## 13 More Boosters Are Needed To Reach Park Maintenance Fund Goal

Another 13 boosters for Mills County Park maintenance fund are needed to reach the goal for 1967, it was announced Wednesday morning by W. P. Duren, chairman of the park committee.

Last week the committee issued what was hoped to be the last call for financial support for this year, but the response has fallen just a little short.

The goal of \$1,200.00 can be reached with a few more contributors, it was pointed out this week and the drive can be completed.

This minimum goal is needed to insure a park caretaker for the year.

The committee has been conducting the voluntary contribution drive for the past several years to provide money for the park upkeep.

When the plan was first adopted it called for enlisting 100 persons to give \$12.00, or more, to the park maintenance fund each year to take care of the project. This amounts to only \$1.00 per month for each contributor.

In the past several years a number have given more than the suggested \$12. This has been a big help to the committee in reaching the goal without personal solicitation campaign.

The committee chairman announced Wednesday that there are some who have been boosters of the fund in the past that have overlooked getting their checks turned in so far this year. This appeal serves to remind those who have overlooked it, and others interested in the park, to get their checks turned in this week.

The park fund honor roll of boosters will be brought up to date in the next few days and list of all who have supported the project for 1967 will be published in the Eagle.

Checks should be made out to the Park Fund and turned in at Mills County State Bank or to any member of the park committee. Members of the committee are: W. P. Duren, Charles Conrad, Lee Roy Stacy, Lewis T. Hudson, Harold Yarborough, Houston Duren and Ed Thornton.

## Judging Clinic & Field Day Slated Friday For Texas Angora Goat Assn.

The Texas Angora Goat Judging Clinic and Field Day will be held at Ranch Experiment Station in Sonora Friday, July 7, according to announcement by David Watters, secretary of the Texas Angora Goat Raisers' Association.

The program was designed to give those interested in angora goats information which can be used in their operation.

Morning session will be devoted to training in the judging of angora goats.

The afternoon program will include the information on the progeny test being carried on angora goats for the first time this year.

An informative program will be presented by Jim Grey and Jack Groff, sheep and goat specialists of Texas Extension Service and Experiment Station Personnel. Gaylord Hankins of Rocksprings, member of the planning committee of the Mohair Promotion Council, will also be on the program.

The official judges of Texas Angora Goat Raisers' Association will supervise the judging clinic.

## Mt. Olive Church To Host Primitive Baptists This Week

The Old Harmony Association, Primitive Baptists, will meet for their annual session with the Mt. Olive Church in Mills County this week, from Thursday night through Sunday noon.

Evening services starting Thursday will be at 8 p. m. There will be morning services starting Friday at 11 o'clock and afternoon services at 2 p. m. on Friday and Saturday.

Several hundred are expected to attend the annual meeting.

## Young Farmers Hear Dr. Shelton At Meet Tonight

Mills County Young Farmers will have their regular meeting Thursday, (tonight), July 6, at 8:30 p. m. in the Vocational Agriculture building at the high school in Goldthwaite, it was announced Monday by Edwin Bessent, publicity chairman.

Dr. Maurice Shelton, of the McGregor Experiment Station, will present the program for the evening. The program will be on "Sheep And Goat Management."

Dr. Shelton has a degree from University of Tennessee and the University of Texas. He has had considerable experience at the Extension Station at Sonora and is considered an outstanding authority on Sheep and Goats.

RHONDA COOK

BYRON HARPER

## Rhonda Cook And Byron Harper Selected For Citizenship Seminar

A capacity enrollment is expected for the fifth annual Texas Farm Bureau High School Student Citizenship Seminar to be held at Baylor University, Waco, on August 8 through 11.

Rhonda Cook of Star High School and Byron Harper of Goldthwaite High School will attend the Seminar representing Mills County.

They were chosen to attend the sessions after a number of students from the four High Schools in Mills County wrote an essay on, "Why I Would Choose To Live Under A Democratic Form Of Government."

The Seminar will be an intensive study of citizenship and the American way of life. Instructions will be in the form of lectures by outstanding educators and speakers, films and other discussions.

Mills County Farm Bureau and the Goldthwaite Lions Club are the two sponsoring groups of the two students from Mills County.

