It is very fortunate in receiving such a classification. "Now that Goldthwaite has a class 'A' station, the weather information will be made available to industrial weather questions." "You would be surprised," he continued, "how many calls we have from industries wanting weather facts from certain localities."

New equipment will be installed in about two weeks at Allen's Tin Salon.

Hunn concluded by saying that many cities even went as far as Congress to ask to be designated as a class "A" station.

THE SUPREME ISSUE—Herbert Hoover spoke to the Republican National Convention on its opening. And what he had to say had nothing to do with political partisanship. It was directed to everyone, of any political allegiance, who believes in the ideals and principles that created and sustained this nation.

The former President recognizes the great problems of the time—foreign, domestic, economic, and social. But to his mind one issue is supreme—the moral issue.

This country is now, in his words, "in the midst of a frightening moral slump." We see it in the soaring crime rates, and in corruption in certain areas of government, business and labor. Then, on top of that, he said, ". . . Communist conspiracies and their 'fronts' have poured their Marxist poisons into our people. We have also been brainwashed with another Communist basic tenet. They insist that love of country, pride of a people in their history, their ideals, and their accomplishments is wicked nationalism."

What, then is the national need? It is a "rebirth of a great spiritual force which has been impaired by cynicism and weakened by foreign infections." We need, in other words, to once more remember what so many of us seem to have forgotten — the meaning of the word America. To quote Mr. Hoover once again, "For centuries the word America among the great masses of people over the world has been an emblem of hope, of more security in life — and more freedom."

★ ★ ★

DON'T JUST BE A VOTER—Editor & Publisher says: "Now is the time for all newspapers to make plans for a get-out-the-vote drive prior to election day in November. The record of the American people at the polls in recent years has been atrocious. Millions of adults have not exercised their voting privilege in national elections (the record is worse in local and state elections) and have let their precious heritage go by default. Voting is not only a right but a responsibility of a free people and all Americans should be told that again and again.

"Another point can be profitably added to this. Ignorant voting is as bad as failure to vote. A responsible electorate will carefully analyze the candidates and their stand on issues, in order to support those whom it believes will best serve the true interests and needs of this nation. In other words, don't just be a voter — be an informed voter."

THE WRITING ON THE WALL—An Oregon newspaper recently carried two particularly significant stories on the same day. One discussed the campaign to unionize California's hundreds of thousands of agricultural workers, with resulting strikes, picketing of farms and possible loss of hundreds of thousands of dollars worth of crops.

The other announced the use by Oregon cherry growers of a "cherry shaker" as an answer to labor problems and higher costs. Similar mechanical equipment can also be used to harvest plums and prunes according to the head of agricultural engineering at Oregon State College. Michigan research workers estimate mechanical equipment may enable seven men to do the work of 33 hand packers of cherries. As the purchasing power of the dollar drops and wages go up with no corresponding increase in production, costs are bound to hold down runaway prices.

The passage of federal minimum wage and hour laws and more and more "cradle to the grave" federal handouts simply aggravate the situation, put another turn in the inflation spiral, make it harder and harder for unskilled labor to get jobs, and drive up living costs.

SUPERMART GOVERNMENT—About the best remark made at a recent conference of state governors came from a federal official — Budget Bureau Director Maurice H. Stans. He said: "Government at all levels must cease trying to be supermarts for every imaginable public service, and instead concentrate on essentials."

A government, like a family, can only afford so much. And if a government continues a spending orgy long enough it, like a family, can go broke.

Questions And Answers About Social Security

Question: If my earnings exceed \$1200 in a year, is there a way to determine how many months benefits I may receive in a year?

Answer: If you are an employee with earnings exceeding \$1200 in a year, your excess earnings are determined in multiples of \$80—for every \$80 or fractional part of \$80 over \$1200, you will lose one month's benefit. However, no deduction can be imposed for any month in which you did not earn over \$100, regardless of your total earnings for the year.

Question: Is there an age limit involved in the "earnings test"?

