LEON GOES UP—James Leon, Musical Director of the 1961 State Fair Musicals at Dallas, gives famed portrait painter Dmitri Vail a hand in hanging his portrait by Vail. Leon's portrait is the latest to adorn Vail's renowned Texas State Fair "Music Hall of Fame," a featured attraction at the Music Hall.

PRACTICAL TRAINING-"Isn't this toy too complicated for a small child?" protested the mother to the sales clerk.

"I don't think so at all," replied he. "You see, it's an educational toy. It's designed to train the child for the world he's got to live in. Any way he puts it together, it's wrong.'

HORNED TOAD DIPLOMACY-It takes a lot of different kinds of diplomacy these days for a mother with a five year old son and three year old daughter. Even HORNED TOAD diplomacy is given a try-though it didn't prove too successful.

Five year old Randy, son of Mr. and Mrs. Floyd Rickel was the subject for this trial run on the special kind of diplomacy recently while the family was getting ready to move back to Texas after a few weeks stay on a job in

ready for moving Mrs. Rickel (the former Loretta Kight) talked in the home of the bride's parto Randy about doing something with his horned toad. She reasoned with him that the little toad was sure to have a mother somewhere nearby, and surely he didn't want to take it back to Texas without the mommie. If he

find it and they would be together. Everything went fine so far Randy went outside and after a while he returned saying: "I threw the sand out and here is the

would take it outside and turn it loose the mommie could

box." Pretty soon his little sister, Cindy, said to him: "Randy, come on and let's play and do some tricks."

Randy replied: "Cindy, I can't." After some coaxing from little sister he continued

with the same story that he couldn't. She took this for so long and then said: "Well, if you would get that horned toad out of your pocket you could do some tricks."

To this the young man replied: "Shhhhh! not so loud, mom will hear you.'

She said: "Well, how do you think she will keep from finding out when you have to take a bath and go to bed, with that toad in your pocket?"

He came back with: "I thought I would just lie on my back so I won't smash it."

Anyway, it was a good try for both of them.

EVEN IF YOU ARE ON THE RIGHT TRACK, YOU WILL GET RUN OVER IF YOU JUST STAND THERE . . .

IN LONDON-Two Londoners were passing the time of day talking to each other. "Tell me," quoth one, "Why is a gasoline lorry like a police car?

"That's easy," said the other. "It's a petrol wagon."

ANOTHER BIG REASON BEHIND THE BIG BOOM IN FORD SALES:

No other wagon can match Ford's features (or popularity!)

There's a whole wagonload of Ford features that only America's station wagon specialists can bring you.

First, there's more room. Ford's extended load deck is the longest and widest in its field. The tailgate opening is seven inches wider than last year, too.

There's more convenience. You can have an electrically controlled roll-down rear window in any Ford wagon . . . it's standard in all Country Squires and 9-Passenger Country Sedans. In their field, only Ford wagons

have all seats facing forward. There's more distinction. The Country Squire (shown above)

is the one and only wagon in its field with body panels that look like mahogany, wear like steel.

There are more savings, too. Ford's Ranch Wagon is America's lowest-priced,* full-size wagon. And like all Fords, every Ford wagon is built to be more servicefree: goes 30,000 miles between chassis lubrications, 4,000 miles between oil changes, brakes adjust automatically, mufflers are made to last three times as long as ordinary mufflers, and the finish never needs waxing.

STOP putting off that station wagon you've always wanted. SWAP for a '61 Ford wagon now while your Ford Dealer's celebrating record-breaking sales. SAVE with the wagon America loves most . . . made by FORD . . . America's station wagon specialists for 32 years!

ONLY-ONE LIGHTHOUSE

Many tourists each year visit the Sabine Bank Lighthouse. This guidepost for the ships at sea is still in use today. It lies 16 miles out in the Gulf of Mexico from Sabine Pass on Texas'

eastern Gulf Coast.

This old lighthouse isn't a 'one and only" but it still has distinction in the "only one" class. This because there is only one other lighthouse located in open water in the United States.