## Mrs. Rachel Trent Attends Workshop

Mrs. Rachel B. Trent of Goldthwaite was among the 6,000 home economists that attended the 58th Annual Meeting of the American Home Economics Association held in Dallas June 26-30.

Mrs. Trent participated in Workshops and Seminars on the subject matter field during the session. Theme of the convention was "Focus on Interaction," and described various types of cooperative efforts with other groups.

The heaviest general rain in the past nine months covered the entire Mills County area last Saturday, July 1.

Measurements from 2.04 up to over four inches were reported from the various sections of the county.

This brought some welcome relief to farmers and ranchers for their dry fields and pastures and also provided some stock water in many tanks.

Reports from some areas in the county stated there was not much runoff water for stock tanks while other sections reported smaller tanks filled. Others reported two and three feet of gain in their tank water.

A number of tanks have been very low while some of them over the county have been reported completely dry.

The Saturday rain was by far the best general rain for Mills County during the past nine months. The last good general rains were recorded here last year in August and September. During the last three months of 1966 less than one inch was recorded in Goldthwaite.

Goldthwaite received an official 2.04 inches of rain Saturday, Harry Allen, weatherman, reported.

Other reports from over the county are as follows:

Mullin 3.30; Big Valley 2.40; Ridge 3.30; Priddy 2.85; Star 4.00; Moline 4.00; Regency 2 to 2.50; Trigger Mt. 3.50 to 4.00; San Saba Peak 2.20; Duren Community 4.30; Chappell Hill 4.00; Caradan 2.50; and Pompey Mt. 3.70 inches.

## 6.64 Inches Is Total Rainfall For Six Months

Weatherman Harry Allen measured 6.64 inches of rainfall in Goldthwaite for the first six months of this year, January through June.

Of the total amount .07 inch of rainfall was recorded during the month of June.

The six month total rainfall recorded for this year was less than half the 13.38 inches which was measured for the months, January through June, last year.

Following is a record of precipitation by months.

January	.04
February	1.08
March	1.04
April	1.57
May	2.84
June	.07

## JUNE 27 RECORDED AS HOTTEST DAY

The last week in June was a scorcher with three days reaching the degree mark of 102. June 27 was recorded as the hottest day of June marking the thermometer at 103 degrees.

## Rep. Jim Nugent Honored By Texas Lawman Magazine

Rep. James E. Nugent, of Kerrville, was honored by the Texas Lawman in their July issue. The magazine is the official publication of the Sheriffs' Association of Texas.

In their annual "Academy Awards" section, their selection went to Nugent for being "the most cooperative house committee chairman—based on courtesy and consideration to witnesses, fairness and impartiality and parliamentary conduct."

Nugent served as Chairman of the House Criminal Jurisprudence Committee, and is in his third term as a Representative.

## Bank Deposits Still Growing In Mills County

Deposits in Mills County State Bank are still growing with a healthy increase reflected over the year ago, according to condensed statement of condition of June 30.

The condensed statement of condition for the bank appears in this issue of the paper.

Deposits on June 30, were \$4,214,711 while on June 30, 1966, they were \$7,281,807.54.

Loans and discounts on June 30 were \$4,575,898.68 while a year earlier, on June 30, 1966, they were \$4,408,720.48.

Total resources of the bank are nearing the nine million mark with the total reported \$9,813,666.

## County Residents Are Asked To Help Solve Origin Of Geographical Names

Residents of Mills County are asked this week to help solve the mystery of the origins of several geographical names on county maps.

The information is needed for a dictionary of Texas place names, including Mills and the other 253 counties, to be published soon by the East Texas State University press. Before Fred Tarpley, professor of

English at the university, submits his final manuscript, he is appealing to county residents for assistance in contributing information about several names with unexplained origins.

With the following exceptions, the reasons for the choice of approximately 200 names found on detailed maps of the county have already been determined:

Big Valley, Bismark, Blanket Creek, Blowout Creek, Bozar, Browns Creek, Brushy Creek, Buffalo Creek, Bulls Creek, Cowhouse Creek, Crabtree Creek, Cryers Branch, Democrat, Duren (Cemetery), Elliott Creek, Farmers Creek, Gholson Creek, Hampton Creek;

Also Kelly Branch, Lake Merritt, Live Oak, Lower Valley, Merrell Creek, Middle Bennett Creek, Mount Olive, Mountain Creek, Mustang Creek, North Antelope Creek, North Bennett, North Brown, North Simms Creek, Oakland, Paint Creek, Regency, Rock Springs, Rocky Creek, Rough Creek, Shaw Creek, South Browns Creek, Stewart Branch, Washboard Creek, and Willoughby Creek.

