## Jernigan Bros. Get Texas Auction Market Operator Award Of The Year

### Eight More Join Park Maintenance Honor Roll To Boost Fund To \$938

Eight more individuals and business firms joined the honor roll of Park Maintenance fund by contributing during the past week. This brings the total contributors to 90 with total con-

tributions amounting to \$938.

Of the 90, 70 contributed the suggested amount of one dollar per month or \$12 per year. A limited number are paying theirs on monthly, quarterly or semi-annually basis. Total contributed by the 70 is \$840.

Twenty others contributed \$98 to the fund.

The following contributed during the past week and are added to the honor roll of 82 printed last week.

The park committee started the drive for a park maintenance fund five weeks ago when 460 letters were mailed out to citizens of Mills County telling of the need for the fund.

A goal of \$1200 was set to assure sufficient funds for employing a park caretaker on a year around basis, or at least through the entire growing season.

The park is a county-wide project and has been used by many groups from a wide area. Committee members are still hopeful that more contributions will be coming in during the days ahead to reach the goal.

Checks should be made out to the Park Fund and presented to a member of the park board or fund drive committee or they may be turned in at Mills County State Bank.

Miss Benna Reid, of ACC, Abilene, spent the weekend with her parents, Mr. and Mrs. Dale Reid, Judi and Robin.

S. D. 'Sig' and Malcolm Jernigan, co-owners of Mills County Commission Company have been awarded a plaque honoring them as the Texas Auction

Market Operator of the Year for 1959.

The second annual "Roy M. Kothmann Memorial Award" was presented by Riley R. (Boots) Kothman, TLAA president. Kothman presented the plaque to Sig Jernigan during 1960 TLAA "Progress Banquet" held in the ballroom of the Windsor Hotel in Abilene on Saturday evening, February 27. In making the formal presentation, Kothmann said:

"This is the second annual award given in memory of my late father, Roy M. Kothmann, the purpose of which is to recognize an outstanding leader in our industry in Texas each year—a man who has devoted additional time to the industry and to our Association for its betterment and advancement.

"This year the award has been given to a man who entered our industry in 1950. He has one of the leading livestock auction markets in the state. Last year his market sold over 350,000 units. He is a member of the Texas Sheep & Goat Raisers Assn., as well as of the Texas and Southwestern Cattle Raisers Assn. He is also a prominent Charolais cattle breeder in his area.

"He has been a past officer and director of this Association. He is an outstanding judge and authority in quarter horse circles and was one of the original group of men in 1940 who initiated the system of registry of our new popular quarter horse breed. He also is one of the outstanding authorities here in Texas and in the nation on sheep and goats.

"Ladies and gentlemen, it now gives me great pleasure to present this 2nd annual Roy M. Kothmann Memorial Award to my friend and a leader in our industry—Mr. S. D. (Sig) Jernigan of Mills County Commission Co., the nation's No. 1 sheep and goat auction market at Goldthwaite, Texas!"

Mr. Jernigan, inconspicuously seated in the audience with Mrs. Jernigan, was unaware that he was to be so honored and was very deeply moved.

Selection of the recipient of this year's award was made by a three member committee composed of Dewey Smith of Edinburg, Vice President June DeCordova of Groesbeck, and B. H. Yeager of Brownwood.

RECEIVES AWARD — S. D. (Sig) Jernigan is shown here receiving the plaque on behalf of Mills County Commission Company as "Texas' Outstanding Livestock Auction Operator of the Year." Presentation was made by Riley R. Kothmann, of Uvalde, new TLAA president.

of Goldthwaite that all church, school and business buildings are rated properly.

The inspectors will not inspect private or residential property.

Texas Fire Insurance Commission publishes a book of Maximum Specific Fire Insurance Rates for each town and city. This book lists the address, occupancy and maximum specific fire insurance rates of church, school and business buildings in and adjoining that town or city. The inspectors are here to compile that information. Because of the important nature of this work, everyone's cooperation will be greatly appreciated by the Commission.

The inspectors have their office in the Fire Station and can be contacted at phone MI 8-3186. Inspectors here are: Jim Nixon, Belton; John Tabor, Denton; John Schulze, Marlin; Chilton Bryan II, Houston and George Shaw, Austin.

## Jewell Ivy Sells Mullin Business

Jewell Ivy, Mullin businesswoman for many years, this week announced that she has sold her retail business to Mr. and Mrs. J. C. Phillips of Oklahoma.

The new owners have taken over operation of the store and have purchased the old Kemp Grocery building where they plan to move soon.

The building is being redecorated with new floor, plate glass windows and new awning to be added. Phillips said Tuesday they plan to move in the next two or three weeks. They will continue to feature drugs, groceries and meats and some dry goods.