Answer: A beneficiary over age 72 does not come under the "earnings test." However, in figuring the number of checks payable to you for the months before your 72nd birthday, you must count all your wages and net earnings from self-employment income during the entire

by the first of the year.

The Cherokee Chief notes the arrival of Owen Yarborough at the College there. Prof. Behrns has built up a fine school at Cherokee and Owen has selected a fine place to secure an education and moving here

year in which your 72nd day falls.

Question: My husband has been receiving a social security retirement fit of \$88.50. He died August 1 and I do not have the money to pay his hospital and funeral expenses. Since he lived in the month of August, can I cash the combined check I receive about September must it be returned?

Answer: If you receive a combined check, repayment for August, it must be returned. A benefit for the month of August, regardless of the number of days the beneficiary lived during the month, will be paid. However, you will receive only the benefit of \$44.25 for the month of August and the balance of \$44.25 will be added to your next payment. You will receive a sum death payment of \$25 to apply on the burial expenses.

Question: I began receiving disability benefits from social security account in this year, based on my income for the five previous years. I am no longer farming and will receive \$800 a month bank payment this year. This interferes with my benefits?

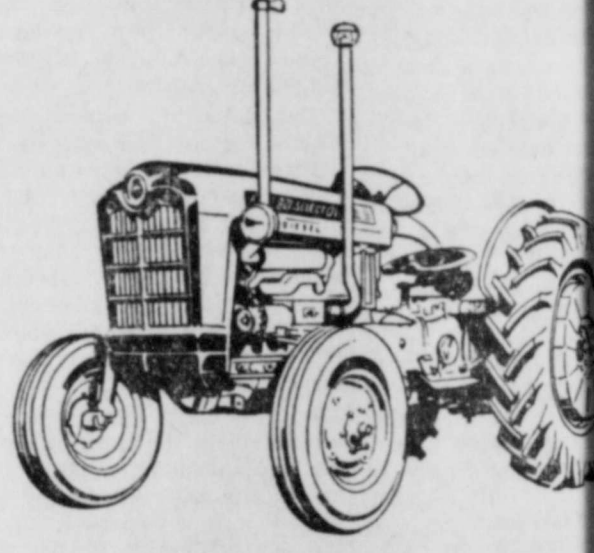

Answer: Since you are no longer doing the work done by an individual who operates a farm, the \$800 a month payment will not interfere with your benefits.

will work better and feel better. A good breakfast can prevent that empty, shaky feeling that often hits at mid-morning when you "skip" or "skimp" on breakfast.

Pattern for a good breakfast goes something like this: fruit, cereal, eggs, toast and beverage. It should contain about one-third of the total daily food needs.

Variety adds spice to any meal, so plan to vary the basic pattern by using different kinds of fruits and juices, different cereals and breads and by preparing eggs in different ways.

An attractive table and a friendly, relaxed atmosphere will spark appetites and start the day right. Avoid a rush in the morning by getting the fruit or juice ready as far as possible at night when you finish in the kitchen. Get the coffee and beverage ready to go.

A centerpiece of fruit, flowers or a plant and colorful mats and dishes will brighten breakfast time for all family members.

The First Baptist Church of Texas City was the setting for the wedding of Miss Faye Lynn Sellers and Johnny Dean Stewart Saturday evening, August 27.

The bride is the daughter of Mr. and Mrs. Cecil L. Sellers of Texas City. The bridegroom is the son of Mrs. Myrtle Stewart of Grand Prairie, formerly of Goldthwaite, and grandson of Mr. and Mrs. E. A. Obenhouse, of Brownwood, who until recently resided in Goldthwaite.

The couple exchanged double ring vows before an altar decorated with a massive basket arrangement of white gladioli, stock and greenery, and lighted by two seven-branch candelabra supporting tall tapers. Arrangements of polished hibiscus leaves outlined the chancel rail. Officiant was the Rev. Finis A. Williams.