Dr. Tarpley, who started his research on Texas geographical names five years ago, has exhausted material available to him in history books, newspaper files, student research, and interviews with county leaders. He is hoping that the story behind the naming of the communities, creeks, and other geographical sites listed above can be explained before his book goes to press.

Information will be welcomed by Dr. Fred Tarpley, Department of English, East Texas State University, Commerce, Texas 75428.

## 59.3 Million Acres Scheduled For The Wheat Allotment In 1968

The 1968-crop acreage is geared to our expanding dollar export markets as well as to domestic wheat needs at prices attractive to producers. At the same time, sufficient production cushion is built in to enable us, in concert with other nations, to continue meeting our obligations to help those countries which are yet unable to provide sufficient food for their people.

"In setting the 1968 wheat acreage allotment at the level announced today," the Secretary said, "we fully recognize the

importance of adequate supply to help needy people abroad. But we are also mindful of the effects of production in excess of effective demand on farm prices and the domestic wheat economy. We are determined to maintain a good balance between production and demand, and to prevent a return to a surplus pile-up of wheat."

The 59.3-million-acre national allotment for 1968 reflects a 55-million-acre allotment plus 4.3 million acres for small-farm increases. It compares with a 1967 total allotment of 68 million acres and a 1966 total allotment of 51.6 million acres.

Price support and other features of the 1968 program will be announced soon. Marketing certificates again will assure producers full parity on wheat for food use in the United States.

## JULIAN EVANSES ENJOY VACATION IN OLD MEXICO

Mr. and Mrs. Julian Evans returned Saturday from a two weeks vacation spent in Mexico. They enjoyed visiting and sight-seeing in Monterrey, Mexico City, Acapulco and Taxco.

Earnest F. Barton of Waco spent the past weekend with his mother, Mrs. Leora Barton.

## GHS Library To Be Open For Summer Schedule

The Goldthwaite High School Library will be open for summer schedule starting next Tuesday, July 11, according to announcement by Hoyett Browning, high school principal.

Summer schedule calls for the library to be open from 1 to 3 p. m. on Tuesday, Thursday and Friday of each week.

It is open to all students of the Goldthwaite schools, Browning stated.

## \$58,543 Social Security Benefits Paid To County Residents Monthly

In Mills County, social security benefit payments totalling \$58,543 a month were being paid as of the beginning of 1967 to 982 people. Glen McNatt, in charge of the Brownwood Social Security Office, said this represents over 31% increase over the past five years in number of people, and 41% in amount of money.

Nation-wide, 23,000,000 people receive monthly checks, more than one out of every nine people. A record \$20,000,000,000 was paid out last year.

Of the 982 people, 553 were receiving old-age retirement checks. The rest were receiving disability checks or payments as wives, husbands, children, or parents of insured workers.

Almost 3,000,000 social security beneficiaries in the nation are young widowed mothers and their children, but the idea still persists, according to Mr. McNatt, that social security is just for old people.

Monthly payments to the family of a worker who dies

leaving a widow and two or more children range from \$66 to \$363 a month, depending on the worker's average earnings under social security.

Payments to the young family of a worker who dies early might total \$75,000 or more. Survivor benefits can be paid to the family of a young man who worked under social security for as little as 1½ years in the 3 years before death. A child's payments can continue after age 18 up until age 22 if he continues in school.

## REV. JACK PERRY GUEST SPEAKER FOR DOWNTOWN BIBLE CLASS

Rev. Jack Perry, pastor of the First Methodist Church in Goldthwaite, will be the guest speaker for the Men's Downtown Bible Class this Sunday morning, July 9.

The class meets in the civic room of the Mills County State Bank each Sunday morning at 9:30 o'clock.

Visitors are invited to attend.

## Lions To Meet Next Tuesday For Noon Session

Members of the Lions Club will meet for their regular session next Tuesday noon, July 11, in the community room of Mills County State Bank.

The meeting was postponed last week because of the July 4 holiday this week. Tuesday, which was their normal meeting day.

Lee Roy Stacy and Carl Kauhs will have charge of the program.