## Census Workers Will Attend Training Sessions Next Week

Census takers who will visit the 1960 Census of Population and Housing which will be held on March 28, 29, 30, 31 for Brownwood, Brown County (rural) and Mills County. Each census taker will receive a total of approximately 16 hours of instruction. Emphasis will be placed on the use of a systematic, thorough canvass of every dwelling unit during the census to insure a complete count. Training will cover the manner of asking ques-

tions, use of the Census questionnaire, Census definitions, and map reading.

Map reading is an important census-taking technique since, without maps, defining the limits of each district to which a census taker is assigned, the job would be a matter of confusion. About 250,000 maps have been prepared for the 1960 Census. This provides an individual map for each of the 250,000 districts into which the country has been divided for the census. Every census taker will be furnished with a map of his district. As they make their rounds, census takers will be required to canvass every street and road and visit every housing unit within the boundaries of their assignments shown on

these maps. Allen W. Hardgrave, Goldthwaite, will be crew leader for Mills County census workers and also those covering the rural area of Brown County.

Census takers listed for Mills County are: Mrs. Dorothy Carter, Mrs. Anna Lou Miller, Mrs. Howard Moore, Mrs. W. C. Barnett and Mrs. Everett Holland, all of Goldthwaite and Mrs. Cleo Hodges, Mullin.

Those listed for the rural area of Brown County are: John W. Adams, Brooksmith, Mrs. Mildred N. Brewer, May, Mrs. Mary Hicks, Blanket, Lloyd Wayne Wadsworth, Bangs, and Mrs. Estelle Page Lemmons, Mrs. Faith Ricketts, Chester W. Bobo, Mrs. Cora Reed and Mrs. Elizabeth Stephens, all of Brownwood.

## Mills County Commercial Lambs Sell At Fort Worth Monday

Mills County 4-H and FFA Commercial Lamb program got a fine start Saturday at the "Lamb Luncheon" at McLean Cafe with L. M. Stephens as guest speaker. The lambs were graded at the Mills County Show Barn in Goldthwaite, then loaded and hauled to Fort Worth by truck.

This was the second annual sale of Mills County Commercial Lamb Feeding Program. There were 41 boys taking part in this year. This program is sponsored by the Mills County Bank, Goldthwaite Lions Club and Mills County Livestock

Raisers Association. Sunday the boys, their VA teachers and several adults left by bus for Fort Worth. There were 24 boys from Goldthwaite, 11 from Star and 6 from Priddy. The buses used for transportation were furnished by Goldthwaite and Star. Early Monday morning the boys were out at the stockyards to see their lambs sell.

Mills County boys sold 478 head of lambs at the following prices: No. 1 fat lambs, 21c; No. 2 fat lambs, 20c; a few wool fatts sold at 21½c; feeders, 18½c; and a few heavy pelts at 15c. The majority of the lambs were in the 20 and 21½c division. But the winner in this kind of program is the boy who makes the most net profit considering purchase price, feed expenses, sales price and all, stated Thurman Head, VA teacher of Goldthwaite.

The lambs were graded and sold by Thad Boswell of Cassidy Commission Company.

Sponsors attending the sale at Fort Worth were: Thurman Head, George Reese, Warren Duren, Raymond Casbeer, Charles Conrad, Truett Aldridge, Hawley Jernigan, Hubert Berry, Jack McAden and Jesse Moreland, all of Goldthwaite. Jim Steakley of Star and J. D. Franklin of Priddy also accompanied the boys to Fort Worth.

INPUT AND OUTPUT—Former Congressman Samuel B. Pettengill observes: "In recent years society has gone 'nuts' on the cult of security guaranteed by government. In short, a nation of parasites. The illusion of the age is that people can vote themselves rich. . . . It is a fable and a fraud that the output of society can be greater than the input of individuals."

This dependence on government, moreover, has been a primary cause of the inflation that has cut the purchasing power of the dollar in half in a short span of years. And, while that has been going on, the government has been taking more and more of those degraded dollars in taxes. On the average, each of us works two hours and sixteen minutes out of an eight-hour day to meet the tax bills. Food costs, by contrast, take only an hour and 28 minutes of work.

There's widespread belief that defense and related needs make any substantial reduction in government spending out of the question. That belief is not founded in fact. Senator Byrd of Virginia points out that recent great increases in federal spending have not been for defense, atomic projects, or foreign aid. Since 1954, expenditures outside these categories have increased from \$19.1 billion to about \$34 billion — a jump of 78 per cent. And much of that can be laid squarely at the door of the let-the-government-do-everything trend.

