Effects Of Living

In St. Matthew, chapter 24, our Lord Jesus Christ tells about the great tribulation. He says: "And woe unto them that are with child and to them that give suck in those days!"

Also there is to be a flight for some who are genuinely born again Christians. Weather has something to do with it. He says: "But pray ye that your flight be not in the winter, neither on the sabbath day."

YEARS AGO when the physician fought to bring a patient through a siege of pneumonia there was little he could do but help conserve the patient's strength, make him comfortable . . . and hope for the best.

In fact, the doctor sadly signed death certificates for 33 out of every 100 pneumonia patients he treated. For those who survived, recove was slow and expenses were high. The cost of an average case was about \$1,000, including three or four weeks' time lost away from work.

Happily, this grim picture has changed. Under the onslaught of sulfa drugs . . . and now the antibiotics . . . pneumonia has steadily lost ground. Now, uncomplicated cases clear up in four to five days. And instead of losing 33 out of every 100 cases, the doctor saves all but a

Just as striking as the cut in deaths and disability is the cut in the cost of curing pneumonia. More and more patients can now be cared for at home. As a result, the average case of pneumonia may cost no more than \$100 : : . including loss of income, the doctor's visits and the "expensive" new medicines!

Today, more than ever before, an investment in prompt and proper medical care may well represent one of the biggest bargains of your life. -Reprinted from a copyrighted advertisement published by Parke, Davis & Company, Detroit 32, Michigan:

What happens when the grass turns brown?...

With the addition of some minerals, most green grasses are just about as good for beef cows as any ration you can find. But when the grass turns brown, its nutritional value drops. And in order for cows to maintain their bodies and produce healthy calves, they need a protein-packed supplement.

They need Purina Range Checkers.

Why? Because Range Checkers contain high quality protein sources-cottonseed meal, soybean oil meal and linseed oil meal . . . plus many minerals, vitamins (especially vitamin A) and tasty sugar molasses.

Before winter rolls in this year, stop in and see us. We'll help you plan your winter feeding program-with Purina Range Checkers.

I wish to announce that I have taken over operation of the Campbell Gas Company, in Goldthwaite, under a lease-purchase agreement with Howard B. Campbell.

This change in business operation was effective as of March 1, 1968.

In taking over this business I want to say to our many friends and customers that I have enjoyed serving each one during the past number of years and now solicit the continued good will and patronage as we start in business of our own.

It has been a pleasure serving the good customers in the Mills County trade area and it will be a double pleasure to continue to take care of your needs in the

The business will continue to be operated under the same name in the same location and with the same employees as in the past.

We just want you to know that we look forward to serving your needs in the Butane and Propane line and also in equipment, supplies and appliances as we expand that part of the business in the future.

We will appreciate it if you will call us when we can be of service and we will do our utmost to merit your confidence and good will.

Center City Cemetery Fund

Is Still Insufficient

The goal for last year was not reached in time to the 5% interest rate. We reached the \$2,000 level in fint invest in a certificate of deposit with Mills County St Bank to earn 434% annually. This will net \$95.96.

In addition to the above certificate of deposit the etery committee has a small amount of funds contrib since April 1, last year. This is on deposit in a saving count at 4% interest.

An agreement was made with a local resident for care of the cemetery for one year, for the sum of \$ \$50 was contributed to this expense by two interested in

The fund is in need for further contributions to st port this cause in order that the expense of care my substantiated from the earned interest of this perpen

The projected goal for a minimum working agreement is estimated to be about \$125 per year, plus growing felic expense unforseen.

The committee encourages letters of inquiry or pe sonal visits or contacts in the interest of this cause.

Suggestions to improve upon this plan are welcome

As we stated before, we appreciate your support in past and will certainly be grateful for your contribution this perpetual care fund.