Louis Crump, of San Saba, former State Senator from this district, will be the guest speaker at the meeting.

Several important recommendations will be presented to the board by the board of directors, according to announcement by Lee Tabor, newly installed president.

The board of directors met Monday June 26, to discuss a number of items and activities for the new year. These will be presented to the membership next Tuesday noon.

**CLOTHING SALES APPEAL TO MANY**

What is there about a clothing sale that appeals to many consumers? Is it that shoppers want to test their skill to see if they really can spot a good value? Perhaps consumers really believe they can get something for nothing at a clothing sale or they may feel they are contributing to family income with the pennies saved.

Dollars spent on clothing should give a good return for the investment. It's the responsibility of consumers to see that

**Lt. Luther L. Schoen In Commissioning Of Escort USS Koelsch**

(K02225) USS Koelsch (DE-1049) (FHTNC) June 14—Navy Lieutenant (junior grade) Luther L. Schoen, son of Mr. and Mrs. Erwin Schoen of Priddy, Texas, was one of the crewmembers participating in the commissioning ceremony of the destroyer escort USS Koelsch at the Boston Naval Shipyard, Boston, Mass.

The Koelsch is one of the Navy's modern anti-submarine ships. It is more than four-hundred feet long and equipped with the most modern electronic equipment.

Although her primary mission is to seek and destroy enemy submarines, the ship can also perform a variety of other tasks necessary to ensure freedom of the seas.

The Koelsch will be homeported in Newport, Rhode Island.

family clothing needs are adequately met and that they are getting the best value for their money.

The wide variety of styles and sizes available in all types of clothing and at prices for consumers at all income levels has considerably increased the number of well-dressed people in this country.

Extensive information on fiber, fabric characteristics, and care make it easier for consumers to buy wisely and to prolong the life of garments. For this information to be most effective, consumers must continually study the clothing needs of family members in terms of activities, special interests, and total family income. They also need to study fabrics, their fiber content and finish.

The consumer who puts her clothing know-how to good use is more nearly assured of full satisfaction in what she buys for herself or members of the family.

**REFUEL AT BREAKFAST**

You need to refuel at breakfast! Even though you have been resting or sleeping all night, your body wasn't completely at rest. It was at work breathing, circulating blood, and contracting and relaxing muscles while you were asleep.

When bodies work at night, they use up calories and make use of nutrients already eaten. By morning, some of the essential nutrients are depleted. If these aren't replenished, you feel tired, grumpy, and irritable. Your job efficiency lessens and accidents are more frequent. An adequate breakfast is a must if you are to be alert and peppy for school or work.

An adequate breakfast supplies between one-fourth and one-third of the daily nutritive needs. Include some foods from each of the four food groups.

Use fresh, canned, or frozen fruit. Serve it with or on cereal. It's easier to get enough ascorbic acid daily if you serve a citrus fruit.

From the bread and cereal group, choose toast, pancakes, waffles, fruit bread, rolls, or cereal.

The protein food most frequently eaten is the traditional breakfast egg. But for variety try ham, hamburger, steaks, chops, Canadian bacon, fish, or poultry.

Milk should always be a part of a teen's breakfast. Rather than a glass of milk, serve a cheese omelet, eggs baked in milk and sprinkled with grated cheese, milk nogs, buttermilk, or perhaps cheese on hamburger.

AUSTIN, Tex. — Air pollution is the prime topic of conversation in the Capitol at the moment.

After taking a look at the air pollution law just put on the books this year, members of the new Texas Air Control Board say the Texas law permits 80 times as much air pollution as do similar laws in some of the other states.

Elbert Hooper of Austin, the Board's attorney, told the directors that an exemption from control supposed to apply only to cotton gins (limiting air emissions to a maximum of eight per cent of the process weight of any agricultural product) may exempt many industries.

He named the following as possible: lumber mills, rice mills, grain elevators paper mills, cotton oil mills, produce plants, food processing plants, citrus processing plants, cotton seed delinting plants, flour mills, soybean oil mills, corn syrup plants, slaughter houses, wool scouring plants, nut processing plants and, possibly, rendering plants.

"We might as well fold up and go home," said Board Member Henry LeBlanc of Port Arthur. "Maybe it would be easier for you to tell us what's left that we can control," he told Hooper.