Jules Zimmer, organist, presented traditional wedding music and accompanied Mrs. Cecil Douglas of Commerce, soloist, as she sang "One Hand, One Heart" and "The Lord's Prayer."

Given in marriage by her father, the bride wore a Pandora design of Chantilly lace over taffeta, featuring a sculptured all-lace bodice. The rounded neckline detailed with scalloped hand-dipped lace, accented the elongated lace sleeves which tapered to a point at the hand. White pleated crepe formed a semi-cumberbund that

tapered to a point below the waist in the center back. The bouffant skirt, styled with a lavish overlay of matching lace, swept into a short train. A crown studded with bridal pearls held her veil of illusion.

She carried a cascade bouquet of yellow roses and white gladioli sprinkled with greenery. White ribbon puffs swirled about the arrangement and fell into long streamers. Her only jewelry was a tear drop pearl studded with diamonds, a gift of the bridegroom.

Miss Donna Harmon of Hughes Springs was maid of honor. Miss Judith Houghton of Dallas, Mrs. Allan Taylor and Miss Jean Brooks of Texas City were bridesmaids. Their maize gowns were designed with a molded bodice of lace over taffeta, featured rounded necklines and slim elbow length gloves. The full organza skirts over taffeta were defined with self belts with small center front bows. Their circular chin length veils of tulle were attached to small hats of corresponding material. White accessories and tear drop pearl necklaces, gift from the bride, completed their costumes. They carried crescent shaped bouquets of yellow gladioli.

Sam McLain of Cooper was best man. Groomsmen were Bill Hackett of Little Rock, Arkansas, Cecil Douglas of Commerce and Wayne Maxwell of Archer City. Scott Lewis of Mt. Vernon and Travis Summerlin of Commerce ushered.

For her daughter's wedding, Mrs. Sellers chose beige lace over pale blue taffeta with a blue hat and bone accessories. Her corsage was a blue throatied brown orchid. Mrs. Stewart, mother of the bridegroom, wore a mauve lace dress with matching accessories and a mauve-throated orchid.

A reception was held in the

What To Do In The Garden

This is a follow up on the garden culture. Weekly spraying with a solution containing Lindane and Chlorobenzilate will keep the foliage and ward off attacks of insects. When the weather shows in the blooms spraying should be done the morning, so that the dew will dry. Blooms wet in the evening have a tendency to hold water and rot.

Mrs. L. E. Dudley Guest Speaker At Art & Civic Club Meeting Thursday

The Art and Civic Club met last Thursday afternoon at the Jennie Trent Dew Library for its initial program of the new club year. Mrs. Mohler Simpson registered the guests upon arrival. Delicious refreshments were served by the Entertaining Committee, namely: Mmes. Tommy E. Winters, chairman; Johnny Vaughan, Julian Whitely, and D. Albert Trent.

Mrs. Horton, club president, in her welcoming address, stressed enthusiasm and cooperation for a successful club year. She introduced the guest speaker, Mrs. L. E. Dudley of Abilene who is the General Federation of Women's Clubs Chairman of the Education Department, and under this department head she is also Public Education Chairman.

Mrs. Dudley's topic for the afternoon was, "What Federation Means to Me." She discussed the six departments in the GFWC: Conservation Department, Education Department, Fine Arts Department, Home Life Department, International Affairs Department and Public Affairs Department.

The question was asked, "Why do women join clubs?" She stated that women join clubs for the contact and an overwhelming desire to get things done for their community, state and country. Wise women leave their homes to go to a club meeting to become informed, when they return home they apply these principles to their own needs.

Why do clubs prefer to federate? Because the individual voice could be lost but the federation voice is strong. The membership in the GFWC has rapidly lost members and even clubs. The success of the federation depends on the enthusiasm of the club back home, also a club is shaped by its members. If a club is forceless, lacks vitality and color, it will cease to grow.