DULUTH, MINN., PUBLICITY: "The U. S. income tax was 47 years old Feb. 25. Does anyone want to sing 'Happy Birthday' to celebrate the joyous occasion?"

"When it was born in 1913, few people foresaw how the tax would grow. It started with a nibble of one to six per cent. Now it gobbles up 20 to 91 per cent."

"The result has been to eat up savings and capital and stunt the growth of the national economy."

HARTFORD, KY., NEWS: "Roman tax collectors, we learn from Newsweek magazine, nicked Vice Chairman Giovanni Agnelli of Italy's big Fiat auto works a mere \$92,000 in income tax on his 1958 salary of \$638,000. If Fiat and Signor Agnelli were in Detroit, the magazine points out, his take-home pay would have been \$462,000 less—or about 13 cents per earned dollar."

STILL NOT ADEQUATE—On February 1, increases in parcel post rates, which the Postmaster General recommended some three years ago, went into effect. They average about 17 per cent. Now, it appears, federal court action is pending to determine whether the method used in reaching the new rates was legal.

What will come of this remains to be seen. But specific legal aspects to one side, the fact is that parcel post has long violated a provision laid down in the act of Congress that authorized its creation. This provision says that the rates charged shall fully meet the cost of providing the service.

Thus, when the Postmaster General made his request, he was simply abiding by the law, as was the Interstate Commerce Commission in finally authorizing the increases. However, the 17 per cent average increase, it now appears, is insufficient—one authoritative estimate holds it will little more than make up half the operating deficit of the service. Post office wages and other costs have gone up substantially in three years, and hence a rate structure that might have proved adequate at the time the request was made is not so now.

So — whatever the method used or needed — the evidence is that parcel post is to pay its own way and get off the backs of the taxpayers, another upward rate revision must be effected.

INFECTIOUS HERMIT CRABS—Few living men have seen so much history, both as participant and observer, as Herbert Hoover.

The other day he spoke before a religious group. He pointed out that Marxist thinking was plaguing the country, and that "more leaders of the Christian faiths need to realize the ultimate end of this infection among us."

Then he made a memorable observation: "The real meaning and purpose of socialism is the governmental operation of all commerce and industry and the reduction of life to pure materialism."

"This infection creeps through our nation by deluded and misled men and by disguised organizations, fronts and cults. These agents of infection are like hermit crabs which crawl into such terms as 'liberal,' 'progressive,' 'public electric power,' 'managed economy,' 'the welfare state,' and a half-dozen others."

WEATHER FORECASTING MAY BE MORE RELIABLE

AGED SOLAR PERFECTS NEW

By HENRY CATHCART  
Central Press Association Washington Writer

WASHINGTON—An eminent scientist, working in a tower in the Smithsonian Institution, believes he has perfected a system under which he'll be able to forecast weather for seven years ahead.

The brilliant savant believes he can predict the weather in Washington and 31 other American cities a month or more until 1967. If the system should prove practical, it will be the greatest breakthrough in the history of weather forecasting.

Dr. Charles G. Abbot, a solar physicist, has been working on his system for 30 years. He is 87 years old, he is confident that he has found the key to reliable weather forecasting far into the future.

Briefly, Dr. Abbot believes that all life on earth is controlled by the heat and light on the surface of the sun. He came to this conclusion after making a three-decade study of the sun.

As a result of his studies and experiments, Dr. Abbot has concluded that the sun repeats itself. All one has to do is repeat what the weather was 22½ years ago, and wait for it to repeat itself.

Actually, it's more complicated than that, of course. Dr. Abbot has also made studies of man-made interference, such as groupings of buildings, effects of burgeoning cities, etc.

Abbot not only intends to predict rainfall, but temperature, as well. He does not expect the orthodox weather forecasters to accept his system without question. However, predictions are borne out, he says, "my report may interest that they will have to study it."

THE BIG COUNT—The Commerce department is in the process of hiring and training personnel and making numerous arrangements for the 1960 decennial census.

The head-count is important, of course. Some states have additional members in the House of Representatives at the expense of others.

However, the government obtains a lot of statistical information, as well, pertaining to such things as family size, city and country dwellers, individual income structures, etc.

The Census bureau wants to add a new category to its information this time around. It has asked Congress for permission to learn the trend of consumer spending.

It wants to collect statistics on the way families dispose of paychecks and is particularly interested in the public's use of such durable consumer items as appliances, furniture, vision sets and similar goods, which families want but they seldom need immediately.

The information would be of great value to business and also form the basis for a revision of a part of the Federal Reserve program.

CIVIL WAR—Beginning on Jan. 1, 1961, Washington and other locations around the country will begin a four-year observance of the Civil War centennial years.

