ACCENT AND COLOR

Use annuals in your garden for Accent and Color. There is nothing like a good selection of annual flowers to add beauty to your yard, accent to a landscape, or to provide a blaze of color to the neighborhood from late spring through the fall. For greater emphasis, use one type and color of annual in each planting area.

Annuals may be in beds along the foundation of the home, within areas that complement the house, or in planters and planter boxes. Try planting a flower border in front of shrubs, a wall, a fence, or house foundation in order to provide a dark or contrasting background to obtain maximum effectiveness.

Are you going to go through another year thinking you can't afford an Oldsmobile?

Our own surveys indicate that quite a few people think an Oldsmobile is out of their reach. They think it costs a lot more than it really does. Result? Many people buy an ordinary car and end up with a lot less car and value for their money. It's so unnecessary, too, because Oldsmobile has many models that are priced right down with the so-called low-priced cars. So why settle for the ordinary when you can step up to an Olds and all the value

that an Olds represents. Take this big, exciting Delta 88, for example. It starts out with a surprisingly modest price. Add to this the features that make it such an outstanding value—extras that are included in the modest price: Regular-gas Rocket V-8 Power Steering Power Brakes, front discs Nylon-loop carpeting Bias-Belted Tires Door Side-Guard Beams Hidden Radio Antenna Flo-Thru Ventilation Bigger, better riding 124" wheelbase. Community News From Mullin

By MRS. JOHNNIE HOLLAND

Here I am back again. I had a perfect weekend. Gayla, Jim, Randy and Brad of Leander visited with me, and Sunday afternoon I ran up to De Leon to see how my mother was. I found her much improved. I just hope she can stay that way. Several of my brothers and sisters were there, and that helped out too. My mother has received some nice cards from people around here. She was grateful for them, and so was I. They are a good tonic for people in the hospital—one of the best.

Mr. and Mrs. Tillman Smith, their daughter and husband of Olney were here last Friday for the sheep sales. They also visited with Mrs. Fred Mosier while here.

Mrs. Hazel Cobb passed away late Monday afternoon, March 16, in the Goldthwaite hospital. Mr. and Mrs. Glynn Calder and Darlene spent the weekend in Mullin. They are living in McCamey now. Glynn said their next move will probably be to San Angelo. They are drifting back this way with each move. Maybe they will soon be back with the old home family.

I had a nice letter from Mrs. Ralph Hull (Nell Vann) of Wolfe City recently. She expressed her appreciation to me for having visited with her mother; also for writing the Mullin News letter. I appreciate kind words now and then. It

gives me a lift. Mrs. Vesta McCormick is home again after having spent the winter months in Kermit, Big Spring, Dallas and Fort Worth with relatives. She is my very close neighbor, and it is good to see her lights burning in her home at night again.

Mrs. Ruth Tullos is home now after having spent several days in the hospital in Goldthwaite. She is glad to be home again.

Mrs. Richard Phillips and Ken of Houston visited here last week with her parents, Mr. and Mrs. G. H. Locke; also with Mr. and Mrs. Elbert Phillips.

Mr. and Mrs. Dale Mosier, also her mother, spent a night here last week with his mother, Mrs. Fred Mosier. They were on their way to Oklahoma.

Mr. and Mrs. Elbert Phillips visited last Sunday in Dallas with their son Riley and family.

Mrs. Fred Mosier and Miss Artie Mosier visited last Sunday afternoon at Blanket with Mr. Milton Carlisle. They visited in the Bill Reed home also.

Mrs. Lindsey Kittle has returned home after spending the winter months in Kermit with her daughter, Betty and family. We all missed you Parkay.

Recent visitors with Mrs. W. H. Baskin were Mr. and Mrs. S. J. Casey and Mrs. Joe F. Ivy and Mrs. Florence Masters, all of Dallas; also Mrs. Charlie Day, Mrs. Jack Brooks, and Miss Julia Dukes, all of Brownwood. They all visited at the Hickman Nursing Home in Goldthwaite with Mrs. L. J. Vann too.