Some members observed that cotton gins would have to produce 50,000 to 60,000 micrograms of particulate matter to get to eight per cent concentration—and gins at best are not likely to exceed 40,000 to 50,000 micrograms.

Rep. Don Cavness of Austin and Sen. Criss Cole of Houston, co-authors of the 1967 Clean Air Act, say that the legislative intent was to exclude only cotton gins from State control. However, it may be necessary to amend the Clean Air Act in the 1968 special session to make this fact clear to industries which might want to be exempt.

**ATTORNEY GENERAL RULES**

Any applicant for a water well driller's license in Texas must have resided in the state for 90 consecutive days prior to his application, Atty. Gen. Crawford Martin has held.

In other opinions Martin determined that: Department of Corrections may require return of a parole violator from New Jersey to serve the remainder of his sentence.

New law didn't change requirements relating to specific affidavits on certain sworn accounts regarding claims, and the state comptroller can continue to issue warrants for properly submitted claims when such claims are submitted under affidavit.

Terms of two former aeronautics commissioners expired last December 31. Terms of two more end next December 31. One is deceased, and a sixth will serve through 1970.

**\$\$ FOR MENTALLY RETARDED**

Deputy Commissioner Charles D. Barnett says the Department of Mental Health and Mental Retardation has been allocated \$18,400,000 in federal funds for the mental retardation program with another \$1,000,000 likely to be allocated.

Funds include grants-in-aid for care programs and grants

for construction of new facilities.

**THE COURT SPEAKS**

Socony Mobil Oil Co., Inc., of Midland will have to bear the burden of a \$167,789 judgment for damages to equipment owned by two New Mexico firms because the State Supreme Court has affirmed an appeals court decision. Damages resulted from an oil field fire which started while a Mobil well near Seminole, in Gaines County, was being acidized.

High court also ruled that an applicant who is denied a beer license may appeal in district court, but someone who protested granting of the license has no right to appeal.

A motorist's failure to appear in court when convictions for traffic violations are rendered against him does not protect him from Department of Public Safety suspension of his driver's license. Supreme Court ruled in a Midland County case.

A divorced mother temporarily committed to a mental hospital does not necessarily lose custody of her minor children, to the father, on her release. So says high court in an Austin case.

Later two verdicts both reversed lower court findings.

**AMENDMENTS DRAWN**

On November 11, Texans will vote on six proposed constitutional amendments placed on the ballot in this order:

No. 1 — Allowing counties to put all tax money in a single general fund.

No. 2 — Permitting cities and other governmental units within hospital districts to levy taxes for participation in mental health and mental retardation community centers.

No. 3 — Reviving the veterans' land program and authorizing \$400,000,000 in bonds.

No. 4 — Authorizing counties to pay medical, doctor and hospital bills for law enforcement officers injured in line of duty.

No. 5 — Providing for a \$75,000,000 state parks revenue bond issue.

No. 6 — Allowing state officers and employees to hold non-exclusive positions where there is no conflict of interest or where the state might benefit.

**APPOINTMENTS**

Three Texas fliers were named by Gov. John Connally to the State Aeronautics Commission: Hugh A. Fitzsimons Jr. of Carrizo Springs, William N. Allan of San Antonio and Rex Cauble of Denton.

Other appointments include: Texas State Board of Public Accountancy: L. William Long, Brownsville; Bernard Longbotham, Snyder; L. Ludwell Jones, Houston; and Lloyd Weaver, Fort Worth.

Southern Regional Education Board: Dr. John A. Guinn of Denton.

Upper Neches River Municipal Water Authority: Lester Hamilton of Palestine.

Fannin State Park Advisory Commission: Mrs. Hatty Swickneimer of Goliad.

Runnels County Water Authority: John Bradley, Ballinger; A. L. Mitchell, Winters; and Eugene Kasberg, Miles.

Lt. Gov. Preston Smith named to the Texas Legislative Council Sens. Jack Hightower of Vernon, Barbara Jordan of Houston, David Ratliff of Stamford, Murray Watson Jr. of Waco and J. P. Word of Meridan.

Smith appointed to the Legislative Budget Board Senators

**OPEN MEETINGS MANDATORY BY GOVERNMENTAL BODIES**

Gov. John Connally, on May 22, signed into law an "Open Meetings" bill which he proclaimed as "a great step forward for the people of Texas."

