By LIDA BYRNE

Does our Bible make any allowances for a falsehood, or a little lie, or a "white" lie? No! Do not get mad at me. See what your Bible says in Revelation, chapter 21, verse 8. Here it is:

"But the fearful, and unbelieving, and the abominable, and murderers, and whoremongers, and sorcerers, and idolaters, and all liars, shall have their part in the lake which burneth with fire and brimstone: which is the second death."

We have time to repent of those past sins, and make things straight with God and man, and to teach little children that they have to make restitution for all sins which they commit.

Those children are more valuable than any other possession. Small children have only one way to learn the right way and for guidance, and that is to look to their elders for truth and hope. If those virtues are gone from them, what then? The penalty is a stiff one. Who is responsible?

**NOTICE**

**To All Persons Interested In  
CENTER CITY CEMETERY**

We want to take this opportunity to express our sincere thanks and appreciation to all who have contributed to the Center City Cemetery care fund since our announcement and appeal for funds a few weeks ago.

Since that time our fund for investment to provide some income for our regular cemetery upkeep has grown by several hundred dollars.

We are still short about three hundred dollars that we need to bring our minimum to the \$2,000.00 which is required to start the fund in order to provide some income to do this job.

We want to make a special appeal to those who may not have seen our earlier announcement or those who might have been missed by your committee in making some personal contacts in behalf of our cemetery, to consider the need and send us a contribution to help reach our goal.

We hope to reach the \$2,000.00 goal before Christmas so that we can invest it and have the return from this investment to provide care for the job that needs to be done during the year after next. This coming year we will still have to provide voluntary work to get the job done.

As we stated before, we appreciate your support in the past and will certainly be grateful for your contribution to this perpetual care fund.

Just send your check to any member of the committee.

## STATE CAPITAL Highlights AND Sidelights by Vern Sanford

Austin, Texas — New recommendations in the executive budget call for spending \$11,600,000 on the state's water planning, development and administration activities during the next two years.

This is \$6,700,000 more than the present level of \$4,900,000. (A 137% increase.)

Broken down by agencies the budget proposals for 1968-1969 call for:

- \$7,500,000 for the Texas Water Development Board. (\$3,500,000 more than the present budget of \$4,000,000.)

- \$2,400,000 to a separate, greatly-enlarged Water Pollution Control Board. (Presently spending \$103,223.)

- \$1,700,000 to the Water Rights Commission. (Now \$792,987.)

These boards requested \$9,400,000; \$4,100,000; and \$1,160,000 respectively.

Highlights of Gov. John Connally's recommendations include:

- Funds for increasing the staff of the Water Development Board to 245 employees (from 182). Also to expand services to implement the statewide water plan and "provide for continued state leadership in water resources planning and development."

- Establishment of the Water Pollution Control Board as a separate state agency with its own staff of 45. (It now has only four regular employees.)

- Enlargement of the Water Rights Commission staff from 48 to 63 and strengthening of its role in rights administration and determination.

- Adoption of a strong administrative water rights adjudication act.

- Financing a WPCB-River Authority cooperative water quality monitoring and surveillance program in metropolitan industrial areas (\$375,000 a year) to help formulate beneficial water quality standards and enforce water quality permit conditions.

- Continuing supervision of Texas river compacts by the Water Rights Commission.

"These recommendations represent not a cost but an investment for the present and future benefit of all Texas," stated Connally.

### Salt Water Pit Ban Urged

A House salt water pollution control committee has asked the Railroad Commission for authority to issue a statewide ban on salt water disposal pits.

Commission has approved non-pit orders for 43 counties and isn't sure a statewide ban is necessary.

House committee also recommended a law against dumping of salt water on public roads or public land and licensing of salt water haulers and disposal operators.

### Appointments

Charles R. Schulto, El Paso attorney, has been named by the governor as judge of 41st District Court of El Paso County to fill the vacancy created by the resignation of Judge David E. Mulchay.

George M. Cowden, state representative from Waco, will be

the state's First Assistant Attorney General when Attorney General-elect Crawford Martin assumes office in January, Martin has announced. A special election will be held on January 7 to choose Cowden's successor in the House.

J. Pat O'Keefe is moving from State Democratic Committee to the Texas Fine Arts Commission as executive director.

Texas Chamber of Commerce Association at its meeting here named Dolph Briscoe of Uvalde its chairman; Jake Drake of Westlaco, secretary; and Fred Pool of Longview, treasurer.

### Attorney General Speaks

County tax assessors cannot "back assess" houses for previous years when they were erroneously left off tax rolls, Atty. Gen. Waggoner Carr held in a Houston controversy.