Mrs. Dudley also said, "In a federated club we study the vital issues of our country. We should know the principals and characters of our candidates if America is to remain strong. What kind of world do you want our children to live in? Women must help build this world. God has given each a talent or talents and we should use them. Men build towns, but women make them fit to live in."

Education should be our primary concern. Good schools are the result of its parents, its teachers, and its tax-payers.

The basic facts we must face are: 1. The importance of our teachers, 2. The U. S. is engaged in warfare for freedom with communism, and 3. We need to catch up with Russian Education. Russia has one of the finest foreign language programs in the world. Just this year a number of U. S. colleges are making it compulsory for every student to study a foreign language. A Russian diplomat said recently in Geneva, "We intend to lick the U. S. not on

According to God's Word appears that the time will find in Amos 8:12 the following: "And they shall wander from sea to sea, and from the east to the east, they shall seek the Lord, and shall not find the Lord, and shall not find the Lord, and shall not find the Lord."

A Moment With The Bible

Jesus ended the sermon on the Mount with a story. He told of two builders. One built on the rock, and the other on the sand. When storms came and the blow, the house on the sand stood, the house on the rock fell. "Whoever hears these sayings of mine and doeth them, I will liken him unto a wise man, which built his house upon a rock (Matthew 7:24). The man on the sand is one who HEARS and God's word; the man on the sand is one who HEARS God's word, but FAILS to do it!

the last few years. "A letter remains the most economical, longest lasting, and most means of extending great communicating social news, exchanging ideas," the master said.

During Letter Writing Postmaster Fairman said that individuals write two letters: one to a relative from whom you not heard in a long time, the other to a friend or who recently wrote to you, also suggested and urged response to people in foreign countries as a means of gaining greater understanding among the people of different nations.

The slogan of this event, as indicated on more than 200,000 banners, letters are Links to Friends. The display materials will appear on post office boxes and rural carriers' vehicles as well as in various school libraries.

Board has not been able to sell the last \$62,500,000 of these bonds because, in today's market, 3 per cent interest does not make them an attractive investment.

Financial experts think that raising the permitted interest rate to 3 1/2 per cent should be sufficient to make the bonds salable again.

AMENDMENT THREE: Would change the pay scale of members of the Legislature to give them annual salaries of \$4,800 plus \$12 a day for each day in session. It would limit regular sessions to 140 days (present limit is 120 days). Lawmakers would receive \$12 a day for each day of a 140-day regular session plus \$12 a day for each day of a 30-day special called session.

At present, legislators receive no annual salary. They get \$25 a day for each day, up to 120 days, of the regular session plus \$25 a day for each day of a 30-day called session. They receive no pay in years the Legislature does not convene (such as 1960). Under this proposal, they would receive \$4,800 a year base pay whether they spent any time in session or not.

Present provisions for travel expenses would not be changed. These provide for the lawmaker to receive \$2.50 for each 25 miles of the round trip between his home and Austin once each session.

This amendment is essentially a compromise between the present arrangement and the constitutional change proposed in 1958. Last time the proposal was for annual salaries of \$7,500 and no per diem. It also provided for the annual sessions which, many think, contributed to its defeat.

Proponents of the current plan say that it will make it possible for better qualified people to serve in the Legislature without having to make so much of a personal financial sacrifice to do so.

Opponents argue that it will

create "professional legislators." They contend that it is better for the lawmaker to have another job in private life to keep him closer to the problems of the people.

If the amendment is passed, a Texas legislator would receive for his two-year term of office minimum pay of \$9,600. In other states, the pay for a two-year term ranges from \$200 in New Hampshire to \$15,000 in New York. Average is about \$3,600.

AMENDMENT FOUR: Would give the Legislature authority to classify loans and lenders, to license and regulate lenders, to define what part of the charge made on loans should be considered interest and to fix the maximum rate of interest which should be charged.

This is generally known as the "anti-loan shark" amendment and is being supported by a blue ribbon committee of citizens from over the state.