He was referring to Senate Bill 94 sponsored by Sen. Chet Brooks of Pasadena. Similar legislation was introduced in the House by Rep. Bill Rapp of Raymondville.

Passage of the "Open Meetings" legislation at the 1967 session culminated a drive that began some 20 years ago. It was engineered by legislators and the press to insure a better flow of information to the public.

At the bill signing ceremony, Governor Connally made this statement regarding the importance of the legislation: "Senate Bill 94, commonly known as the open meetings bill, provides basically that all meetings of boards, agencies and commissions shall be open meetings, open to the press. This is something that the working press in the capitol and the press throughout the state have been interested in for a long, long time. I think it's an historic and significant bill and a significant day."

"Certainly there's never been any desire, as far as I know, on the part of anyone who serves on a board or an agency or commission to transact its business under the cloak of

secrecy. But, nevertheless, the meetings have, from time to time, been closed."

Connally added: "This bill will now end that and provide that all the meetings shall be open to the press. It's a great step forward in trying to provide a means where the public can be more informed with respect to governmental affairs and public affairs."

"Beyond any question, one of the weaknesses of a democratic society is that it's always difficult to try to articulate and to inform the public of the problems that surround the administration of government. I personally feel that if the public is informed, if it has the knowledge, people themselves will always make the right decisions. And this is going to be a step in providing the means where people can be better informed on the workings of their government."

Governor Connally further stated: "This is particularly important because the affairs of this state are run by the various agencies, boards and commissions. People generally do not quite understand the significance of these various boards, agencies and commissions and the work that they do and the decisions they make. It is really the heart and the essence of government in Texas."

Tom Creighton of Mineral Wells and Bruce Reagan of Corpus Christi.

House Speaker Ben Barnes re-appointed Representative Maurice Pipkin of Brownsville an dGus Mutscher of Brenham to the budget-writing board.

**OIL ALLOWABLE RAISED**

Texas oil allowable has been raised to 42.9 per cent of potential in the wake of the Middle East Oil emergency.

At the same time, Texas Railroad Commission asked federal assurances that big oil producing states won't be left holding the bag of surplus inventories as they were in the 1957 Suez Canal crisis.

July allowable will be 3,412,042 barrels per day or 399,861 above the current level. Production figure in January, 1957, was 51.6 per cent of potential.

**WATER**

Texas Water Rights Commission is studying the City of San Antonio's application for a permit to build a new lake to store 63,200 acre feet of water on Calaveras Creek.

Reservoir will contain a blend of run-off from the Calaveras watershed and sewage effluent to be pumped out of the San Antonio River into the lake. Water would be used to cool a new electric generating plant slated to go into operation in 1972.

**EDUCATION**

About 400 experts, Texans and otherwise, are at work on 80 studies that will help piece together a master plan for education beyond high school in Texas.

Plan will be laid out in preliminary form next summer for a series of public hearings before finally adopted by the 18-member Coordinating Board of the Texas College and University system. Plan will chart the road ahead to 1985 for the public system of higher education.

**SHORT SNORTS**

Fear of scabies infections has resulted in massive visual in-

spection of cattle in the Panhandle and clearance of herds by the Texas Animal Health Commission and the U. S. Department of Agriculture.

Armed with a \$225,000 Federal grant, the State Health Department is promoting a statewide immunization program — primarily directed at preschoolers — against polio, measles, diphtheria, whooping cough and tetanus.

A second conference to assist local officials on the Gulf Coast in their hurricane preparedness planning has been scheduled by the Department of Public Safety for July 13 in Galveston.

A public hearing on rules changes in the State's grant-in-aid program relative to Mental Health-Mental Retardation is set for 9 a. m., July 18, in the House of Representatives.

Texas, total retail sales of \$1,553,000,000 in May were 10 per cent above the total for April and seven per cent above the May total a year ago, reports UT's Bureau of Business Research.

Texas Highway Commission has approved the 10 mile, \$6,000,000, Interstate 10 project in Kimble County.

Col. Morris S. Schwartz, State Selective Service Director, says Texas' draft boards will be called on to provide 1,521 men for induction in August, an increase of 547 over the July quota.

