had a fourth grade at Lamar and he would like for her to get there by Monday. She made it. Mr. Shaw is taking care of his cattle at Brownwood.

Johnny heard from his little girl friend, Donna, who used to live next door, today. She called him to invite him to her birthday party tomorrow from two to four.

ROAD SHOWERS ARE WARNED

Austin, (Spec.) — Anxious hunter should not shoot game from public highways, warns Capt. E. M. Sprott, director of law enforcement of the Game and Fish Commission. And night hunting also is prohibited. Wardens have made a number of arrests already this year for headlighting. Courts have levied stiff fines.

PALO PINTO—We learn from the Waco Democrat that Thomas Bennett, accused of having murdered Mr. Bayo, of Palo Pinto county, has been tried and honorably acquitted. Bennett came near being lynched at that time, and was only saved by the decision and firmness of the Sheriff.

HOUSTON IN MOTION

An Extra from the office of the Houston Republic, informs us, that on Monday last, a public meeting was held in that city, for the purpose of taking measures to send aid to our suffering and unfortunate citizens of Brownsville. The mayor, Wm. H. King, was called to the chair, and the meeting addressed by Capt. Andrew Daly, W. A. Levy, Edw. Ferris, and Wm. P. Cottingham. Committees were appointed to solicit subscriptions, and enroll a company; and a call being made for volunteers, eighteen gentlemen and brave spirits came forward and subscribed their names. great enthusiasm prevailed, and it was expected that a company would be raised during the day.

DALLAS—The Herald states that a negro stealer was captured in the county lately, with two negroes that he had stolen from near Bonham, on the way for Mexico. He was taken to

Dallas, chained between the two negroes, and lodged in jail.

HOUSTON — The Republic states that a man was found drowned in White Oaks Bayou, a few days since. Verdict: drowned himself in a fit of insanity.

We learn by an Intelligencer Extra, that Mr. Britton offered a resolution in the State Senate, on the morning of the 18th, for the raising of a thousand men to resist rebellion, and to repel invasion, which he argued should be immediately passed;

Hunters Urged To Save Bands Found On Quail

Austin, (Sp.c.)—Quail hunters are urged again this year to send in bands when found on birds they kill, according to the assistant secretary of the Game and Fish Commission. Many birds were released throughout the State this year from the State Game Farm near Tyler.

ed; but it was referred to the Senate Committee, and the Senate adjourned to give the Committee an opportunity to report the bill.

All these birds have been banded.

The department is particularly anxious to get bands from any Coturnix quail killed by hunters. In this way it will be able to trace the movement of the birds.

Despite unseasonal weather, conditions still remain very good for quail hunting with the coming of the general season Dec. 1, the secretary said.

He also announced that breeding stock of native bobwhite quail will be available for game breeders from the Tyler farm after Jan. 1. They will be available at \$3 per pair. Applications should be sent to the Game Commission in Austin.

Sheep And Goat Raisers Meeting Held In San Saba November 12

The quarterly district meeting of Texas Sheep and Goat Raisers Association for Mills, McCulloch, Brown, Lampasas, San Saba, Gillespie, Mason and Llano counties was held Thursday night, November 12, in San Saba. Twenty-five members were present for this meeting.

Mills County had eleven members attending. Directors from each county were nominated, with Col. V. Z. Cornelius, Clayton Egger, and Arthur Gromatzky nominated as directors for Mills County. Col. V. Z. Cornelius was re-elected as chairman for the district. "Mickey" Stephens, Lometa, is the next president of the Texas Sheep and Goat Raisers Association. Mr. Stephens will take office at the next annual meeting of the association.

This is the first time that a resident of this district will serve as president of the asso-

ciation. This association is composed of sheep and goat producers in Texas and is a very strong association with about 5,000 members, that promote wool, mohair and the sheep and goat industry in Texas.

The United States produces around 48 million pounds of mohair and most of this is produced in Texas. The largest dealer of mohair in the U. S. is Hollis Blackwell, located here in Goldthwaite and Mickey Stephens of Lometa is the second largest dealer of mohair.