At present, the Washington group, a private organization, is broke. But nonetheless it has big plans for whooping it up when the time comes.

One of its most dazzling ideas is to have actor Raymond Massey play Lincoln at a re-enactment of the inauguration on March 4, 1961. Massey would appear in a present-day joint session of Congress and the whole thing go out on a nationwide television hook-up.

Another spectacular is still a longer way off. The group wants to have a bang-up parade down Pennsylvania avenue in 1965, to mark the 100th anniversary of the end of the Civil War.

Mrs. R. Glynn Raley, president, presided at the business meeting. Reports were given by the different chairmen.

Mrs. Ray King announced that the yard of Mrs. Lee Roy Stacy was judged "Yard of the Month" and Mrs. Stacy was presented a plant from the garden of Mrs. Fred Stephens. The Yard of the Month Marker was placed in the Stacy's yard for a month.

After the business meeting Mrs. Roy Wilkins was leader for the program "Face Our Future Through Conservation," and "Soil Building" was given

by Mrs. Jack Elms.

Mrs. Wilkins introduced the guest speakers, Carl Casbeer, Soil Conservationist, and Julian Whitley, Department of Public Safety. Mr. Casbeer gave a very informative talk on "Flood Control of Bennett Creek" and Mr. Whitley's subject was "Human Life."

A number of club members and guests enjoyed the program and social hour which followed. The St. Patrick motif was used for the tea table which was covered with a green cloth fringed in white and centered with a lovely floral arrangement of white carnations and greenery. Mrs. V. Z. Cornelius and Mrs. G. C. Head assisted Mrs. Smith and Mrs. Daniel in serving refreshments of sandwiches, punch, mints and nuts, which also depicted the St. Patrick theme.

Paul Wallace, minister of the Austin Avenue Church of Christ in Brownwood, officiated at the double ring ceremony before an altar decorated with baskets of blue and white glads, mums and palms. Wrought iron candelabra and white tapers flanked the altar.

Pat Nowell, soloist, sang "Always," "Through The Years" and "I Love You Truly." The bride, given in marriage by her father, wore a white nylon under lace floor-length gown, fashioned with a scalloped neckline, long sleeves and set-in cummerbund attached to a deep V in the back.

She wore a finger tip veil and carried a bouquet of orchids with imported nylon tubing tied in double love knots.

Miss Martha Wyatt of Brownwood was maid of honor. Bridesmaids were Mrs. D. E. Large and Mrs. E. D. Chambers, Brownwood, sisters of the bride, Miss Margaret Chambers, niece of the bride and Miss George Ann Hitchcock, cousin of the bride.

GIRL SCOUT SHOUT

By MRS. HOUSTON DUREN

Although the weather may still be on the cool side, there is nevertheless a touch of spring in the air. The sun is warmer and the birds are singing from every bush and tree as tiny buds begin to show their colors. To a Girl Scout all of this means one big thing—Fun in the Out of Doors! It may be planting seeds and bulbs so they can watch them grow, it may be hiking with a definite purpose, or aimlessly wandering around just for the joy of being close to Nature. Then there is camping; camp fun begins with living out-of-doors. Whether it be a Troop Camp Weekend, Day Camp, Established Camp, or Primitive Camp, the main objectives are the same:

1. To stimulate real enjoyment and appreciation of the Out-of-Doors with adventurous experiences, according to age level.
2. To provide training in citizenship through the give and take of community living in which each girl has a part in

planning and carrying out the camping program with the help of adult leaders.

3. To contribute to the physical and mental well-being of every camper and to help in the development of such qualities as resourcefulness, initiative, and self-reliance.

Sometimes we may feel that our Camp Program has not lived up to these qualifications, but we believe that if a camp program fails it is because the adults have failed to take advantage of the training they have been offered which will help them to know better how to let girls plan and carry out their program and there may be a lack of cooperation. The adult training is free, but it does take a little time. We feel there is no time better spent than in preparing ourselves to become more capable leaders of children and young people. If you will look about you, we believe you will find that the young people who are beginning to take responsibilities, are in most instances the children of parents who have accepted their own responsibilities. There will be Day Camp Training for the Administrative Staff in Brownwood, Thursday, March 31. We urge the following Day Camp workers to attend, if at all possible: Day Camp Director, Assistant Day Camp Director, Business Manager, Camp Nurse or First Aider, and Camp Chairman.

Generally speaking, wash and wear performance depends on a specially constructed fabric, the presence of special finishes, or the presence of certain man-made fibers. Look for labels that tell you what the fabric is and how it should be cared for.

Knitwear of all types—including socks, T-shirts, and underwear—and such cotton fabrics as plisse and seersucker have been wash-and-wear for years.

