TOTAL PERFORMANCE:

IF YOU KNEW WHAT

THIS "CAR KILLER" KNOWS...YOU'D BE DRIVING A SOLID, SILENT SUPER TORQUE FORD

This steel-edged pothole is probably the world's toughest test of a car's suspension. We drive into this car killer at 30 mph, locking our brakes as we go so the wheels can't roll through the hole as they normally would. The car slams against the far edge of the hole with such impact that it literally bounds out.

If you added up the cumulative effect of all the jars and jolts your car's suspension system experiences in years of normal driving, it wouldn't match the impact of one trip through the hole. Yet—a Ford must run this test three times to prove its strength. How can a Ford take it? Because Ford's front suspension has

extra beef in spindles, springs, suspension arms-in fact, it's about 20 pounds heavier than the front suspension of our principal competitor's car. We don't expect you to abuse your car the way we do our test

cars. But, however you drive, you'll welcome the extra strength of a total performance Ford. Ford strength is tested in a thousand ways in Ford's laboratories and proving grounds-and in open competition in the world's toughest rallies and stock car events.

Look at Ford's astounding record in open competition year in the grueling Daytona, Riverside, and Atlanta 500's, the World 600 at Charlotte, N.C., and in the demanding Pure Oil Performance Trials. Only a car with total performance—the best combination of strength, balance, precision control and roadclinging suspension—could roll up so many wins.

Before you buy any new car, test-drive the solid, silent Super Torque Ford. If you haven't driven one lately, you can't really know what a new Ford is like. Make this important discoversif it's built by Ford, it's built for performance... total performance.

CARRIER AIR CONDITIONING WITH REPAIR BILLS

A so-so air conditioning installation can be made by anyone! Chances are, you'll even save a few dollars in the beginning. Until it comes to the showdown, that is! That's when Carrier quality and our custom engineered installation really pay off! One Carrier "exclusive" virtually eliminates "nuisance" and expensive service calls. For example, during momentary surges of high or low voltage, the totally new Time-Guard Circuit stops the compressor . . . then automatically restarts it when line voltage is restored! This can eliminate many unnecessary - and costly - service charges! Your investment in Carrier Weathermaker air conditioning is guaranteed four ways: guaranteed product - guaranteed capacity guaranteed comfort - guaranteed installation and

How to strengthen the bridge of love at your house

For some couples, of course, the honey moon is never over.

But most husbands and wives aren't so lucky. The problems and pains of day-by-day living, the awesome conflicts of our swiftly changing world itself, all come smash together sometimes . . . in what seems a concerted effort to shake the very foundations of marriage. Love just seems to go right out the window. And as the divorce courts can testify, sometimes it goes forever.

What can you do to-strengthen the bridge of love In your family? Many a troubled couple has found rewarding and unexpected answers in their church. or synagogue.

Discover in yourself forgotten resources of successful, purposeful living. Worship together this week and find a deeper contentment in the life you lead.