Mr. and Mrs. Wilford Spinks of Lometa were recent visitors here with his parents, Mr. and Mrs. Frank Spinks. Wilford and wife have recently moved to Austin from Lometa. They have moved to a fast-growing place. Austin has really grown the past three years. Gayla, has just recently started working in the

Dist. Home Demonstration Agent Thelma Casey Retires January 31

College Station, (Spl.)—After more than 40 years of work with the Texas Agricultural Extension Service, District Home Demonstration Agent Thelma Casey filed her last report January 31. She has retired.

Dr. John E. Hutchison, director of the Extension Service, praised Miss Casey's qualities as a teacher and her ability to motivate and inspire others to do outstanding work.

"Miss Casey has been dedicated and highly effective in each position she has held with the Extension Service," he said.

As district 7 home demonstration agent since 1944, Miss Casey supervised county home demonstration agents in Sterling, Coke, Runnels, Coleman, Irion, Tom Green, Concho, McCulloch, San Saba, Schleicher, Menard, Mason, Llano, Kimble, Gillespie, Blanco, Kerr, Kendall, Real and Bandera counties.

The daughter of Mrs. S. M. Casey, San Angelo, has logged close to 17,000 miles a year during her work.

A native of Guyman, Oklahoma, Miss Casey attended high school at Mullin and Ball in Galveston. She was graduated from Southwest Texas State College, San Marcos, in home economics and did graduate work at the University of Denver and the University of North Carolina.

Then Miss Casey became district agent with her office first at Texas A&M, then the Tom Green County Courthouse to Angelo State College and back to the courthouse.

She plans to stay in San Angelo.

office for a new Texas Instruments plant that has just been constructed out of Austin a short distance. It is on the highway coming to Goldthwaite so it is quite handy for her.

The members of the Methodist Church met at the home of Mr. and Mrs. Dusty Durst recently and gave them a surprise shower. A short program was held and refreshments were served. They received a number of nice and useful gifts. If anyone deserved to be cheered up, Leta and Dusty do. They have been caring for her parents in their home for a number of years now. Both of them are bedfast and have been for a long time. Leta and Dusty are certainly to be commended for what they are doing.

Mrs. Bill Kuykendall and Mrs. Emmitt Kuykendall of San Saba and Mrs. Dovie Mallard of Austin spent last Monday in the J. L. Hillman home.

On Saba Peak

By MRS. DUTCH SMITH

My my have really had a hard time and everything looks so bleak. We had over three inches of rain. Yesterday was a spring day and today is a winter day. Our fruit trees are blooming. I hope they don't get killed. We had some fruit for the next few days.

Mr. J. B. Barfield visited us last night. Dutch and I visited with my niece and family whose mother passed away, three weeks ago.

Mr. and Mrs. J. B. Barfield, sister, Mrs. Bud Conradt, Bud visited us one day last week. We really did enjoy their visit. We hope they will try to visit soon.

Our son, Chili Smith of Tulla, visited Monday night with us. He was on his way from the Houston Stock Show. He wanted to see some calves in Mills County.

Mrs. Nell Norman, Mrs. George Weddell's mother, is in nursing home. I visited her, Mrs. Tullos and Mrs. Summy and several others yesterday evening. I always leave feeling ashamed of myself for not visiting them more often. They give me such inspirations to me and I really love elderly people.

We were so sorry to hear that Ernest Kauchs had passed away. We have known the Kauchs for so long.

We went to a Singing at the Village Home Thursday night. For the Singing we attended the school open house. We really enjoyed it.

Of course I was really thrilled to hear the teachers brag on my child. That is a good way to keep us coming back. Ha! No kidding, it was really nice.

Well, this is all the time I have.

"O.K. God, so strike me dead."