Today's wash-and-wear cotton, however, looks and feels little different from other cotton fabrics. They are plain-woven, smooth-surfaced fabrics, with special finishes that make

Man-made fibers are usually suited for wash-and-wear fabrics because they are and durable and have inherent resistance to wrinkling and marring. Cotton-made fibers dry smoothly because they do not absorb moisture.

Cold-ruptured limbs should be removed. Otherwise, the plant may exhaust itself in trying to heal the injury.

Plants vary in their ability to overcome injury. Bear in mind that one of the general rules for pruning is to cut off all dead or injured limbs to make way for new growth.

WHAT TO EXPECT FROM "WASH 'N WEAR" FABRICS

Just what does "wash and wear" mean, anyway? The term seems to leave some of us confused about what to expect. The term refers to a garment or fabric that through its wearable life can be worn and washed and worn again with little or no ironing.

Notice the wording, little or no ironing. This statement allows for differences in personal appearance standards of individuals. A garment which needs no ironing for one person might require "touching up" or "complete ironing" to meet the individual standards of others. And the type and purpose of the garment may influence the standard.

### Clementine Wilmeth Briley Writes From Temporary Home In El Paso

By CLEMENTINE WILMETH BRILEY

Monday morning of this week Anna Pearl Washburn Stephens called me. Anna Pearl went her first school to me at Reeves Schoolhouse. She told me she saw in the morning paper that Maggie Tuttle Jones, 87, had passed away Sunday afternoon. She had lived in El Paso 50 years.

When we first moved to Mills County, up near the Buffalo Schoolhouse was the Uncle Arch Ratliff home. And between his home and the schoolhouse was his rent house where the Tuttles lived. The second year we were there, 1889, my father taught the Buffalo school. The Tuttle children, Rufus, Wilma, and Maggie, were in school. Maggie, the oldest, was seventeen and quite a young lady. She was my father's most advanced pupil. She was pretty, very intelligent, and cute as she could be. My brother Jim, six, chose her for his girl right away. He would sit by her every day. He told her he wanted her to quit going with Will Ratliff. She humored him to everything. Every evening when we got home, he would say triumphantly, "Mamma, I kissed Miss Maggie today." During this time my brother Charles, who was a photographer, visited us. He took a picture of the school. And there we all are even to this day. I still have the picture. And there is Maggie as she was at seventeen.

The Tuttle children's mother had died before they moved to Mills County. Their father had married again. He bought some land and improved it—built a house, had a well drilled, put in a little field. That place is now the Charlie Griffin place. In 1891 his wife died leaving a baby boy, Claud, one month old. My mother took the baby and we kept it till it was eight

months old. As we were moving to Arkansas, we returned Claud to his father. I was eleven and very attached to the baby. I almost cried my eyes out after we had to give him up. Even after we got to Arkansas, I would take spells of crying about Claud. I even wrote him a long letter telling him what kind of a boy I wanted him to be. The letter was never sent off.

I felt that I must attend the funeral. I called Mrs. Fogle. The funeral was to be Tuesday morning at ten o'clock at Hardin and Orr's Funeral Home and they wanted me to come. I hurried through with my morning work. I went on the bus and took the picture with me. Mrs. Fogle introduced me to her daughters and her son. Also a cousin, Bradford Tuttle. He was the son of the late Rufus Tuttle and was named Bradford for his grandfather. I showed them the picture, and they all thought it was wonderful.

STATE CAPITAL  
*Highlights*  
AND  
*Sidelights*  
by Vern Sanford  
TEXAS PRESS ASSOCIATION

Austin, Texas—Texas Democrats have marked June 14 on their calendars. Austinites have circled it in red.

June 14 is the day some 5,000 Texas Democrats will converge on the Capital City for their state convention.

It's expected to be many big days rolled into one.

It will be the first time in recent memory that the huge colorful gathering has come to Austin. A large new city auditorium and convention center makes it possible.

It's the day that comes only once every four years when Texans name delegates to a national presidential nominating convention.

But most excitement centers on the fact that Texas Democrats will be assuming what is usually a once-in-a-lifetime role—that of sponsoring a major contender for the presidential nomination.

Work is under way in every part of the state to insure that the delegates to Austin will give rousing support to Sen. Lyndon B. Johnson for favorite son nominee and chairman of the Texas delegation to Los Angeles.

Senator Johnson's chances of becoming president were re-emphasized by Gov. Price Daniel and cheered by the State Democratic Executive Committee when the party leaders met to plan the June convention.

Committee members selected Dallas for the second state Democratic convention on September 20. Their meeting also was made an occasion for honoring Mrs. Hilda Weinert of Seguin for a quarter of a century of loyal service to the Texas Democratic party.