At present the Constitution provides that the maximum rate of interest shall be 10 per cent. This is widely, almost universally, violated by the small loan industry, usually through additional charges besides the interest—"handling charges, service charges," etc.

Attorney General's department investigations have turned up cases of flagrant abuses by loan companies, making charges that totaled altogether as much as 300% of the amount loaned. On the other hand, the investigators themselves admit that a loan company making short-term, high-risk personal loans cannot stay in the black on 10 per cent.

If this amendment is passed, it will be up to the Legislature to decide what is a fair charge. Even those legislators who voted for this proposal admit they dread the prospect of having to decide what rates are fair.

Highway Slowdown Due—Public highway work in Texas will be cut back about one-half for the months of November and December, the State Highway Department announces.

This is a seasonal drop, according to State Highway Engineer DeWitt C. Greer. Spring and summer are the "rush season" for highway work because the weather is good. They are also the months when revenue from gasoline taxes runs high.

Sale of license plates next spring will bring the annual bounce-back in money to the Highway Department, and a rise in highway contract lettings is

In northeast Texas, near Tyler in Smith County, you can see the site of an old Confederate Prison, Camp Ford, where 2,000 to 6,000 Federal prisoners were held from 1862 to 1865.

Major General Richard Taylor and his Confederate troops attacked the invading Federal forces of General Banks and imprisoned thousands at Camp Ford.

This battle ended all Federal attempts to invade Texas.

City Beneath The Sea

Under the calm waters of Medina Lake west of San Antonio is the site of the settlement of Mountain Valley. A Mormon leader, Lyman Wright, established 16 families on this site in 1854 only to be driven away four years later by the Indians.

Medina Lake makes a quiet resting place for this settlement with its violent history. The lake is also reputed to be the resting place of many of those big fish that "got away."

Clementine Wilmeth Briley Writes From Temporary Home In El Paso

Here we are back at the Border City, far, far from home. But not in our old accustomed place, but in the new brick house in Magnetic Hills. Really the foothills of the mountain. When we open our west door, there stands the mountain.

On that last Sunday at home, August 28, we went from church at Oakland to the Homecoming at Locker. Saw so many old friends. So many of those who had been my pupils. Saw again Johnny Coffee and George Johnson. They were young men out of school when I taught there. Johnny tells me he is the last of his family. All the others are gone. Saw Miss Blanche Johnson. She and I taught together in 1908-1909. She lives at Tyler. She holds her own well. Does not look old. There was my little, shy, first-year pupil, Oscar Taylor, now Master of ceremonies at the homecoming. Saw Loy Locker, son of the late Dr. B. Locker. He went his first school to me there. I remember him as a dear little pupil.

family where Sister Grace and I boarded the two years that I taught at Locker. Mr. and Mrs. Parks have given up living on the farm and have bought them a little home in San Saba. Mr. Parks' health is very much improved since last year, but he can't walk. There was Lois Parks and her husband, Sam Boynton. They live in San Saba. There was Kaly Myrl. She was too little to go to school when I taught, but we were pals. She is now librarian in the Dallas Schools, but she spends her summers with her parents. She plays the piano for the homecoming singing. There were Earl and Emma Parks. Emma (Miss Scott) was Mills County's first Home Demonstration Agent. She and Earl have two daughters. She now teaches in the Richland Springs school. There were many others. All such a joy to see.

and left. We stopped a few minutes in Brownwood to see the Burt Brileys. We ate our lunch in a beautiful roadside park just outside Cross Plains. I drove from Anson to Lamesa. We got to Lamesa before dark. Spent the night with Carol Jean and Don. Left there at 9:30 Wednesday morning. I drove from Seminole to Carlsbad. Saw beautiful farming country from Abilene and Anson and on past Lamesa. And when we reached the rough country rain had made even the mountains green to the top.

The day was hot and we were facing the sun. Our old car boiled every little bit. We had to stop at every filling station to get water for it. We reached El Paso before sun down. Found the new place all right. The house is very pretty and roomy, but the soil is shallow with plenty of rocks underneath. Bill has planted the yard with grass seed. And since we have come John spends most of each day watering the grass seed. It is coming up some.