**Wedding Bells**

Marriage licenses were issued by County-District Clerk Walter A. "Toby" Bryant during the month of June to the following:

- William Jolly MacKeen and Carolyn Louise Moore
- Ronnie Earl Cline and Ladora Kathrene Dellis
- Jerry Wayne Brown and Alice Faylene Isham
- Otis Larry Karnes and Sandra Elaine Head.

By MRS. DUTCH SMITH

Well we got that million dollar rain, 2 and two tenths inches. Did we ever need it and we sure could use some more. We have been so fortunate not to get hail like they have in some places.

We visited our children, the Chili Smiths in Tulsa. Our children in Burnet called us on Friday and asked us to go with them and we did. We really did enjoy it. We went Friday and came back Sunday.

We attended the ball game where our grandson, John played and Robert, he played as hard at the game as he did showing his calf in Houston. We really enjoyed seeing him play.

He and Carolyn Ann had won one second place on their demonstrations, in Lubbock, and John had enrolled in cooking school.

He had asked his mother about it and she told him if that was what he wanted. She never dreamed he would be accepted, but he was. So we will see how he comes out.

Mr. and Mrs. Robert Jordan of College Station visited his mother and father, Mr. and Mrs. P. R. Jordan and his sister, Flossie. We can't keep up with that Flossie, she sure does get around. We visited in the Jordan home Monday night as we did not have choir practice.

Dutch and I visited in the Carl Brown home yesterday afternoon. Dutch had bought Cliff a couple of ewe, and we carried them to him. Cliff sure has those Granddads going. Dutch does the buying and also the shearing and Carl furnishes the feed and pasturing for them. He is really making money.

We visited Mrs. Ella Wick in the hospital, before church services Sunday. She was doing very well. We also visited another good friend, Scott Thompson. He was doing fairly well.

I was invited to a luncheon at the Lake last Monday morning. Mrs. Mack Horton's sister, Mildred, who was reared in Midland County. We sure did enjoy Mrs. Horton invited the friends of Mildred's. We had such a good time and hope Mildred will come back soon.

I attended our Sunday School class meeting Tuesday at church.

Oh! Yes, you members of Class get ready for an old ice cream supper July 27th at the Youth Center. We will see you every one in Sunday School. Our class is dragging so on girls to Sunday School help us out. See you in Sunday School. How about it?

## Senator J. P. Word Is Appointed To Texas Legislative Council

Lieutenant Governor Preston Smith today announced the appointment of Senator J. P. Word of Meridian to the Texas Legislative Council. Word will be serving his second term on the Council, and during the past interim he was chairman of the Council's study committee on county government.

The Legislative Council is a permanent legislative service agency with a full-time professional staff, which conducts studies requested by legislative resolution, provides bill-drafting services during sessions, and is also charged with the statutory revision function. Members of the Council, who determine policy and direct the work of this important agency, are appointed after the adjournment of each regular session by the presiding officers of the two Houses, who also serve on the Council, with the Lieutenant Governor as chairman and the Speaker of the House of Representatives as vice chairman.

Word began his first term in the Senate in 1963 with the 58th Legislature. He is chairman of the Senate's standing committee on Legislative, Congressional and Judicial Districts, and is also a member of the following committees: Banking;

Contingent Expense; Counties, Cities and Towns; Finance; Game and Fish; Insurance; Privileges and Elections; Public Health; State Affairs; and Water and Conservation.

### LAND GIFT TO UNIVERSITY

The University of Houston has been authorized by the Texas Legislature to accept a gift of 50 acres of land to be used as the site of the university's Clear Lake City Center. Friendswood Development Company, a subsidiary of Humble Oil & Refining Company, will donate the land, which is near NASA's Manned Spacecraft Center southeast of Houston. John B. Turner, left, president of Friendswood, and Dr. Philip G. Hoffman, president of the university, examine the site on a photographic map. The University of Houston plans to construct a \$3 million building on the property in 1969 to serve personnel of NASA and aerospace firms, as well as other residents of the area.

## County Business Pattern Records SS Taxable Wages Paid By Firms

About 390 workers in Mills County's nonfarming businesses earned taxable wages under the old-age, survivors, and disability insurance program, according to the latest edition of "County Business Patterns," according to R. R. Tuley, Jr., Social Security District Manager at Abilene.

Eighty-seven reporting units of employers of nonfarm employees covered under the program paid out some \$233,000 in taxable wages in the county during the first quarter of 1965. The largest proportion of employment, 146 workers, was in retail trade.