**Court Rejects Vote Hassle**

Texas Supreme Court refused to consider a direct appeal from the City of Austin that it order a complete recount of votes in a hotly contested urban renewal election.

Issue has had Austinites in a stew for months. It was originally announced after the election in December that urban renewal had carried by a 552-vote margin. Eight property owners contested the election results on grounds that ballots were cast by persons not qualified to vote.

After 9 of 18 contested boxes had been opened, District Judge James K. Everts of Belton declared the election void. He said there were so many disqualified voters and improperly marked ballots that it was impossible to determine the election outcome.

Austin's city attorney petitioned the Supreme Court for a writ of mandamus to compel Judge Everts to open and examine all the ballot boxes. He contended the qualified voters had a right to have their votes counted.

Having lost out on a direct plea to the Supreme Court, City Attorney Doren Eskew said he would go through the usual appeal route, going first to the Third Court of Civil Appeals.

**College Home Delayed**

Governor Daniel's office and the Legislative Budget Board are to make a "full review" before plans proceed to build an \$87,000 home for the president of Sam Houston State Teachers College.

A number of legislators hit the ceiling last session over similarly costly homes built for presidents of Southwest Texas State College and Stephen F. Austin College. Restrictions were written into the current appropriations bill aimed at preventing further expenditures on such a scale.

Rep. James M. Cotten, member of the House committee on saving taxes, wrote the governor to protest what he called a "tremendous waste."

Governor Daniel said he had been assured by the chairman of the Board of Regents for State Teachers' Colleges that no action would be taken until everyone interested had had his say. He pointed out, however, that the home was to be built from constitutionally allocated funds to which the legislative ap-

proprations restrictions "have been held not to apply."

More Judges Suggested—Large metropolitan areas such as Houston, Dallas and San Antonio may soon need larger Courts of Civil Appeals. This observation was made by Associate Justice James R. Norvell of the Texas Supreme Court and others in a study made for the Texas Civil Judicial Council.

Judge Norvell suggested that five judges, rather than three, may be needed soon for the courts in the city areas.

Supreme Court, the study also noted, may also soon need some further restrictions on cases it will handle to prevent too heavy dockets. Civil Appeals Courts were created to keep everything from going to the Supreme Court, but the high court is flooded with appeals from these courts.

Judge Norvell suggested limiting the Supreme Court to constitutional issues and cases where there is conflict in judicial decisions.

### DIRECT TRADE—

From all the evidence before us, we are daily more and more convinced that a direct trade with Europe is gradually springing up in nearly all our principal Southern ports — this change in the commerce of the South is, we believe, strictly in accordance with the loss of trade, though it is no doubt taking place much more rapidly than it otherwise would, under the influence of the present great sectional contest between the North and South. What we could not be induced to do by the teaching of sober reason, we now do under the influence of the wrong inflicted upon us, and the natural feelings of resentment and a just appreciation of our best interests are impelling us to block off our commercial dependence on the North. A law has just passed making 7% the legal interest in Minnesota and forbidding any interest on special contracts above 12%.

### FROM WASHINGTON

Three paragraphs have been going the rounds of the press in regard to a contemplated editorial excursion to Washington during the present session of Congress. The arrangements for the excursion are on the most elaborate and liberal scale, and will no doubt be largely participated in. The design is to invite every editor in the West and South to join the excursion, each person having the privilege of taking with him a lady. They will view some 200 miles of the road, including its mountain divisions and boldest scenery. It

is designed to give the traveler an opportunity of passing over the Western positions of the Baltimore and Ohio railroad by day light in order that they may more fully realize the grandeur of the scenery through which it passes as well as the success with which extraordinary natural obstacles have been overcome in the construction of the roads through the Alleghenies.

### FROM HOUSTON

### FROM NEW YORK

The N. Y. Express of the 8th says: A bright-eyed honest looking negro boy about 12 years of age, came into the Express office last night begging for the means to get something to appease the pangs of hunger. He said he had been to the office of a neighboring journal, which is always shedding crocodile tears for the poor African, but

that he was only shown with "a kick." If that negro boy only been as smart as honest he would have given "gitive slave" or got some certify that he was from somewhere South he ought to know that "ity" here has nothing free negroes.

## Farm Families With FHA Loans Have Meetings To Plan For 1960

### Chappell Hill

By PEARL CRAWFORD

Approximately 40 farm families representing a good proportion of those using Farmers Administration credit in Brown and Mills Counties, have completed a series of individual meetings with Marlis C. Barker, agency's county supervisor, to take a careful look at their operations and to make plans.