Mills County TSTA Meets September 14

Members of the Mills County Unit of the Texas State Teachers Association and their husbands and wives met at the American Legion Hall on Tuesday, September 14, for a covered-dish supper.
Following the meal, President Thurman Head presided over the business meeting. Mr. Head, who attended a workshop in Dallas for local TSTA presidents on August 19 and 20, explained some of the pressing needs of TSTA.

A program directed by Mrs. Oran Carothers, program chairman for the year, consisted of a clever dramatic reading by Mrs. Hoyt Cockrell and a panel on Professional Growth, with Ray Standley as master of ceremonies. Panel members were Mrs. Loyd King of Star School, Mrs. Delton Barnett of Goldthwaite, James Ables and Earl Culp of Priddy School and D. C. Stanley of Mullin. The panel received their clues from musical skits presented by Johnny Milnor of Goldthwaite, Mrs. D. C. Stanley of Mullin, Mrs. Vestal and Mrs. Gilbert of Priddy, and Mmes. Clyde Cockrum, Thurman Head, and Elva Dellapp of Goldthwaite.

Personals

Mrs. Josie Mae Cox of Fort Worth and her mother of Star were guests of their sister and daughter, Mrs. Lincoln Saylor, Mr. Saylor and children, last week.

WHARTON STARLETTES—Here are three of the 60 attractive Wharton Junior College Starlettes who will appear on opening day at the Heart O' Texas Fair and Rodeo on Oct. 4 after marching in the downtown Waco parade that afternoon. No Conservation Reserve Sign-Up Here This Fall

There will be no sign-up this fall of additional land or contracts under the Soil Bank Conservation Reserve, E. L. Burkett, chairman of the Mills County Agricultural Stabilization and Conservation office said September 7, 1960, in response to inquiries from farmers regarding the status of the program.
Mr. Burkett also said that program contracts which expire in 1960 or later are no longer eligible to be extended for an additional period of years.

"Under the Soil Bank Act enacted in May of 1956," Mr. Burkett explained, "the Secretary of Agriculture was authorized to enter into Conservation Reserve contracts with producers during the five-year period 1955-60."

"The sign-up under the 1960 program was held last fall, so that farmers would know in advance of the cropping season whether their land would be accepted into the Conservation Reserve. Since the authorization to enter into new contracts has not been extended beyond 1960, there will be no sign-up this fall."

"Farmers should understand, however, that the existing contracts for 1960 and previous years will remain in effect and payments will continue to be made under them for the period of the contracts and in accordance with contract terms. The annual Department of Agriculture appropriation bills provide money with which to meet obligations already on the books," Burkett stated.

There are 108 Conservation Reserve contracts in effect this year in Mills County involving a total acreage of 8024 acres, Mr. Burkett said. Contract periods range from 3 to 10 years, and annual rental payments for 1960 amount to approximately \$72,391.

Nationally, there are more than 300,000 Conservation Reserve contracts in effect in 1960, covering a total acreage of approximately 28.6 million acres in 48 States. The average rental payment is \$11.85 per acre, and the rental payments for 1960 will amount to about \$338 million.

Census Bureau To Collect Data On Polio Shots

Information on polio shots will be collected from a number of local families in connection with the September Current Population Survey. Director James W. Stroud of the Census Bureau's regional field office at Dallas has announced today.

The information is being collected for the United States Public Health Service so that estimates of the number of persons who have had polio shots can be brought up to date. The polio shot questions, to be asked of persons under 60 years of age, are: Have you had any polio injections or shots? How many shots have you already had? When did you get the latest shot?

The polio shot questions will be in addition to the regular monthly inquiries on employment and unemployment. The Current Population Survey will be conducted here and in 329 other sample areas in the country during the week of September 19. Information will be collected locally by Mrs. Nella P. Casbeer of Lampasas.