That's the famous dare of the one who says he's an atheist. And if he's not immediately floored by a lightning bolt, he usually sneers, "See? So what is all this God baloney?" All of which proves that he doesn't know very much about talking to God. Indeed, even people of faith sometimes feel unhappy when their "prayers aren't answered." Which means that they've forgotten that God always answers our prayers. And sometimes, the answer is No. That's a good thing to remember in these times that often seem almost too difficult to bear. When it seems like God's gone away permanently, God is not dead. And, moreover, His sense of hearing is very acute, So why not start talking to Him again? He's a good listener.

As It Looks From Here

OMAR BURLESON, M. C.
17th District, Texas

WASHINGTON, D. C. — "The President, Vice President and all civil officers of the United States, shall be removed from office on impeachment for, and conviction of, treason, bribery, or other high crimes and misdemeanors." This is Section 4, Article II of The Constitution.

There has been much discussion over the years as to what constitutes impeachable offenses. For many years the theory was maintained that indictable offense only were impeachable. This theory has been stoutly defended and stoutly denied. Only once case appears to exist for impeachment on an offense not subject to indictment.

Mostly we think of treason, bribery or, for that matter, any crime, as being clearly a matter of black and white. In any criminal trial in our courts, intent often determines convictions, acquittal or mitigation. Intent and motive is at the heart of solving crime as well as prosecution. The courts have held that to convict one charged with advocating the overthrow of our Government, an overt act must be proved. In other words, action must be connected with statement of the accused.

Justice of the Supreme Court, William O. Douglas, has recently written a 97-page booklet entitled "Points of Rebellion." It is a tirade against the "American establishment" — the Pentagon, the CIA, Police, employers and educators. One of the strongest sentences is that "vi-

olence may be the only effective response of outraged youth."

Justice Douglas compares today's establishment with King George III of England. "George III was the symbol against which our founders made a revolution, now considered bright and glorious," Justice Douglas wrote. The Justice says in his book, "We must realize that today's establishment is the new George III. Whether it will continue to adhere to its tactics we do not know. If it does, the redress honored in tradition is also revolution."

Throughout his treatise, Mr. Douglas offers a justification for violence. In an appraisal of his writings, he acknowledges that riot has no constitutional sanctions but says that "injustices may pile so high that violence is the only answer."

In other passages, the Supreme Court Justice advises American protesters to risk arrest because the police have no right to interfere with their freedom. (Can you imagine this?)

Mr. Douglas excoriates the military, FBI snooping and other law enforcement agencies to get at lawlessness and writes an indictment of our society in general. To this criticism alone, he is entitled to his personal opinion.

It is quite a horse of a dif-

ferent color when he attempts justification of violence and revolution directed at influencing the overthrow of the Government of the United States of which he is a part. Reading his words there seems to be no distinguishable difference between "the system," "the establishment" and established order under law.

Justice Douglas writes that he hopes the revolution he is talking about will not be like the one of 1776. The revolution that is coming, he says, will arise from "the search of youth for ways and means of making the machine . . . the servant of man." Just exactly what this means is a little difficult to interpret.

The interpretation is less vague when he encourages violence and says that it bothers him that the establishment may not be wise enough not to use

"its stockpile of arms" to suppress the dissenters, for he thinks that will bring on an awful ordeal.

Data is being collected in certain efforts to determine if impeachment proceedings will stand up against Justice Douglas. Included in the collection of evidence is Mr. Douglas' past association with a private foundation alleged to be tied to racketeers.

"Points of Rebellion" is being added to a Bill of Particulars against Justice Douglas. At least

he should resign from the Supreme Court, which he has also hate even in its recent years of applying the extreme liberal philosophy. Apparently the Justice has prejudged cases which could possibly come before him of a nature involving revolutionary activities.

Dear Mr. Allen:

We join the Secretary of the Department of Commerce, the Administrator of Environmental Science Services Administration, and the Director of the Weather Bureau in congratulating you upon completion of 35 years as a Cooperative Weather Observer.