The sheep and goat industry is important to Mills County for the ranchers produced 1,141,883 pounds of wool and 518,000 pounds of mohair in 1959.

Mr. and Mrs. Milton Schorn and sons, Larry and Keith, of Fort Worth spent the weekend with her mother, Mrs. H. P. Harris.

PEANUT GROWERS TO VOTE

A national marketing quota referendum for peanut growers, the first in three years, will be held December 15. The balloting will determine whether or not marketing quotas will be in effect for the next three crops of peanuts.

If at least two-thirds of the voters are favorable, quotas will be in effect for the 1960, '61 and '62 crop of peanuts. Penalties will apply to "excess" peanuts, and price supports will be available to growers who comply with their acreage allotments at the full level of support.

If more than one-third of the voters oppose, quotas and penalties will not be in effect for the 1960 peanut crop, and the level of price support to eligible

growers will drop to 50 per cent of parity. In such a case, another referendum would be held in 1960 for the following three crops.

A grower will be eligible to vote in the December 15 referendum, if he is entitled to share in the 1959-crop peanuts planted for harvest as nuts on a farm having more than one acre of peanuts planted.

Peanut marketing quotas have been in effect each year since 1949. In the last referendum, quotas for the 1957, '58 and '59 crops were favored by 63.5 per cent of the growers voting.

TEXAS WILL HAVE NEARLY HALF OF 1960 COTTON ACREAGE

Secretary of Agriculture Ezra Taft Benson has proclaimed a national marketing quota of 13, 133,000 bales and a national acreage allotment of 16 million acres for the 1960 upland cotton crop.

Texas' share will be 6,761,512 acres with an additional 55,965 acres for the national reserve. The Secretary also announced his determination that alternate — Choice (B) — farm allotments for the 1960 upland cotton crop will be 40 per cent larger than the "regular" Choice (A) allotments for the same farms.

An acreage allotment of 22,243 acres will be in effect for the extra long staple cotton grown in Texas in 1960.

December 15 was set as the date for a growers' referendum on marketing quotas for both upland and extra long staple cotton. At least two-thirds of the farmers voting in the referendum must approve the quotas if they are to remain in effect.

If the quotas are approved, Choice (A) will include "regular" farm allotments with price support at not less than 75 per cent of parity available to growers who comply with their regular allotments. Choice (B) includes 40-per cent larger farm allotments and price support to growers who comply with their Choice (B) allotments at 15 per cent of parity less than under Choice (A). Individual farm allotments under both Choice (A) and Choice (B) will be available to producers prior to the referendum.

Benson added that if marketing quotas are not approved for the upland cotton crop, only the "regular" Choice (A) allotment program will be in effect and price support will be available to cooperators at 50 per cent of parity, as provided by law.

Peanut Growers Vote Dec. 15

College Station, (Spec.) — A national marketing quota referendum for peanut growers, the first in three years, will be held on December 15, according to Searcy Ferguson, chairman, Texas Agricultural Stabilization and Conservation Committee. The balloting will determine whether or not marketing quotas will be in effect for the next three crops of peanuts.

If at least two-thirds of the voters are favorable, quotas will be in effect for the 1960, '61 and '62 crops of peanuts. Penalties will apply to "excess" peanuts, and price supports will be available to growers who comply with their acreage allotments at the full level of support announced, said Ferguson.

If more than one-third of the voters oppose, quotas and penalties will not be in effect for the 1960 peanut crop, and the level of price support to eligible growers will drop to 50 per cent of parity. In such a case, another referendum would be held in 1960 for the following three crops.

A grower will be eligible to vote in the December 15 referendum, Ferguson said, if he is entitled to share in 1959-crop peanuts planted for harvest as nuts on a farm having more than one acre of peanuts planted.

Peanut marketing quotas have been in effect each year since 1949. In the last referendum, quotas for the 1957, '58 and '59 crops were favored by 93.5 per cent of the growers voting.