In other opinions, Carr ruled a motor fuel tax could not finance removal of billboards or screening of junkyards under the highway beautification act.

Also, a state agency can retain its own legal "house counsel," but official state attorneys must represent it in court.

### Fair Trial — Free Press Committee Meets

A study committee made up of newsmen, lawyers and legislators agreed here that no legislation is needed to regulate crime and trial news coverage.

The fair trial-free press panel recommended self-discipline for press, radio and television to insure protection of constitutional rights of accused.

Six members of the committee endorsed a five-point statement of principles presented by Felix McKnight of the Dallas Times Herald. Statement advised voluntary restraint in publication of confessions, editorials which might influence a jury or a judge, testimony excluded from a jury, reference to past criminal records of the accused and statements of lawyers and officers concerning guilt or innocence prior to trial.

### Mixed Drink Campaign Forming

A large-scale, businesslike campaign for legalization of mixed alcoholic beverages is shaping up quietly behind the scenes.

A House-based Citizens Committee is being organized with high-level membership in all areas. It already has an executive secretary and press agent.

San Antonio's HemisFair and Houston's competition for reality-bigttime convention trade will add strength to the biennial campaign to convince the Legislature that liquor laws should be liberalized.

There is no indication the dries have relaxed their opposition.

### Models Unveiled

The University of Texas has unveiled its models of the Lyndon B. Johnson Library, together with an associated library and research building to house the Lyndon B. Johnson Institute of Public Affairs.

The complex, to cost \$10,750,000, is to be built from income from the University's endowment fund made up of income from its oil lands. Included will

be 100,000 square feet of space to house the LBJ papers during his political career. It will be turned over to the National Archives for operation.

A 19-acre hill, covering eight city blocks east of the main university campus, overlooking Memorial Stadium and the campus, will be the library center site.

### Welfare Executive Dies

John H. Winters, one of the state's senior administrators, died last week following a long illness. The former Potter County commissioner had headed the State Department of Public Welfare since 1943. He was 64.

### SHORT SNORTS

Legislative Budget Board will convene here on December 12 to look over spending proposals of its staff.

State Rep. Tom Holmes of Granbury proposes a cent-a-bottle tax on soft drinks (yield: \$25,000,000) to help finance a raise in teachers' pay.

Seasonally-adjusted index of construction shows a drop (16 per cent from year earlier) for the fourth consecutive month. Total for October was \$106,200,000, compared with \$125,000,000 one year ago.

Annual meeting of the Texas Mosquito Control Association will be held here on December 13 and 14.

Mr. and Mrs. Eugene McDermott of Dallas have been awarded the official Texas Award for Historical Preservation by the Texas State Historical Survey Committee for contributing money to renovate the old Gillespie County Courthouse at Fredericksburg.

More than 26,000 members of the Texas Federation of Women's Clubs will co-sponsor the

cultural resources inventory now being conducted by the State of Texas through its newly-appointed Fine Arts Commission headed by John Shepperd of Odessa.

## TIPS for OUTDOORSMEN

### USING SOFT BAIT

Surf, salt water, and even fresh water fishermen often find it difficult to keep soft bait, such as shrimp, liver, crab, etc., from coming off the hook.

Get rid of this worry by tying such bait to the hook with thread.

Carry a spool of strong thread in your pocket, then, if rushing

water tends to wash away your offering, you have the remedy at hand.

### Walking Safely

Many hips, legs, and other assorted bones have been broken by slipping on muddy, wet, slimy rocks.

Keep away from the orthopedics by using a little fore-

thought. If you don't have any non-slip boots or shoes, make the footwear you are wearing non-slip by tacking three bottle caps (corrugated sides down) to the sole of each shoe, in the shape of a triangle.

### CLEANING SURFACES

Sometimes flat surfaces on which to clean fish are hard to come by. Cutting boards do fine, but in lieu of such convenience, go out and find a downed log, or stump.

Then a little work with a

hand axe will prepare an excellent fish cleaning surface.

Just cut two notches about two inches deep and 18 inches apart, in the side of the log, or the top of the stump. Chop out the wood between the notches, the same depth, then level off, and you have a table that's renewable.

Then when the day's job is done, whittle away the stained, bloody surface, and you'll have a new surface for next day's cleaning.

## U. S. Bond Sales In Mills County Set Good Mark

W. P. Duren, Chairman of the Mills County Savings Bonds Committee, has announced that bond sales in Mills County totaled \$888,000 during the month of October. Sales for the first ten months totaled \$144,053, which is 288 per cent of the 1966 sales goal.

During the month of October, Texans purchased \$13,520,322 in Series E and H Savings Bonds. This is an increase of 13 per cent over the same period of 1965. Total sales to date amounted to \$128,194,374 which is 87 per cent of the state's goal of \$147.5 million.