This is an outstanding record of public service. The results of your efforts are used every day by many organizations and individuals in governmental activities as well as in private enterprise. Without the whole-

hearted support of persons like yourself, this valuable information could not be made available.

San Saba Peak

By MRS. DUTCH SMITH

Well we have had some funny weather and rain. Wednesday night when I came out of prayer meeting my car top was covered in snow. Tuesday was real cold and then the snow came.

It didn't snow down as far as our house and I was really glad. I don't like snow or cold weather. I wish I could afford to go south with the geese but I could not do that.

We were really surprised yesterday when we got back from church and our children, the Forrest Jernigans, were here and Jesse Ball, Jimmy and Melody. We were just finishing lunch when Dutch's cousins, Mr. and Mrs. Clifton Hard came. We enjoyed all of them very much.

That was the first time Clifton and Henryetta had been to see us in some time. Mr. and Mrs. Jimmy Laughlin and Tim and Lee visited Mr. and Mrs. Fred Laughlin. Also Mr. and Mrs. Fred D. Marshall spent the weekend with Mrs. Marshall's parents, Mr. and Mrs. Fred Laughlin.

Well its plain cold today and its also mail time so bye for now.

LILY DAY FOR CRIPPLED CHILDREN — Defensive tackle Bob Lilly, who spends his football season with the Dallas Cowboys, heads up a different team this Easter Season.

For the 4th consecutive year, the famous lineman is chairman of Lily Day for Crippled Children.

Sponsored by the Easter Seal Society for Crippled Children and Adults of Texas, the event is conducted by Texas high school football players throughout the state.

In its own local area, each team offers Lily lapel pins for Easter Seal donations. Trophies, donated by the Dr. Pepper Bottlers of Texas, are awarded to the top team in each of five classifications.

Lilly has invited 700 Texas high school coaches to have their teams participate.

Last year over 3,200 Texas football boys took part in the Lily Day event to raise funds to help provide treatment and services to disabled children and adults of Texas. Funds will be used by the Easter Seal Society in Texas to provide services to the disabled in Texas. Lily Day has been planned for March 21, with March 28 selected as alternate date in case of poor weather on the 21st.

Goldthwaite Native Fred Soules Is Waco Area Engineer Of Year

W. Fred Soules, consulting engineer and city engineer for the cities of Woodway and Bellmead, was named Engineer of the Year by the Central Texas Chapter of the Texas Society of Professional Engineers recently in Waco.

He is a native of Goldthwaite. Soules was termed the "man with the idea" behind the Waco Regional Sewerage System. He was presented a plaque by Peyton (Pete) Pullen, who was the 1968 Engineer of the Year.

The presentation was made at the TSPE chapter's annual banquet marking National Engineers Week. Walter Wells, president of the chapter, presided and introduced the speaker, G. P. Herzik Jr., deputy commissioner for environmental health of the Texas Department of Health.

Introducing Soules as the top engineer for the year, he was lauded as the man who originated the idea of a centralized sewage collection and treatment system for the Waco metropolitan complex, after he saw problems developing in the area for several small cities. The system is now well on its way, plans have been almost completed and advertisement for bids is due to start next month.

He received his bachelor of science degree in civil engineering at Texas A&M University in 1954 after 3½ years as a Navy Seabee and working for several firms as an engineering technician. He is a Tau Beta Pi and Phi Kappa Phi.

Since 1954 Soules has practiced as a consulting engineer and also for the past several years has served as city engineer for a number of small cities, including Bellmead and Woodway. He has assisted a large number of Texas cities in planning and engineering many projects of benefit, such as the local regional sewage treatment system.

He is a member of the National Society of Professional Engineers, the TSPE and has served on the boards of State Plumbing Examiners, Cogdell Methodist Church and is a Mason.

Soules and his wife live at 2107 La Porte. Their son, Dallas Soules, is in the Air Force in California.