Mr. Barker said this year-end analysis is a service given by the agency which makes loans to eligible farmers to operate, improve, or enlarge family-type farms. As a result of this study of their farm operations, Mr. Barker said, some of the better practices that farmers here are working into their 1960 plans include (1) testing soils and applying recommended fertilizer, (2) early season control of cotton insects, (3) culling herds and flocks, (4) creep-feeding calves, (5) planing two litters of pigs per year, (6) practice artificial insemination from proven sires in dairy herds to increase milk production from heifers, (7) provide at least one acre of sudan or its equivalent for summer grazing and one acre of small grain for winter grazing for each cow, (8) keep high quality sires with cattle, sheep, and goats, and (9) a more balanced live-at-home program which includes better gardens, canning, curing and storing meats.

Farm families in Brown and Mills Counties now using FHA credit include 33 with operating loans, 22 with farm ownership loans, 8 with loans to build or repair houses or other farm buildings, 13 with emergency type loans and one with a soil and water conservation loan.

Loans totaling \$71,840 have been made to farmers in this area in an 8-month period since June 30, 1959. Of this amount, approximately \$63,640 have been for acquiring equipment, livestock, seed, feed, fertilizer and paying other operating costs, and paying for labor and materials in connection with housing and other improvements. This money, and the extra money from increased incomes, circulate through local trade channels.

Good farm planning and record keeping are carried on throughout the year and play an important part in operations financed with FHA credit. As proof that good practices pay off, Mr. Barker pointed out that during fiscal 1959, 28 borrowers repaid their loans in full and are now obtaining their necessary credit from local banks or other lenders.

Mr. and Mrs. Ernest Wilson of Houston attended funeral services for her brother, Leonard Miller, at Odessa last week and on their return they spent a few days at their home in Goldthwaite and visited his sister, Mrs. Annie Armstrong and other relatives.

We have enjoyed some very warm, pretty weather and some farmers have been planting corn and plowing.

Mr. and Mrs. A. L. Crawford were recent business visitors at Comanche.

Mr. and Mrs. J. C. Bramblett and Mrs. O. A. Evans went to Comanche Friday.

Mrs. J. S. Ivy visited Mrs. Walter Williams Friday afternoon at Goldthwaite.

Mrs. Ethel Kemp of Comanche spent the weekend with Mr. and Mrs. V. T. Stevens.

A large crowd attended the weekend revival at Trigger Mountain over the weekend.

We extend our sympathy to the Glenn Miller and Johnny Vaughan families in the death of their loved ones. May the Lord bless them during their hour of sorrow.

Mrs. G. L. Mason is visiting Mr. and Mrs. Curtis Koen at Eastland.

Guests of Mr. and Mrs. A. R. Whitley included Mr. and Mrs. Ted Goosell, Mrs. Elvin J. Scrafer and children of Brownwood and Miss Genie and Tonie Taylor.

Miss Bessie Hutchings and Aunt Kate were dinner guests of Mr. and Mrs. Hugh Nowell and Granddad, Wednesday.

Alfred Brown did some trapping in our neighborhood and caught a wolf and a red fox.

Mr. and Mrs. W. B. Womack and Pearl Crawford visited Mr. and Mrs. W. A. Elms Thursday and Mr. and Mrs. Roberson visited the Elms Sunday.

Alvin G. Tiemann spent last weekend with his parents, Mr. and Mrs. F. H. Tiemann.

Mr. and Mrs. W. W. Ratliff were recent guests of his mother at San Saba.

We were sorry that Mark Daniel was on the sick list and wish for him a speedy recovery.

## Sold My Business!!

I have sold my store to Mr. and Mrs. J. E. Phillips, who recently moved to Mullin from Oklahoma. They are fine people, and I sincerely hope you will give them the patronage you have offered me during the many years I have been in business.

It is with a thankful heart that I express my true appreciation for your continued support, and the many favors you have shown me.

You have been more than customers, you have been my true friends, and we have become close knit, sharing our joys as well as our sorrows. In aspiring to friendships, I have cultivated a capacity for faithful affection, and this has been spread among the people of the entire Mullin territory.

I shall never forget your many kindnesses, both personally and in public life. I will miss seeing you in the store after these many pleasant years, but will continue to wish you much happiness, and that many good things will come your way in the years to come.

Sincerely yours,

Mrs. Jewell Ivy

**WEEDS DECORATIONS**  
When it comes, opportunity, when it comes, appear in strange guises. Ray Felker, manager of the Comanche City Chamber of Commerce, was quick to grab hold recently when opportunity unexpectedly on Colorado.

