tion edition, Mr. Koleber. It contains some 22 conservation Phone 938-2370, Billy Hale. This is a real good conservanews stories and 34 soil and water conservation ads. The ads were especially good as was the over-all make-up of the edition. And we couldn't help but notice that you devoted a liberal amount of front-page space to conservation.

We in the Soil Conservation Service appreciate the help and support of newspapermen such as you. Part of the success of the conservation movement there in the Brown-Mills Soil and Water Conservation District is due to your help in publicizing the need for, and benefits of, conservation. For this, we are truly thankful.

Please express our gratitude to your staff and anyone else who helped publish this excellent conservation edition

I send best regards and Sincerely,