"A \$25 Bond purchased for \$18.75, for example, is a gift that keeps on giving. Attractive gift envelopes are available at all banks. Savings Bonds aid in control of inflation and support our men in Vietnam," Chairman Duren stated.

sioners' Courtroom last Tuesday morning, with Mrs. Norva Kuykendall, presiding in the absence of County Judge Cecil Egger, chairman. Mrs. Hazel Bradford, librarian's report was read.

The report stated that eleven memorial books had been given in November by the following: the Jerry Walkers, Nurses at Childress & Cruzcosa Clinic & Hospital, Delton Barnetts, Howard B. Campbells, J. D. Harpers, Ernest Thornes, Jim Thornes, Pete Oldhams, Dan McConals, V. C. Bradfords, the Goldth-

waite Eastern Star, and Goldthwaite Rebekah Lodge.

Mr. Jeff Reese also gave a book and Mrs. Green Mankin gave a cash donation for the purchase of books. Also the Self Culture Club had given the Library \$22.00 as a Friend of the Library donation and the Tuesday Study Club gave \$16.00. Both clubs make donations annually which helps to add books to the book collection.

Miss Karle, Field Service Representative from the State Library, visited the Library the first of the week. She brought a copy of "Books In Print," that will be of much help in buying and cataloguing books. She was very complimentary of the Reading Program for this past summer, and offered her assist-

ance in any way.

Mrs. Howard B. Campbell brought two sections of her reading pupils to the Library on two different afternoons, in November. After looking over the Library they each checked out some books.

During November 754 books were checked out, 449 adult and 305 for children.

The following new books were added to the library in November:  
"Lets Go To A Firehouse," Buchelmer; "Across Five Aprils," Hunt; "Hero Of Trafalger Square," Whipple; "Flying Aces Of World War I," Gurney; "Tomas Takes Charge," Talbot; "Dig Here," Penfield; "The Great Adventure," Giles; "Everything But Money," Levinson; "My Land Has A Voice," Stuart;

"The Birds Fall Down," West; "In The Company of Eagles," Gann; "The Ninety And Nine," Brinkley; "Too Far To Walk," Hersey; "Claudie's Kinfolks," Anderson; "Father to the Man," Plageman; "The Case of the Beautiful Beggar," Gardner; and "The Case of the Phantom Fortune," Gardner.

## ASCS Releases Details On Proposed Cotton Research, Promotion Plans

Producers of upland cotton were mailed two ballots to be marked and mailed to the ASCS County Office during the period December 5 through the 9th.

One ballot is on marketing quotas for the 1967 upland cotton crop, and the other is to determine whether a research and promotion order should be issued for upland cotton. The two ballots are entirely separate, although the mail referendums are being held at the same time.

county offices will make calculation on the basis of their records of 1966 planted acreage and projected lint yield per acre for each farm.

• A farmer with additional production in a county or State other than the county in which he is eligible to vote must establish that interest with his ASCS county office prior to the closing of the referendum on December 9, 1966, in order that the production be considered.

C&MS officials explain that the proposed cotton research and promotion program, authorized by new legislation, would be administered by a Cotton Board composed of members nominated by cotton producing organizations and selected by the Secretary of Agriculture.

The program would be financed through assessments of \$1 per bale from upland cotton producers, to be collected by cotton handlers designated by the Cotton Board. Collections from any producer who did not wish to contribute would be refunded upon written application. Assessment would start at the beginning of the ginning season for the 1967 crop.

One ballot is on marketing quotas for the 1967 upland cotton crop, and the other is to determine whether a research and promotion order should be issued for upland cotton. The two ballots are entirely separate, although the mail referendums are being held at the same time.

Officials of the U. S. Department of Agriculture's Consumer and Marketing Service (C&MS) have recently announced the following determinations regarding the vote on the proposed research and promotion program:

● Producers who shared in the 1966 upland cotton crop or its proceeds are eligible to vote in the referendum; where no cotton was planted in 1966 on an allotment farm only the owner and the operator may vote. Each producer is entitled to only one "yes" or "no" vote.

● Approval by two-thirds of the producers voting, or by a majority of producers voting if that majority accounts for two-thirds of the cotton represented in the referendum, is necessary if the order is to become effective.

● If it is necessary to calculate the volume of production by voters to determine the outcome of the referendum, ASCS

county offices will make calculation on the basis of their records of 1966 planted acreage and projected lint yield per acre for each farm.

● A farmer with additional production in a county or State other than the county in which he is eligible to vote must establish that interest with his ASCS county office prior to the closing of the referendum on December 9, 1966, in order that the production be considered.