With pass on Mr. Felker's report on this development, along with our pledge to do everything in our power to make it a success. His report several weeks ago I received from the Cincinnati, Chamber of Commerce to a shipment of Texas tumbleweed to a member of their organization who is in the florist business. We went through on the request have since received correspondence and several telephone calls from the company executives that they had developed a most unusual decoration from the weeds.

They plan to fly to Colorado in the near future to look into the possibility of using the weeds to advantage in field of decorations. The

company has nationwide distribution and this of course could develop into something worthwhile for this area where the tumble weeds are a menace to the farmers.

"I thought perhaps you might be interested in this unique project and that you also would like to make contact with the company executives."

Mr. Felker has already been assured of our interest, and the proper contacts have been made.

When your Commissioner of Agriculture was a boy growing up in West Texas we used to call tumble weeds lots of things, but we never even remotely thought of them as potential material for decorations. It just goes to show again what imagination and initiative can visualize in things that we often overlook in our own backyards.

By MRS. DUTCH SMITH (Delayed)

Well, we have been having winter all over again. They say Spring is just around the corner. I will be so glad when we turn that corner.

We have had rain, snow and sleet; now if we could have some sunshine I guess everyone would be happy.

Our children, the Forest Jernigans, visited us one night last week.

Jimmy came home with us Friday night and stayed until Sunday and then Jesse Loyd and Jimmy came home with us from church Sunday.

Mr. and Mrs. Bill Hightower are entertaining their grandson, Chuck Shaw, this week.

Mr. and Mrs. Ernest Sweet spent the weekend with Mr. and Mrs. Bill Hightower. They had just returned from California where they visited Mr. and Mrs. Cecil Haney.

**HEALING WOUNDS OF AGADIR 'QUAKE**—A young boy's broken leg is held in traction at a first aid tent less than 10 miles from the destroyed city of Agadir, Morocco. The tent, maintained by the Italian army, is caring for survivors of the earthquake that claimed more than 10,000 lives. The ruins of the city are still being searched for the bodies of victims of the disaster.

Mr. and Mrs. Monty Stone of Coleman spent the weekend with their daughter and family, Mr. and Mrs. Loyd King, Rocky and Mitzi.

Mr. and Mrs. Dutch Smith, Mrs. Fred Laughlin, Mrs. Lula Morrissey and Mr. and Mrs. Terrell Casbeer attended singing at Ridge Thursday night after church.

Mrs. Billie Helen Jernigan visited me Thursday morning.

Everyone was shocked Saturday when they heard of the accidental death of Lewis Miller, son of Mr. and Mrs. Glenn Miller. May God bless you, Glenn and Ann, in your sorrow. For I know just how heartbroken you are in your loss. I do sympathize with you from the bottom of my heart. May God sustain you in your grief.

We have been attending our revival and what a joy it is to hear our men of our church give testimonies and preach as

good sermons as you will be able to hear in anyone's church. We are proud of our laymen and we have a right to be.

We attended funeral services for Lewis Miller Monday afternoon.

Our Farm Bureau membership drive began with a kickoff supper Monday night. You farmers and ranchers should belong to it for it is to our advantage. Think it over.

**WAYNE PARKER ENTERS U. S. ARMY**

Wayne Parker, son of Mr. and Mrs. Alfred Parker, Rt. 3, Goldthwaite, temporarily of Ardmore, Oklahoma, has entered the U. S. Army as a volunteer. He will receive his basic training at Ft. Riley, Kansas.

**Questions And Answers About Social Security**

**Question:** I worked under social security from 1936 to 1947. I will be age 65 in May of this year. Will I be eligible for benefits? If so, how will they be figured?

**Answer:** Apparently you have 10 years of social security credits, which makes you eligible for benefits. Your wages will be averaged over 23 years, or January 1, 1937, through December 31, 1959, dropping 5 years in which you had no earnings. The benefit is then based on your average monthly earnings for the remaining 18 years.

**Question:** I have been receiving a monthly benefit of \$33 from my social security account, plus \$7 from my husband's account. We were recently divorced. Will I continue to receive a \$40 check?

**Answer:** No. You will continue to receive the \$33 benefit from your own account, but the \$7 benefit from your husband's account will be terminated with the month before the month of the divorce.

**Duren News**

We are so glad to have Mrs. Lula Hobbs back home. She has been living in Brownwood with her son, Glen and family, for

the past several months. She plans to move home this week. Mr. and Mrs. George Reeves of Comanche visited her sister, Mr. and Mrs. Raymond Burdette, and attended church here Sunday.

Mr. and Mrs. E. J. Cox and children visited Mr. and Mrs. A. Downey Friday night.

Mr. and Mrs. Duaine Horton and Karla spent the weekend with her parents, Mr. and Mrs. W. L. Daniel.