The current edition is the 12th in a series showing county and industry statistics based on wage reports filed under the Federal social security program. The data are uniform and comparable from State to State and County to County and are shown for many kinds of business under the following broad industry groups: agricultural services, forestry, and fisheries; mining; contract construction; manufacturing; transportation and other public utilities; wholesale trade; retail trade; finance, insurance and real estate; and services. The publication shows the number and location of workers, the industries in which they are employed, and how much they are paid in taxable earnings. The publication furnishes businessmen with data to evaluate private demand for both industrial and consumer products, is valuable in analyzing market potentials and establishing advertising and sales programs, in an-

alyzing the industrial structure of regional areas, and in making base economic studies of small areas.

Reference copies of "County Business Patterns" may be examined at district and branch offices of the Social Security Administration, and at many public libraries. The complete set of 53 books (1 for the U. S. as a whole, 1 for each State, D. C., and Puerto Rico) of "County Business Patterns, 1965," costs \$36.30. The book for Texas sells for \$1.50. Orders should be sent to The Superintendent of Documents, Government Printing Office, Washington, D. C. 20025.

### E & H Savings Bonds At All-Time High

Sales of Series E and H United States Savings Bonds are at an all-time high, according to Mr. W. P. Duren, Chairman of the Mills County Savings Bonds Committee. Savings Bond sales during the month of May in Mills County totaled \$821. For the first five months of 1967 sales in this county amounted to \$31,994 which is 36 per cent of the yearly goal of \$90,000.

Total purchases of Series E and H Bonds in Texas for the month of May totaled \$14,036,665 — a 9.7 per cent increase over May of 1966.

Nationally, during May new purchases of E and H Savings Bonds amounted to \$438 million — a 22 year peak — and an increase over May 1966 of 6 per cent.

## Medicare Beneficiaries May Obtain Record Keeping Information Kits

Medicare beneficiaries who signed up for medical insurance protection can now obtain an information kit to help them keep a record of their doctor bills so they will know when they reach their yearly \$50 deductible, Glen McNatt, Brownwood, Social Security Manager, announced.

The kit includes a record-keeping folder and two leaflets which explain the two methods of payment for medical insurance claims, and what medical expenses count for the \$50 deductible. The folder has pockets on the inside for holding doctor bills and space to write in the date and amount of each bill so that the beneficiary will know immediately when he reaches the \$50 each year. After that, the medical insurance plan pays 80 per cent of the reasonable charges for covered expenses for the remainder of the year.

McNatt said that all new medicare beneficiaries will receive the kit when they sign up for medical insurance. Those who already have medical insurance coverage should write, telephone, or visit the social security office to obtain this free

kit. The office is at 315 North Center, Brownwood, telephone 643-4333.

Also, people who need help in completing a medical insurance claim are asked to get in touch with the social security office. "We know that these claims — especially the first claim — can be confusing to people," said McNatt, "and we will be glad to help in every way possible."

### Jerry Lackey Named Field Editor For Cattleman Magazine

Jerry Lackey of San Angelo has accepted the position of field editor on The Cattleman magazine staff, headquartered in Fort Worth. Lackey was formerly associate editor of the Sheep and Goat Raiser Magazine, (official publication of the Sheep and Goat Raisers' Association) for three years. He now calls Fort Worth home.

Lackey has both newspaper and magazine experience, having worked for the Junction Eagle before graduating from Junction High School. He attended Angelo State College two years before joining the staff of the Kerrville Daily Times, and was with the West Texas Livestock Weekly before joining the Sheep and Goat Raiser. He has worked on the staff of the San Angelo Standard-Times at various times during the last four years.

Lackey is the son of Junction ranchman Stanley F. Lackey.

**Yarborough's**  
Goldthwaite, Texas

Plans for some of the brilliant pavilions at the Texas World's Fair in San Antonio in 1968 are going from drawing boards to contractors. Three of those scheduled for construction starts in the near future are the United State Confluence Theater (lower), the Southwestern Bell Telephone Company (exhibiting with American Telephone and Telegraph and Western Electric) at the upper left, and the Pearl Brewing Company pavilion at the upper right. Bell's exhibit will trace the history of communications, while Pearl will capture the Gay 90's atmosphere in its entertainment and decor.
